INTRODUCTION

The Canadian Centre for Health Information, formerly the Health Division of Statistics Canada, began collecting information on residential care facilities in 1974 using an address list from Health and Welfare Canada based facilities receiving benefits from the Canada Assistance Plan (CAP). Statistics Canada has expanded this inventory. It now includes as the target universe, all residential care facilities in Canada. Annually, provinces and territories are requested to update the inventory of residential care facilities held at Statistics Canada. **This inventory is produced annually as the "List of Residential Care Facilities".**

The term "residential care facilities" refers to facilities which are approved, funded or licensed by provincial/territorial departments of health and/or social services. Among the facilities included are homes for the aged (including nursing homes), physically handicapped, developmentally delayed, psychiatrically disabled, facilities for clients with alcohol and drug problems, for emotionally disturbed children, transients, delinquents, and others.

Le Centre canadien d'information sur la santé de Statistique Canada, anciennement appelé Division de la santé, a commencé un répertoire sur les établissements de soins pour bénéficiaires internes en 1974 à l'aide d'une liste d'adresses établie par Santé et Bien-être social Canada, sur laquelle figuraient les coordonnées des établissements recevant des indemnités du Régime d'assistance publique du Canada (RAPC). Statistique Canada a élargi ce répertoire dont l'univers cible comprend maintenant tous les établissements de soins pour bénéficiaires internes du Canada. Chaque année, les provinces et les territoires sont invités à mettre à jour le répertoire des établissements de soins pour bénéficiaires internes dont Statistique Canada assure la tenue. **Il s'agit là d'un répertoire annuel intitulé "Liste des établissements de soins pour bénéficiaires internes".**

On entend par "établissements de soins pour bénéficiaires internes" les établissements agréés, subventionnés ou titulaires d'un permis délivré par les ministères provinciaux ou territoriaux de la Santé ou des Services sociaux. Ces établissements regroupent les résidences (maisons de repos comprises) pour les personnes âgées, les personnes souffrant d'un handicap physique, les handicapés développementaux, les personnes souffrant de troubles psychiques, les alcooliques et les toxicomanes, les enfants souffrant de troubles émotifs, les personnes itinérantes, les délinquants, ainsi que d'autres bénéficiaires.

Some of these facilities (homes for the aged, most facilities for the physically handicapped, developmentally delayed and psychiatrically disabled) generally are maintained for people chronically ill or disabled who reside there more or less permanently, in contrast to, for example, a hospital where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services. Generally residential care facilities provide a level of care that is below hospitals, although there is some overlap. Some psychiatric institutions are included in the inventory of residential care facilities. The remainder are included in the inventory of hospitals and complete the Annual Return of Health Care Facilities - Hospitals.

The remainder of residential care facilities (emotionally disturbed children, alcohol and drug problems, delinquents, transients and others) provide shelter for a shorter period of time often providing a program of service.

Residential care facilities **in this List** are listed alphabetically according to municipality. In this document, only RESIDENTIAL Care Facilities are included which maintain four or more beds for residents and which provide care (**including counselling**) to at least one resident.

This list of facilities is used as the survey frame for the Survey of Residential Care Facilities. This survey collects data related to the residents, personnel and finances of these facilities. The data are compiled by province, principal

Certains établissements (les foyers pour les personnes âgées et la plupart des établissements pour les personnes souffrant d'un handicap physique, les handicapés développementaux et les personnes atteintes de troubles psychiques) s'adressent en général à des malades chroniques ou à des personnes handicapées qui y résident plus ou moins en permanence, par opposition par exemple aux hôpitaux où les patients sont accueillis pour des raisons de santé et reçoivent en permanence des soins médicaux et des services diagnostiques et thérapeutiques à l'appui. En général, les soins dispensés par les établissements pour bénéficiaires internes se situent à un niveau inférieur à celui des services offerts par les hôpitaux, bien qu'il y ait un certain chevauchement. Certains établissements psychiatriques figurent dans le répertoire des établissements de soins pour bénéficiaires internes. Les autres établissements sont inscrits dans le répertoire des hôpitaux et ils remplissent le Rapport annuel des établissements de santé - hôpitaux.

Quant aux autres établissements de soins pour bénéficiaires internes (enfants souffrant de troubles émotifs, alcooliques et toxicomanes, délinquants, personnes itinérantes et autres, ils accueillent les bénéficiaires pendant une période plus courte et dispensent souvent d'un programme de services.

