Canada, by industry, by type of asset	
3 - Forestry and most of mining	6
4 - Manufacturing	8
5 - Utilities	12
6 - Trade, finance and commercial	15
7 - Institutions and government departments	18
8 - Machinery and equipment expenditure by province and territory, by type of asset	20

Appendix

Copy of General Questionnaire

Reporting Guide - General Questionnaire

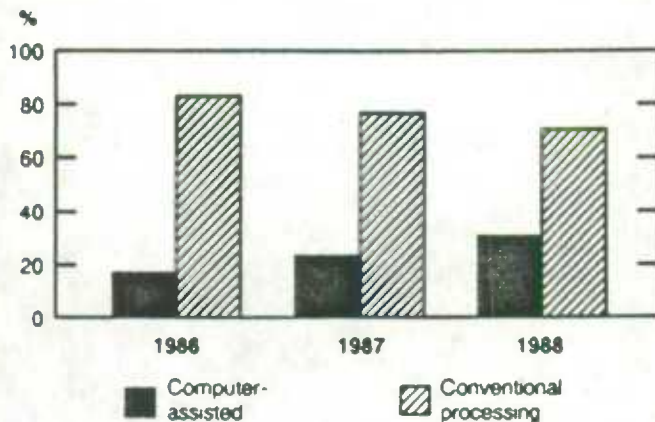

Asset Description and Codes

Highlights

Manufacturing

- Manufacturers spent \$2.8 billion (see table 3) on computer-assisted processing equipment in 1988, compared with the \$6.8 billion spent on conventional processing equipment. The portion spent on computer-assisted equipment (30%) has increased over the 1987 (23%) and 1986 (17%) levels.
- An increase of \$105.3 million (93%) spent on pollution abatement and control equipment raises the portion of total machinery and equipment expenditures devoted to pollution abatement and control to 2%, from 1% in 1987.

Processing Equipment in the Manufacturing Sector, Canada

Utilities

- Increased spending in the utilities sector (up 35% over 1987) was largely due to a \$974.7 million (159%) increase in expenditures on aircraft, helicopters, engines and parts. An increase of

Note to Users:

The private and public investment survey collects data for 30 different types of machinery and equipment assets for most sectors of the Canadian economy.

These data are now available for the 1988 survey for 54 industries, which represent 83% (see table 1) of the all-industry total of \$45.6 billion, published in *Private and Public Investment in Canada, Intentions 1990* (Daily - March 7, 1990). Comparable data are also available for 1985-1987. To complete the coverage, further industries will be added in succeeding years.

\$398.2 million (17%) in communication and related equipment was also reported.

Trade, Finance and Commercial

- Spending in this sector increased 9%, largely due to increased expenditures on automobiles by the commercial services industries, which were up 22% (\$785.8 million) to \$4,344.6 million.

Institutions and Governments

- Increases in spending by the institutions and governments sector were largely due to a \$130.7 million (22%) rise in expenditures on computer hardware and word processors.

Provinces and Territories

- New Brunswick (109%) and Alberta (74%) led spending increases on processing equipment in the manufacturing sector. All remaining provinces exceeded the national average of 15%, with the exception of Manitoba (14%), Quebec (5%) and Ontario (2%).

Any questions regarding this information or requests for additional data should be directed to John Foley (613-951-2591) or Jesus Dominguez (613-951-9816), Investment and Capital Stock Division. □

TO COMPLETE THE QUESTIONNAIRE CONSULT THE REPORTING GUIDE

Instructions, definitions and examples can be found in the Reporting Guide. Reading these before completing the questionnaire can save you both time and effort in filling out this survey.

USE OF DATA REPORTED:

Data collected in these surveys on capital and repair expenditures is included in the publications "Private and Public Investment in Canada - catalogue 61-206". These publications serve analysts interested in assessing the employment potential for labour, materials and services as a result of these expenditures for additions and maintenance of fixed assets (productive capacity) in any year in each industry in each province and territory. Totals are published in a format that safeguards confidentiality as required by the Statistics Act.

