PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals, mental institutions and tuberculosis sanatoria operating in Canada is prepared by the Hospitals Section of the Health Division of Statistics Canada. A series of one quarterly and seven annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The reader's attention is drawn to the fact that, beginning with the reporting year 1973, Volume I, II and III have been condensed and combined into one volume – Volume I – Hospital Statistics: Beds, Services and Personnel, Catalogue 83-227. In a similar manner, Volume IV, V and VI have become Volume II – Hospital Statistics: Expenditures, Revenues and Balance Sheets, Catalogue 83-228 and Volume VII – has become Volume III – Hospitals Statistics: Indicators, Catalogue 83-229. Data no longer published in these reports are still available on request, along with other non-published, but collected and tabulated data. Inquiries with respect to data of this nature or to data contained in this publication are invited and should be forwarded to the Hospitals Section of the Health Division of Statistics Canada.

PETER G. KIRKHAM,
Chief Statistician of Canada.

PRÉFACE

La Section des hôpitaux de la Division de la santé de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux et pour tuberculeux du Canada. Statistique Canada publie sept bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Nous attirons l'attention du lecteur sur le fait qu'à partir de 1973, les volumes I, II et III ont été condensés et fusionnés en un volume: Volume I – Statistique hospitalière: lits, services et personnel, n° 83-227 au catalogue. De même les volumes IV, V et VI deviennent: Volume II – Statistique hospitalière: dépenses, revenus et bilan, n° 83-228 au catalogue. Le volume VII devient: Volume III – Indicateurs, n° 83-229 au catalogue. Les données qui n'apparaissent plus dans nos publications sont tout de même recueillies et tabulées et sont disponibles sur demande. Pour tout renseignement sur les données inédites ou sur les données de ce bulletin, s'adresser à la Section des hôpitaux de la Division de la santé, Statistique Canada.

Le statisticien en chef du Canada.
PETER G. KIRKHAM.

SYMBOLS

The following standard symbols are used in Statistics Canada publications:

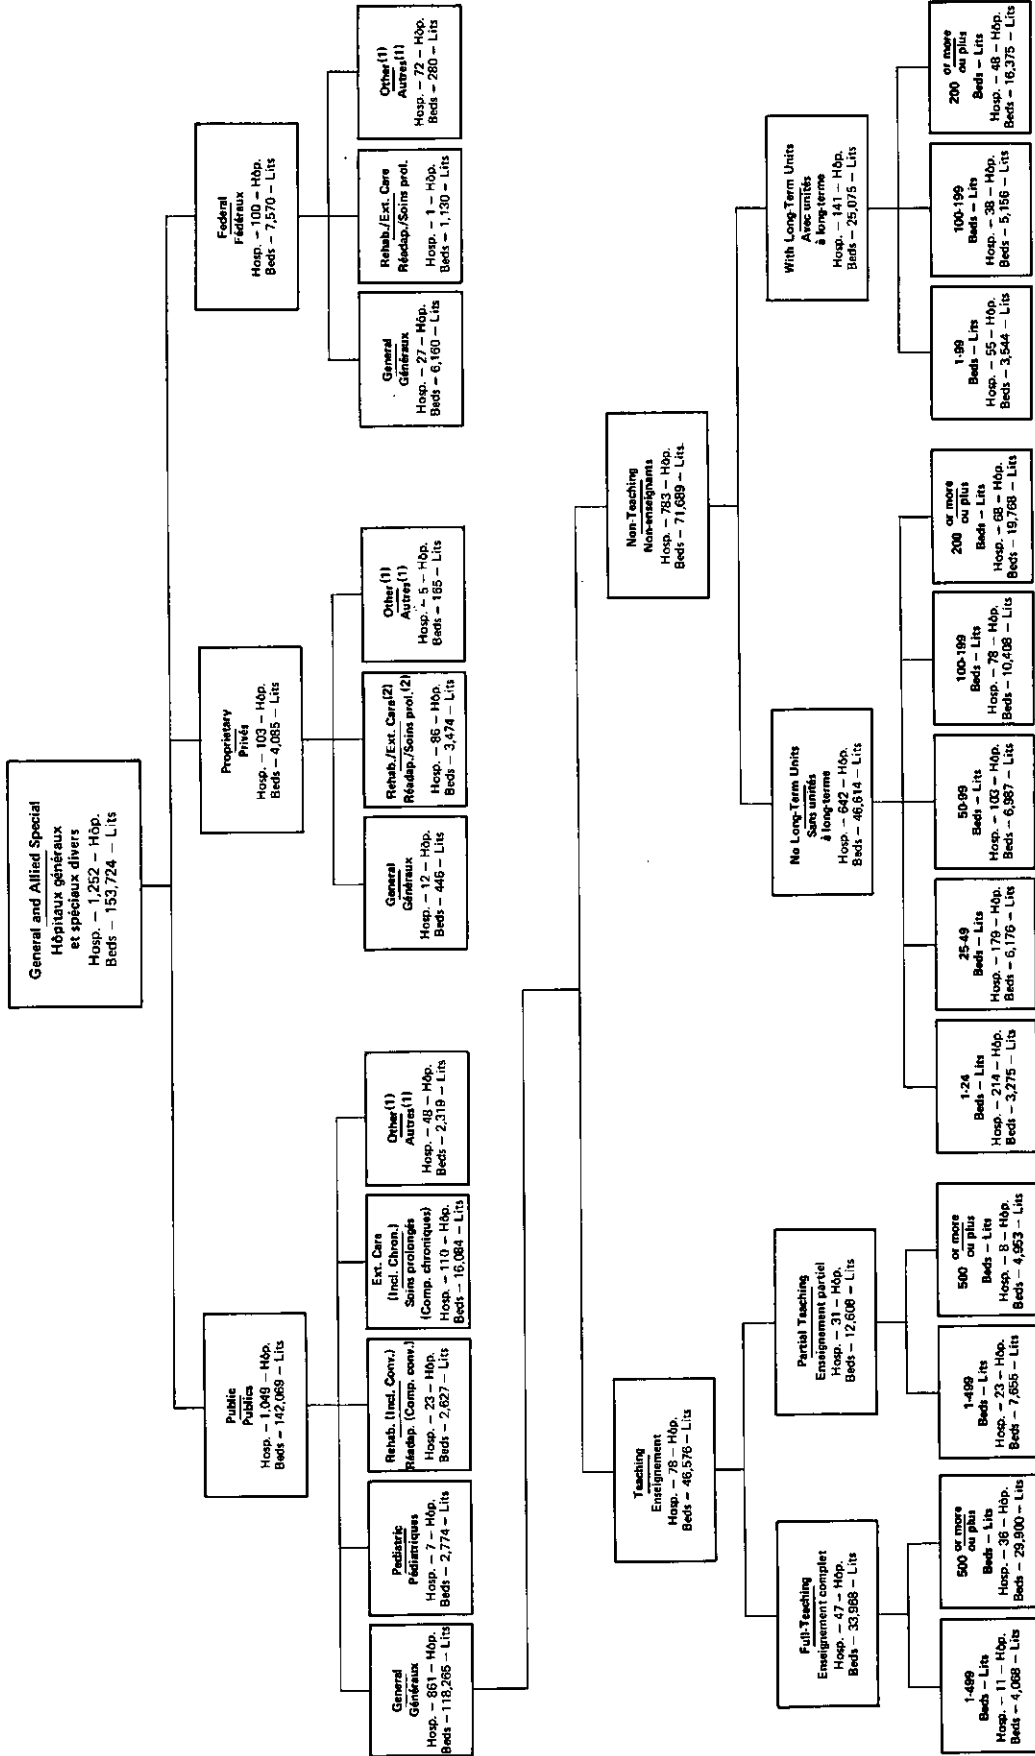

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- - amount too small to be expressed.
- P preliminary figures.
- † revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- P nombres provisoires.
- † nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

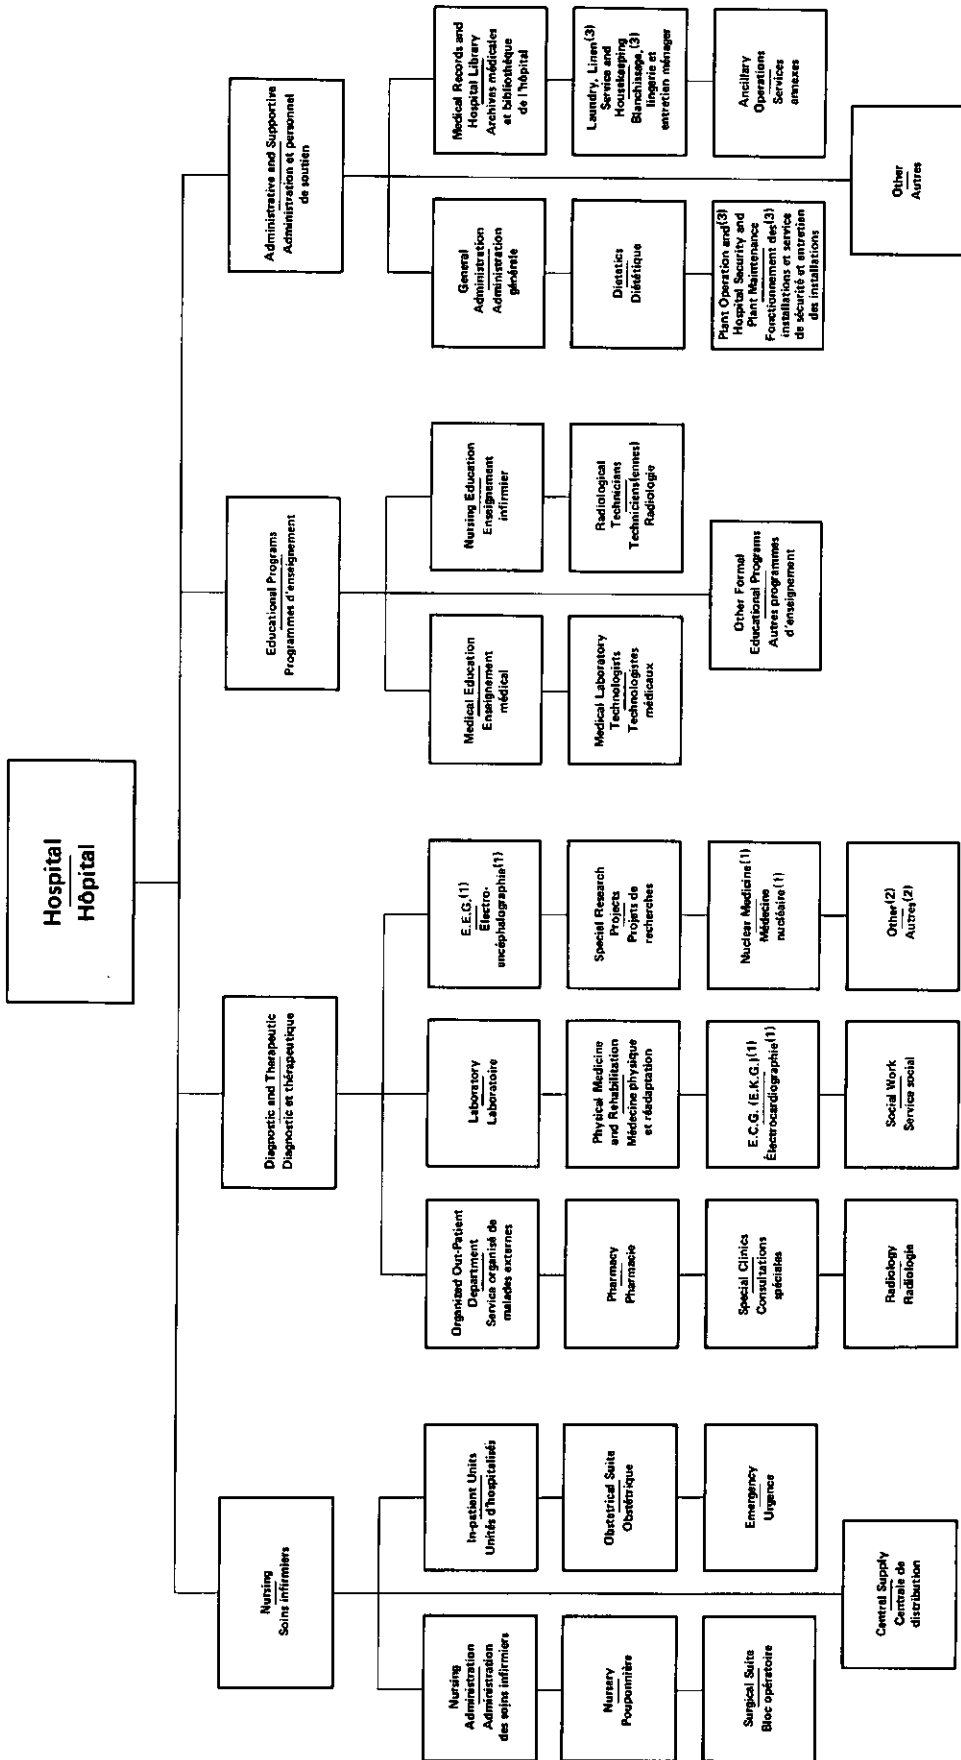

Hospital Classification Chart 1973 Graphique de la classification des hôpitaux 1973

(1) Other: Includes the following hospitals, Orthopaedic, Cancer, Cardiology, Maternity, Neurology, Institute of Psychiatry, Nursing Stations and Outpost.
 - Autres: comprend les hôpitaux d'orthopédie, cancer, cardiologie, maternité, neurologie, établissements psychiatriques, les postes de soins infirmiers, et les hôpitaux éloignés.
 (2) Includes nursing homes temporarily approved for chronic care. - Comprend les maisons de repos autorisées temporairement à dispenser des soins aux malades chroniques.

