2018 AgriStability Program

Missing Margin Information Guide

© Her Majesty the Queen in Right of Canada, represented by the Minister of Agriculture and Agri-Food (2018).

AAFC No.: 12731E

ISSN: 2561-4495

CAT: A120-17E-PDF

Aussi offert en français sous le titre : Programmes d'Agri-stabilité 2018 : Guide sur les renseignements manquants relatifs à la marge

Read the information below before completing the forms:

Confidential information and participant consent

Agriculture and Agri-Food Canada (AAFC) and the Canada Revenue Agency (CRA) are committed to protecting the privacy of your information. The information on the Missing Margin Information form (hereafter this form) and Participant Identification Number (PIN) is collected under the authority of Section 4 of the Farm Income Protection Act (FIPA) and will be used exclusively for the purposes of:

- administering your participation in the AgriStability program
- determining your eligibility for benefits
- verifying the information submitted
- issuing tax receipts
- administering benefits under other farm income and special assistance programs
- audit, analysis, and evaluation of the AgriStability and other farm income and special assistance programs by the Administration, AAFC, the provincial or territorial governments or third parties engaged for that purpose

By completing this form you authorize the Administration, the provincial and territorial governments, administrators of other farm income and special assistance programs, and third parties possessing information relevant to the administration of, and your participation in, the AgriStability program to share such information with AAFC.

All applicants except Status Indians and Band farms: by completing this form, you authorize the CRA to share information from this form with AAFC, and you authorize AAFC, where relevant, to share the information on the form and any additional information that is provided as the application is processed, with the CRA, the Administration, provincial and territorial governments and with the administrators of other federal/provincial farm programs.

Status Indians and Band farms: AAFC agrees that information provided by Status Indians and Band farms to the AgriStability program will not be disclosed to the CRA by the Administration, unless disclosure is required by law. By completing and submitting this form you authorize the Administration to share information from this form with AAFC, and authorize AAFC to share the information on the form and any additional information that is provided as the application is processed, with provincial or territorial governments and with the administrators of other federal/provincial farm programs.

If you do not consent to the sharing of information described herein you may be ineligible to participate in the AgriStability program or receive benefits or adjustments to benefits under the AgriStability program.

You have the right to access the personal information held by federal departments and to request changes to incorrect personal information. For more information about your rights regarding the Privacy Act contact the AAFC Access to Information and Privacy Coordinator at aafc.atip-aiprp.aac@canada.ca and reference AAFC PPU 183.

In addition, by submitting this form for benefits under the AgriStability program, you:

1. certify that the information provided is complete and correct
2. declare that the structure of this farming operation has not been altered or created for the purpose of manipulating program benefits or avoiding prescribed maximum limits on program payments

See next page

3. understand and agree that any Interim or Targeted Advance payment of AgriStability program funds will be deducted in the calculation of a final AgriStability program payment
4. agree that you will repay any amounts paid to you by the AgriStability program that are in excess of the amount calculated under the program rules and understand that any amount you owe to the Crown may be subtracted from any payments to be sent to you by the Crown
5. understand that interest will be charged on overpayments
6. understand and agree that the information you submit may be combined with the information of other participants for the purposes of determining AgriStability benefits, and consent to the disclosure of information pertaining to you or your financial affairs to the other participants who are being combined with your information
7. understand and certify that where you have provided information about other individuals or entities you have been authorized by those individuals or entities to provide that information
8. understand and agree that where you have provided information about other individuals or entities, if they request to see the information you have submitted about them, the Administration will give them access to that information
9. understand and agree that the person you identified on this form as your contact person may receive information relating to your application from the Administration and may instruct the Administration to modify information relating to your application
10. consent to third parties, CRA and other government programs disclosing to the Administration, upon its request, any information pertaining to you or your financial affairs which the Administration considers necessary for the purpose of verifying the AgriStability benefit or the information provided on this form
11. understand that it is a criminal offence to make a false statement in application for program benefits and any declarations made are subject to audit

Before you start

Use this guide to complete the forms you need to participate in the 2018 AgriStability Program.

Review this guide to make sure you fill out your forms correctly. Providing correct information helps us to accurately calculate your benefits and prevents processing delays.

AgriStability overview

AgriStability is a voluntary Business Risk Management program that provides support when you experience larger income losses.

AgriStability is cost shared by the federal and provincial/territorial governments on a 60/40 basis.

AgriStability is based on margins.

Program margin - your allowable income minus your allowable expenses in the current year adjusted for changes in purchased inputs, receivables, payables and inventory.

Reference margin - an average of your historical program margins with adjustments made to reflect significant changes to the size or structure of your farm.

Reference margin limit - your average allowable expenses for the three years used to calculate your reference margin.

