## INTRODUCTION

### Purposes and Data Sources

Hospital statistics constitute part of the essential requirements of several federal departments as well as the various provincial departments of health and welfare. Hospital expenditures represent a significant component of the Gross Domestic Product figures. The data are further used for the administration, evaluation and planning of major provincial and federal programs as well as satisfying many of the needs of hospital administrators, researchers and large special interest groups in the community.

The target universe is all public, private and federal hospitals operating in the ten provinces and two territories.

Data collected are on beds and patient movement, ambulatory care, diagnostic and therapeutic services, administrative and support services, personnel, expenditures and income. Tables are available in summary (Hospital Annual Statistics) or indicator (Hospital Indicators) format by province, type and size of hospital.

### But et sources de données

La statistique hospitalière constitue un élément d'information essentiel à plusieurs ministères fédéraux et aux ministères provinciaux de la santé et du bien-être. Les dépenses des hôpitaux sont une importante composante du produit intérieur brut. Les données servent également à l'administration, à l'évaluation et à la planification des principaux programmes provinciaux et fédéraux et répondent à un bon nombre de besoins des directeurs des hôpitaux, des chercheurs et des grands groupes d'intérêts spéciaux de la collectivité.

L'univers visé est l'ensemble des hôpitaux publics, privés et fédéraux en activité dans les dix provinces et les deux territoires.

On réunit des données sur les lits et le mouvement des malades, les soins ambulatoires, les services diagnostiques et thérapeutiques, les services d'administration et de soutien, le personnel, les dépenses et les revenus. Les tableaux sont présentés sous forme de sommaires (La statistique annuelle des hôpitaux) ou d'indicateurs (Indicateurs des hôpitaux) selon la province et selon le genre et la taille de l'hôpital.

## METHODOLOGY

### Data Collection

The survey of Health Care Facilities - Hospitals is a mandatory annual survey, included under the jurisdiction of the Statistics Act in 1918, encompassing all facilities in Canada licensed to operate as hospitals. These facilities are licensed by provincial ministries of health and federal government departments. The survey was made annual in 1932 and periodically reviewed at the request of Health Canada and the provinces to meet new requirements for administration, analysis, policy planning and decisions on new programs. Statistics Canada has been responsible for the design of the forms and for the processing and dissemination of the data and the update and maintenance of the program.

Quebec, Alberta, British Columbia and Ontario use their own reporting form. Hospitals in other provinces complete a 28 page document which is returned to Statistics Canada via the provincial ministries of health. Forms are mailed to the provinces who in turn send them to the hospitals. This takes place in mid-March. By the end of June the first complete reports are returned to Statistics Canada. It can take up to 24 months to receive all the data. Provinces have the option of returning the reporting forms to Statistics Canada or sending the data on magnetic tape. At the present time, Quebec, Ontario, Alberta and British Columbia choose to report on tape.

### Data Definition

The statistical data collected adheres to the Instructions and Definitions Parts I and II developed for the reporting of hospitals to Statistics Canada. Uniform accounting information is available from hospitals as a result of the acceptance of the Canadian Hospital Accounting Manual (CHAM) for reporting under the federal and provincial hospital insurance program.

The definitions of terms for the hospital database are as follows:

#### Hospital

Is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions.

#### Type of Hospital

**Public (including voluntary, provincial and municipal).** Applies to a hospital recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

## MÉTHODOLOGIE

### Collecte des données

L'enquête sur les établissements de santé - hôpitaux est une enquête annuelle obligatoire en vertu de la Loi sur la statistique de 1918 et elle englobe tous les établissements au Canada qui possèdent une licence pour exploiter un hôpital. La licence est accordée par les ministères provinciaux de la santé et les ministères fédéraux. L'enquête est devenue annuelle en 1932. Elle est revue périodiquement à la demande de Santé Canada et des provinces afin de répondre aux nouvelles exigences relatives aux nouveaux programmes, soit leur administration et leur analyse ainsi que l'élaboration des politiques et la prise de décisions les concernant. Statistique Canada est responsable de la conception des formulaires, du traitement et de la diffusion des données et, enfin, de la mise à jour et du maintien du programme.

