### SYMBOLS

The following standard symbols are used in Dominion Bureau of Statistics publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

### SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications du Bureau fédéral de la statistique:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

### NOTES TO USERS

1. The detailed explanations of "Concepts and Definitions" omitted from this report may be consulted in any 1965 report in this series. If not available to the user, the relevant pages may be obtained free of charge from the Manufacturing and Primary Industries Division of the Bureau.
2. Tables on principal statistics classified by manufacturing value added, by total value added, and by type of organization, published in the 1966 report as Tables 3, 4 and 6, respectively, have been omitted from this report because of their limited interest. They are available, however, from the Manufacturing and Primary Industries Division. In the case of an extensive request involving a large number of industries, it may be necessary to levy a charge.
3. Users interested in obtaining the value of production (manufacturing activity) can do so by adding cost of materials and supplies used (manufacturing activity), cost of fuel and electricity, and value added (manufacturing activity). The resulting statistic is equivalent in concept to "gross output" shown in Table 7 of the 1966 report.

### NOTES À L'USAGE DES UTILISATEURS

1. On peut trouver les explications détaillées des "Concepts et définitions" qui ne figurent pas ici dans n'importe quel rapport de 1965 de la présente série. Si l'utilisateur ne dispose pas de ces publications, il peut se procurer gratuitement les pages qui l'intéressent à la Division des industries manufacturières et primaires du Bureau.
2. Les statistiques principales classées suivant la valeur ajoutée dans l'activité manufacturière, suivant la valeur ajoutée totale et suivant la forme d'organisation, publiées respectivement dans les Tableaux 3, 4 et 6 du rapport de 1966, ne figurent pas dans le présent rapport vu qu'elles sont d'un intérêt limité. On peut toutefois se les procurer à la Division des industries manufacturières et primaires. Dans le cas d'une demande importante impliquant un grand nombre d'industries, nous serons peut-être obligés de vous facturer les frais.
3. Les utilisateurs qui désirent connaître la valeur de la production (activité manufacturière) peuvent l'obtenir en additionnant le coût des matières et fournitures utilisées (activité manufacturière), le coût du combustible et de l'électricité, et la valeur ajoutée (activité manufacturière). Le résultat correspond à l'"extrait brut" qui figure dans le Tableau 7 du rapport de 1966.

## INTRODUCTION

Tabular presentations of statistical data in this publication are aligned to show Manufacturing activity and Total activity of the establishments classified to these industries.

This publication is presented in 4 sections.

### Section 1

Shows the combined tabular matter for the industries formerly presented individually as:

- (a) Slaughtering and Meat Packing Plants.
- (b) Sausage and Sausage Casing Manufacturers.
- (c) Animal Oils and Fats Plants.

The composite presentation permits immediate total of commodities indigenous to the three industries. Thus Tables 7 and 8, in particular, show more detailed aggregations than was published in previous issues of this catalogue.

### Sections 2, 3 and 4

Tabular matter for the respective industries are comparable to published data.

Normally in the manufacturing universe, the principal statistics contain the factor "Cost of materials and supplies used". For Slaughtering and Meat Processors it is not feasible to collect input commodities on this basis; the cost of materials and supplies (purchases) are collected. As a consequence, the definition of materials and supplies as specified in Concepts and Definitions does not apply.

Les données statistiques présentées dans cette publication sous forme de tableaux sont alignées de façon à indiquer l'activité manufacturière et l'activité totale des établissements classés en fonction de ces industries.

Cette publication est présentée en 4 sections.

