Canada

# Statistics Canada and measuring diversity and inclusion

## Who are we?

Statistics Canada has two primary objectives:

- 1) To provide statistical information and analysis about Canada's economic and social structure;
- 2) To promote sound statistical practices and standards.

# Statistics Canada's modernization pillars

**User-centric Service  
Delivery**

**Statistical Capacity  
Building and Leadership**

**Leading-edge Methods  
and Data Integration**

**Sharing and Collaboration**

# Forces at play in defining a measure on diversity and inclusion

# Various data sources are used to measure and take into account the cultural, ethnic, linguistic and religious diversity and pluralism in Canada

## Census

## Administrative databases

- Longitudinal Immigration Database (IMDB)
- Uniform Crime Reporting Survey

## Thematic surveys

- General Social Survey (GSS)
- Canadian Community Health Survey (CCHS)
- Labour Force Survey (LFS)
- Program for the International Assessment of Adult Competencies (PIAAC)
- Longitudinal and International Study of Adults (LISA)

## Surveys of specific populations

- Survey on the Vitality of Official-Language Minorities (SVOLM)
- Aboriginal Peoples Survey (APS)
- Ethnic Diversity Survey (EDS)
- Longitudinal Survey of Immigrants to Canada (LSIC)

# Evolution of ethnocultural questions in the Canadian census

# Key concepts in immigration and ethnocultural diversity in Canada

## Place of birth

- Person's or parents' place of birth
- Generation status

## Immigration

- Landed immigrants / permanent residents
  - Year of immigration
  - Admission category
- Non-permanent residents

## Citizenship

- Canadian citizenship by birth or naturalization
- Country of citizenship

## Religion

- Religious affiliation
- Religious attendance
- Importance of religion

## Ethnic or cultural origins

### Aboriginal peoples (First Nations, Métis and Inuit)

- Aboriginal ancestry
- Aboriginal identity
- Registered or Treaty Indian status
- Member of a First Nation or Indian band

## Visible minorities

## Language

- Mother tongue
- Language spoken at home, language used at work
- Knowledge of official languages and non-official languages
- First official language spoken

# Portrait of ethnocultural diversity in Quebec and Montréal

# Net international migration is the main driver of population growth in Quebec

## Sources of population growth in Quebec, 1971-1972 to 2017-2018

Source: Statistics Canada, Population Estimates Program.

# In 2016, immigrants represented nearly 14% of the total population in Quebec, compared with 29% in Ontario, 28% in British Columbia and 21% in Alberta

Number of immigrants in Quebec and demographic weight of the immigrant population within Quebec's population, 1971 to 2016

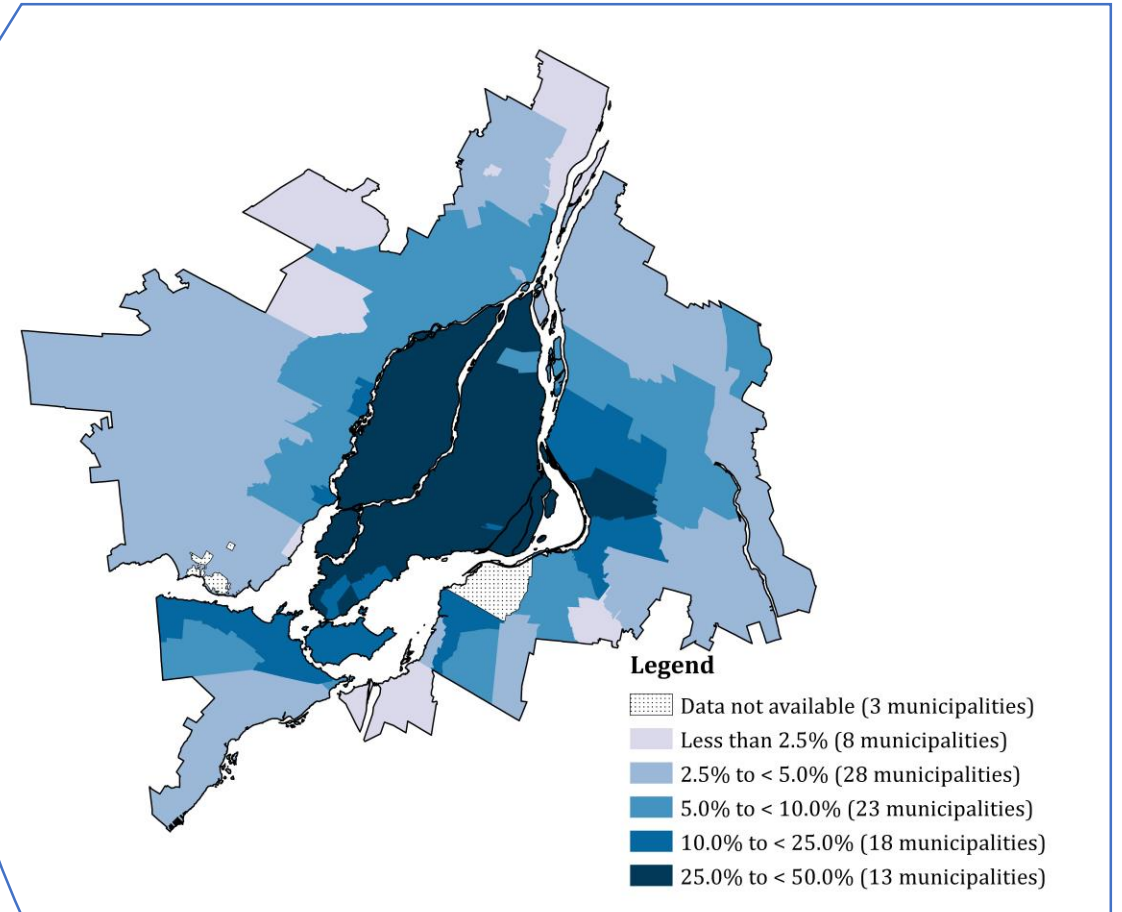

Sources: Statistics Canada, Census of Population, 1971 to 2001, 2016; National Household Survey, 2011.