Generally, you will receive an AgriStability payment when your program margin in the current year falls below 70% of either your reference margin or your reference margin limit, whichever is lower. However, your reference margin limit cannot reduce your reference margin by more than 30%. If it does, your reference margin limit will be adjusted to the higher amount.

Example:

If your reference margin is \$100,000, your reference margin limit cannot reduce your reference margin below \$70,000 (\$100,000 - \$30,000).

2018 Reference margins will be calculated as follows:

- If you participated in the program in any of the past four years, we will calculate your reference margin using the program margins for the previous five years. The highest and lowest program margins are dropped and the remaining three years are averaged. This is called an Olympic average.

- If you did not participate in the program for the past four years, we will calculate your reference margin using an average of the three previous program year margins. We will continue to calculate your reference margin using the three previous program year margins until you have five years of historical information on file.
- If you did not have farming activity in one or more of the five previous years, your reference margin will be calculated using an average of the previous program year margins. If you did not have farming activity in any of the three previous years, we will create margins for any missing years using industry averages.

Participation overview

Participants include:

- individual producers
- landlords in a crop or livestock share joint venture*
- partners in a partnership
- corporations
- co-operatives
- communal organizations
- estates
- trusts
- limited partnerships
- Status Indians and Band farms farming on a reserve

*If you farm as a landlord you are eligible only if you are in a joint venture with the tenant and your share of the allowable expenses is reasonable for your share of the allowable income.

To participate in AgriStability, each year you must:

- pay an enrolment fee
- submit a form by the final deadline for the program year
- file an income tax return reporting farming income (loss) by the final deadline for the program year

Generally, you are eligible for AgriStability if you earn income from the primary production of agricultural commodities and you:

- farm in Canada
- file an income tax return reporting farming income (loss), unless you are exempt from filing income tax
- complete six months of farming activity
- complete a production cycle (for example, growing and harvesting a crop or rearing livestock)

- submit all necessary information by the required deadlines

We may waive the requirements to complete six months of consecutive farming activity and a production cycle if you experienced a disaster.

If you are a Status Indian farming on a reserve in Canada and you are not required to file an income tax return, send us your farming income (loss) information you would have otherwise reported for income tax. We will assume you have a December 31st fiscal year-end.

For complete program rules, see the AgriStability Program Guidelines at www.agr.gc.ca/agristability.

Important deadlines

April 30, 2018

- deadline to enrol for 2018 AgriStability
- non-penalty deadline to pay your AgriStability fee (unless your Enrolment Notice shows a different date)

December 31, 2018

- final deadline to pay your AgriStability fee with a 20% penalty (unless your Enrolment Notice shows a different date)

September 30, 2019

- initial deadline to submit your 2018 AgriStability form without a late filing penalty

December 31, 2019

- final deadline to file your 2018 income tax return reporting farming income (loss)
- final deadline to submit your 2018 AgriStability form with a late filing penalty

We will reduce your benefit by \$500 for each month (or part of a month) you submit your form between the initial and final deadline dates.

If your late penalty is more than your payment we will reduce your payment to zero. We will not apply the late penalty balance to the next program year.

If a deadline falls on a Saturday, Sunday, or statutory holiday, you have until the next business day to send the information.

Where to send your forms

Mail your forms to:

AgriStability Administration
PO Box 3200 Station Main
Winnipeg MB R3C 5R7

Or fax your forms toll-free to: 1-877-949-4885.

We suggest using registered mail or keeping your fax transmittal slip to show that you sent your forms on time.

Completing your Missing Margin Information forms

To participate in AgriStability, we must assign you a Participant Identification Number (PIN).

The PIN uniquely identifies your farm operation and protects the privacy of your information.

If you previously participated in AgriStability, you have a PIN. If not, we will assign one to you. Keep the number handy as you will need it for future contact and participation.

Non-allowable commodities: Income and expenses related to aquaculture, wood sales, peat moss, wild game reserves, and trees sold for use in reforestation are not allowable for the AgriStability program. Although you are required to report these commodities for the income and expense sections of the form, do not include them when completing the inventories, purchased inputs, deferrals, receivables, and payables sections of the form.

Income and expenses

Use the most recent AgriStability and AgriInvest Harmonized Guide to complete this form. For a copy of the guide, visit www.agr.gc.ca/agristability or contact us at 1-866-367-8506.

Operation number (#)

If you have more than one farming operation:

- complete a form for each operation
- number each operation in the same order as the last time you applied
- send all forms together

Participant identification

Name and Participant Identification Number (PIN)

Enter your name and PIN. If you do not have a PIN, leave the field blank.

Fiscal period

Enter the fiscal period for this operation. Report the beginning and end of the farming operation's business year by the year, month and day.