Le Québec, l'Alberta, la Colombie-Britannique et l'Ontario utilisent leur propre formulaire de déclaration. Les hôpitaux des autres provinces remplissent un document de 28 pages qu'ils retournent à Statistique Canada par l'intermédiaire du ministère de la santé de leur province. À la mi-mars, les formulaires sont envoyés par la poste aux ministères provinciaux qui les transmettent à leur tour aux hôpitaux. À la fin de juin, Statistique Canada reçoit les premiers rapports remplis. Il peut s'écouler jusqu'à 24 mois avant que Statistique Canada n'ait reçu tous les données. Les provinces ont le choix entre remplir les formulaires de déclaration ou envoyer les données sur ruban magnétique. À l'heure actuelle, le Québec, l'Ontario, l'Alberta et la Colombie-Britannique fournissent les données sur ruban magnétique.

### Définition des données

Les données statistiques réunies sont conformes aux Directives et définitions, 1<sup>re</sup> et 2<sup>e</sup> parties, élaborées en vue de la déclaration que fournissent les hôpitaux à Statistique Canada. Les renseignements comptables sont uniformes car les hôpitaux se servent du Manuel de comptabilité des hôpitaux du Canada (MHC) pour leur déclaration, conformément aux programmes d'assurance-hospitalisation fédéral et provinciaux.

Les définitions utilisées pour la base de données sur les hôpitaux sont les suivantes:

#### Hôpital

Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que des services diagnostiques et thérapeutiques d'appoint, et qui est enregistré ou reconnu comme hôpital par une province ou est administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

#### Genre d'hôpital

**Hôpital public (s'applique aux hôpitaux sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux).** Hôpital reconnu par la province comme "public". Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

**Proprietary.** Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the province as a "proprietary hospital".

**Federal.** Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

#### Type of Unit

**Short-term units - Adults and children.** Are those inpatient units provided for patients who, at the time of admission, require diagnostic and therapeutic services and/or skilled nursing care and medical attention.

#### Type of Service

##### General

**No long-term units.** Refers to a hospital which provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries. The services of a general hospital are not restricted to a specific age group or sex.

**With long-term units.** Refers to a general hospital with a group of beds or rooms or a separate wing or building for long-term care, which is recognized as a distinct and separate treatment unit of the hospital. Admission normally requires formal admission procedures even when a patient is transferred from another part of the same hospital.

**Teaching hospital.** Applies to a hospital which provides medical education programs, approved by the appropriate authorities, for the major clinical instruction in at least the medical disciplines of internal medicine and general surgery to undergraduate medical students in their final two years.

##### Allied Special Hospitals

**Specialty.** Applies to a hospital which provides primarily for the diagnosis and short-term treatment of patients for a limited range of diseases or injuries, or a broad range of services to a specific age group.

Pour y être admis, il faut en général remplir les formalités de demande d'admission, même s'il s'agit d'un transfert d'un malade d'un autre quartier du même hôpital.

**Hôpital d'enseignement.** Hôpital qui offre des programmes d'enseignement, dûment approuvés par les autorités compétentes, pour la formation clinique principale des étudiants effectuant leurs deux dernières années d'étude dans des disciplines médicales, dont la médecine interne et la chirurgie générale.

- (c) an integrated combination of (a) and (b);
- (d) procedures using other equipment, e.g., ECG, etc. when done by the staff of the radiology department.

**Surgical suite and ambulatory therapy care units.** A visit is defined as one attendance of a patient, for a continuous period of time, during which operation(s), treatment(s), or examination(s) are performed.

**Physiotherapy and occupational therapy attendances.** An attendance day is only recorded when the patient receives direct patient care on that day. Where a patient was provided only indirect care on a given day, no attendance day is recorded for that patient that day. (Indirect patient care are those activities which support or supplement diagnosis, evaluation or treatment for which the presence of the patient is not required.) Each patient is assigned only one attendance day for each 24 hour treatment day, even though the patient:

- may have attended the department more than once during the day;
- may have been treated on the inpatient unit more than once during the day;
- may have been treated both in the department and on an inpatient unit during the one day;
- may have been treated during the day in several areas of the department by several staff members, e.g., pool, gymnasium, electrotherapy area, etc.

#### Personnel

**Full-time.** Refers to persons employed on a full-time basis, i.e. regularly employed throughout the department's full workweek.

**Part-time.** Refers to persons employed on a part-time basis, i.e. regularly employed on selected days or partial days in the department's workweek.

