2020–21 ESTIMATES

Supplementary Estimates (B), 2020–21

Introduction

These Supplementary Estimates are presented in six sections:

- **Highlights of these Estimates**, including their overall impact on the Government's spending plan and appropriated authorities for the fiscal year;
- **General Information** about the Estimates process and how to use this document;
- **Key Summaries** of the authorities presented in these Estimates for Parliament's approval or information, major items, and horizontal initiatives;
- **Detail by Organization** on the voted authorities sought through these Estimates, as well as updates to statutory forecasts;
- **Annex – Items for inclusion in the Proposed Schedules to the Appropriation Bill**; and
- **Additional Information** available online on statutory and voted authorities.

Highlights of these Estimates

The Supplementary Estimates (B), 2020–21 present a total of \$79.2 billion in incremental budgetary spending, including \$20.9 billion to be voted and \$58.3 billion in forecast statutory expenditures. Of these amounts, roughly \$15 billion (74%) of the voted requirements and \$57 billion (96%) of the additional statutory forecasts are for the Government's response to the public health, social and economic impact on Canadians of the COVID-19 global pandemic.

These Estimates seek parliamentary approval of \$20.9 billion in new voted spending. The majority of this new spending is for:

- emergency responses to the COVID-19 pandemic, including medical research, vaccine development and purchases of personal protective gear and medical equipment and supplies; and
- economic responses to the pandemic, including support for small and medium-sized businesses, salary top-ups for essential workers, and funding for provinces and territories to safely restart their economies, bring students back to school, and clean up inactive oil and gas wells.

Overall, funding requirements for the top 10 organizations account for approximately 85.5% of the voted spending sought through these Estimates. Of those 10 organizations, these 8 are each seeking more than \$500 million to support their priorities:

- Public Health Agency of Canada (\$9.3 billion);
- Department of Finance (\$3.3 billion);
- Department of Indigenous Services (\$1.0 billion);
- Department of Crown-Indigenous Relations and Northern Affairs (\$926.4 million);
- Department of Health (\$737.6 million);
- Department of Public Works and Government Services (\$720.8 million);
- Treasury Board Secretariat (\$646.6 million); and
- Department of Transport (\$516.6 million).

These Estimates show, for information purposes, changes in planned statutory expenditures. The increase of \$58.3 billion in budgetary statutory expenditures, related mainly to payments authorized by the *Public Health Events of National Concern Payments Act* and the *Financial Administration Act*, includes:

- the Canada Emergency Response Benefit (\$28.5 billion);
- payments to provinces and territories for the Safe Restart Agreement (\$12.3 billion);
- medical research and vaccine development (\$3.8 billion); and
- acquisition of protective gear and medical equipment (\$3.3 billion).

Many COVID-19 initiatives present both voted and statutory expenditures. Provisions of the *Financial Administration Act* which authorized payments to provinces and territories (or organizations named by those jurisdictions) were repealed on September 30, 2020. Under *An Act relating to certain measures in response to COVID-19*, the *Public Health Events of National Concern Payments Act* will be repealed on December 31, 2020. Amounts for COVID-19 activities included in the *Public Health Events of National Concern Payments Act*, for payments to be made after the repeal of the Act on December 31, 2020, are included in these Estimates as voted expenditures.

Non-budgetary statutory expenditures reflect changes in net expenditures related primarily to student loans.

In general, the Estimates focus on the authorities of appropriated organizations to make payments from the Consolidated Revenue Fund. Some of the Government's COVID-19 response measures are excluded, such as:

- the Business Credit Availability Program and the Canada Emergency Business Account, through the Business Development Bank of Canada and Export Development Canada;
- enhanced benefits provided through the Employment Insurance Operating Account;
- new benefits enacted in October 2020 through the *Canada Recovery Benefits Act*; and
- the Canada Emergency Wage Subsidy, which is implemented through the tax system under the *Income Tax Act*.

General Information

In order to spend money, the government must receive Parliament's approval, either through previously adopted legislation that provides ongoing authority or on an annual basis through the introduction and passage of appropriation bills in Parliament. As with other bills, appropriation bills become law after being approved by both the House of Commons and the Senate and receiving Royal Assent.

To support Parliament's consideration and review, the President of the Treasury Board tables in Parliament, prior to the introduction of each appropriation bill, an Estimates publication (Main or Supplementary) that provides information and details on spending authorities sought.

While the Main Estimates provide an overview of spending requirements for the upcoming fiscal year, Supplementary Estimates present information on additional spending requirements which were either not sufficiently developed in time for inclusion in the Main Estimates, or have subsequently been refined to account for developments in particular programs and services.

