PREFACE

This publication is the fourth in a series of separate annual reports devoted exclusively for the data on births and presents updated information for Canada and the provinces for the year 1974. In addition to most of the detailed data that were published in earlier issues, this publication includes tables on age-standardized general fertility rates, age-specific marital fertility rates and births by age and marital status of the mother. However, because of the incompleteness of information, the tables in respect of illegitimate births had to be discontinued. The table presenting General Summary of Vital Statistics for Counties, Census Divisions or Districts and Urban Places by Province, which previously formed part of the three annual Vital Statistics reports, has been excluded from these reports beginning this year. These summary data will be provided in a separate report for the year 1974. Any further information regarding these data may be obtained from D. Nagnur or J. Silins, Vital Statistics Section, Health Division.

PETER G. KIRKHAM,
Chief Statistician of Canada.

PRÉFACE

Ce bulletin est le quatrième d'une série annuelle de publications qui contient uniquement des données sur les naissances et présente des renseignements mis à jour concernant le Canada et les provinces pour l'année 1974. La présente édition comprend non seulement la plupart des données détaillées qui figurent dans les éditions antérieures, mais également des tableaux sur les taux de fécondité générale par âge, les taux de fécondité nuptiale par âge et les naissances suivant l'âge et l'état matrimonial de la mère. Toutefois, il a fallu abandonner les tableaux portant sur les naissances illégitimes, faute de données complètes. Quant au tableau présentant le Sommaire statistique de l'état civil pour les comtés, divisions de recensement ou districts et les centres urbains, par province, qui auparavant formait partie intégrante des trois bulletins annuels sur la statistique de l'état civil, il ne paraîtra plus sous cette forme à compter de cette année et les chiffres sommaires figurent dans un bulletin distinct pour l'année 1974. Pour de plus amples renseignements au sujet de ces données, on peut s'adresser à M. D. Nagnur ou à M. J. Silins, Section de la statistique de l'état civil, Division de la santé.

Le statisticien en chef du Canada,

PETER G. KIRKHAM.

LIST OF TABLES

LISTE DES TABLEAUX

Table	Page
1. Live Births by Sex and Rates, Canada and Provinces, 1921 - 1974	1
2. Natural Increase and Rates, Canada and Provinces, 1921 - 1974	5
3. Live Births, Province of Occurrence by Province of Residence, 1974	7
4. Percentage of Births Occurring in Hospital, Canada and Provinces, 1921 - 1974	8
5. Multiple Births (Including Stillbirths) by Age of Mother, Canada, 1974	9
6. Age-specific Fertility Rates, Canada and Provinces, 1921 - 1974	10
7. Age-specific Marital Fertility Rates, Canada and Provinces, 1931, 1941, 1951, 1956, 1961 - 1974	21
8. Standardized General Fertility Rate, Canada and Provinces, 1921 - 1974	25
9. Number of Live Births by Marital Status of Mother, Canada and Provinces, 1974	26
10. Number of Live Births by Age of Mother and Marital Status, Canada, 1974	26
11. Live Births by Age of Mother, Canada and Provinces, 1974	27
12. Live Births by Age of Mother and Birth Order, Canada, 1974	28
13. Live Births by Order of Birth, Canada, 1927 - 1974	29
14. Live Births by Birthweight and Sex, Canada and Provinces, 1974	30
15. Live Births by Age of Mother, Birthweight and Sex, Canada, 1974	32
16. Live Births by Period of Gestation, Birthweight and Sex, Canada, 1974	34
17. Live Births by Month, Canada and Provinces, 1970 - 1974	36
18. Stillbirths and Ratios, Canada and Provinces, 1921 - 1974, and by Month, 1974	37
19. Live Births by Birth Order and Place of Residence of Mother, Counties, Census Divisions and Districts, 1974	39
20. Live Births by Age and Place of Residence of Mother, Counties, Census Divisions and Districts, 1974	44