STATISTICAL ORGANIZATION CHART
ORGANIGRAMME STATISTIQUE

1973

(1) In some instances these services may be provided by laboratory, radiology or other departments. — En certains cas ces services peuvent être rendus par le laboratoire, la radiologie ou par autres services.
 (2) Includes ambulance service; out-patient, day or night care programs and respiratory therapy — Comprend le service d'ambulances, soins de jour ou de nuit aux malades externes, et inhalothérapie.
 (3) These are distinctly separate departments but have been combined for purposes of consistency with tabular presentations. — Ces services sont distinctement autonomes mais ont été combinés pour maintenir suite avec la section tabulaire.

EXPLANATORY NOTES AND GLOSSARY

Hospital

An institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. Specifically excluded are institutions primarily for tuberculosis, or psychiatric disorders.

Public Hospital

Public (including voluntary, provincial and municipal) – Applies to a hospital recognized by the province as a “public hospital”. Such a hospital generally is not operated for profit.

Type of Service

General

No long-term units – Refers to a hospital which provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries. The services of a general hospital are not restricted to a specific age group or sex.

With long-term units – Refers to a hospital with a group of beds or rooms or a separate wing or building which is recognized as a distinct and separate treatment unit of the hospital. Admission normally requires formal admission procedures even when transferred from another part of the hospital.

Full medical teaching hospital – Applies to a hospital which provides medical education programs, approved by the appropriate authorities, for the major (not only elective) clinical instruction in at least the medical disciplines of internal medicine and general surgery to undergraduate medical students in their final two years.

Partial medical teaching hospital – Applies to a hospital which provides post-graduate medical education programs, approved by the appropriate authorities, in at least one residency program in a medical specialty.

Allied Special Hospitals

Includes pediatric, rehabilitation, extended care, and “other” hospitals.

Pediatric hospital – A hospital which provides primarily for the diagnosis and short-term treatment of pediatric patients, generally 14 years of age and under.

NOTES EXPLICATIVES ET TERMINOLOGIE

Hôpital

Établissement donnant des soins médicaux, chirurgicaux ou obstétriques aux hospitalisés et détenant un permis ou une approbation du gouvernement fédéral ou provincial ou d'une municipalité autorisée à le faire par les lois d'une province. Ne comprend pas les établissements destinés avant tout au traitement de la tuberculose ou des troubles psychiatriques.

Hôpital public

Public (s'applique aux hôpitaux privés sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux) – Hôpital reconnu par la province comme “public”. Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Genre de service

Hôpital général

Sans unités de soins à long terme – S'applique à un hôpital qui se spécialise dans le diagnostic et le traitement à court terme d'un grand nombre de maladies et de traumatismes. Les services d'un hôpital général ne sont pas restreints à un groupe d'âge ou à un sexe particulier.

Avec unités de soins à long terme – S'applique à un hôpital comprenant un groupe de lits ou de chambres ou une aile ou un bâtiment séparé qui est considéré comme quartier de traitement distinct. Pour y être admis, il faut en général remplir les formalités de demande d'admission, même s'il s'agit d'un transfert d'un autre quartier de l'hôpital.

Hôpital d'enseignement médical complet – Hôpital qui offre des programmes d'enseignement médical, dûment approuvés par les autorités compétentes, pour la formation clinique des étudiants effectuant leurs deux dernières années d'études dans des disciplines majeures (non pas seulement facultatives), dont la médecine interne et la chirurgie générale.

Hôpital d'enseignement médical partiel – Hôpital qui offre des programmes réguliers d'enseignement médical, dûment approuvés par les autorités compétentes, aux diplômés en médecine dans au moins un programme de résidence d'une spécialité médicale.

Hôpitaux spéciaux divers

Ce groupe comprend les hôpitaux pédiatriques, de réadaptation, soins prolongés, et les “autres” hôpitaux.

Hôpital pédiatrique – Hôpital qui se spécialise dans le diagnostic et le traitement à court terme des maladies chez les enfants, âgés généralement de 14 ans ou moins.

Rehabilitation (including convalescent) – Applies to a hospital which provides primarily for the continuing assessment and treatment of patients whose condition is expected to improve significantly through the provision of physical medicine and other rehabilitative services.

Extended Care (including chronic) – Applies to a hospital which provides primarily for the continuing treatment of patients with long-term illness or with a low potential for recovery and who require regular medical assessment and continuing nursing care.

Other – A hospital which provides primarily for the treatment of a limited range of diseases or injuries, or which restricts admissions to a particular age group or sex. Examples of such specified categories may include orthopaedic, maternity, neurological, cancer hospitals. A hospital which provides a combination of various types of service and cannot be classified in any one of the foregoing categories is included in this group. "Other" also includes nursing stations and out-post hospitals.

Type of Unit

Short-term units – Adults and children – Are those in-patient units provided for patients who at the time of admission require extensive diagnostic and treatment services and/or skilled nursing care and comprehensive medical attention.

Long-term units – Adults and children – Are those in-patient units provided for patients who at the time of admission require regular medical assessment, treatment services and continuing nursing care.

Other – Refers to long-term units which do not clearly fall under the foregoing categories.

Subject Matter Terminology

Rated Bed (Bassinets) Capacity

The number of beds and cribs (bassinets) which the hospital is designed to accommodate on the basis of established standards of floor area per bed (bassinets) as at December 31 of the reporting year.

In-patient

A patient who is duly admitted to the hospital and to whom a bed, crib (bassinets) has been allocated (this excludes stillbirths as well as patients attending a day or night centre attached to the hospital).

Hôpital de réadaptation (convalescence comprise) – Hôpital qui assure principalement la surveillance et le traitement suivis des personnes dont l'état est censé s'améliorer à la suite de soins de médecine physique et de réadaptation.

Hôpital de soins prolongés (maladies chroniques comprises) – Hôpital qui dispense principalement des traitements suivis à des personnes affectées de maladies de longue durée ou de guérison lente et requérant des soins médicaux et infirmiers de façon continue.

Autres – Hôpital qui se spécialise dans le traitement d'un nombre restreint de maladies ou de traumatismes, ou qui n'admet que les malades d'un groupe d'âge ou d'un sexe particulier (par ex. orthopédie, maternité, neurologie, cancer). L'hôpital qui offre divers genres de services et qui ne peut être classé dans aucune des catégories susmentionnées est compris dans ce groupe. "Autres" comprend en outre les postes de soins infirmiers et les hôpitaux éloignés.

Genre d'unité

Unités de soins de courte durée – Adultes et enfants – Il s'agit des unités d'hospitalisation où sont traités les malades dont l'état, au moment de leur admission, requiert des services intensifs de diagnostic et de traitement et (ou) des soins infirmiers spécialisés et une surveillance médicale soutenue.

Unités de soins de longue durée – Adultes et enfants – S'applique aux unités d'hospitalisation où sont traités les malades dont l'état, au moment de leur admission, requiert des services réguliers de surveillance médicale et des traitements et des soins infirmiers de façon continue.

Autres – Lorsque les unités n'entrent pas dans les catégories ci-dessus.

Terminologie de matière

Capacité théorique en lits (berceaux)

Le nombre de lits et de berceaux que l'hôpital (par parquet établi) peut abriter au 31 décembre de l'année du rapport.

Hospitalisé

Un malade qui est réglementairement admis à l'hôpital et à qui un lit ou un berceau a été assigné. Cette définition ne comprend pas les mort-nés ni les malades admis à un centre de jour et de nuit.

Adults and children – All in-patients except newborn.

Newborn – An infant in-patient born alive in the hospital or postnatal newborn admitted with mother for obstetric care.

Patient-day

The period of service to an in-patient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

Out-patient

An out-patient is a patient who receives the services of the hospital, but who is not admitted as an in-patient. This category includes private out-patients as well as patients attending a day or night centre.

Statistical Measurements

First Quartile (Q1) – That value where 25% of the hospitals have a ratio of this amount or less and 75% have a higher ratio.

Second Quartile (Q2) – That value where 50% of the hospitals have a ratio of this amount or less and 50% have a higher ratio – commonly referred to as the median.

Third Quartile (Q3) – That value where 75% of the hospitals have a ratio of this amount or less and 25% have a higher ratio.

Notes:

1. Medians are not presented in the tables of this publication unless there are three or more hospitals reporting data for the indicators to which they relate. Similarly, there must be eight or more reporting hospitals for the inclusion of first and third quartile values. No such limitations apply to the calculation of the mean.
2. Indicator values for hospitals located in the Yukon and Northwest Territories, notably federal hospitals, do not appear as such in tabular presentations due to the constraints imposed by tabular planning requirements – these values, however, are implicit in the Canada total.
3. Radiologists' and pathologists' remuneration previously included in supplies and other expense is now included as salaries and wages – all medical staff remuneration.
4. Beginning in 1969, medical and surgical supplies and drugs are not distributed to individual departments but are reported in total only.

Adultes et enfants – Tous les hospitalisés, sauf les nouveau-nés.

Nouveau-né – Bébé né vivant à l'hôpital, ou nouveau-né admis après la naissance avec sa mère pour soins obstétriques.

Journée d'hospitalisation

Période de soins à un hospitalisé entre les heures de vérification du rôle de deux jours successifs; le jour d'admission compte comme une journée d'hospitalisation, mais non le jour de départ.

Malade externe

Le malade externe est celui qui, sans être hospitalisé, bénéficie des services d'un hôpital. Cette catégorie comprend les malades externes particuliers aussi bien que les malades qui fréquentent un centre de jour ou de nuit.

Mesures statistiques

Premier quartile (Q1) – Valeur où 25 % des hôpitaux ont une proportion de ce montant ou moins et 75 % ont une proportion plus élevée.

Deuxième quartile (Q2) – Valeur où 50 % des hôpitaux ont une proportion de ce montant ou moins et 50 % ont une proportion plus élevée; communément appelée médiane.

Troisième quartile (Q3) – Valeur où 75 % des hôpitaux ont une proportion de ce montant ou moins et 25 % ont une proportion plus élevée.

Remarques:

1. Les tableaux de ce bulletin ne contiennent pas les médianes, à moins que trois hôpitaux ou plus ne fournissent des données sur les indicateurs en question. De même, pour qu'ils comprennent les premiers et troisièmes quartiles, il faut que huit hôpitaux ou plus fournissent les données correspondantes. Le calcul de la moyenne ne fait toutefois pas l'objet de restrictions semblables.
2. Les indicateurs des hôpitaux situés au Yukon et dans les Territoires du Nord-Ouest, notamment ceux des hôpitaux fédéraux, n'apparaissent pas comme tels dans les tableaux à cause des exigences de la planification des tableaux; ces données sont toutefois comprises dans le total pour le Canada.
3. La rémunération des radiologistes et des pathologistes faisait partie auparavant des fournitures et autres dépenses, elle est maintenant comprise dans la rémunération de tout le personnel médical.
4. À compter de 1969, les fournitures médicales et chirurgicales de même que les médicaments ne sont plus répartis selon les divers services; seul le total est indiqué.

Operating Expense

The cost, on an **accrual basis** of operating and maintaining the hospital during the year.

Gross salaries and wages including all medical staff remuneration – These are distributed to three sub-categories:

Medical staff – Includes all types of hospital remuneration earned during the year by paid medical staff, i.e., salaries, wages, fees, contract rates, honorariums, etc.

Interns, residents and students – Includes gross salaries and wages earned during the year by interns, residents or students enrolled in organized educational programs, as well as by those affiliated-in or sponsored to take a course elsewhere. It **excludes** salaries paid to regular employees involved in extramural training or persons receiving on-the-job training.

Other gross salaries and wages – Includes gross salaries and wages earned during the year by all other staff including non-medical teaching staff and regular employees involved in extramural or on-the-job training.

Supplies and other expenses – These are distributed to three sub-categories:

Supplies and other expenses (excluding medical and surgical supplies and drugs) – Includes all of the hospital's operating expenses other than gross salaries and wages and excluding the cost of medical and surgical supplies and drugs.

Medical and surgical supplies – The total cost of this class of supplies.

Drugs – The total cost of this class of supplies.

Operating Income

Operating income is the revenue that accrues during the year for the purpose of operation and maintenance of the hospital.

Income from Services to Patients

Gross income – This includes the amounts earned by the rendering of services to patients. These amounts are represented by the regular rates of the hospital charged for such services, regardless of the terms of any contract, agreement, or understanding as to the basis of rates to be paid.

Dépenses d'exploitation

Les dépenses d'exploitation et d'entretien de l'hôpital au cours de l'année, établies d'après la **comptabilité d'exercice**.

