PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities, finances of general and allied special hospitals and mental institutions operating in Canada is prepared by the Hospitals Section of the Health Division of Statistics Canada. A series of one quarterly and six annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The reader's attention is drawn to the fact that, beginning with the reporting year 1973, Volume I, II and III have been condensed and combined into one volume: *Volume I – Hospital Statistics: Beds, Services and Personnel*, Catalogue 83-227. In a similar manner, Volume IV, V and VI have become *Volume II – Hospital Statistics: Expenditures, Revenues and Balance Sheets*, Catalogue 83-228 and Volume VII – has become *Volume III – Hospitals Statistics: Indicators*, Catalogue 83-229.

PETER G. KIRKHAM,
Chief Statistician of Canada.

PRÉFACE

La Section des hôpitaux de la Division de la santé de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique, la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux du Canada. Statistique Canada publie six bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Nous attirons l'attention du lecteur sur le fait qu'à partir de 1973, les volumes I, II et III ont été condensés et fusionnés en un volume: *Volume I – Statistique hospitalière: lits, services et personnel*, n° 83-227 au catalogue. De même les volumes IV, V et VI deviennent: *Volume II – Statistique hospitalière: dépenses, revenus et bilan*, n° 83-228 au catalogue. Le volume VII devient: *Volume III – Indicateurs*, n° 83-229 au catalogue.

Le statisticien en chef du Canada,
PETER G. KIRKHAM.

EXPLANATORY NOTES AND GLOSSARY

Hospital

Is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions.

Public Hospital

Public (including voluntary, provincial and municipal) – Applies to a hospital recognized by the province as a “public hospital”. Such a hospital generally is not operated for profit.

Type of Service

General

No long-term units – Refers to a hospital which provides **primarily** for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries. The services of a general hospital are not restricted to a specific age group or sex.

With long-term units – Refers to a hospital with a group of beds or rooms or a separate wing or building which is recognized as a distinct and separate treatment unit of the hospital. Admission normally requires formal admission procedures even when transferred from another part of the hospital.

Full medical teaching hospital – Applies to a hospital which provides medical education programs, approved by the appropriate authorities, for the major (not only elective) clinical instruction in at least the medical disciplines of internal medicine and general surgery to undergraduate medical students in their final two years.

Partial medical teaching hospital – Applies to a hospital which provides post-graduate medical education programs, approved by the appropriate authorities, in at least one residency program in a medical specialty.

Allied Special Hospitals

Includes pediatric, rehabilitation, extended care, and “other” hospitals.

Pediatric hospital – A hospital which provides primarily for the diagnosis and short-term treatment of pediatric patients, generally 14 years of age and under.

NOTES EXPLICATIVES ET TERMINOLOGIE

Hôpital

Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint; et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

Hôpital public

Public (s'applique aux hôpitaux sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux) – Hôpital reconnu par la province comme “public”. Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Genre de service

Hôpital général

Sans unités de soins à long terme – Hôpital qui assure **principalement** des soins de courte durée (diagnostique et traitement) d'une grande variété d'affections et de traumatismes, sans distinction d'âge et de sexe.

Avec unités de soins à long terme – S'applique à un hôpital comprenant un groupe de lits ou de chambres ou une aile ou un bâtiment séparé qui est considéré comme quartier de traitement distinct. Pour y être admis, il faut en général remplir les formalités de demande d'admission, même s'il s'agit d'un transfert d'un autre quartier de l'hôpital.

Hôpital d'enseignement médical complet – Hôpital qui offre des programmes d'enseignement médical, dûment approuvés par les autorités compétentes, pour la formation clinique des étudiants effectuant leurs deux dernières années d'études dans des disciplines majeures (non pas seulement facultatives), dont la médecine interne et la chirurgie générale.

Hôpital d'enseignement médical partiel – Hôpital qui offre des programmes réguliers d'enseignement médical, dûment approuvés par les autorités compétentes, aux diplômés en médecine dans au moins un programme de résidence d'une spécialité médicale.

Hôpitaux spéciaux divers

Ce groupe comprend les hôpitaux pédiatriques, de réadaptation, soins prolongés, et les “autres” hôpitaux.

Hôpital pédiatrique – Hôpital qui se spécialise dans le diagnostic et le traitement à court terme des maladies chez les enfants, âgés généralement de 14 ans ou moins.

Rehabilitation (including convalescent) – Applies to a hospital which provides primarily for the continuing assessment and treatment of patients whose condition is expected to improve significantly through the provision of physical medicine and other rehabilitative services.

Extended care (including chronic) – Applies to a hospital which provides primarily for the continuing treatment of patients with long-term illness or with a low potential for recovery and who require regular medical assessment and continuing nursing care.

Other – A hospital which provides primarily for the treatment of a limited range of diseases or injuries, or which restricts admissions to a particular age group or sex. Examples of such specified categories may include orthopaedic, maternity, neurological, cancer hospitals. A hospital which provides a combination of various types of service and cannot be classified in any one of the foregoing categories is included in this group. "Other" also includes nursing stations and outpost hospitals.

Type of Unit

Short-term units – Adults and children – Are those inpatient units provided for patients who at the time of admission require extensive diagnostic and treatment services and/or skilled nursing care and comprehensive medical attention.

Long-term units – Adults and children – Are those inpatient units provided for patients who at the time of admission require regular medical assessment, treatment services and continuing nursing care.

Other – Refers to long-term units which do not clearly fall under the foregoing categories.

Subject Matter Terminology

Rated Bed (Bassinets) Capacity

The number of beds and cribs (bassinets) which the hospital is designed to accommodate on the basis of established standards of floor area per bed (bassinets) as at December 31 of the reporting year.