## In Quebec, the proportion of immigrants is highest in the census metropolitan area of Montréal.

Number and proportion (%) of immigrants in the census metropolitan areas (CMA), Quebec, 2016

	Number of immigrants	Proportion (in %)
<b>Montréal</b>	936,305	23.4
<b>Québec</b>	44,550	5.7
<b>Ottawa-Gatineau (Quebec part)</b>	36,095	11.0
<b>Sherbrooke</b>	14,555	7.1
<b>Trois-Rivières</b>	4,820	3.2
<b>Saguenay</b>	2,035	1.3
<b>Outside of the CMA</b>	52,945	2.3

Source: Statistics Canada, Census of Population, 2016.

# Source countries for immigration in Quebec have changed a lot over time

Region of birth of recent immigrants in Quebec, 1971 to 2016

Top country of birth reported by recent immigrants in Quebec, 2016

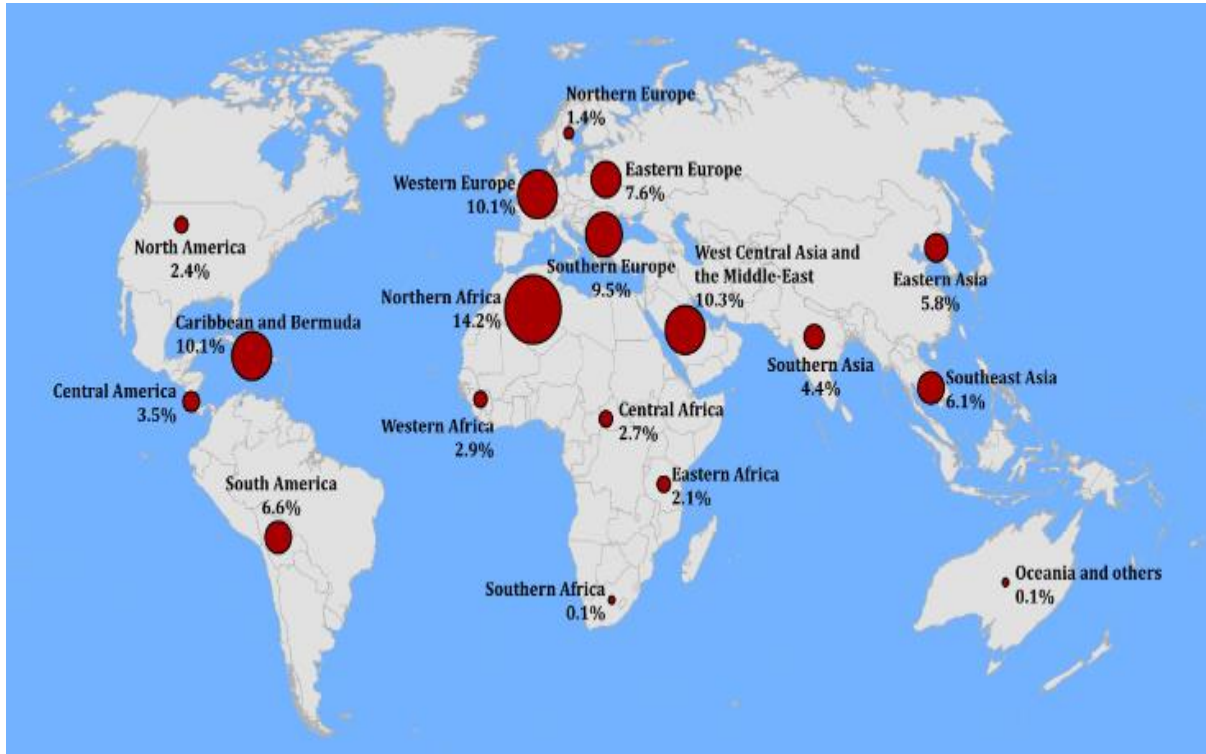

**Note:** "Recent immigrants" are immigrants who received landed immigrant or permanent resident status in Canada for the first time in the five years preceding a given census.

