Registration decision statement¹ for *Bacillus amyloliquefaciens* strain FZB42

Health Canada's Pest Management Regulatory Agency (PMRA), under the authority of the [Pest Control Products Act](#), is granting registration for the sale and use of *Bacillus amyloliquefaciens* strain FZB42 Technical and AmyProtec 42, containing the technical grade active ingredient *Bacillus amyloliquefaciens* strain FZB42. AmyProtec 42 is used for partial suppression of common scab (*Streptomyces scabies*) on potato and basal bulb rot (*Fusarium oxysporum*) on garlic.

This decision is consistent with the [Proposed Registration Decision PRD2020-04, *Bacillus amyloliquefaciens* strain FZB42 Technical and AmyProtec 42](#), which contains a detailed evaluation of the information submitted in support of this registration. The evaluation found that, under the approved conditions of use, the health and environmental risks and the value of the pest control product(s) are acceptable. Health Canada received no comments on PRD2020-04.

Other information

The relevant test data on which the decision is based (as referenced in PRD2020-04) are available for public inspection, upon application, in the [PMRA's Reading Room](#) (located in Ottawa). For more information, please contact the PMRA's [Pest Management Information Service](#) by phone (1-800-267-6315) or by [e-mail](#) (hc.pmra.info-arla.sc@canada.ca).

Any person may file a notice of objection² regarding this registration decision within 60 days from the date of publication of this Registration Decision. For more information regarding the basis for objecting (which must be based on scientific grounds), please refer to the [Pesticides](#) section of the Canada.ca website ([Request a Reconsideration of Decision](#)) or contact the PMRA's Pest Management Information Service.

¹ "Decision statement" as required by subsection 28(5) of the *Pest Control Products Act*.

² As per subsection 35(1) of the *Pest Control Products Act*.
