## Introduction

This report provides a detailed list of hospitals and beds operating in Canada on April 1, 1990. Hospitals are listed by province, alphabetically according to municipality. For each hospital the name, address and postal code are recorded. Also listed are such variables as category, type of hospital, ownership, approved bed complement and approved bassinets complement. Definitions of these items may be found at the back of the report.

This report was prepared by the Health Care Section of the Canadian Centre for Health Information of Statistics Canada after the revision of last year's inventory of hospitals. Statistics Canada is grateful for the cooperation received from the provincial ministries of health for their assistance in reviewing and updating the list.

In past years the List of Hospitals and List of Residential Care Facilities were released as a single publication. For those users who require both lists a special package price is available, the details of which are available from the Canadian Centre for Health Information.

Data appearing in this report comprise only part of the information available on hospitals. A series of quarterly and annual tables is published by the section. Unpublished data are available in summary and indicator formats and can be tabulated by province and hospital type and size. Requests for data may be subject to a fee in order to recover any costs incurred. Release of unpublished data is subject to the confidentiality provisions of the Statistics Act.

Le présent rapport contient la liste détaillée des hôpitaux et des lits au Canada au 1<sup>er</sup> avril 1990. Les hôpitaux sont énumérés par province et par ordre alphabétique, selon la municipalité. Le nom, l'adresse et le code postal de chaque hôpital sont indiqués. Figurent aussi dans le bulletin les listes de variables telles que la catégorie, le genre et la propriété de hôpitaux, ainsi que le nombre total de lits et de berceaux approuvés. Le lecteur trouvera à la fin du rapport la définition des termes utilisés.

La Section des soins de santé du Centre canadien d'information sur la santé de Statistique Canada a établi le présent rapport après avoir révisé la liste de l'année dernière. Statistique Canada tient à remercier les ministères provinciaux de la Santé d'avoir aidé à la révision et à la mise à jour de la liste.

Par le passé, la liste des hôpitaux et celle des établissements de soins pour bénéficiaires internes paraissaient dans le même rapport. Les utilisateurs peuvent s'adresser au Centre canadien d'information sur la santé.

Les données figurant dans le présent bulletin ne constituent qu'une partie des informations disponibles sur les hôpitaux. La section des soins de santé publie une série de tableaux trimestriels et annuels. Présentées sous forme de sommaires et d'indicateurs, les données non publiées peuvent faire l'objet de totalisations par province et selon le genre et la taille des hôpitaux. La Section pourra exiger des frais afin de couvrir toute dépense qu'elle aura engagée pour répondre à une demande de données. La diffusion des données non publiées est assujettie aux dispositions relatives à la confidentialité de la Loi sur la statistique.

# Over three million Canadian adults have a disability ...

# Plus de trois millions d'adultes canadiens ont une incapacité ...

**T**he Health and Activity Limitation Survey (HALS) interviewed over 120,000 disabled Canadians residing in households and institutions. The result is a unique and detailed database on the barriers faced by more than 1 in 10 Canadians during the conduct of their daily activities.

Whether you plan and develop policies and programs for persons with disabilities, employ disabled people, or design accommodation facilities or transportation services, HALS can provide you with the information you need to make better decisions.

A comprehensive profile of the disabled population is available for each province and territory. Special studies are also underway and cover issues such as:

- characteristics of disabled persons who are not in the labour force
- special needs of seniors with disabilities
- socio-economic conditions specific to women with disabilities

Call your nearest Statistics Canada Regional Reference Centre and find out more about the publications, special request service and microdata files from HALS. Our centres are listed in this publication.

**P**our l'Enquête sur la santé et les limitations d'activités, on a interviewé plus de 120 000 Canadiens atteints d'incapacité qui faisaient partie d'un ménage ou habitaient en institution. On a ainsi obtenu une base de données unique et détaillée sur les barrières que doit surmonter plus d'un Canadien sur dix dans ses activités quotidiennes.

Vous employez des personnes ayant une incapacité? Vous planifiez ou élaborer des politiques et des programmes à leur intention? Ou vous concevez des installations ou des services de transport? Alors, les résultats de l'Enquête peuvent vous aider à prendre des décisions éclairées.

Vous pouvez vous procurer un profil détaillé de la population ayant une incapacité pour chaque province et territoire. Des études spéciales sont également en cours et portent sur :

- les caractéristiques des personnes inactives ayant une incapacité
- les besoins particuliers des personnes âgées ayant une incapacité
- les conditions socio-économiques particulières aux femmes ayant une incapacité

Pour en savoir davantage sur les publications, le service de demandes spéciales et les fichiers de microdonnées de l'Enquête, téléphonez au Centre régional de consultation de Statistique Canada le plus près. Vous en trouverez la liste dans cette publication.
