WHOLESALE TRADECOMMERCE DE GROS

NOVEMBER - 1976 - NOVEMBRE

The data presented in this report refer to Canadian wholesale merchants and do not include the business transactions of manufacturers' sales branches, assemblers of primary products, agents and brokers, and petroleum bulk tank plants and truck distributors. These estimates, which are not seasonally adjusted, are based on the returns of a sample of firms in all kinds of business in all regions. They are subject to periodic revisions to account for new businesses (births) and firms going out of business (deaths). They are also adjusted to a census base following each quinquennial census.

Data are shown for twenty-four kinds of business groups as well as two residual categories. The composition of each kind of business group is described in the December 1974 issue of this bulletin.

Table 1 contains the estimated dollar value of net sales (gross sales less returns and allowances), including sales taxes collected, and other trading revenues. The figures are unadjusted for price changes or number of business days in the respective months.

Table 2 shows the end-of-month estimated dollar value of inventories, at cost, owned by wholesale merchants, and stock-sales ratios.