**Sources:** Statistics Canada, Census of Population, 1971 to 2001, 2016; National Household Survey, 2011.

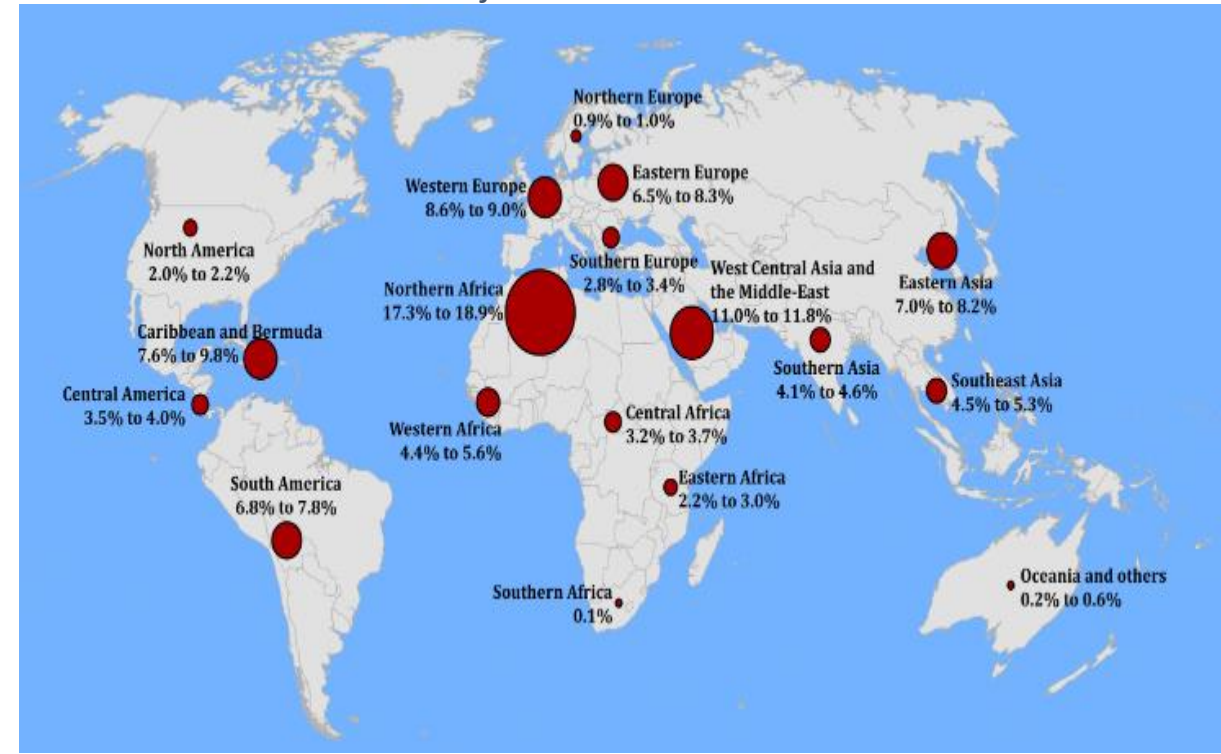

# The share of immigrants from certain parts of the world could continue to grow, while those from earlier waves of immigration could continue to decline

Distribution (as a percentage) of immigrants living in Quebec, by region of birth

2016

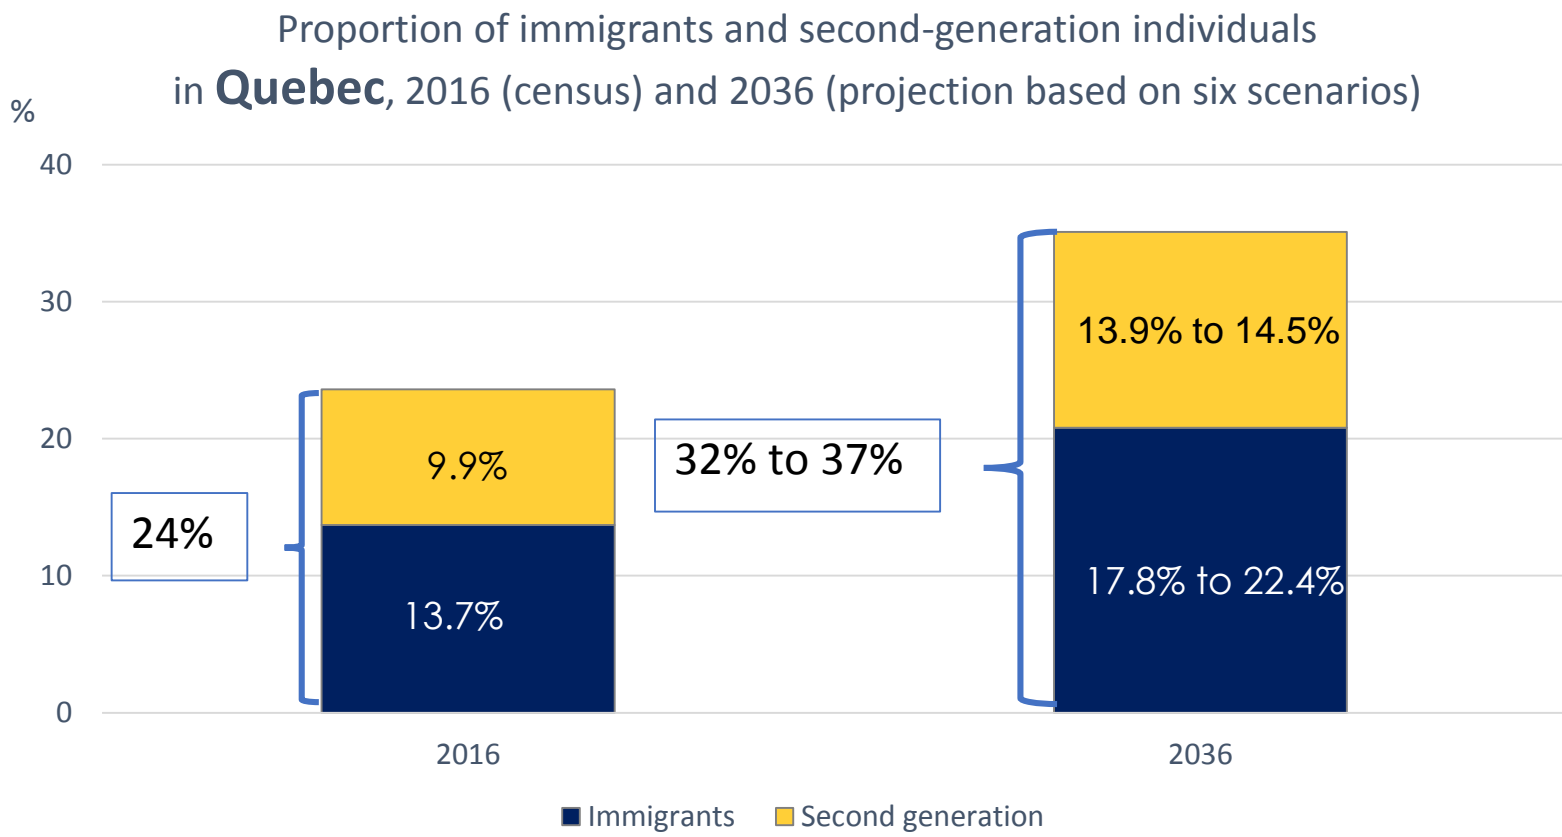

2036 – Projected based on six scenarios

Sources: Statistics Canada, Census of Population, 2016; *Immigration and Diversity: Population Projections for Canada and its Regions, 2011 and 2036*, Statistics Canada Catalogue no. 91-551.

# Although the diversity of the Quebec population has primarily been driven by various waves of international immigration, the population of people born in Canada to at least one immigrant parent is growing

In the **Montréal** CMA, immigrants and second-generation individuals represented **41.8%** of the population in **2016**.  
 This proportion could rise to between **49.7% and 55.6% in 2036**.

