## Minister's message

On behalf of the Canadian Grain Commission, I am pleased to present our Fees Report for fiscal year 2019-20.

The *Service Fees Act* provides a modern legislative framework that enables cost-effective delivery of services and through better reporting to Parliament, improves transparency and oversight.

I want to recognize the Canadian Grain Commission's efforts in meeting the needs of Canada's modern grain sector. The CGC continues to support the growth of grain exports and provide value to participants across the value chain. Working together with the other departments in the agri-food portfolio, the CGC is helping to ensure that Canada's grain sector remains innovative, prosperous, and sustainable for generations to come.

In 2019-20 the Canadian Grain Commission continued to deliver key front-line inspection and research services that helped our grain products to reach new levels of exports, even during the onset of the global pandemic. It is critically important to me that Canada continues to be recognized as a global leader in the production of safe, high quality grain.

As Canada's Minister of Agriculture and Agri-Food, I will continue to support the organization in reporting under the *Service Fees Act* in support of cost-effective delivery of services and together, with the Canadian Grain Commission, we will keep moving agricultural products from farm to plate.

**The Honourable Marie-Claude Bibeau,  
Privy Councillor, Member of Parliament  
Minister of Agriculture and Agri-Food**

## Acting Chief Commissioner’s message

As Acting Chief Commissioner, I invite you to read our 2019-20 Fees Report. The Canadian Grain Commission is committed to clear and transparent reporting to Parliamentarians and Canadians in accordance with the *Service Fees Act*.

I am proud of the work done by the Canadian Grain Commission to benefit grain farmers, the grain sector, and all Canadians. Our service standard performance results reflect the commitment and dedication of all Canadian Grain Commission employees.

The Canadian Grain Commission is funded largely through a revolving fund, which is based on charging fees for our services. Our fees are fixed by regulation and fees notice and are reviewed every five years to ensure they remain aligned with the costs of service provision. They are also adjusted for inflation annually in accordance with the *Service Fees Act*.

In 2019-20, the Canadian Grain Commission dealt with the largest financial failure of a grain company in its history. As a result of our Safeguards for Grain Farmers Program, producers received over \$11,000,000, resulting in 100% compensation for eligible unpaid deliveries.

With the unique challenges presented at the end of this fiscal period, I am proud of the work of the Canadian Grain Commission employees in quickly adapting to the new realities brought on by COVID19. While difficult, these circumstances presented us with an opportunity for innovation and creativity, and our team continued to work hard to meet our service standards and lead the organization into a stronger “new normal”.

**Doug Chorney**  
**Acting Chief Commissioner**

## About this report

This report, which is tabled under section 20 of the *Service Fees Act*<sup>ii</sup> and section 4.2.8 of the *Directive on Charging and Special Financial Authorities*<sup>iii</sup>, contains information about the fees that the Canadian Grain Commission had the authority to set in 2019–20.

Government of Canada departments may set fees for services, licences, permits, products, the use of facilities; for other authorizations of rights or privileges; or to recover, in whole or in part, costs incurred in relation to a regulatory scheme.

For reporting purposes, fees must be categorized under the following three fee setting mechanisms:

1. Act, regulation or fees notice
  - An act of Parliament delegates the fee setting authority to a department, minister or Governor in Council.
2. Contract
  - Ministers have the authority to enter into contracts, which are usually negotiated between the minister and an individual or organization, and which cover fees and other terms and conditions. In some cases, that authority may also be provided by an act of Parliament.
3. Market-rate or auction or both
  - The authority to set these fees is pursuant to an act of Parliament or regulation, and the minister, department or Governor in Council has no control over the fee amount.

This report contains information about all fees that are under the Canadian Grain Commission's authority, including any that are collected by another department.

The information covers fees that are subject to the *Service Fees Act*.

For fees set by contract, fees set by market-rate, auction or both, the report provides totals only. For fees set by act, regulation or fees notice, it provides totals for fee groupings, as well as detailed information for each fee.

Although the fees that the Canadian Grain Commission charges under the *Access to Information Act* are subject to the *Service Fees Act*, they are not included in this report. Information on the Canadian Grain Commission's access to information fees for 2019–20 can be found in our Access to Information Report, which is posted on the [Canadian Grain Commission](#)<sup>iv</sup> webpage.

## Remissions

A remission is a partial or full return of a fee to a fee payer who paid for a service for which a department deemed that the service standard was not met.

Under the *Service Fees Act*, departments must develop policies for determining whether a service standard has been met and for determining how much of a fee will be remitted to a fee payer if a service standard is not met. This requirement will not take effect until April 1, 2021, so this report does not include remissions issued under the *Service Fees Act*. The report also does not include other remissions.

## Overall totals, by fee setting mechanism

The following table presents the total revenue, cost and remissions for all fees that the Canadian Grain Commission had the authority to set in 2019–20, by fee setting mechanism.

### Overall totals for 2019–20, by fee setting mechanism

Fee setting mechanism	Revenue (\$)	Cost (\$)	Remissions (\$)
<b>Fees set by contract</b>	981,516	981,516	Remissions do not apply to fees set by contract.
<b>Fees set by market-rate, auction or both</b>	0	0	Remissions do not apply to fees set by market base, auction or both.