Method of accounting

Use the same method of reporting (cash or accrual) that you use for income tax. Enter:

- code 1 for accrual method or
- code 2 for cash method

Income

Follow the instructions in the most recent AgriStability and AgriInvest Harmonized Guide to report your commodity sales, program payments and other farming income that you reported for tax purposes.

Expenses

Follow the instructions in the most recent AgriStability and AgriInvest Harmonized Guide to report your commodity purchases, repayments of program benefits, allowable expenses and non-allowable expenses that you reported for tax purposes.

Partnership information

Enter your partnership name.

Report your percentage share of the partnership.

Enter the following information for each partner in the partnership:

- Participant Identification Number (PIN). If they do not have a PIN, leave this field blank.
- first name and last name or corporation name and
- partner's percentage of the partnership

Inventories, purchased inputs, deferrals, receivables and payables

Operation number (#)

If you have more than one farming operation:

- complete a form for each operation
- number each operation in the same order as the last time you applied

- send all forms together

Name and Participant Identification Number (PIN)

Enter your name and PIN.

To complete the inventories, purchased inputs, deferrals, receivables and payables sections you will need to refer to the following lists which are found at the back of this guide:

Commodity list: Includes the codes and descriptions of commodities to complete the Purchased inputs, Deferred income and receivables and Accounts payable sections.

Program payment list: Includes the codes and descriptions of program payments to complete the Deferred income and receivables section.

Inventory code list: Includes the codes and descriptions of commodities to complete the Crop inventory valuation and productive capacity and the Livestock inventory valuation sections.

Units of measurement code list: Includes the unit of measurement codes (for example tonnes or bushels) to report your Crop inventory valuation and productive capacity section.

Expense code list: Includes the codes and descriptions of expenses to complete the Purchased inputs and Accounts payable sections.

Productive capacity list: Includes the codes and units needed to report "other" commodities in the Livestock productive capacity section.

Before you begin completing this section, there is some general information that you should know about valuing your inventory.

Commodity pricing

We use commodity prices to value your inventory.

Use the Inventory code list to see if you need to provide us with a price for your commodity.

For codes marked with an "X", we have developed prices to value these commodities. You can only provide your own price if:

- your method of marketing the commodity is very different from the general marketing practice or
- your commodity is very different from the commodity listed

If you provide your own price, send copies of receipts or documents in your name that support the price. The receipts or documentation must have occurred within 30 days either before or after your fiscal year-end.

For a copy of the AgriStability Price List for each year, visit agr.gc.ca/agristability or contact us at 1-866-367-8506.

For codes not marked with an “X”, enter your own price.

Base your price on the market prices at year-end, or sales or purchases within 12 months before or after your fiscal year-end.

Provide receipts or commodity specific price information from a commodity marketing agency to help ensure your price will be accepted.

In both cases, we will decide if these prices are reasonable for your farm.

Crop inventory valuation and productive capacity

To complete this section, refer to your:

- crop production records
- sales and feeding records
- crop insurance measurements
- inventory records

How to complete the columns

Code and Crop/Grade

Use the Inventory code list to report all crops by code and description that you:

- produced
- had on hand at the end of your fiscal period or
- planned to produce but could not because your land was too wet or too dry

If your crop is not listed, leave the code blank and provide a detailed crop description.

If you purchased seed that you have on hand at the end of the year, report the dollar value under Purchased inputs.

Grain producers, report each grade or variety of crop separately. For example, report #1 CWRS wheat separately from #2 CWRS wheat. Leave the code blank if the commodity is not listed in the Inventory code list.

Units

Use the Units of measurement code list to report the code for the unit of measurement used for each commodity you report, not the dollar value. Use the same unit of measurement for all entries in a single row.

Acres

Report the number of acres used to produce each crop. Report only those acres that produced or should have produced a crop during your fiscal period.

If you had unseedable acres (too wet or too dry), report them in the “Unseedable acres” column.

Report all summerfallow, pasture and wasteland acres on the designated lines.

For commodities not measured by acres, use the unit of measurement that is standard for the commodity.

Example

Greenhouse and nursery operations (including floriculture) report in square metres, based on the productive area.

Maple syrup operations report in hundreds of taps producing. For example, if you have 350 taps producing, you report 3.5 ($350/100 = 3.5$).

Unseedable acres

Report all acres that you planned to seed for each commodity (in the 2013 to 2017 program years) that should have produced a crop but did not because your land was too wet or too dry.

If you are completing the form for the 2012 reference year, report your total unseedable acres on line 16 – Unseedable acres.

Example

At the beginning of the year you planned to grow canola on 300 acres. However, you only seeded 200 acres because of flooding. In your crop inventory, report 200 acres of canola, and 100 unseedable acres of canola.