The Supplementary Estimates (B), 2020–21 is the second of three Supplementary Estimates planned for this fiscal year.

For this exercise, the President of the Treasury Board tables a document in Parliament that includes:

- A summary of the government's incremental financial requirements;
- An overview of major funding requests and horizontal initiatives;
- Highlights of new authority requirements and structural changes;
- Funding details by organization; and
- A proposed schedule to the appropriation bill to be approved by Parliament.

In addition to the tabled document, the following supplemental information is also available online:

- Detailed listing of statutory expenditures reported through the Estimates;
- A complete breakdown of planned expenditures by standard object, such as personnel, professional services and transfer payments;
- Planned expenditures by program or purpose in accordance with the organization's Departmental Reporting Framework;
- Allocations from Treasury Board Central Votes; and
- A listing of transfers between organizations.

The following terminology is used throughout this document:

- **2018–19 Expenditures** refer to the actual expenditures published in the 2019 Public Accounts (Volume II);
- **2019–20 Estimates to date** include the aggregate of the requirements reported in the Main Estimates, and Supplementary Estimates A and B of that fiscal year;
- **Authorities to date** are comprised of amounts reported in the prior Estimates of the current fiscal year, two-year appropriations and allocations of votes managed by Treasury Board;
- **These Supplementary Estimates** refer to the requirements reported through Supplementary Estimates (B);
- **Proposed Authorities** is the sum of all the amounts reported in the Estimates of the current fiscal year, two-year appropriations and allocations from votes managed by Treasury Board;
- **Budgetary expenditures** include the cost of servicing the public debt; operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations;
- **Non-budgetary expenditures** – or loans, investments and advances – are outlays that represent changes in the composition of the Government's financial assets. Negative figures indicate that recoveries exceed expenditures;
- **Voted** describes appropriations or expenditures for which parliamentary authority is sought through an appropriation bill; and
- **Statutory** describes appropriations or expenditures which are authorized by Parliament through legislation other than an appropriation act; forecasts are provided for Parliament's information.

Summary of Estimates

The Supplementary Estimates (B), 2020–21 provides information in support of voted budgetary expenditures in the amount of \$20.9 billion for a total of \$152.8 billion in 2020–21. This is an increase of 15.8% over the authorities to date.

Note: Authorities To Date and Proposed Authorities include two-year appropriations of \$789,157,005 for Canada Border Services Agency, Canada Revenue Agency and Parks Canada Agency. These three agencies have the authority to carry forward funds approved in 2019–20 to 2020–21. The following chart — Supplementary Estimates as part of total Estimates — reflects only 2020–21 Estimates, so it excludes the two-year appropriations.

Estimates to date 2020–21

The 2020–21 Main Estimates were tabled on February 27, 2020, supporting the government's request to Parliament for authority through annual appropriations to spend \$125.1 billion in voted budgetary expenditures and \$87.2 million in voted non-budgetary expenditures. The 2020–21 Main Estimates also presented information on statutory amounts of \$179.5 billion in budgetary expenditures and \$3.0 billion in loans, investments and advances. The Main Estimates were tabled for a second time on September 30, 2020. Responding to the extraordinary circumstances of Parliament since the onset of the COVID-19 pandemic, the House of Commons passed a motion on April 20, 2020 to temporarily modify Standing Order 81, which resulted in extending the study of the Main Estimates until December. Following the prorogation of Parliament and the opening of a new session, the Main Estimates were re-tabled in the House of Commons for Parliament's continued consideration of voted spending for 2020–21.

The Supplementary Estimates (A), 2020–21 were tabled on June 2, 2020 and presented information in support of \$6.0 billion in voted budgetary expenditures. Information was also presented on increases to statutory expenditures of \$80.9 billion in budgetary expenditures and \$200 million in loans, investments and advances.

The Supplementary Estimates (B), 2020–21 provide information in support of \$20.9 billion in voted budgetary expenditures as well as increases in limits to non-budgetary expenditures. Information is also presented on increases to statutory expenditures of \$58.3 billion in budgetary expenditures and \$1.3 billion in loans, investments and advances.

Appropriation Acts in 2020–21

Royal Assent for *Appropriation Act No. 1, 2020–21*, granted on March 13, 2020, provided interim supply to appropriation-dependent organizations to cover requirements for the first three months of the fiscal year.

Royal Assent for *Appropriation Act No. 2, 2020–21*, granted on June 26, 2020, provided additional interim supply to cover requirements until December 2020 to allow Parliament time to complete its review of Main Estimates.

