

# Temporary employment in Canada, 2018

## More than half of temporary employees had a term or contract job

Note: Proportions will not sum to 100 because the "other temporary job" category is not presented.

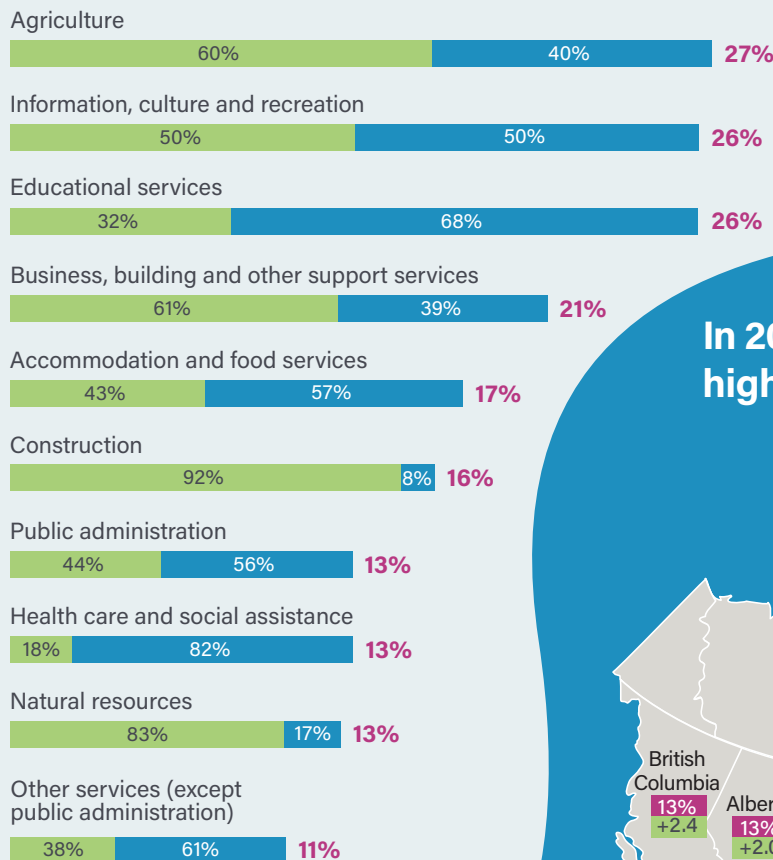

More than **1 in 8** employees (**13.3%** or **2.1 million**) worked in a **temporary job**.

Among temporary employees, **women (10%)** were more likely to have more than one job than **men (6%)**.

## In three industries, over one-quarter of employees were temporary

■ Share of temporary employees

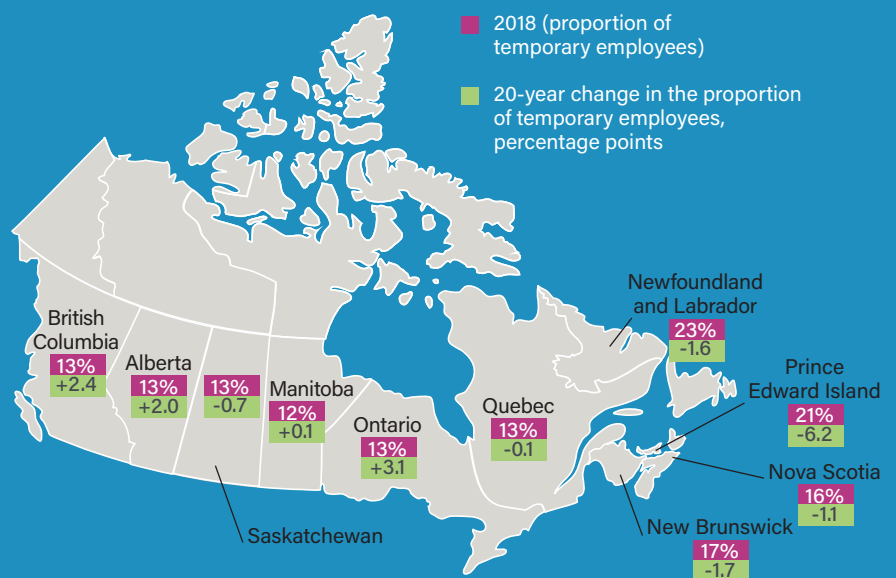

**Temporary** employees earned **\$21.80** per hour on average, while **permanent** employees made **\$27.71** an hour.

About **6 out of 10 temporary** employees worked full time, compared with close to **9 in 10 permanent** employees.

## In 2018, Newfoundland and Labrador had the highest proportion of temporary employees

From 1998 to 2018, the proportion of temporary employees rose by 1.5 percentage points in Canada