**Unité de laboratoire.** Mesure du travail fait en laboratoire: une unité équivaut à une minute de travail technique, de travail de bureau ou de travail auxiliaire consacré à la production des résultats de tests subis par les malades.

**Radiologie.** Un examen radiologique est défini comme étant une seule opération diagnostique, effectuée pendant une visite du malade, à l'aide d'un des procédés suivants:

- (a) examen fluoroscopique ou examen par amplificateur de brillance;
- (b) production d'un ou de plusieurs clichés radiographiques;
- (c) une combinaison de (a) et (b);
- (d) examens faits à l'aide d'autres appareils (l'ECG par exemple) par le personnel du service de radiologie.

**Bloc opératoire et unité de soins thérapeutiques aux malades ambulatoires.** Une visite est définie comme étant une présence d'un malade pour une durée continue, pendant laquelle une (des) intervention(s), un (des) traitement(s) ou un (des) examen(s) sont effectués.

**Visites au service de physiothérapie et d'ergothérapie.** Un jour de visite est inscrit seulement lorsque le malade reçoit des soins directs pendant ce jour-là. Lorsqu'un malade n'a reçu que des soins indirects un jour donné, on n'inscrit pas de jour de visite pour ce malade. (Les soins indirects aux malades sont les activités venant soutenir ou compléter le diagnostic, l'évaluation ou le traitement pour lesquels la présence du malade n'est pas nécessaire). La visite d'un malade n'est comptée qu'une seule fois pour chaque 24 heures de traitement, même si le malade:

- s'est rendu au service plus d'une fois durant la journée;
- est traité à l'unité d'hospitalisation plus d'une fois durant la journée;
- est traité au service de même qu'à l'unité d'hospitalisation durant la journée;
- est traité durant la journée dans plusieurs secteurs (piscine, gymnase, électrothérapie, etc.) du service par différents employés du service.

#### Personnel

**À temps plein.** Personnes employées à temps plein, c'est-à-dire employées régulièrement pendant toute la semaine de travail du service.

**À temps partiel.** Personnes employées à temps partiel, c'est-à-dire employées régulièrement certains jours ou certaines plages de la journée durant la semaine de travail du service.

**Paid hours.** Include those for all full-time, part-time and casual employees excluding the medical staff of the hospital who, during the year, have had salaries or wages payable to them by the hospital. Hours covering paid holiday time and other paid leave are to be included for all categories of personnel.

### Operating Expense

The cost, on an **accrual basis** of operating and maintaining the hospital during the year.

**Gross salaries and wages including all medical staff remuneration.** These are distributed to two sub-categories:

**Medical staff.** Includes all types of hospital remuneration earned during the year by paid medical staff, i.e. salaries, wages, fees, contract rates, honorarium, etc.

**Other gross salaries and wages.** Includes gross salaries and wages earned during the year by all other staff including non-medical teaching staff and regular employees involved in extramural or on-the-job training.

**Employee benefits.** The facility's contribution to the cost of various fringe benefits provided to its employees. These do not include perquisites such as room and board provided for employees, which are a part of salaries and wages.

**Supplies and other expenses.** These are distributed to three sub-categories:

**Supplies and other expenses (excluding medical and surgical supplies and drugs).** Includes all of the hospital's operating expenses other than gross salaries and wages and excluding the cost of medical and surgical supplies, drugs and employee benefits.

**Medical and surgical supplies.** Items used in the treatment and examination of patients such as sutures, dressings, clinical thermometers, sterile supplies, catheters, needles and syringes, etc.

**Drugs.** All drugs, as well as medicines, anesthetic gases, oxygen and other medical gases, intravenous solutions, etc.

### Operating Income

Operating income is the revenue that accrues during the year for the purpose of operation and maintenance of the hospital.

**Gross income.** This includes the amounts earned by the hospital for the rendering of services to patients. These amounts are represented by the regular income earned by the hospital for such services, regardless of the terms of any special contract, agreement, or understanding as to the basis of rates to be paid.

**Heures rémunérées.** Comprend les heures des employés à temps plein ou partiel et des employés occasionnels dont les traitements et les salaires, durant l'année, ont été rémunérés par l'hôpital, à l'exclusion du personnel médical de l'hôpital. Les heures pour les vacances et les autres congés rémunérés de toutes les catégories d'employés sont comprises.