Inpatient

A patient who is duly admitted to the hospital and to whom a bed, crib (bassinets) has been allocated (this excludes stillbirths as well as patients attending a day or night centre attached to the hospital).

Hôpital de réadaptation (convalescence comprise) – Hôpital qui assure principalement la surveillance et le traitement suivis des personnes dont l'état est censé s'améliorer à la suite de soins de médecine physique et de réadaptation.

Hôpital de soins prolongés (maladies chroniques comprises) – Hôpital qui dispense principalement des traitements suivis à des personnes affectées de maladies de longue durée ou de guérison lente et requérant des soins médicaux et infirmiers de façon continue.

Autres – Hôpital qui assure principalement le traitement d'un nombre restreint de maladies ou de traumatismes, ou qui n'admet que les malades d'un groupe d'âge ou d'un sexe particulier (par ex., orthopédie, maternité, neurologie, cancer). L'hôpital qui offre divers genres de services et qui ne peut être classé dans aucune des catégories susmentionnées est compris dans ce groupe. "Autres" comprend en outre les postes de soins infirmiers et les hôpitaux éloignés.

Genre d'unité

Unités de soins de courte durée – Adultes et enfants – Il s'agit des unités d'hospitalisation où sont traités les malades dont l'état, au moment de leur admission, requiert des services intensifs de diagnostic et de traitement et (ou) des soins infirmiers spécialisés et une surveillance médicale soutenue.

Unités de soins de longue durée – Adultes et enfants – S'applique aux unités d'hospitalisation où sont traités les malades dont l'état, au moment de leur admission, requiert des services réguliers de surveillance médicale et des traitements et des soins infirmiers de façon continue.

Autres – Lorsque les unités n'entrent pas dans les catégories ci-dessus.

Terminologie de matière

Capacité théorique en lits (berceaux)

Le nombre de lits et de berceaux que l'hôpital (par parquet établi) peut abriter au 31 décembre de l'année du rapport.

Hospitalisé

Un malade qui est réglementairement admis à l'hôpital et à qui un lit ou un berceau a été assigné. Cette définition ne comprend pas les mort-nés ni les malades admis à un centre de jour et de nuit.

Adults and children — All inpatients except newborn.

Newborn — An infant inpatient born alive in the hospital or postnatal newborn admitted with mother for obstetric care.

Patient-day

The period of service to an inpatient between the census-taking hours on two successive days; the day of admission is counted as a patient-day but the day of separation is not.

Outpatient

An outpatient is a patient who receives the services of the hospital, but who is not admitted as an inpatient. This category includes private outpatients as well as patients attending a day or night centre.

Statistical Measurements

First quartile (Q1) — That value where 25% of the hospitals have a ratio of this amount or less and 75% have a higher ratio.

Second quartile (Q2) — That value where 50% of the hospitals have a ratio of this amount or less and 50% have a higher ratio — commonly referred to as the median.

Third quartile (Q3) — That value where 75% of the hospitals have a ratio of this amount or less and 25% have a higher ratio.

Notes:

1. Medians are not presented in the tables of this publication unless there are three or more hospitals reporting data for the indicators to which they relate. Similarly, there must be eight or more reporting hospitals for the inclusion of first and third quartile values. No such limitations apply to the calculation of the mean.
2. Indicator values for hospitals located in the Yukon and Northwest Territories, notably federal hospitals, do not appear as such in tabular presentations due to the constraints imposed by tabular planning requirements — these values, however, are implicit in the Canada total.
3. Radiologists' and pathologists' remuneration previously included in supplies and other expense is now included as salaries and wages — all medical staff remuneration.
4. Beginning in 1969, medical and surgical supplies and drugs are not distributed to individual departments but are reported in total only.

Adultes et enfants — Tous les hospitalisés, sauf les nouveau-nés.

Nouveau-né — Bébé né vivant à l'hôpital, ou nouveau-né admis après la naissance avec sa mère pour soins obstétriques.

Journée d'hospitalisation

Période de soins fournis à un hospitalisé entre les heures du recensement quotidien de deux jours consécutifs; le jour de l'admission compte comme journée d'hospitalisation, mais non le jour de la sortie.

Malade externe

Le malade externe est celui qui, sans être hospitalisé, bénéficie des services d'un hôpital. Cette catégorie comprend les malades externes particuliers aussi bien que les malades qui fréquentent un centre de jour ou de nuit.

Mesures statistiques

Premier quartile (Q1) — Valeur où 25 % des hôpitaux ont une proportion de ce montant ou moins et 75 % ont une proportion plus élevée.

Deuxième quartile (Q2) — Valeur où 50 % des hôpitaux ont une proportion de ce montant ou moins et 50 % ont une proportion plus élevée; communément appelée médiane.

Troisième quartile (Q3) — Valeur où 75 % des hôpitaux ont une proportion de ce montant ou moins et 25 % ont une proportion plus élevée.

Remarques:

1. Les tableaux de ce bulletin ne contiennent pas les médianes, à moins que trois hôpitaux ou plus ne fournissent des données sur les indicateurs en question. De même, pour qu'ils comprennent les premier et troisième quartiles, il faut que huit hôpitaux ou plus fournissent les données correspondantes. Le calcul de la moyenne ne fait toutefois pas l'objet de restrictions semblables.
2. Les indicateurs des hôpitaux situés au Yukon et dans les Territoires du Nord-Ouest, notamment ceux des hôpitaux fédéraux, n'apparaissent pas comme tels dans les tableaux à cause des exigences de la planification des tableaux; ces données sont toutefois comprises dans le total pour le Canada.
3. La rémunération des radiologistes et des pathologistes faisait partie auparavant des fournitures et autres dépenses, elle est maintenant comprise dans la rémunération de tout le personnel médical.
4. À compter de 1969, les fournitures médicales et chirurgicales de même que les médicaments ne sont plus répartis selon les divers services; seul le total est indiqué.