Legal Requirement:

The information sought in this questionnaire is collected under the authority of the Statistics Act. Everyone is required to provide this information.

Federal-Provincial Agreements to Share Information:

If this report is for operations in Newfoundland, Nova Scotia, New Brunswick, Quebec, Ontario, Manitoba, Saskatchewan, Alberta or British Columbia, please refer to special note on page 4 about arrangements for sharing of data with the statistical agencies of those provinces.

BACKGROUND INFORMATION

1. Principal operations covered by this report _____

2. Location covered by this report _____

3. Legal name of operation _____

		000.00	BOX D (613, 617 ... 649)

SECTION C: Reasons for Disposals/Sales of Fixed Assets (See Reporting Guide Page 1, Instruction 4)		% of Disposals/Sales Box C or D ¹
1. End of expected useful life		752
2. Damaged or Destroyed		753
3. Outdated technology		754
4. Energy inefficient		755
5. Assets no longer needed (surplus)		756
6. Other (specify major reason below)		757
		100%

¹ When box C and D are reported, provide percentages based on the Accumulated Capital Cost column.

SECTION D: Analysis of Capital Expenditures (See Reporting Guide Page 1, Instruction 4)		Non-Residential Construction % of Box A	Machinery and Equipment % of Box B
1. Capacity expansion and/or new installation		758	759
2. Replacement and/or modernization		760	761
3. Pollution abatement and control		762	763
4. Improvement to working environment (health, safety, security, etc.)		764	765
5. Reduction of energy costs		766	767
6. Other (specify major reasons)		768	769
		100%	100%

SECTION E: Detail of Expenditures for Fixed Assets * (See Reporting Guide Page 2)		Non-Residential Construction %	Machinery and Equipment %
If the percentage or expenditure is zero for a question, please check the applicable zero box <input checked="" type="checkbox"/>			
1. What is the percentage of interest payments capitalized included in Section A, Column 5 - Box A and B?		772 Zero <input type="checkbox"/>	773 Zero <input type="checkbox"/>
2. What is the percentage of Section A, Column 5 - Box A and Box B representing capital expenditures on assets acquired or manufactured for lease or rental to others?		774 Zero <input type="checkbox"/>	775 Zero <input type="checkbox"/>
3. What is the total value of your work in progress at year end? *		770 Zero <input type="checkbox"/>	771 Zero <input type="checkbox"/>
4. What was your total of rental or lease payments for the use of fixed assets whose title is held by other organization during the reporting period? *		776 Zero <input type="checkbox"/>	777 Zero <input type="checkbox"/>
5. What were the expenditures on items for buildings and other construction and for machinery, equipment and tools that were charged to current expenses rather than capitalized as part of fixed assets?		778 Zero <input type="checkbox"/>	779 Zero <input type="checkbox"/>
6. If in section A, you have reported capital expenditures for assets 6401-6499 (robotized/computerized-assisted), please report the number of robots added *			Units 780 Zero <input type="checkbox"/>

SECTION F: Changes in Capital Expenditures Plans (See Reporting Guide Page 1, Instruction 5)		Non-Residential Construction Box A	Machinery and Equipment Box B
From the expenditures reported previously on the Preliminary Estimates 1988			
1. Abandoned plans (indefinitely)		(781) <input type="checkbox"/>	(782) <input type="checkbox"/>
2. Deferred plans to future year(s)		(783) <input type="checkbox"/>	(784) <input type="checkbox"/>
3. Reduced the size of the currently planned project(s)		(785) <input type="checkbox"/>	(786) <input type="checkbox"/>
4. Expanded the size of the currently planned project(s)		(787) <input type="checkbox"/>	(788) <input type="checkbox"/>
5. Introduced additional project(s) into current plans		(789) <input type="checkbox"/>	(790) <input type="checkbox"/>
6. Project(s) ahead of schedule or completed		(791) <input type="checkbox"/>	(792) <input type="checkbox"/>
7. Project(s) behind schedule		(793) <input type="checkbox"/>	(794) <input type="checkbox"/>
8. Better information or revised reporting procedures		(795) <input type="checkbox"/>	(796) <input type="checkbox"/>
9. Other(s)		(797) <input type="checkbox"/>	(798) <input type="checkbox"/>

