FEEDS INDUSTRY, 1949

DOMINION BUREAU OF STATISTICS - DEPARTMENT OF TRADE AND COMMERCE

THE PREPARED STOCK AND POULTRY FEEDS INDUSTRY
1949

Published by Authority of the Rt. Hon. C.D. HOWE
Minister of Trade and Commerce

Prepared in the General Manufactures Section
Industry and Merchandising Division
Dominion Bureau of Statistics, Ottawa

NOTICE

The Industry and Merchandising Division of the Bureau of Statistics collects and compiles figures on (a) the primary industries in Canada—mining, forestry and fishing; (b) manufacturing; (c) construction, and (d) merchandising and services.

For the purpose of annual compilation and publication, the manufacturing industries have been classified into major groups, prefaced by two reports of a general nature, as follows:

- I Summary Report on Manufacturing Industries
- II Manufacturing Industries by Geographical Distribution
- III Foods and Beverages
- IV Tobacco and Tobacco Products
- V Rubber Products
- VI Leather Products
- VII Miscellaneous Manufactures
- VIII Textiles
- IX Wood and Paper Products
- X Printing Trades
- XI Operations in the Woods
- XII Iron and Steel Manufactures
- XIII Transportation Equipment
- XIV Non-ferrous Metals Manufactures
- XV Electrical Apparatus
- XVI Non-metallic Mineral Products
- XVII Coke and Gas—Petroleum Refining
- XVIII Chemicals and Allied Products

The present report belongs in Group III. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

- A General Review
- B The Slaughtering and Meat Packing, and Sausage and Sausage Casings Industries
- C The Dairy Factory Industry
- D The Fish Processing Industry
- E The Fruit and Vegetable Preparations Industry
- F The Flour and Feed Milling Industry
- G The Breakfast Foods Industry
- H The Prepared Stock and Poultry Feeds Industry
- I The Biscuit Industry
- J The Bread and Other Bakery Products Industry
- K The Aerated Waters Industry
- L The Distilled Liquor Industry
- M The Brewing Industry
- N The Wine Industry
- O The Confectionery, Cocoa, Chocolate and Chewing Gum Industries
- P The Sugar Refining Industry
- Q The Malt and Malt Products Industry
- R The Macaroni and Kindred Products Industry
- S The Miscellaneous Foods Industry
- T The Canned Foods Summary

THE PREPARED STOCK AND POULTRY FEEDS INDUSTRY

1949

The prepared stock and poultry feeds industry is an important factor in the agricultural development of the Dominion, in so far as it relates to animal husbandry and poultry raising. In addition to the feed grown by farmers themselves when crop conditions are favourable, large quantities of scientifically blended feeds are produced annually by manufacturers of prepared stock and poultry feeds. For the year 1949 the output of this industry was valued at \$151,470,360 requiring the labour of 5,356 persons whose remuneration amounted to \$10,889,537. The value of the grain and other materials used totalled \$125,645,640. In 1949 there were 485 establishments reporting in this industry, distributed by provinces as follows: Prince Edward Island 6, Nova Scotia 7, New Brunswick 9, Quebec 123, Ontario 222, Manitoba 28, Saskatchewan 15, Alberta 41 and British Columbia 34.

The feeds and other products shown in Table 2, which presents in detail the production in the stock and poultry feeds industry, were reported by firms whose main business consists of the manufacture of prepared stock and poultry feeds, by firms who are primarily dealers in grains and feeds, but who produce considerable quantities of mixed feeds, and by large manufacturers in other industrial classifications who have substantial feed departments and who are now co-operating by reporting such operations separately under the stock and poultry feeds industry. The names of firms submitting reports in this industry are listed in the final pages of this report. Some of these firms are also reporting in the "Flour, Grist and Chopping Mills" industry and their names are indicated by footnote 1.

The increase in the number of establishments reporting in the stock and poultry feeds industry proper is due to efforts made to have as many firms as possible reporting under other industrial classifications make separate reports for their feeds production. This accounts in large measure for the increased production of the industry since 1944. Whereas in 1943 the industry proper accounted for 69 per cent of the total production of prepared stock and poultry feeds, by 1947 the percentage had risen to 90, remaining about the same for 1948 and rising to almost 98 per cent in 1949.

However, there are still quantities of stock and poultry feeds which are manufactured by firms reporting under other industrial classifications, principally "flour and feed mills" and by dealers in grains and feeds not reporting under the stock and poultry feeds industry proper. Therefore, in order to obtain comprehensive statistics, a supplementary production survey of such producers has been made annually since 1939. In this connection, use has been made of the fact that all firms manufacturing mixed feeds must register their formulae with the Plant Products Division of the Department of Agriculture, and the Bureau has endeavoured to obtain reports from all licensed firms.

Table 2 gives comparative production figures of the industry proper, for Canada as a whole for 1948 and 1949. Table 3 gives in detail, the total production of feeds in Canada, for the years 1943 to 1948 in the stock and poultry feeds industry proper, as well as in all other industries (as secured from the supplementary survey referred to above). Table 4 gives similar figures, for 1949, for Canada and the provinces. The total production of prepared stock and poultry feeds in 1949 totalled 1,687,431 tons. Of this amount 1,651,194 tons were reported in the stock and poultry feeds industry and 36,237 tons by other manufacturing industries and retail stores mixing feeds. Compared with the previous year there was an increase of 38,628 tons in the total production from all sources.

It should be noted that the detailed statistics relating to employment, salaries and wages, etc., published in this report refer ONLY to the firms reporting under the "Prepared Stock and Poultry Feeds Industry", as listed on pages 12-17.

1. These feeds, etc. are produced by firms not reporting in the "Stock and Poultry Feeds" industry.

FOODS AND BEVERAGES

TABLE 5. Materials Used in the Production of Feeds

Note. In previous years, consumption of materials data were published only for the Prepared Stock and Poultry Feeds Industry, but commencing with 1947 such data are also published on materials used in the production of feeds by Other Manufacturing Industries and Dealers. These latter are shown separately in Section B of Table 5 immediately following, and correspond with the production reported in Table 4, under the same heading.

Principal materials	(A) By Prepared Stock and Poultry Feeds Industry				(B) By "Other Manufacturing Industries and Dealers"
