

## Vehicle Import Compatibility (Admissibility) list for vehicles purchased in the United States

**Disclaimer:** This list is compiled by Transport Canada for the Registrar of Imported Vehicles (RIV) program using information provided by vehicle manufacturers on a voluntary basis.

**Its accuracy cannot be guaranteed and its content is subject to change without notice.**

There is also no guarantee that a vehicle deemed admissible on the list can be successfully modified to meet Canadian requirements.

For detailed information about the procedures to follow when importing a vehicle purchased in the United States, contact the RIV at **1-888-848-8240** or visit the Web site [www.riv.ca](http://www.riv.ca)

### - EXPLANATIONS ON MANDATORY COMPLIANCE – (1 of 3)

1. A U.S. specification vehicle is a vehicle designed, built, tested and certified by the **original equipment manufacturer (OEM)** to meet all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Where a U.S. specification vehicle is listed as ADMISSIBLE, and requires modifications, it may be extensive and expensive. Importers should determine the cost and extent of any required modifications before importing a vehicle into Canada. Vehicles that cannot be modified, for whatever reason, must not remain in Canada and must be exported. Where there is no information in this list concerning a U.S. specification vehicle, you must contact the manufacturer to determine its admissibility or inadmissibility. Manufacturers of U.S. vehicles are not legally obligated to respond to Transport Canada's requests for information on admissibility status or required to explain the reasons for inadmissibility, although some do. Transport Canada is not legally responsible for the accuracy and safety or cost implications of the information provided by OEMs.

2. Admissible vehicles, except competition vehicles, snowmobile cutters and all-terrain vehicles (ATVs), must be certified by OEMs to all applicable U.S. Federal Motor Vehicle Safety Standards (FMVSSs). Two criteria can be used to determine this:

a) a compliance label affixed to the vehicle at the time of main assembly with one of the following statements,

**"This vehicle conforms to the applicable federal motor vehicle safety, bumper and theft prevention standards in effect on the date of manufacture shown above";** or

**"This vehicle conforms to all applicable U.S. federal motor vehicle safety standards in effect on the date of manufacture shown above";** or

b) a valid letter from the original manufacturer (subject to verification) or the final stage manufacturer (if applicable) containing the same information as would appear on the compliance label when the vehicle was originally certified at assembly.

3. Vehicles that have been modified from their original state, other than regular maintenance, may not be eligible for importation into Canada. For example, a van transformed into a motorhome (often known as Class B motorhome), a van equipped with raised roof and/or modified interior, a pick-up or a passenger car equipped with lift kit, a motorcycle converted to a motor tricycle (trike), etc.

4. Some vehicles in SECTION 3 - Passenger Cars, SECTION 5 - Multipurpose Passenger Vehicles, and SECTION 12 - Trucks, Are marked with either a) an arrow '>', or b) '[EIS]', or c) '>[EIS]', explained as follows:

- a) an arrow '>' indicates that a vehicle will require modification to accommodate child tether anchorages (modifications may be extensive and expensive);
- b) an '[EIS]' annotation indicates that the vehicle is either equipped with an electronic immobilization system installed by the manufacturer, but not certified to meet CMVSS 114, or that no electronic immobilization system is installed (please see paragraph 9 of these explanations for further information on immobilizers); and
- c) an '>[EIS]' annotation indicates that the vehicle requires modification to the child tether anchorages and that some action is required on the immobilizer (see paragraph 9 for details). Where an arrow '>' and an '[EIS]' annotation are at the end of a group which lists models joined by a comma ',' or an ampersand '&' sign, all models in that group are affected by the arrow '>' and the letters '[EIS]'

**THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY. Jan/26/2018 Edition**

**- EXPLANATIONS ON MANDATORY COMPLIANCE - (2 of 3)**

5. U.S. vehicles originally equipped with air bags, as required by U.S. safety standards, must have operational air bags at the time of inspection by the Registrar of Imported Vehicles (RIV).

6. All admissible vehicles, including all types of trailers, must bear a manufacturer issued 17 character alphanumeric sequence, as required by CMVSS 115 - Vehicle Identification Number (VIN), including snowmobiles manufactured after January 1, 2003 and restricted-use motorcycles (RUMs) manufactured after December 1, 2004. RUMs manufactured before December 2004 must have a VIN composed of between 4 and 17 alphanumeric characters, as required by CMVSS 115.