SECTION G: Gross Value of Fixed Assets - 1988 * (See Reporting Guide, page 2)		Gross Book Value (Accumulated Capital Cost)	Accumulated Depreciation
		800	XXXXXXXXXX XXXXXXXXXX
1 (a) Land		000 00	
(b) Residential Construction		802	803 000 00
		000 00	
2 (a) Non-Residential Construction		804	805 000 00
		000 00	
(b) Machinery and Equipment		806	807 000 00
		000 00	
TOTAL (SUM OF 2A + 2B)		808 000 00	809 000 00
		↑ 804 + 806	↑ 805 + 807

SECTION H: Capacity Utilization - Manufacturing Operations Only		%
		820
<p>For the year 1988, this plant operated at what percentage of its capacity?</p> <p>Capacity is defined as maximum production attainable under normal conditions. With regard to normal conditions, please follow the company's operating practices with respect to the use of productive facilities, overtime, workshifts, holidays, etc. When any of your facilities permit the substitution of one product for another, use a product mix at capacity which is most nearly similar to the composition of your 1988 output.</p>

COMMENTS

FEDERAL-PROVINCIAL AGREEMENTS TO SHARE INFORMATION: To avoid duplication of enquiry and to provide consistent statistics, this survey is being conducted under cooperative agreements, made in accordance with the Statistics Act, Statutes of Canada, 1970-71-72, Chapter 15 under Section 10 for the exchange of information with: the Newfoundland Statistics Agency, the New Brunswick Statistics Agency, the "Bureau de la statistique du Québec", the Statistical Agency of Ontario, the Manitoba Bureau of Statistics, the Saskatchewan Bureau of Statistics, the Alberta Bureau of Statistics, and the British Columbia Central Statistics Bureau, for respondents in each of the respective provinces; and under Section 11 for joint collection and sharing information with: the Prince Edward Island Department of Finance, the Nova Scotia Department of Development, Statistics and Research Services Branch, the Budget Planning and Economics Division of the Alberta Treasury, the Northwest Territories Bureau of Statistics and the Yukon Bureau of Statistics.

Agreements coming under Section 11 of the Canada Statistics Act shall not apply to any respondent who gives notice in writing to the Chief Statistician that he objects to the sharing of the information.

REPORTING GUIDE

Survey on Capital and Repair Expenditures

Actual 1988

GENERAL INSTRUCTIONS

1. REPORTS REQUIRED:

- (a) Reports are required for operations located in Canada.
- (b) Separate reports should be completed:
 - (1) by plant location for each type of manufacturing activity.
 - (2) by province for each type of non-manufacturing activity.

2. DOLLAR AMOUNTS AND PERCENTAGES:

- (a) All dollar amounts reported should be rounded to **THOUSANDS OF CANADIAN DOLLARS** (e.g.: \$8,555,400.00 rounded to \$8,555).
- (b) Percentages should be rounded. (e.g.: 37%, 76%, 94%)
- (c) Your **best estimates** are acceptable when precise figures are not available.
- (d) Shaded areas indicate that no response is required.
- (e) Pre-printed numbers 100 to 820 are for identification purposes.

3. DEFINITIONS:

The symbol * indicates that a definition is provided in the reporting guide.