Tableau	Page
1. Naissances vivantes selon le sexe et taux, Canada et provinces, 1921 - 1974	1
2. Accroissement naturel et taux, Canada et provinces, 1921 - 1974	5
3. Naissances vivantes suivant la province de naissance et la province de domicile, 1974	7
4. Pourcentage des naissances à l'hôpital, Canada et provinces, 1921 - 1974	8
5. Naissances multiples (mortinaissances comprises) suivant l'âge de la mère, Canada, 1974	9
6. Taux de fécondité générale par âge, Canada et provinces, 1921 - 1974	10
7. Taux de fécondité maritaux, selon le groupe d'âge, Canada et provinces, 1931, 1941, 1951, 1956, 1961 - 1974	21
8. Taux globaux normalisés de fécondité générale, Canada et provinces, 1921 - 1974	25
9. Naissances vivantes selon l'état conjugal de la mère, Canada et provinces, 1974	26
10. Naissances vivantes selon l'âge de la mère et l'état conjugal, Canada, 1974	26
11. Naissances vivantes suivant l'âge de la mère, Canada et provinces, 1974	27
12. Nés vivants suivant l'âge de la mère et le rang de naissance, Canada, 1974	28
13. Nés vivants selon le rang de naissance, Canada, 1927 - 1974	29
14. Naissances vivantes suivant le poids à la naissance et le sexe, Canada et provinces, 1974	30
15. Naissances vivantes suivant l'âge de la mère, le poids à la naissance et le sexe, Canada, 1974	32
16. Naissances vivantes suivant la durée de gestation, le poids à la naissance et le sexe, Canada, 1974	34
17. Naissances vivantes par mois, Canada et provinces, 1970 - 1974	36
18. Mortinatalité et rapports, Canada et provinces, 1921 - 1974, par mois, 1974	37
19. Nés vivants selon le rang des naissances et le lieu de domicile de la mère, comtés, divisions de recensement et districts, 1974	39
20. Nés vivants selon l'âge et le lieu de domicile de la mère, comtés, divisions de recensement et districts, 1974	44

VITAL STATISTICS TERMS AND DEFINITIONS

A summary of symbols, definitions, populations, and the method of computing rates used in this report are given below.

SYMBOLS

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- * or 0.0 a rate less than 0.1.
- † figures revised since previous report.
- ‡ provisional.

DEFINITIONS

Population:

De jure (resident) population as enumerated in Census years or estimated for inter-censal years.

1921-1971 — Census or revised estimates.

Births:

Unless otherwise indicated, infants born alive, i.e., excluding stillbirths.

Stillbirths:

Unless otherwise indicated, foetal deaths of 28 or more weeks' gestation.

Deaths:

Unless otherwise indicated, exclude stillbirths.

Infant — deaths under one year of age.
Neonatal — deaths under 28 days (four weeks) of age.

Post-neonatal — deaths between four weeks and one year of age.
Perinatal — foetal deaths of 28 or more weeks' gestation plus infant deaths under seven days (one week) of age.

Natural increase:

Excess of births over deaths.

Rates:

Crude — birth, marriage, death and natural increase rates per 1,000 population.
Age-specific fertility — birth rate per 1,000 women in the respective age period.
Total fertility — sum of female age-specific fertility rates multiplied by five.
General fertility — birth rate per 1,000 women 15-49 years
Marital fertility — number of births to married women per 1,000 married women 15-49.
Gross reproduction — average number of live daughters that would be born to a hypothetical female birth cohort if subjected to current age-specific fertility rates, and assuming that mortality before age 50 is zero.

Total births:

Live births and stillbirths.

Age:

Completed ages in years.
Average — arithmetic mean.
Median — age above and below which half of the total events occur.

RATES OR RATIOS

(Unless otherwise indicated, computed as follows)

Live births: per 1,000 population.
Stillbirths: “ 1,000 live births.
Natural increase: “ 1,000 population.

TERMES DÉMOGRAPHIQUES ET DÉFINITIONS

Un sommaire des signes conventionnels, définitions et populations et de la méthode utilisée pour calculer les taux du présent rapport paraît ci-dessous.