Operating Expense

The cost, on an accrual basis of operating and maintaining the hospital during the year.

Gross salaries and wages including all medical staff remuneration – These are distributed to three sub-categories:

Medical staff – Includes all types of hospital remuneration earned during the year by paid medical staff, i.e., salaries, wages, fees, contract rates, honorariums, etc.

Interns, residents and students – Includes gross salaries and wages earned during the year by interns, residents or students enrolled in organized educational programs, as well as by those affiliated-in or sponsored to take a course elsewhere. It excludes salaries paid to regular employees involved in extramural training or persons receiving on-the-job training.

Other gross salaries and wages – Includes gross salaries and wages earned during the year by all other staff including non-medical teaching staff and regular employees involved in extramural or on-the-job training.

Supplies and other expenses – These are distributed to three sub-categories:

Supplies and other expenses (excluding medical and surgical supplies and drugs) – Includes all of the hospital's operating expenses other than gross salaries and wages and excluding the cost of medical and surgical supplies and drugs.

Medical and surgical supplies – The total cost of this class of supplies.

Drugs – The total cost of this class of supplies.

Operating Income

Operating income is the revenue that accrues during the year for the purpose of operation and maintenance of the hospital.

Income from Services to Patients

Gross income – This includes the amounts earned by the rendering of services to patients. These amounts are represented by the regular rates of the hospital charged for such services, regardless of the terms of any contract, agreement, or understanding as to the basis of rates to be paid.

Dépenses d'exploitation

Les dépenses d'exploitation et d'entretien de l'hôpital au cours de l'année, établies d'après la comptabilité d'exercice.

Rémunération brute, y compris la rémunération du personnel médical – Qui se subdivisent en trois parties:

Personnel médical – Tous les genres de rémunération payée par l'hôpital et gagnée au cours de l'année par le personnel hospitalier, c.à.d., traitements, salaires, honoraires de tous genres, gains forfaitaires, etc.

Internes, résidents et élèves – La rémunération brute gagnée au cours de l'année par les internes, les résidents et les élèves participant à des programmes organisés d'enseignement, ainsi que ceux qui suivent des cours ailleurs grâce à une subvention ou en vertu d'une affiliation quelconque. Ne comprend pas les traitements versés aux employés permanents recevant une formation à l'extérieur ni aux personnes recevant une formation en cours d'emploi.

Autre rémunération brute – La rémunération brute gagnée au cours de l'année par tous les autres membres du personnel, y compris le personnel enseignant non médical et les employés permanents recevant une formation à l'extérieur ou en cours d'emploi.

Fournitures et autres dépenses – Qui se subdivisent en trois parties:

Fournitures et autres dépenses (fournitures médicales et chirurgicales et médicaments exclus) – Toutes les dépenses d'exploitation de l'hôpital autres que la rémunération brute à l'exclusion du coût des fournitures médicales et chirurgicales et des médicaments.

Fournitures médicales et chirurgicales – Le coût total de ce genre de fournitures.

Médicaments – Le coût total de ce genre de fournitures.

Revenus d'exploitation

Les revenus d'exploitation sont les revenus gagnés durant l'année aux fins de l'exploitation et de l'entretien de l'hôpital.

Revenus provenant des soins donnés aux malades

Revenus bruts – Ils comprennent les montants provenant des services fournis aux malades. Il s'agit des sommes que l'hôpital exige ordinairement pour ces services, quelles que soient les conditions de tout contrat, convention ou entente quant à la base du tarif exigible.

Net income -- Net income comprises the difference between gross income and deductions such as courtesy, rebates and free service, and bad debts, less recoveries.

Income from Inpatient Services

Inpatient general services -- General services include accommodation and meals, general nursing care, and all of the special services provided to inpatients, such as the use of the surgical suite, obstetrical suite, laboratory and radiology, etc., which the hospital includes in its charges at the **basic standard ward daily rate**.

Authorized charges -- An authorized charge is a per diem amount designated by a province to be charged to an insured inpatient for insured services at the standard ward level. This amount is in addition to the regular payment made by the Provincial Plan. Authorized charges apply only in certain provinces and may be locally known as co-insurance.

Inpatient additional services -- Differential charges for preferred accommodation over and above the standard ward daily rates when the patients' accounts have been charged for private or semi-private accommodation.

Income from Outpatient Services

Income from outpatient services consists of income from organized outpatient departments and other outpatient services.

Income from organized outpatient department -- This is the income of an organized unit, recognized as such by the Provincial Plan, set up and equipped as a separate department of the hospital. The main function of this unit is to provide special clinical facilities for medical diagnosis and treatment of outpatients. Some services may also be provided to inpatients.

Grants -- These are monies received by the hospital from other than private sources, for Revenue Fund purposes only, such as maintaining services covering operating deficit and carrying on special research projects. These grants are in addition to and must be distinguished from any earnings derived from Provincial Plans or government departments to pay for the care of patients.

Other income -- This includes donations, contributed services, investment income, rental of real

Revenus nets -- Les revenus nets sont la différence entre les revenus bruts et les déductions, telles que faveurs, rabais et soins gratuits et mauvaises créances, moins les recouvrements.

Revenus provenant des services pour malades hospitalisés

Soins généraux fournis aux malades hospitalisés (revenus bruts) -- Les soins généraux comprennent la chambre et les repas, les soins infirmiers réguliers et tous les services spéciaux fournis aux hospitalisés, comme l'usage du bloc opératoire, d'obstétrique, les services de laboratoire et de radiologie, etc., qui sont compris dans le taux quotidien de base de la salle commune.