4. QUESTIONS:

If any questions should arise during completion of this form,

— PLEASE CALL COLLECT the:

Capital Expenditures Section (613) 951-9815

— Telex — STAT CAN OTT 053 3585

5. FILING OF RETURN:

Please send the completed questionnaire in the enclosed envelope to:

— Science, Technology and
Capital Stock Division
Statistics Canada
Ottawa (Ontario) K1A 0T6

or

— Fax (813) 951-7473
(613) 952-1251

Capital Expenditures Section

Capital Stock Division

INSTRUCTIONS ON SECTIONS

PAGE 1

ORGANIZATION IDENTIFICATION

The printed label on page 1 indicates the most current identification of your organization on our files. Please use the appropriate space below the label to make any changes that would reflect a better description of your operations for this particular report.

LABEL INFORMATION

1. Type of Ownership

Ownership is defined as the level of government, person, group of persons, agency or incorporated body controlling more than 50% of the voting rights.

NOTE: Financial assistance (grants, subsidies, etc.) provided by any level of government to an enterprise and/or institution does not necessarily constitute ownership of that organization.

2. Your Fiscal Year End

For the purpose of this survey, please report expenditures for your 12 month fiscal period for which the FINAL DAY occurs between April 1, 1988 and March 31, 1989. The following are acceptable report periods:

May 1987 — April 1988(04/88) Aug. 1987 — July 1988(07/88)
June 1987 — May 1988(05/88) Sept. 1987 — Aug. 1988(08/88)
July 1987 — June 1988(06/88) Oct. 1987 — Sept. 1988(09/88)

Nov. 1987 — Oct. 1988(10/88) Feb. 1988 — Jan. 1989(01/89)
Dec. 1987 — Nov. 1988(11/88) Mar. 1988 — Feb. 1989(02/89)
Jan. 1988 — Dec. 1988(12/88) April 1988 — Mar. 1989(03/89)

PAGE 2

3. SECTION A COLUMN 1 AND SECTION B COLUMN 8:

- (a) For coding assets in Section A Column 1 and Section B Column 8, please refer to the Reporting Guide page 3.
- (b) If you have purchased more than one asset in a particular asset group, report them separately or combine the data and provide a weighted average.
- (c) The use of "Other" codes (i.e. ending in 99) is to be avoided, if possible.
- (d) In Section A, construction and machinery and equipment type of assets are separated. This is not necessary in Section B.
- (e) If more lines are required for Section A and/or B, please photocopy the relevant Section(s) and attach to questionnaire.

4. SECTIONS C AND D:

If your disposals/sales or capital expenditures were made for several reasons, they should be apportioned to each applicable reason. If this is not possible, the most important reason should be selected.

5. SECTION F "Changes in Capital Expenditures Plans":

Complete the section only if this report shows significant changes from the capital expenditures reported previously on the "Preliminary Estimate 1988" (green questionnaire). The intent of this section is to clarify the reason(s) for major changes in the capital expenditures reported and thereby reduce possible further inquiries.

DEFINITIONS

PAGE 2

SECTION A: Capital and Repair Expenditures

1. Capital Expenditures (columns 2, 3, 4 and 5)

New Assets, Renovation, Retrofit, includes both existing assets being upgraded and additions of new assets.

Report the **gross expenditures** (including subsidies) on fixed assets for use in the operations of your organization or for lease or rent to others. Include all capitalized costs such as feasibility studies, architectural, legal, installation and engineering fees as well as work done by your own labour force. Capitalized interest charges on loans with which capital projects are financed should be included.

EXCLUDE: If you are capitalizing your leased fixed assets as a lessee in accordance with the Canadian Institute of Chartered Accountants recommendations please **exclude** the total of the capitalization of such leases during the year from capital expenditures.

Column 3 - Purchase of Used Fixed Assets

Definition: Used fixed assets may be defined as existing buildings, structure or machinery and equipment which have been previously used by another organization in Canada that you have acquired during the time period being reported on this questionnaire.

Explanation: The objective of our survey is to measure gross annual new additions to fixed assets separately from the acquisition of gross annual used fixed assets in the Canadian economy as a whole.