Traitements et salaires bruts, y compris la rémunération du personnel médical – Qui se subdivisent en trois parties:

Personnel médical – Tous les genres de rémunération gagnée au cours de l'année par le personnel hospitalier, c.-à-d., traitements, salaires, honoraires de tous genres, gains forfaitaires, etc.

Internes, résidents et élèves – Les traitements et salaires bruts gagnés au cours de l'année par les internes, les résidents et les élèves participant à des programmes organisés d'enseignement, ainsi que ceux qui suivent des cours ailleurs grâce à une subvention ou en vertu d'une affiliation quelconque. **Ne comprend pas** les traitements versés aux employés permanents recevant une formation à l'extérieur ni aux personnes recevant une formation en cours d'emploi.

Autres traitements et salaires bruts – Les traitements et salaires bruts gagnés au cours de l'année par tous les autres membres du personnel, y compris le personnel enseignant non médical et les employés permanents recevant une formation à l'extérieur ou en cours d'emploi.

Fournitures et autres dépenses – Qui se subdivisent en trois parties:

Fournitures et autres dépenses (fournitures médicales et chirurgicales et médicaments exclus) – Toutes les dépenses d'exploitation de l'hôpital autres que les traitements et salaires bruts, à l'exclusion du coût des fournitures médicales et chirurgicales et des médicaments.

Fournitures médicales et chirurgicales – Le coût total de ce genre de fournitures.

Médicaments – Le coût total de ce genre de fournitures.

Revenus d'exploitation

Les revenus d'exploitation sont les revenus gagnés durant l'année aux fins de l'exploitation et de l'entretien de l'hôpital.

Revenus provenant des soins donnés aux malades

Revenus bruts – Ils comprennent les montants provenant des services fournis aux malades. Il s'agit des sommes que l'hôpital exige ordinairement pour ces services, quelles que soient les conditions de tout contrat, convention ou entente quant à la base du tarif exigible.

Net income – Net income comprises the difference between gross income and deductions such as courtesy, rebates and free service, and bad debts, less recoveries.

Income from In-patient Services

In-patient general services – General services include accommodation and meals, general nursing care, and all of the special services provided to in-patients, such as the use of the surgical suite, obstetrical suite, laboratory and radiology, etc., which the hospital includes in its charges at the **basic standard ward daily rate**.

Authorized charges – An authorized charge is a per diem amount designated by a province to be charged to an insured in-patient for insured services at the standard ward level. This amount is in addition to the regular payment made by the Provincial Plan. Authorized charges apply only in certain provinces and may be locally known as co-insurance.

In-patient additional services – Differential charges for preferred accommodation over and above the standard ward daily rates when the patients' accounts have been charged for private or semi-private accommodation.

Income from Out-patient Services

Income from out-patient services consists of income from organized out-patient departments and other out-patient services.

Income from organized out-patient department – This is the income of an organized unit, recognized as such by the Provincial Plan, set up and equipped as a separate department of the hospital. The main function of this unit is to provide special clinical facilities for medical diagnosis and treatment of out-patients. Some services may also be provided to in-patients.

Grants – These are monies received by the hospital from other than private sources, for Revenue Fund purposes only, such as maintaining services covering operating deficit and carrying on special research projects. These grants are in addition to and must be distinguished from any earnings derived from Provincial Plans or government departments to pay for the care of patients.

Other income – This includes donations, contributed services, investment income, rental of real

Revenus nets – Les revenus nets sont la différence entre les revenus bruts et les déductions, telles que fa-veurs, rabais et soins gratuits et mauvaises créances, moins les recouvrements.

Revenus provenant des services pour malades hospitalisés

Soins généraux donnés aux malades hospitalisés – Les soins généraux comprennent la chambre et les repas, les soins infirmiers ordinaires et tous les services spéciaux fournis aux hospitalisés, comme l'usage du bloc opératoire, d'obstétrique, les services de laboratoire et de radiologie, etc., qui sont compris dans le **taux quotidien de base de la salle commune**.

Frais autorisés – Les frais autorisés sont les sommes journalières fixées par la province, que l'hôpital peut réclamer d'un hospitalisé assuré pour des services assurés, au tarif de la salle commune. Ce montant est en sus des paiements réguliers versés par le régime provincial. Les frais autorisés ne sont en vigueur que dans certaines provinces, où ils sont parfois connus sous le nom de coassurance.

Soins supplémentaires donnés aux malades hospitalisés – Suppléments pour lits "privés" ou "semi-privés" en sus du tarif de la salle commune, lorsque le prix du lit "semi-privé" ou "privé" a été porté au compte des malades.

Revenus provenant des services pour malades externes

Revenus des services pour malades externes comprend les revenus du service de consultation externe agréée et autres soins pour malades externes.

Consultation externe agréée – Il s'agit ici des revenus de la consultation externe agréée **comme telle par le Régime provincial**, établi et installé comme service distinct de l'hôpital. Le rôle principal de ce service est de fournir les services cliniques spéciaux pour le diagnostic et le traitement des malades externes. Il peut également fournir certains services aux malades hospitalisés.

Subventions – Sommes que l'hôpital a reçues d'autres sources que privées pour les seules fins du fonds d'administration générale – comme soins d'entretien – vue de parer au déficit de gestion et d'effectuer des recherches spéciales. Ces subventions sont en sus et doivent être distinguées de toute recette provenant de régimes ou ministères provinciaux et destinées à payer le soin des malades.

Autres revenus – Comprends les dons, services non rétribués du personnel, revenus de placements, location

estate, cash discounts on purchases, recoveries and sales, income from ancillary operations, and miscellaneous income.

Contributed services – Includes the value of donated services of full-time or part-time personnel (including members of religious orders) but excludes volunteer or campaign fund workers.

Ancillary operations – Includes income from operations such as a farm or garden, barber shop, florist shop, etc.

Balance Sheets

Beginning with the reporting year 1969 there are two optional systems for the treatment of balance sheet accounts:

(a) using three basic funds:

Operating Fund,
Capital Fund,
Endowment and Special Purpose Fund;

or

(b) using two basic funds:

Integrated Fund (the consolidation of Operating and Capital Funds),
Endowment and Special Purpose Fund.

Operating Fund – Includes all the operating assets and liabilities other than capital assets and liabilities incurred in connection with the acquisition of such assets.

Capital Fund – Includes assets held for future acquisition of plant assets, the assets themselves (which have resulted from past expenditures of capital funds) and related liabilities.

Integrated Fund – The consolidation of Operating and Capital Funds. Funds awaiting spending on acquisition of capital assets are earmarked within the Integrated Fund.

Equity – These accounts, whether reserves or unappropriated balances, represent the difference between the assets and liabilities of the hospital, i.e., the hospital's equity in its assets (other than Endowment and Special Purpose Fund assets).

Reserves

- (1) Operating reserves – The amount of equity that has been formally set aside as a reserve for contingencies or working capital or other similar purposes.
- (2) Sinking fund reserve – That portion of the assets held for capital purposes that will eventually be used to redeem long-term debt in accordance with the trust indenture under which the debt was originally issued.
- (3) Building fund reserve – That portion of the assets held for capital purposes that has been earmarked for investment in new building projects.

d'immeubles, escomptes au comptant sur achats, recouvrements et ventes, revenus des services annexes, et revenus divers.

Services gratuits – Comprend la valeur des services donnés par le personnel à plein temps ou à temps partiel (y compris les religieux) mais exclu les volontaires ou les participants de campagnes de souscription.

Exploitations auxiliaires – Comprend les revenus provenant d'exploitations telles que ferme ou jardin, salon de coiffure, boutique de fleuriste, etc.

Bilan

À partir de l'année de référence 1969, deux systèmes facultatifs de traitement des comptes du bilan peuvent être utilisés:

a) en distinguant trois fonds de base:

Le fonds d'exploitation,
Le fonds d'immobilisations,
Le fonds de dotation et le fonds réservé à des fins spéciales;

ou

b) en distinguant deux fonds de base:

Le fonds intégré (la consolidation du fonds d'exploitation et du fonds d'immobilisations),
Le fonds de dotation et le fonds réservé à des fins spéciales.

Fonds d'exploitation – Comprend toutes les valeurs de l'actif et du passif, de l'exploitation de l'hôpital, excepté les immobilisations et les dettes contractées pour leur acquisition.

Fonds d'immobilisations – Comprend les valeurs d'actif détenues pour l'acquisition de futures immobilisations (qui ont été acquises par des dépenses du fonds d'immobilisations), et les dettes s'y rattachant.

Fonds intégré – (La consolidation du fonds d'exploitation et du fonds d'immobilisations.) Les fonds destinés à l'acquisition d'immobilisations, sont isolés à l'intérieur du fonds intégré.

Avoir – Ces montants, sous forme de réserves ou de soldes non affectés, représentent la différence entre l'actif et le passif de l'hôpital, c'est-à-dire l'avoir de l'hôpital dans son actif (autre que l'actif du fonds de dotation et du fonds réservé à des fins spéciales).

Réserves

- (1) Réserves d'exploitation – Le montant de l'avoir qui a été dûment constitué en réserves pour imprévus ou en capital de roulement ou qui sert à d'autres fins semblables.
- (2) Réserve du fonds de remboursement de la dette – La partie de l'avoir détenu pour fins d'immobilisations qui servira un jour à rembourser la dette à long terme en conformité du brevet d'inscription hypothécaire en vertu duquel la dette a été contractée à l'origine.
- (3) Réserve du fonds de bâtiment – La partie de l'actif détenu pour fins d'immobilisations qui est réservée pour de nouveaux travaux de construction.

- (4) Depreciation fund reserve – That portion of the assets held for capital purposes that has been accumulated as a result of earmarking cash for future replacement of depreciable property, plant and equipment. This account would be used, for example, if funds representing shareable depreciation were required to be funded separately.
- (5) Other capital purposes – Any other reserves where assets held for capital purposes are formally set aside for capital purposes not falling into any preceding category.

Unappropriated equity – The unappropriated equity of the Operating Fund and of the Capital Fund when such Funds are separately maintained.

Endowment and Special Purpose Fund – Includes all other assets held for special purposes and related liabilities (if any), including assets held as an endowment.

Estimated year-end adjustment – The amount due to or from the Provincial Plan of the province and other agencies with respect to the adjustment of a surplus or deficit incurred during the year.

Buildings and building service equipment – Includes all structures owned by the hospital and used in carrying out normal functions, as well as equipment added, to heat, light, ventilate or otherwise make serviceable.

Major equipment (shareable) – The cost of equipment, the purchase of which has been approved by the Provincial Plan, and which:

- (1) has an estimated useful life of five years or more;
- (2) is usually moveable but if affixed has been installed to meet the particular requirement of a hospital function;
- (3) is capable of precise description, positive identification, and physical control;
- (4) has an economic value great enough to justify distributing the expense of its diminution over the period of its useful life.

Major equipment (non-shareable) – The cost of ambulances, any major equipment financed through the Health Resources Fund, and any item of major equipment the cost of which is specified as non-shareable by the Provincial Plan.

Minor equipment – The value of hospital equipment generally possessing the following characteristics:

- (1) has a relatively small unit cost;
- (2) has a probable useful life of not more than five years;
- (3) is relatively small in size with no fixed location;
- (4) is fairly numerous in quantity and would be difficult to keep track of individually.

(4) Réserve du fonds d'amortissement – La partie de l'actif détenu pour fins d'immobilisations qui a été accumulée et réservée pour le remplacement de propriété, d'installations et de matériel amortissable. Ce compte est utilisé, par exemple, si les fonds représentant l'amortissement partageable doivent être distincts.

(5) Autres réserves pour fonds d'immobilisations – Toute autre réserve dont l'actif détenu pour fins d'immobilisations est mise de côté à des fins d'immobilisations et n'entre dans aucune catégorie précédente.

Avoir non affecté – L'avoir non affecté du fonds d'exploitation et du fonds d'immobilisations s'ils sont distincts.

Fonds de dotation et le fonds réservé à des fins spéciales – Comprend tous les autres éléments d'actif détenus pour des buts particuliers et les obligations qui s'y rattachent (s'il y a lieu), y compris les éléments d'actif à titre de dotation.

Estimation de l'ajustement de fin d'année – Le montant dû au ou du régime d'assurance-hospitalisation de la province et des autres organismes ou à en recevoir, en ce qui traite à l'ajustement du surplus ou du déficit au cours de l'année.

Bâtiments et matériel fixe – Comprend l'ensemble des bâtiments que possède l'hôpital et qui servent aux fonctions régulières de celui-ci, de même que le matériel ajouté au chauffage, à l'éclairage et à la ventilation, ou mis en service de quelque manière.

Gros matériel (coût partageable) – Le coût du matériel, acheté en conformité du plan provincial, et qui:

- (1) a une durée estimative d'au moins cinq ans;
- (2) est ordinairement mobile, mais qu'on a fixé à demeure pour répondre à un besoin particulier de l'hôpital;
- (3) peut être clairement décrit et facilement identifié;
- (4) a une valeur économique assez grande pour justifier la répartition des frais d'amortissement sur toute sa durée.

Gros matériel (coût non partageable) – Le coût des ambulances, du gros matériel financé grâce à la Caisse d'aide à la santé et de tout article de gros matériel dont le coût est non partageable en vertu du Régime provincial.