Frais autorisés -- Les frais autorisés sont les sommes journalières fixées par la province, que l'hôpital peut réclamer d'un hospitalisé assuré pour des services assurés, au tarif de la salle commune. Ce montant est en sus des paiements réguliers versés par le régime provincial. Les frais autorisés ne sont en vigueur que dans certaines provinces, où ils sont parfois connus sous le nom de coassurance.

Soins supplémentaires fournis aux malades hospitalisés (revenus bruts) -- Suppléments pour lits "privés" ou "semi-privés" en sus du tarif de la salle commune, lorsque le prix du lit "semi-privé" ou "privé" a été porté au compte des malades.

Consultations externes (revenus bruts)

Revenus des services pour malades externes comprend les revenus du service de consultation externe agréée et autres soins pour malades externes.

Consultation externe agréée -- Il s'agit ici des revenus de la consultation externe agréée comme telle par le Régime provincial, établi et organisée comme service distinct de l'hôpital. Son rôle principal est de fournir les services cliniques spéciaux pour le diagnostic et le traitement des malades externes. Il peut également fournir certains services aux malades hospitalisés.

Subventions -- Sommes que l'hôpital a reçues d'autres sources que privées pour les seules fins du fonds d'administration générale -- comme soins d'entretien -- en vue de parer au déficit de gestion et d'effectuer des recherches spéciales. Ces subventions sont en sus et doivent être distinguées de toute recette provenant de régimes ou ministères provinciaux et destinées à payer le soin des malades.

Autres revenus -- Comprends les dons, services non rétribués du personnel, revenus de placements, location

estate, cash discounts on purchases, recoveries and sales, income from ancillary operations, and miscellaneous income.

Contributed services — Includes the value of donated services of full-time or part-time personnel (including members of religious orders) but excludes volunteer or campaign fund workers.

Ancillary operations — Includes income from operations such as a farm or garden, barber shop, florist shop, etc.

Balance Sheets

Beginning with the reporting year 1969 there are two optional systems for the treatment of balance sheet accounts:

(a) using three basic funds:

Operating Fund,
Capital Fund,
Endowment and Special Purpose Fund;

or

(b) using two basic funds:

Integrated Fund (the consolidation of Operating and Capital Funds),
Endowment and Special Purpose Fund.

Operating fund — Includes all the operating assets and liabilities other than capital assets and liabilities incurred in connection with the acquisition of such assets.

Capital fund — Includes assets held for future acquisition of plant assets, the assets themselves (which have resulted from past expenditures of capital funds) and related liabilities.

Integrated fund — The consolidation of Operating and Capital Funds. Funds awaiting spending on acquisition of capital assets are earmarked within the Integrated Fund.

Equity — These accounts, whether reserves or unappropriated balances, represent the difference between the assets and liabilities of the hospital, i.e., the hospital's equity in its assets (other than Endowment and Special Purpose Fund assets).

Reserves

- (1) Operating reserves — The amount of equity that has been formally set aside as a reserve for contingencies or working capital or other similar purposes.
- (2) Sinking fund reserve — That portion of the assets held for capital purposes that will eventually be used to redeem long-term debt in accordance with the trust indenture under which the debt was originally issued.
- (3) Building fund reserve — That portion of the assets held for capital purposes that has been earmarked for investment in new building projects.

d'immeubles, escomptes au comptant sur achats, recouvrements et ventes, revenus des services annexes, et revenus divers.

Services gratuits — Comprend la valeur des services donnés par le personnel à plein temps ou à temps partiel (y compris les religieux) mais exclut les volontaires ou les participants de campagnes de souscription.

Exploitations auxiliaires — Comprend les revenus provenant d'exploitations telles que ferme ou jardin, salon de coiffure, boutique de fleuriste, etc.

Bilan

À partir de l'année de référence 1969, deux systèmes facultatifs de traitement des comptes du bilan peuvent être utilisés:

a) en distinguant trois fonds de base:

Le fonds d'exploitation,
Le fonds d'immobilisations,
Le fonds de dotation et le fonds réservé à des fins spéciales;

ou

b) en distinguant deux fonds de base:

Le fonds intégré (la consolidation du fonds d'exploitation et du fonds d'immobilisations),
Le fonds de dotation et le fonds réservé à des fins spéciales.

Fonds d'exploitation — Comprend toutes les valeurs de l'actif et du passif, de l'exploitation de l'hôpital, excepté les immobilisations et les dettes contractées pour leur acquisition.

Fonds d'immobilisations — Comprend les valeurs d'actif détenues pour l'acquisition de futures immobilisations (qui ont été acquises par des dépenses du fonds d'immobilisations), et les dettes s'y rattachant.

Fonds intégré — (La consolidation du fonds d'exploitation et du fonds d'immobilisations.) Les fonds destinés à l'acquisition d'immobilisations, sont isolés à l'intérieur du fonds intégré.

Avoir — Ces montants, sous forme de réserves ou de soldes non affectés, représentent la différence entre l'actif et le passif de l'hôpital, c'est-à-dire l'actif de l'hôpital dans son actif (autre que l'actif du fonds de dotation et du fonds réservé à des fins spéciales).

Réserves

- (1) Réserves d'exploitation — Le montant de l'actif qui a été dûment constitué en réserves pour imprévus ou en capital de roulement ou qui sert à d'autres fins semblables.
- (2) Réserve du fonds de remboursement de la dette — La partie de l'actif détenu pour fins d'immobilisations qui servira un jour à rembourser la dette à long terme en conformité du brevet d'inscription hypothécaire en vertu duquel la dette a été contractée à l'origine.
- (3) Réserve du fonds de bâtiment — La partie de l'actif détenu pour fins d'immobilisations qui est réservée pour de nouveaux travaux de construction.