Hence, the acquisition of a **used fixed asset** from within Canada should be reported separately since such acquisition would not change the aggregates of our domestic inventory of fixed assets, it would simply mean a transfer of assets within Canada from one organization to another.

Imports of Used Assets, on the other hand, should be included with the New Assets columns because they are newly acquired for the Canadian economy.

2. Land

Capital expenditures for land should include all costs associated with the purchase of the land that are not amortized or depreciated.

3. Residential Construction (excluding land)

Report the value of residential structures including the housing portion of multi-purpose projects and of townships with the following **EXCEPTIONS**:

- (1) buildings that have accommodation units without self-contained or exclusive use of bathroom and kitchen facilities (e.g. some student and senior citizen residences),
- (2) the non-residential portion of multi-purpose projects and of townships,
- (3) associated expenditures on services.

The exceptions should be included in the appropriate construction (i.e. non-residential) asset.

4. Capital Expenditures for Non-Residential Construction (excluding land and residential construction)

Report the total cost incurred during the year of building and engineering construction (contract and by own employees) whether for your own use or rent to others. Include also:

- (1) the cost of demolition of buildings, land servicing and of site preparation,
- (2) leasehold and land improvements,
- (3) township facilities, such as streets, sewers, stores, schools,
- (4) oil or gas pipelines, including pipe and installation costs,
- (5) all preconstruction planning and design costs such as engineering and consulting fees and any materials supplied to construction contractors for installation.

5. Capital Expenditures for Machinery and Equipment

Report total cost incurred during the year of all new machinery, whether for your own use or for lease or rent to others. Any capitalized tooling should also be included. Include progress payments paid out before delivery in the year in which such payments are made. Receipts from the sale of your own fixed assets or allowance for scrap or trade-in should not be deducted from your total capital expenditures. Any balance owing or hold-backs should be reported in the year the cost is incurred. (See **EXCLUDE** under Definitions no. 1.)

6. Expected Useful Life of Assets (column 6)

Column 6 requires the number of years of expected useful life for new assets reported in Column 2 and/or 4 regardless of their lives used for income tax purposes. If you have purchased similar assets with varying lives, report them separately or combine the data and provide a weighted average.

7. Expected Remaining Useful Life of Assets (column 7)

Column 7 requires the number of years expected to remain in the life of the used assets reported in column 3 at the time of acquisition. If you have purchased similar assets with varying lives, report them separately or combine the data and provide a weighted average.

8. Non-Capitalized Repair and Maintenance Expenditures (No. 1)

Report the **gross** non-capitalized repair expenditures on non-residential buildings, other structures and on machinery. Include the value of repair work done by your own employees, as well as payments to persons outside your employ. Maintenance expenditures may also include the routine care of assets such as janitorial service, snow removal, salting and sanding, oil change and lubrication of vehicles and other machinery. This question represents non-capitalized expenditures in contrast to the capitalized expenditures of column 4 (Renovation, Retrofit, Refurbishing, Overhauling, Rehabilitation).

PAGE 3

SECTION B: Disposals/Sales of Fixed Assets

Report those fixed assets which are disposed, sold, retired, destroyed or otherwise discarded and also traded in for credit in the acquisition or purchase of new fixed assets. When land and buildings are sold together, please report the selling price of the land separately (Column 9, data cell 604) along with other land sales.

If you have disposed sold similar assets with varying lives, report them separately or combine the data and provide a weighted average.

1. **Accumulated Capital Cost** (column 10) should represent total capital expenditures for an asset at and since the time of construction or purchase including capital expenditures for the purposes of modernization, expansion, etc. Any subsidies received should not be subtracted.

SECTION E: Detail of Expenditures for Fixed Assets

1. Work In Progress (Question 3)

Work in progress represents accumulated or accrued costs on capital projects not completed and which are intended to be capitalized upon completion.

2. Annual Leasing or Rental Payments (Question 4)

This item represents the total amounts spent on leasing or rental payments on fixed assets from other organization during the reporting period.

