INTRODUCTION

Statistics on residential care facilities have been compiled and made available since 1975. The term "residential facilities" refers to facilities with four beds or more, funded, licensed or approved by provincial/territorial departments of health/social services which provide nursing/counselling services to residents as compared to active medical treatment provided in hospitals. Among the facilities included are homes for the aged, physically handicapped, psychiatrically disabled and retarded, facilities for clients with alcohol and drug problems, for emotionally disturbed children, transients, delinquents, shelters for families in crisis and others.

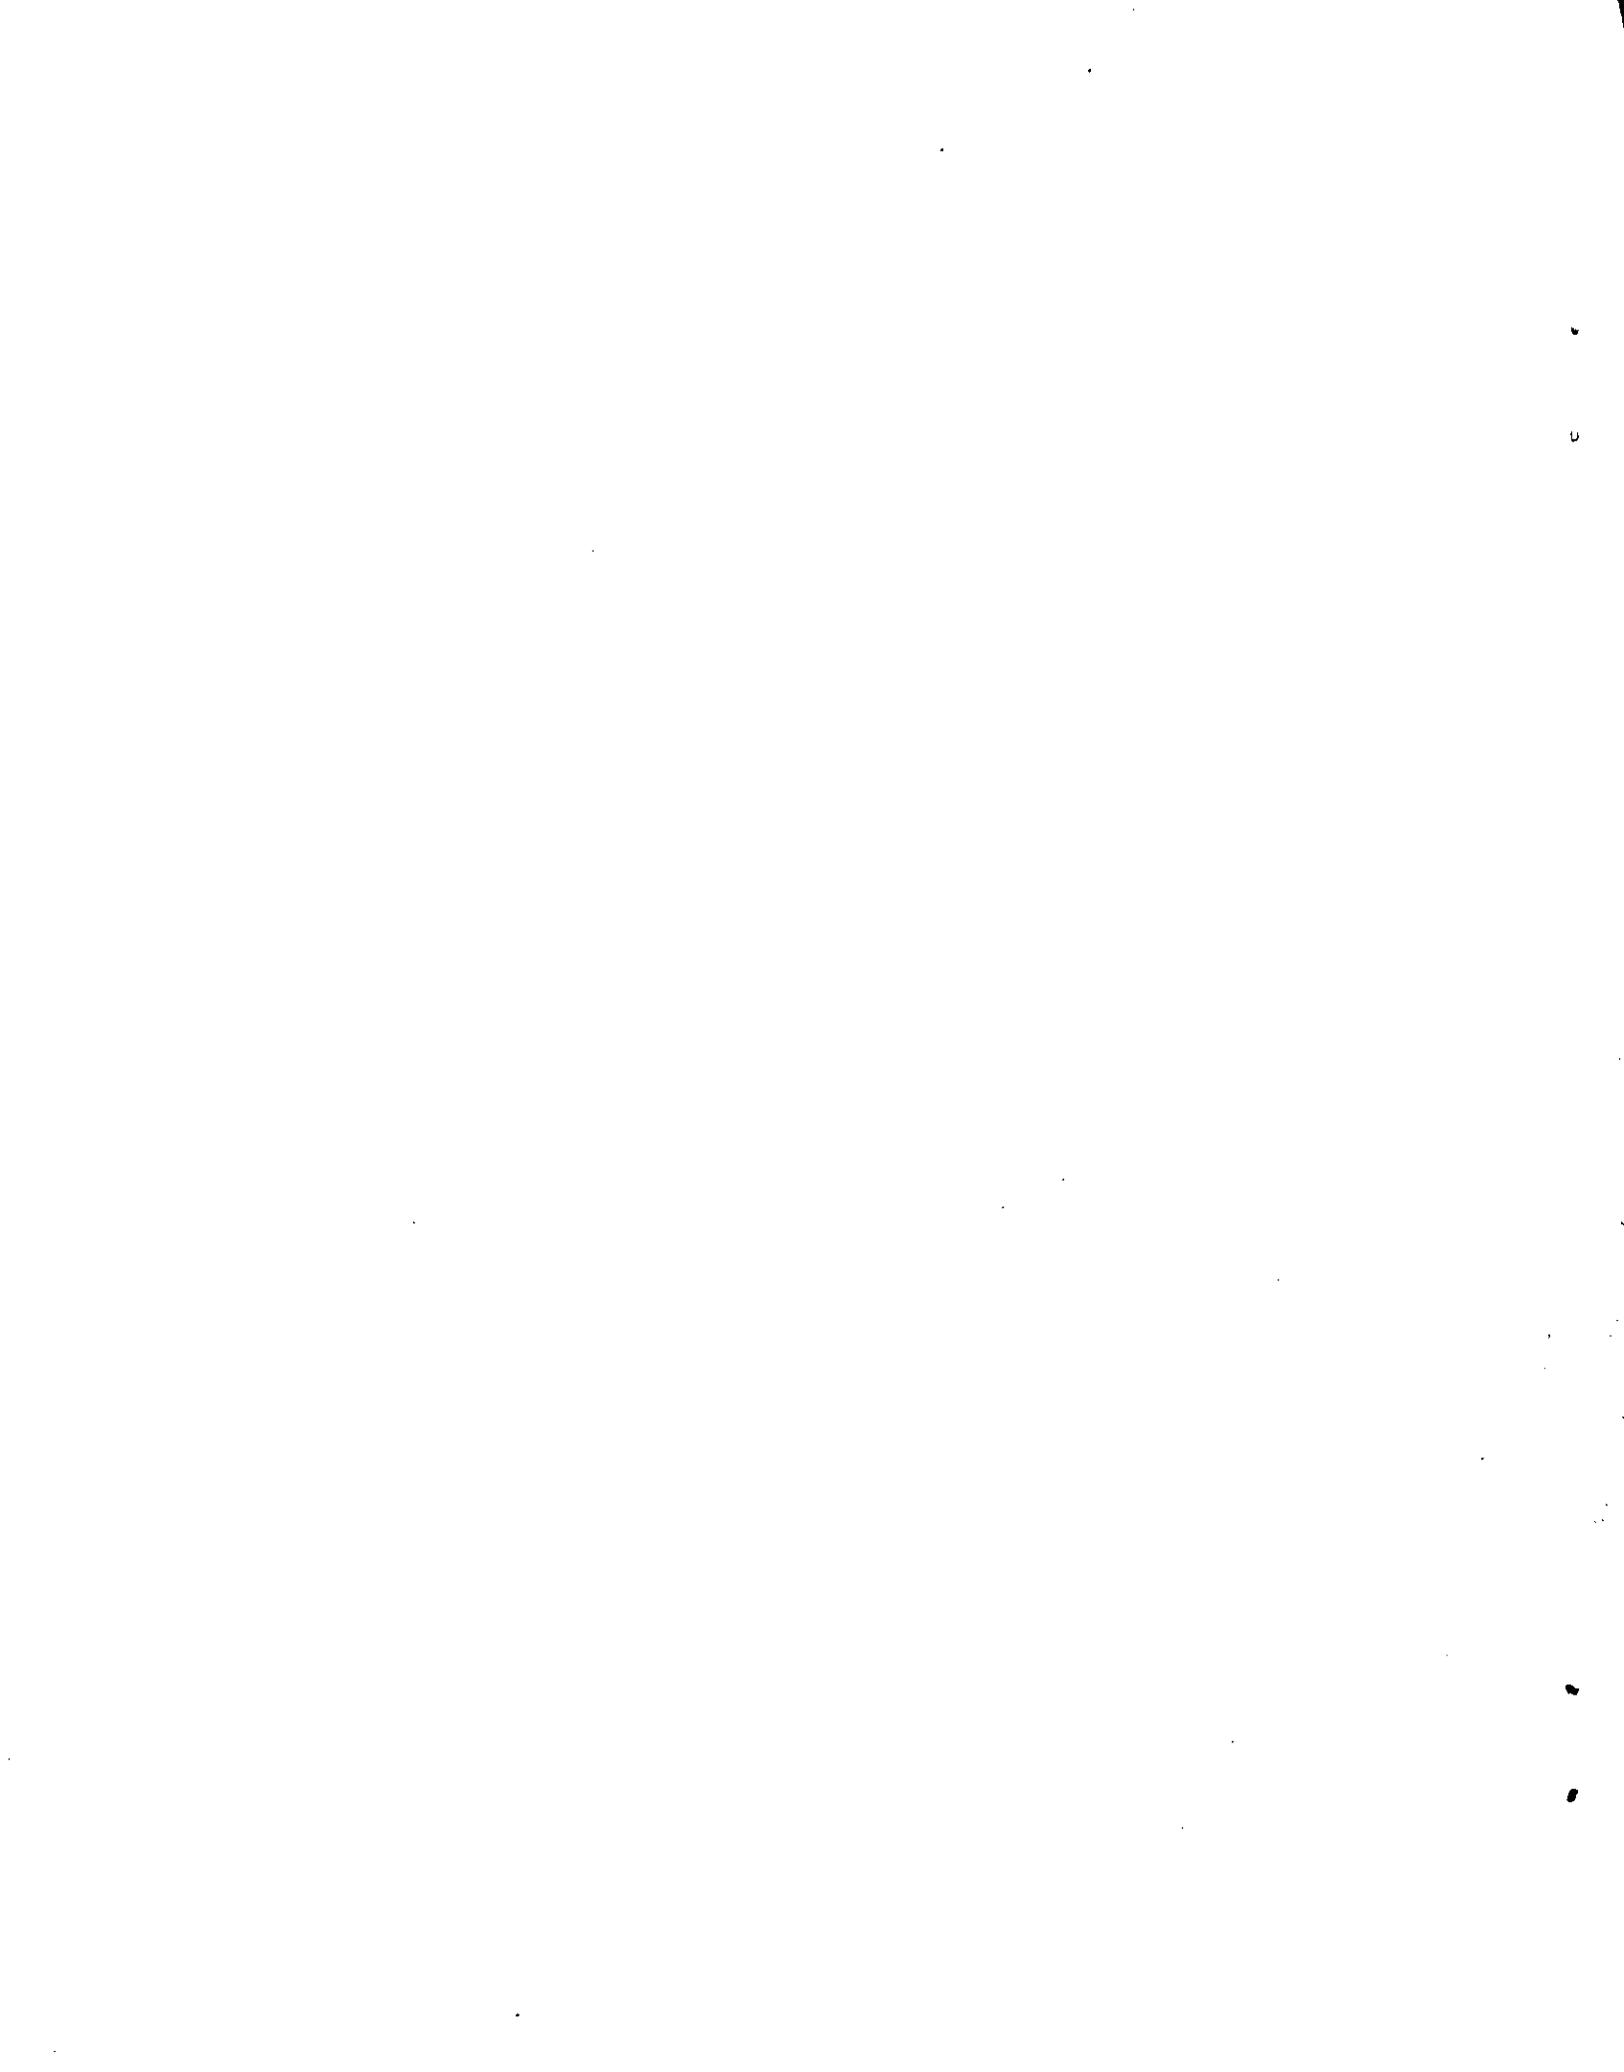

Currently, an extensive array of statistics relating to these facilities, personnel employed and finances are prepared by the Health Care Section, Health Division, Statistics Canada.

Statistics Canada wishes to express its indebtedness to the administrators/owners of the individual facilities across the nation who have prepared and submitted data for inclusion in this report and to the provincial health and social service officials who have provided lists of facilities

