WEEKLY INDEX NUMBERS OF WHOLESALE PRICES, 1934.
(1926=100)

The Dominion Bureau of Statistics index number of wholesale prices on the base 1926=100, was unchanged at 71.9 for the week ended June 29. Higher prices for animal products and textiles were balanced by reductions for lumber, copper, and chemicals.

Vegetable Products were unchanged at 67.5, with declines for grains and raw sugar being offset by advances for animal feeds, flour, and coffee. Increases for ham, eggs, and beef were largely responsible for the rise in Animal Products from 66.2 to 66.3, despite lower livestock quotations. Fibres, Textiles and Textile Products were up one point from 74.4 to 74.5, with firmer silk and hamp prices of more consequence than declines for wool. Lower prices for fir and cedar lumber caused a decrease in the Wood and Wood Products index from 66.1 to 66.0. Iron and Its Products were unchanged at 87.4, as were Non-Metallic Minerals and Their Products at 85.6. Non-Ferrous Metals dropped from 63.9 to 63.7, due to lower copper prices. Silver, zinc, and antimony were firmer. Declines for acetate of lime and shellac caused the chemical group to move down from 82.1 to 82.0.

Canadian Farm Products dropped from 59.2 to 58.9, lower quotations for grains, livestock, and wool being of more importance than increases for eggs and feeds.
