PRELIMINARY REPORT ON THE PACK OF CANNED FRUITS AND VEGETABLES, 1933.

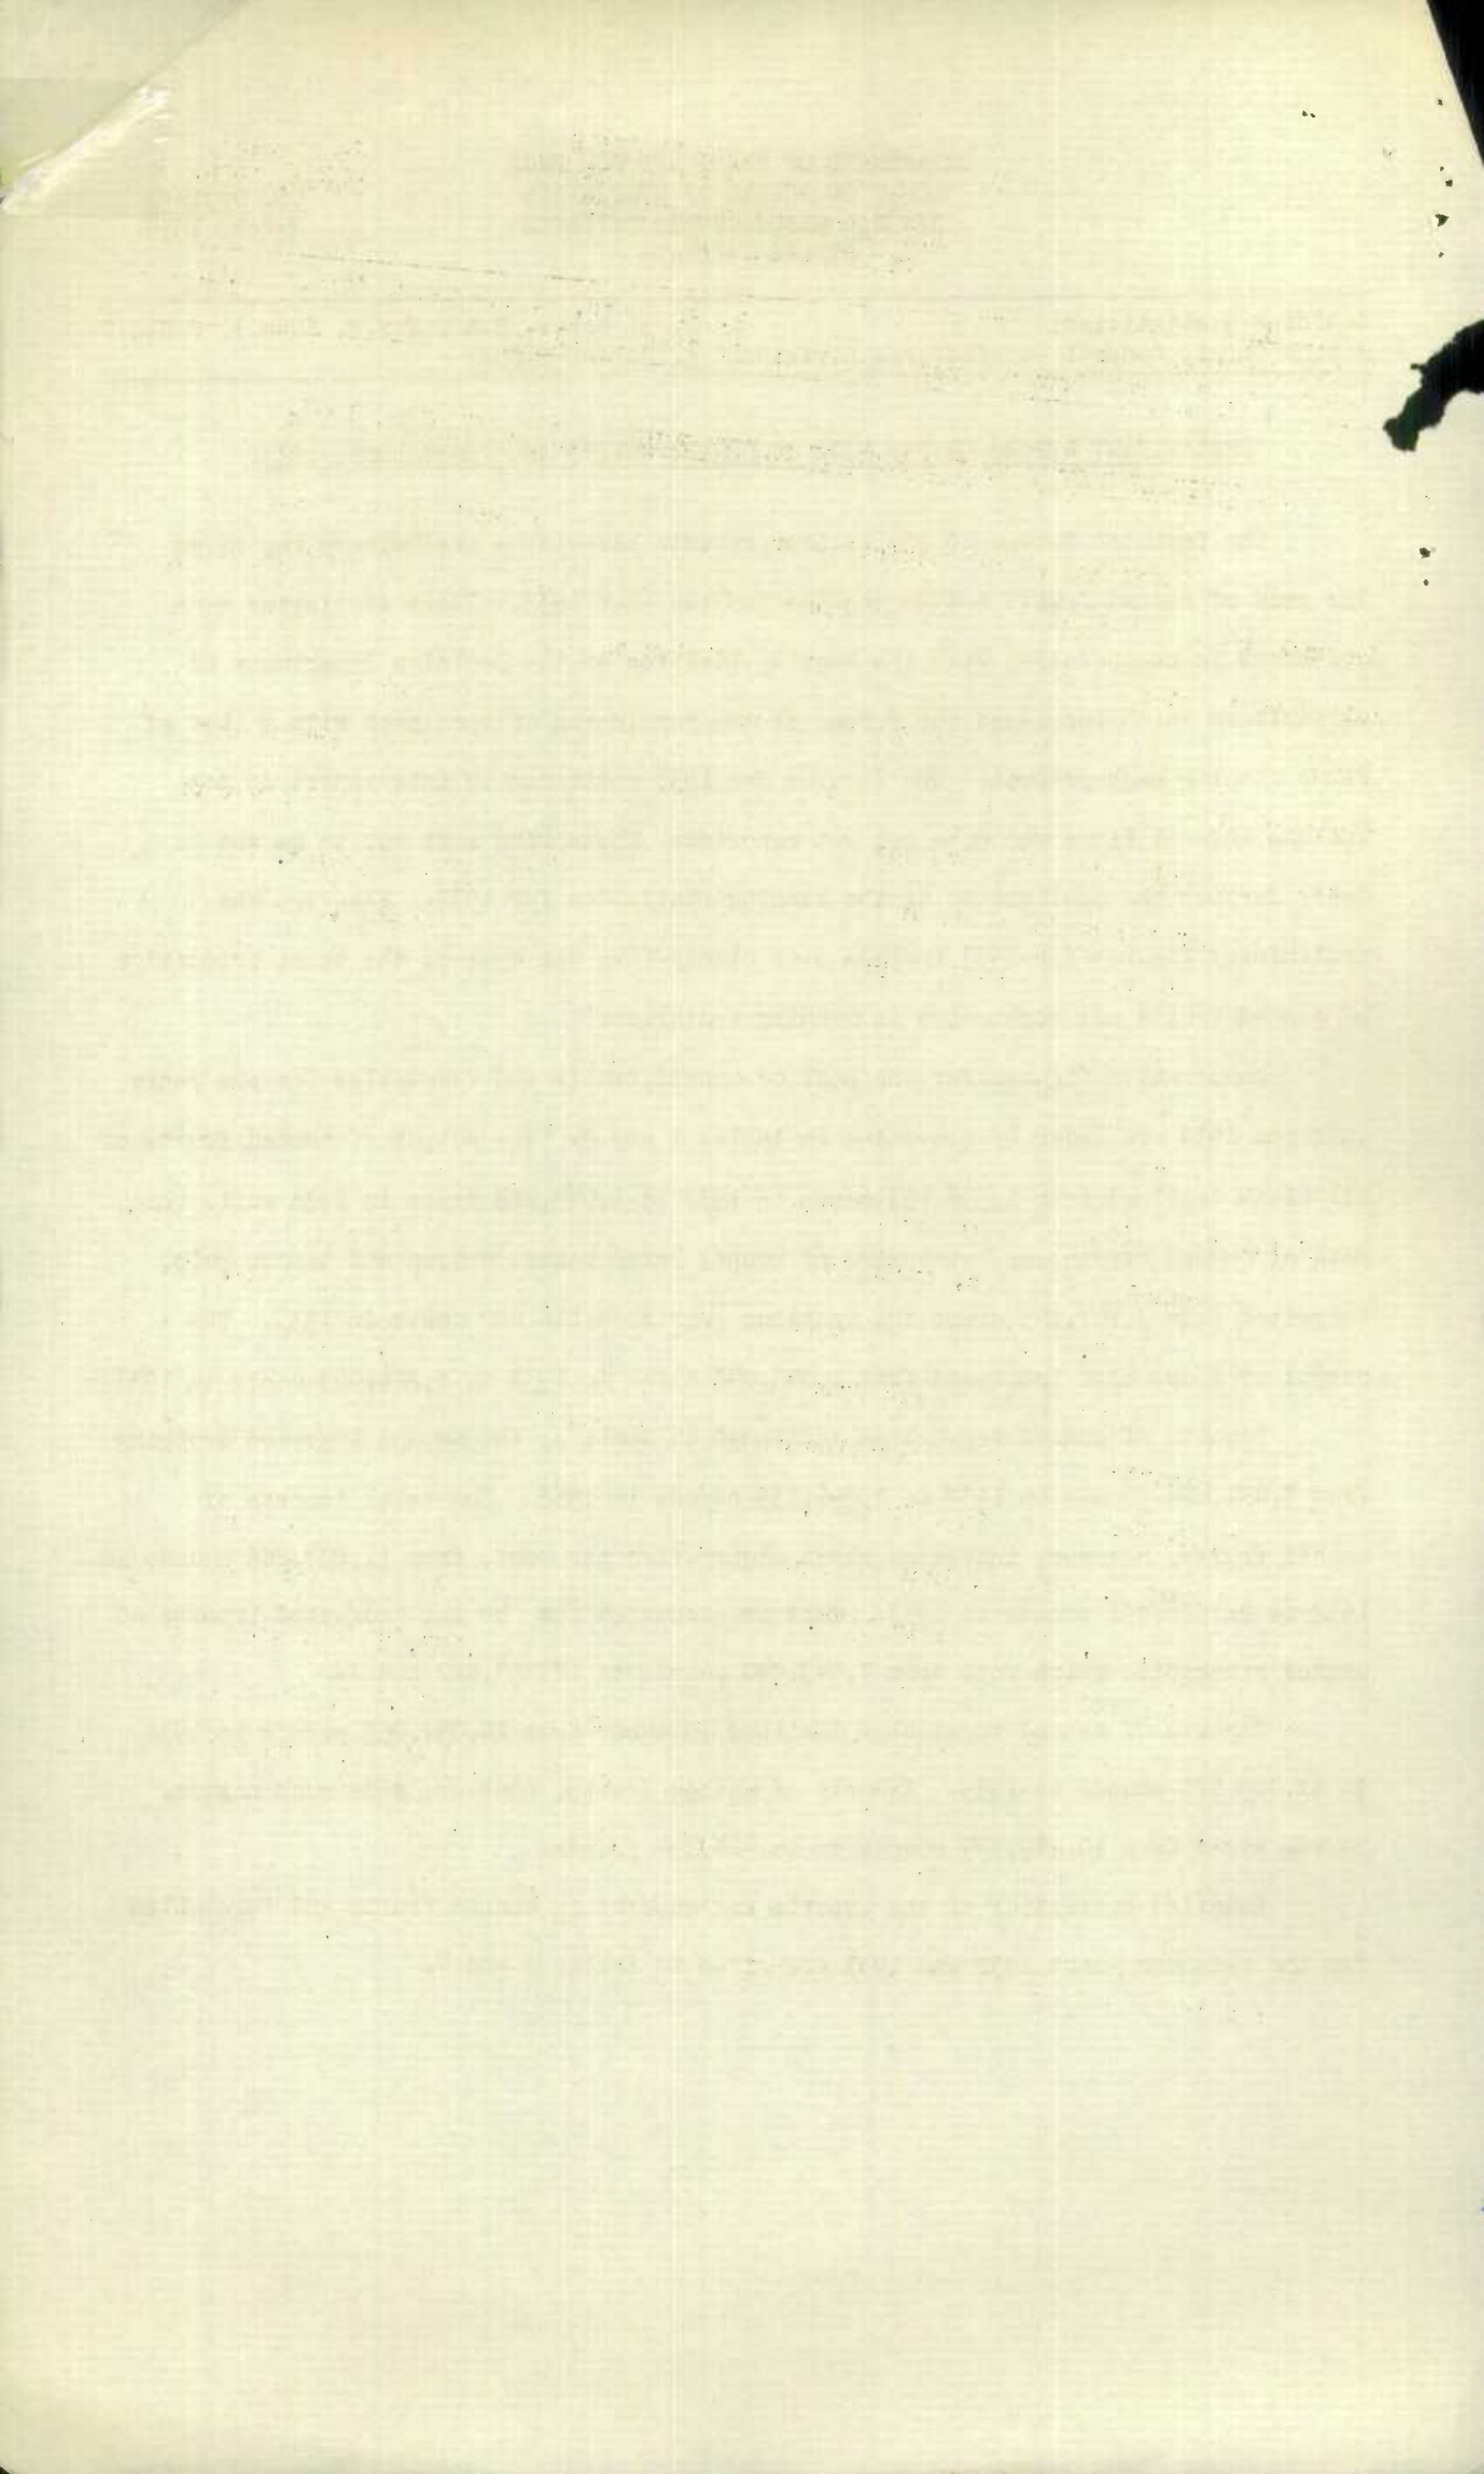

The Dominion Bureau of Statistics presents herewith a preliminary report on the pack of canned fruits and vegetables for the year 1933. These statistics were collected in co-operation with the Canning Division of the Dominion Department of Agriculture which furnished the Bureau at the completion of each pack with a list of firms canning each product. The figures for 1933 published in this report do not include several firms who have not yet reported. These were left out so as not to delay further the publication of the canning statistics for 1933. However, the preliminary figures for 1933 include over ninety-five per cent of the total production of canned fruits and vegetables in canning factories.