Sources: Statistics Canada, Census of Population, 2016; Immigration and Diversity: Population Projections for Canada and its Regions, 2011 and 2036, Statistics Canada Catalogue no. 91-551.

## Linguistic diversity in Montréal: more than 160 languages, including Indigenous and immigrant languages

Relative proportion of the Montréal CMA population who reported a language other than English or French as their mother tongue, 2016

### Mother tongue of the Montréal population (CMA)

64.1%	French
11.7%	English
22.8%	Other language only
1.5%	English-French

### Mother tongue of immigrants in Montréal (CMA)

20.8%	French
7.7%	English
70.6%	Other language only
0.9%	English-French

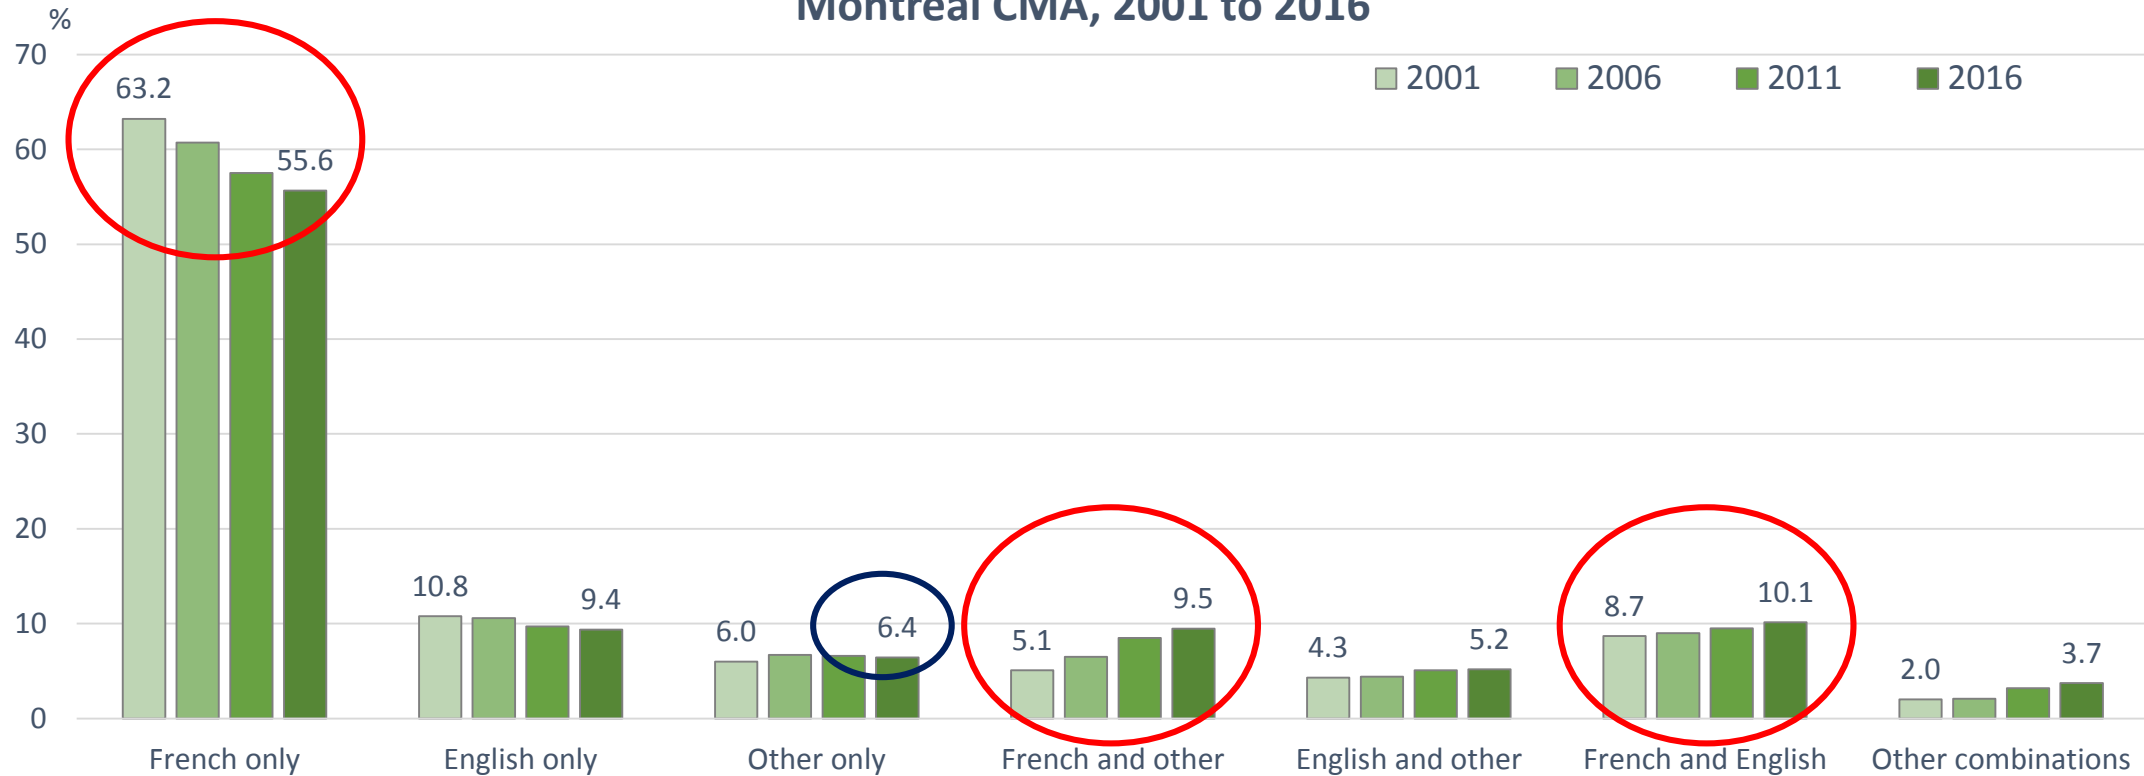

Source: Statistics Canada, Census of Population, 2016.