**7. ACTIVE and U.S. PASSIVE RESTRAINT SYSTEMS** - Passive restraint systems are identified as a motorized upper torso restraint or a door mounted 3-point restraint. The fact that a seat belt restraint system is considered to be active or passive does not in itself determine a vehicle's admissibility or inadmissibility into Canada. What does make this determination is whether or not that vehicle meets CMVSS 210 - Seat Belt Assembly Anchorages. Vehicles identified by their manufacturer as not meeting CMVSS 210 at the time of manufacture are not eligible for importation into Canada under any circumstances. No modifications are allowed to the seat belt anchorage system.

**8. CONFIRMATION OF NO OUTSTANDING RECALLS** - Confirmation that there are no outstanding recalls on a vehicle is a mandatory requirement for the RIV federal inspection program. This confirmation has to be sent to the RIV as soon as possible before, during or after the importation of a U.S. specification vehicle into Canada. The Vehicle Inspection Form will only be released to the importer by the RIV upon receipt and acceptance of the confirmation of no outstanding recalls. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: [http://www.riv.ca/english/html/recall\\_clearance.html](http://www.riv.ca/english/html/recall_clearance.html). Submit your confirmation of no outstanding recalls to the RIV by e-mail at [recall@support.riv.ca](mailto:recall@support.riv.ca), or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

The symbol (#) indicates that the manufacturer will not issue a confirmation of no outstanding recalls for vehicles that were once declared "salvaged" in the U.S. Failure to produce this confirmation will result in a failed inspection; therefore rendering the vehicle inadmissible.

**9. ELECTRONIC IMMOBILIZATION SYSTEM** - Every passenger vehicle, multipurpose passenger vehicle, truck and three-wheeled vehicle manufactured after September 1, 2007, with a Gross Vehicle Weight Rating (GVWR) less than 4,536 kg (10,000 lbs), except an emergency vehicle or a walk-in van, must be equipped with an electronic immobilization system, as per the requirements of CMVSS 114 - Theft Protection.

Electronic immobilizers typically require a special key or a small electronic device to start a vehicle's engine. This type of system, when activated, prevents the operation of the engine in response to any attempt to start the vehicle without using the authorized key, by shutting off one or more parts of the engine's electrical system. This might include the starter, ignition or fuel system.

Many manufacturers equip some or all of their U.S. market vehicles with electronic immobilization systems that meet the requirements of CMVSS 114, while in some cases these are available only as an option. There are also several U.S. market vehicles that are either not equipped with electronic immobilization systems, or that are equipped with electronic immobilization systems that do not meet the requirements of CMVSS 114. Here are three possible circumstances:

a) **Electronic Immobilizers Installed as Original Equipment and Certified to CMVSS 114**

Vehicles equipped with such systems do not require any special inspection or modifications. They are listed as admissible without any special annotation regarding the immobilizer.

b) **Electronic Immobilizers Installed as Original Equipment but Not Certified to CMVSS 114**

Vehicles that do not comply with CMVSS 114 will require confirmation of the presence of an electronic immobilizer at the time of the RIV federal inspection. They are listed as admissible with a special annotation ([EIS]) regarding the immobilizer.

Demonstration of the presence of an electronic immobilizer can be done through one of the following means:

- presentation of the completed vehicle purchase agreement showing the VIN and indicating the presence of an electronic immobilizer;
- presentation of the vehicle window sticker (Monroney label) showing the VIN and indicating the presence of an electronic immobilizer;
- a letter from the manufacturer showing the VIN and indicating the presence of an electronic immobilizer; and
- other type of information present on the vehicle or on the ignition key or fob allowing the positive identification of such a system.

c) **No Electronic Immobilizers Installed**

These vehicles will need to be fitted with an immobilization system that conforms to National Standard of Canada CAN/ULC-S338-98, entitled Automobile Theft Deterrent Equipment and Systems: Electronic Immobilization (May 1998), published by the Underwriters' Laboratories of Canada, before being presented for registration under the laws of a province. These are listed as admissible with a special annotation [EIS] regarding electronic immobilizers.

**THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY. Jan/26/2018 Edition**

**- EXPLANATIONS ON MANDATORY COMPLIANCE - (3 of 3)**

**9. ELECTRONIC IMMOBILIZATION SYSTEM** (continued)

At the time of the required federal inspection at one of the RIV inspection stations, the importer must present the original invoice (and provide a copy to the RIV) confirming the installation of an electronic immobilizer compliant to CAN/ULC-S338-98, as mentioned above. The invoice must clearly indicate VIN, name and address of aftermarket installer, date of installation, and conformity of the system to CAN/ULC-S338-98.

Importers should be aware of the following **BEFORE** they purchase a vehicle in the U.S.:

- there is no guarantee that an aftermarket immobilizer can be fitted to a vehicle;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect a vehicle's warranty;
- some manufacturers have indicated that the installation of an aftermarket immobilizer may affect the performance of certain safety equipment on a vehicle;
- certified installers of CAN/ULC-S338-98 aftermarket immobilizers may not be available in your local area;
- modifications may be complex and expensive; and
- importers enter the importation process at their own risk and Transport Canada assumes no liability.

Transport Canada does not endorse any brand of electronic immobilization systems or installers.

**10. WARNING: Trailers with a Gross Vehicle Weight Rating (GVWR) of 4,536 kg (10,000 lbs) or more manufactured after September 1, 2007** - Every trailer with a GVWR of 4,536 kg or more manufactured after September 1, 2007, must be equipped with a rear impact guard that conforms to Section (3) of CMVSS 223 - Rear Impact Guard.

The only exceptions are:

- a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters;
- b) a low-chassis trailer; and
- c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.

Most trailers with a GVWR of 4,536 kg or more sold at the retail level in the U.S. and manufactured after September 1, 2007, may not be equipped with a rear impact guard that conforms to Canadian requirements. Before you import a trailer, please make sure it is listed as ADMISSIBLE (see SECTION 11 of this document).

**11. TRAILERS with a Gross Vehicle Weight Rating (GVWR) of less than 4,536 kg (10,000 lbs)** – The trailers **MUST** bear a valid and legible manufacturer issued 17-character Vehicle Identifier Number (VIN) and a valid U.S. FMVSS manufacturing statement of compliance label (or equivalent letter from the manufacturer). All trailers that have undergone alterations (other than typical repairs or maintenance) which impede the trailer's original U.S. FMVSS certification are inadmissible.

**12. DAYTIME RUNNING LAMPS (CMVSS 108)** - All passenger cars, multi-purpose passenger vehicles, trucks and buses imported into Canada must be equipped with functional daytime running lamps.

**13. IMPORTATION OF VEHICLES (15) YEARS OLD OR OLDER AND BUSES MANUFACTURED BEFORE JANUARY 1, 1971** - Vehicles fifteen (15) years old or older, as determined by the month and year of manufacture, and buses manufactured before January 1, 1971, are no longer regulated under the *Motor Vehicle Safety Act* by virtue of their age. While Transport Canada does not regulate the importation of these vehicles, it does not preclude the vehicles from having to meet provincial/territorial safety and licensing requirements. Importers of such vehicles are required to complete a Vehicle Import Form 1, at the time of importation, and present proof of ownership. Also, please contact the Canada Border Services Agency (CBSA) for clearance requirements.

**14. MANUAL TRANSMISSION AND CLUTCH PEDAL (Vehicles manufactured after May 1, 2005 and newer only)** - If a passenger car, multi-purpose passenger vehicle, truck or three-wheeled vehicle has a GVWR of 4 536 kg or less and is equipped with a manual transmission, it must not be possible to start the engine unless the clutch pedal is depressed or the drive train is otherwise disengaged. If it is possible to start the engine without the clutch pedal being depressed or with the drive train engaged, the vehicle will fail the RIV inspection.

**15. OWNER'S MANUAL AND BILINGUAL WARNING LABELS** – To obtain an owner's manual in both official languages or bilingual warning labels, an importer can contact the vehicle manufacturer or an authorized dealer. Online resources may also be available.

**THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY. Jan/26/2018 Edition**

## **SECTION 1 - THE REGISTRAR OF IMPORTED VEHICLES (RIV)**

On April 12, 1995, a new *Motor Vehicle Safety Act* and revised Motor Vehicle Safety Regulations were proclaimed. The new Act allows vehicles originally manufactured in compliance with U.S. laws for the U.S. market to be imported into Canada, **provided they comply at the time of main assembly with mandatory Canadian Motor Vehicle Safety Standards (CMVSSs)**, such as CMVSS 210 - Seat Belt Assembly Anchorages. The new legislation makes it possible for a vehicle to be modified in certain areas (child restraint tether anchorages, daytime running lights, and some labeling requirements).

To carry out the task of monitoring the importation of vehicles purchased at the retail level in the U.S., Transport Canada has contracted a company called the **Registrar of Imported Vehicles (RIV)** to establish and operate a system of inspection and compliance confirmation of imported vehicles. The program is a controlled process of federal registration, inspection and verification to ensure that a U.S. specification vehicle is confirmed compliant to all CMVSSs prior to provincial/territorial licensing and registration in Canada.

Some of the benefits of this program to Canadians are to:

- ensure the safety of vehicles on Canadian roads;
- allow vehicles that do not meet Canadian safety standards, in such areas as, daytime running lights, child restraint tether anchorages, and some labeling requirements, to be modified after they enter Canada;
- assist importers through a support system, including a bilingual public response service (**1-888-848-8240**);
- assist the Government of Canada to develop and maintain an accurate and comprehensive data base on such importations;
- assist Transport Canada in its enforcement efforts; and
- assist provinces and territories to enable checks of vehicles prior to licensing and registration in Canada, in compliance to federal safety standards.

Upon arrival at the border, importers must produce the vehicle's title, documents related to its purchase and a valid driver's license or passport. There must be evidence - a Statement of Compliance (SOC) label on the vehicle or a valid manufacturer's letter (subject to verification) - stating that the vehicle was built to comply with U.S. Federal Motor Vehicle Safety Standards (FMVSSs) at the time of main assembly.

Importers must have the means of paying the [Registrar of Imported Vehicles fees](#), customs charges and applicable taxes by credit card (Visa, MasterCard or American Express), debit card, certified cheque or money order. The importer is responsible for the actual costs of modifying the vehicle. There are also fees and charges resulting from failure to pass the initial inspection within 45 days.

A confirmation that there are no outstanding recalls on a vehicle or proof that the recall work has already been completed in the U.S. must be sent to the RIV as soon as possible before, during or after importation. To verify what types of confirmation of no outstanding recalls are accepted by the RIV, please visit their Web site at: [www.riv.ca/english/html/recall\\_clearance.html](http://www.riv.ca/english/html/recall_clearance.html). Send your confirmation of no outstanding recalls to the RIV by e-mail at [recall@support.riv.ca](mailto:recall@support.riv.ca), or by fax at 1-888-642-9899, or mail to 405 The West Mall, Toronto ON M9C 5K7.

Commercial importation of vehicles for sale on the Canadian market are required to report at Designated Ports (see list below).