- (4) **Depreciation fund reserve** – That portion of the assets held for capital purposes that has been accumulated as a result of earmarking cash for future replacement of depreciable property, plant and equipment. This account would be used, for example, if funds representing shareable depreciation were required to be funded separately.
- (5) **Other capital purposes** – Any other reserves where assets held for capital purposes are formally set aside for capital purposes not falling into any preceding category.

Unappropriated equity – The unappropriated equity of the Operating Fund and of the Capital Fund when such Funds are separately maintained.

Endowment and Special Purpose Fund – Includes all other assets held for special purposes and related liabilities (if any), including assets held as an endowment.

Estimated year-end adjustment – The amount due to or from the Provincial Plan of the province and other agencies with respect to the adjustment of a surplus or deficit incurred during the year.

Buildings and building service equipment – Includes all structures owned by the hospital and used in carrying out normal functions, as well as equipment added, to heat, light, ventilate or otherwise make serviceable.

Major equipment (shareable) – The cost of equipment, the purchase of which has been approved by the Provincial Plan, and which:

- (1) has an estimated useful life of five years or more;
- (2) is usually moveable but if affixed has been installed to meet the particular requirement of a hospital function;
- (3) is capable of precise description, positive identification, and physical control;
- (4) has an economic value great enough to justify distributing the expense of its diminution over the period of its useful life.

Major equipment (non-shareable) – The cost of ambulances, any major equipment financed through the Health Resources Fund, and any item of major equipment the cost of which is specified as non-shareable by the Provincial Plan.

Minor equipment – The value of hospital equipment generally possessing the following characteristics:

- (1) has a relatively small unit cost;
- (2) has a probable useful life of not more than five years;
- (3) is relatively small in size with no fixed location;
- (4) is fairly numerous in quantity and would be difficult to keep track of individually.

(4) **Réserve du fonds d'amortissement** – La partie de l'actif détenu pour fins d'immobilisations qui a été accumulée et réservée pour le remplacement de propriété, d'installations et de matériel amortissable. Ce compte est utilisé, par exemple, si les fonds représentant l'amortissement partageable doivent être distincts.

(5) **Autres réserves pour fonds d'immobilisations** – Toute autre réserve dont l'actif détenu pour fins d'immobilisations est mise de côté à des fins d'immobilisations et n'entre dans aucune catégorie précédente.

Avoir non affecté – L'avoir non affecté du fonds d'exploitation et du fonds d'immobilisations s'ils sont distincts.

Fonds de dotation et le fonds réservé à des fins spéciales – Comprend tous les autres éléments d'actif détenus pour des buts particuliers et les obligations qui s'y rattachent (s'il y a lieu), y compris les éléments d'actif à titre de dotation.

Estimation de l'ajustement de fin d'année – Le montant dû au ou du régime d'assurance-hospitalisation de la province et des autres organismes ou à en recevoir, en ce qui traite à l'ajustement du surplus ou du déficit au cours de l'année.

Bâtiments et matériel fixe – Comprend l'ensemble des bâtiments que possède l'hôpital et qui servent aux fonctions régulières de celui-ci, de même que le matériel ajouté au chauffage, à l'éclairage et à la ventilation, ou mis en service de quelque manière.

Gros matériel (coût partageable) – Le coût du matériel, acheté en conformité du plan provincial, et qui:

- (1) a une durée estimative d'au moins cinq ans;
- (2) est ordinairement mobile, mais qu'on a fixé à demeure pour répondre à un besoin particulier de l'hôpital;
- (3) peut être clairement décrit et facilement identifié;
- (4) a une valeur économique assez grande pour justifier la répartition des frais d'amortissement sur toute sa durée.

Gros matériel (coût non partageable) – Le coût des ambulances, du gros matériel financé grâce à la Caisse d'aide à la santé et de tout article de gros matériel dont le coût est non partageable en vertu du régime provincial.

Petit matériel – La valeur du matériel hospitalier possédant les caractéristiques générales suivantes:

- (1) coût unitaire relativement peu élevé;
- (2) durée probable de moins de cinq ans;
- (3) de dimensions relativement faibles et mobiles;
- (4) dont la quantité est assez grande et dont il serait difficile de garder la trace de chaque élément.

INTRODUCTION

This publication presents statistical information pertaining to the operating expenditure, income and balance sheets, accounted on an accrual basis, of Canadian public general and allied special hospitals for the reporting year 1975. See Preface, last paragraph for an explanation of the volume consolidation. The report also contains an historic summary of basic expenditure and income data pertaining to the public hospital system as a whole for the years 1960-1975 so that the expenditures and revenues of general and allied special hospitals may be shown in their proper perspective within the context of total expenditures and revenues. It should be noted that mental institutions and tuberculosis sanatoria are referred to for historical comparability only in Table 1 of this report. Complete financial coverage for these institutions is available in separate reports.¹

The data for this report have been derived from the *Annual Returns of Hospitals – Part 1 (Facilities and Services) and Part 2 (Finances)*. These documents are compiled by the individual hospitals and are received at Statistics Canada through the co-operation of the respective provincial hospital insurance authorities. Data from the reporting forms of mental hospitals are also used in this publication. Most of these reporting forms are received by Statistics Canada via the respective provincial departments of health, the remainder being sent directly by the reporting institutions themselves.

The reader will observe that an unabbreviated hospital classification stub qualifying the abbreviated stub used in computerized tabulations is presented in the Explanatory Notes and Glossary which appears on the preceding pages.

