Average weekly prices were higher for twenty-one and lower for four of the twenty-five best selling stocks on the Montreal and Toronto Exchanges. International Nickel rose from \$21.6 to \$21.8, Shawinigan from \$17.5 to \$19.6, C.P.R. from \$12.9 to \$14.6, Brazilian from \$11.1 to \$12.0, Walkers from \$54.5 to \$55.1, Montreal Light, Heat and Power from \$33.5 to \$34.8, Canada Cement from \$7.3 to \$8.3, Dominion Steel and Coal "B" from \$2.3 to \$3.3 and British Columbia Power "A" from \$22.7 to \$24.7. Canadian Industrial Alcohol "A" fell from \$19.7 to \$19.2 and Consolidated Mining and Smelting from \$134.9 to \$1314.1. Sales were higher for twenty and lower for five stocks. Montreal Light, Heat and Power mounted from 2,200 to 12,600, Shawinigan from 3,200 to 18,500, Brazilian from 9,100 to 29,600, C.P.R. from 5,800 to 20,700, British Columbia Power "A" from 600 to 5,700, Weston Ltd., from 800 to 3,100, National Breweries from 2,100 to 6,000, Canada Cement from 4,500 to 16,100 and Dominion Bridge from 1,700 to 4,300. Canadian Industrial Alcohol "A" declined from 59,300 to 21,000, Walkers from 69,100 to 37,300 and Canadian Industrial Alcohol "B" from 9,400 to 3,100. REVISION OF 1933 INVESTORS' SECURITY PRICE INDEXES A downward bias which became apparent in 1933 security price index numbers has made it advisable to recalculate them. This has been done, and at the same time indexes for preceding years have been tested. It was discovered that results yielded by the old method of calculation and the method to be employed in future, were very similar in years prior to 1933. Indexes calculated by the old and the new methods have been spliced therefore in December, 1932 and January, 1933. Beginning with the weekly index for December 1, 1932, and the monthly index for December, 1932, all numbers have been revised. These revisions are shown on the following pages. The chain link method of calculation is still employed, but by minor adjustments chain bias has been considerably reduced. This cannot be eliminated completely because weekly and monthly index relationships are altered slightly whenever a revision in the list of stocks is made. In the long run such bias factors should largely offset each other, although apparent discrepancies may persist for some time. Despite this fact, it is considered advisable to retain the monthly index for comparisons with other monthly data.
