LOCATION AND CAPACITY OF FLOUR AND FEED MILLS IN CANADA

1940.

The location and capacity of the flour and feed mills of Canada are given in the following pages of this report. The list covers 368 flour mills with a total 24-hour capacity of 98,553 barrels and 925 feed mills. Ontario is the leading province in this industry. Thirty-five per cent of the flour mills, sixty per cent of the feed mills and forty-six per cent of the flour milling capacity in Canada are located in Ontario. Quebec ranks second as far as the number of flour and feed mills is concerned, but in flour milling capacity Saskatchewan is second to Ontario, followed by Alberta, Quebec and Manitoba. The Maritime Provinces and British Columbia have a small flour milling capacity.

Canada's flour mills experienced a numerical reduction of 17 and a capacity reduction of 1,963 barrels in the last year. Feed mills lost twenty-seven in number, Quebec accounting for nineteen of this loss.

The Prairie Provinces show only minor changes in milling conditions since the publication of last year. Four small flour mills in the drought areas of the province of Saskatchewan have been included as idle in the printed list of this year in view of a possibility of reopening for local business.

The total capacity of the flour mills in Canada includes milling machinery in active use and also some which may be idle at the time or withdrawn from use for a more extended period. Some large mills may be closed entirely or have certain units of the machinery covered and idle. Small mills are not built in units and, therefore, must be either active or idle. Their operations may be seasonal or continuous, but there is usually a post-harvest rush in customs mills and the highest percentage of Canadian milling capacity is in operation during the fall and early winter months.

In all cases, capacity is shown in terms of 24 hour operations, but a plant may run only a day shift or perhaps full time with one out of two equal-sized units closed and thus be operating at half its total capacity.

These reservations should be kept in mind when studying the capacity of Canadian flour mills.

FLOUR AND FEED MILLS IN CANADA

1 9 4 0 .

SUMMARY

Province	Number of Mills			Barrels per day
	Flour	Feed	Total	
Prince Edward Island	11	1	12	522
Nova Scotia	2	8	10	55
New Brunswick	8	19	27	515
Quebec	73	268	341	12,574
Ontario	129	555	684	45,462
Manitoba	37	6	43	10,640
Saskatchewan	56	21	77	15,343 <u>1/</u>
Alberta	48	44	92	12,743
British Columbia	4	3	7	699
T o t a l s	368	925	1,293	98,553 <u>1/</u>

1/ An idle capacity of 1000-barrels has been included in Saskatchewan and in the total.
