Revenues		
Interest	98,539	120,757
Amortization of discount	294,391	19,475
Other	2,443	2,469
Revenues earned on behalf of government	(393,016)	(140,331)
Total revenues	2,357	2,370
Net cost of operations before government funding and transfers	\$ 252,816,046	\$ 222,654,962

The accompanying notes form an integral part of the Future-Oriented Statement of Operations.

Western Economic Diversification Canada

Notes to the Future-Oriented Statement of Operations (unaudited)

For the year ending March 31

1. Methodology and significant assumptions

The Future-Oriented Statement of Operations has been prepared on the basis of government priorities and departmental plans as described in the Departmental Plan.

The information in the forecast results for fiscal year 2019–20 is based on actual results as at November 30, 2019 and on forecasts for the remainder of the fiscal year. Forecasts have been made for the planned results for fiscal year 2020–21.

The main assumptions underlying the forecasts are as follows:

- The department's activities will remain substantially the same as in the previous year.
- Expenses and revenues, including the determination of amounts internal and external to the government, are based on past experience. The general historical pattern is expected to continue.
- Allowances for uncollectible accounts are based on historical experience. The general historical pattern is expected to continue.

These assumptions are made as at November 30, 2019.

2. Variations and changes to the forecast financial information

Although every attempt has been made to forecast final results for the remainder of 2019–20 and for 2020–21, actual results achieved for both years are likely to differ from the forecast information presented, and this variation could be material.

In preparing this Future-Oriented Statement of Operations, Western Economic Diversification Canada (WD) has made estimates and assumptions about the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and assumptions are based on past experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, and are continually evaluated.

Factors that could lead to material differences between the Future-Oriented Statement of Operations and the historical statement of operations include:

- the timing and the amount of acquisitions and disposals of property, plant and equipment, which may affect gains, losses and amortization expense;
- the implementation of new collective agreements;
- economic conditions, which may affect both the amount of revenue earned and the collectability of loan receivables;
- interest rates in effect at the time of issue, which will affect the net present value of non-interest bearing loans; and
- other changes to the operating budget, such as new initiatives or technical adjustments later in the fiscal year.

After the Departmental Plan is tabled in Parliament, WD will not be updating the forecasts for any changes in financial resources made in ensuing supplementary estimates. Variances will be explained in the Departmental Results Report.

3. Summary of significant accounting policies

The Future-Oriented Statement of Operations has been prepared using the Government of Canada's accounting policies in effect for fiscal year 2019–20, and is based on Canadian public sector accounting standards. The presentation and results using the stated accounting policies do not result in any significant differences from Canadian public sector accounting standards.

Significant accounting policies are as follows:

a) Expenses

Transfer payments are recorded as an expense in the year the transfer is authorized and all eligibility criteria have been met by the recipient.

Other expenses are generally recorded when goods are received or services are rendered and include expenses related to personnel, professional and special services, repair and maintenance, utilities, materials and supplies, as well as amortization of tangible capital assets. Provisions to reflect changes in the value of assets or liabilities, such as provisions for bad debts, loans, investments and advances and inventory obsolescence, as well as utilization of inventories and prepaid expenses, and other are also included in other expenses.

b) Revenues

Revenues from regulatory fees are recognized based on the services provided in the fiscal year.

Funds received from external parties for specified purposes are recorded upon receipt as deferred revenue. These revenues are recognized in the period in which the related expenses are incurred.

Deferred revenue consists of amounts received in advance of the delivery of goods and rendering of services that will be recognized as revenue in a subsequent fiscal year as it is earned.

Other revenues are recognized in the period the event giving rise to the revenues occurred. Revenues that are non-respensible are not available to discharge WD's liabilities. Although the deputy head is expected to maintain accounting control, he has no authority over the disposition of non-respensible revenues. As a result, non-respensible revenues are considered to be earned on behalf of the Government of Canada and are therefore presented as a reduction of WD's gross revenues.

4. Parliamentary authorities

WD is financed by the Government of Canada through parliamentary authorities. Financial reporting of authorities provided to WD differs from financial reporting according to generally accepted accounting principles because authorities are based mainly on cash flow requirements. Items recognized in the Future-Oriented Statement of Operations in one year may be funded through parliamentary authorities in prior, current or future years. Accordingly, WD has different net cost of operations for the year on a government funding basis than on an accrual accounting basis. The differences are reconciled in the following tables:

a) Reconciliation of net cost of operations to requested authorities

	Forecast results 2019-20	Planned results 2020-21
(in dollars)		
Net cost of operations before government funding and transfers	\$ 252,816,046	\$ 222,654,962
Adjustment for items affecting net cost of operations but not affecting authorities:		
Amortization of tangible capital assets	(18,608)	(18,616)
Services provided without charge by other government departments	(5,004,897)	(5,639,888)
Decrease (increase) in vacation pay and compensatory leave	108,332	(158,883)
Decrease (increase) in employee future benefits	(127,522)	(183,943)
Decrease (increase) in accrued liabilities not charged to authorities	307,710	833,774
Refunds of previous years' expenditures	395,324	503,481
Other	2,357	2,370
Total items affecting net cost of operations but not affecting authorities	(4,337,304)	(4,661,705)
Adjustment for items not affecting net cost of operations but affecting authorities:		
Acquisitions of tangible capital assets	207,075	178,970
Transition payments for implementing salary payments in arrears	1,313	0
Unconditionally repayable transfer payments	67,117,570	56,596,388
Increase in employee advances	22,262	16,778
Total items not affecting net cost of operations but affecting authorities	67,348,220	56,792,136
Requested authorities forecasted to be used	\$ 315,826,962	\$ 274,785,393

b) Authorities requested

	Forecast results 2019-20	Planned results 2020-21
(in dollars)		
Authorities provided/requested		
Vote 1 - Operating expenditures	\$ 44,567,705	\$ 42,119,210
Vote 5 - Transfer payments	266,443,500	228,161,383
Statutory amounts	4,815,757	4,504,800
Total authorities provided/requested	\$ 315,826,962	\$ 274,785,393
Less: Estimated unused authorities and other adjustments	0	0
Requested authorities forecasted to be used	\$ 315,826,962	\$ 274,785,393
