The Dominion Bureau of Statistics presents a preliminary report on the pack of all canned fruits and vegetables during the year 1936. The amounts shown in this report must not be regarded as representing the total output, as a few firms failed to furnish reports of their operations, including a number of domestic canners. These statistics were collected in cooperation with the Canning Division of the Dominion Department of Agriculture which furnished the Bureau, at the completion of each pack, with a list of the firms canning each product.
