THE CONTROL AND SALE OF LIQUOR IN CANADA

Historical Summary.

The first legislative restriction regarding intoxicating liquors in what is now the Dominion of Canada was with reference to their sale to the Indians. In New France an "arret" of 1663 declared that "since the foundation of the colony the sale of liquor had always been prohibited on account of the fury of these people when in a state of intoxication" and imposed further penalties on those continuing the traffic. Similarly, in the English colonies laws were enacted providing for the imposition of heavy fines or imprisonment for selling or giving liquor to the Indians. Restrictions, more or less stringent, were also early imposed on the sale of liquor to the whites. The usual method of regulation was the issue by the local authorities of licences to manufacture or sell alcoholic beverages with more or less strict conditions imposed, the non-observance of which resulted in cancellation of the licence.

In the middle of the nineteenth century a considerable agitation for the total prohibition of the traffic in liquor developed both in the United States and in the British North American provinces and found expression in various enactments designed to lessen the evils of intemperance. In 1853 the municipal councils of Upper Canada were authorized to pass by-laws to regulate licences and to limit their number or to prevent absolutely the sale of liquor by retail within the municipality. These provisions were modified from time to time and in 1866 the various Acts were revised and consolidated. In 1855 the municipal councils of Lower Canada had conferred upon them the powers of regulation of the traffic in liquor and prohibition of its sale. In 1856 the county councils were authorized to pass such by-laws for the whole county; if they failed to do so by the month of March the local councils might then act. In 1860 and 1866 amendments were passed extending the powers of the local councils. In 1855 New Brunswick passed a law prohibiting "the importation, manufacture and traffic in intoxicating liquors". Provision was made for the annual appointment in each parish of an agent to import, buy and sell liquors for medicinal, mechanical, chemical or sacramental purposes. The provisions for the enforcement of this Act were so defective, however, that much friction and irritation resulted and it was repealed the following year. In 1864 the Dunkin Act, passed by the Legislature of the United Province of Canada, provided that any municipal council could prohibit the retail sale of intoxicating liquors in townships and smaller localities if a majority of the electors within the municipality declared in favour of the law.

The distribution of legislative powers as set forth in sections 91-95 of the British North America Act of 1867 left some doubt as to the respective jurisdiction of the Dominion and provincial Governments in regard to the liquor question. Control over the importation of liquor was generally conceded to belong to the Dominion. As to regulation of the sale of liquor, it was claimed that the provinces had jurisdiction because to them had been assigned "shop, saloon, tavern, auctioneer and other licences in order to the raising of a revenue for provincial, local and municipal purposes" (92-9); "municipal institutions in the province" (92-8); "property and civil rights in the province" (92-13); and "generally all matters of a merely local or private nature in the province" (92-16). On the other hand, it was claimed that the licences were given to the provinces merely for the purpose of raising a revenue and that, apart from this, they should belong to the Dominion as part of "the regulation of trade and commerce" (91-2); or as coming within the scope of "criminal law" (91-27) or of customs and excise, since, it was argued, the right to import and manufacture liquor implied the right to sell. The Dominion had the right, also, "to make laws for the peace, order and good government of Canada in relation to all matters not coming within the classes of subjects assigned exclusively to the legislatures of the provinces.

The uncertainty as to the rights of the Dominion and provincial Governments in regard to the liquor question caused much confusion for several years after Confederation. In Ontario, when the Licence Law was separated from the Municipal Act and passed as a separate statute in 1869, the provisions as to prohibition by municipalities were not embodied in it nor were they inserted in the Municipal Act when it was revised in 1873.

In Quebec, the Municipal Code of 1870 retained the provisions of the old law authorizing municipal councils to pass prohibitory by-laws. In 1869 the Nova Scotia Legislature passed a law providing that no licence for the sale of intoxicating liquor should be granted unless the application was accompanied by a petition from two-thirds of the ratepayers of the polling district in which the tavern was to be established. The constitutionality of this law was upheld by the courts. On the other hand, a New Brunswick statute of 1871, providing that no licence should be granted in a municipality where the majority of the ratepayers petitioned against it, was declared ultra vires, chiefly on the ground that it was a regulation of trade and commerce which belonged exclusively to the Dominion.

In 1876 the Ontario Legislature passed a new licence law known as the Crooks Act which took from the municipal councils the power of granting licences and placed it in the hands of three commissioners, appointed by the Government in each city or electoral district. The Act also imposed further restrictions in respect of tavern licences, hours of closing, etc.

In response to appeals made from time to time for prohibitory legislation that would be applicable to the whole of Canada, the Dominion Government in 1878 passed the Canada Temperance Act, more commonly known as the Scott Act, which provided that, on a petition from one-fourth of the electors in any county or city, an election was to be held and, if a majority of the votes polled favoured the Act, a proclamation would be issued bringing it into force after the date of expiration of the licences then in force. From the date of the adoption of the Act the sale of intoxicating liquors, except as expressly stated in the Act, was prohibited. Provision was made for sales for medicinal, sacramental and mechanical purposes by druggists and other licensed vendors. Distillers, brewers and wholesalers might sell in quantities of ten gallons or upwards (8 gallons and upwards in the case of wine and beer) at one time to druggists and other licensed persons or to such persons as they had good reason to believe would carry it forthwith beyond the limits of the county or city or of any adjoining county or city where the Act was in force. Penalties of \$50 for a first offence, \$100 for a second offence and two months' imprisonment for a third and every subsequent offence were imposed. The Act might be repealed on a similar petition to the above followed by a favourable vote. Decisions either for or against the Act, as decided by the majority vote, were to remain in force for three years. It was further provided that the Dunkin Act should not be brought into force in any new locality and that the bringing into force of the Scott Act should have the effect of superseding any by-law passed under the former.

The constitutionality of the Canada Temperance Act was soon disputed. It was however sustained by the Privy Council in 1882 (*Russell v. The Queen*) for the reason that it did not fall within any of the powers assigned to the provinces and was valid as "maintaining the peace, order and good government of Canada". From this decision the inference was drawn that the Dominion had supreme authority over liquor licences and that the rights of the provinces were confined to raising a revenue therefrom. In the session of 1883 the Dominion Parliament passed the Dominion Licence Act, popularly known as the McCarthy Act, establishing a Dominion system of hotel, shop, vessel and wholesale licences. This Act, which was made applicable to all parts of Canada where the Scott Act was not in force, followed largely the lines of the Crooks Act and was, in many respects, more stringent than the licence laws of several of the provinces.