# Growing multilingualism in the home

Languages spoken most often or regularly at home (secondary use),  
Montréal CMA, 2001 to 2016

Sources: Statistics Canada, Census of Population, 2001, 2006, 2011, and 2016.

# More than 250 ethnic or cultural origins were reported by the Quebec population

## Top 20 ethnic origins reported in Quebec, 2016

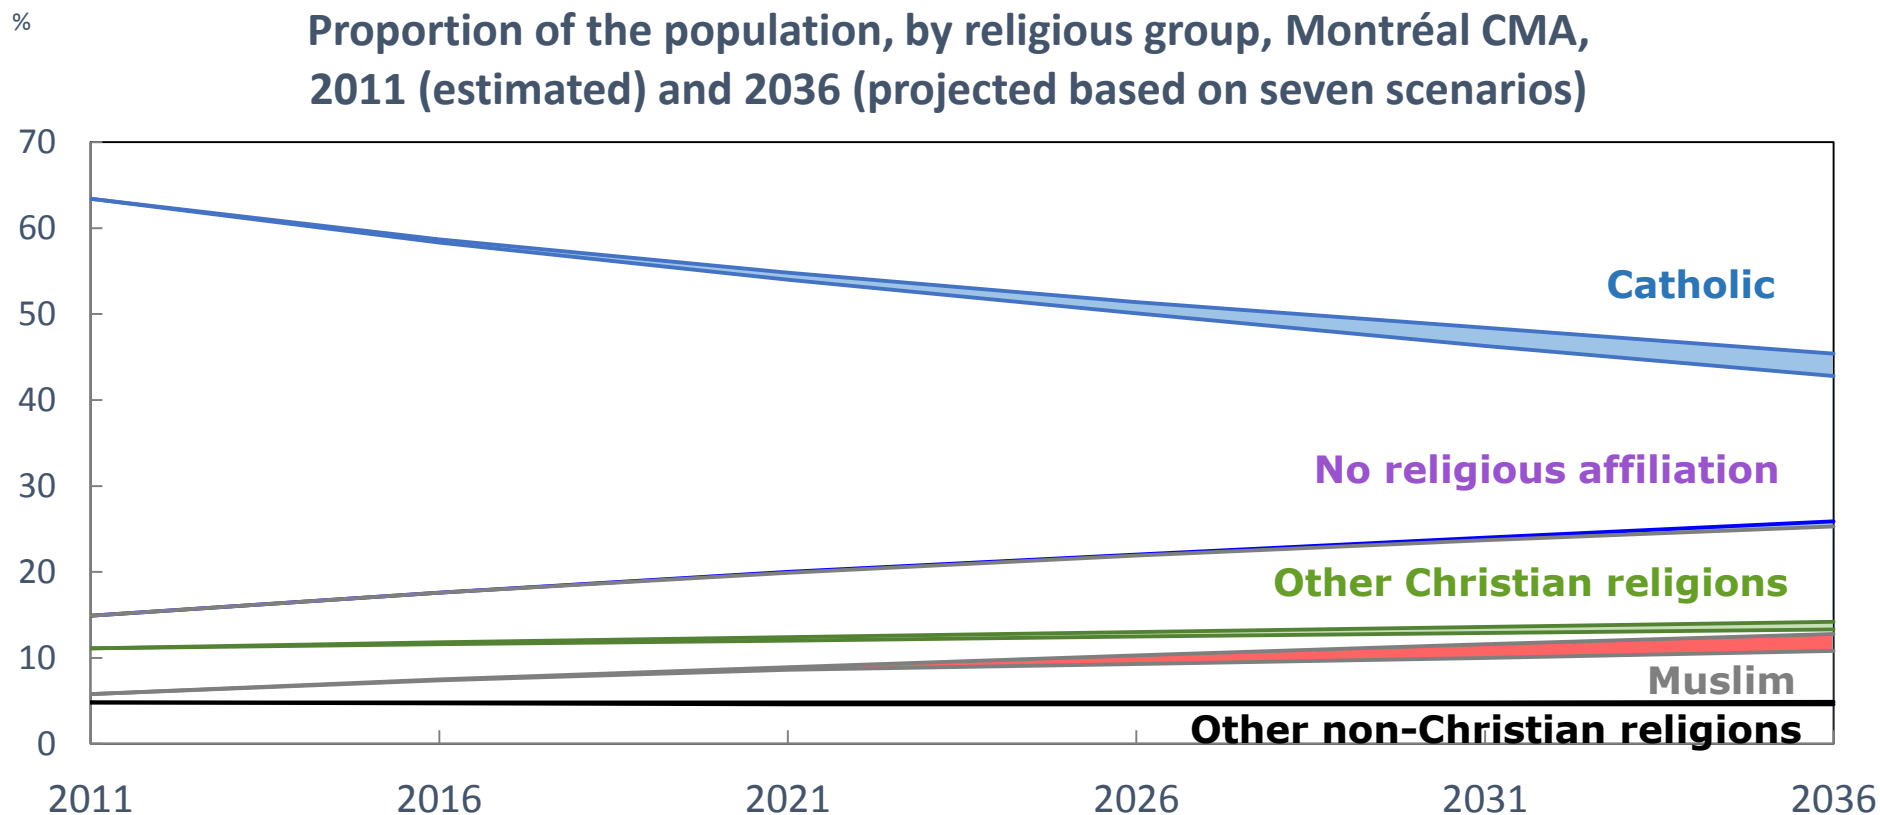

In 2016, 25% of the Quebec population reported more than one origin in the census.

Ethnic origin refers to the ethnic or cultural origins of the person's ancestors. An ancestor is usually more distant than a grandparent.

Note: The total responses in this graph is greater than the total population, since a person can report more than one origin.