Quantity produced

Report the quantity of the crop you produced in the program year.

Ending inventory

Report the quantity of crop you had on hand at the end of your fiscal period.

End of year price \$

Provide an end of year price to value your crops that are shaded on the Inventory code list for your province or territory.

Leave the end of year price blank if your crop is marked with an “X” on the Inventory code list, unless you meet the conditions for using your own price. See “Commodity pricing” on page 3 for more information.

Crops or forage carried over from prior fiscal year but no longer seeded or produced in current fiscal year

If you had inventory at the end of your prior fiscal period for a crop you did not grow in the current fiscal period:

- complete the Code, Crop/Grade and Units columns
- enter “0” in the Acres and Quantity produced columns and
- report ending inventory in the Ending inventory column if you are carrying the inventory over to your next fiscal period

Landlords/tenants

If you are a tenant in a crop share, or a landlord in a joint venture crop share, report only your share of the acres and production.

Example

You rent 300 acres in a crop share agreement. You receive 2/3 of the crop and pay 2/3 of the allowable expenses. Your landlord receives the remaining 1/3 of the crop and pays 1/3 of the allowable expenses. The rented land produced 300 tonnes of wheat.

You report your 2/3 share of both the acreage and the production:

- 200 acres
- 200 tonnes of wheat

Your landlord reports his 1/3 share of both the acreage and the production:

- 100 acres
- 100 tonnes of wheat

Commodity pools

If you sold crop into a pool, report the full value of your commodity, even if you only received a portion of the payment in your current fiscal period.

Use code 4020, Expected grains and oilseeds pool payments to report any payments you received or expect to receive for your commodity after your fiscal year-end as a receivable in the Deferred income and receivables section of the form.

Example

In 2018 you sold 10 tonnes of wheat through G3 Canada Limited. You received initial and adjusted pool payments of \$2,554.50 in your fiscal period and estimate that the final payment (which will be paid to you in the next year) to be \$645.50.

Report:

- \$2,554.50 as a wheat sale using code 056
 - \$645.50 in Deferred income and receivables using code 4020
-

If you sold crops through the Canadian Wheat Board during your reference years, account for your production and ending inventory using the CWB wheat and barley inventory codes for the 2012 form if your fiscal year-end was before July 31, 2012.

If you requested your pool payments (adjustments, interim, or final) to be deferred to your next fiscal period, report these deferrals using the commodity code specific to that crop.

Perishable horticulture crops

A perishable horticulture or floriculture crop:

- spoils or decays easily
- cannot be stored for periods longer than 10 months, such as potatoes, apples or carrots

Perishable horticulture crops are adjusted on an accounts receivable basis, not on an inventory valuation basis.

Report only the Quantity produced from your current fiscal period. Do not report ending inventories or production from your previous fiscal period.

Report any income from the sales of the current crops that you will receive in the next fiscal period in the Deferred income and receivables section.

Swath grazing

If you use swath grazing as a management practice, use code 5588 to report the number of acres you used for swath grazing. Report your production (in tonnes) and any swath remaining at the end of your fiscal period as ending inventory.

Organic production

Report your crop as “organic” only if it is Certified Organic. We may ask for your organic certification.

Unharvestable acres

If you grew a commodity and expected to harvest it in the program year, but could not for reasons beyond your control, report the commodity, acres and enter ‘0’ as the total production.

Snowed-under crops

If you could not harvest some or all your crop at the end of your fiscal period because it was snowed under, report:

- the total acres for the crop using the inventory code for that crop
- the estimated production that you may be able to harvest next year

Then use code 6826, Harvest discount allowance to report all commodities that were snowed under.

Example

You seeded 350 acres; 100 acres of canola and 250 acres of barley. You harvested 80 of your canola acres and 200 of your barley acres before the remainder of your crops were snowed under. Report the following as crops inventory:

- 100 acres for canola
- 250 acres for barley
- the amount you harvested from those acres

Report the 70 acres as snowed under using code 6826, Harvest discount allowance.

350	seeded acres
- 80	acres of harvested canola
- 200	acres of harvested barley
= 70	acres snowed under

Standing crops

If your farm always has a standing crop at the end of your fiscal period (for example, July 31st), do not report the standing crop.

If your farm has an unexpected standing crop because you could not harvest it before the end of your fiscal period, include the standing crop in inventory.

Report the total acres for each crop you grew using the inventory code for that commodity. Then use code 6826, Harvest discount allowance to report the total acreage of all crops that were standing at your fiscal year-end.

Example

You had 400 acres seeded to flax. You were only able to harvest 250 of these acres before your fiscal year-end, leaving you with 150 acres still standing.

