

FUTURE-ORIENTED STATEMENT OF OPERATIONS

(UNAUDITED)

FOR THE YEAR ENDED MARCH 31, 2020

Future-Oriented Statement of Operations (unaudited) for the year ending March 31 (in thousands of dollars)

	Forecast results 2018-19	Planned results 2019-20
Expenses		
Economic Development in Quebec	175,988	193,127
Internal Services	21,908	23,288
Expenses incurred on behalf of government	(19,340)	(10,693)
Total expenses	178,556	205,722
Revenues		
Interest income	786	467
Miscellaneous revenues	59	25
Revenues earned on behalf of government	(845)	(492)
Total revenues	0	0
Net cost of operations before government funding and transfers	178,556	205,722

The accompanying notes form an integral part of the Future-Oriented Statement of Operations.

Notes to the Future-Oriented Statement of Operations (unaudited)

1. Methodology and significant assumptions

The Future-Oriented Statement of Operations has been prepared on the basis of government priorities and departmental plans as described in the Departmental Plan.

The information in the forecast results for fiscal year 2018-19 is based on actual results as at November 30, 2018 and on forecasts for the remainder of the fiscal year. Forecasts have been made for the planned results for fiscal year 2019-20.

The main assumptions underlying the forecasts are as follows:

- The department's activities will remain substantially the same as in the previous year.
- Expenses and revenues, including the determination of amounts internal and external to the government, are based on past experience. The general historical pattern is expected to continue.

These assumptions are made as at November 30, 2018.

2. Variations and changes to the forecast financial information

Although every attempt has been made to forecast final results for the remainder of 2018-19 and for 2019-20, actual results achieved for both years are likely to differ from the forecast information presented, and this variation could be material.

In preparing this Future-Oriented Statement of Operations, Canada Economic Development for Quebec Regions (CED) has made estimates and assumptions about the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and assumptions are based on past experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, and are continually evaluated.

Factors that could lead to material differences between the Future-Oriented Statement of Operations and the historical statement of operations include:

- the timing and the amount of acquisitions and disposals of property and equipment, which may affect gains, losses and amortization expense;
- · the implementation of new collective agreements;
- economic conditions, which may affect both the amount of revenue earned and the collectability of loan receivables;
- other changes to the budget, such as new initiatives or technical adjustments later in the fiscal year.

After the Departmental Plan is tabled in Parliament, CED will not be updating the forecasts for any changes in financial resources made in ensuing supplementary estimates. Variances will be explained in the Departmental Results Report.

3. Summary of significant accounting policies

The Future-Oriented Statement of Operations has been prepared using the Government of Canada's accounting policies in effect for fiscal year 2018-19, and is based on Canadian public sector accounting standards. The presentation and results using the stated accounting policies do not result in any significant differences from Canadian public sector accounting standards.

Significant accounting policies are as follows:

a) Expenses

Transfer payments are recorded as an expense in the year the transfer is authorized and all eligibility criteria have been met by the recipient.

Other expenses are generally recorded when goods are received or services are rendered and include expenses related to personnel, professional and special services, repair and maintenance, utilities, materials and supplies, as well as amortization of tangible capital assets. Provisions to reflect changes in the value of assets or liabilities, such as provisions for bad debts, loans and advances, as well as prepaid expenses, and other are also included in other expenses.

b) Revenues

Revenues are accounted for in the period in which the underlying transaction or event that gave rise to the revenue takes place, except for the item listed below. Loans are non-interest bearing and, due to the uncertainty as to final collection, interest income is only charged on overdue amounts when received. Other revenues consist of other fees and gains on the disposal of capital and non-capital assets.

Revenues that are non-respendable are not available to discharge the department's liabilities. Although the deputy head is expected to maintain accounting control, she has no authority over the disposition of non-respendable revenues. As a result, non-respendable revenues are considered to be earned on behalf of the Government of Canada and are therefore presented as a reduction of the department's gross revenues.

4. Parliamentary authorities

The department is financed by the Government of Canada through parliamentary authorities. Financial reporting of authorities provided to the department differs from financial reporting according to generally accepted accounting principles because authorities are based mainly on cash flow requirements. Items recognized in the Future-Oriented Statement of Operations in one year may be funded through parliamentary authorities in prior, current or future years. Accordingly, the department has different net cost of operations for the year on a government funding basis than on an accrual accounting basis. The differences are reconciled in the following tables:

a) Reconciliation of net cost of operations to requested authorities (in thousands of dollars)

Forecast results 2018-19	Planned results 2019-20
178,556	205,722
(362)	(394)
(5,765) 79	(5,856) (58)
3,399	3,898
255	182
(2,394)	(2,228)
353	334
117,490	118,319
117,843	118,653
294,005	322,147
	2018-19 178,556 (362) (5,765) 79 3,399 255 (2,394) 353 117,490 117,843