Source: Statistics Canada, Census of Population, 2016

# According to the demographic projections, the proportion of the population in Montreal who report being Catholic may continue to decline, while the proportions who report having no religious affiliation or being Muslim could keep growing

44% of Catholics in Montréal attended religious ceremonies at least once a year in 2017.

**Note:** The shaded area indicates the interval between the minimum and maximum values projected by all the scenarios considered.

**Sources:** Statistics Canada. 2017. *Immigration and Diversity: Population Projections for Canada and its Regions, 2011 and 2036*, Statistics Canada Catalogue no. 91-551 ; General Social Survey, 2017.

# In Quebec, the three largest visible minority groups as defined by the *Employment Equity Act* are Black, Arab and Latin American

Main groups defined as visible minorities in Quebec, 2001 to 2016

Sources: Statistics Canada, Census of Population, 2001, 2006 and 2016; National Household Survey, 2011.

# Inclusion and integration: Challenges and issues

# In Quebec, the proportion of recent immigrants who know French has increased over the decades

Self-reported ability of recent immigrants to conduct a conversation in English or French, Quebec, 1971 to 2016

## Ability to have a conversation in at least three languages

- In the Montréal CMA, around **1 in 2 immigrants** with a mother tongue other than English or French can have a conversation in at least three languages.
- In the Toronto, Vancouver and Calgary CMAs, the ratio was **1 in 5 immigrants**.

Sources: Statistics Canada, Census of Population, 1971, 1981, 1991, 2001, and 2016; National Household Survey, 2011.

# Between 2006 and 2016, there was an increase in the equal use of French and English at work by the population with an “other” mother tongue and a decrease in the predominant use of English

Use of English and French at work by the population with a mother tongue other than English or French who worked in Montréal CMA, 2006 and 2016

Sources: Statistics Canada, Census of Population, 2006 and 2016.

# Although the situation has improved recently, employment rates for immigrants remain lower than for the Canadian-born. However, this gap is smaller for established immigrants than for recent immigrants

Employment rate for the core-aged group (25 to 54 years),  
by sex and immigrant status and immigration period, Montréal CMA, 2006 to 2018

- All immigrants
- Recent immigrants (less than 5 years in Canada)
- Established immigrants (at least 10 years in Canada)
- Canadian-born women

- All immigrants
- Recent immigrants (less than 5 years in Canada)
- Established immigrants (at least 10 years in Canada)
- Canadian-born men

Source: Statistics Canada, Labour Force Survey.

# The unemployment rates of immigrants are much higher than for the Canadian-born. These gaps narrow when isolating the influence of key social and ethnocultural characteristics

Unemployment rate ratio (observed and adjusted\*) of immigrants to Canadian-born, by sex, Montréal CMA, 1996 to 2016

\* The adjusted rates isolate the influence of work experience, marital status, education, visible minority status and knowledge of official language.

Sources: Statistics Canada, Census of Population, 1996, 2001, 2006 and 2016; National Household Survey, 2011.

Observed unemployment rates (%) of core-aged group, by immigrant status and sex, Montréal CMA, 1996 to 2016

	Women	
	Non-immigrants	Immigrants
1996	7.8	17.7
2001	5.0	12.8
2006	4.2	12.2
2011	4.2	12.3
2016	4.1	10.7
	Men	
	Non-immigrants	Immigrants
1996	8.8	16.0
2001	5.3	11.4
2006	4.8	10.7
2011	5.2	10.6
2016	5.5	8.8

# Among women and men, the significant gap between the annual median salaries of immigrants and the Canadian-born is mostly due to a range of ethnocultural and socioeconomic characteristics and work experience.

Annual median salary ratio (observed and adjusted\*) of core-aged immigrant women workers and Canadian-born women workers, Montréal CMA, 1996 to 2016

Annual median salary ratio (observed and adjusted\*) of core-aged immigrant men workers and Canadian-born men workers, Montréal CMA, 1996 to 2016

\* The adjusted rates isolate the influence of age, marital status, education, knowledge of official languages, visible minority status, full-time or part-time work, the number of weeks worked in a year, and the major occupation group.

Sources: Statistics Canada, Census of Population, 1996, 2001, 2006 and 2016; National Household Survey, 2011.

