MONTHLY INDEXES OF COUNTRY GENERAL STORE SALES, OCTOBER, 1946
(1935-1939=100)

Retail trading in Canada's country general stores increased 7 per cent in October, 1946 over the same month a year ago and moved 9 per cent higher than in the preceding month of September. The increase between October of this year and last was somewhat below the average increase in sales for the first ten months of this year over the same period of 1945 which amounted to 12 per cent. These results are based on figures supplied by 721 general merchants located in small communities and rural areas throughout the country. Unadjusted indexes (on the base 1935-1939=100) stood at 205.1 for October, 1946, 191.5 for October, 1945 and 188.6 for September, 1946.

Many sections of the country, most of them in western Canada, experienced substantial expansion in sales during October this year. British Columbia, Alberta, southern Saskatchewan and northern Ontario were areas in which the largest gains occurred, increases ranging from 10 to 17 per cent. Sales of stores operating in northern Saskatchewan showed a reduction of 1 per cent below October, 1945. Increases elsewhere fell within the limits of 3 to 7 per cent.