Statistique Canada établit et publie des statistiques sur les établissements de soins pour bénéficiaires internes depuis 1975. L'expression "établissements de soins pour bénéficiaires internes" désigne les établissements dotés de quatre lits ou plus, financés, approuvés, ou titulaires d'un permis délivré par le ministère provincial/territorial des services sociaux et de la santé, qui assurent aux résidents des soins infirmiers et des consultations plutôt que des traitements médicaux comme c'est le cas dans les hôpitaux. Sont inclus dans ces établissements les résidences pour les personnes âgées, les personnes souffrant d'un handicap physique, les personnes souffrant d'un handicap mental ou d'arriération mentale les centres pour les alcooliques et toxicomanes, les enfants itinérantes et les délinquants, les refuges pour les victimes de violence familiale, etc.

À l'heure actuelle, la Section des soins de santé de la Division de la santé, de Statistique Canada, établit un grand nombre de statistiques sur ces établissements, leur personnel et leur situation financière.

Statistique Canada désire rendre hommage aux administrateurs et propriétaires de chacun des établissements du pays qui ont établi et présenté les données qui figurent dans le présent rapport et aux responsables des services sociaux et de santé des provinces qui ont fourni les listes des établissements.

METHODOLOGY

Objectives

Institutional statistics constitute part of the essential requirements of several federal departments as well as the various provincial departments of health, social services and education. The data are further used for the administrative evaluation of and planning for major provincial and federal programs as well as satisfying many of the needs of administrators, researchers and large special interest groups in the community.

Coverage

The survey frame is a list of residential care facilities of four or more beds which are approved, funded or licensed by provincial/territorial departments of health/social services. There were 4,785 facilities with 237,328 beds operating in Canada at the end of the fiscal year 1986-87. Of these, 4,011 facilities with 189,188 beds responded to the survey.

Format

The data for this report have been derived from the Annual Return of Residential Care Facilities (formerly called the Annual Return of Special Care Facilities). Data appearing in this publication comprise only a small part of the information available on residential care facilities. All data collected are available in summary by province, principal characteristic of the predominant group of residents, size of facility and type of care. The release of unpublished data is subject to the confidentiality provisions of the Statistics Act and may entail a charge, depending on the complexity and nature of the tabulations requested.