3. Robots (Question 6)

Robot is defined as a machine capable of performing the versatile movement resembling those of the limbs of a human being or having sensory and recognition capacity and being capable of controlling its own behavior.

PAGE 4

SECTION G: Gross Value of Fixed Assets - End of 1988

Please report the accumulated capital cost and accumulated depreciation of all fixed assets still in productive use. If residential construction and non-residential construction cannot be reported separately please estimate the values for each. If it is not possible to make reasonable estimates then enter the figure under the heading which represents the majority of the assets and please make a note of this in the comments section.

ASSET DESCRIPTION AND CODES

The asset items and categories listed below are groupings of fixed assets generally having a similar function which can apply to various industries.

- a) Construction structures should be classified to an asset according to its principal use unless it is a multi-purpose structure where we would like you to separate the components. The cost of any machinery and equipment which is an integral or built-in feature of the structure (i.e. elevators, heating equipment, sprinkler systems, environmental controls, intercom systems, etc.) should be reported as part of that structure as well as landscaping, associated parking lots, etc.
- b) Machinery and equipment which are housed in structures and which can be removed or replaced without significantly altering the structure should be reported separately. Computers for administration and educational purposes should be reported under asset code 6002. All other computer related machinery and equipment should be reported under asset codes 6401 to 6499.
- c) Robotized/Computerized-Assisted Assets are assets that possess the ability to be programmed for a wide variety of functions and, to a degree, adjust their behavior in response to changes in their physical environment. Includes robots, numerically controlled machine tool equipment and individual computerized machines.

Example: Your organization has had a new office building built during the reporting period, and the construction cost was \$8,555,400.00. The useful life of this new asset is expected to be 40 years. The reporting of the information in Section A would be as follows:

	(1)	\$'000 (2)	\$'000 (3)	\$'000 (4)	\$'000 (5)	Years (6)	Years (7)
111	1 0 1 3	8,555			8,555	40	