Comparative figures for the pack of canned fruits and vegetables for the years 1932 and 1933 are shown by provinces in tables 1 and 2. The output of canned fruits of all kinds declined from 1,336,153 cases in 1932 to 1,044,119 cases in 1933 while the pack of canned vegetables, exclusive of soups, baked beans, catsup and tomato pulp, increased from 3,747,195 cases the previous year to 4,118,420 cases in 1933. The output of soups also increased from 1,093,048 cases in 1932 to 1,289,085 cases in 1933.

Imports of canned vegetables continued to decline, the amount imported dropping from 3,081,624 pounds in 1932 to 2,096,133 pounds in 1933. The total imports of canned fruits, however, increased about eighty-five per cent, from 11,523,885 pounds in 1932 to 21,326,891 pounds in 1933. This is accounted for by the increased imports of canned pineapples which rose from 7,543,940 pounds to 18,353,620 pounds.

Exports of canned vegetables declined somewhat from 18,037,059 pounds in 1932 to 17,409,878 pounds in 1933. Exports of canned fruits, however, were much higher, having risen from 10,289,295 pounds to 16,484,154 pounds.

Detailed statistics of the imports and exports of canned fruits and vegetables for the calendar years 1932 and 1933 are given in tables 3 and 4.

PRELIMINARY REPORT ON THE PACK OF CANNED FRUITS AND VEGETABLES, 1933.
