## Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

## How to Obtain More Information

Inquiries about this table and related statistics or services should be directed to:

Information Production Section,

## Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordino-lingue et le système d'extraction de Statistique Canada.

## INTRODUCTION

Statistics on residential care facilities have been compiled and made available since 1975. The term "residential facilities" refers to facilities with four beds or more, funded, licensed or approved by provincial/territorial departments of health and/or social services. Among the facilities included are homes for the aged, physically handicapped, developmentally delayed, psychiatrically disabled, facilities for clients with alcohol and drug problems, for emotionally disturbed children, transients, delinquents, shelters for families in crises and others.

Statistics Canada wishes to express its indebtedness to the administrators/owners of the individual facilities across the nation who have prepared and submitted data for inclusion in this report and to the provincial health and social service officials who have provided lists of facilities.

Residential care facilities are listed alphabetically according to municipality. In this document, only RESIDENTIAL Special Care Facilities are included which maintain four or more beds for residents other than members of staff and which provide care to at least one resident. These facilities are, in general, maintained for people chronically ill or disabled who reside there more or less permanently, in contrast to, for example, a hospital where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services. Some psychiatric institutions are included here. The rest are listed in the List of Canadian Hospitals.

## METHODOLOGY

### Objectives

Institutional statistics constitute part of the essential requirements of several departments as well as the various provincial departments of health, social services and education. The data are further used for the administrative evaluation of and planning for major provincial and federal programs as well as satisfying many of the needs of administrators, researchers and large special interest groups in the community.

### Coverage

The survey frame is a list of residential care facilities of four or more beds which are approved, funded or licensed by provincial/territorial departments of health/social services. Some psychiatric institutions are included here. The remainder are included in the hospital survey. Generally residential care facilities provide a level of care that is below that at hospitals although there is some overlap. There were 4,876 facilities operating in Canada with 234,014 approved beds at the end of the fiscal year 1987-88. Of these, 4,171 facilities with 198,971 beds responded to the survey.

Statistique Canada établit et publie des statistiques sur les établissements de soins pour bénéficiaires internes depuis 1975. L'expression "établissements de soins pour bénéficiaires internes" désigne les établissements dotés de quatre lits ou plus, financés, approuvés, ou titulaires d'un permis délivré par le ministère provincial/territorial des services sociaux et/ou de la santé. Sont inclus dans ces établissements les résidences pour les personnes âgées, les personnes souffrant d'un handicap physique, les handicapés développementaux, les personnes souffrant de troubles psychiatriques, les centres pour les alcooliques et toxicomanes, les enfants souffrant de troubles émotifs, les personnes itinérantes et les délinquants les refuges pour les victimes de violence familiale, etc.

Statistique Canada désire rendre hommage aux administrateurs et propriétaires de chacun des établissements du pays qui ont établi et présenté les données qui figurent dans le présent rapport et aux responsables des services sociaux et de santé des provinces qui ont fourni les listes des établissements.

Les établissements de soins pour bénéficiaires internes figurent par ordre alphabétique selon la municipalité. Le présent document, ne tient compte que des Établissements RÉSIDENTIELS de soins spéciaux comprenant au moins quatre lits pour les résidents autres que les membres du personnel et où des soins sont prodigués à au moins un résident. Ces établissements sont habituellement destinés à des malades ou à des invalides chroniques qui y séjournent de façon plus ou moins permanente, par opposition, par exemple, à l'hôpital où les patients sont admis en fonction de leurs besoins médicaux et reçoivent des soins médicaux continus ainsi que des services diagnostiques et thérapeutiques. Quelques établissements psychiatriques sont inclus ici. Les autres sont énumérés dans la Liste des hôpitaux canadiens.