SIGNES CONVENTIONNELS

- .. non disponible.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- infimes.
- * ou 0.0 taux inférieur à 0.1.
- † rectifiés depuis le rapport précédent.
- ‡ provisoire.

DÉFINITIONS

Population:

Population résidente dénombrée aux années de recensement ou estimée aux années intercensales.

1921-1971 — Estimations du recensement ou rectifiées.

Natalité:

Sauf indication contraire, il s'agit d'enfants nés vivants (sans la mortalité).

Mortinatalité:

Sauf indication contraire, décès du fœtus de 28 semaines ou plus.

Mortalité générale:

Sauf indication contraire, ce terme exclut la mortinatalité.

Infantile — décès d'enfants âgés de moins d'un an.
Néonatale — décès d'enfants âgés de moins de 28 jours (quatre semaines).
Post-néonatale — décès d'enfants âgés de quatre semaines à un an.
Périnatale — mort-nés après 28 semaines de durée de gestation et décès d'enfants âgés de moins de sept jours (une semaine).

Accroissement naturel:

Excédent des naissances sur les décès.

Taux (de):

Bruts — taux de natalité, de nuptialité, de mortalité et d'accroissement naturel pour 1,000 habitants.
Fécondité par âge — taux de natalité pour 1,000 femmes du groupe d'âges concerné.
Fécondité totale — somme des taux de fécondité féminine par groupes d'âges multipliée par cinq.
Global de fécondité — taux de natalité pour 1,000 femmes âgées de 15-49 ans.
Fécondité des femmes mariées — naissances aux femmes mariées pour 1,000 femmes mariées, 15-49.
Reproduction brute — moyenne de filles vivantes qui seraient nées d'une cohorte de naissances féminines hypothétiques si elles étaient sujettes aux taux courants de fécondité suivant l'âge et en supposant que la mortalité avant l'âge 50 ans soit zéro.

Naissances:

Naissances vivantes et mortinaissances.

Âge:

Âge en années, révolues.
Moyen — moyenne arithmétique.
Médian — âge au-dessus et au-dessous duquel surviennent la moitié des événements.

TAUX OU RAPPORTS

(sauf indication contraire, ils sont calculés ainsi)

Naissances vivantes: pour 1,000 habitants.
Mortinatalité: “ 1,000 naissances vivantes.
Accroissement naturel: “ 1,000 habitants.

NOTES

1. Data for the Yukon and Northwest Territories are included in all tables unless otherwise noted.
2. Data for Newfoundland, which entered the Canadian Confederation in 1949, are included in all historical tables unless otherwise specified, available figures prior to 1949 having been extracted from the appropriate provincial reports. Similarly, 1921-1925 data for Quebec, which entered the Registration Area in 1926, have been extracted from the reports of the Department of Health.
3. Population figures for 1921, 1931, 1941, 1951, 1956, 1961, 1966 and 1971 are those of the June 1 Census; for 1926, 1936 and 1946 for the Prairie Provinces (Manitoba, Saskatchewan and Alberta) they are those of the June 1 Quinquennial Census of the Prairie Provinces; for all other years they are estimates as of June 1. Population estimates for 1967-1970 were revised following the 1971 Census and the rates for these years which appear in the present report have been revised accordingly.
4. The list of incorporated urban places shown in this report includes all places incorporated under provincial laws as cities, towns or villages, according to the 1971 June 1 Census, and having 1,000 population or more at the time; it also includes changes in incorporation status, annexations, changes of name, etc. effected since the 1971 Census. Statistics are also given for certain other urbanized areas such as townships in Ontario, suburban municipalities in Manitoba, and district municipalities in British Columbia.
5. Prior to 1959 the following definitions of "live-birth" and "stillbirth" were incorporated in the vital statistics legislation of the several provinces:

"(Live) birth means the birth of a foetus which, after complete separation from the mother, shows any sign of life".

"Stillbirth means the birth of a foetus, after at least 28 weeks pregnancy, which, after complete separation from the mother, does not show any sign of life".

