MISCELLANEOUS PAPER PRODUCTS INDUSTRIESIN CANADA

1927 - 1928.

Ottawa, February 28, 1930.- A report on the Miscellaneous Paper Products industries in Canada for 1927 and 1928 has been completed by the Forest Products Branch of the Dominion Bureau of Statistics. This group of industries includes the manufacture of paper boxes, building and roofing paper, stationery and envelopes and other miscellaneous paper products. These four groups are fairly distinct, there being few cases of one establishment manufacturing products included under two or more groups.

Table 1 which accompanies this report gives a summary of the principal statistics of the four groups included. The first section covers the manufacture of paper boxes, bags and other containers. There were 132 such establishments in Canada in 1928 of which 76 were located in Ontario, 33 in Quebec, eight in Manitoba, eight in British Columbia, four in New Brunswick, two in Nova Scotia and one in Alberta. The raw materials used in this industry are chiefly paperboard and paper with the necessary adhesives, water-proofing, and reinforcing materials and printing ink. The products are boxes, cartons, mailing tubes, bags, corrugated paper and wrappers, milk bottle caps, envelopes, egg case fillers and flats, drinking cups, soda straws, round paper board containers and waxed paper. This group of industries employed 5,113 people in 1928 and paid \$4,842,485 in wages and salaries. The capital invested amounted to \$18,732,564.

Details of materials used and products manufactured are given in Tables 2 and 3.

The second group of industries includes those manufacturing roofing and building paper of which 10 were in operation in Canada in 1928, 3 being located in Ontario, 3 in Quebec, 2 in British Columbia and one each in New Brunswick and Manitoba. Generally speaking these firms purchase felt papers from the paper mills and treat these with different water-proofing and fire-resisting preparations to render them suitable for roofing and insulating purposes in building construction. Several of these firms operate paper mills and manufacture their own felts and others are engaged in tar distillation and produce their own saturation materials. On this account it is difficult to make an exact separation between the general statistics of this group of industries and the pulp, paper and coal tar distillation industries, except in connection with products which are shown in Table 5(a). The principal raw materials are paper felt, paperboard, wood pulp, other fibre and rags, together with tar, asphalt, flux oil and certain fire-resisting chemicals. A large quantity of mineral surfacing is used for composition roofing consisting of magnesite, silico sand, dolomite, crushed slate, and other stone, talc, feldspar, marble dust, asbestos and asbestos sand. The products are, composition roofing in rolls or squares, composition shingles, saturated felt and sheathings and other products. Composition roofing is usually sold in rolls containing 108 square feet of material, sufficient to cover one "square" or an area of one hundred square feet with an allowance for joints. The shingles and slates are also sold by the square. Ordinary building paper is sold by the roll, each roll containing on an average the equivalent of four "squares." Saturated felt is sold by the pound or ton. This industry employed 429 people in 1928 with a payroll of \$735,836. A total of \$4,434,897 was invested in the industry in 1928.

Tables 4, 5 and 5(a) give the details of materials and products for this industry.

Establishments that specialize in the manufacture of stationery and envelopes are dealt with in the third group, which included in 1928, 31 firms distributed as follows:- Ontario 16, Manitoba 5, Quebec 5, British Columbia 4, and Saskatchewan 1. The materials are similar to those used in the paper box industry from which this group cannot be entirely separated. Paper, paperboard and the necessary adhesives form the bulk of the Materials, while envelopes, tablets, papeteries, scribblers, memo, exercise, note books etc., loose-leaf and blank books, counter check books etc., greeting cards and printing form the bulk of the products, with some other products as side lines. There were 1,373 employees, mostly female, in 1928. The wages and salaries amounted to \$1,549,415 and the capital invested to \$4,825,518.

Tables 6 and 7 give further details concerning this industry.

The final group includes a number of small miscellaneous industries using paper or pulp as a raw material for further manufacture. There were thirty-nine such factories operating in 1928 of which 30 were located in Ontario, eight in Quebec and one in Manitoba. The products manufactured include patterns, fashion sheets, milk bottle caps, waxed, coated and gummed paper and cloth, gummed tape, gummed labels, writing paper, cardboard, bristol board, tickets, etc., waterproof paper, blue print paper and linen, parchment, vegetable parchment, fly pads, counter check books, paper cores, paper towels, photo mounts and picture matting, dry transfers, decalcomania transfers, shipping tags and labels, paper cigarette tubes, glassine, glassine bags, glassoid, foil, surface oak fibre veneer, wax products, floor wax, etc., and wallpaper.

These thirty-nine factories employed 1,689 people in 1928 paying \$2,281,507 in salaries and wages. The capital invested in that year amounted to \$10,315,675.

Tables 8 and 9 give the details concerning the materials and products of these industries for 1927 and 1928.

	1927	1928
	\$	\$
Total.....	5,573,777	5,844,387

The above figures represent the total value of production of roofing materials, building paper, wall boards and other products reported by the manufacturers classed in this industrial group and listed in the appendix of this report. In addition to this production, the following firms, classed under other industrial groups, also reported composition roofing.

- The Barrett Company, Winnipeg, Vancouver, Toronto and Montreal.
- Hamilton Tar Products, Hamilton.
- Dominion Tar and Chemical Company, Montreal.
- Canadian Johns-Mannville Company, Asbestos, Quebec.
- Sydney Roofing Company, Victoria, B.C.
- Asbestos Manufacturing Company, Lachine Quebec.

The combined production of all industrial groups is shown in the following table.

Table 5 (a).- Total production of composition roofing of all kinds by all classes of industries, 1927 and 1928.

	Quantity		Value	
	1927	1928	1927	1928
			\$	\$
Composition roofing, rolls or squares	1,498,793	1,516,398	2,732,260	2,781,153
Composition shingles, squares	281,026	308,034	1,617,265	1,797,266
Saturated felts and sheathings, tons	18,670	23,171	1,308,214	1,666,399

In addition to the production of wall board reported by the firms classed in this group the following manufacturers, classed in other industrial groups, reported the production of similar insulating and building boards.

- Asbestos Manufacturing Company, Lachine, Quebec.
- Canada Gypsum Company, Montreal, Que., Caledonia, Ont., Winnipeg, Man., Port Mann, B.C.
- Flax Fibre Products Limited, Selkirk, Man.
- Beaver-wood Fibre Company, Thorold, Ont.
- Building Products Limited, Hamilton, Ont., Portneuf, Que.
- International Fibreboard Company, Midland, Ont., Gatineau, Que.

The total production of building, insulating and wall boards of all classes by all groups of industries was as follows:

	Square feet	\$
1927.....	182,133,226	3,812,362
1928.....	209,384,043	4,444,292