Petit matériel – La valeur du matériel hospitalier possédant les caractéristiques générales suivantes:

- (1) coût unitaire relativement peu élevé;
- (2) durée probable de moins de cinq ans;
- (3) de dimensions relativement faibles et mobiles;
- (4) dont la quantité est assez grande et dont il serait difficile de garder la trace de chaque élément.

HOSPITAL CLASSIFICATION STUB

DÉSIGNATION DE LA CLASSIFICATION DES HÔPITAUX

Abbreviated (as appearing in computerized format)	Unabbreviated
— Abrégée (telle que présentée dans le format d'ordinateur)	— Non abrégée
Gen. non-teach. no ltu/non ens. sans unités à l.t.	General, non-teaching, with no long-term units – Généraux, non enseignants, sans unités à long terme.
Gen. non-teach. with ltu/non ens. avec unités à l.t.	General, non-teaching, with long-term units – Généraux, non enseignants, avec unités à long terme.
Gen. teach. full/enseign. complet.	General, full teaching – Généraux, enseignement complet.
Gen. teach. partial/enseign. partiel.	General, partial teaching – Généraux, enseignement partiel.
Pediatr./Pédiatr.	Pediatric/Pédiatrique.
Rehab.(conv.)/Réadap.	Rehabilitation (convalescent) – Réadaptation (convalescence).
Ext. Care (chron.)/soins prolongés.	Extended Care (chronic) – Soins prolongés (chronique).
Reh./ex. cr./réad. s. pro.	Rehabilitation, extended care – réadaptation, soins prolongés.
Tot. Propriet./Privés.	Total Proprietary/Privés à but lucratif.

INTRODUCTION

This publication presents statistical information pertaining to the operating expenditure, income and balance sheets, accounted on an accrual basis, of Canadian public general and allied special hospitals for the reporting year 1973. See Preface, last paragraph for an explanation of the volume consolidation. The report also contains an historic summary of basic expenditure and income data pertaining to the public hospital system as a whole for the years 1958 - 1973 so that the expenditures and revenues of general and allied special hospitals may be shown in their proper perspective within the context of total expenditures and revenues. It should be noted that mental institutions and tuberculosis sanatoria are referred to for historical comparability only in Table 1 of this report. Complete financial coverage for these institutions is available in separate reports.¹

The data for this report have been derived from the *Annual Returns of Hospitals - Part 1 (Facilities and Services)* and *Part 2 (Finances)*. These documents are compiled by the individual hospitals and are received at Statistics Canada through the co-operation of the respective provincial hospital insurance authorities. Data from the reporting forms of mental hospitals are also used in this publication. Most of these reporting forms are received by Statistics Canada via the respective provincial departments of health, the remainder being sent directly by the reporting institutions themselves.

The reader will observe that an unabbreviated hospital classification stub qualifying the abbreviated stub used in computerized tabulations is presented in the Explanatory Notes and Glossary which appears on the preceding pages.

A general footnote applicable to tables presented in Sections II, III and IV of this publication should be noted at this time: in a number of these tables, no values are shown for hospitals with less than 50 beds due to the fact that in hospitals of this bed size, a detailed information breakdown was not required. This general notation is also applicable to other hospital categories which include hospitals with less than 50 beds, e.g., 1-99 beds, rehabilitation (including convalescent) extended care (including chronic) other, etc. Also, indicator values shown represent only those hospitals which reported non-zero data for all component items constituting the specific indicators.

Expenditure distribution tables and direct cost indicators exclude medical and surgical supplies and drugs unless otherwise stated.

¹ *Mental Health Statistics, Vol. III* (Catalogue 83-205) and *Tuberculosis Statistics* (Catalogue 83-207) available from the Publications Distribution Unit, Financial Control Section, Statistics Canada or from Information Canada, Ottawa.

Le présent bulletin contient des renseignements statistiques sur les dépenses et les revenus d'exploitation et les bilans financiers de l'année de déclaration 1973 préparés par les hôpitaux publics généraux et spéciaux divers. Voir la préface, dernier paragraphe. Il contient aussi un sommaire chronologique des données de base sur les dépenses et les revenus d'exploitation de l'ensemble du système hospitalier public de 1958 - 1973, de façon à ce que les recettes des hôpitaux généraux et spéciaux divers puissent être examinées dans le contexte de l'ensemble des recettes. Il convient de noter que seul le tableau 1 du bulletin contient des données sur les établissements pour malades mentaux et pour tuberculeux afin de pouvoir établir des comparaisons chronologiques. D'autres bulletins¹ contiennent une analyse financière complète de ces établissements.

Les données publiées dans ce bulletin sont extraites du *Rapport d'activité des hôpitaux, partie 1 (Installations et services)* et *partie 2 (Finances)*. Ces données ont été compilées individuellement par les hôpitaux et envoyées à Statistique Canada par les responsables provinciaux de l'assurance-hospitalisation. Ce bulletin renferme également les données des hôpitaux pour malades mentaux répondants. La plupart des comptes rendus d'activité sont envoyés à Statistique Canada par les ministères provinciaux de la santé, les autres étant envoyés directement par les établissements eux-mêmes.

On remarquera que les abréviations utilisées dans les tableaux d'ordinateur sont expliquées dans les Notes explicatives et terminologie (voir les pages précédentes).

Il convient de noter le renvoi général qui se rapporte aux tableaux des sections II, III et IV de cette publication: certains tableaux ne comportent aucun chiffre pour les hôpitaux de moins de 50 lits étant donné qu'on ne demandait aucun renseignement détaillé aux hôpitaux de cette taille. C'est aussi le cas des autres catégories d'hôpitaux qui comprennent les établissements de moins de 50 lits par ex., 1 - 99 lits, réadaptation (comprend convalescent) soins prolongés (comprend chronique), autres etc. Les présents indicateurs ne représentent que les hôpitaux qui ont fourni des données pour les différents postes qui constituent ces indicateurs.

Les tableaux présentant la répartition des dépenses et les indicateurs des coûts directs ne comprennent pas les dépenses pour les fournitures médicales et chirurgicales et les médicaments à moins qu'il en soit stipulé autrement.

¹ *La statistique de l'hygiène mentale, vol. III* (n° 83-205 au catalogue) et la *Statistique de la tuberculose* (n° 83-207 au catalogue) sont en vente à la Distribution des publications, Services financiers, Statistique Canada ou à Information Canada, Ottawa.

The reader will note that, in 1973, total expenditure and total gross salaries and wages information for the province of Quebec include retroactive salaries and wages and a cost of living allowance (indexation). Retroactive payment data were distributed to departments but indexation data were not.

In order to provide provincial and regional comparisons, balance sheet data for those provinces reporting on a funded basis have been consolidated and are presented in this report on an integrated basis, i.e., the "operating and capital funds" as reported by the provinces of Quebec, Manitoba and British Columbia have been converted by Statistics Canada into the "integrated fund" system as used by the remainder of the provinces and all references in this report will be to "integrated fund".

In 1973 there were 43 public general and allied special hospitals with 1,149 rated beds which either did not report financial data or whose data arrived too late for, or was unsuitable for tabulation. Expenditures and revenues for these hospitals were estimated by Statistics Canada and were incorporated with reported data in Statements 1 and 4 and Tables 1 and 2 of this report. There were seven public mental institutions with 526 rated beds which did not report either their 1973 financial position or sufficient data for estimations to be made. One public tuberculosis sanatorium with 144 beds did not report financial data in 1973.

"Operating expense" for all public hospitals in 1973 amounted to \$3,666.2 million, an increase of 12.2% or \$398.4 million over 1972 expenditures. Expenditures by general and allied special hospitals accounted for 85.4% of this total or \$3,131.9 million, an increase of 12.5% from 1972. Expenditures by mental hospitals increased by 11.4% to \$523.9 million in 1973 while tuberculosis sanatoria expenditures decreased by 21.6% to \$10.5 million (Table 1).

"Operating income" reached \$3,080.2 million for all public general and allied special hospitals in 1973, a rise of 12.6% over the comparable 1972 figure of \$2,735.6 million (Table 2).

This report contains "integrated fund" balance sheet data for 964 (92.0%) of the 1,049 public general and allied special hospitals in operation in 1973 and "endowment and special purpose fund" data as reported by 254 (24.0%) of the public hospitals. Total reported assets of the combined "funds" stood at \$3,570 million with the "integrated fund" accounting

Le lecteur remarquera qu'en 1973, le total des dépenses d'exploitation et le total des traitements et salaires bruts de la province de Québec comprennent les montants rétroactifs et l'indexation à la hausse du coût de la vie. Bien que les paiements rétroactifs aient été distribués selon les services, les données de l'indexation ne le furent pas.

Afin de permettre des comparaisons entre les provinces et entre les régions, les données du bilan pour les provinces qui déclarent sur une base de comptabilité par fonds ont été consolidées et sont présentées dans cette publication sur une base de comptabilité intégrée, c'est-à-dire que les "fonds d'exploitation et les fonds d'immobilisations", déclarés par le Québec, le Manitoba et la Colombie-Britannique, ont été convertis par Statistique Canada selon le système de "fonds intégré", utilisé par les autres provinces; toutes les références de cette publication seront faites par rapport au "fonds intégré".

