Introduction

The *Access to Information Act* (the Act) provides Canadian citizens, as well as people and corporations present in Canada, the right of access to federal government records that are not of a personal nature and/or subject to certain limited and specific exceptions. The Act complements but does not replace other procedures for obtaining government information. It is not intended to limit in any way the access to government information that is normally available to the public upon request.

This report is submitted in accordance with Section 94(1) of the Act, which requires every head of a federal government institution to submit a report to Parliament on the administration of the Act within their institution during the reporting period. It presents an overview of the *Access to Information Act* activities carried out within the Impact Assessment Agency of Canada (formerly known as the Canadian Environmental Assessment Agency) during the reporting period of April 1, 2018 to March 31, 2019.

Established in 1994, the Agency came into being to prepare for the implementation of the *Canadian Environmental Assessment Act*, which came into effect in early 1995. The Agency is a federal body accountable to the Minister of Environment and Climate Change. The Agency provides high-quality impact assessments that contribute to informed decision making, in support of sustainable development. The Agency is the responsible authority for most federal impact assessments. The current *Impact Assessment Act of Canada, 2019* came into force on August 28, 2019 and its accompanying regulations provide the legislative framework for impact assessments.

Organizational Structure

The provision of Access to Information and Privacy (ATIP) services in the Agency is the responsibility of the Chief Information Officer who reports to the President through the Vice-President, Corporate Services, to fulfill the Agency's *Access to Information Act* responsibilities.

The ATIP function is the direct responsibility of the ATIP Coordinator and a team of two ATIP Officers.

The ATIP Team has administered the Act by:

- Receiving Access requests under the Act, creating request files and tracking the processing of requests using AccessPro Case Management software;
- Assessing required processing time, any fees that were still applicable, and communicating with applicants regarding those assessments;
- Coordinating retrieval of records for response to Access requests;
- Sending statutory notices to applicants, third parties, and the Information Commissioner;
- Conducting necessary consultations;
- Advising applicants and third parties of their rights and obligations under the legislation;
- Negotiating with third parties to obtain their consent to disclosure under the Act;

- Processing records for disclosure in response to applicants' requests, using AccessPro Redaction software;
- Providing training and advice to Agency officials on interpretation and application of the Act, as well as its interaction with the *Impact Assessment Act of Canada, 2019*;
- Negotiating the resolution of formal complaints;
- Compiling statistics;
- Responding to Parliamentary Questions related to the administration of the Act;
- Drafting and updating the Agency's procedural documents relating to the processing of Access requests;
- Posting the monthly proactive disclosure of completed Access to Information request summaries on the Open Government Portal (open.canada.ca);
- Preparing, submitting and posting the Agency's annual report to Parliament on the administration of the Act; and
- Preparing, submitting and posting the Agency's annual Info Source update.

Delegation Order

For the purposes of the Act, the Agency's "head of the institution" as defined in section 3 of the Act is the President of the Agency.

The responsibilities associated with the administration of the Act are delegated to the senior executive officers reporting directly to the President (Vice-presidents and General Counsel), as well as the Access to Information and Privacy Coordinator by the President for the effective administration of the program. The decision-making responsibility for the application of the various provisions of the Act is formally established and outlined in the departmental Delegation of Authority Instrument, which can be found under Appendix A.

Statistical Report – Interpretation and Analysis

The Statistical Report on Access to Information requests processed by the Agency from April 1, 2018 to March 31, 2019 is included in Appendix B of this report. The following sections provide an overview of key data on the Agency's performance for the year with some explanations, interpretations and analysis of the Statistical Report for 2018-2019.

Subject matter of Access requests received

The requests received during this reporting period dealt with a range of topics including:

- Environmental assessment projects and panel reviews;
- Meetings and correspondence involving senior management and industry representatives;
- Departmental and ministerial briefings;
- Agency records on various industry projects;
- Staffing processes; and
- Procurement matters.