Subsequently, the above definitions were revised to conform, to new definitions of "livebirth" and "foetal death" recommended by the World Health Organization. At the same time the compulsory registration of stillbirths was extended to 20 weeks gestation – from 28 weeks – and the new period of gestation incorporated into the definition. Following therefore, for the record, are the new definitions

1. À moins d'indication contraire, les données du Yukon et des Territoires du Nord-Ouest figurent dans tous les tableaux.
2. Sauf avis contraire, les données de Terre-Neuve, unie au Canada en 1949, figurent à tous les tableaux chronologiques; les chiffres de la période antérieure à l'union proviennent des rapports provinciaux intéressés. Il en va de même pour le Québec qui est entré dans la zone d'enregistrement en 1926 et dont les données pour 1921-1925 proviennent des rapports du ministère de la Santé.
3. Les données démographiques de 1921, 1931, 1941, 1951, 1956, 1961, 1966 et 1971 sont celles des recensements (au 1^{er} juin); en ce qui concerne les Prairies (Manitoba, Saskatchewan et Alberta), les données de 1926, 1936 et 1946 sont tirées des recensements quinquennaux (au 1^{er} juin), tandis que celles des autres années sont des estimations. Les estimations de la population pour les années 1967 à 1970 ont été rectifiées après le recensement de 1971; les taux pour ces années qui paraissent dans ce bulletin ont été rectifiés en conséquence.
4. La liste des centres urbains constitués que mentionne le présent rapport contient les noms de tous les centres qui, en vertu de lois provinciales, étaient constitués en cités, villes et villages lors du recensement de 1971 (1^{er} juin) ou qui, à ce moment-là, comptaient 1,000 habitants ou plus; elle contient aussi des changements effectués depuis le recensement de 1971 quant à la constitution juridique, aux annexions, aux noms, etc. Les statistiques touchent aussi certains autres centres urbanisés, comme les townships en Ontario, les municipalités suburbaines au Manitoba et les municipalités de district en Colombie-Britannique.
5. Avant 1959, les définitions relatives aux "naissances vivantes" et aux "mortinaissances" de la loi sur l'État civil de plusieurs provinces ont été les suivantes:

"On entend par naissance vivante l'expulsion complète du corps de la mère d'un foetus qui présente un quelconque signe de vie".

"On entend par mortinaissance l'expulsion, après un minimum de 28 semaines de gestation et après séparation complète du corps de la mère, d'un foetus qui ne présente aucun signe de vie".

Ultérieurement, les définitions ci-dessus ont été révisées suivant les recommandations de l'Organisation Mondiale de la Santé concernant les "naissances vivantes" et les "décès foetaux". En même temps, la durée minimum de gestation selon laquelle l'enregistrement d'un mortinaissance est obligatoire a été ramenée de 28 à 20 semaines. On trouvera, ci-dessous, les nouvelles définitions et leurs dates d'entrée en application, par province, (avec

adopted by each province — with only minor modification of the stillbirth definition in one province — and the year in which the new definitions were implemented:

“(LIVE) BIRTH means the complete expulsion or extraction from its mother, irrespective of the duration of pregnancy, of a product of conception in which, after such expulsion or extraction, there is breathing, beating of the heart, pulsation of the umbilical cord, or unmistakable movement of voluntary muscle, whether or not the umbilical cord has been cut or the placenta is attached”.

“STILLBIRTH means the complete expulsion or extraction from its mother, after at least 20 weeks pregnancy, of a product of conception in which, after such expulsion or extraction, there is no breathing, beating of the heart, pulsation of the umbilical cord, or unmistakable movement of voluntary muscle”.

Nova Scotia	March	1959
Manitoba	August	1959
Alberta	January 1,	1960 ¹
	January 1,	1963 ²
Saskatchewan	January 1,	1961
Quebec	January 1,	1961
Ontario	December 15,	1961
New Brunswick	January 1,	1962
British Columbia	July 1,	1962
Prince Edward Island . . .	January 1,	1964

6. “Hospital” is defined, for purposes of this report, as an institution operated for the regular accommodation of in-patients in which medical and/or surgical care for illness or injury and/or obstetrical care is provided, and which is recognized as a hospital by a Dominion agency or by the government of a province in which the hospital is located, or by a municipality duly authorized under the laws of the province. The term “hospital” includes institutions for tuberculosis and mental diseases, but excludes institutions which provide custodial care and/or domiciliary care only.

