

Well-being of youth

not in employment, education
or training in Canada,
2015 to 2017

Youth not in employment, education
or training (NEET) includes those
aged 18 to 29 who were not working
or enrolled in school during the
reference week.

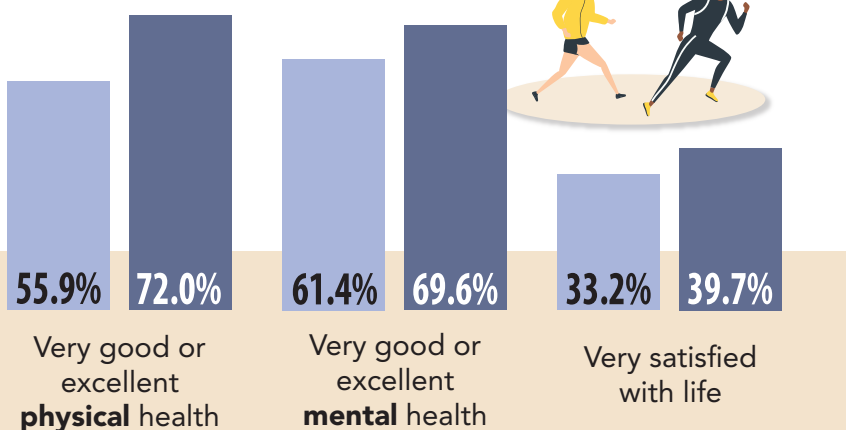

11.1% of Canadian
youth (aged 18 to 29)
were identified as NEET.

Among these youth:

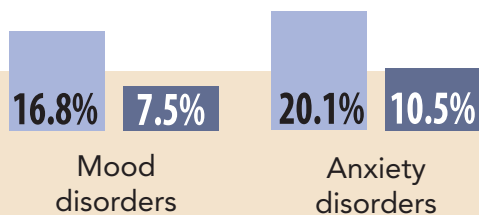

*Were primarily engaged in another activity, such as housework, volunteering or caregiving (other than child care), or had a long-term illness.

Youth NEET were **less likely** to report
positive health or life satisfaction.

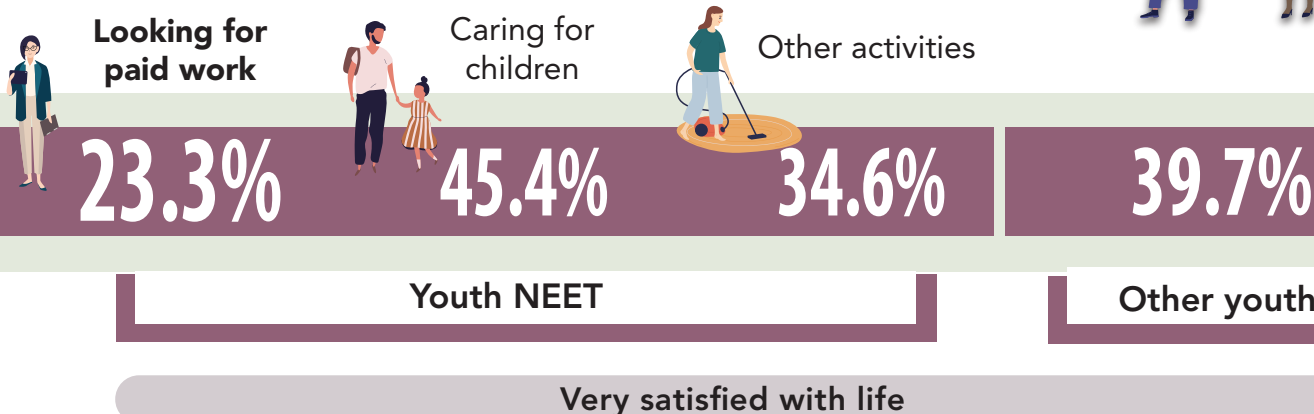

Youth NEET were **more likely** to report mood or
anxiety disorders.

● Youth NEET ● Other youth

Life satisfaction of youth NEET varied by activity.
Those **looking for paid work** were least likely to be
very satisfied with their lives.
