ESTIMATES OF PRODUCTION AND DISAPPEARANCE OF MEATS, 1976

Disappearance of red meats in 1976 was 174.4 pounds per capita compared to 164.7^r pounds in 1975. Increases in per capita disappearance occurred in beef, pork and offal. Veal, mutton and lamb were down 9% and 14% respectively. The 1976 per capita disappearance estimates are: beef 110.4 pounds (102.1^r pounds in 1975); pork 53.1 pounds (50.9^r); veal 4.9 pounds (5.4); mutton and lamb 2.4 pounds (2.8^r); offal 3.6 pounds (3.5^r).

Domestic production of red meats for 1976 (Table 2) is estimated at 3.8 billion pounds, compared to 3.6 in 1975. This production estimate includes slaughter plus meat equivalent of animals exported alive, minus the meat equivalent of live animals imported for slaughter.

Output of meats and offal from animals slaughtered in Canada (Table 3) which includes live imports for slaughter (and excludes live exports) remained the same as in 1975, 3.6 billion pounds.

Poultry meat - Disappearance of poultry meat in 1976 was estimated at 44.7 pounds per capita. The per capita estimates for the different categories are as follows: fowl and chicken, 35.1 pounds; turkey, 9.0 pounds; goose, 0.12 pounds and duck 0.51 pounds.

ESTIMATIONS DE LA PRODUCTION ET DE LA DISPARITION DES VIANDES, 1976

En 1976, la disparition de viandes rouges a été de 174.4 livres par tête à comparer à 164.7^r livres en 1975. L'augmentation de la disparition par tête a touché le boeuf, le porc, les issues. Le veau, le mouton et l'agneau ont diminué de 9% et 14% respectivement. Les estimations de la disparition par tête en 1976 sont: boeuf 110.4 livres (102.1^r en 1975); porc 53.1 livres (50.9^r); veau 4.9 livres (5.4); mouton et agneau 2.4 livres (2.8^r); issues 3.6 livres (3.5^r).

La production intérieure de viandes rouges en 1976 (tableau 2) est estimée à 3.8 milliards de livres, comparativement à 3.6 en 1975. Cette estimation de production comprend les abattages, plus l'équivalent de viande des animaux exportés vivants, moins l'équivalent de viande des animaux vivants importés pour l'abattage.

La production de viandes et d'issues d'animaux abattus au Canada (tableau 3), qui comprend les importations d'animaux vivants pour l'abattage (ce qui exclut les exportations d'animaux vivants), est demeurée la même qu'en 1975 soit 3.6 milliards de livres.

Viande de volaille - On a estimé à 44.7 livres par habitant la disparition de viande de volaille en 1976. Voici les statistiques sur l'estimation par habitant pour les diverses catégories: poule et poulet, 35.1 livres; dindon, 9.0 livres; oie 0.12 livres et canard, 0.51 livres.