In 1883 the Privy Council, in a test case from Ontario (*Hodge v. The Queen*) upheld the provincial legislation and regulations on the grounds that they properly came under the head of municipal institutions, the enforcement of provincial laws and matters of a local or private nature, that they did not interfere with the regulation of trade and commerce and did not conflict with the Canada Temperance Act. While this decision validated the provincial law it was questioned whether it voided the Dominion Licence Act. Most of the provinces adhered to their own licence laws and in some two sets of licences were issued.

The question of the constitutionality of the Dominion law was finally carried to the Privy Council which decided that both the McCarthy Act and an amending Act of 1884 were ultra vires of the Dominion Parliament. The net results of the decisions in the above cases and also the *Brewers and Malsters* case in 1897 may be briefly stated as follows: The licensing of shops and taverns is within the exclusive jurisdiction of the provinces; the Canada Temperance Act which provides for local option in counties or districts of the provinces is within the jurisdiction of the Dominion and the licensing of brewers and distillers, although duly licensed by the Dominion, is also within the competence of provincial legislation. Since these decisions there has been no question of the rights of the provinces to regulate the sale of liquor within their confines.

The question of the prohibition or regulation of the liquor traffic has figured largely in Canadian politics. It has cut right across existing party divisions and has embarrassed the leaders on both sides. To follow in detail the historical record of each province in dealing with the liquor problem would require more space than the scope of this bulletin permits. It is possible, merely, to indicate a few of the salient features.

The Scott Act was adopted in a large portion of the Maritime Provinces shortly after its enactment and proved generally acceptable. The other provinces made, on the whole, little use of the Act preferring to develop local option through provincial legislation. During the years 1884 and 1885 the Scott Act was adopted in many counties throughout Ontario. Difficulties soon arose, due mostly to controversy as to whether the Dominion or provincial officers were bound to enforce the Act. This was settled in 1887 by legislation which provided that the officers and machinery of the Licence Act should be available for the enforcement of the Scott Act. Dissatisfaction had grown so strong, however, that the latter was repealed in 1888 and 1889 in county after county by decisive majorities. An agitation was begun for the re-enactment of the prohibitory clauses of the Municipal Act which had been omitted when the municipal and licence laws were separated (see page 1). In 1890 local option provisions were introduced in the Ontario Liquor Licence Act. A municipal council might pass a by-law that no licences to sell liquor might be issued in the municipality. Approval of the by-law by a three-fifths majority of the electors was necessary and it might not be repealed for three years and then only on a three-fifths majority of the electors approving. Quebec always retained the clauses of the Municipal Code authorizing local councils to pass prohibitory by-laws and refuse licences. The tendency in all the provinces was, in general, towards restrictive legislation and more stringent regulation. In the two decades before the Great War considerable numbers of rural and the smaller urban municipalities throughout Canada adopted local option under provincial statutes.

The agitation for wider prohibition had never abated. Resolutions in favour of a Dominion prohibitory law were, from time to time, introduced in the Dominion Parliament. During the session of 1884 a resolution declaring "that the right and most effectual legislative remedy for the evils of intemperance is to be found in the enactment and enforcement of a law prohibiting the importation, manufacture and sale of intoxicating liquors for beverage purposes" was adopted by a vote of 122 to 40. An amendment declaring that the public sentiment of Canada was then ripe for such legislation was, however, defeated by a vote of 107 to 55. In 1887 a resolution in favour of immediate prohibition was defeated by a vote of 112 to 70 and in 1889 by 99 to 59. A Royal Commission was appointed in 1892 to inquire into the working of the liquor traffic and prohibitory legislation. It took evidence and conducted inquiries throughout Canada and in several of the United States. Four of the Commissioners reported adversely to Prohibition while a fifth presented a minority report strongly in its favour.

Manitoba was the first Canadian province to submit the question of prohibition to a plebiscite. During 1892 a Bill was introduced in the Manitoba Legislature "to enable the electors of Manitoba to vote upon the advisability of introducing a law totally prohibiting the importation, manufacture and sale of intoxicating liquor as a beverage into or in the province of Manitoba". The result of the vote in an electoral list of 46,669 was: For, 18,637; Against, 7,115. In 1893 the New Brunswick Legislature adopted a resolution in favour of Dominion wide prohibition "of the importation, manufacture and sale of intoxicating liquor as a beverage". In Ontario, in the municipal elections of 1894, a vote was taken on the question of "the prohibition by competent authority of the importation, manufacture and sale of intoxicating liquor as a beverage in the province". This vote resulted in a majority for prohibition of 81,769, the total vote polled being 303,209 of a voters' list of 549,202. Similar resolutions were adopted in other provinces and votes on the question taken at different times during the next few years.

A Dominion wide plebiscite taken in 1898 showed a majority of 13,896 in favour of a Dominion prohibitory law. The number of votes polled, however, was only 44 per cent of the number of names on the voters' list. The decision of the Government, as summarized by Sir Wilfred Laurier was that "the expression of public opinion as recorded at the polls in favour of prohibition did not represent such a proportion of the electorate as would justify the introduction of a prohibitory measure". The results of the provincial plebiscites, likewise, were not considered decisive enough to warrant the enactment of provincial prohibition laws. It was not until after the outbreak of the Great War, in fact, that there was any real departure from the local option system as developed under the Scott Act and the provincial Licence Acts.

During the years 1916 and 1917, as a war policy, legislation prohibiting the sale of alcoholic liquors, except for medicinal and scientific purposes, was passed in all the provinces except Quebec where similar legislation was passed in 1919. The prohibition extended to the sale of beer and wine except in Quebec. Native wine could be sold, however, in Ontario.

In aid of provincial legislation prohibiting or restricting the sale of intoxicating liquors, the Dominion Government in 1916 passed a law making it an offence to send intoxicating liquors into any province to be dealt in contrary to the law of that province. In 1919 this Act was changed to read that "on the request of the Legislative Assembly of a province a vote would be taken on the question that the importation and the bringing of intoxicating liquors into such province be forbidden". If the majority of those voting were found to be in favour of such prohibition, the Governor in Council was to declare it in force.

After the war the provinces continued under prohibition for varying periods. Plebiscites were taken from time to time to ascertain the will of the electorate as to whether the policy of prohibition, adopted as an emergency war measure, should be continued. During 1921 Quebec and British Columbia discarded the existing prohibition laws and adopted the policy of liquor sale under government control. The same course was followed by Manitoba in 1923, Alberta in 1924, Saskatchewan in 1925, Ontario and New Brunswick in 1927 and Nova Scotia in 1930.