### Dépenses d'exploitation

Les dépenses d'exploitation et d'entretien de l'hôpital au cours de l'année, établies d'après la **comptabilité d'exercice**.

**Rémunération brute, y compris la rémunération du personnel médical.** Est divisée en deux sous-catégories:

**Rémunération du personnel médical.** Comprend tous les genres de rémunération versée par l'hôpital et gagnée au cours de l'année par le personnel médical, c.-à-d. traitements, salaires, honoraires, gains provenant d'un contrat, etc.

**Autre rémunération brute.** Comprend la rémunération brute gagnée durant l'année par tous les autres membres du personnel, y compris le personnel enseignant non médical et les employés permanents recevant une formation à l'extérieur ou une formation en cours d'emploi.

**Avantages sociaux.** Contribution de l'hôpital aux avantages sociaux dont bénéficient les employés. Ne comprennent pas les avantages indirects, tels le logement et la nourriture, qui sont intégrés aux traitements et salaires.

**Fournitures et autres dépenses.** Sont divisées en trois sous-catégories:

**Fournitures et autres dépenses (sauf les fournitures médicales et chirurgicales, et les médicaments).** Comprend toutes les dépenses d'exploitation de l'hôpital autres que la rémunération brute, le coût des fournitures médicales et chirurgicales, les médicaments et les avantages sociaux.

**Fournitures médicales et chirurgicales.** Articles utilisés pour le traitement et l'examen des malades, comme les fils de suture, les pansements, les thermomètres médicaux, les articles stériles, les cathéters, les aiguilles et les seringues.

**Médicaments.** Tous les médicaments ainsi que les remèdes, les gaz anesthésiques, l'oxygène et autres gaz médicaux, les solutions intraveineuses, etc.

### Revenu d'exploitation

Les revenus d'exploitation sont les revenus qui s'accumulent durant l'année aux fins de l'exploitation et de l'entretien de l'hôpital.

**Revenu brut.** Comprend les sommes provenant des services fournis aux malades. Il s'agit des sommes que l'hôpital reçoit ordinairement pour ces services, sans tenir compte des conditions applicables en vertu d'un contrat, d'une convention ou d'une entente sur le taux à payer.

**Net income.** Net income comprises the difference between gross income and deductions such as courtesy, rebates and free service, and bad debts, less recoveries.

#### Quality Assessment of the File

The Annual Hospital reporting form was the document accepted by the federal and provincial governments for hospital insurance purposes and thus ensured completeness of response. Response to this survey has always been very high, over 85% for most years usually representing 95% of the beds.

The data collection, data capture, editing of the information and finally the release of the data, cover a two year period.

Private and Federal hospitals, which together make up 14% of all hospitals but only 4% of all beds, are not required to report financial information on this survey. The only data available for these hospitals are on beds and hospital utilization. Consequently, tables referring to revenues and expenditures represent data from public hospitals only. For this report, no attempt was made to adjust the data to account for hospitals not responding to the survey or for item non-response for those facilities which did report.

All financial data reported by public hospitals have undergone a professional audit.

Hospital data are used by other Statistics Canada divisions and government departments such as Input-Output Division, Labour Division and Health Canada. Many of these departments will use their own calculations to adjust for non-response so care should be taken if comparing their final output to reported data.

The reporting form was last revised in 1976 with the introduction of a supplement to the Canadian Hospital Accounting Manual and the identification of new user requirements. The only major change in reporting procedures was in 1977 when the survey switched from a calendar year to a fiscal year (April-March). For the transition period, data was collected then for 15 months January 1977 to March 1978 and for the 12 months April 1977 to March 1978.

**Revenu net.** Est égal à la différence entre le revenu brut et les déductions comme les faveurs, les rabais, les soins gratuits et les mauvaises créances, moins les recouvrements.

#### Évaluation de la qualité du fichier

Le formulaire de déclaration annuelle des hôpitaux est le document accepté par les administrations fédérale et provinciales aux fins de l'assurance-hospitalisation, ce qui garantit l'exhaustivité de la réponse. Le taux de réponse à l'enquête a toujours été très élevé, à plus de 85% la plupart des années, ce qui représente normalement 95% des lits.

Les activités de collecte, de saisie, de vérification et de diffusion des données durent deux ans.