**SECTION 2 - General**

<b>VEHICLE TYPES</b>	<b>ADMISSIBLE</b>	<b>INADMISSIBLE</b>	<b>NOTES</b>
<b>All vehicles</b> (except buses) <b>FIFTEEN (15) YEARS OLD OR OLDER</b>	All are admissible (see notes)		The importer is responsible for providing adequate proof to border officials of a vehicle's non-regulated status due to its age.
<b>Buses</b> manufactured <b>BEFORE</b> January 1, 1971	All are admissible (see notes)		The importer is responsible for providing adequate proof to border officials that a bus was manufactured prior to January 1, 1971 to establish its non-regulated status due to its age.
<b>Buses</b> manufactured <b>AFTER</b> January 1, 1971	Refer to <a href="#">Section 6</a> for BUSES Refer to <a href="#">Section 7</a> for SCHOOL BUSES	Refer to <a href="#">Section 6</a> for BUSES  Refer to <a href="#">Section 7</a> for SCHOOL BUSES	N.B.: If model has a designated seating capacity of <b>MORE THAN 10</b> including the driver, it is a bus.
<b>Trucks and pick-up trucks</b> with a GVWR <b>inferior or equal to 4536 kg (10,000 lbs) LESS THAN FIFTEEN (15) YEARS OLD</b>	All trucks with GVWR of 4536 kg or less manufactured <b>BEFORE</b> September 1, 2007 are admissible  For trucks with GVWR of 4536 kg or less manufactured <b>AFTER</b> September 1, 2007, refer to <a href="#">Section 12</a> .	All vehicles that have undergone alterations other than typical repairs are inadmissible	See <a href="#">EXPLANATIONS</a> section.  GENERAL MOTORS: Importers can contact GM Canada Customer Care at 1-800-263-3777 (toll free) to obtain a recall clearance letter.
<b>Trucks</b> with a GVWR <b>greater than 4536 kg (10,000 lbs) LESS THAN FIFTEEN (15) YEARS OLD</b>	All trucks except those listed in the inadmissible column with a GVWR greater than 4536 kg (10,000 lbs) are admissible ( <b>see notes</b> )	All trucks and truck tractors manufactured from <b>glider kits are inadmissible</b>  All vehicles that have undergone alterations other than typical repairs are inadmissible	The truck must bear a FMVSS compliance label affixed by the end stage manufacturer.  See <a href="#">EXPLANATIONS</a> section.
<b>Trailers LESS THAN FIFTEEN (15) YEARS OLD</b>  common examples: utility trailers, enclosed cargo trailers, low-chassis trailers, air braked trailers, travel trailers, fifth wheel trailers, horses/stock trailers, boat trailers, car dollies, portable air compressors, log splitters, wood chippers.	<b>ADMISSIBLE</b>  Trailers listed below <b>are admissible</b> for entry into the RIV program <b>on condition</b> they do not meet a criteria outlined in the inadmissible column  All trailers manufactured <b>BEFORE</b> September 1, 2007 All trailers manufactured <b>AFTER</b> September 1, 2007 with GVWR of 4536 kg or less  For trailers manufactured <b>AFTER</b> September 1, 2007 with a GVWR <b>greater than 4536 kg</b> , refer to <a href="#">Section 11</a> for additional requirements <b>unless</b> the trailer belongs to following list of <b>EXEMPTIONS WHICH ARE ADMISSIBLE INTO THE RIV:</b>  (a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer); (b) a low-chassis trailer (i.e. horse / stock trailer, boat trailer); and (c) a trailer designed to interact with, or having,	<b>INADMISSIBLE</b>  Trailers <b>WITHOUT</b> a valid and legible manufacturer issued 17-character Vehicle Identifier Number (VIN) are inadmissible  Trailers <b>WITHOUT</b> a valid U.S. FMVSS manufacturing statement of compliance label or equivalent letter from the manufacturer are inadmissible  All trailers that have undergone alterations other than typical repairs are inadmissible	<b>NOTES</b>  See <a href="#">EXPLANATIONS</a> section.

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY. Jan/26/2018 Edition

SECTION 2 - General (Cont'd)

