PROPERTY OF THE  
LIBRARYPRELIMINARY REPORT ON THE PACK OF CANNED FRUITS AND VEGETABLES, 1952

This report presents data already released during 1952, on each major pack, at the completion of the pack season in each case. It includes also data on minor packs for which information is collected only at the end of the calendar year. Although a major pack, data on apples and apple products is not collected until the end of the year, the figures given here represent production to December 31 and include an estimate of the balance of the 1952 crop to be processed in 1953. A separate release showing total production of the 1952 crop will be published at a later date. Other products given here, such as Infants Foods, Soups and Tomato Catsup are taken from the quarterly reports submitted by Food Processors which are procured from a separate release.