CONSTRUCTION				MACHINERY AND EQUIPMENT			
CODE	INDUSTRIAL AND COMMERCIAL	CODE	MARINE	CODE	GENERAL MACHINERY AND EQUIPMENT		
1001	Plants for manufacturing, processing and assembling goods	2001	Docks, wharves, piers, terminals (coal, oil, natural gas, container, general cargo)	6001	Office furniture, furnishings (e.g. desks, chairs, book shelves) and machines (e.g. calculators, typewriters, photocopiers). NOTE: Communication equipment should be reported in 6403 or 6603.		
1002	Oil refineries	2002	Dredging and pile driving	6002	Computers, associated hardware including software and word processors excluding computers for production process (see asset code 6402).		
1003	Natural gas processing plants	2003	Breakwaters	6003	Non-office furniture, furnishings and fixtures (e.g. recreational equipment, restaurant/kitchen equipment, furnishings in hospitals, stores and hotels).		
1004	Laboratories, research and development centres	2004	Canals and waterways	6004	Scientific, professional and medical devices (including measuring, controlling and laboratory equipment).		
1005	Pollution abatement and control	2005	Irrigation and land reclamation projects	6005	Heating, electrical, plumbing, air conditioning and refrigeration equipment (additions only, see instruction above).		
1006	Warehouses, refrigerated storage, freight terminals	2099	Other marine construction	6006	Pollution abatement and control equipment.		
1007	Grain elevators and terminals		TRANSPORTATION	6007	Safety and security equipment (includes firearms).		
1008	Maintenance garages, workshops, equipment storage facilities	2201	Passenger terminals - air, boat, bus, rail and other	6008	Sanitation equipment.		
1009	Railway shops, engine houses	2202	Highways, roads, streets including logging roads (also include signs, guardrails, lighting, landscaping, sidewalks, fences).	6009	Motors, generators, transformers, turbines, compressors and pumps of all types (additions only, see instruction above).		
1010	Aircraft hangars	2203	Runways including lighting	6010	Heavy construction equipment (e.g. loading, hauling, mixing, paving, grading).		
1011	Service stations (including self-serve and car washes)	2204	Rail track and roadbeds including signals and interlockers	6011	Tractors of all types and other field equipment (truck tractors - see asset code 6203 below).		
1012	Automotive dealerships	2205	Bridges, trestles, overpasses	6012	Capitalized tooling and other tools (hand, power, industrial).		
1013	Office buildings	2206	Tunnels	6013	Drilling rigs.		
1014	Hotels, motels, convention centres	2299	Other transportation	6014	Salvage equipment.		
1015	Restaurants, fast food outlets, bars, nightclubs		WATERWORKS	6015	Industrial containers (transportable types used for transporting materials, liquids and gases).		
1016	Shopping centres, plazas, malls, stores	2401	Reservoirs (including dams)		TRANSPORTATION EQUIPMENT		
1017	Parking lots and parking garages	2402	Trunk and distribution mains	6201	Automobiles and major replacement parts.		
1018	Theatres, performing arts and cultural centres	2499	Other waterworks construction	6202	Buses (all types) and major replacement parts.		
1019	Indoor recreational buildings such as sport complexes, clubhouses, covered stadiums		SEWAGE SYSTEMS	6203	Trucks, vans, truck tractors, truck trailers and major replacement parts.		
1020	Outdoor recreational facilities such as parks, open stadiums, golf courses and ski resorts	2601	Sewage treatment and disposal plants including pumping stations	6204	All-terrain vehicles and major replacement parts.		
1021	Farm buildings	2602	Sanitary and storm sewers, trunk and collection lines, open storm ditches and laterals	6205	Locomotives, rolling stock, street and subway cars, other rapid transit and major replacement parts.		
1099	Other industrial and commercial	2603	Lagoons	6206	Ships and boats and major replacement parts.		
	INSTITUTIONAL AND GOVERNMENTAL	2699	Other sewage system construction	6207	Aircraft, helicopters, aircraft engines and other major replacement parts.		
1201	Schools (including technical, vocational), colleges, universities and other educational buildings		ELECTRIC POWER	6299	Other transportation equipment.		
1202	Student residences (exclude residential construction)	2801	Electric power construction		ROBOTIZED/COMPUTERIZED-ASSISTED PROCESS MACHINERY AND EQUIPMENT		
1203	Churches and other religious buildings	3001	Broadcasting and communication buildings	6401	For material handling.		
1204	Hospitals, health centres, clinics and other health care (exclude residential construction)	3002	Telephone and cablevision lines, underground and marine cables	6402	For the production process.		
1205	Nursing homes, homes for the aged	3003	Communication towers, antennae, earth stations including dishes for satellite receiving, microwave relay	6403	For all types of communication systems (radio, television, telephone, microwave and cable).		
1206	Day care centres	3099	Other communication	6499	Other robotized/computerized-assisted process machinery and equipment.		
1207	Libraries		OIL AND GAS WELLS, STORAGE AND DISTRIBUTION		CONVENTIONAL (non-robotized/non-computerized-assisted)		
1208	Historical sites	3201	Gas mains and services	6601	For material handling (e.g. lift truck).		
1209	Penitentiaries, detention centres and courthouses	3202	Pumping stations, oil	6602	For the production process.		
1210	Museums, science centres, public archives	3203	Pumping stations, gas	6603	For communication systems (radio, television, telephone, microwave and cable).		
1211	Fire stations, halls	3204	Bulk storage tanks		OTHER MACHINERY AND EQUIPMENT		
1212	Post offices	3205	Oil pipelines	8999	Other machinery and equipment (not specified elsewhere).		
1213	Waste disposal facilities	3206	Gas pipelines				
1214	Armouries, barracks, drill halls and other similar military type structures	3299	Other oil and gas facilities				
1299	Other institutional and governmental		OTHER CONSTRUCTION				
		5999	Other construction (not specified elsewhere)				

