## INTRODUCTION

The official national vital statistics of Canada are published by the Dominion Bureau of Statistics in the series *Annual Report of Vital Statistics*<sup>1</sup> which commenced in 1921. The present publication supplements the Annual Reports for the seven-year period 1958-64 by presenting more detailed information on causes of death for each year. Whereas the Annual Reports for these years contain data on deaths according to the Intermediate List of 150 cause groups, the present compilation provides a finer breakdown of the figures according to the three-digit categories and the four-digit subcategories of the International Classification of Diseases.<sup>2</sup>

The Seventh Revision (1955) of this International Classification was introduced in Canada in 1958; in this respect there is strict comparability over the seven-year period. The present report does not list all categories of the International Classification since those categories for which there were no deaths in any year during this period have been excluded. Furthermore, the full category titles of the International Classification have been condensed in some cases for convenience of publication.

This report brings up to date the previous edition entitled *Causes of Death, Canada, 1950-60*, Catalogue No. 84-514, copies of which are still available. Beginning with the 1965 deaths this report will be expanded into a regular annual series entitled *Causes of Death*,<sup>3</sup> showing the current year's deaths by the three-digit categories and the four-digit subcategories by sex for the provinces and by sex and five-year age groups for Canada.

For the convenience of users desiring to calculate rates, Census and estimated mid-year populations for Canada for the years covered by this report are as follows:

1958 <sup>4</sup> .....	17,080,000	1962 .....	18,570,000
1959 <sup>4</sup> .....	17,483,000	1963 .....	18,896,000
1960 <sup>4</sup> .....	17,870,000	1964 .....	19,235,000
1961 <sup>5</sup> .....	18,238,247		

The 1962-64 population estimates are subject to revision following the 1966 Census.

---

<sup>1</sup> DBS Catalogue No. 84-202.

<sup>2</sup> Seventh Revision (1955), *World Health Organization*, Geneva.

<sup>3</sup> DBS Catalogue No. 84-203.

<sup>4</sup> Revised since the publication of *Causes of Death, Canada, 1950-60*.

<sup>5</sup> Census.

### **SYMBOLS**

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- r revised figures.

Deaths from Each Cause, Canada, 1958-64
