Noto, - Production figures as given in this bulletin do not necessarily represent the total output in Canada of tho ommoditios listed, ab there may be also a considerable produetion in other industrial groups. For complete information this buLletin must be read with the rest of the eeries on paper industries and other publications of the Census of Industry.

# THE ELECTROTYPING AND STMPEOTYPITG INDUSTRY <br> and <br> TRE BLUE PRIITING INDUSTRY <br> III CANADA <br> 1928-1929 

Ottawa, January, 1931.- A report on the stereotyoing and electrotyping, and blue printine industries in Canada for 1928 and 1929 has just been issued by the Forest Products Branch of the Dominion Bureau of Statistics. Statistics concerning these industries were in the past included in the report on printing trades. This renort gives the production of firms specializing in stereotyping, electrotyping and blue printing and in most cases covers the greater part of their production in cenada during 1929. There are, homever, a number of other firms classified in other industrial groups which do work of this nature as a side line to their principal production. The firms dealt with in the present report also produce such comodities as stationery, maps, job printing, ruling, photomengraving, book-binding, etc. as secondary products.

## STEPEOTYPING AND BLECTROTYPING

There were 29 firms engaged primarily in stereotyoing and electrotyoing in 1929 as compared with 27 in 19c8. The distribution by provinces was as follows: Ontario, 16 ; Quebec, 7; British Columbia, 3; and Manitoba, Saslatchewan and Alberta, one each.

Capital invested in this industry increased from $\$ 1,246,088$ to $\$ 1,494,658$. Lands, buildings, machinery and tools mere valued at $\$ 926,769$; materials and stocks in process totalled $\$ 45,754$; and the value of cash, trading and operating accounts vas $\$ 522,135$.

The average number of employees mas 412 in 1929 as compared with 356 in 1928. Of this total, 96 were salaried mployees and 316 mere mage-earners. The total payment for salaries and wages amounted to $\$ 685,169$ as compared with $\$ 627,493$ in 1928 .

Expenditures for fuel at $\$ 14,057$ showec an increase of 24 per cent from the figure of 1928. The total value of electricity ourchased in this industry was \$17,423, of which $\$ 17,155$ represented the cost of $605,481 \mathrm{k} . \pi . h$. and $\$ 268$ the cost of $17 \mathrm{~h} . \mathrm{D}$. vurchased at a flat rate. Power equipment consisted of 284 electric motors with $\&$ total ratine of $586 \mathrm{~h} . \mathrm{p}$.

The purchase of materials amounted to $\$ 170,616$ in 1929 as against $\$ 132,043$ in 1928 and the total cross value of products in 1929 was given at $\$ 1,366,652$, of which $\$ 499,961$ represented the value of electrotyping, $\$ 176,405$ that of stereotypinc, and $\$ 124,165$ that of unspecified electrotyping and stereotyping.

## 3IUT PRIITING

The total gross value of production of tho 15 firms engaged primarily in blue printine reached $\$ 371,485$ in 1929, showing a gain of 33.7 per cent over the correspondince value of $\$ 277,894$ recorded in 1928.

Capital employed 7 as given at $\$ 213,085$ in 1929 as against $\$ 170,972$ in 1928. Lands, building and equipment mere valued at $\$ 93,387$; inventories of stocks on hand and materials in process totalled $\$ 45,077$; and the value of cash, tradine and operating accounts mas $\$ 73,621$.

Employment was given to 93 workers during the year as compared with 89 in 1928. The number of salaried employees mas 19 to whom $\$ 35,987$ mas paid during the year, and the average number of wage-earners was 74 with wages at $\$ 54,489$.

Electricity purchased for power only amounted to 14,843 in 1929 and was used to operate 29 motors rated at $98 \mathrm{~h} . \mathrm{p}$. Expenditures for fuel totalled $\$ 1,957$ as acainst ¹,199 in 1928 .

Materials mere valued at $\$ 134,442$ as compared with $\$ 77,750$ in the previous year.
Blue printing, valued at $\$ 264,813$ mas the principal product of this industry in 1929. All other products were valued at $\$ 106,672$.

The followine tables give for each industry, first, a sumary of the principal statistics in 1928 and 1929 followed by comparative detailed tables for both years covering the distribution of estab?ishments, materials emoloyed, products manufactured, capital amoloyed, employment, fuel and porer.