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
	work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.		
<b>Sport Utility Vehicles, Travel Vans, Conversion Vans and Disabled Access Vehicles</b> LESS THAN FIFTEEN (15) YEARS OLD	See Notes		There are numerous restrictions on these types of vehicles. Please refer to one of the sections 5.1 to 5.6 in the table of contents specific to the vehicle category of interest.
<b>Salvage</b> branded vehicles purchased in the United States to import for road use in Canada	<b>ADMISSIBLE FOR IMPORTATION AS SALVAGE VEHICLE (USING A FORM-1)</b>  1- Vehicles listed as <b>admissible</b> under normal condition, <b>and</b>  2- <b>accompanied with</b> a U.S. vehicle "Certificate of title" showing either: SALVAGE, or SALVAGE-REBUILDABLE, or SALVAGE-REBUILT, or SALVAGE-REPAIRABLE, or SALVAGE-REPAIRED, or other equivalent, <b>and</b>  3- the U.S. title document <b>does not contain</b> a designation of <b>flood or water damage</b> and the vehicle <b>does not display</b> evidence of <b>flood or water damage</b> at entry into Canada.  <b>See NOTES column</b>	<b>INADMISSIBLE FOR IMPORTATION AS SALVAGE VEHICLE (USING A FORM-1)</b>  Vehicles listed as inadmissible in any section of the Vehicle Import Compatibility list.  Vehicles branded <b>salvage non-rebuildable or non-repairable, junk, scrap, parts-only, flood, water damage</b> or equivalent.  Vehicles <b>bearing evidence of flood or water damage</b> when being presented at the Canadian border.  Refer to the next section for importing vehicles into Canada for scrap or parts via the RIV vehicles for parts only program (Form-3).	<b>NOTES</b>  Importer must submit a valid "Certificate of Title" issued by a U.S. state licensing authority or licensed insurance provider upon entry into Canada.  A salvage brand on a vehicle's title or within its branding history may severely limit your ability to get the vehicle licensed and insured in Canada. Contact your local licensing authority to learn more.  Visit <a href="http://www.riv.ca">www.riv.ca</a> for further details.
<b>Vehicles purchased in the United States to import for PARTS ONLY</b>	<b>ADMISSIBLE FOR PARTS ONLY IMPORTATION (USING A FORM-3)</b>  Vehicles in any condition (original state, salvage, non-repairable or flood damaged) listed as <b>admissible</b> in any section of the Vehicle Import Compatibility (VIC) list.  Vehicles listed as <b>inadmissible</b> on the VIC list <b>on the following conditions:</b>  1- proof of certification to United States motor vehicle safety standards (FMVSS) is provided,  <b>and</b>	<b>INADMISSIBLE FOR PARTS ONLY IMPORTATION (USING A FORM-3)</b>  Vehicles <b>not meeting the requirements</b> listed in the admissible column.	<b>NOTES</b>  Vehicles to be dismantled for parts are recorded at importation by having the importer complete and sign a "Vehicle imported for Parts" <b>Form-3</b> at the Canadian border.  <b>The status is final</b> and cannot be reversed once completed.  Visit <a href="http://www.riv.ca">www.riv.ca</a> for further details.

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY. Jan/26/2018 Edition

### SECTION 2 - General (Cont'd)

VEHICLE TYPES	ADMISSIBLE	INADMISSIBLE	NOTES
	<p>2- accompanied by a U.S. <b>salvage title</b> certificate or equivalent.</p> <p><b>NOTE:</b> Once a vehicle is declared for "parts only" at importation, it is given a non-repairable status. The RIV reports the non-repairable status to all provincial and territorial licensing jurisdictions in Canada. <b>This status cannot be reversed and the vehicle can never be licensed in Canada.</b></p>		
<b>Kit Cars</b> LESS THAN FIFTEEN (15) YEARS OLD (assembled or unassembled)		None are admissible	
<b>Competition Vehicles</b>	All models		Competition Vehicles are designed for use exclusively in closed-course competition. These vehicles are exempt from the RIV program provided they: bear a label affixed by the manufacturer stating, in both official languages, that the vehicle is a competition vehicle and is for use exclusively in closed-course competition, or is accompanied by a signed declaration clearly indicating that the vehicle is a competition vehicle and is for use exclusively in closed-course competition. This signed declaration <b>MUST</b> come from a racing sanctioning body, i.e. FIA, AMA, CART, etc.

### SECTION 3 - Passenger Cars

This section applies to 2003 and newer model year passenger cars.

Refer to Section 2.0 for info on importing passenger cars fifteen (15) years old or older as determined by month and year of manufacture.

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
<b>ACURA</b>	<p>2003 TO 2018 All models</p> <p>Please read all notes</p>	Please read all notes	<p>See <a href="#">EXPLANATIONS</a> section.</p> <p>Note 1: [EIS] <b>Electronic Immobilization System:</b> for vehicles built AFTER September 1, 2007, you must read paragraph #9 of the "EXPLANATIONS" section.</p> <p>Note 2: Possible modifications may include: daytime running lamps, electronic immobilization system (see Note 1), metric odometer and speedometer labels.</p> <p>At federal inspection, the RIV will verify that vehicle is equipped with functional daytime running lamps. Importer must also demonstrate that the vehicle is equipped with an electronic immobilization system for vehicles built AFTER September 1, 2007. Other requirements may also apply.</p>

SECTION 3 - Passenger Cars (Cont'd)