400	acres of flax
- 250	acres harvested
= 150	acres with standing crop

Report 400 acres of flax, and the actual harvest amount you harvested from those acres. Then report 150 acres as standing using code 6826, Harvest discount allowance.

Multiple crops

If you harvested your crop early enough to plant another crop on those acres, and you harvested both crops in the same fiscal period, report the acreage and production for each crop in your crop inventory.

Example

You planted two acres of strawberries and harvested the berries early in the summer. You then removed the strawberry plants and planted potatoes, which you harvested in the fall.

Report:

- 2 acres of strawberries and the amount you harvested from those acres
- 2 acres of potatoes and the amount you harvested from those acres.

Multi-stage crops

Multi-stage crops are commodities that take longer than one year to reach full production. Because multi-stage crops are grown over several years, there are different inventory codes to reflect the stage of growth.

Report all acres of your crop, even if you did not harvest the crop in your program year.

Use the Inventory code list to report the stage of production for your crop.

Multi-stage crops include:

- high bush blueberries
- grapes
- sod
- Christmas trees
- echinacea
- ginseng

In New Brunswick and Nova Scotia, multi-stage crops also include:

- low bush blueberries
- cranberries

High bush blueberries and grapes

Start reporting your acres in the year you plant. Continue reporting your acres during the non-bearing years.

Low bush blueberries

Start reporting your acres once you have cleared the land and started nurturing the plants. Once you start producing blueberries, report your acres based on their stage of growth. Continue reporting your acres in the years you burn/mow/sprout.

Sod

Report your total sod acres (seeded, growing and harvested), based on their stage of growth at the end of your fiscal period.

Example 1

You seeded 150 acres at the end of 2017 and harvested them in 2018. Report 150 acres using code 6941, Sod, acres seeded.

Example 2

You seeded 150 acres in 2016 but did not harvest those acres until 2018. Report 150 acres using code 6943, Sod, acres growing.

If you harvested and then re-seeded the same sod acres in your 2017 fiscal period, report the acres twice.

Example

If you harvested and then re-seeded 150 acres in 2017, report 150 acres using code 6945, Sod, acres harvested and 150 acres using code 6941, Sod, acres seeded.

Christmas trees

There are two types of Christmas tree operations:

- tree farms
- managed natural tree stand

Tree farms plant their seedlings in a greenhouse, garden or tree farm and maintain them until harvested.

Report your total acres of trees based on their stage of growth at the end of your fiscal period. Report your production and ending inventory based on the number of trees you had in each stage of growth.

- nursery codes for the seedling you grow in your greenhouse or garden prior to transplanting to your tree farm
- code 6960 for the seedling or trees you planted on your tree farm the first year (establishment stage)
- code 6961, 6962, 6963 or 6964 to report your seedlings or trees based on their stage of growth

Managed natural tree stand operations select trees from existing forest and actively maintain them until harvested.

Report the acres of trees that you actively maintained as either pre-harvested (in the ground) or harvested (removed from the ground). Base the number of acres you report on 1,000 trees per acre.

Example

If you had 9,500 pre-harvested trees at the end of your fiscal period, report 9.5 acres ($9,500/1,000 = 9.5$).

Pre-harvested

Report quantity produced and ending inventory based on the number of trees not yet harvested.

Harvested

Report quantity produced based on the number of trees harvested.

Do not report ending inventories or an end of year price. Harvested trees are a perishable commodity. They are adjusted on an accounts receivable basis, not an inventory basis. See Deferred income and receivables on page 10.

Echinacea and ginseng

Report acres in the establishment stage until the year of harvest. When you harvest the acres, report them as root harvested.

Cranberries

Report acres in the establishment stage until production starts. This stage can last up to three years.

Livestock inventory valuation

This part of the form is used to:

- measure your livestock inventory change from the ending amount you reported in your prior program year to the ending amount in the current program year
- show that your farm has completed a production cycle

How to complete the columns

Code and livestock description

Use the Inventory code list to report all livestock that you had on hand at the end of your fiscal period. Report each class of livestock separately.

If you purchased feed, embryos or semen that you have on hand at the end of the year, report the dollar value under purchased inputs.

Ending inventory

Report the number of head that you had on hand at the end of your fiscal period. Use actual, not rounded numbers.

End of year price \$

Include an end of year price to value livestock that are shaded on the Inventory code list (for your province or territory). If you are reporting a livestock category that is marked with an “X” on the Inventory code list, leave this column blank.

Do not complete this column if you file your income tax on the accrual basis.

Livestock lease agreements

If you are involved in a lease agreement, or if you own a portion of an animal, report only your share of the lease agreement. For example, if you co-own a bull with another producer, report ½ a bull in your inventory.

