Bibliographical List of References on
Canadian Railways

P R E F A C E

The attempt has been made to have this list as complete as possible, and it is believed that there is no publication of great importance omitted, unless it is something of a rarity. The references date from 1829. They are arranged chronologically and alphabetically by years.

The abbreviations in the right-hand margin indicate where the publication is available. A key to all abbreviations is at the beginning.

The group marked "continuations" includes publications of a periodical nature.

The group marked "miscellaneous" contains titles for which no date has been found.

A list of the sources consulted is given. There are 1779 items included in the bibliographical list.