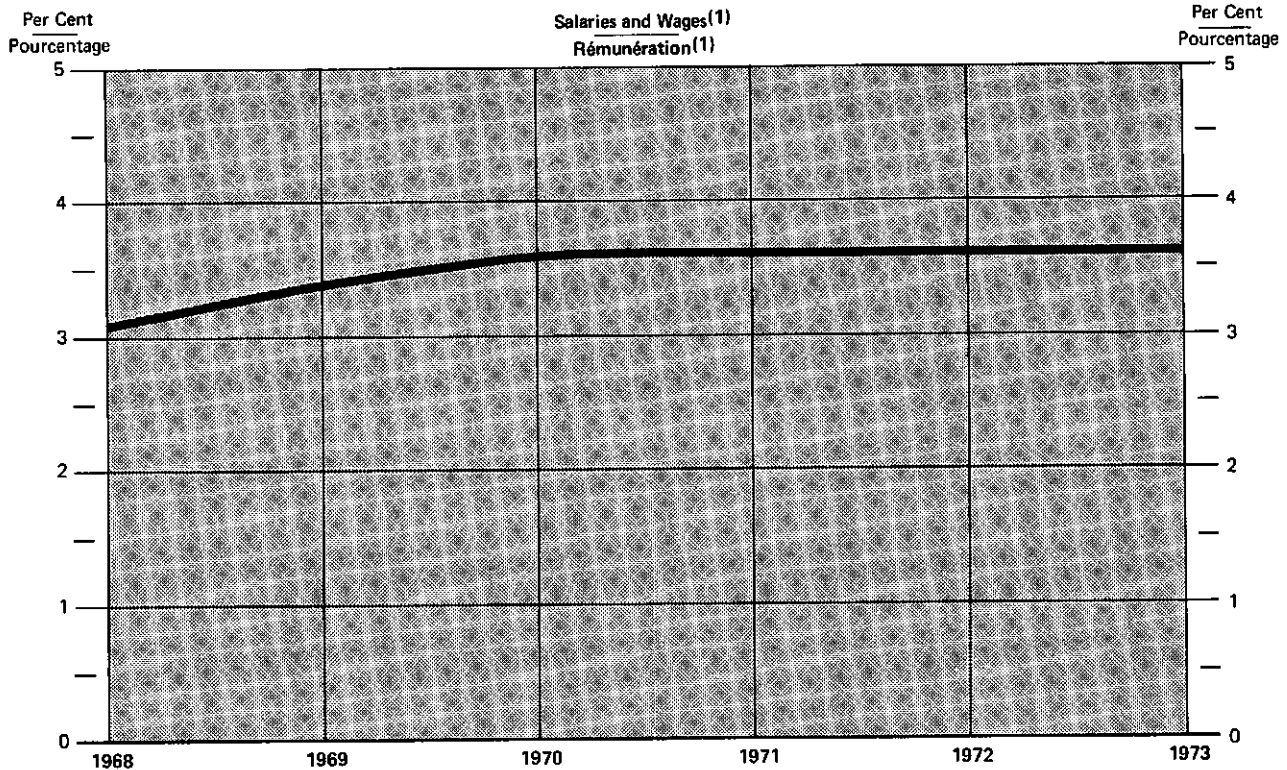

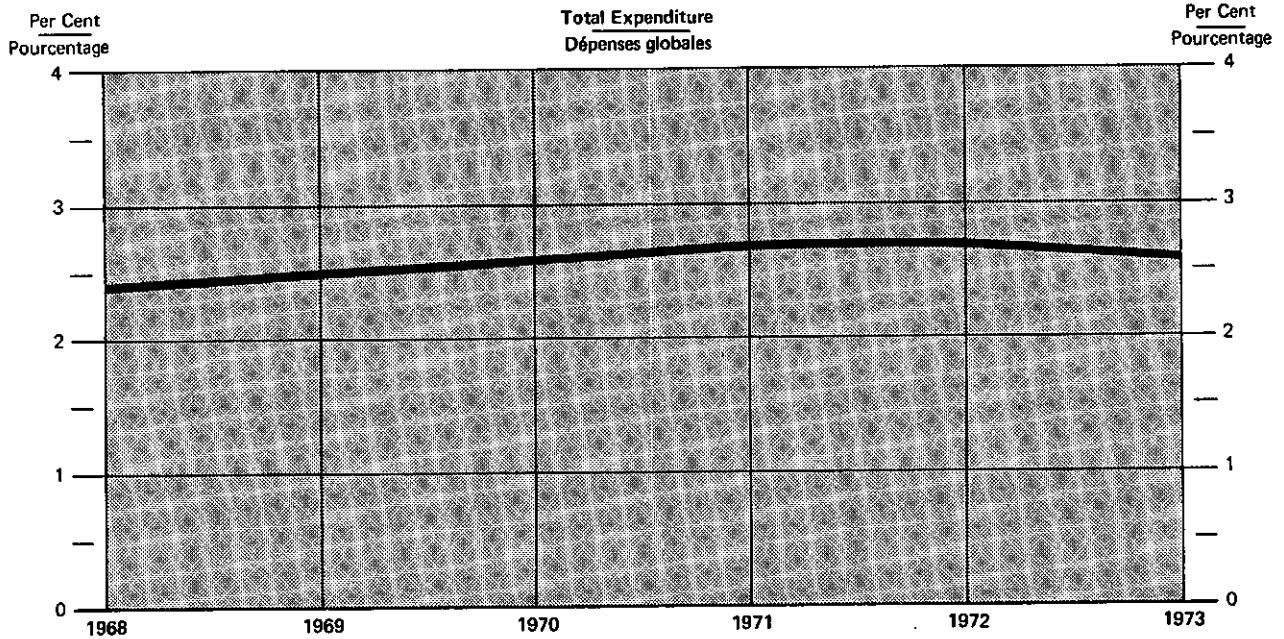

En 1973, 43 hôpitaux publics généraux et spéciaux divers possédant un total de 1,149 lits exploitables n'ont pas fait de rapport financier, n'ont pas envoyé leur rapport à temps ou ont envoyé un rapport impossible à mettre en tableau. Toutefois, Statistique Canada s'est chargé d'estimer les dépenses et les revenus de ces hôpitaux et de les ajouter aux données des états 1 et 4, et dans les tableaux 1 et 2. Sept hôpitaux publics pour malades mentaux (526 lits théoriques) n'ont fourni ni rapport financier pour 1973 ni données suffisantes qui permettent de faire des estimations. Un des hôpitaux publics pour tuberculeux (144 lits théoriques) n'a pas fourni de rapport d'activités.

Les "dépenses d'exploitation" de l'ensemble des hôpitaux publics en 1973 se chiffraient à \$3,666.2 millions, soit une augmentation de 12.2% (\$398.4 millions) par rapport à 1972. Les dépenses des hôpitaux généraux et spéciaux divers se chiffrent à \$3,131.9 millions, soit 85.4% des dépenses de l'ensemble des hôpitaux publics, ce qui représente une augmentation de 12.5% par rapport à 1972. Les dépenses des hôpitaux pour malades mentaux ont atteint \$523.9 millions, soit une augmentation de 11.4% en 1973, tandis que les dépenses des établissements pour tuberculeux ont diminué de 21.6% pour se chiffrer à \$10.5 millions (voir le tableau 1).

En 1973, les "revenus d'exploitation" de l'ensemble des hôpitaux publics généraux et spéciaux divers, ont atteint \$3,080.2 millions, soit une augmentation de 12.6% par rapport aux revenus de \$2,735.6 millions en 1972 (voir le tableau 2).

Cette publication contient les données du bilan du "fonds intégré" relatives à 964 (92.0%) des 1,049 hôpitaux publics généraux et spéciaux divers en activité en 1973, ainsi que les données relatives au "fonds de dotation et au fonds réservé à des fins spéciales" par 254 hôpitaux publics (soit 24.0% du total). L'actif total déclaré du "fonds" combiné atteignait \$3,570 millions dont \$3,460

¹ Includes estimated values for non-coverage involving 43 hospitals with 1,149 beds. - Comprend les valeurs estimatives à l'égard de 43 hôpitaux non couverts et totalisant 1,149 lits (capacité théorique).

² Components may not agree with Table 5 due to rounding. - Les chiffres ayant été arrondis, ils peuvent ne pas correspondre à ceux du tableau 5.

for \$3,460 million and the "endowment and special purpose fund" for \$110 million (Table 4). Total current and long-term liabilities for the "integrated fund" amounted to \$1,218 million and for the "endowment and special purpose fund" \$15 million.

Operating Expense

Chart 1 illustrates that the operating expense of general and allied special hospitals has risen as a proportion of Gross National Expenditure from 2.4% of the total in 1968 to 2.6% in 1973. At the same time the largest single factor in this rise, salaries and wages, which accounted for 69.7% of total "operating expense" in 1973 has risen from 3.1% to 3.6% of the salaries and wages component of Gross National Income. It must be remembered in making this comparison that, beginning in 1969 radiologists' and pathologists' remuneration previously included in supplies and other expense was included as salaries and wages under medical staff. Statement 3 shows that pre 1969 radiologists' and pathologists' remuneration was consistently just under 2.5% of total "operating expense".

Cost per patient-day for public hospitals as a whole rose by 14.1% to \$63.39 in 1973, ranging from \$30.76 in mental hospitals to \$141.38 in the "other allied special" group which beginning in 1969 includes pediatric hospitals, formerly under general hospitals. (See Glossary for types of hospitals included in this category.) In public general hospitals cost per patient-day rose by 12.8% from \$73.26 in 1972 to \$82.66 in 1973 (Table 1).

Inspection of Table 2 reveals that the "operating expense" of public general and allied special hospitals rose in all provinces from 1972 - 1973. Proportionately the largest increases occurred in Newfoundland (21.2%) and British Columbia (16.7%) while the smallest increase was recorded by Ontario (9.4%).

Statement 1 summarizes the 1973 "operating expense" of all operating public general and allied special hospitals by bed size, type of hospital and province.

The per capita operating expense of public general and allied special hospitals rose by 11.1% from \$127.59 in 1972 to \$141.75 in 1973 and ranged from \$94.56 in Prince Edward Island to \$151.57 in Quebec

millions représentaient le "fonds intégré" et \$110 millions le "fonds de dotation et le fonds réservé à des fins spéciales" (tableau 4). Le total du passif exigible à court et à long terme s'élevait à \$1,218 millions pour le "fonds intégré" et à \$15 millions pour le "fonds de dotation et le fonds réservé à des fins spéciales".

Dépenses d'exploitation

Le graphique 1 représente les dépenses d'exploitation des hôpitaux généraux et spéciaux divers par rapport aux dépenses nationales brutes: elles sont passées de 2.4 % en 1968 à 2.6 % en 1973. Parallèlement, les traitements et salaires, qui sont les facteurs les plus importants de cette augmentation, se chiffraient à 69.7 % des "dépenses totales d'exploitation" en 1973; ils sont passés de 3.1 % à 3.6 % du groupe traitements et salaires du Revenu national brut. En faisant cette comparaison, il ne faut pas oublier que depuis 1969, la rémunération des radiologistes et pathologistes, qui faisait partie auparavant des fournitures et autres dépenses, est maintenant comprise dans la rémunération de tout le personnel médical. L'état 3 montre que la rémunération des radiologistes et pathologistes d'avant 1969 était inférieure à 2.5 % des "dépenses totales d'exploitation".

Les dépenses par journée d'hospitalisation pour l'ensemble des hôpitaux publics ont augmenté de 14.1 % pour s'élever à \$63.39 en 1973. Le coût par journée d'hospitalisation s'est échelonné de \$30.76 dans les hôpitaux pour malades mentaux à \$141.38 dans le groupe des "autres hôpitaux spéciaux divers" qui, à compter de 1969, comprenait les hôpitaux pédiatriques (ils étaient auparavant comptés parmi les hôpitaux généraux). (Consulter le Glossaire pour les genres d'hôpitaux pris en compte dans la catégorie "hôpitaux généraux".) Le coût par journée d'hospitalisation dans les hôpitaux généraux publics est passé de \$73.26 en 1972 à \$82.66 en 1973, soit une augmentation de 12.8 % (voir le tableau 1).

Le tableau 2 indique que les "dépenses d'exploitation" des hôpitaux publics généraux et spéciaux divers ont augmenté en 1972 dans toutes les provinces. En proportion, Terre-Neuve (21.2 %) et la Colombie-Britannique (16.7 %) ont connu les augmentations les plus fortes, tandis que l'Ontario (9.4 %) enregistrait la hausse la plus faible.

L'état 1 représente les "dépenses d'exploitation" pour 1973 de tous les hôpitaux publics généraux et spéciaux divers, suivant l'affectation et la taille des hôpitaux, et la province.

Les dépenses d'exploitation par habitant des hôpitaux publics généraux et spéciaux divers ont progressé de 11.1 %; elles sont passées de \$127.59 en 1972 à \$141.75 en 1973 et se sont échelonnées de \$94.56 à l'Île-du-

Chart - 2

Graphique - 2

Indices of Operating Expense Public General and Allied Special Hospitals, by Province, 1973
Indices des dépenses d'exploitation hôpitaux publics généraux et spéciaux divers, par province, 1973

(Statement 2). In terms of index numbers (1968 = 100), per capita expenditures over the period 1968 - 1973 have increased by at least 60.0% in all provinces with the largest increases occurring in Quebec (1973 = 181.0) and Manitoba (1973 = 177.5) (Chart 2).

Chart 3 illustrates this rise in operating expense of public general and allied special hospitals by means of index numbers (1968 = 100) for the period 1968 - 1973. In terms of current dollars, costs have risen sharply each year, increasing by more than 80.0% (1973 = 181.7) over the period. When these same expenditures are considered on a per capita basis the cost rise is less dramatic (1973 = 170.2). Both these indices are compared on a provincial basis in Chart 2 which shows that over the period 1968 - 1973 current dollar expenditures have almost doubled in British Columbia (1973 = 196.0) and have increased by 80.0% in most other provinces. A comparison of costs in terms of current and constant (1961) dollars² reveals that much of the cost rise over the period 1968 - 1973 was attributable to the decreased purchasing power of the Canadian dollar. Chart 3 shows that in terms of con-

² Three indices were used to obtain a constant dollar expenditure series. Payroll series for the service industries was used to deflate gross salaries and wages (Statistics Canada Catalogue 72-201); wholesale food price index was used to deflate the food component, while the wholesale non-food price index was used to deflate all remaining expenditures.

Prince-Édouard à \$151.57 en Québec (voir l'état 2). Sous forme d'indice (1968 = 100), les dépenses par habitant pour la période allant de 1968 - 1973 ont augmenté d'au moins 60.0% dans l'ensemble des provinces: c'est le Québec (1973 = 181.0) et le Manitoba (1973 = 177.5) qui ont enregistré les plus fortes hausses (voir le graphique 2).

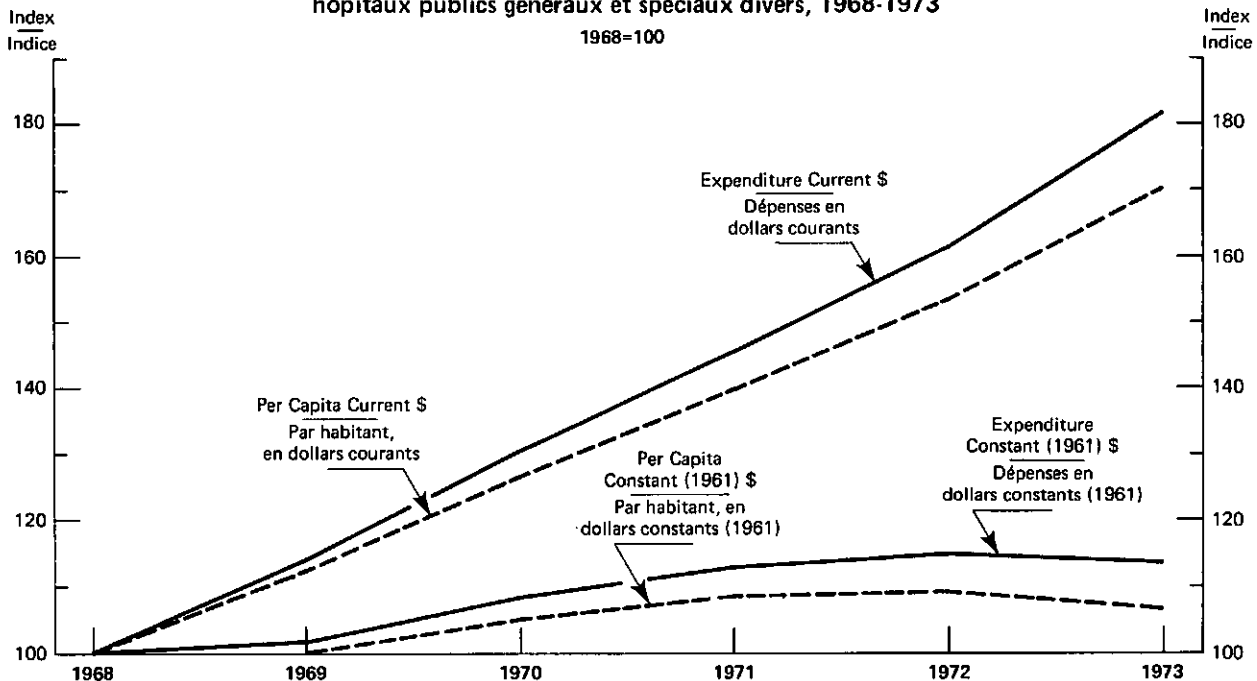

Le graphique 3 illustre l'augmentation des dépenses d'exploitation des hôpitaux publics généraux et spéciaux divers au moyen d'indices (1968 = 100) portant sur la période 1968 - 1973. En dollars courants, les coûts ont augmenté rapidement chaque année, l'augmentation sur toute la période atteignant plus de 80.0% (1973 = 181.7). Les coûts par habitant ont augmenté d'une façon moins sensible (1973 = 170.2). Le graphique 2 présente des comparaisons élaborées sur une base provinciale entre ces deux indices. Entre 1968 - 1973 les dépenses en dollars courants ont presque doublé en Colombie-Britannique (1973 = 196.0) et ont augmenté de 80.0% dans presque toutes les autres provinces. La comparaison entre les coûts en dollars courants et constants (1961)² révèle que la majeure partie de l'augmentation des coûts est due à l'affaiblissement du pouvoir d'achat du dollar canadien. Le graphique 3 démontre qu'en dollars constants (1961)

² On a utilisé trois indices pour transposer la série de dépenses en dollars constants. On s'est servi des statistiques de la paie dans les industries de service pour dégonfler la rémunération brute (voir n° 72-201 au catalogue de Statistique Canada); l'indice des prix de gros des aliments a servi à dégonfler l'élément alimentation tandis que l'indice des prix de gros des produits non alimentaires a servi pour les autres dépenses.