Number, source and disposition of Access requests received

The Agency received 46 requests under the *Access to Information Act* during the 2018-2019 reporting period. Figure 1 is a percentage breakdown of the sources of access requests received in 2018-2019:

Figure 1

Source of Requests	Number	Percentage
Media	6	13
Academia	1	2.2
Business	26	56.5
Organization	8	17.4
Public	3	6.5
Declined to Identify	2	4.4
Total	46	100

An additional two requests were brought forward from the previous 2017-2018 reporting period, making a total of 48 active requests. Of those 48 active requests, 36 were completed within the reporting period and 12 were not completed. Those 12 requests are carried forward to the next reporting period.

There was one Informal Request that was addressed in this reporting period. The single Informal Request was completed within 60 days.

During the reporting period, 36 completed requests were processed within the legislated timeframes (the initial 30-day or the allotted extension period). This includes requests for which the Agency required extensions to consult with other government departments and/or third parties. Figure 2 outlines the resulting dispositions of those completed requests.

New Exemptions

Figure 3 shows in the 2018-2019 reporting period, the Agency did not invoke any of the new exemptions.

Extensions

Section 9 of the Act allows institutions to extend the legislated timeframe for processing a request if a search for responsive records cannot be completed within 30 days of receipt of the request, or if the institution must consult with other institutions or third parties.

Figure 4 shows that under section 9, the Agency invoked one or more extensions (beyond the initial 30 days) in eight of the requests completed during the reporting period (highlighted portion). This is reflected in Table 2.1 of the Statistical Report in Appendix B.

Figure 4

Disposition of Requests	Completion Time							Total
	1 to 15 Days	16 to 30 Days	31 to 60 Days	61 to 120 Days	121 to 180 Days	181 to 365 Days	More Than 365 Days	
All disclosed	0	1	0	0	0	0	0	1
Disclosed in part	1	6	1	1	4	2	0	15

Of the eight requests requiring one or more extensions, four extensions were required given that meeting the original time limit would have unreasonably interfered with the operations of the Agency. One extension pertained to Cabinet confidences; six were required for necessary consultations with other government institutions; and two were required for third party notices, as reflected in Table 3.1 of the Statistical Report in Appendix B and highlighted below in figure 5.

For those eight requests requiring extension, the time extensions enabled the ATIP Team to undertake necessary consultations, as highlighted in the second column of Figure 6 below, which is excerpted from Table 2.5.3 of the Statistical Report in Appendix B. These necessary consultations included consultations with other government institutions and/or third parties.

Access Consultation Requests

The details of the Access Consultation requests processed during the 2018-2019 reporting period are presented in Part 5 of the Statistical Report in Appendix B.

The Agency received 44 Access Consultation requests from other federal institutions and 3 from other organizations, for a total of 47 consultation requests received. Of the 44 Access Consultation requests received from other federal institutions, 40 were completed within 30 days. All three requests from other organizations were completed within 30 days. The remaining four consultation requests were completed within 31-60 days.

No consultation requests were brought forward from the 2017-2018 fiscal year and no consultations were carried over to 2019-2020, resulting in a total of 47 completed Access Consultation requests in 2018-2019. Over 2700 pages of records were processed as part of these Access Consultations.

When viewed collectively, Figure 7 and Figure 8 show that the Agency recommended full disclosure in 27 of the consultation requests, one to be transferred for consultation with another institution, and partial disclosure for the remaining 19 requests.

Multi-year Trends

The following demonstrates the trends that have emerged over the last three reporting periods in comparison with the current reporting period.

There were no late files (deemed refusal) in the reporting period and there have been no late files in three consecutive reporting periods as noted below in Figure 9.

Figure 9

Access to information requests	2015-2016	2016-2017	2017-2018	2018-2019
Number of ATI requests closed	35	53	32	36
Number of late files	1	0	0	0

Figure 10 shows that 56% of requests came from the Business sector and 17.5% of requests came from a requestor affiliated with an 'Organization'. The Agency received one request where the applicant identified as affiliated with the Academia; however, the overall percentage of requestors identifying as Academia has decreased.