Lessee: If you lease a breeding herd but take only a percentage of the calf crop, report your share of the:

- herd based on your share of the calf crop (use code 8134, Breeding females, leased (not owned) to report the leased cows)
- calves (use the code for their weight class)

Example

If you lease 100 cows but take only 60% of the calf crop, report only 60 cows (60% of 100) using code 8134. Then report 60 calves using the codes based on their weights.

Lessor: If you own cows but lease them out and take a percentage of the calf crop, report:

- 100% of your cows (use the codes found in the Inventory code list)
- your share of the calf crop (use the code for their weight class)

Livestock productive capacity

This information is used to adjust your reference margins if your operation experienced a change in structure.

Livestock lease agreements

If you lease animals but do not take 100% of the revenue from the animal, report only your share of the agreement.

Example

If you lease 100 cows but only keep 60% of the calf crop, report 60 cows (100 X 60% = 60).

Productive animals

Code 104 - Cattle

Report the number of cows that calved in your fiscal period.

Do not report calves that were born in your fiscal period even if they were:

- weaned
- sold
- held over to sell in a different fiscal period

If you hold your calves over to your next fiscal period, report them as feeder cattle next year if they have an appreciable gain in that fiscal period.

Report all your calves as inventory in the Livestock inventory valuation section even if you hold them over to your next fiscal period.

Codes 123 and 145 – Hogs

Report the number of sows in the breeding herd within your fiscal period. Report the sows based on the type of operation (farrowing or farrow to finish).

Calculate the average number of breeding sows by dividing the births in your fiscal period by your average birthrate per sow.

Example

$$\begin{array}{r}
 10,000 \text{ births} \\
 \div 23 \text{ average birthrate per sow} \\
 \hline
 = 435 \text{ average number of breeding sows}
 \end{array}$$

If your hog operation only produced for part of the year, ensure your average number of breeding sows is lower to reflect your reduced production.

Codes 105 and 106 - Number of feeder livestock - Cattle

Report the number of animals you fed to an appreciable gain in your fiscal period (a 90 kg/200 lb weight gain or a minimum of 60 days on feed). Group the animals fed based on:

- the sale weight, if sold in the program year
- the expected sale weight, if not sold in the program year

Do not include the following animals in this section:

- breeding animals
- culls
- animals that have not been weaned
- animals born within the operation in the program year

Codes 124 and 125 - Number of feeder livestock – Hogs

Report the number of animals fed. Group the animals fed based on:

- the sale weight, if sold in the program year
- the expected sale weight, if not sold in the program year

Do not include the following animals in this section:

- breeding animals
- culls
- animals that have not been weaned
- animals born within your operation in the program year
- animals previously reported in a farrow to finish operation

Example

You purchased, fed, and sold 100 Isoweans to weanling weight (8 to 50 lb) and fed another 100 feeder hogs (50 lb to slaughter). Report 100 Hogs, nursery (fed to 50 lb), and 100 Hogs, feeders (fed over 50 lb).

Custom fed livestock

Report the number of animal feed days. Animal feed days are the number of animals x the number of days each animal was fed.

Example

100	animals fed
x 90	days
= 9,000	animal feed days

Supply managed commodities

Report the amount of quota and contract held.

Ranch fur operators

Report the number of females that birthed.

Other (specify below)

Use the Productive capacity list to find the codes and units needed to report your livestock that do not fit into the above categories. If the commodity is not listed, enter a description and leave the code blank.

Purchased inputs

Complete this section if it is relevant to your farm.

Do not complete this section if you file your income tax on the accrual basis.

Report inputs you purchased to produce your agricultural commodities that you did not use by the end of your fiscal period.

Some examples of purchased inputs are:

- fuel
- chemicals
- purchased seed
- feed
- embryos
- semen
- fall application such as seed, fertilizers, and chemicals

Do not report your purchased inputs as ending inventory in the Crop inventory valuation and productive capacity and Livestock inventory valuation sections. For example, if you purchased \$5,000 of wheat seed for next year's crop report the amount as a purchased input but do not include the seed in the crop inventory section.

How to complete the columns

Code and description

Use the Expense code list or the Commodity list to identify the code and description for each item you report. If your item is not listed, leave the code blank.

End of year amount \$

Report the dollar amount that you had on hand at the end of your fiscal period. Include any fall applications and any prepaid purchases that are designated for the next fiscal period.

Example

Based on a December 31st fiscal year-end:

In October, you purchased \$45,000 worth of fertilizer. You applied half of this amount in the fall and carried the other half in inventory into the next fiscal period. Report a total of \$45,000 in the End of year amount column.

Livestock owners and custom feedlot operators with prepared feed purchases

Report the value of prepared feed and protein supplements you had on hand at the end of your fiscal period using code 571.