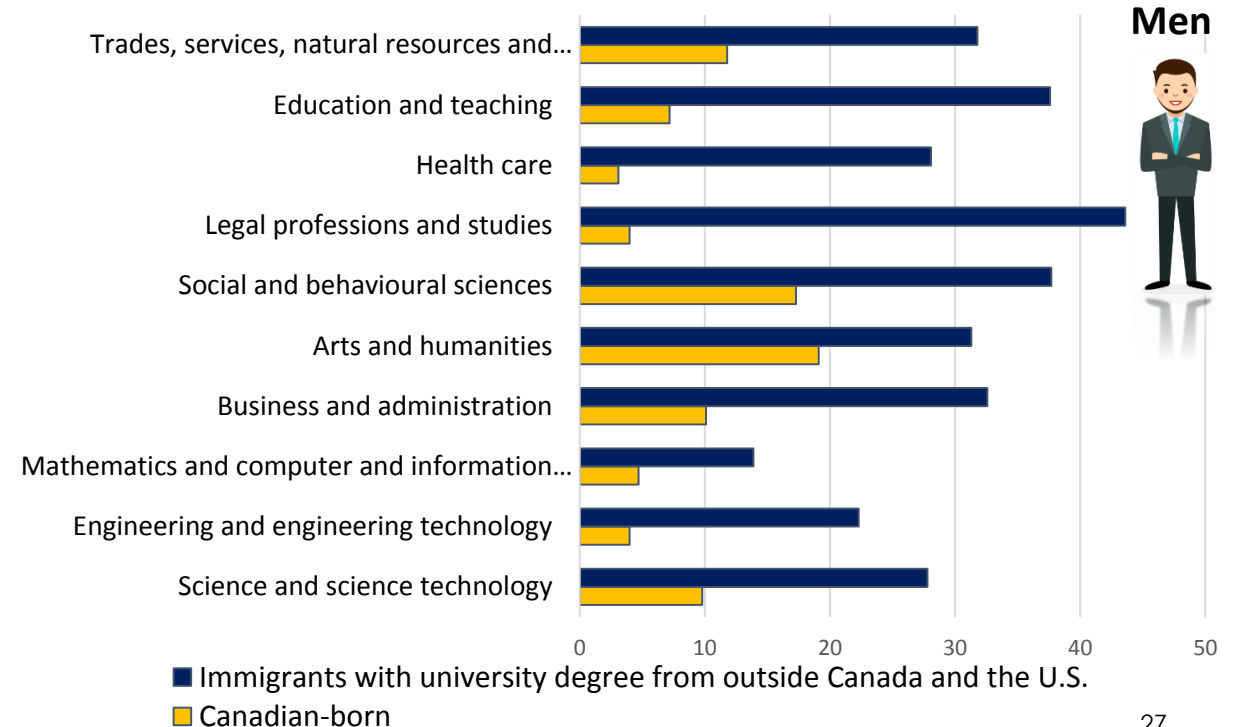

**The proportion of immigrants in a low-income situation is much higher than the proportion of Canadian-born.**

Sources: Statistics Canada, Census of Population, 2016; National Household Survey, 2011.

The proportion of immigrants who earned a university degree outside Canada and the United States and who have a job that requires a high school diploma or less is much higher than the proportion of Canadian-born.