A general footnote applicable to tables presented in Sections II, III and IV of this publication should be noted at this time: in a number of these tables, no values are shown for hospitals with less than 50 beds due to the fact that in hospitals of this bed size, a detailed information breakdown was not required. This general notation is also applicable to other hospital categories which include hospitals with less than 50 beds, e.g., 1-99 beds, rehabilitation (including convalescent) extended care (including chronic) other, etc. Also, indicator values shown represent only those hospitals which reported non-zero data for all component items constituting the specific indicators.

Expenditure distribution tables and direct cost indicators exclude medical and surgical supplies and drugs unless otherwise stated. In some instances,

Le présent bulletin contient des renseignements statistiques sur les dépenses et les revenus d'exploitation et les bilans financiers de l'année de déclaration 1975 préparés par les hôpitaux publics généraux et spéciaux divers. Voir la préface, dernier paragraphe. Il contient aussi un sommaire chronologique des données de base sur les dépenses et les revenus d'exploitation de l'ensemble du système hospitalier public de 1960-1975, de façon à ce que les recettes des hôpitaux généraux et spéciaux divers puissent être examinées dans le contexte de l'ensemble des recettes. Il convient de noter que seul le tableau 1 du bulletin contient des données sur les établissements pour malades mentaux et pour tuberculeux afin de pouvoir établir des comparaisons chronologiques. D'autres bulletins¹ contiennent une analyse financière complète de ces établissements.

Les données publiées dans ce bulletin sont extraites du *Rapport d'activité des hôpitaux, partie 1 (Installations et services) et partie 2 (Finances)*. Ces données ont été compilées individuellement par les hôpitaux et envoyées à Statistique Canada par les responsables provinciaux de l'assurance-hospitalisation. Ce bulletin renferme également les données des hôpitaux pour malades mentaux répondants. La plupart des comptes rendus d'activité sont envoyés à Statistique Canada par les ministères provinciaux de la santé, les autres étant envoyés directement par les établissements eux-mêmes.

On remarquera que les abréviations utilisées dans les tableaux d'ordinateur sont expliquées dans les Notes explicatives et la terminologie présentées dans les pages précédentes.

Il convient de noter le renvoi général qui se rapporte aux tableaux des sections II, III et IV de cette publication: certains tableaux ne comportent aucun chiffre pour les hôpitaux de moins de 50 lits étant donné qu'on ne demandait aucun renseignement détaillé aux hôpitaux de cette taille. C'est aussi le cas des autres catégories d'hôpitaux qui comprennent les établissements de moins de 50 lits; par ex., 1-99 lits, réadaptation (comprend convalescence) soins prolongés (comprend chronique), autres, etc. Les présents indicateurs ne représentent que les hôpitaux qui ont fourni des données pour les différents postes qui constituent ces indicateurs.

Les tableaux présentant la répartition des dépenses et les indicateurs des coûts directs ne comprennent pas les dépenses pour les fournitures médicales et chirurgicales et

“supplies and other expenses” data for the province of Quebec contain negative numbers not designated by minus signs. Most table totals and sub-totals should be correct but some may appear to be in error if all components are summed as positive numbers.

The reader will note that, in 1975, total expenditure and total gross salaries and wages information for the province of Quebec include retroactive salaries and wages and a cost of living allowance (indexation). Retroactive payment data were distributed to departments but indexation data were not.

In order to provide provincial and regional comparisons, balance sheet data for those provinces reporting on a funded basis have been consolidated and are presented in this report on an integrated basis, i.e., the “operating and capital funds” as reported by the provinces of Quebec, Manitoba and British Columbia have been converted by Statistics Canada into the “integrated fund” system as used by the remainder of the provinces and all references in this report will be to “integrated fund”.

In 1975, there were 31 public general and allied special hospitals with 560 rated beds which either did not report financial data or whose data arrived too late for, or was unsuitable for tabulation. Expenditures and revenues for these hospitals were estimated by Statistics Canada and were incorporated with reported data in Statements 1 and 4 and Tables 1 and 2 of this report. There were 15 public mental institutions with 953 rated beds which did not report either their 1975 financial position or sufficient data for estimations to be made. One public tuberculosis sanatorium with 29 beds did not report financial data in 1975.

“Operating expense” for all public hospitals in 1975 amounted to \$5,410.4 million, an increase of 20.9% or \$936.1 million over 1974 expenditures. Expenditures by general and allied special hospitals accounted for 87.2% of this total or \$4,720.2 million, an increase of 21.9% from 1974. Expenditures by mental hospitals increased by 14.5% to \$681.9 million in 1975 while tuberculosis sanatoria expenditures increased by 11.5% to \$8.3 million (Table 1).

“Operating income” reached \$4,650.9 million for all public general and allied special hospitals in 1975, a rise of 21.9% over the comparable 1974 figure of \$3,815.0 million (Table 2).

les médicaments à moins qu'il en soit stipulé autrement. Dans certains cas, les données de la province de Québec figurant sous la rubrique “Fournitures et autres dépenses”, comprennent des chiffres négatifs qui ne sont pas accompagnés du signe moins. Le total et les sommes partielles de la plupart des tableaux sont exacts mais certains peuvent paraître faux si la somme de tous les éléments portent le signe plus.

Le lecteur remarquera qu'en 1975, le total des dépenses d'exploitation et le total des traitements et salaires bruts de la province de Québec comprennent les montants rétroactifs et l'indexation à la hausse du coût de la vie. Bien que les paiements rétroactifs aient été distribués selon les services, les données de l'indexation ne le furent pas.

Afin de permettre des comparaisons entre les provinces et entre les régions, les données du bilan pour les provinces qui déclarent sur une base de comptabilité par fonds ont été consolidées et sont présentées dans cette publication sur une base de comptabilité intégrée, c.-à-d., que les “fonds d'exploitation et les fonds d'immobilisation”, déclarés par le Québec, le Manitoba et la Colombie-Britannique, ont été convertis par Statistique Canada selon le système de “fonds intégré”, utilisé par les autres provinces; toutes les références de cette publication seront faites par rapport au “fonds intégré”.