The provincial Liquor Control Acts have been framed to conform to conditions peculiar to the localities where they are in force and no two are exactly alike. The salient feature of all is the establishment of a provincial monopoly of the retail sale of alcoholic beverages with the practical elimination of private profit therefrom. Partial exception is made in the retail sale of malt liquor by brewers, which certain provinces permit while reserving regulative rights and taxing such sales heavily. One province permits local wine growers to sell at retail under certain restrictions. In all the provinces, however, spirits may be bought only at government liquor stores. The provincial monopoly extends only to the retail sale of alcoholic beverages, the manufacture of such being still in private hands but under the supervision of the Liquor Boards or Commissions. The original Liquor Control Acts have been modified from time to time as deemed advisable. Brief summaries of the legislation under these Acts are given below:

NOVA SCOTIA

Act.- The Nova Scotia Liquor Control Act passed April 30, 1930.

Administration.- By the Nova Scotia Liquor Commission which has authority to control the possession, sale, transportation and delivery of liquor, to control, manage and supervise all government liquor stores and shops and in all other ways to administer the provisions of the Act. All moneys received from the sale of liquor at government stores or otherwise arising in the administration of the Act, other than from licence and permit fees, are paid to the Commission. Fees for licences and permits for the purchase and sale of liquor are paid to the Provincial Treasurer to be accounted for as a part of the general revenue of the province and are not to be included in any statement of profit and loss by the Commission. The Commission must make an annual report to the Legislature covering operations for the year ending September 30.

Disposition of Profits.- From the profits arising under the Act, such sums as may be determined by the Governor in Council are to be set aside for the creation of a reserve fund to meet any losses that may be incurred by the Government in connection with the administration of the Act, as also such sums as necessary to cover the expenditures incurred in connection with the Royal Canadian Mounted Police. Expenditures incurred prior to the coming in force of the Act, relating to the establishment of a liquor commission in the province, including the expense of taking a vote under the Plebiscite Act, 1929, expenditures incurred in carrying out and enforcing the provisions of the Act, etc., are to be charged against profits. The remaining net profits are to be paid into the Consolidated Revenue Fund at the direction of the Provincial Treasurer.

Regulation of Sale.

Where sold.- Liquor may be sold by the Commission in such manner and at such places and prices as the Commission prescribes. No liquor is to be sold, however, in any municipality in which, under the Plebiscite Act of 1929, a majority of votes were cast against the sale of liquor under a Government Control Act. Any hotel

keeper may be authorized by the Commission to sell beer or wine by the glass or open bottle during meals to be consumed only thereat and the Commission may itself sell beer or wine by the glass or open bottle but no such sale is permitted in any store where liquor other than beer or wine is sold and there shall be no such sale in municipalities which voted against the sale of liquor under a Government Control Act and no such sale authorized or permitted in any municipality until a vote is taken and a majority of votes cast thereat in favour of such sale.

How sold. (1) By permit in sealed packages from government liquor stores.

(2) Delivered direct by brewers or their authorized agents upon order from the Commission. In such case the brewer acts as agent of the Commission and must make to it a monthly report of gross sales.

(3) Limited quantities may be sold by vendors on a doctor's prescription.

To whom sold. (1) Individual permits may be granted to individuals of 21 years of age who have resided in the province at least one month previous to the application.

(2) Individual permits for a period of one month may be granted to individuals of the age of 21 years temporarily resident or sojourning in the province.

(3) Banquet permits may be granted to any individual in charge of a banquet or to any recognized society, association, club or other duly constituted organization entitling the applicant to purchase liquor from the Commission and serve it at a banquet.

(4) Special permits may be granted to druggists, to persons engaged in manufacturing or scientific pursuits requiring liquor for use therein or for other stated purposes.

(5) Special permits may be granted to physicians, dentists, veterinaries, persons in charge of hospitals, sanitariums, homes for the aged, etc.

(6) Liquor may not be sold to minors, interdicted persons (except on a doctor's prescription) or to any other persons disqualified by the Commission or by Act of the Dominion of Canada.

NEW BRUNSWICK.

Act. The Intoxicating Liquor Act, 1927, assented to April 20, 1927; main provisions brought into force on September 6, 1927.

Administration. By the New Brunswick Liquor Control Board which has authority to "control all dealings in liquor in the province, and the management and supervision of all government liquor stores and the administration of this Act". The Board must make to the Government an annual report covering the nature and amount of business transacted during the year ending October 31. All moneys received under the Act are paid to the Board which pays all expenses of administration.

Disposition of Profits. From the profits of the Board there may be set aside such sums as may be specified by the Governor in Council for a reserve fund to meet any loss which the province may incur in the administration of the Act. The remaining profits of the Board are paid into the Consolidated Revenue Fund of the province at the direction of the Governor in Council.

Regulation of Sale.

Where sold. At government liquor stores; or from licensed brewers or their authorized agents on order of the Board.

How sold. (1) In sealed packages (a) at government liquor stores; (b) delivered directly by brewers or their authorized agents upon order from the Board. In such case the brewer acts as the agent of the Board and must make to it a monthly report of gross sales.

(2) Limited quantities may be sold by vendors on physician's prescription.

To whom sold.- Liquor may not be sold to minors, interdicted persons, etc. (except on doctor's prescription), nor to any other persons disqualified by the Board. All other persons may purchase liquor in accordance with the provisions of the Act. Individual permits are not required.

QUEBEC.

Act.- The Alcoholic Liquor Act, assented to February 25, 1921.

Administration.- By the Quebec Liquor Commission, which has authority to control liquor sales, to grant permits, to regulate the establishments to which permits are granted and in other ways to administer the provisions of the Act. The Commission must make an annual report to the Provincial Treasurer for the year ending April 30. All revenue collected under this Act is paid to the Commission which pays all costs of administration.

Disposition of Profits.- Profits of the Commission are paid to the Provincial Treasurer on demand to become a part of the Consolidated Revenue of the province.

Regulation of Sale.

Where sold.- From government liquor stores; from brewers or brewers' warehouses; in hotels, restaurants, boats, stores, taverns, etc. holding permits from the Commission.

However, the Commission must refuse to grant any permit for the sale of alcoholic liquor in any municipality where a prohibition by-law is in force. Such a by-law may be revoked as to beer and wine or beer only by submission to the electors.

The Commission must refuse to grant any permit for the sale of alcoholic liquor in any city or town whose population exceeds 5,000 (and where a prohibition by-law is not in force) whenever the municipal council has by a by-law requested the Commission to refuse to grant any permit.

And in addition the Commission must refuse to grant a permit in a town whose population does not exceed 5,000 or a village or municipality, unless such municipality requests it by by-law approved by a majority of voters.

How sold.- (1) Spirits and wines from government stores.

(2) Beer by brewers to permittees authorized to sell beer to consumers. In such case the brewers must make to the Commission a monthly report of sales. Those who purchase from brewers must pay through the brewers to the Commission a tax equal to 5 per cent of purchases.