Les hôpitaux privés et fédéraux, qui ensemble représentent 14% de tous les hôpitaux mais seulement 4% des lits dans les hôpitaux, n'ont pas à déclarer les renseignements financiers. Les seules données fournies par ces hôpitaux sont celles relatives aux lits et à l'utilisation des hôpitaux. En conséquence, les tableaux sur les recettes et dépenses comprennent uniquement les données des hôpitaux publics. Pour le rapport, on n'a pas rajusté les données pour tenir compte des hôpitaux ne répondant pas à l'enquête ou des postes sans données pour les établissements ayant fourni une déclaration.

Toutes les données financières déclarées par les hôpitaux publics ont été vérifiées par des professionnels.

Les données sur les hôpitaux servent à d'autres divisions de Statistique Canada, comme la Division des entrées-sorties et la Division du travail, et aux ministères, entre autres Santé Canada. Bon nombre de ministères se servent de leurs propres calculs de rajustement des données pour tenir compte de la non-réponse: il faut donc faire preuve de prudence lorsque l'on compare leur produit final aux données déclarées.

Le formulaire de déclaration a été révisé pour la dernière fois en 1976 afin d'y inclure un supplément au Manuel de comptabilité des hôpitaux du Canada et de répondre aux nouvelles exigences des utilisateurs. La seule modification importante apportée aux procédures de déclaration remonte à 1977, année où l'enquête a commencé à porter sur l'exercice financier (avril à mars) plutôt que sur l'année civile. Durant la période de transition, les données ont été réunies pour quinze mois (janvier 1977 à mars 1978) et pour douze mois (avril 1977 à mars 1978).

- Communications
- Finance, Insurance and Real Estate
- Business Services

Finally, anyone with a vested interest in the services economy can go to *Services Indicators* for current information on these industries ... both at-a-glance and in more detail than has ever been available before – all in one unique publication.

If your business is serving business in Canada, or if you are involved in financing, supplying, assessing or actually using these services, *Services Indicators* is a turning point – an opportunity to forge into the future armed with the most current insights and knowledge.

Order YOUR subscription to *Services Indicators* today!

## Au sujet des entreprises au service des affaires du Canada et à leur intention...

Enfin regroupées en une publication, des données courantes et des analyses éclairées sur ce secteur ESSENTIEL!

Le secteur des services domine à l'heure actuelle les économies industrielles du monde. Les télécommunications, les opérations bancaires, la publicité, l'informatique, l'immobilier, le génie et l'assurance représentent une gamme éclectique de services sur lesquels reposent tous les autres secteurs économiques.

En dépit de leur rôle critique sur le plan économique, il est toutefois difficile de savoir ce qui se passe dans ces branches d'activité. Des efforts considérables et fastidieux ont permis, au mieux, de rassembler une collection de renseignements fragmentaires divers... qui ne favorisent pas la compréhension avisée et la prise de mesures efficaces.

Remplacez maintenant ce tableau fragmentaire par l'image cohérente que vous offre *Indicateurs des services*. Cette publication trimestrielle innovatrice de Statistique Canada pénètre dans un domaine inexploré, fournissant des aperçus opportuns du rendement et des progrès dans les domaines suivants :

- Communications
- Finance, assurance et immobilier
- Services aux entreprises

*Indicateurs des services* rassemble des tableaux analytiques, des diagrammes, des graphiques et des observations en un mode de présentation stimulant et attrayant. En puisant à même une vaste gamme d'indicateurs financiers importants, allant notamment des profits, des capitaux propres, des recettes, de l'actif et du passif aux tendances et analyses de l'emploi, des salaires et de l'extrant – à laquelle s'ajoute un article de fond exploratif dans chaque numéro, *Indicateurs des services* brosse pour la première fois un tableau complet!

Enfin, quiconque s'intéresse au secteur des services peut consulter *Indicateurs des services* pour trouver des renseignements courants sur ces branches d'activité... tant sous une forme sommaire qu'à un niveau de détail n'ayant jamais encore été offert – et ce, dans une même publication.

Si vous êtes de ceux qui fournissent des services aux entreprises canadiennes, ou si vous financez, fournissez ou évaluez ces services ou y avez en fait recours, *Indicateurs des services* représente un tournant – une chance de s'aventurer dans l'avenir en étant armé des réflexions et connaissances les plus actuelles.

Commandez dès aujourd'hui VOTRE abonnement à *Indicateurs des services*!
