DOMINION BUREAU OF STATISTICS — DEPARTMENT OF TRADE AND COMMERCE
CANADA

THE SUGAR REFINING INDUSTRY 1951

Published by Authority of the Rt. Hon. C. D. Howe

Minister of Trade and Commerce

Prepared in the General Manufactures Section Industry and Merchandising Division Dominion Bureau of Statistics Ottawa

NOTICE

The annual reports prepared by the Industry and Merchandising Division of the Bureau of Statistics are divided into 4 volumes, as follows: Volume I—The Primary Industries, including mining, forestry and fisheries, Volume II—Manufacturing; Volume III—Construction; Volume IV—Merchandising and Services. The volumes are made up of parts, and the parts in turn are subdivided according to the industries which they comprise.

Volume II consists of the following parts, the first two of which deal with manufacturing as a whole and the balance with the major manufacturing groups.

I-General Review of the Manufacturing Industries, \$1.50.

II - The Manufacturing Industries, by Provinces

Section 1. Principal Statistics of Major Industrial Groups and Leading Industries, 50¢.

Section 2. Principal Statistics of Individual Industries, 75¢.

Section 3. Principal Statistics by Regional Distribution, 75¢.

III - Foods and Beverages

IV - Tobacco and Tobacco Products

V - Rubber Products

VI - Leather Products

VII - Textiles

VIII - Wood and Paper Products

IX-Printing Trades

X - Iron and Steel Products

XI-Transportation Equipment

XII - Non-ferrous Metal Products

XIII - Electrical Apparatus and Supplies

XIV - Non-metallic Mineral Products

XV-Products of Petroleum and Coal

XVI - Chemicals and Allied Products

XVII - Miscellaneous Manufactures

The present report belongs in Part III, Foods and Beverages. It is punched to permit of filing in a ring binder along with others of the group. The reports in this group are:

A-General Review, 25¢

B-The Slaughtering and Meat Packing, and Sausage and Sausage Casings Industries, 25¢.

C-The Dairy Products Industry, 25¢.

D-The Fish Processing Industry, 25¢.

E-The Fruit and Vegetable Preparations Industry, 25¢.

F-The Flour and Feed Milling Industries, 25¢.

G-The Prepared Breakfast Foods Industry, 25¢.

H-The Prepared Stock and Poultry Feeds Industry, 25¢.

I-The Biscuit Industry, 25¢.

J-The Bread and Other Bakery Products Industry, 25¢.

K-The Carbonated Beverages Industry, 25¢.

L-The Distilling Industry, 25¢.

M - The Brewing Industry, 25¢.

N-The Wine Industry, 25¢.

O-The Confectionery Industry, 25¢.

P-The Sugar Refining Industry, 25c.

Q-The Macaroni and Kindred Products Industry, 25¢.

R-The Miscellaneous Food Preparations Industry, 25¢.

S-The Canned Foods Summary, 25¢.

The departer water leafuring

THE SUGAR REFINING INDUSTRY

1951

The output of the sugar refining industry in 1951 was 217,512,559 pounds lower than in 1950. The production of sugar of all kinds amounted to 1,310,437,185 pounds (1,062,683,736 pounds made from cane and 247,753,449 pounds from beets). The production of cane sugar decreased by 165,080,618 pounds and that of beet sugar decreased by 52,431,941 pounds. Granulated sugar comprises over 85 per cent of total sugar produced.

The production of beetroot sugar which is dependent upon weather conditions fluctuates widely from year to year. The 1951 production of 247,753,449 pounds decreased from the 300,185,390 pounds produced in the peak year 1950. Since 1937, the lowest output was in 1943 when the production dropped to 129,268,010 pounds, due mainly to the effect of adverse weather on the sugar beet crop. The percentage of beet sugar to the total sugar manufactured was 18.9 in 1951 while the highest ratio since the inception of the annual Industrial Census was in 1942 when the relationship rose to 23.6 per cent. During the war years, when the consumption of sugar was under control, the percentage of beetroot sugar to the total production showed marked increases over previous years, a situation which has been slightly reversed in post-war years.

The price of refined sugar at the factory, increased during 1951. Beet sugar increased from 10.28 cents per pound in 1950 to 10.67 in 1951 and cane sugar from 8.90 to 10.11 cents per pound. The value of sugar of all kinds rose from 9.17 to 10.21 cents per pound.

The refineries are located as follows: Nova Scotia 1, New Brunswick 1, Quebec 3, Ontario 2, Manitoba 1, Alberta 3 and British Columbia 1. These refineries in 1951 reported a gross value of production of \$139,109,277; they employed 3,562 persons who received \$10,272,939 in salaries and wages, and paid out \$107,540,497 for raw materials. Since 1943 several plants were shut down and their operations pooled withother refineries in the vicinity. This was due to the limited amount of raw sugar available as weil as a shortage of labour.

Detailed statistics of production, materials used, employment, etc. are given in the table following. In order that there may be no disclosure of statistical information of individual plants, the statistics are given for the Dominion only. Charts showing production of cane and beet sugar and consumption of sugar by industries are on page 9.

TABLE 1. Principal Statistics of the Sugar Refining Industry, Representative Years, 1917-1951

ear	Establish- ments	Capital Invested	Employment	Salaries and Wages	Cost of Materials Used	Gross 1 Value of Production

^{1.} Gross value of products less cost of materials, fuel and electricity.

31939.788

Note. Profits or losses cannot be estimated from census figures as no data are collected for certain items such as interest, rent. depreciation, taxes, insurance, advertising, etc.

Production in Sugar Refineries

Table 3 gives the production of sugar and its by-products by class, quantity and selling value at the refinery for the years 1950 and 1951. The quantity of sugars produced in Canadian refineries during 1951 was lower than that of 1950 by 217,512,559 pounds and the selling value by \$6,221,095. The quantity of

beet sugar decreased by 52,431,941 pounds and cane sugar decreased by 165,080,618 pounds, making the decrease as stated above. Molasses decreased in quantity by 2,287 tons while it increased in value by \$45,195.

Production of Sugar Beets and Beetroot Sugar

The tember of arres of many beets harvested, the total yield and average yield per acre and the total value of the crop delivered at the factory are shown in Table 4 for the years 1918

to 1951. Acreage of sugar beets harvested in 1950 was 17,550 acres more than 1949, the total yield was 257,119 tons more and the total value of the crop increased by \$6,220,614.

1951	9.12	9.12	9.86	9.64

Materials Used

The cost of materials used in the industry during 1951 as shown in Table 8, amounted to \$107,540,497. This is a decrease from the previous year of \$2,172,606. Raw materials, consisting of raw cane and sugar beets, constitute over 93 per cent of the total cost, other materials about 2 per cent, and containers

of all kinds nearly 5 per cent. The average cost price of raw cane sugar laid down at the factory was \$6.69 per hundred-weight in 1950 and \$7.79 per hundred-weight in 1951. The cost at the factory of sugar beets was \$16.25 per ton in 1950 and \$16.00 in 1951.