Royal Assent for *Appropriation Act No. 3, 2020–21*, granted on June 26, 2020, provided supply for the spending requirements presented in Supplementary Estimates (A), 2020–21.

In December 2020, the President of the Treasury Board will introduce a bill to provide additional remaining supply for the 2020–21 Main Estimates and another bill to approve the funding in these Supplementary Estimates (B), 2020–21.

Major Items

The following is a list of the major voted initiatives, which are included in these Supplementary Estimates to seek parliamentary approval.

Public Health Agency of Canada: \$5,378.3 million

Funding for medical research and vaccine developments (COVID-19)

This funding will support research, development and purchases of vaccines and treatments, including advanced vaccine purchase agreements.

Public Health Agency of Canada: \$2,202.9 million

Funding to acquire protective gear and medical equipment (COVID-19)

This funding will be used to purchase personal protective equipment, laboratory testing kits, medical supplies and equipment for use in the healthcare sector and in federal government departments and agencies.

Department of Finance: \$1,000.0 million

Funding for the Safe Return to Class Fund (COVID-19)

This funding is for payments to provinces and territories to help cover costs of adapting the education sector to ensure a safe return to class throughout the school year. Expenditures supported by the Fund include adapted learning spaces, improved air ventilation, increased hand sanitation and hygiene, and purchases of personal protective equipment and cleaning supplies.

Department of Finance: \$1,000.0 million

Funding to the Province of Alberta to clean up inactive oil and gas wells (COVID-19)

This payment to the Government of Alberta will be used to close inactive oil and gas wells and rehabilitate the well sites.

Public Health Agency of Canada: \$782.8 million

Funding for medical countermeasures (COVID-19)

This funding will help secure and enhance domestic biomanufacturing capacity, including for bulk manufacturing, filling of vials and packaging; to obtain a sufficient supply of packaging materials for the COVID-19 vaccine; to secure mass vaccination equipment; and to build capacity for successful vaccine deployment.

Department of Crown-Indigenous Relations and Northern Affairs: \$760.1 million

Funding for the Specific Claims Settlement Fund

Specific claims are claims by a First Nation against the federal government which relate to the administration of land or other First Nation assets and to the fulfillment of historic treaties or other agreements. The primary objective of the Specific Claims Policy is to discharge outstanding legal obligations of the federal government through negotiated settlement agreements. The Specific Claims Settlement Fund is used to provide compensation to First Nations in accordance with settlement agreements.

Department of Finance: \$700.0 million

Funding for the Safe Restart Agreement (COVID-19)

The Safe Restart Agreement supports provinces and territories in safely restarting their economies and preparing for possible future waves of the virus. Funding in these Estimates will help provinces and territories increase their capacity to conduct testing, perform contact tracing, and share public health data that will help fight the pandemic.

Treasury Board Secretariat: \$585.2 million

Funding for the Public Service Insurance plans and programs

The public service group insurance plans and programs include health and dental care benefits, as well as disability and life insurance for active and retired employees and their eligible dependants. This funding responds to cost increases driven by price inflation and population growth and will help ensure the financial sustainability of the plans.

Department of Finance: \$461.0 million

Funding for the Essential Workers Support Fund (COVID-19)

This funding is to cost-share, with provinces and territories, a temporary top-up to the salaries of workers deemed essential in the fight against COVID-19.

Department of Public Works and Government Services: \$400.0 million

Funding to provide supplies for the health system (COVID-19)

This funding will be used to acquire and distribute supplies of key goods and services, such as medical equipment, including personnel protective equipment for a broad range of organizations which are involved in COVID-19 response or which provide non-medical essential services to Canadians.

Changes to Voted Authorities

The following new or amended authorities are sought through the Appropriation Act for these Estimates:

- The Canadian Energy Regulator is amending Vote 1 to include grants;
- The Department of Foreign Affairs, Trade and Development is amending Votes 20 and L25 to increase the maximum amount of financial assistance to international financial institutions in 2020–21; and
- The Federal Bridge Corporation Limited is adding Vote 1 for payments to the Corporation.

Estimates by Organization

123 organizations are represented in the 2020–21 Estimates. Of these, 83 organizations are included in these Supplementary Estimates: 12 for information only, and 71 for additional Parliamentary consideration.

Horizontal Items

The items listed in this table are horizontal initiatives and other jointly funded items. Both types of horizontal items involve two or more organizations with a formal funding agreement (e.g. Memorandum to Cabinet or Treasury Board submission). Through horizontal initiatives, the organizations work in partnership toward the achievement of shared outcomes. In jointly funded items, organizations receive incremental funding, and each independently contributes to the realization of the stated objective(s).