### Section 1

Renferme la documentation, sous forme de tableaux, prise dans son ensemble pour les industries qui auparavant présentaient des chiffres distincts:

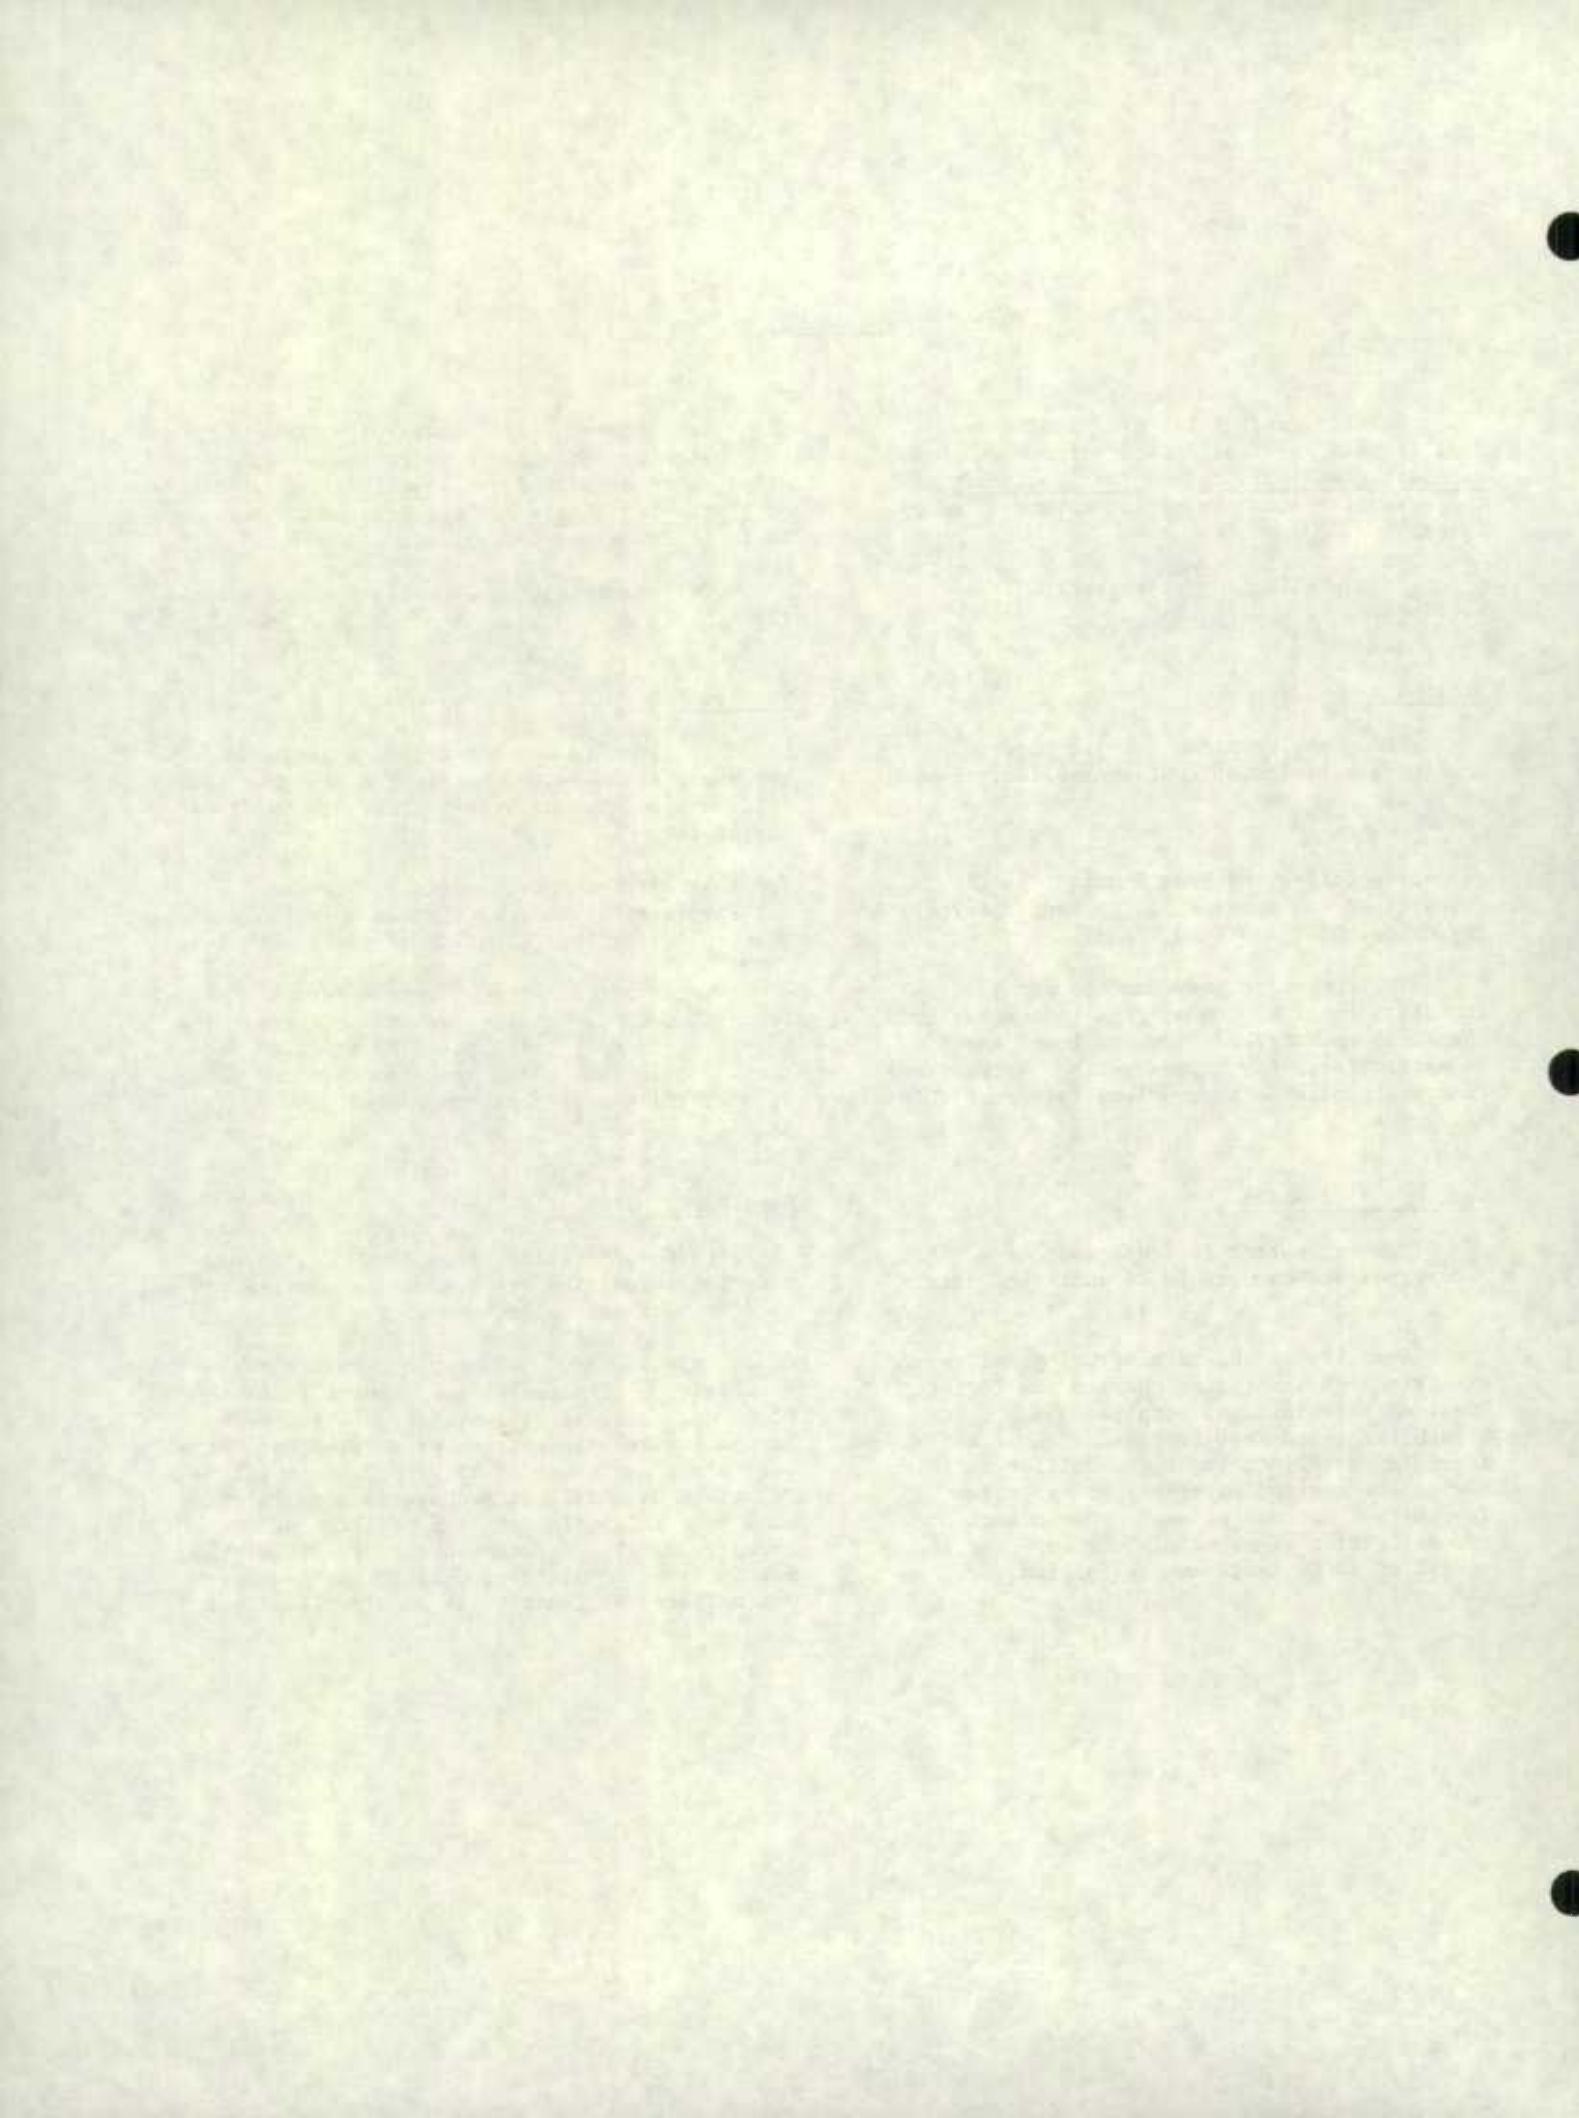

- (a) Abattoirs et conserveries de viande.
- (b) Fabriques de saucisses et de boyaux à saucisse.
- (c) Fabriques d'huiles et de graisses animales.

Cette présentation composée permet d'obtenir le total des marchandises propres aux trois industries. Ainsi, les Tableaux 7 et 8, en particulier, indiquent des groupements d'une façon plus détaillée que dans les années précédentes.

### Sections 2, 3 et 4

La documentation, sous forme de tableaux, pour les industries respectives se compare aux données publiées antérieurement.

Dans le cadre normal des manufactures, les statistiques principales comprennent le facteur "Coût des matières et fournitures utilisées". Recueillir les éléments de production sur cette base n'est pas chose pratique pour la rubrique "Abattage du bétail et préparations de la viande"; on a donc relevé le coût des matières et fournitures (achats). Par conséquent, la définition donnée dans "Concepts et définitions" au sujet des matières et fournitures ne s'applique pas.

SECTION 1

SLAUGHTERING AND  
MEAT PROCESSORS  
(S.I.C. 101)