(3) Beer or wine by the glass or open bottle with meals in the dining rooms of hotels, restaurants, steamboats, dining cars, clubs, or any other such establishment which has been granted a permit by the Commission. In the case of steamboats, the Commission may grant permits for sale between meals while en route and performing a regular service between points in the province at least 50 miles apart. Also, the Commission may issue permits for the sale of beer by the glass between meals in hotels in a village or rural municipality upon the request of such municipality.

(4) Beer in quantities of not less than one bottle from licensed grocery stores or stores where beer only is sold, such beer not to be consumed on the premises. In villages or rural municipalities such licence may be granted only to hotels licensed under the Quebec Licence Act and which at the same time hold permits for sale with meals.

(5) Beer by the glass in licensed taverns in cities or towns for consumption on the premises.

(6) Beer and wine at banquets for consumption on the premises.

(7) Permits may be granted to a club authorizing it to keep alcoholic liquor belonging to its members.

In every case the alcohol, spirits, or wine must have been purchased directly from the Commission by the holder of the permit and beer from a brewer who is also a holder of a permit. Hospitals, universities, laboratories for industrial and scientific research, retail druggists and doctors may purchase either from the Commission or direct from distilleries under permit thus procuring alcohol at a lower price.

To whom sold.- (1) It is forbidden to sell to persons under 18 years of age or to interdicted persons or other persons disqualified by the Commission. All other persons may purchase from government stores or licensed establishments. Individual permits are not required.

(2) To permittees, who may purchase from the Commission or the brewers and sell to the consumers in such manner as is indicated above.

ONTARIO.

Act.- The Liquor Control Act (Ontario) assented to April 5, 1927.

Administration.- By the Liquor Control Board of Ontario in which is vested authority to control, manage and supervise the government liquor stores, to make necessary regulations and in other ways carry out the administration of the Act. The Board must make to the Governor in Council an annual report covering its activities during the year ending October 31. All moneys received as fees for permits for the purchase of liquor are paid direct to the Provincial Treasurer and become part of the general revenue of the province. All other moneys arising from the application of the Act are paid to the Liquor Board which pays all expenses of administration.

Disposition of Profits.- From the profits of the Board there may be taken such sums as are determined by the Governor in Council for the creation of a reserve fund to meet any loss which the province may incur in the administration of the Act. The remaining profits are paid into the Consolidated Revenue Fund of the province at the direction of the Lieutenant Governor in Council.

Regulation of Sale.

Where sold.- At government liquor stores, breweries, brewers' warehouses and wineries, and from distilleries, for scientific, medicinal or manufacturing purposes, on the order of the Board. Government Liquor Stores may not be established in municipalities in which the Canada Temperance Act is still in force, nor in municipalities where at the time of coming into force of the Ontario Temperance Act, a "Local Option" By-Law under the Liquor Licence Act (Ontario) was in effect, unless a vote has been taken in such municipalities and a majority of three-fifths of the votes polled is returned in favour of government sale.

How sold.- (1) (a) Liquors, wines and beer in sealed containers by permit from government liquor stores; (b) Beer in sealed containers by permit from the premises of licensed brewers or from a brewers' warehouse, on the order of an or with the supervision and approval of the Board; (c) Native wine in sealed containers by permit from the premises of licensed native wine manufacturers with the supervision and approval of the Board.

(2) Vendors may sell in limited quantities to a patient on a physician's prescription.

(3) Wine for sacramental purposes may be sold by a holder of a sacramental wine permit to a minister of any religious faith.

Amendments introduced in the Ontario House in the 1933 session would permit the sale of beer and wine with meals in the dining rooms of hotels, restaurants and clubs and the sale of beer in beverage rooms. At the time of writing, however, these are not effective.

To whom sold. (1) To holders of individual "resident" permits which are procurable by persons of 21 years of age who have resided in the province for at least one month.

(2) To holders of individual "non-resident" permits which are procurable for a period of one month from the date of issue by persons of 21 years of age, who are temporarily resident or sojourning in the province.

(3) To holders of "resident" or "temporary" native wine and beer permits.

(4) To holders of special permits which have been granted to druggists, to persons engaged in manufacturing or scientific pursuits requiring liquor for use therein, or to physicians, dentists, veterinaries, persons in charge of hospitals, sanatoria, homes for the aged, ministers of the gospel, etc.

(5) To a patient by a physician in a quantity not exceeding six ounces.

(6) To a minister of any religious faith by the holder of a sacramental wine permit.

N.B. Liquor may not be sold to minors, interdicted persons, etc., (except on doctor's prescription) or to any other person disqualified by the Board or by Act of the Dominion of Canada. The having and use of liquor is restricted to a citizen's residence. Sale by the glass is not permitted, nor advertising.

MANITOBA.

Act. The Government Liquor Control Act, 1928, assented to February 7, 1928. This Act replaces the original legislation as in "The Government Liquor Control Act", which came into force in 1923.

Administration. By the Government Liquor Control Commission, which has authority to control the possession, sale and transportation of liquor, the granting of permits and licences, the operation of liquor stores, and in all other ways to make regulations and administer the provisions of this Act. All moneys received from sale of liquor at liquor stores or from licence or permit fees or otherwise arising under this Act are paid to the Commission which pays all expenses of administration. The Commission must make an annual report to the Attorney-General covering operations for the year ending April 30.

Disposition of profits. From the profits arising from this Act there may be set aside such sums as are specified by the Governor in Council for the creation of a reserve fund to repay moneys borrowed for the purpose of administration of this Act and to meet any losses that may be incurred in the working of the Act or by reason of its repeal. The remaining net profits are paid into the Consolidated Revenue Fund at the direction of the Provincial Treasurer and appropriated to the public service of the province. Prior to the passing of this new Act in 1928, it was specified that the net profits after providing for the reserve fund should be disposed of as follows: fifty per cent to the Consolidated Revenue Fund and fifty per cent to the municipalities in the province.

Regulation of Sale.

Where sold. From government liquor stores; in government beer parlours; in licensed hotels, clubs and canteens; and from brewers and distillers or their authorized agents on the order of the Commission. But liquor stores may not be established nor licences granted in municipalities where a majority of the voters have indicated a preference for local option. A local option by-law may be submitted upon petition of 20 per cent of voters in the municipality.

How sold. (1) Liquors of all kinds by permit in sealed packages from government liquor stores. In all cases the permittees must purchase from the Commission at government stores or for delivery therefrom to the permittees residence which delivery service is under the control of the Commission.

(2) Deliveries may be made from breweries, distilleries or their authorized agents upon the order of the Commission. In such case the brewers or distillers really sell to the Commission and must make to it a monthly report of sales. Brewers pay a tax of 12½ cents per gallon to the Commission. Prior to 1928

the brewers could sell directly to the permittees without an order from the Commission.

