

## Summary of Migratory Birds Hunting Regulations

### AUGUST 2020 TO JULY 2021

#### To hunt migratory game birds in Canada, you must possess:

- a valid Migratory Game Bird Hunting Permit;
- a Canadian Wildlife Habitat Conservation Stamp affixed to or printed on the permit.

These two documents are issued by the federal government and are valid in all provinces and territories.

#### The 2020 federal permit is also valid for the 2021 spring special conservation harvest for Snow Geese and Ross's Geese.

Most provinces and territories have additional licence requirements for hunting migratory birds and/or to carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory where you will be hunting. Municipalities may have additional restrictions on discharging firearms. Note that all required permits and licences must be in your possession while you are hunting.

#### Hunting Zones

**Northern Yukon territory:**  
all that portion of Yukon lying north of latitude 66°N

**Central Yukon territory:**  
all that portion of Yukon lying between latitude 62° and 66°N

**Southern Yukon territory:**  
all that portion of Yukon lying south of latitude 62°N

You can purchase and print your Migratory Game Bird Hunting Permit by visiting the *Migratory Game Bird Hunting Permit* web page on the Government of Canada website ([www.canada.ca](http://www.canada.ca)).

#### Consultation process and migratory birds regulatory reports

A national consultation process has been developed to provide an opportunity for everyone to participate in developing the migratory birds hunting regulations. For more information, consult the *Migratory Birds Regulatory Report Series* web page on the Government of Canada website ([www.canada.ca](http://www.canada.ca)).

#### Enforcement

In June 2017, the *Environmental Violations Administrative Monetary Penalties Regulations* came into force. In particular, these regulations authorize game officers to use administrative monetary penalties (AMPs) to enforce the provisions of the *Migratory Birds Convention Act, 1994* (MBCA) and its associated regulations.

In July 2017, amendments to the fine regime and penalty provisions in the MBCA and the *Designation of Regulatory Provisions for Purposes of Enforcement (Migratory Birds Convention Act, 1994) Regulations* came into force. In particular, these amendments allow courts to impose penalties that reflect the seriousness of offences following a conviction pursuant to the MBCA or its associated regulations.

For more information on AMPs and the new fine regime, consult the *About the Environmental Enforcement Act* web page on the Government of Canada website ([www.canada.ca](http://www.canada.ca)).

Game officers enforce the federal MBCA throughout Canada. This law regulates human interventions, such as hunting that could adversely affect long-term wildlife conservation. For any questions, please contact Wildlife Enforcement by telephone or by email at the contact information at the end of this hunting summary.

#### Shot

- **Non-toxic shot must be used** to hunt all migratory game birds.
- Within National Wildlife Areas that allow hunting, the possession of lead shot is prohibited for all types of hunting, including the hunting of migratory birds and upland game birds.

#### CRIME STOPPERS

Anyone wishing to report illegal hunting activities, illegal selling or other offences related to migratory birds is asked to call Crime Stoppers at 1-800-222-TIPS (8477). Your call is anonymous, and you may be eligible for a cash reward.