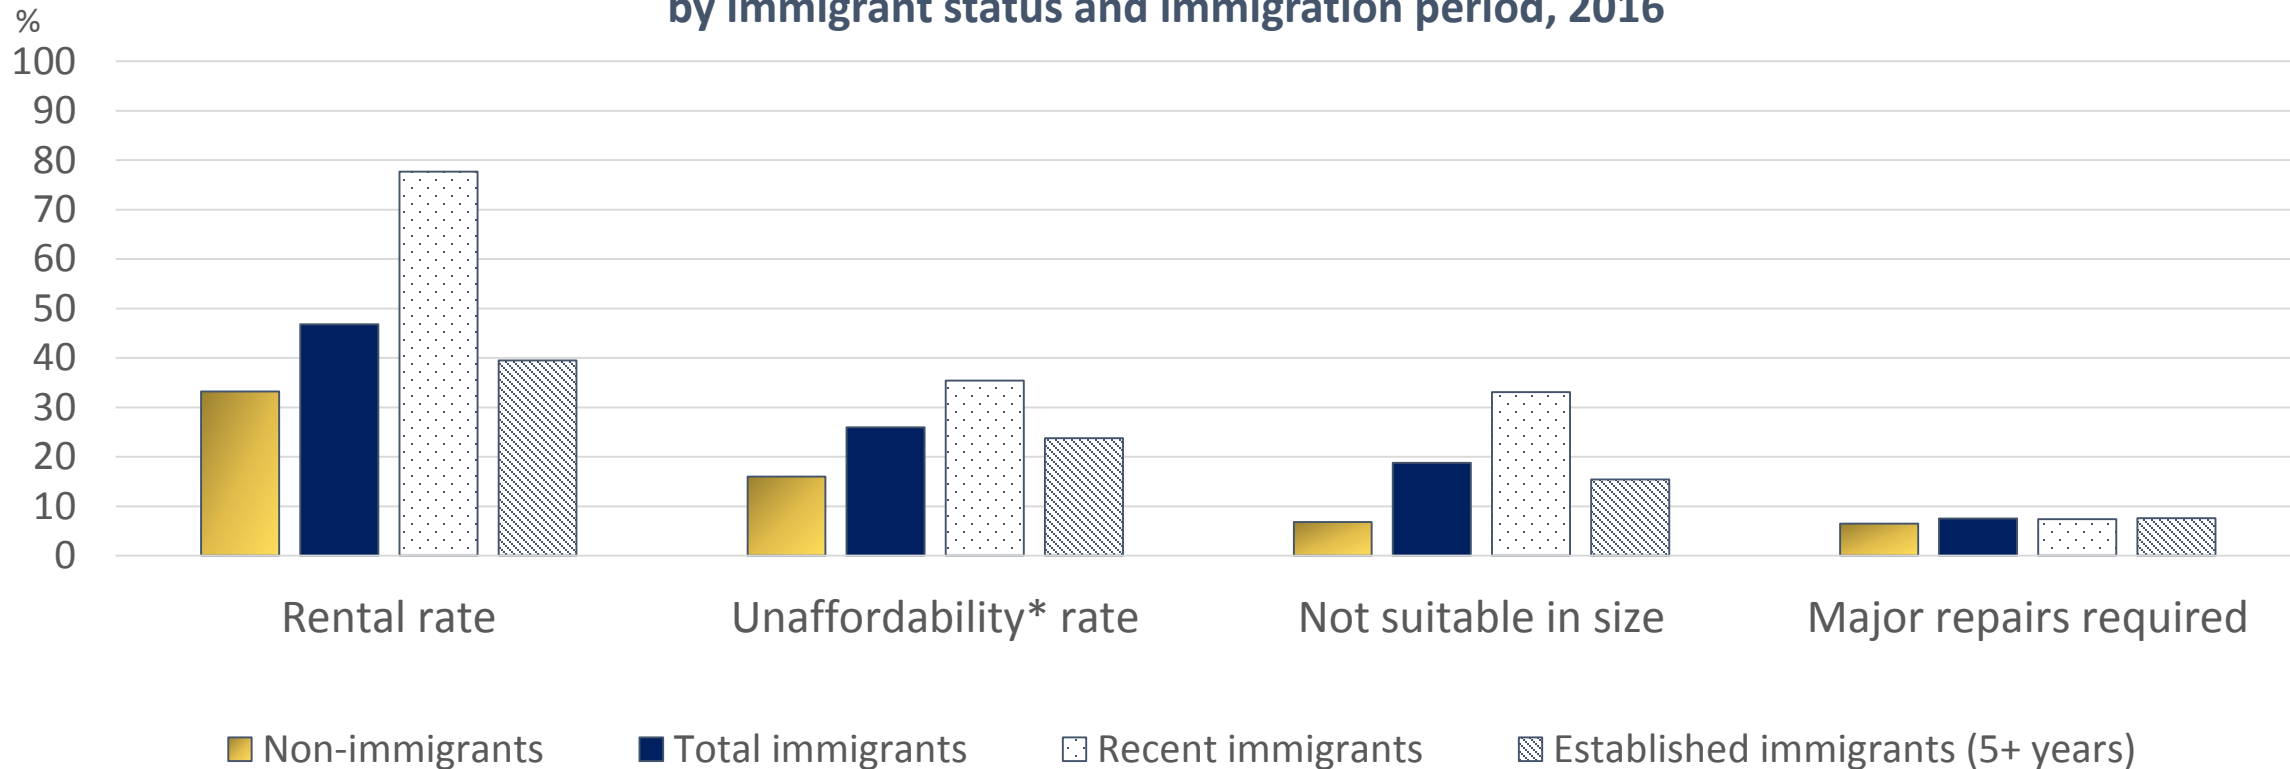

Overqualification rate among workers aged 25 or older with a university diploma, by main field of study and immigrant status, Montréal CMA, 2016

Source: Statistics Canada, Census of Population, 2016.

# Housing conditions for immigrants residing in Montréal

Housing characteristics in Montréal CMA, by immigrant status and immigration period, 2016

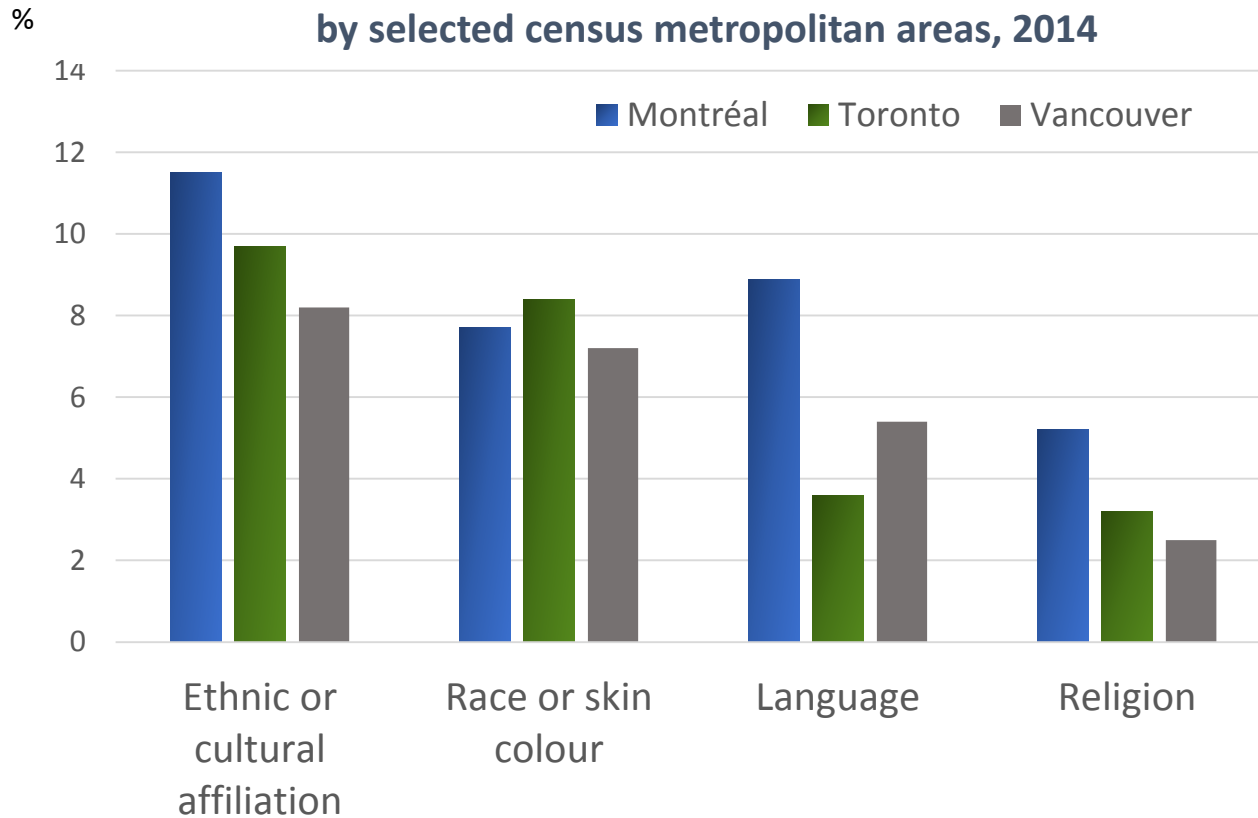

\* At least 30% of household income is dedicated to housing.

Source: Statistics Canada, Census of Population, 2016.

# In Montreal, 1 in 5 immigrants reported experiencing discrimination or being treated unfairly in the last five years

Reasons for discrimination mentioned by immigrants, by selected census metropolitan areas, 2014

## The likelihood of reporting discrimination is similar among the second generation

Source: Statistics Canada, General Social Survey (victimization), 2014.

# The number of police-reported hate crimes—particularly crimes motivated by hatred of religion, race or ethnic origin—has been on the rise since 2014

## Number of police-reported hate crimes in Montréal CMA

Reason reported by police: **Religion**

Reason reported by police: **Race or ethnic origin**

Source: Statistics Canada, Uniform Crime Reporting Survey.

# Multiple dimensions or facets of inclusion and integration

**Education**    Equity    **Culture**  
Inequality    **Income**    Vulnerable groups  
**Family**    **Citizenship**  
Exclusion    **Justice**    Human rights,  
**Discrimination**  
**Health**    Well-being    **Work**    **Volunteering**  
Living together    **Civic participation**