(3) Beer containing not more than 9 per cent proof spirits by the glass or open bottle in government beer parlours, (none in operation) licensed hotels, licensed clubs to members, and in military canteens to members of military units only. Licensees must purchase from the Commission. No bars are allowed. Prior to the passing of this Act in 1928 beer could not be sold by the glass or open bottle in Manitoba.

(4) By doctor's prescription from government stores and druggist licensees, the latter operating only where there are no Commission stores.

To whom sold. (1) General permits may be granted to individuals for the purchase of liquor for beverage or medicinal purposes.

(2) Special permits may be granted to druggists, physicians, hospitals, etc.

(3) Banquet permits may be issued for consumption of liquor on the premises but not more than two during each permit year to any association or individual.

(4) Permits may not be issued to persons under 21 years of age; to Indians; interdicted persons; to corporations, societies, etc., (other than a banquet permit); to more than one person in a hotel or club other than guests; to other than bona fide guests of hotels; to any person disqualified by the "Government Liquor Control Act, 1928" or by the Commission.

Amendments to the "Government Liquor Control Act, 1928", assented to at the 1934 session of the Legislature provide there shall be a Provincial Licensing Board consisting of five members, the Chairman of the Commission also acting as Chairman of the Board.

All applications for licences under "The Government Liquor Control Act, 1928" other than beer waiter licences, require to be approved for issue by the Licensing Board, before being considered by the Government Liquor Control Commission.

Further amendments provide that a beer vendor's licence may be issued, in respect of any hotel registered with the Commission or in the case of a hotel located in the city of Winnipeg duly licensed by the said city.

A beer vendor's licence authorizes such licensee, other than that in the city of Winnipeg, to purchase beer from the Commission for resale to permittees in either six, twelve or twenty-four bottles in a sealed package for consumption in the permittees residence, the licensee in the city of Winnipeg being limited to the sale of the same quantities only to permittees resident in his own hotel.

SASKATCHEWAN.

Act. The Liquor Act, 1925; assented to January 16, 1925; brought into force April 15, 1925.

Administration. By the Liquor Board which is given the power to have general control and management of all liquor stores and in other ways to make regulations and administer the provisions of this Act. The Board is required to submit semi-annually a financial statement to the Provincial Treasurer, by whom it is submitted to the Executive Council. The Board's annual report upon the operation of the system, accompanied by an annual financial statement, is required to be submitted to the Legislative Assembly. Moneys received for permit fees are paid to the Provincial Treasurer. All other receipts are placed to the credit of the Liquor Board. The Board pays all expenses of administration, including expenses of plebiscites, enforcement, etc.

Disposition of profits. The Treasury Board determines the disposition of the profits by one or both of the following methods; (1) Setting aside such sums as are deemed necessary for the creation of a reserve fund to meet any loss which may be incurred by the province in case the system or any store shall be discontinued; (2) Paying an amount to the Provincial Treasurer for purposes of the Consolidated Fund. The Treasury Board may make such

regulations as it deems expedient regarding the financial conduct of the system.

Regulation of Sale.

Where sold.- At Liquor Board stores; or for medicinal purposes by druggists or physicians under permits.

Beer, wine and spirituous liquors are sold at general liquor stores established in cities, towns and villages, but cities, towns and villages where a general liquor store may be established must not at any time exceed twenty-five. Beer and wine only are sold at beer and wine stores established throughout the province. No beer and wine store may be established in a town or village which has petitioned against same and in which a majority of electors have voted against the establishment of a store in the numbered district containing said town or village, and no such store shall be continued in any town or village in a numbered district where a majority of the electors voting in such town or village have voted in favour of discontinuing the store or stores in the district.

How sold.- In sealed packages from liquor board stores.

To whom sold.- (1) To all persons not being minors, Indians, interdicts, persons under the influence of liquor or who habitually use liquor to excess, or persons prohibited from purchasing liquor owing to convictions under certain provisions of the Liquor Act. No permit is required for purchasing daily an amount within the limit prescribed by the Act. Special quantity permits must be obtained for purchasing in excess of the limit referred to. Banquet permits are issued enabling beer and wine only to be purchased at the Liquor Board stores and served at bona fide banquets.

(2) To druggists and physicians authorized by permit to purchase from the Board and sell for medicinal purposes or use in the practice of their professions.

(3) Dentists, veterinarians, hospitals, manufacturers, educational institutions, may, under permit, purchase liquor from the Liquor Board stores.

ALBERTA.

Act.- The Government Liquor Control Act of Alberta, assented to April 12, 1924, and made effective by proclamation on May 10, 1924.

Administration.- By the Alberta Liquor Control Board in which is vested the administration of this Act, including the management and supervision of all government liquor stores. The Board must make an annual report to the Attorney-General for the year ending March 31. All moneys received from permit fees are paid to the Provincial Treasurer to become a part of the general revenue of the province. All other receipts under this Act are paid to the Liquor Board.

Disposition of profits.- From the profits arising from this Act there may be set aside such sums as may be specified by the Lieutenant Governor in Council for the creation of a reserve fund to meet any loss that may be incurred in the administration of the Act or by reason of its repeal. The remaining net profits are paid into the General Revenue Fund and appropriated to the public service of the province.

Regulation of Sale.

Where sold.- From government liquor stores; in licensed hotels, clubs, canteens; and the authorized distributing agency of Alberta Brewers.

However, beer or club licences may not be granted in any area in which a plebiscite has been held and a majority of the voters have voted against beer licences. Plebiscites may be held upon petition signed by 25 per cent of the voters in the electoral area.

How sold.- (1) Liquors of all kinds by permit in sealed packages from government liquor stores.

(2) Beer by the glass or open bottle in licensed hotels, in licensed clubs to members and in military canteens to members, also by the closed bottle on licensed hotel premises in quantities not to exceed two dozen pints or one dozen quarts to any one person on any one day, for consumption in the residence of the purchaser.

Licenses may purchase from either a vendor or licensed brewer. No bars are allowed.

(3) Brewers who manufacture beer in Alberta may be licensed to sell and deliver (a) beer and malt liquor to vendors; (b) beer to any person who is the holder of a subsisting permit; (c) beer to licensees who are entitled to purchase from Brewers. Purchasers from Brewers must pay a tax of $12\frac{1}{2}$ cents per gallon ($15\frac{1}{2}$ cents per gallon as from April 1, 1932) to the Board. This tax is collected and remitted by the Brewers.

(4) On physician's order.

(5) From druggists on physician's order for medicinal purposes in districts where there are no government liquor stores.