Figure 10

Figure 11 illustrates the increased trend for the release of records in electronic format rather than paper. Most requestors now specify they would like their release packages on CD or sent through email.

Percentage electronic	29%	44%	69%	81%

With regard to Access Consultations, it is noted in this reporting period that the percentage of consultations from federal institutions increased and from other organizations decreased. This is detailed below in Figure 12.

Training and Awareness

Agency employees are provided with training and guidance to assist them in fulfilling their duties under the *Access to Information Act*. The ATIP Team provides advice and support on an as-needed basis. The ATIP Team is currently developing new training to reflect the changes arising from Bill C-58: *An Act to amend the Access to Information Act and the Privacy Act and to make consequential amendments to other Acts*, which came into force in June 2019.

Employees have been informed of the ATIP-related training offered by the Canada School of Public Service. Training and reference materials are made available to employees on the Agency's Intranet site.

Policies, Guidelines and Procedures

No new Agency policy regarding administration of the *Access to Information Act* was implemented during the reporting period. Subsequent to the report period, the Agency implemented the new proactive publication requirements as introduced in Bill C-58 – *An Act to amend the Access to Information Act and the Privacy Act and to make consequential amendments to other Acts*.

The ATIP Team revised the templates used for correspondence with Offices of Primary Interest (OPI) on an as-needed basis and has continued to streamline the approval process for requests and consultations. The records retrieval procedure and the tasking process were revised and clarified. Liaison roles and responsibilities under the Act have been further clarified, and guidance was provided on the obligation to provide recommendations and strong rationale to ATIP. The Agency continues to examine opportunities to transform the ATIP process to a paperless process.

Complaints, Audits and Investigations

One new complaint was received in the 2018-2019 reporting period related to a dispute of an exemption applied to the records in an Access Request. The Office of the Information Commissioner is currently investigating a total of three active complaints, and no appeals have been filed with the Federal Court of Appeal on closed complaints.

Figure 13

Number of complaints received	7	2	3	1
Number of complaints closed	2	3	3	2
Number of complaints active at end of reporting period	5	4	4	3

*Complaint values under the 2017-2018 reporting period have been revised. During that reporting period, the Agency received three new complaints and three complaints were closed.

Monitoring and Reporting

The Agency continues to ensure compliance with the *Access to Information Act* through effective reporting and monitoring mechanisms. Weekly ATIP reports are prepared for the Vice-President, Corporate Services, and for the Agency's senior leadership. These reports include detailed status of individual requests, compliance statistics, and any complaint investigations.

A weekly Access to Information (ATI) report is provided to the Minister's Office, which includes new ATI requests and anticipated releases. These reports also include request description, status of any individual requests and number of pages to be released.

Special reports are also submitted to provide justifications for time extensions and to outline plans for timely completion of complex or high profile requests. Extensions over 90 days require the approval of the Agency's President. Extensions under 90 days require the approval of the Vice-President, Corporate Services, and disclosure to the Agency senior leadership.

Impact Assessment Agency Registry

As required under the *Impact Assessment Act of Canada, 2019*, the Agency facilitates public access to information and records related to environmental assessments, through the Impact Assessment Agency Registry (the Registry). Formal processes are in place to

provide the public with access to environmental assessment records without recourse under the *Access to Information Act*.

Subsequent to the reporting period, the Agency has undertaken a renewal of the Registry further to section 105 of the *Impact Assessment Act of Canada 2019*. Under the new legislative authorities and proposed policy direction, online comments are automatically published when an individual agrees to the terms and conditions for submitting comments to the Registry. A Privacy Impact Assessment has occurred to examine privacy-related considerations of the Registry renewal.

In addition, the ATIP Team refers requesters to the program responsible for granting access to Registry records in accordance with the *Impact Assessment Act*.