## MÉTHODOLOGIE

### Objectifs

La statistique des établissements répond aux besoins essentiels de plusieurs ministères fédéraux ainsi que de divers ministères provinciaux de la santé, des services sociaux et de l'éducation. Les données servent en outre à administrer, évaluer et planifier les principaux programmes fédéraux et provinciaux et à répondre à bon nombre des besoins des administrateurs d'hôpitaux, des chercheurs et des principaux groupes d'intérêt spéciaux de la collectivité

### Champ d'observation

La base de sondage est constituée d'une liste des établissements de soins pour bénéficiaires internes dotés de quatre lits ou plus, qui sont approuvés, financés ou titulaires d'un permis délivré par le ministère provincial/territorial des services sociaux et de la santé. Quelques établissements psychiatriques sont inclus ici. Les autres sont inclus dans les enquêtes des hôpitaux. Règle générale les soins dispensés dans les établissements de soins pour bénéficiaires internes sont d'un niveau inférieur à ceux des hôpitaux bien qu'il existe un certain chevauchement à cet égard. À la fin de l'exercice financier 1987-88, il y avait 4,876 établissements en activité au Canada avec 234,014 lits approuvés. De ce nombre 4,171 établissements comptant 198,971 lits ont participé à l'enquête.

## Format

The data for this report were derived from the Annual Return of Residential Care Facilities. Data appearing in these tables comprise only a small part of the information available on residential care facilities. All data collected are available in summary by province, principal characteristic of the predominant group of residents, size of facility and type of care.

The release of unpublished data is subject to the confidentiality provisions of the Statistics Act and may entail a charge, depending on the complexity and nature of the tabulations requested.

## Data Capture and Editing

The majority of residential care facilities in the survey frame in Canada receive forms mailed out by Statistics Canada. In New Brunswick, forms are mailed out to nursing homes by provincial officials. In Quebec, all information is provided by the provincial department from data collected by them. The same is true for nursing homes in Alberta. Personal care homes in Manitoba were not included in this survey.

Manual and computer edits and consistency checks were carried out at Statistics Canada. Problems identified by these editing procedures were resolved by comparison with prior years' forms and by liaison with provincial/territorial authorities. The Statistics Canada edit program is based on concepts and definitions determined and continuously reviewed by the appropriate provincial/territorial and federal agencies.

## GLOSSARY

### Principal Characteristics

Residents are classified into nine categories. Each category is the principal characteristic of the predominant group which comprises the largest number of residents in the facility.

Aged	Aged (residents who require care principally because of the aging process)
Phs Hand	Physically handicapped and/or disabled, including blind and deaf
Retarded	Mentally retarded, developmentally delayed
Mnt Hand	Mentally handicapped, psychiatrically disabled
Dst Chld	Emotionally disturbed children

## Présentation

Les données de ces tableaux proviennent du Rapport annuel des établissements de soins pour bénéficiaires internes (connu auparavant sous le nom de Rapport annuel des établissements de soins spéciaux). Les données figurant dans la publication ne comprennent qu'une petite partie des renseignements disponibles sur les établissements de soins pour bénéficiaires internes. Toutes les données recueillies paraissent sous forme sommaire selon la province, la caractéristique principale du groupe prédominant de bénéficiaires, la taille de l'établissement et le genre de soins.

La diffusion des données non publiées est assujettie aux dispositions de la Loi sur la statistique relative au caractère confidentiel des données, et Statistique Canada peut exiger des frais selon la complexité et la nature des totalisations demandées.

## Saisie et vérification des données

La majorité des établissements de soins pour bénéficiaires internes dans la base du sondage du Canada reçoivent les formules que leur envoie Statistique Canada par la poste. Au Nouveau-Brunswick, des fonctionnaires provinciaux envoient les formules par la poste aux maisons de repos. Au Québec, le ministère provincial fournit tous les renseignements à partir des données qu'il recueille. In ne est de même en Alberta pour les maisons de repos. Les établissements de soins au Manitoba, pour personnes âgées ne sont par compris dans cette enquête.

Statistique Canada a procédé à des vérifications manuelles et automatisées et à des contrôles de compatibilité. On a résolu les problèmes repérés au cours de ces vérifications en comparant les formules à celles des années précédentes et en restant en contact avec les autorités provinciales/territoriales. Le programme de vérification de Statistique Canada est fondé sur les concepts et définitions déterminés et constamment révisés par les organismes provinciaux/territoriaux et fédéraux intéressés.

## GLOSSAIRE

### Principales caractéristiques

Les résidents sont classés en neuf catégories. Chaque catégorie constitue la caractéristique principale du groupe prédominant, qui englobe le plus grand nombre de résidents dans l'établissement.

Aged	Personnes âgées (résidents qui ont besoin des soins en raison surtout du vieillissement)
Phs Hand	Handicapés physiques et/ou invalides, y compris les personnes aveugles et sourdes
Retarded	Arriérés mentaux, handicapés développementaux