En 1975, 31 hôpitaux publics généraux et spéciaux divers possédant un total de 560 lits exploitables n'ont pas fait de rapport financier, n'ont pas envoyé leur rapport à temps ou ont envoyé un rapport impossible à mettre en tableaux. Toutefois, Statistique Canada s'est chargé d'estimer les dépenses et les revenus de ces hôpitaux et de les ajouter aux données des états 1 et 4, et dans les tableaux 1 et 2. Quinze hôpitaux publics pour malades mentaux (953 lits théoriques) n'ont fourni ni rapport financier pour 1975 ni données suffisantes qui permettent de faire des estimations. Un des hôpitaux publics pour tuberculeux (29 lits théoriques) n'a pas fourni de rapport financiers.

Les “dépenses d'exploitation” de l'ensemble des hôpitaux publics en 1975 se chiffraient à \$5,410.4 millions, soit une augmentation de 20.9 % (\$936.1 millions) par rapport à 1974. Les dépenses des hôpitaux généraux et spéciaux divers se chiffrent à \$4,720.2 millions, soit 87.2 % des dépenses de l'ensemble des hôpitaux publics, ce qui représente une augmentation de 21.9 % par rapport à 1974. Les dépenses des hôpitaux pour malades mentaux ont atteint \$681.9 millions, soit une augmentation de 14.5 % en 1975, tandis que les dépenses des établissements pour tuberculeux ont augmenté de 11.5 % pour se chiffrer à \$8.3 millions (voir le tableau 1).

En 1975, les “revenus d'exploitation” de l'ensemble des hôpitaux publics généraux et spéciaux divers, ont atteint \$4,650.9 millions, soit une augmentation de 21.9 % par rapport aux revenus de \$3,815.0 millions en 1974 (voir le tableau 2).

This report contains "integrated fund" balance sheet data for 990 (94.9%) of the 1,043 public general and allied special hospitals in operation in 1975 and "endowment and special purpose fund" data as reported by 266 (25.5%) of the public hospitals. Total reported assets of the combined "funds" stood at \$4,388.7 million with the "integrated fund" accounting for \$4,255.2 million and the "endowment and special purpose fund" for \$133.5 million (Table 4). Total current and long-term liabilities for the "integrated fund" amounted to \$1,575.4 million and for the "endowment and special purpose fund" \$26.0 million.

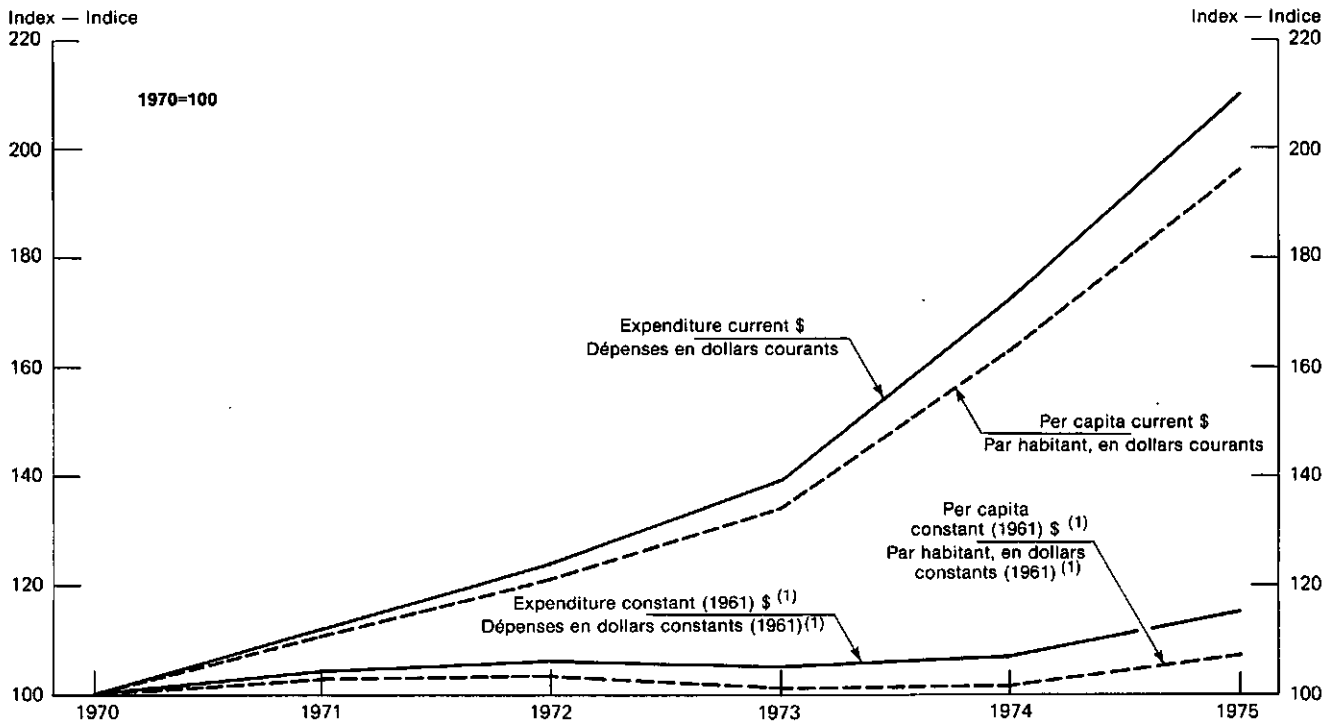

Cette publication contient les données du bilan du "fonds intégré" relatives à 990 (94.9%) des 1,043 hôpitaux publics généraux et spéciaux divers en activité en 1975, ainsi que les données relatives au "fonds de dotation et au fonds réservé à des fins spéciales" par 266 hôpitaux publics (soit 25.5 % du total). L'actif total déclaré des "fonds combinés" atteignait \$4,388.7 millions dont \$4,255.2 millions représentaient le "fonds intégré" et \$133.5 millions le "fonds de dotation et le fonds réservé à des fins spéciales" (tableau 4). Le total du passif exigible à court et à long terme s'élevait à \$1,575.4 millions pour le "fonds intégré" et à \$26.0 millions pour le "fonds de dotation et le fonds réservé à des fins spéciales".