Chart - 3

stant (1961) dollars the rise in hospital expenditures from 1968-1973 was in the order of 14.0% (1973 = 113.5) and on a per capita basis costs rose by about 6.0% (1973 = 106.4). Further expenditure comparisons in terms of current and constant dollars are given in Charts 4 and 5.

l'augmentation des dépenses hospitalières entre 1968-1973 a été de l'ordre de 14.0 % (1973 = 113.5) et, par habitant, de 6.0 % environ (1973 = 106.4). D'autres comparaisons en dollars courants et constants figurent aux graphiques 4 et 5.

Chart - 4

Graphique - 4

Operating Expense, Public General and Allied Special Hospitals, 1968-1973
Dépenses d'exploitation, hôpitaux publics généraux et spéciaux divers, 1968-1973

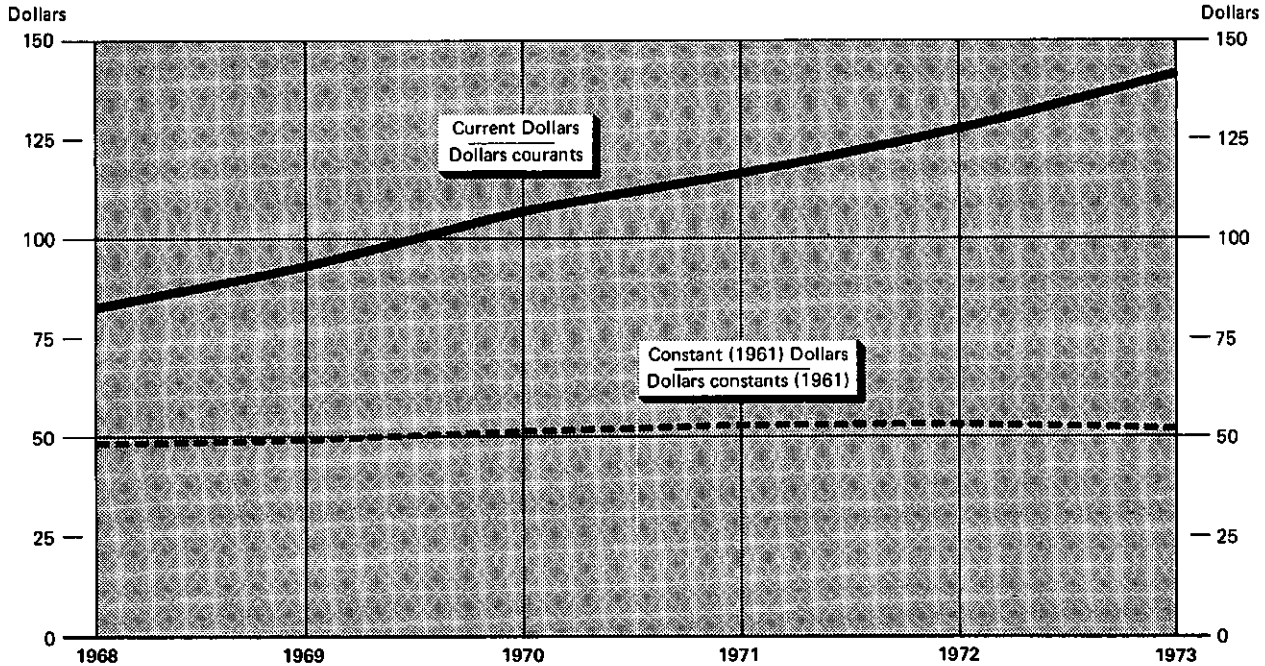

Operating Expense per Rated Bed

"Operating expense" per rated bed in public general and allied special hospitals reached \$22,167 in 1973 a rise of 11.3% from the 1972 expenditure per rated bed of \$19,916 (Table 6). Provincially, "operating expense" per rated bed ranged from \$14,479 in Prince Edward Island to \$24,669 in Quebec as expenditures rose in all provinces from 1972-1973 most notably in Newfoundland (15.7%) and Quebec (15.0%). Examination of Table 6 reveals the considerable variation in "operating expense" per rated bed experienced by general hospitals in 1973, depending upon which type and bed size is considered. It can be seen, for example, that cost per rated bed was higher in full (\$30,144) and partial-teaching general hospitals (\$25,213) than in the non-teaching general hospitals (\$19,698) and that cost per rated bed increases with bed size, ranging from \$13,854 in the general non-teaching, no long-term unit 1-24 bed group to \$32,794 in the 1-499 bed group for full-teaching hospitals.

Dépenses d'exploitation par lit théorique

Dans les hôpitaux publics généraux et spéciaux divers, les "dépenses d'exploitation" par lit théorique se sont chiffrées à \$22,167 en 1973, soit une augmentation de 11.3 % par rapport à 1972 (\$19,916) (voir le tableau 6). Au niveau des provinces, les dépenses par lit théorique se sont échelonnées entre \$14,479 dans l'Île-du-Prince-Édouard et \$24,669 au Québec; les dépenses ont augmenté dans toutes les provinces entre 1972 et 1973 et surtout à Terre-Neuve (15.7 %) et au Québec (15.0 %). Le tableau 6 révèle des variations considérables des "dépenses d'exploitation" par lit théorique dans les hôpitaux généraux en 1973 suivant l'affectation et la taille de l'hôpital. On voit, par exemple, que les coûts par lit théorique ont été plus élevés pour les hôpitaux généraux d'enseignement complet (\$30,144) et partiel (\$25,213) que pour les hôpitaux non enseignants (\$19,698) et que les coûts par lit théorique augmentent avec la taille de l'hôpital et s'échelonnent entre \$13,854 pour les hôpitaux généraux non enseignants sans unités à long terme de 1-24 lits et \$32,794 pour les hôpitaux d'enseignement complet de 1-499 lits.

Operating Expense, Per Capita, Public General and Allied Special Hospitals, 1968-73
Dépenses d'exploitation par habitant
hôpitaux publics généraux et spéciaux divers, 1968-73

Operating Expense per Patient-day

“Operating expense” per patient-day in public general and allied special hospitals increased by 12.5% from \$68.52 in 1972 to \$77.09 in 1973 (Table 7). Provincial variation was from \$55.07 in Prince Edward Island to \$87.88 in Quebec. Proportionally, Newfoundland (21.8%) recorded the largest rise in “operating expense” per patient-day from 1972 - 1973 while at the other extreme “operating expense” per patient-day rose by only 9.9% in Quebec. It can be seen from Table 7 that “operating expense” per patient-day varied directly with bed size, rising from \$56.52 in the 25 - 49 bed general, non-teaching, no long-term unit hospitals to \$121.91 in 1 - 499 bed full-teaching general hospitals in 1973. “Operating expense” per patient-day was highest in the pediatric hospitals (\$151.43) in 1973 followed by the “other” allied special group (\$126.77). As was the case with “operating expense” per rated bed, per diem costs were higher in the full (\$105.92) and partial-teaching general hospitals (\$85.06) than in the non-teaching general hospitals (\$70.83) in 1973.

Operating Expense by Type of Expense

In 1973, gross salaries and wages accounted for 69.7% of the “operating expense” of public general and allied special hospitals (Statement 3). Employment

Dépenses d'exploitation par journée d'hospitalisation

Les “dépenses d'exploitation” par journée d'hospitalisation des hôpitaux publics généraux et spéciaux divers sont passées de \$68.52 en 1972 à \$77.09 en 1973 soit une augmentation de 12.5 % (voir le tableau 7). Au niveau des provinces, elles se sont échelonnées entre \$55.07 dans l'Île-du-Prince-Édouard et \$87.88 au Québec. Proportionnellement, Terre-Neuve (21.8 %) a enregistré les augmentations les plus fortes entre 1972 et 1973; les augmentations les moins fortes ont été enregistrées par le Québec (9.9%). D'après le tableau 7, les “dépenses d'exploitation” par journée d'hospitalisation varient directement suivant la taille de l'hôpital; en 1973 elles sont passées de \$56.52 pour les hôpitaux généraux non enseignants sans unités à long terme de 25 - 49 lits à \$121.91 pour les hôpitaux d'enseignement complet de 1 - 499 lits. Les “dépenses d'exploitation” par journée d'hospitalisation sont les plus élevées dans les hôpitaux pédiatriques (\$151.43) et les “autres” hôpitaux spéciaux divers (\$126.77). Comme pour les dépenses par lit théorique les dépenses par journée d'hospitalisation étaient plus élevées en 1973 dans les hôpitaux d'enseignement complet (\$105.92) et partiel (\$85.06) que dans les hôpitaux généraux non enseignants (\$70.83).

Dépenses d'exploitation par poste de dépenses

En 1973, la rémunération brute a représenté 69.7 % des “dépenses d'exploitation” totales des hôpitaux publics généraux et spéciaux divers (voir l'état 3). Les avantages

¹ Included in gross salaries and wages in 1969 - 1973. - Compris dans les traitements et salaires bruts en 1969 - 1973.

² Prior to 1969, data represent two items "rental" and "other miscellaneous non-departmental expense". - Dans les années antérieures à 1969 les données comprennent deux articles "loyers" et "diverses dépenses autres que celles des services".

³ Included interest on loans, depreciation, rental and other for 1968. - Comprenaient intérêts sur emprunts, amortissements, loyers et autres dans l'année 1968.

benefits accounted for an additional 4.5% of total expense followed by medical and surgical supplies (3.1%) and drugs (2.6%). In terms of index numbers (1968 = 100) expenditures on employment benefits (1973 = 281.9) have almost tripled since 1968 while expenditures on gross salaries and wages (1973 = 189.3) and medical and surgical supplies (1973 = 181.7) have increased by more than 80.0% and expenditures on drugs have increased by 43.0% (1973 = 143.1). These comparisons must be qualified by the previously mentioned fact that, beginning in 1969, radiologists' and pathologists' remuneration previously included in supplies and other expense was included as salaries and wages.

Operating Expense per Patient-day by Type of Expense

Gross salaries and wages per patient-day for all public hospitals rose by 11.9% to \$53.75 in 1973. Salary costs per patient-day were higher in full-teaching (\$73.50) and partial-teaching general hospitals

sociaux ont atteint 4.5 % des dépenses totales, les fournitures médicales et chirurgicales 3.1 % et les médicaments 2.6 %. En termes d'indices, les avantages sociaux en 1973 ont presque triplé (281.9) depuis 1968 (100.0) ainsi que les dépenses de rémunération brute (189.3) et les dépenses de fournitures médicales et chirurgicales (181.7) ont augmenté de plus de 80.0 % et les dépenses de médicaments ont augmenté de 43.0 % (143.1). Ces comparaisons peuvent facilement être expliquées de la façon suivante: à compter de 1969, la rémunération des radiologistes et des pathologistes, qui faisait auparavant partie des dépenses de fournitures et autres dépenses, est maintenant comprise dans les traitements et salaires.

