NATIONAL ACCOUNTS  
INCOME AND EXPENDITURE  
1956 and 1957

(REVISED)

A Statistical Supplement to  
"NATIONAL ACCOUNTS, INCOME AND EXPENDITURE, 1926-1956"

DOMINION BUREAU OF STATISTICS  
Research and Development Division

This report contains main statistical tables for the years 1956 and 1957 incorporating recent revisions to data and providing continuity with the historical series of the basic reference document, "National Accounts, Income and Expenditure, 1926-1956". Detailed tables for 1956 and 1957 will be published later in the year.

Quarterly data for the years 1956 and 1957 are being revised to this new basis and will be released with the First Quarter 1958 report in June. The historical quarterly series for the entire post-war period will be released at a later date.

1. Includes defence expenditure as follows: 1956, \$1,800 million; 1957, \$1,768 million.
2. Also includes net purchases of government commodity agencies and the defence production revolving fund. Excludes shipments of previously produced military equipment to NATO countries but includes replacements of new equipment.
3. Includes outlay on new durable assets such as building and highway construction by governments, other than government business enterprises.
4. Includes capital expenditures by private and government business enterprises, private non-commercial institutions, and outlays on new residential construction by individuals and business investors. Total "Private and Public Investment in Canada" can be obtained by adding lines 4 and 5.
5. The book value of inventories is deflated to remove the effect of price changes and the derived "physical" change is then valued at average prices of the current period to obtain the value of physical change. The difference between this value of physical change and the change in book value is called the inventory valuation adjustment (see line 7, Table 1).
6. Excludes shipments of military equipment to NATO countries under the Defence Appropriation Act.
