**PRELIMINARY REPORT ON THE CONSTRUCTION INDUSTRY IN CANADA, 1947**

(CENSUS OF CONSTRUCTION FIGURES REFER TO "ON SITE" OPERATIONS ONLY AND DO NOT INCLUDE STATISTICS OF THE MANUFACTURE OF BUILDING OR OTHER MATERIALS.)

A preliminary report of Construction operations performed by GENERAL-, TRADE- and SUB-CONTRACTORS and OWNER-BUILDERS during the year 1947 and containing all completed reports received in this office as at the 31st of May, 1948, is presented herewith.

Completed reports received by the end of May totalled 19,688 which represents an increase of 1,378 from the number received during the same period of last year. A considerable number of reports were received from owner-builders and amounts have been included in all tables. However, although these increase the number of reports received, the comparatively small extent of their operations does not appreciably affect other totals. The value of work reported amounted to \$803,646,177, \$675,595,831 of which represented new construction, while the remaining \$128,050,346 referred to additions, alterations and repairs. Corresponding figures for 1946 were total value \$523,187,216, \$367,704,887 for new construction and \$155,482,329 for repairs, etc.

The cost of materials used was \$430,110,948 in 1947 and \$281,282,363 in 1946.

The average number of wage-earners reported in 1947 totalled 120,514 compared with 88,924 in 1946, and wages paid for the respective years were \$233,464,930 and \$154,229,456. Salaried employees in 1947 were reported as 28,811 and their earnings \$59,777,829 in comparison with 23,638 wage-earners and salaries of \$43,629,328 in 1946. Total of employees reported in 1947 was 149,325 with salaries and wages amounting to \$293,242,759 while the respective figures for 1946 were 112,562 employees and \$197,858,784 salaries and wages.

Due to the varying numbers of returns received by May 31st each year, it is difficult to estimate final figures on the basis of returns already received. Table 2, therefore, gives only a comparison of the preliminary and final figures for 1946, together with the percentages of the preliminary to the final figures. No final estimate of the work performed by the general-, trade- and sub-contractors and owner-builders is shown for 1947.

Table 3 of the report contains a detailed description, classification and value of work performed during 1946 and 1947 by all General-, Trade- and Sub-contractors and Owner Builders. Table 4 is similar, but contains work performed by Sub-contractors only.

Table 5 shows the average monthly employment of wage-earners by provinces for the two years, together with the amounts of wages paid in each province.

The remaining tables of the report are devoted to provincial statistics, that is, the classifications and values of work by all groups are shown for each province in detail.
