THE VEGETABLE PRODUCTS GROUP, 1931.

The vegetable products group of industries ranked first in importance in 1931 in regard to gross value of production and cost of materials used. In the amount of capital investment, number of persons employed and amount of salaries and wages paid, it ranked fourth, however.

Establishments comprising this group to the number of 5,283 reported their operations in 1931, an increase over the previous year of 242. The gross value of their production was \$535,079,463, representing a decrease of \$136,944,203 or 20.4 per cent from 1930. In 1931 also, capital investment, \$545,387,574, decreased by \$24,016,195 or 4.2 per cent; the number of employees, 77,706, by 6,476 persons or 7.7 per cent; amount of salaries and wages, \$79,022,515, by \$6,236,728 or 7.3 per cent; cost of raw and other materials, \$260,604,562, by \$96,905,778 or 27.1 per cent, while the value added by manufacture, \$274,474,901, showed a decline of \$40,038,425 or 12.7 per cent.

The following table indicates, by industries and provinces, the actual variations in the principal statistics in 1931 in comparison with 1930. Increases are denoted by a (+) sign and decreases by a (-) sign.

Industry	Capital Invested	Em- ployees	Salaries and Wages	Cost of Materials Used	Gross Value of Production
	\$	No.	\$	\$	\$
Beverages	- 10,039,891	- 64	- 402,109	- 5,422,487	- 22,083,650

From a standpoint of production, the flour and feed milling industry was the leading one of the group in 1931. This is one of Canada's oldest industries, and it has

THE VEGETABLE PRODUCTS GROUP, 1931.

taken care of domestic requirements for more than three hundred years. At present, the mills, which include many of the most modern type and highest efficiency, have attained a capacity far beyond the local demand and have obtained a market in all parts of the world where wheat flour is consumed. This movement reached its peak in 1928 when 10,737,266 barrels valued at \$63,973,066 were exported. In 1931, only 5,697,224 barrels worth \$20,207,319 were shipped.

Reports were received from 1,265 flour and feed mills in 1931 and the gross value of production reported was valued at \$95,728,540 representing a decrease from 1930 of \$49,127,406 or 33.9 per cent. The capital investment amounting to \$61,069,192 showed a small decrease of \$1,547,815. Employment was furnished to 5,671 persons, 252 fewer than in 1930, who were paid \$6,032,189 in salaries and wages, a decline of \$646,924 or 9.7 per cent. The cost of all materials used was \$71,771,797 representing a decrease of \$47,905,889 or 40.0 per cent from the 1930 cost, while the value added by manufacture, \$23,956,743, declined by \$1,221,517 or 4.9 per cent.

The tobacco industry, including the manufacture of tobacco, cigars, cigarettes, etc., ranked second in importance from a standpoint of value of production in 1931 when 105 establishments reported a gross value of \$74,926,154, a decrease of \$10,745,632 or 12.5 per cent. The capital investment in 1931, \$50,194,202, declined \$1,181,913 or 2.3 per cent. Employment was furnished to 9,091 persons who were paid \$8,096,769 in salaries and wages and in comparison with 1930 these figures represent increases of 186 persons and \$259,058. The cost of all materials used in 1931 was \$21,448,879, a decrease of \$2,837,855 or 11.7 per cent, while the value added by manufacture declined by \$7,907,777 or 12.9 per cent to \$53,477,275.

The alcoholic beverages industry, including breweries, distilleries and wineries, has had a large expansion in the last decade until now it ranks third in value of production in the vegetable products group of industries. In 1931 reports were received from one hundred and sixty-four establishments reporting a gross value of production of \$65,388,557 which, however, was a decrease of \$22,083,650 or 25.2 per cent from 1930. The amount of capital investment, \$127,689,042, also declined by \$10,039,891 or 7.3 per cent. There were 6,956 persons given employment in 1931, a decrease of sixty four from 1930, and the salary and wage bill, \$9,351,688, in 1931 also showed a decrease of \$402,109 or 4.1 per cent. The cost of raw and other materials was \$20,344,596, a drop of \$5,422,487 or 21.0 per cent from 1930, while the value added by manufacture, \$45,043,961, declined by \$16,661,163 or 27.0 per cent.

In the bread and other bakery products industry, 2,912 establishments reported a gross value of production of \$64,818,227 in 1931, which was a decrease of \$8,776,667 or 11.9 per cent from 1930. Capital investment, \$54,267,110, in 1931 showed an increase over the previous year of \$2,352,940 or 4.5 per cent. As reports were received from some 215 additional establishments in 1931, the increase in capital is readily explained. Employment was furnished to 17,736 persons in 1930 and 18,337 in 1931, an increase in the latter year of 601 persons. The amount of salaries and wages paid in 1931 was \$18,862,604, a drop of \$581,929 or 3 per cent. The cost of all materials used in 1931 was \$28,619,776, a decrease of \$7,963,067 or 21.8 per cent. The value added by manufacture in 1931, \$36,198,451, showed a decline of \$813,600 or 2.2 per cent in comparison with the previous year.

