INVESTORS' INDEX NUMBERS OF SECURITY PRICES
(1926=100)

Losses on the Canadian stock markets during the week were fairly general and were credited to generally unsettled conditions in Europe. Prices dropped to lower levels particularly on Monday and Thursday and caused the first marked decline in the general index this year. The general index for 112 common stocks receded from 127.0 for the week of March 5 to 122.5 for March 12. For the week ending March 14, 1935, the index was 85.6. Eighty-nine Industrials fell seven points, the index being 195.2 for March 12 as compared with 202.2 for March 5 and 124.4 for the corresponding week in 1935. Losses were shown in almost all sub-groups but Consolidated Smelters and Ogilvie were exceptions to the general movement closing the week considerably higher. Twenty-three Utilities recorded a reduction of 2.3 points placing the index at 55.7 for the week ending March 12. The Utilities index was 58.0 for the previous week and 45.4 for the comparable week last year.