Dépenses d'exploitation par journée d'hospitalisation et par poste de dépenses

La rémunération par journée d'hospitalisation pour l'ensemble des hôpitaux publics s'est élevée à \$53.75 en 1973, soit une augmentation de 11.9 %. Les coûts de rémunération par journée d'hospitalisation ont été plus

(\$60.57) than in the non-teaching general hospitals (\$49.03) while the highest salary costs per patient-day in 1973 were recorded by pediatric hospitals (\$103.36) (Table 8). Gross salaries and wages per patient-day increased with size of hospital rising from \$37.37 in the 25-49 bed group to \$55.85 in the 200+ bed group in the non-teaching general hospitals with no long-term units and from \$43.58 in the 1-99 bed group to \$47.87 in the 200+ bed group for non-teaching hospitals with long-term units. Expenditures on supplies and other expenses per patient-day for all public hospitals amounted to \$18.95 in 1973, representing a 15.1% cost rise over the comparable 1972 per diem expense of \$16.46. Again, this cost ratio was highest in pediatric hospitals (\$39.85) and was higher in the full-teaching (\$25.56) and partial-teaching general hospitals (\$19.10) than in the non-teaching general hospitals (\$17.90) (Table 11). Per diem expenditures on medical and surgical supplies in 1973 were \$2.39 (Table 9) and drugs were \$2.00 (Table 10).

importants dans les hôpitaux généraux d'enseignement complet (\$73.50) et partiel (\$60.57) que dans les hôpitaux généraux non enseignants (\$49.03), mais ils ont été les plus élevés dans les hôpitaux pédiatriques (\$103.36) en 1973 (voir le tableau 8). La rémunération brute par journée d'hospitalisation a augmenté suivant la taille de l'hôpital; elle s'est échelonnée entre \$37.37 pour les hôpitaux de 25-49 lits et \$55.85 pour les hôpitaux de 200 lits et plus du groupe non enseignant sans unités à long terme et, entre \$43.58 pour les hôpitaux de 1-99 lits et \$47.87 pour les hôpitaux de 200 lits et plus du groupe non enseignant avec unités à long terme. Les dépenses de fournitures et autres dépenses par journée d'hospitalisation dans l'ensemble des hôpitaux publics se sont chiffrées à \$18.95 en 1973, soit une augmentation de 15.1 % par rapport aux dépenses par jour de 1972 (\$16.46). Ce rapport a été plus élevé dans les hôpitaux pédiatriques (\$39.85), dans les hôpitaux généraux d'enseignement complet (\$25.56) et partiel (\$19.10), que dans les hôpitaux généraux non enseignants (\$17.90) (voir le tableau 11). En 1973, les dépenses quotidiennes de fournitures médicales et chirurgicales ont été de \$2.39 (voir le tableau 9) et les dépenses de médicaments de \$2.00 (voir le tableau 10).

Operating Income

Chart 6 which illustrates the rise in "operating income" by means of index numbers (1968 = 100) shows that the income of public general and allied

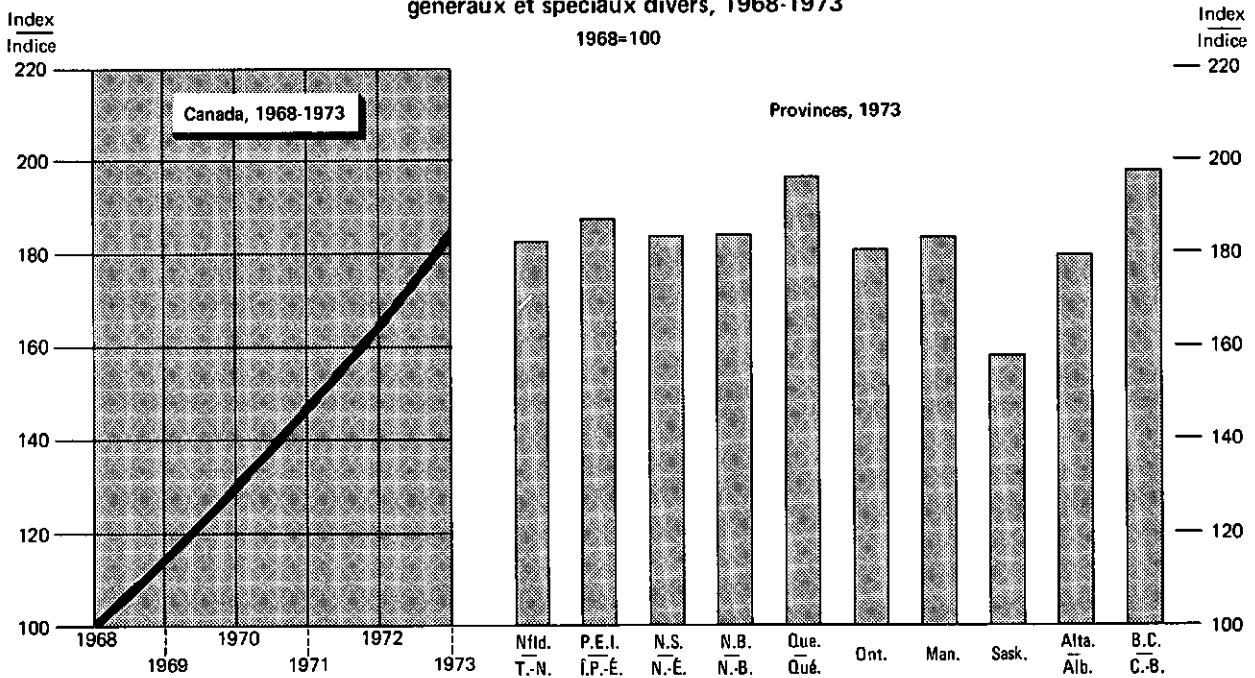

Revenus d'exploitation

Le graphique 6, qui illustre l'augmentation des "revenus d'exploitation" au moyen d'indices montre que les revenus de ce groupe d'hôpitaux ont augmenté de plus

Chart - 6

Graphique - 6

**Index of Operating Income
Public General and Allied Special Hospitals, 1968-1973**
**Indice du revenu d'exploitation, hôpitaux publics
généraux et spéciaux divers, 1968-1973**

special hospitals has increased by more than 85.0% (1973 = 185.8) over the period 1968 - 1973 with the largest increases occurring in British Columbia (1973 = 197.9) and Quebec (1973 = 196.5).

“Operating income” for public general hospitals amounted to \$2,710.2 million in 1973 accounting for 88.0% of the total “operating income” of public general and allied special hospitals (Statement 4, Table 1). “Operating income” for public general hospitals rose by 13.0% from 1972 - 1973 with Manitoba (22.9%) and Newfoundland (21.9%) registering the largest provincial increases.

Operating Income by Type

Net income from services to in-patients accounted for 88.4% of the “operating income” of public general and allied special hospitals in 1973 (Table 24). Inspection of Table 24 reveals that this ratio was quite consistent ($\pm 5.0\%$) for most types and bed sizes of Canadian hospitals. Provincially, net earnings from services to in-patients ranged from 82.6% of total “operating income” in Nova Scotia to 93.1% in Quebec. Net earnings from services to out-patients made up an additional 6.4% of “operating income”, ranging from 5.7% in British Columbia to 13.1% in Nova Scotia. The other components of “operating income” in 1973 were other income (3.5%) and grants (1.7%).

Operating Income per Rated Bed

“Operating income” per rated bed for all public general and allied special hospitals increased by 11.4% from \$19,570 in 1972 to \$21,795 in 1973 ranging from \$14,259 in Prince Edward Island to \$24,304 in Quebec (Table 25). Proportionally, Newfoundland (16.1%) and Quebec (14.7%) registered the largest increases in “operating income” per rated bed while the smallest increases were recorded by New Brunswick (9.0%) and Saskatchewan (8.1%). “Operating income” per rated bed was highest for pediatric hospitals (\$35,373), in 1973 and full (\$29,798) and partial-teaching general hospitals (\$24,704) exhibited a higher income per rated bed than non-teaching general hospitals (\$19,334). “Operating income” per rated bed varied directly with size and type of hospital in 1973, rising from \$13,235 in the 1 - 24 bed general, non-teaching, no long-term unit hospitals to \$32,165 in the 1 - 499 bed full-teaching hospitals.

de 85.0 % entre 1968 - 1973 (1968 = 100) et 1973 = 185.8; les augmentations les plus fortes se sont produites en Colombie-Britannique (1973 = 197.9) et au Québec (1973 = 196.5).

Les “revenus d’exploitation” des hôpitaux publics généraux se sont chiffrés à \$2,710.2 millions en 1973, soit 88.0 % des “revenus d’exploitation” totaux des hôpitaux publics généraux et spéciaux divers (voir l’état 4 et le tableau 1). Les revenus d’exploitation des hôpitaux publics généraux se sont accrus de 13.0 % entre 1972 - 1973, le Manitoba (22.9 %) et Terre-Neuve (21.9 %) ayant enregistré les plus fortes augmentations.

Revenus d’exploitation suivant la classe de revenu

Les revenus nets des services pour malades hospitalisés ont atteint 88.4 % des “revenus d’exploitation” totaux des hôpitaux publics généraux et spéciaux divers en 1973 (voir le tableau 24). Ce tableau révèle que ce rapport a été presque uniforme ($\pm 5.0\%$) pour la plupart des hôpitaux canadiens suivant leur affectation et leur taille. Le pourcentage des gains nets des services pour malades hospitalisés par province, sur les “revenus d’exploitation” totaux, s’est échelonné entre 82.6 % en Nouvelle-Écosse et 93.1 % au Québec. Quant aux revenus nets des services pour malades externes, ils se sont échelonnés entre 5.7 % en Colombie-Britannique et 13.1 % en Nouvelle-Écosse, soit 6.4 % de l’ensemble des “revenus d’exploitation”. Les autres composantes des “revenus d’exploitation” en 1973 ont été les autres revenus (3.5 %) et les subventions (1.7 %).

Revenus d’exploitation par lit exploitable

Les “revenus d’exploitation” par lit exploitable pour l’ensemble des hôpitaux publics généraux et spéciaux divers sont passés de \$19,570 en 1972 à \$21,795 en 1973, soit une augmentation de 11.4 %, et se sont échelonnés entre \$14,259 dans l’Île-du-Prince-Édouard et \$24,304 au Québec (voir le tableau 25). En proportion, Terre-Neuve (16.1 %) et Québec (14.7 %) ont enregistré les plus fortes augmentations des “revenus d’exploitation” par lit, tandis que le Nouveau-Brunswick (9.0 %) et la Saskatchewan (8.1 %) enregistraient les plus faibles. Ce sont les hôpitaux pédiatriques qui ont accusé les “revenus d’exploitation” par lit les plus élevés en 1973, soit une somme de \$35,373 et que les hôpitaux d’enseignement complet (\$29,798) et les hôpitaux d’enseignement partiel (\$24,704) ont enregistré des revenus plus élevés que les hôpitaux généraux non enseignants (\$19,334). Les “revenus d’exploitation” par lit exploitable ont varié directement par rapport à la taille et à l’affectation de l’hôpital en 1973: ils sont passés de \$13,235 pour les hôpitaux généraux non enseignants sans unités à long terme de 1 - 24 lits à \$32,165 pour les hôpitaux d’enseignement complet de 1 - 499 lits.

Operating Income per Patient-day

"Operating income" per patient-day in public general and allied special hospitals reached \$75.80 in 1973 a rise of 12.6% over the comparable 1972 income per patient-day of \$67.33 (Table 26). Provincial variation was from \$54.23 in Prince Edward Island to \$86.58 in Quebec as Newfoundland (22.3%) and Alberta (15.8%) recorded the largest rise in "operating income" per patient-day from 1972 - 1973. "Operating income" per patient-day was highest for pediatric hospitals (\$145.70) in 1973, followed by the "other" allied special group (\$124.63). Full-teaching (\$104.70) and partial-teaching general hospitals (\$83.34) had a higher "operating income" per patient-day than non-teaching general hospitals (\$69.52). In 1973, "operating income" per patient-day increased with size of hospital from \$53.92 in the 25 - 49 bed general, non-teaching, no long-term unit hospitals to \$119.58 in the 1 - 499 bed full-teaching general hospitals.

Gross Income from General Services to In-patients

Public general and allied special hospitals reported a gross income from general services to in-patients of \$2,649.2 million in 1973, most of which (95.6%) were earnings from Provincial Plans (Table 27). Plan payments ranged from 91.6% of gross earnings in New Brunswick to 97.0% in Quebec. Other income components of general services included payments on behalf of non-residents of the province (1.7%) and Workmen's Compensation Boards (1.3%). Authorized charges or "Co-insurance" is paid for insured services at the standard ward-level in Alberta, British Columbia and the Northwest Territories.

Other Operating Income

Public general and allied special hospitals reported other "operating income" of \$106.2 million in 1973 (Table 28). Recoveries and sales from dietetics and housing accounted for 51.5% of this income and other recoveries and sales were the source of an additional 19.6% followed by investment income (6.9%) and donations (3.9%).