Indices of Operating Expense Public General and Allied Special Hospitals, 1970-1975

Indices des dépenses d'exploitation hôpitaux publics généraux et spéciaux divers, 1970-1975

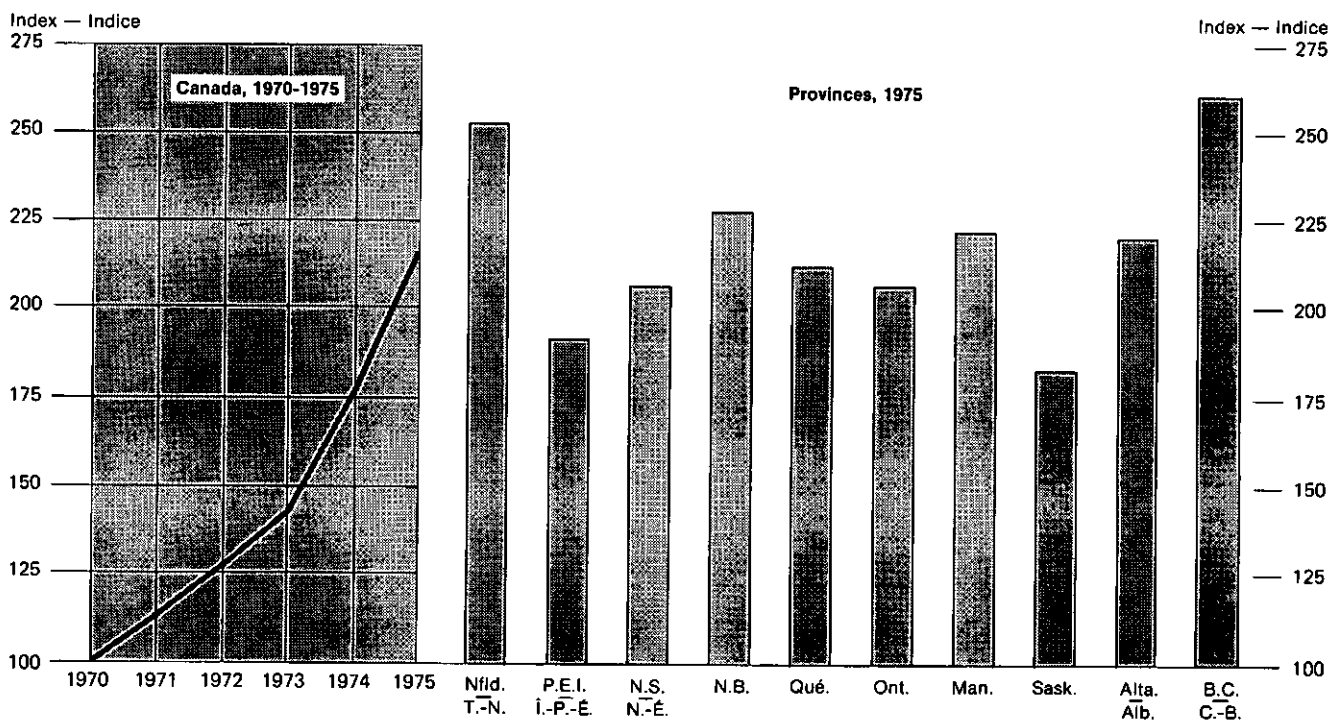

(1) Three indices were used to obtain a constant dollar expenditure series. Payroll series for the service industries was used to deflate gross salaries and wages (Statistics Canada, Catalogue 72-201); wholesale food price index was used to deflate the food component, while the wholesale non-food price index was used to deflate all remaining expenditures.

(1) On a utilisé trois indices pour transposer la série de dépenses en dollars constants. On s'est servi des statistiques de la paie dans les industries de service pour dégonfler la rémunération brute (voir n° 72-201 au catalogue de Statistique Canada); l'indice des prix de gros des aliments a servi à dégonfler l'élément alimentation tandis que l'indice des prix de gros des produits non alimentaires a servi pour les autres dépenses.

Available Data

Données disponibles

Data appearing in this publication comprise only part of the information available on hospitals. A series of one quarterly, six annual and a number of occasional, non-catalogue reports are published by the Section. Unpublished data are generally available free of charge, unless the request entails the production of complex tabulations. All data collected are available in either summary or indicator form by province, type and size of hospital. Release of unpublished data is subject to the confidentiality provisions of the Statistics Act.

Les données de cette publication ne représentent qu'une partie des renseignements disponibles sur les hôpitaux. Une série de bulletins dont un trimestriel, six annuels ainsi qu'un certain nombre de rapports hors série sont publiés par la Section. Les données inédites sont généralement fournies gratuitement, sur demande, à moins qu'il ne soit nécessaire de produire des tableaux complexes. On peut se procurer toutes les données recueillies sous forme de tableaux sommaires ou d'indicateurs, ventilés selon la province, le genre et la taille de l'établissement. La divulgation de données inédites est soumise aux règles de confidentialité de la Loi sur la statistique.