ASSET DESCRIPTION AND CODES — Mining

The asset items and categories listed below are groupings of fixed assets generally having a similar function which can apply to various industries

- a) **Construction** structures should be classified to an asset according to its principal use unless it is a multi-purpose structure where we would like you to separate the components. The cost of any machinery and equipment which is an integral or built-in feature of the structure (i.e. elevators, heating equipment, sprinkler systems, environmental controls, intercom systems, etc.) should be reported as part of that structure as well as landscaping, associated parking lots, etc.
- b) **Machinery and equipment** which are housed in structures and which can be removed or replaced without significantly altering the structure should be reported separately. Computers for administration and educational purposes should be reported under asset code 6002. All other computer related machinery and equipment should be reported under asset codes 6401 to 6499.
- c) **Robotized/computerized assisted assets** are assets that possess the ability to be programmed for a wide variety of functions and, to a degree, adjust their behavior in response to changes in their physical environment. Includes robots, numerically controlled machine tool equipment and individual computerized machines.

Example: Your company has had a core storage built during the reporting period, and the construction cost was \$8,000,000.00. The useful life of this new asset is expected to be 40 years. The reporting of the information in Section 2 would be as follows:

	(1)	\$ (2)	\$ (3)	\$ (4)	\$ (5)	Years (6)	Years (7)
194	1 0 0 6	195 8,000,000	196	197 -	198 8,000,000	199 40	200

CONSTRUCTION		MACHINERY AND EQUIPMENT	
CODE	INDUSTRIAL AND COMMERCIAL	CODE	GENERAL MACHINERY AND EQUIPMENT
1005	Pollution abatement and control	6001	Office furniture, furnishings (e.g., desks, chairs, book shelves) and machines (e.g., calculators, typewriters, photocopiers) N.B. Communication equipment should be reported in 6403 or 6603
1006	Warehouses, refrigerated storage, freight terminals	6002	Computers, associated hardware including software and word processors excluding computers for production process
1008	Maintenance garages, workshops, storage facilities	6003	Non-office furniture, furnishings and fixtures (e.g., recreational equipment, restaurant/kitchen equipment)
1013	Office buildings	6004	Scientific, professional and medical devices (including measuring, controlling and laboratory equipment)
1022	Bunkhouses, dormitories, camp cookeries, camps	6005	Heating, electrical, plumbing, air conditioning and refrigeration equipment (additions only, see instruction above)
1099	Other industrial and commercial	6006	Pollution abatement and control equipment
	MARINE CONSTRUCTION	6007	Safety and security equipment (e.g., mine lamps, self rescuers)
2001	Docks, wharves, piers, terminals (coal, oil, natural gas, container, general cargo)	6009	Motors, generators, transformers, turbines, compressors and pumps of all types (e.g., dewatering pumps) (additions only, see instruction above)
2099	Other marine construction	6010	Heavy mining equipment (e.g., tunnel boring, longwall cutters, mining machine, roofbolting machine)
	TRANSPORTATION	6011	Tractors of all types and other field equipment (truck tractors - see asset code 6203 below)
2202	Highways, roads, streets, including logging roads (also include signs, guardrails, lighting, landscaping, sidewalks, fences)	6012	Capitalized tooling and other tools (hand, power, industrial)
2204	Rail track and roadbeds including signals and interlockers	6013	Drilling and blasting (e.g., jumbos, jack-leg, down the hole, rock breakers)
2299	Other transportation	6015	Industrial containers (transportable type used for transporting materials, liquids and gases)
	WATERWORKS	6027	Raise borers, raise climbers
2402	Trunk and distribution mains	6028	Underground load, haulage and dump equipment (e.g., slusher, muck cars)
2412	Water pumping stations and filtration plants	6029	Mine hoists, cages, ropes and skips
2413	Water storage tanks		TRANSPORTATION EQUIPMENT