Les établissements de soins pour bénéficiaires internes **de la Liste** sont en ordre alphabétique selon la municipalité. Dans le document, on retrouve uniquement les établissements de soins pour BÉNÉFICIAIRES INTERNES qui ont quatre lits ou plus pour ce type de bénéficiaires et qui offrent des soins (**y compris des services d'assistance sociopsychologique**) à au moins un bénéficiaire.

La Liste des établissements sert de base de sondage à l'enquête sur les établissements de soins pour bénéficiaires internes. Cette enquête permet de réunir des données sur les bénéficiaires, les employés et les finances des

characteristics of the predominant group of resident, type of care and bed size of the facility.

établissements concernés. Les données sont réunies selon la province, les principales caractéristiques du groupe prédominant de bénéficiaires, le type de soins et le nombre de lits de l'établissement.

Changes in Concepts and Methodology over Time

Changements relatifs aux concepts et à la méthodologie

The inventory was begun in 1974 is updated annually for reference date April 1.

On a commencé à dresser le répertoire en 1974; il est mis à jour tous les ans et la date de référence en est le 1^{er} avril.

In 1985/86, in consultation with the National Clearing House on Family Violence it was decided to add transition homes to the inventory of residential care facilities.

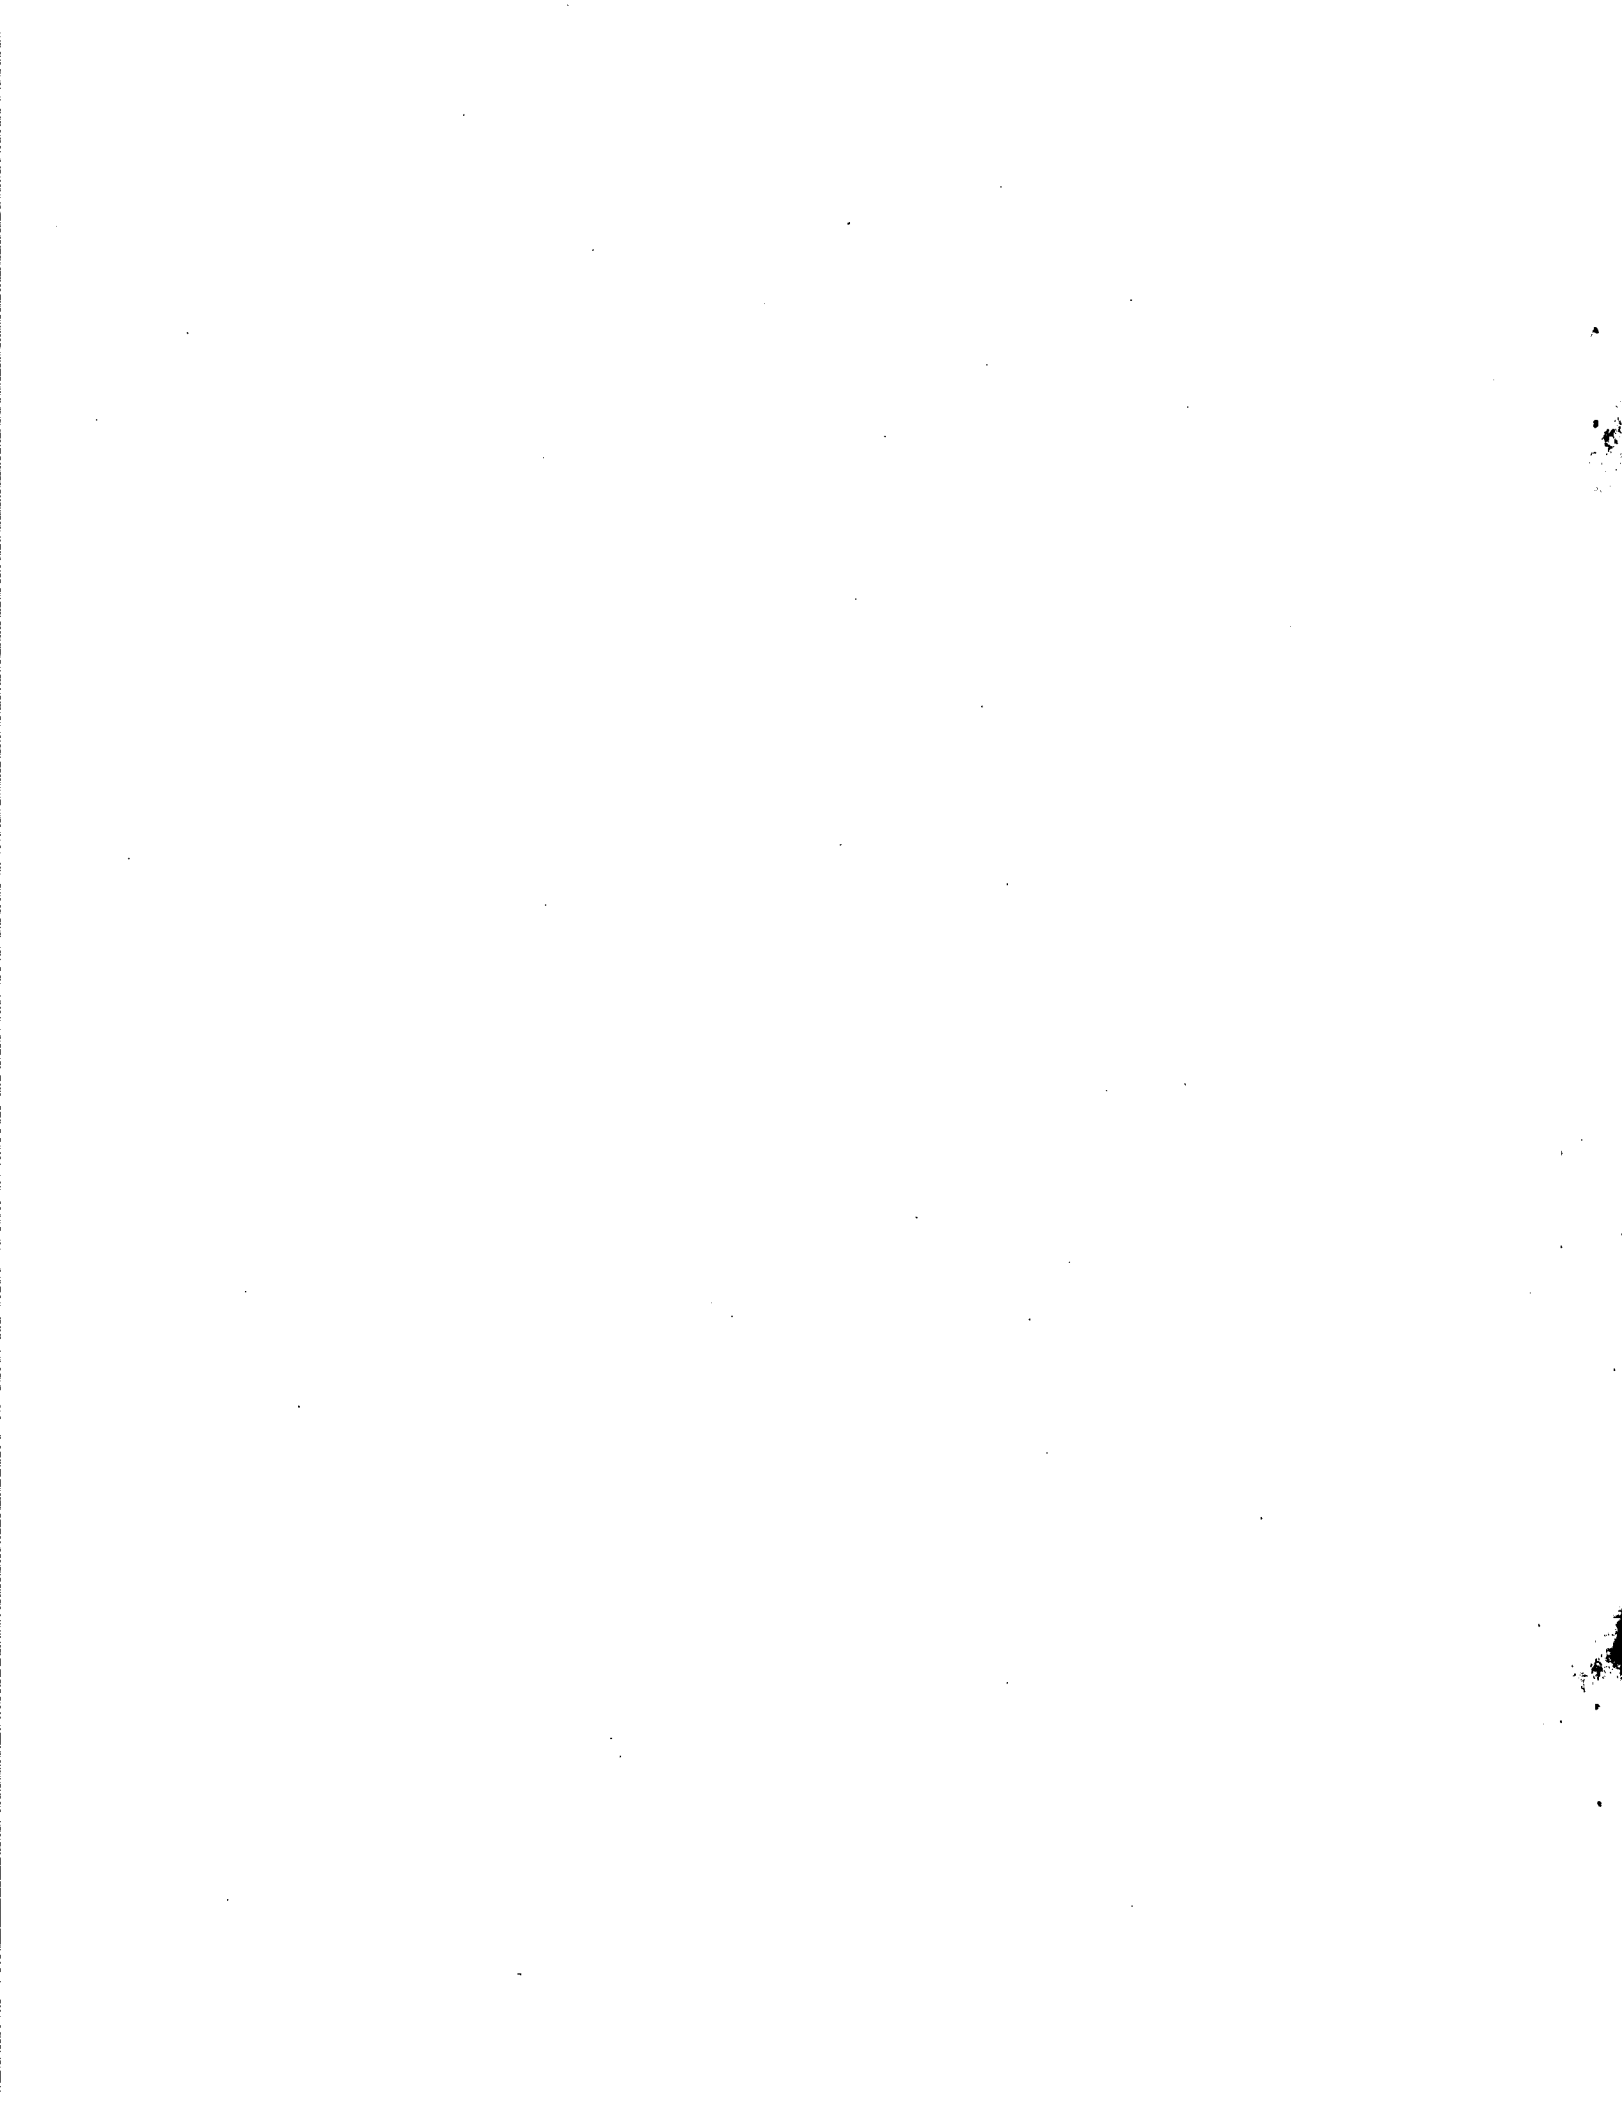

En 1985-1986, il a été décidé, en consultation avec le Centre national d'information sur la violence dans la famille, d'ajouter les maisons d'hébergement pour femmes violentées au répertoire des établissements de soins pour bénéficiaires internes.

As of April 1, 1991 transition homes are no longer included with Residential Care Facilities. They are currently listed separately and form the survey frame for the Transition Home Survey.

Les maisons d'hébergement pour femmes violentées ne sont toutefois plus assimilées aux établissements de soins pour bénéficiaires internes. En effet, depuis le 1^{er} avril 1991, elles ont leur propre répertoire, qui constitue la base de sondage de l'Enquête sur les maisons d'hébergement pour femmes violentées.