To whom sold.- (1) Any person not disqualified under the Act and of the full age of twenty-one years may obtain a General Liquor Permit at a cost of fifty cents.

(2) Special permits may be granted to physicians, druggists, etc.

(3) Permits may not be issued to interdicted persons nor to any other persons specially prohibited under the provisions of any Act of the Dominion of Canada or the province of Alberta, nor (except special permits) to any corporation, association, society or partnership.

BRITISH COLUMBIA.

Act.- The Government Liquor Act, 1921, assented to April 2, 1921.

Administration.- By the Liquor Control Board in which is vested the administration of the Act including the general control, management and supervision of government liquor stores. The Board must make an annual report to the Attorney-General covering operations for the year ending March 31. Moneys received from sale of permits are paid to the Minister of Finance to be accounted as part of the general revenue of the province. All other moneys received under this Act are paid to the Liquor Board.

Disposition of profits.- From the total profits of the Board there may be set aside such sums as are specified by the Government for the creation of a reserve fund to meet any losses which may be incurred in the administration of this Act or by reason of its repeal.

Regulation of Sale.

Where sold.- From government liquor stores, or from beer parlours.

Beer parlours may be established in electoral districts or specific polling divisions, which have voted in favour of the sale of beer in licensed premises. At the 1933 session of the Legislature section 27 of the "Government Liquor Act" was amended whereby beer can now be sold by the unopened bottle for consumption elsewhere than on the licensed premises in addition to beer by the glass for consumption in the said premises.

How sold.- (1) Liquor of all kinds by permit in sealed packages from government liquor stores. However, malt liquors need not be sealed.

(2) From liquor stores or from druggists on doctor's prescription.

(3) Beer by the glass or open bottle for consumption in licensed beer parlours and beer by the unopened bottle for consumption elsewhere than in the said licensed premises. The licensee must purchase his beer from the Liquor Control Board. No bars are allowed.

(4) Members of licensed clubs may keep on club premises for personal consumption.

(5) Veterans clubs may obtain licences entitling the holders to purchase beer from vendors and to sell it by the glass or open bottle to bona fide members for consumption on the licensed premises in accordance with the terms of the licence and the provisions of the Act.

To whom sold.- (1) To permittees. Individual permits are issued to persons over 21 years of age for the purchase of liquor for beverage or medicinal or culinary purposes. Special permits are issued to druggists, physicians, dentists, veterinaries, hospitals, banquets, etc.

(2) To beer licensees, who may purchase from the Board and sell by the glass or open bottle for consumption on the premises or by the unopened bottle for consumption elsewhere than on the licensed premises.

To Veterans' Club licensees who may purchase from the Board and sell by the glass or unopened bottle to bona fide members of the Veterans' Club for consumption on the licensed premises.

At the 1933 session of the Legislature the fees for individual liquor permits and all special permits with the exception of those for banquets, smokers, etc. were reduced from \$2.00 to \$0.25.

SALES BY LIQUOR CONTROL BOARDS

Data on gross sales, other revenue and net profits of the Provincial Liquor Boards, are tabulated in Table 1. In connection with the figures on gross sales it is essential to note that for Quebec, Manitoba and Alberta, the sales of beer made directly by the brewers to the licensees are not included. The proceeds from such sales do not pass through the Boards, but the purchasers must pay through the brewers to the Boards a tax equal to 5 per cent of the purchases in the case of Quebec, 12½ cents per gallon in Manitoba and 15½ cents per gallon in Alberta. For the latter two provinces it is possible to calculate from the taxes the gallonage of beer sold but the corresponding values are not available. For Quebec the quantity and value of sales are published by the Liquor Commission as shown in the footnote to the table.

Further it should be pointed out that the values as given for Quebec, Manitoba, Alberta and British Columbia do not represent the sales values to the final consumers as in these provinces the sale of beer by the glass is permissible.

And, of course, all the liquor sold in any province is not consumed within the province. The tourist traffic is a very important factor in this connection.

All the revenue resulting from the Liquor Control Acts is not paid to the Liquor Boards. In certain provinces, permit fees are paid directly to the Government and do not pass through the Board. Table 1 further indicates the total revenue accruing to the Governments through the control of liquor sales.

The reports of the Boards do not in all cases show the quantities of liquors sold and in comparing values for a series of years or between provinces it should be borne in mind that price variations may be an important factor. Information as to quantities of liquors sold when available is given in the footnotes to Table 1.

TABLE 1. - Gross Sales and Net Profits of Liquor Control Boards; Additional Revenues Paid Direct to Governments, and Total Net Revenue from Liquor Control.

The value of native wine sold direct from the wineries to the public was as follows:

	\$		\$
1933	909,199.83	1930	1,620,742.09
1932	1,090,018.12	1929	1,126,945.00
1931	1,125,886.79	1928	743,210.00

Permits were not required in connection with such sales prior to November 1, 1930 but since that date a purchaser must be in possession of either an individual liquor permit or an individual wine and beer permit in order to purchase wine at a winery. The preceding sales are not included in the Board's financial statements.

(e) Manitoba: Gross sales do not include beer sold direct by the brewers to the licensees. Beer taxes paid to the Board are tabulated below. In this connection it should be noted that the Board also pays the beer tax on its purchases from the brewers and the beer sales of Board are included in the total gross sales in Table 1.

DOMINION REVENUE

The available data on the revenue received by the Dominion Government through the manufacture and sale of liquor are shown in Table 2. Excise duties, excise war taxes, customs duties, excise duties on malt (used principally in the manufacture of malt liquors) are the sources of revenue which have been included. Separate data on the sales tax collected by the Dominion Government are not available.

1/ Prior to 1914 the excise duty was at the rate of \$1.90 per gallon of proof spirits. In August 1914, the duty was raised to \$2.40 and in May 1920 to \$4.40 per gallon. In May 1921 the excise duty was further increased to \$9.00 per gallon except to licensed bonded manufacturers who still paid \$2.40. On October 13, 1932 it was reduced to \$7.00 per gallon. On March 22, 1933 the rate in bonded factories was placed at \$2.50; wine spirits, \$7.00; perfumery spirits, \$1.50; vinegar spirits 27 cents; soap, etc. 15 cents.

The excise duty on screened malt prior to July 1, 1934 was at the rate of 3 cents per pound and on imported malt (ground and crushed) 5 cents per pound. The duty on malt liquor when made in whole or in part from substances other than malt was 15 cents per gallon.

In 1934 the Excise Act was amended and consolidated. Effective July 1, 1934 excise duties are as follows:

Spirits Distilled in Canada - On every gallon of the strength of proof, \$7.00. Rates on spirits used in bonded factories in the production of goods manufactured in bond, applicable in each case to every gallon of the strength of proof and in proportion for any greater or less strength and for any quantity less than a gallons

(a) Used in the manufacture of patent and proprietary medicines, extracts, essences and pharmaceutical preparations, \$2.50.

