#### **Basis of Presentation**

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes the Office's spending authorities granted by Parliament and those used by the Office consistent with the *Main Estimates* for the 2013-2014 fiscal year.

This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before moneys can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

The Office uses the full accrual method of accounting to prepare and present its annual departmental financial statements that are part of the *Office Annual Report*. However, the spending authorities voted by Parliament remain on an expenditure basis.

#### B) Highlights of fiscal quarter and fiscal year to date (YTD) results

#### Statement of Authorities

As of September 30, 2013, the decrease of \$586,000 or 2.8% in the total available budgetary authorities compared to 2012-2013 is mainly due to a timing difference in the approval of the Operating Budget Carry forward - TB Vote 25 which has not been received yet for 2013-14.

#### **Budgetary Expenditures by Standard Object**

The variance of \$454,000 or 8.4% in total quarterly spending from the previous year is mainly due to decreases in personnel and professional and special services expenditures.

The decrease in personnel expenses of \$159,000 or 3.7% is a combination of lower salary and overtime costs compared to 2012-2013.

The decrease of \$148,000 or 37% in professional and special services expenses is mainly a result of decreases in temporary help (\$89,000), information technology consultants (\$38,000) and other business (\$17,000) services.

#### C) Risks and Uncertainties

This Departmental Quarterly Financial Report (QFR) reflects the results of the current fiscal year as per the Main Estimates for which full supply was released on June 20, 2013.

The Office's most significant expenditure remains personnel including employee benefits. It manages its personnel appropriation within approved levels with due diligence while continuing to implement an organizational-wide human resources plan. The ongoing objectives of this plan is to effectively align staffing processes with the priorities of the organization and implement strategies for improving operational efficiencies and value for money.

#### D) Budget 2013 Implementation

Although the Office was not directly affected by Budget 2013 measures, it will continue to seek innovative, cost efficient ways of addressing risks. The Office will also continue to look for opportunities to work in collaboration with other Government of Canada organizations to achieve efficiencies to deliver on its business goals. With these changes the Office will continue to contribute to the effective management of human resources to the benefit of federal public service departments and agencies, managers, employees and Canadians at large.