Revenus d'exploitation par journée d'hospitalisation

Les "revenus d'exploitation" par journée d'hospitalisation des hôpitaux publics généraux et spéciaux divers se sont chiffrés à \$75.80 en 1973, soit une augmentation de 12.6 % sur les revenus de 1972 (\$67.33). Voir le tableau 26 à ce sujet. Pour les provinces, les revenus se sont échelonnés entre \$54.23 dans l'Île-du-Prince-Édouard et \$86.58 au Québec. Par ailleurs, les plus fortes augmentations des "revenus d'exploitation" par journée d'hospitalisation ont été enregistrées par Terre-Neuve (22.3 %) et l'Alberta (15.8 %). Ce sont les hôpitaux pédiatriques (\$145.70) et les autres hôpitaux spéciaux divers (\$124.63) qui ont accusé les "revenus d'exploitation" par journée d'hospitalisation les plus élevés. Les hôpitaux généraux d'enseignement complet (\$104.70) et d'enseignement partiel (\$83.34) ont enregistré des "revenus d'exploitation" par journée d'hospitalisation plus élevés que ceux des hôpitaux généraux non enseignants (\$69.52). En 1973, les "revenus d'exploitation" par journée d'hospitalisation ont augmenté suivant la taille et l'affectation de l'hôpital: ils se sont échelonnés entre \$53.92 pour les hôpitaux généraux non enseignants sans unités à long terme de 25 - 49 lits et \$119.58 pour les hôpitaux généraux d'enseignement complet de 1 - 499 lits.

Revenus bruts provenant des soins généraux fournis aux hospitalisés

Les hôpitaux publics généraux et spéciaux divers ont accusé des revenus bruts, provenant des soins généraux aux hospitalisés, de \$2,649.2 millions en 1973. Les revenus des régimes provinciaux ont fourni 95.6 % de cette somme (voir le tableau 27). Les revenus provenant des régimes s'échelonnaient entre 91.6 % des revenus bruts au Nouveau-Brunswick et 97.0 % au Québec. Les autres sources de revenus des services généraux pour hospitalisés étaient les paiements effectués au nom des personnes ne résidant pas dans la province d'hospitalisation (1.7 %) et par la Commission des accidents du travail (1.3 %). Des frais autorisés, également connus dans certaines provinces sous le nom de coassurance, sont payés pour les soins assurés au tarif de la salle commune en Alberta, en Colombie-Britannique et dans les Territoires du Nord-Ouest.

Autres revenus d'exploitation

Les hôpitaux publics généraux et spéciaux divers ont accusé des revenus de \$106.2 millions d'autres "revenus d'exploitation" en 1973 (voir le tableau 28). Ainsi, 51.5 % de ces revenus proviennent des recouvrements et ventes des services de diététique, de chambre ou de logement, tandis que 19.6 % viennent des autres recouvrements et ventes de services, 6.9 % des placements et 3.9 % des dons.

Balance Sheets

Integrated Fund, as at December 31 (Operating and Capital Funds)

Current Assets

In 1973 current assets constituted 13.3% of the \$3,460 million of total assets reported by public hospitals (Table 29). Accounts receivable from services to patients amounted to 5.4% of total assets, comprising due from Provincial Plans (3.6%), "other" receivables such as Blue Cross or Workmen's Compensation Boards (1.4%) and estimated year-end adjustments (0.4%). Inventory of supplies accounted for 2.0% of total assets in 1973, decreasing with hospital size from a high of 4.5% in the 1 - 24 bed general, non-teaching, no long-term unit hospitals to a low of 1.2% in the 1 - 499 bed general, full-teaching hospitals. Inventory of supplies per rated bed rose by 12.5% from \$453.96 in 1972 to \$510.81 in 1973 and varied inversely with hospital size dropping from \$676.36 in the 1 - 24 bed general, non-teaching, no long-term unit hospitals to \$450.69 in the 500+ bed general partial-teaching hospitals (Table 34). Provincially, inventory of supplies per rated bed ranged from \$385.36 in Alberta to \$702.17 in Newfoundland, in 1973. Cash on hand and in the bank accounted for 1.6% of total assets in 1973 and investments accounted for 2.3%. This percentage relationship tended to diminish with hospital size for both cash and investments.

Assets Held for Capital Purposes

Although similar in nature to current assets, capital assets are restricted by law, government ruling or by management policy as being held for capital purposes only. In 1973, assets held for capital purposes amounted to 5.2% of total assets reported by public hospitals and consisted mainly of investments (3.0% of total assets) and cash on hand and in the bank (0.9%) followed by capital grants (0.8%) (Table 29).

Property, Plant and Equipment at Book Value

Property, plant and equipment at book value accounted for in excess of 4/5 (80.5%) of the reported assets of public hospitals in 1973 (Table 29). The book value of buildings and building service equipment represented almost 3/5 (58.2%) of the total assets reported by public hospitals in 1973. Major equipment shareable accounted for an additional 11.2% followed by construction in progress (7.1%) and land (2.3%).

Bilans hospitaliers

Fonds intégré, au 31 décembre (fonds d'exploitation et d'immobilisations)

Disponibilités

En 1973 les disponibilités constituaient 13.3 % des \$3,460 millions du total de l'actif déclaré par les hôpitaux publics (tableau 29). Les comptes à recevoir pour les services rendus aux patients représentaient 5.4 % du total de l'actif et comprenaient les montants dûs par les régimes d'assurance-hospitalisation des provinces (3.6 %), les "autres" comptes à recevoir comme ceux de la Croix bleue ou de la Commission des accidents du travail (1.4 %) et les estimations des ajustements de fin d'année (0.4 %). Les stocks, qui représentaient 2.0 % du total de l'actif en 1973, diminuaient en proportion avec la taille de l'hôpital, passant de 4.5 % dans les hôpitaux généraux ne dispensant aucun enseignement, ne disposant d'aucune unité pour maladies de longue durée et comptant de 1 - 24 lits, à 1.2 % dans les hôpitaux généraux d'enseignement complet possédant de 1 - 499 lits. La valeur des stocks par lit théorique a augmenté de 12.5 % passant de \$453.96 en 1972 à \$510.81 en 1973 et variait inversement à la taille de l'hôpital, tombant de \$676.36 dans les hôpitaux généraux ne dispensant aucun enseignement, ne disposant d'aucune unité de soins pour maladies de longue durée et comptant de 1 - 24 lits, à \$450.69 dans les hôpitaux généraux d'enseignement partiel comptant 500 lits ou plus (tableau 34). Au niveau provincial, la valeur des stocks par lit théorique en 1973 variait de \$385.36 en Alberta à \$702.17 à Terre-Neuve. L'encaisse et les dépôts bancaires représentaient 1.6 % du total de l'actif et les placements représentaient 2.3 % en 1973. Cette proportion tendait à diminuer avec la taille de l'hôpital, aussi bien pour l'encaisse et les dépôts que pour les placements.

Actif détenu pour fins d'immobilisations

Quoique de nature semblable aux disponibilités, les capitaux d'immobilisations sont contraints par la loi, les règlements gouvernementaux ou par les politiques de gestion, à servir uniquement à des fins d'immobilisations. En 1973, l'actif détenu pour fins d'immobilisations représentait 5.2 % du total de l'actif déclaré par les hôpitaux publics et était constitué principalement de placements (3.0 % du total de l'actif) et d'encaisse et les dépôts bancaires (0.9 %) ainsi que des subventions (0.8 %) (tableau 29).

Valeur comptable de la propriété, des installations et du matériel

En 1973, la valeur comptable de la propriété, des installations et du matériel représentait plus des 4/5 (80.5 %) de l'actif déclaré par les hôpitaux publics (tableau 29). La valeur comptable des bâtiments et du matériel fixe représentait près des 3/5 (58.2 %) du total de l'actif déclaré par les hôpitaux publics en 1973. Le gros matériel partageable représentait 11.2 % du total de l'actif, suivi par les constructions en cours (7.1 %) et les terrains (2.3 %).

The cost of buildings and building service equipment per rated bed was \$19,764.98 in 1973, rising from \$13,687.82 in the 1 - 24 bed general, non-teaching, no long-term unit hospitals to \$38,019.80 in 1 - 499 bed general full-teaching hospitals and varying provincially from \$13,706.54 in Prince Edward Island to \$27,103.61 in Newfoundland (Table 32). The cost of major equipment (shareable and non-shareable) increased by 7.3% to \$6,325.73 in 1973 ranging from \$4,340.49 in the 1 - 24 bed general, non-teaching, no long-term unit hospitals to \$10,579.40 in the 1 - 499 bed general, full-teaching hospitals and from \$4,377.10 in Prince Edward Island to \$7,541.91 in Newfoundland (Table 33).

Current Liabilities

Current liabilities made up more than 1/4 (29.7%) of the \$1,218 million of total liabilities reported by public hospitals in 1973 (Table 30). Trade and other accounts payable on a current basis (including employee deductions payable) amounted to more than 1/10 (11.5%) of total liabilities followed by accounts payable (4.5%), accrued liabilities (4.3%) and bank loans and overdrafts (4.3%).

Capital Liabilities – Short-term

Capital liabilities short-term accounted for almost 1/10 (9.4%) of total liabilities reported in 1973 (Table 30). Bank loans and overdrafts which accounted for 3.3% of total liabilities and accounts payable which amounted to 2.6% of total liabilities constituted the bulk of these liabilities in 1973.

Long-term Liabilities

More than 3/5 (60.9%) of total liabilities reported in 1973 were long-term (Table 30). Bonds and debentures accounted for 37.7% of total liabilities comprising those issued by hospitals (32.1% of total liabilities), by municipalities (3.8%) and by others (1.8%). Advances from the provinces or Provincial Plans amounted to 13.6% of total liabilities in 1973 followed by bank loans (1.5%) and notes payable (1.2%).

Endowment and Special Purpose Funds, as at December 31

Assets

“Endowment and special purpose fund” assets as reported by 254 public hospitals in 1973 totaled \$111 million, 69.6% of which were investments (Table 35).

Le coût des bâtiments et du matériel fixe par lit théorique a atteint \$19,764.98 en 1973, passant de \$13,687.82 dans les hôpitaux généraux ne dispensant aucun enseignement, ne disposant d'aucune unité pour maladies de longue durée et comptant de 1 - 24 lits, à \$38,019.80 dans les hôpitaux généraux d'enseignement complet comptant de 1 - 499 lits; au niveau provincial, il varie de \$13,706.54 à l'Île-du-Prince-Édouard, à \$27,103.61 à Terre-Neuve (tableau 32). Le coût du gros matériel (partageable et non partageable) a augmenté de 7.3 % et a atteint \$6,325.73 en 1973, s'échelonnant de \$4,340.49 dans les hôpitaux généraux ne dispensant aucun enseignement, ne disposant d'aucune unité pour maladies de longue durée et comptant de 1 - 24 lits, à \$10,579.40 dans les hôpitaux généraux d'enseignement complet comptant de 1 - 499 lits; il variait de \$4,377.10 à l'Île-du-Prince-Édouard, à \$7,541.91 à Terre-Neuve (tableau 33).

Passif à court terme

Le passif à court terme représentait plus de 1/4 (29.7 %) des \$1,218 millions du total du passif déclaré par les hôpitaux publics en 1973 (tableau 30). Les comptes de fournisseurs et les autres comptes payables à court terme (y compris les déductions des employés à payer) représentaient plus de 1/10 (11.5 %) du total du passif, suivis par les comptes à payer (4.5 %), les charges à payer (4.3 %) et les emprunts et les découverts bancaires (4.3 %).

Passif de nature capitale à court terme

Le passif de nature capitale à court terme représentait presque 1/10 (9.4 %) du total du passif déclaré en 1973 (tableau 30). Les emprunts et les découverts bancaires, qui représentaient 3.3 % du total du passif, et les comptes à payer qui représentaient 2.6 % du total du passif, constituaient la plus grosse partie de ce passif en 1973.

Passif à long terme

Plus de 3/5 (60.9 %) du total du passif déclaré en 1973 étaient à long terme (tableau 30). Les obligations à payer représentaient 37.7 % du total du passif; elles comprennent les émissions effectuées par les hôpitaux (32.1 % du total du passif), par les municipalités (3.8 %) et par d'autres (1.8 %). Les avances consenties par les régimes d'assurance-hospitalisation des provinces représentaient 13.6 % du total du passif en 1973, suivies par les emprunts bancaires (1.5 %) et les billets à payer (1.2 %).

Fonds de dotation et fonds réservé à des fins spéciales, au 31 décembre

Actif

L'actif du “fonds de dotation et du fonds réservé à des fins spéciales”, déclaré par 254 hôpitaux publics en 1973 totalisait \$111 millions, dont 69.6 % constituaient

Other assets included due from other funds (7.1%), land (6.0%), cash and bank accounts (5.3%), buildings (3.5%) receivables and accrued assets (2.8%).

Liabilities

"Endowment and special purpose fund" liabilities of reporting public hospitals amounted to \$15 million in 1973 and consisted mainly of amounts due to other "funds" (54.8%) and long-term liabilities (21.2%) (Table 36). Other liabilities included accounts payable (6.6%) and loans payable (3.9%).

des placements (tableau 35). Les autres éléments de cet actif comprenaient les montants dûs par d'autres "fonds" (7.1 %), les terrains (6.0 %), les comptes en caisse et en banque (5.3 %), les bâtiments (3.5 %), les comptes à recevoir et éléments d'actif à recevoir (2.8 %).

Passif

Le passif du "fonds de dotation et du fonds réservé à des fins spéciales", déclaré par les hôpitaux publics a atteint \$15 millions en 1973 et se composait principalement des montants dûs à d'autres "fonds" (54.8 %) et les hypothèques à payer (non échues) (21.2 %) (tableau 36). Les autres éléments du passif comprenaient les comptes à payer (6.6 %) et les emprunts à payer (3.9 %).