(b) Used in the production of perfume or perfumed spirits, \$1.50.

(c) Used in the production of vinegar, 27 cents.

(d) Used in the production of such chemical compositions as are from time to time approved by the Governor in Council, 15 cents.

On spirits sold to druggists licensed under this Act and used exclusively in the preparation of prescriptions for medicines and pharmaceutical preparations, the rate is \$2.50 per gallon.

On spirits distilled from the juices of native fruits and used exclusively by registered wine manufacturers for the fortification of native wines under departmental regulations, the rate is \$1.00 per gallon.

Spirits Imported - Upon imported spirits when taken into a bonded factory, in addition to any of the duties otherwise imposed upon every gallon of the strength of proof, 30 cents and in proportion for any greater or less strength and for any less quantity than a gallon.

Beer - The following excise duties apply to beer or malt liquor:

(a) Brewed in whole or in part from any substance other than malt, 22 cents per gallon.

(b) Upon all such beer in storage upon the first day of July 1934 whereon the duty of 15 cents per gallon imposed by section 198, chapter 60, R.S. 1927 has been paid 7 cents per gallon.

(c) Imported into Canada and entered for consumption, 7 cents per gallon.

(d) Brewed from duty-paid malt and in storage on July 1, 1934, 7 cents per gallon.

(e) Upon all unfermented wort (sweet wort) suitable for the brewing of beer in storage and unsold upon the first day of July 1934, 7 cents per gallon.

Malt - The excise duties on malt are as follows:

(a) Screened malt manufactured or produced in Canada, 6 cents per pound.

(b) Malt imported into Canada and entered for consumption, 6 cents per pound.

(c) Malt imported crushed or ground and entered for consumption, 8 cents per pound.

(d) On hand duty paid upon July 1, 1934, 3 cents per pound.

Malt Syrup - The rates on malt syrup suitable for the brewing of beer are:

(a) Manufactured or produced in Canada, 10 cents per pound.

(b) Imported into Canada and entered for consumption, 16 cents per pound.

(c) In storage and unsold on July 1, 1934, 13 cents per pound.

2/ The Excise Tax was levied for the first time on February 12, 1915; it was a stamp tax and amounted to about five cents a quart.

In May, 1920, the tax on wines was revised to provide for payment of \$2.00 per gallon on wines containing more than 40% of proof spirits, thirty cents per gallon on wines of all kinds except sparkling wines containing not more than 40% of proof spirits, and \$3.00 per gallon on champagne and all other sparkling wines.

Effective May 10, 1921, the taxes were altered to thirty cents per gallon on wines of all kinds except sparkling wines containing not more than 40% of proof spirits, and \$3.00 per gallon on champagne and all other sparkling wines.

In September, 1923, the rates were changed to seven and one-half cents per gallon on wines of all kinds except sparkling wines containing not more than 40% of proof spirits and \$1.50 on champagne and all other sparkling wines; the latter was reduced to 75 cents per gallon effective April 19, 1934.

The impost was assessed against the Canadian manufacturer but did not affect imports since May, 1921.

The tax on ale, beer, porter and stout was first levied on May 19, 1920 and was thirty cents per gallon. It was repealed in May, 1921, but re-enacted in May, 1922 at the rate of twelve and one-half cents per gallon.

The Excise tax on beer applied to both domestic production and imports.

On June 2, 1931, a special Excise tax of 1% was imposed on importations; on April 7, 1932, this was increased to 3%; effective April 19, 1934, this was reduced to 1½% on goods imported which are entitled to entry under British Preferential Tariff or under trade agreements between Canada and other British countries.

3/ Customs duties on spirits have been as follows: Prior to the war \$2.40 per gallon of proof spirits; increased to \$3.00 in August 1914; advanced to \$10.00 in May 1921. On October 13, 1932 the duty on spirits imported from Great Britain and Northern Ireland and from the Irish Free State was reduced from \$10.00 to \$8.00 per gallon. Rates on beers and wines vary for different items and cannot be quoted in detail here.

4/ Exclusive of sales tax. Revenue from this source cannot be given separately. The rates of the tax on wholesale and manufacturer's sales have been as follows: 1920, 1 p.c.; 1921 increased to 3 p.c.; 1922 increased to 6 p.c.; 1924 reduced to 5 p.c.; 1927 reduced to 4 p.c.; 1928 reduced to 3 p.c.; 1929 reduced to 2 p.c.; 1930 reduced to 1 p.c.; 1931 increased to 4 p.c.; 1932 increased to 6 p.c.

5/ For the fiscal years 1933 and 1934 these totals were made up as follows:-

<u>Non-Potable Spirits</u>	<u>Potable Spirits</u>	<u>Malt Liquor</u>
1933 \$ 881,029	1933 \$6,320,346	1933 ... \$302,539
1934 \$ 843,407	1934 \$6,333,106	1934 ... \$234,877

PRODUCTION AND STOCKS

Production figures on spirits and malt liquors, as given in Table 3, are taken from the reports of the Department of National Revenue to which the distillers, brewers and liquor warehouses are required to make regular reports. Data on the output of wine, Table 4, are taken from the Industrial Census reports. As the bulk of the spirits and part of the malt liquor goes into warehouses it has been considered necessary to show warehouse statistics in detail; these data, Tables 5, 6, and 7, also have been taken from the reports of the Department of National Revenue. The output of spirits has increased greatly during the past few years, but the gain has been accompanied by large increases in stocks in warehouses; on March 31, 1933 there were nearly 41 million proof gallons of spirits in warehouses.

† Includes in 1924, 240 gallons written off; in 1929, 8,244 gallons written off; in 1930, 11,342 gallons written off and 99 gallons ships stores; in 1931, 2,075 gallons ships stores; in 1932, 2,226 gallons ships stores; in 1933, 4 gallons written off, 1,507 gallons ships stores and 612 gallons removed to other ports; in 1934, 56 gallons written off.

Imports and Exports.

Data on imports and exports as shown in Tables 8 to 10 have been taken from the Bureau's reports on the Trade of Canada. It will be noted that the figures on exports of spirits do not agree with the warehouse exports given in Table 6; the latter cover only exports in bond.

Of course, no effort has been made to estimate smuggling or illegal traffic in liquor; and it is not possible to estimate the quantities carried across the border by tourists leaving the country.

