## NOTICE

The annual reports prepared by the Industry and Merchandising Division of the Bureau of Statistics are divided into 3 volumes, as follows: Volume I — The Primary Industries, including mining, forestry and fisheries; Volume II — Manufacturing; Volume III — Merchandising and Services. The volumes are made up of parts, and the parts in turn are subdivided according to the industries or provinces which they comprise.

Volume II consists of the following parts, the first two of which deal with manufacturing as a whole and the balance with the major manufacturing groups.

- I — General Review of the Manufacturing Industries, \$1.50
- II — The Manufacturing Industries of Canada, (7 sections, as follows:)
  - Section A. Summary for Canada, 25¢
  - Section B. Atlantic Provinces, 50¢
  - Section C. Quebec, 25¢
  - Section D. Ontario, 25¢
  - Section E. Prairie Provinces, 40¢
  - Section F. British Columbia, 25¢
  - Section G. The Manufacturing Industries of Canada, Regional Distribution, 75¢
- III — Foods and Beverages
- IV — Tobacco and Tobacco Products
- V — Rubber Products
- VI — Leather Products
- VII — Textile Mills
- VIII — Knitting Mills
- IX — Clothing
- X — Wood and Paper Products
- XI — Printing Trades
- XII — Iron and Steel Products
- XIII — Transportation Equipment
- XIV — Non-ferrous Metal Products
- XV — Electrical Apparatus and Supplies
- XVI — Non-metallic Mineral Products
- XVII — Products of Petroleum and Coal
- XVIII — Chemicals and Allied Products
- XIX — Miscellaneous Manufactures

The present report belongs in Part III, Foods and Beverages. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

- A — General Review, 25¢
- B — The Slaughtering and Meat Packing Industries, 25¢
- C — The Dairy Products Industry, 25¢
- D — The Fish Processing Industry, 25¢
- E — The Fruit and Vegetable Preparations Industry, 25¢
- F — The Flour Milling Industry, 25¢
- G — The Prepared Breakfast Foods Industry, 25¢
- H — The Feeds Industry, 25¢
- I — The Biscuit Industry, 25¢
- J — The Bread and Other Bakery Products Industry, 25¢
- K — The Carbonated Beverages Industry, 25¢
- L — The Distilling Industry, 25¢
- M — The Brewing Industry, 25¢
- N — The Wine Industry, 25¢
- O — The Confectionery Industry, 25¢
- P — The Sugar Refining Industry, 25¢
- Q — The Macaroni and Kindred Products Industry, 25¢
- R — The Miscellaneous Food Preparations Industry, 25¢
- S — The Canned Foods Summary, 25¢

## THE FRUIT AND VEGETABLE PREPARATIONS INDUSTRY, 1955

From a very modest beginning just before the turn of the century, commercialized canning has developed into an industry which is now firmly rooted in every province of this Dominion. The Fruit and Vegetable Preparations Industry, in addition to providing an annual outlet for enormous quantities of agricultural products, has succeeded in marketing an extensive and varied range of wholesome appetizing foods. After slightly more than fifty years of operation, the urban or rural consumers may select their favourite brand in a choice of several grades and sizes to meet their immediate need. In addition to the Canadian market, the industry annually exports large quantities of its products to foreign countries, notably Great Britain and the United States.

In 1952, the Bureau changed its policy with regard to the collection of statistics on the production of manufactured goods. Firms in several industries, where year and inventory changes were known to be insignificant, were requested to report value of shipments F.O.B. plant instead of gross value of production. However, this new concept was not adopted in the Fruit and Vegetable Preparations Industry until 1954. Therefore, statistics in this issue relating specifically to the years 1954 and 1955 are on a shipments basis while data for 1953 and previous years is on a selling value of products basis.

In 1955 the total value of factory shipments was \$234,075,326, an increase of approximately \$19 million from \$215,030,451 reported in 1954. During the decade immediately preceding the war, the volume of fruit and vegetable preparations produced increased over 54 per cent. In spite of curtailment of supplies during the war years the production trend continued upward. In 1949 there was a slight fall-off due partly to a large carryover of these commodities and partly to economic conditions. From 1954 to 1955 there were general increases in this industry. The number of operating plants increased from 453 to 459, employees from 15,815 to 17,151, salaries and wages from \$34,714,828 to \$38,939,576.

The statistics published in the present report include only the statistics of establishments engaged in canning, evaporating, preserving and freezing of fruits and vegetables and the manufacture of vinegar, cider, pickles, catsups, etc. Statistics relating to specific commodities are not to be regarded as the total shipments for Canada, since many products, such as peanut butter, jelly powders, etc., are also found as secondary products of other industries. For the total shipments of individual commodities, reference should be made to the alphabetical list of commodities appearing in the report "The Manufacturing Industries of Canada" published annually.

The most important branch of this industry is the canning of fruits and vegetables which is carried on most extensively in Ontario, British Columbia and Quebec where climatic conditions for the growing of fruits and vegetables are most favourable. The canning season begins in June and continues throughout the summer and autumn until October being at its height in August and September. In August of 1955 there were 30,582 wage earners employed in this industry, while in March, the month of lowest employment, there were 7,031 persons employed.

In 1955 the selling value of shipments data may be converted to gross value of production by adding or subtracting the change in the inventory of finished goods (see table 6). For 1953 and previous years the gross value of production is given. Value added by manufacture may then be determined by subtracting the total cost of raw materials plus fuel and electricity. In 1955 the gross value of shipments of the industry increased almost 9 per cent. Shipments of canned fruits as well as jams, jellies and marmalades decreased 1.8% and 2.5% respectively, while canned vegetables increased 9.3%, soups 5.4%, catsups 26.0%, and pickles, relish and sauces 2.4%.

Data on the inventories of finished goods, goods in process and raw materials and supplies are shown in Table 6. Other detailed statistics will be found in the following tables for such items as selling value of shipments, materials used, employment, salaries and wages paid, imports and exports, etc.

1. Profits or losses cannot be estimated from Census figures, as no data are collected for certain expense items such as interest, rent, depreciation, taxes, insurance, advertising, etc.

2. Value added by manufacture is computed by subtracting cost of materials, fuel and electricity from gross value of production. Beginning in 1954 value of production is obtained by adding or subtracting the change in finished goods inventory from the value of shipments.

3. Prior to 1954 the basis of collection was gross value of production.

4. In order not to divulge operations of individual establishments Newfoundland and Saskatchewan have been combined.

1. These figures do not include the output of domestic canners. For production figures of domestic canners in Ontario and Quebec, see Tables 11(a) and 11(b).

2. These are reported in dozen cans since 1940 and in cases for previous years.

3. Sauces were included with catsups in these years.

4. Beginning in 1954, the figures are for shipments from plant, not production.

1. Fewer than three establishments reporting.

2. Quantity for "all other products" cannot be shown by provinces, but dollar value for all Canada is given in table 8.

Considerable interest exists concerning the extent to which fruits processed in SO<sub>2</sub> or frozen for later use in jams, jellies, marmalades, etc. effects

the disposal of the fruit crop, and the following table presents the results of an attempt to secure a statistical picture in total.

1. The 1954 inventory figures have been revised in accordance with data received in the 1954 returns.

The tables below give the statistics of the domestic pack of canned fruits and vegetables in the Provinces of Quebec and Ontario in 1954 and 1955. These figures do not include products canned for own use. The number of establishments reporting

in Quebec totalled 1,071 in 1954 and 974 in 1955; in Ontario 4 in 1954 and 1 in 1955. It should be noted that these figures are not included in any other tables of this report, but are shown here in order to give a more comprehensive picture of the industry.