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
			For additional information specific to a vehicle, please contact an Acura dealer. Importers can also contact Acura U.S. client relations at 1-800-382-2238.
<b>ALFA ROMEO</b>	2008 Alfa Romeo 8C Competizione 2009 Alfa Romeo 8C Spider	All other passenger car models are inadmissible.	See <a href="#">EXPLANATIONS</a> section.  There were no Alfa Romeo passenger car models built for the U.S. between 1995 and 2007.
<b>ASTON MARTIN</b>	2003 TO 2019 All models		See <a href="#">EXPLANATIONS</a> section.
<b>AUDI</b>	2003 TO 2018 All models  <b>Please read notes</b>		See <a href="#">EXPLANATIONS</a> section.  Please contact Audi Canada customer service at 1-800-822-AUDI (2834) for information on limitations that may apply when importing certain Audi models into Canada.
<b>BENTLEY</b>	2003 TO 2018 All models  <b>(see notes)</b>  For Bentayga sport utility vehicle models, see <a href="#">Section 5.4</a>		See <a href="#">EXPLANATIONS</a> section.  Bentley Canada informed Transport Canada that ALL modifications MUST be performed (and documented) by an authorized Bentley Canada dealer and must be completed before a recall clearance letter can be issued by Bentley Canada. Contact an authorized Canadian retailer for information on exact nature and costs of modifications required for U.S. Bentley vehicles.
<b>BMW</b>	2003 TO 2018 All models  <b>(see notes)</b>		See <a href="#">EXPLANATIONS</a> section.  Note 1: BMW Canada informed Transport Canada that ALL modifications MUST be performed (and documented) by an authorized BMW Canada retailer and must be completed before a recall clearance letter can be issued by BMW Group Canada. Contact an authorized Canadian retailer for information on exact nature and costs of modifications required. Modifications vary by model and may be expensive.  Note 2: Modifications may include: daytime running lamps and metric odometer and speedometer labels.  Visit BMW Canada's website at <a href="http://www.bmw.ca">www.bmw.ca</a> for detailed contact information on retailers in Canada, as well as information on U.S. vehicle importation.
<b>BUGATTI</b>	2006 TO 2015 Veyron, Grand Sport, Supersport and Vitesse models	Contact the manufacturer for information on newer models	See <a href="#">EXPLANATIONS</a> section.  Bugatti and Volkswagen Group of Canada require that importers contact Bugatti (818-309-8161) to obtain a recall letter. Some 2006 to 2008 models may require modifications to daytime running lights. Contact an authorized Bugatti service dealer to determine the exact nature and cost of required modifications.
<b>CHRYSLER (FCA)</b> <b>- DODGE</b> <b>- PLYMOUTH</b>	2003 TO 2018 All Chrysler, Dodge, Plymouth and Jeep models. <b>If built AFTER September 1, 2007 [EIS] see notes</b>		See <a href="#">EXPLANATIONS</a> section.  [EIS]: See "EXPLANATIONS" section paragraph #9.