The manufacture of biscuits, confectionery, cocoa, chocolate and chewing gum has developed into an important industry, and in 1931, 282 establishments engaged in such manufactures reported a gross value of production of \$49,285,042. This, however,

THE VEGETABLE PRODUCTS GROUP, 1931.

was \$8,774,560 or 15.1 per cent lower than in 1930. Capital investment amounted to \$51,530,443, a loss of \$2,875,650 or 5.3 per cent in comparison with 1930. Employment was furnished to 12,145 persons in 1931, 146 fewer in number than in 1930, and the amount of salaries and wages paid them was \$11,104,668 in 1930 and \$10,892,636 in 1931, a decrease of \$212,032 or 1.9 per cent in the latter year. The cost of all materials used in 1931 was \$20,207,678, a decrease of \$4,837,223 or 19.3 per cent, while the value added by manufacture, \$29,077,364 in 1931 showed a decline of \$3,937,337 or 11.9 per cent.

In the fruit and vegetable canning, evaporating, preserving, pickling, etc., industry, 278 establishments reported their operations for 1931. They had a gross value of production of \$32,572,580 which was \$10,521,172 or 24.4 per cent below the 1930 production. The capital investment, \$48,152,325, showed an increase of \$2,017,300 or 4.4 per cent. The number of employees and the amount of salaries and wages declined considerably in 1931. Employment was given to 6,329 persons, a decrease of 4,322 or 40.6 per cent, while the salaries and wages, \$4,509,377, declined \$1,124,978 or 20.0 per cent. The cost of all materials used in 1931 was \$18,668,100, a drop of \$7,468,679 or 28.6 per cent, while the value added by manufacture, \$13,904,480, represented a decrease of \$3,052,493 or 13.0 per cent.

While there are only eight sugar refineries operating in Canada, they had a gross value of production in 1931 of \$43,962,061. This represented a small increase of \$1,026,339 over the value for 1930. The amount of capital investment, however, \$37,691,433, showed a decrease of \$6,163,722 or 14.1 per cent from the 1930 investment. 2,265 persons were given employment, sixteen less than in 1930, and they were paid \$3,307,730 in salaries and wages, a decrease also of \$252,530 or 7.1 per cent. The cost of all materials used in 1931 was \$29,196,494 representing a decrease of \$1,414,207 or 4.6 per cent, while the value added by manufacture amounted to \$14,765,567, an increase over the 1930 value of \$2,440,546 or 19.8 per cent.

In the coffee, tea and spice industry, fifty-nine establishments reported for 1931, advising a gross production valued at \$21,987,257. This represented a decrease of \$2,391,190 or 9.8 per cent. The amount of capital invested in this industry in 1931 was \$13,500,659, a decrease of \$157,589 or 1.1 per cent from the 1930 investment. The number of employees and the amount of salaries and wages paid them both showed increases in 1931. The former with 1,639 persons increased by eighty-one, and salaries and wages amounting to \$2,251,103 increased by \$182,555. The cost of materials used in 1931, \$14,384,811, dropped \$2,943,721 or 17.0 per cent, while the value added by manufacture, \$7,602,446, represented an increase of \$552,531 or 7.8 per cent.

The rubber industry, another important one in the industrial life of Canada, is also included in the vegetable products group of industries. In 1931, forty-eight establishments reported a gross value of production amounting to \$52,691,230, a decrease from 1930, however, of \$21,061,443 or 28.6 per cent. The amount of capital invested in this industry in 1931 was \$67,446,955, also a decrease of \$1,717,557 or 2.5 per cent. 12,158 persons were given employment, 3,005 or 19.8 per cent less than in 1930. They were paid \$11,708,387 in salaries and wages, which represented a decrease of \$4,187,092 or 26.3 per cent. The cost of all materials used was \$17,630,081, a drop of \$11,191,678 or 38.8 per cent, while the value added by manufacture, \$35,061,149, in 1931 declined by \$9,869,765 or 22 per cent from 1930.

This industry forms an adjunct of considerable importance to the cotton yarn and cloth industry, which supplies it with tire fabrics and fabrics for canvas boots and shoes. The export market is also of considerable importance, and in 1931 shipments

THE VEGETABLE PRODUCTS GROUP, 1931.

abroad were valued at \$13,462,168. In that year, Canada also ranked seventh in imports of raw rubber.

The principal statistics for 1930 and 1931 of all other industries comprising the vegetable products group are contained in tables 4(a) and 4(b).

Most of the industries comprising this group experienced declines in their manufacturing activities in 1931. The ones manufacturing for the export market suffered the greatest decline. Exports of wheat flour, for instance, declined from 7,514,778 barrels valued at \$37,540,495 in 1930 to 5,697,224 barrels valued at \$20,207,319 in 1931. Exports of alcoholic beverages had a value of \$22,766,816 in 1930 and \$12,478,200 in 1931, while exports of rubber and its products declined from \$25,157,017 in 1930 to \$13,413,819 in 1931.

THE VEGETABLE PRODUCTS GROUP, 1931.

Table 6. - Alphabetical List of Products Manufactured by the Industries
Classified under Vegetable Products, 1931.

NOTE: - This list includes only the products of the industries comprised in the Vegetable Products Group. In some cases, therefore, the amount shown is not the total production, since some of the commodities listed are also produced in industries grouped under other classifications. Information on total production will be supplied on application.

(x) Indicates that the commodity is manufactured by only one or two firms.

Item	Unit of Measure	Quantity	Value
			\$
Alcohol, denatured	Pr. Gal.	2,092,610	1,033,895
Alcohol, non-potable	" "	1,404,081	518,374