Ranch fur operators with prepared feed expenses

Report the value of prepared feed and protein supplements you had on hand at the end of your fiscal period using code 574.

Deferred income and receivables

Complete this section if it is relevant to your farm.

Do not complete this section if you file your income tax on the accrual basis.

Deferred income is income you have chosen to postpone receipt of to the following fiscal period.

A receivable is income that is owed to you, for goods delivered or services provided in this fiscal period, but not paid to you until your next fiscal period.

Deferred income or receivables must be for income that is allowable for AgriStability. For example, a receivable for the sale of grain is allowable; a receivable for machinery rental is non-allowable. See the program handbook or visit www.agr.gc.ca/agristability for more information on allowable and non-allowable items.

Report AgrilInsurance (crop or production insurance) indemnity as a receivable even if you did not receive your full indemnity before your current fiscal year-end.

How to complete the columns

Code and description

Use the Commodity list and the Program payment list to report all deferred income and receivables you had at the end of your fiscal period. If your item is not listed, leave the code blank.

Use code 9574 to report any deferred income, receivables for resale, rebate or GST/HST related to your allowable expenses.

Ending receivables and income deferred to next year

Report the dollar value of the account receivable or deferred income item that is owed to you at the end of your fiscal period.

Commodity pools

If you sold commodities into a pool, but did not receive the full value for the sale of your commodity at your fiscal year-end, use code 4020 to report any adjustments or final payments you received or expect to receive after your current fiscal year-end. Provide an estimate if you do not know the amount of the adjustment or final payment.

If you deferred your pool payments (adjustments, interim or final) to your next fiscal period, report these deferrals using the code for the commodity.

CWB Adjustments are calculated automatically using information from the Crop inventory section for 2012 if your reference year ended before July 31, 2012.

Custom feedlot operators

Use code 246 to report any amounts owed to you for custom feeding livestock.

Prescribed drought region (PDR), Prescribed flood region (PFR) and Canadian Food Inspection Agency (CFIA) deferrals

If you deferred a PDR/PFR or CFIA payment out of your current fiscal period, report the amount you deferred using the following codes:

PDR/PFR/CFIA Deferred livestock codes	
Deferred bovine cattle	150
Deferred bison	151
Deferred goat	152
Deferred sheep	153
Deferred deer	154
Deferred elk	155
Deferred horse for PMU sales	156
Deferred other breeding animals	157

Perishable horticulture crops

Report the sales of the current year's crop that you sold in the next program year as an ending receivable. See Perishable horticulture crops on page 5 for more information.

Accounts payable

Complete this section if it is relevant to your farm.

Do not complete this section if you file your income tax on the accrual basis.

An account payable is an expense that you owe for goods and services that you have received but have not paid for in this fiscal period.

An account payable must be related to an expense that is allowable for AgriStability. For example, a payable for a livestock purchase is allowable; a payable for building a barn is non-allowable.

Include in your payables:

- any inputs that you did not pay for yet but were in your inventory at the end of your fiscal period (you must also report them in the Purchased inputs section)
- any feed or livestock that you did not pay for yet but were in your inventory at the end of your fiscal period (you must also report them in the Crop inventory valuation and productive capacity and Livestock inventory valuation sections).

Do not include in your payables:

- the interest portion of an account payable
- any amounts you owed for items purchased through loans, lines of credit, or credit cards that have already been reported as an expense on your income tax

How to complete the columns

Code and description

Use the Expense code list or Commodity list to find the code to report the accounts payable you had at the end of your fiscal period. If your item is not listed, leave the code blank.

End of year amount \$

Report the dollar amount that you owed for the payable item at the end of your fiscal period.

Livestock owners and custom feedlot operators with prepared feed purchases

Use code 571 to report purchases of prepared feed and protein supplements that were not paid for by the end of your fiscal period.

Livestock owners with custom feeding expenses

Use code 573 to report custom feeding expenses that were not paid for by the end of your fiscal period.

Ranch fur operators with prepared feed expenses

Use code 574 to report purchases of prepared feed and protein supplements that were not paid for at the end of your fiscal period.

Inventory Code List

To find the code for your commodity, locate the name of your commodity and look under the column for your province or territory.

- If the box is blank, the code cannot be used in your province or territory.
- If the box is marked with an X, use this code on your form. The Administration will assign a price for the commodity. You can submit your own price for this commodity only if you meet the criteria outlined in the guide.
- If the box is shaded, use this code on your form. You must provide your own price for this commodity. Refer to the guide for more information.