7. Since 1944 births, stillbirths and deaths have been classified by area of reported residence, births and stillbirths according to the residence of the mother; marriages have been classified by the place in which the marriage was solemnized. Prior to 1944 all events were classified by place of occurrence. Except for marriages and divorces events occurring in the United States to Canadian residents are included and, conversely, events occurring in Canada to United States residents are excluded.

¹ 24 + weeks, or 750 grams weight.
² 20 + weeks, or 500 grams weight.

une modification mineure de la définition des mortinaissances dans une des provinces):

“On entend par NAISSANCE (VIVANTE) l’expulsion ou l’extraction complète du corps de la mère, indépendamment de la durée de gestation, d’un produit de conception chez qui, après cette expulsion ou extraction, il y a respiration, battement du coeur, pulsation du cordon ombilical ou contraction nettement perceptible d’un muscle volontaire, que le cordon ombilical ait été coupé ou non, ou que le placenta soit demeuré attaché ou non”.

“On entend par MORTINAISSANCE l’expulsion ou l’extraction du corps de la mère, après 20 semaines au moins de gestation, d’un produit de conception chez qui, après cette expulsion ou extraction, il n’y a pas respiration, battement du coeur, pulsation du cordon ombilical ou contraction nettement perceptible d’un muscle volontaire”.

Nouvelle-Écosse	Mars	1959
Manitoba	Août	1959
Alberta	1 ^{er} janvier	1960 ¹
	1 ^{er} janvier	1963 ²
Saskatchewan	1 ^{er} janvier	1961
Québec	1 ^{er} janvier	1961
Ontario	15 décembre	1961
Nouveau-Brunswick	1 ^{er} janvier	1962
Colombie-Britannique	1 ^{er} juillet	1962
Île-du-Prince-Édouard	1 ^{er} janvier	1964

6. Pour les besoins du présent rapport, un “hôpital” est un établissement administré en vue de l’hébergement régulier des hospitalisés, où sont prodigués des soins médicaux ou chirurgicaux aux malades et aux blessés ou des soins obstétricaux, et qui est reconnu comme hôpital par un organisme fédéral ou par le gouvernement de la province où il est situé, ou par une municipalité dûment autorisée à le faire en vertu des lois de la province. Le terme “hôpital” comprend les établissements de tuberculose et de maladies mentales, mais ne comprend pas les établissements qui n’exercent que la surveillance ou qui ne prodiguent que des soins d’entretien.

7. Depuis 1944, les naissances, mortinaissances et décès sont classés suivant le lieu de résidence, celle-ci étant celle de la mère dans le cas des naissances et mortinaissances; quant aux mariages, on les a classés suivant leur lieu de célébration. Avant 1944, tous ces faits étaient classés suivant le lieu de l’événement. Sauf pour ce qui est de la nuptialité et de la divortialité, le calcul comprend les événements survenus aux États-Unis à des ressortissants canadiens, mais ne comprend pas les événements survenus au Canada à des ressortissants des États-Unis.

¹ 24 semaines ou plus, ou poids de 750 grammes.
² 20 semaines ou plus, ou poids de 500 grammes.

¹ Excluding Newfoundland. - Terre-Neuve exclue.

² The order of birth takes into account all children born to the mother, legitimate and illegitimate, born alive and stillborn. - Le rang est défini en tenant compte de tous les enfants nés de la mère, légitimes et illégitimes, nés vivants et mort-nés.

³ The order of birth takes into account all children born alive to the mother legitimate and illegitimate. - Le rang est défini en tenant compte de tous les enfants nés vivants de la mère légitimes et illégitimes.

⁴ The order of birth takes into account the total births born alive and stillborn. - En déterminant le rang de naissance, on tient compte des naissances totales, y compris les naissances vivantes et les mort-nés.