APPARENT CONSUMPTION

It is not possible to obtain accurate figures on Canadian consumption of liquor. Except in Nova Scotia, Quebec, Ontario and Alberta, the Liquor Boards do not publish figures to show sales on a gallonage basis, and even were such data on quantity sales available for all provinces they would not necessarily represent Canadian consumption. For example, Canada's great tourist traffic must be considered for it is likely that the quantities carried away by individual tourists, when taken in total, would reach a considerable amount. Further, there is no definite information regarding the illegal traffic in liquor, though inquiry has revealed that such illicit business has reached fairly large proportions.

In Tables 11, 12 and 13 an attempt has been made to indicate separately the apparent consumption in Canada of spirits, malt liquors and wines. Obviously, these computations are subject to error for the reasons mentioned above, and also because no consideration has been given to increases or decreases in the quantities held in stock by the Boards or by licensees. For example, owing to exceptionally favourable conditions abroad the Liquor Boards may in certain years buy heavily to replenish stocks or create reserves; such purchases would unduly weight the apparent consumption figure for these years. The figures in these tables have been arrived at as follows:

Spirits. - Practically the total production of spirits is placed in bonded warehouses from where it is released for various purposes as indicated in Table 6 on Warehouse Transactions. The quantities shown as "Entered for Consumption" are released from warehouse, duty paid, presumably for consumption for beverage purposes in Canada. However, part of this may be exported. Under the heading "Exported in bond" in Table 6 there are given data to show the quantities shipped in bond (free of excise duty) to foreign countries. In Table 9, total exports are shown. It is assumed that the difference is made up from exports out of the quantities "Entered for Consumption". Accordingly the supply of spirits available in Canada for home consumption or for export must be the sum of the quantities shown under (a) Entered for Consumption; (b) Imports and (c) Exports in bond, and if the total domestic exports and re-exports of imported goods are deducted from this total the remainder indicates the apparent consumption in Canada.

Prior to 1922, the quantities included under the heading "Entered for Consumption", as shown in the reports of the Department of National Revenue, included non-potable as well as potable spirits. It is not possible to make the separation for earlier years and as data for such would not be comparable with those for 1922 and later years, only the latter have been shown in Table 11.

Malt Liquors. - Only a small part of the output of malt liquors is placed in warehouses. The available supply is, therefore, made up of (a) Production; (b) Changes in Warehouse stock; and (c) Imports, and by deducting the domestic exports and re-exports of imported goods from this total supply, it is possible to obtain a figure to show the apparent consumption in Canada.

Wines. - The apparent consumption of native wine is obtained by dividing the rates of excise tax into the total tax collections. This is believed to furnish a better measure of consumption than the method formerly used, i.e., to subtract the exports from the production, since part of each year's production is not consumed in that year but placed in storage for maturing. The apparent consumption of imported wines is arrived at by deducting from the imports into Canada, the re-exports of foreign supplies.

STATISTICS OF CRIME

Certain statistics of crime are reproduced herewith in view of their association in the popular mind with the consumption of liquor and in order that this aspect may be studied. As a preliminary to such a study Table 14 contains an estimate of population from 1901 to 1932. Such a table was considered necessary as a basis of any interpretation of the figures of liquor in association with Table 16, showing figures of crime. It will be obvious that certain ages are more closely connected with crime than other ages, and, that in recorded convictions for indictable offences, males between the ages of 20 and 39 years preponderate. In fact for every one crime per unit expected of the population at other ages, three crimes may be expected of males 20-39. Now the years between 1914 and 1918 were obviously abnormal from the point of view of the age and sex distribution of the population. Further, the ages of males 20-30, (especially 20-27 or 28) are of greatest preponderance among immigrant arrivals. The heavy immigration of 1901-1914 brought in an abnormally high proportion of males at these ages and the sudden stoppage of immigration at the beginning of the war, also the emigration of these arrivals, and the departure of Canadians for Overseas Service made heavy inroads upon the male population at 20-39.

In the scaling of population between 1901 and 1921 the remainder of the population was assumed to have increased in a normal manner. The males 20-39 were estimated separately from weights derived from:-

- (1) The actual male population (native and immigrant separately) at these ages at the censuses of 1901, 1911 and 1921;
- (2) The date of arrival of the immigrant population living in 1921;
- (3) The accumulation of immigrant arrivals up to each year between 1901 and 1921. For reference the figures of these arrivals are shown in Table 14.

The results are obviously only an estimate but they probably show the true trend of population growth during the years in question. It will be found that an index (see Table 15) compounded of the males 20-39 and of the rest of the population in which each unit of males 20-39 is given a weight of 3 and each unit of the rest of the population is given a weight of 1 varies remarkably closely with an index of indictable offences shown in Table 16, so closely as to indicate that the trend of crime shown in that table is a reflection of the increases and decreases in the population, especially of the sex and at the ages most closely connected with crime, and does not in or by itself and without internal analysis of the figures throw light on the causes of crime in general. Crimes definitely associated with the liquor traffic, such as illicit stills, driving while drunk, etc., are, of course, shown separately.

Table 14. - Population of Canada 1901 to 1932 estimated for intercensal years to show:

- (1) Males 20-39 years of age.
- (2) The remainder of the population; also the floating population of each year as indicated by the number of immigrant arrivals.

Population (in thousands)

MORTALITY STATISTICS

In Table 17 are shown statistics of deaths attributed to alcoholism for Canada and provinces over a period of years and likewise deaths due to cirrhosis of the liver. The latter, while of alcoholic origin in many instances, may be due, also, to causes in no way connected with alcoholism, hence a separate classification of deaths from cirrhosis, definitely specified alcoholic, is shown.

As with crime, the relation between alcohol consumption and disease and death is very complex and it is difficult to obtain conclusive evidence thereon. It is a common procedure to take deaths from alcoholism as a percentage of total deaths and to base on this an index of increase or decrease in deaths from alcoholism from year to year. This, however, may lead to wrong conclusions. For example, a decrease in the total number of deaths (owing perhaps to decreasing infant mortality) would increase the proportion of deaths attributed to alcoholism and conversely an increase in the total number of deaths (due to epidemics, war, etc.) would decrease the proportion of alcoholic deaths without proving either an increase in the amount of alcoholism in the one case or a decrease in the other. Again the degree of uniformity among doctors in reporting alcoholism as a cause of death is doubtful, especially when such is contributory only and other causes can be assigned. These are but a few of the difficulties confronting the student who seeks to obtain statistical evidence of the relation between alcoholism and disease and mortality and to compare this under different systems of sale and control of liquor.

In fact the compilation of deaths attributed to alcoholism is useful to the vital statistician and may even properly be used for comparisons in time and place and between geographical units if proper care is taken to allow for the influence of different bases of assignment, differences in the age and sex constitution of the population and such other factors extraneous to changes in drinking habits as may affect the rate. Most certainly comparisons of crude rates when isolated from other information are extremely questionable.