9822	Storage/drying
9836	Commissions and levies
9953	Private insurance premiums for allowable commodities

Code	Description	Units
100	Alpaca	Number of females that have birthed
101	Bison	Number of females that have birthed
102	Feeder Bison (fed up to 700 lb)	Number of animals fed
103	Finished Bison (fed over 701 lb)	Number of animals fed
104	Cattle	Number of females that have birthed
105	Feeder cattle (fed up to 900 lb)	Number of animals fed
106	Finished cattle (fed over 901 lb)	Number of animals fed
108	Chicken, Layers, Broiler Eggs for Hatching	Number of producing hens
109	Chicken, Layers, Eggs for Consumption	Number of producing hens
111	Finished Dairy Cattle (fed over 901 lb)	Number of animals fed
112	Feeder Dairy Cattle (fed up to 900 lb)	Number of animals fed
113	Dairy	Number of kg of butterfat/day
115	Deer	Number of females that have birthed
116	Ducks, Broiler	Number sold
117	Elk	Number of females that have birthed
118	Elk, Bulls Producing Velvet	Number of bulls producing
119	Emu	Number of females that have birthed
121	Geese, Broiler	Number sold
122	Goats	Number of females that have birthed
123	Hogs, Farrow to Finish	Number of females that have birthed
124	Hogs, feeders (fed over 51 lb)	Number of animals fed
125	Hogs, nursery (fed up to 50 lb)	Number of animals fed
126	Honey Bees, Producing (Hives)	Number of hives producing
127	Horses	Number of females that have birthed
128	Pregnant Mare Urine (PMU) produced	Number of grams contracted
129	Leaf Cutter Bees, Producing (Gallons)	Number of gallons of bees pollinating
130	Llama	Number of females that have birthed
132	Ostrich	Number of females that have birthed
136	Reindeer	Number of females that have birthed
137	Rheas	Number of females that have birthed
138	Sheep	Number of females that have birthed
140	Wild Boar	Number of females that have birthed
141	Custom Fed Cattle	Number of animal feed days
142	Custom Fed Hogs	Number of animal feed days
143	Chicken, Broilers	Number of kg produced
144	Turkey, Broilers	Number of kg produced
145	Hogs, Farrowing	Number of females that have birthed
149	Semen, Hogs	Number of straws sold
150	Semen, Elks	Number of straws sold
151	Semen, Cattle	Number of straws sold
152	Semen, Deer	Number of straws sold
153	Turkey, Breeder, Hatching Eggs	Number of producing hens
154	Silkies, Broilers	Number sold
155	Silkies, Breeder, Hatching Eggs	Number of producing hens

Productive capacity list

Code	Description	Units
156	Chicken, Taiwanese, Broilers	Number sold
157	Chicken, Taiwanese, Breeder, Hatching Eggs	Number of producing hens
158	Blue Leg, Broilers	Number sold
159	Blue Leg, Breeder Hatching Eggs	Number of producing hens
160	Partridge, Broilers	Number sold
161	Partridge, Breeder Hatching Eggs	Number of producing hens
162	Pheasant, Ring Neck, Broilers	Number sold
163	Pheasant, Ring Neck, Breeder Hatching Eggs	Number of producing hens
164	Pheasant, White, Broilers	Number sold
165	Pheasant, White, Breeder, Hatching Eggs	Number of producing hens
166	Quail, Broilers	Number sold
167	Quail, Breeder Hatching Eggs	Number of producing hens
168	Ducks, Breeder Hatching Eggs	Number of producing hens
169	Geese, Breeder Hatching Eggs	Number of producing hens
170	Squab, Breeding Set	Number of breeding sets
171	Cattle, Bred Heifers	Number sold
172	Sheep, Feeders	Number of animals fed
173	Elk, Feeders	Number of animals fed
175	Deer, Feeders	Number of animals fed
176	Horse, Feeders	Number of animals fed
177	Wild Boar, Finishers	Number of animals fed
178	Donkeys	Number of females that have birthed
180	Hogs, Gilts	Number sold
181	Custom Fed Bison	Number of animal feed days
182	Custom Fed Sheep	Number of animal feed days
183	Goats, Feeders	Number of animals fed
184	Custom Fed, Goats	Number of animal feed days
186	Red Deer, Bulls Producing Velvet	Number of bulls producing
187	Red Deer	Number of females that have birthed
188	Semen, Red Deer	Number of straws sold
190	Custom Feed Elk	Number of animal feed days
191	Goats, Dairy	Number of females in milk producing herd
192	Semen, Horse	Number of straws sold
193	Chinchillas	Number of females that have birthed
194	Fox	Number of females that have birthed
195	Mink	Number of females that have birthed
196	Rabbits	Number of females that have birthed
197	Chicken, Pullets	Number of animals fed
198	Custom fed, Chicken, Pullets	Number of animals fed
199	Turkey, Poults	Number of poults hatched
200	Custom Fed Mink	Number of animals fed