Beginning on April 1, 1990 there was a significant change in the method of reporting for Alberta auxiliary hospitals. At that date, in response to a Provincial move towards integration of nursing homes and auxiliary hospitals, these hospitals came under the Long Term Care Branch. The data for these facilities, as well as that for auxiliary beds formerly in public general hospitals, will now be included in the Residential Care Facilities Survey data file. This change results in an increase of approximately 5,000 beds in the List of Residential Care Facilities and a corresponding decrease in the List of Hospitals for the same period.

Le 1^{er} avril 1990, une importante modification a été apportée à la méthode de déclaration utilisée pour les hôpitaux auxiliaires de l'Alberta. Depuis cette date, en raison du mouvement provincial d'intégration des foyers de soins infirmiers et des hôpitaux auxiliaires, ces derniers relèvent de la Direction des soins de longue durée. Les données concernant ces hôpitaux, ainsi que celles sur les lits auxiliaires se trouvant auparavant dans les hôpitaux généraux publics, seront dorénavant intégrées au fichier de données du Rapport des établissements de soins pour bénéficiaires internes. Cette modification entraîne l'ajout de quelque 5 000 lits dans la liste des établissements de soins pour bénéficiaires internes et une baisse correspondante dans la liste des hôpitaux pour la même période.

Don't start your week
without it

vosre première lecture
de la semaine

Get a jump on your work week by making sure you have the most current economic and social information in Canada. Travelling by first class mail or courier, Statistics Canada's digest, Infomat, arrives at the beginning of each week to help you monitor key economic indicators and keep up with the most current data releases from Canada's national statistical agency.

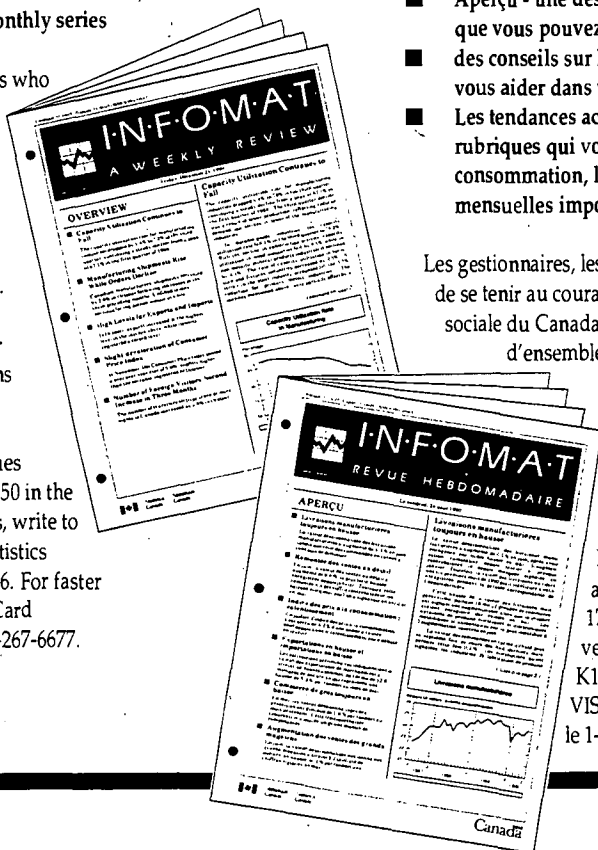

In eight fact-filled pages, Infomat highlights the findings of Statistics Canada surveys and brings them to your desk each week, often long before detailed reports are published. Throughout the year you'll get the first results of over 100 ongoing surveys and many special surveys—from manufacturing shipments to the health of Canadians or post graduate employment to part-time workers.

Each week, Infomat presents you with,

- concise summaries of fresh facts from over 100 ongoing surveys
- charts and graphs that let you instantly scan the trends
- Overview - an outline of the subjects covered in each issue that you can scan in 30 seconds
- guidance on how to obtain special reports to assist you in your more detailed research.
- Current Trends and Latest Monthly Statistics sections that bring you up to date on the Consumer Price Index, Gross Domestic Product and 21 other key monthly series

Managers, analysts and researchers who are responsible for keeping up to date on changes in Canada's economic and social climate can count on Infomat — as a quick overview of the latest trends and as a weekly reminder of key indicators and data releases. Many subscribers use Infomat's highlights to add authority to their industry analyses, investment plans or corporate reports.