MÉTHODOLOGIE

Objectifs

La statistique des établissements répond aux besoins essentiels de plusieurs ministères fédéraux ainsi que de divers ministères provinciaux de la santé, des services sociaux et de l'éducation. Les données servent en outre à administrer, évaluer et planifier les principaux programmes fédéraux et provinciaux et à répondre à bon nombre des besoins des administrateurs d'hôpitaux, des chercheurs et des principaux groupes d'intérêt spéciaux de la collectivité.

Champ d'observation

La base de sondage est constituée d'une liste des établissements de soins pour bénéficiaires internes dotés de quatre lits ou plus, qui sont approuvés, financés ou titulaires d'un permis délivré par le ministère provincial/territorial des services sociaux et de la santé. À la fin de l'exercice financier 1986-87, il y avait 4,785 établissements comptant 237,328 lits en exploitation au Canada. De ce nombre 4,011 établissements comptant 189,188 lits ont participé à l'enquête.

Présentation

Les données de la présente publication proviennent du Rapport annuel des établissements de soins pour bénéficiaires internes (connu auparavant sous le nom de Rapport annuel des établissements de soins spéciaux). Les données figurant dans la publication ne comprennent qu'une petite partie des renseignements disponibles sur les établissements de soins pour bénéficiaires internes. Toutes les données recueillies paraissent sous forme sommaire selon la province, la caractéristique principale du groupe prédominant de bénéficiaires, la taille de l'établissement et le genre de soins. La diffusion des données non publiées est assujettie aux dispositions de la Loi sur la statistique relatives au caractère confidentiel des données, et Statistique Canada peut exiger des frais selon la complexité et la nature des totalisations demandées.

Data Capture and Editing

The majority of residential care facilities in the survey frame in Canada receive forms mailed out by Statistics Canada. In New Brunswick, forms are mailed out to nursing homes by provincial officials. In Quebec, all information is provided by the provincial department from data collected by them. The same is true for nursing homes in Alberta. Personal care homes in Manitoba were not included in this survey.

Manual and computer edits and consistency checks were carried out at Statistics Canada. Problems identified by these editing procedures were resolved by comparison with prior years' forms and by liaison with provincial/territorial authorities. The Statistics Canada edit program is based on concepts and definitions determined and continuously reviewed by the appropriate provincial/territorial and federal agencies.

Saisie et vérification des données

La majorité des établissements de soins pour bénéficiaires internes dans la base du sondage du Canada reçoivent les formules que leur envoie Statistique Canada par la poste. Au Nouveau-Brunswick, des fonctionnaires provinciaux envoient les formules par la poste aux maisons de repos. Au Québec, le ministère provincial fournit tous les renseignements à partir des données qu'il recueille. Il en est de même en Alberta pour les maisons de repos. Les établissements de soins au Manitoba, pour personnes âgées ne sont pas compris dans cette enquête.

Statistique Canada a procédé à des vérifications manuelles et automatisées et à des contrôles de compatibilité. On a résolu les problèmes repérés au cours de ces vérifications en comparant les formules à celles des années précédentes et en restant en contact avec les autorités provinciales/territoriales. Le programme de vérification de Statistique Canada est fondé sur les concepts et définitions déterminés et constamment révisés par les organismes provinciaux/territoriaux et fédéraux intéressés.

THE NEWS BEHIND THE NUMBERS

The 1986 Census Data Base collected the numbers on Canadians — but what do they mean to you? The *FOCUS ON CANADA* Series analyses the issues that emerged from the Census results, in layman's language.

FOCUS ON CANADA looks at the issues affecting Canada's seniors and its youth, its ethnic and aboriginal communities; its regions in the far north and the industrial south.

And there's much more to keep you informed — and enlightened. Each publication is bilingual, and costs \$10. Order the full set of 16 for a comprehensive reference tool for home, school or office.

CE QUI SE CACHE DERRIÈRE LES CHIFFRES

La base de données du recensement de 1986 renferme des chiffres sur les Canadiens. Mais que signifient-ils? La série *LE CANADA À L'ÉTUDE* analyse les questions qui proviennent des résultats du recensement, et ce, dans un langage de tous les jours.

LE CANADA À L'ÉTUDE examine les questions qui touchent les personnes âgées et les jeunes, les groupes ethniques et les autochtones, les régions éloignées du Grand Nord et la région industrialisée du sud du Canada.

De plus, cette série vous informe et vous éclaire grâce à d'innombrables autres renseignements. Chaque publication est bilingue et se vend 10\$. Commandez l'ensemble des 16 publications de façon à obtenir un outil de référence par excellence pour la maison, l'école ou le bureau.