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
- JEEP - FIAT	2012 TO 2018 Fiat 500 series models (all types)		
FERRARI	See # note regarding salvage vehicles 2003 TO 2018 All models [EIS] (see notes)	<b>Grey market Ferrari vehicles</b> less than 15 years old from the date of modification are <b>inadmissible for importation</b> into Canada.  They are foreign-specification vehicles originally manufactured for a domestic market other than the United States and re-certified by another U.S. company. Please contact the manufacturer to confirm the standards at original assembly of a vehicle before purchasing or importing a vehicle.	Read <a href="#">EXPLANATIONS</a> section.  #: The manufacturer will not issue a confirmation of no outstanding recalls for vehicles that were once declared "salvaged" in the U.S. See paragraph 8 of EXPLANATIONS section.  Ferrari North America, Inc. requires that importers contact an authorized Canadian Ferrari dealership to determine exact nature and costs of modifications and specifies that ALL modifications MUST be performed by an authorized Canadian Ferrari dealership.  [EIS] <b>Electronic Immobilization System</b> : for vehicles built AFTER September 1, 2007, you must read paragraph #9 of the "EXPLANATIONS" section.
FISKER	2012 Karma	Contact the manufacturer for information on newer models	See <a href="#">EXPLANATIONS</a> section.
FORD - LINCOLN - MERCURY	<b>Please read all notes</b>  2003 TO 2018 All passenger car models are admissible <b>except for those listed in the inadmissible column</b>  The following models are also included as admissible:  2006 AND 2007 Ford Mustang Shelby GT-H (completed by Shelby)  2007 AND 2008 Ford Mustang Shelby GT (completed by Shelby)  2009 Ford Mustang Shelby GT500KR (completed by Shelby)  2007 TO 2014 Ford Mustang Shelby GT500 (manufactured by Ford)  2015 TO 2017 Ford Mustang Shelby GT350 and GT350R (manufactured by Ford)  2007 and newer Ford Mustang GT (manufactured by Ford)  2012 TO 2014 Ford Mustang Boss 302 and Boss 302 Laguna Seca series	All other Ford vehicles modified by companies such as <b>Saleen Performance Cars, Roush Industries and Shelby Industries</b> are <b>inadmissible</b> .	See <a href="#">EXPLANATIONS</a> section.  [EIS]: Some models <b>may not be equipped</b> with factory issued <b>Electronic Immobilization Systems</b> . Importers must ensure that EIS requirements can be met and should contact the manufacturer prior to importation if it appears the vehicle requires an EIS installation. Read paragraph #9 of the "EXPLANATIONS" section for more information about EIS.  DAYTIME RUNNING LAMPS (DRLs): Many Ford models have a configurable lighting system module that can be reconfigured. Contact an authorized Ford or Lincoln dealer for additional information.

Refer to other sections of the list for verifying admissibility of multipurpose passenger vehicles (MPV) further modified into other classes of vehicles such as camper vans (class B motorhomes), customized van conversions, disabled access vehicles, ambulances or buses.

THE FOLLOWING INFORMATION IS SUBJECT TO CHANGE WITHOUT NOTICE - TRANSPORT CANADA AND THE REGISTRAR OF IMPORTED VEHICLES DOES NOT GUARANTEE ITS ACCURACY. Jan/26/2018 Edition

### SECTION 5 - Disabled Access Vehicle Conversion

This section applies to vehicles modified to meet the needs of physically challenged individuals. Modifications may include: raised roof, lowered floor, specially designed adjustable driver seat, hand controls, power lift, etc.

**Note:** Canadian certified vehicles modified in the United States do not qualify for re-importation into Canada under this program. This list only applies to vehicles certified to U.S. Federal Motor Vehicle Safety Standards (FMVSS) offered originally for sale on the retail market in the United States.

### SECTION 10 - Ambulance Vehicles

Ambulance vehicles are emergency response vehicles designed for the transport of individuals requiring medical care. Modifications may include: raised roof, customized interior, etc.

Type I units are manufactured on a truck cab and chassis with a remountable modular body.

Type II units are manufactured on a Ford, GM or Chrysler full size van which have a Gross Vehicle Weight Rating (GVWR) of less than 4536 kg, as noted on the compliance label.

Type III units are manufactured on a cutaway van and chassis with a remountable modular body.

MANUFACTURER	ADMISSIBLE	INADMISSIBLE	NOTES
<b>ADVANCED RESPONSE VEHICLES</b>	2003 TO 2014 Type I and III models 2003 TO 2014 Type II models manufactured on Ford full size vans. If built AFTER September 1, 2007 [EIS] (see notes). ### SECTION 11 - Trailers with a Gross Vehicle Weight Rating (GVWR) of 4536 kg or More Manufactured after September 1, 2007

Trailers under this category (with the exception of certain types of trailers described below) must comply at importation with Canadian rear impact guard requirements (see paragraph #10 of the Explanations section). This section identifies trailer manufacturers who have demonstrated compliance.

**Note:** The following types of trailer are exempt and are not required to be on this list:

- (a) a pole trailer, a pulpwood trailer, a wheels back trailer or a trailer designed to be used as temporary living quarters (i.e. travel / RV trailer);
- (b) a low-chassis trailer (i.e. horse / stock trailer, boat trailer); and
- (c) a trailer designed to interact with, or having, work-performing equipment located in or moving through the area that would be occupied by a horizontal member that meets the configuration requirements specified in the standard.
