

Summary of Migratory Birds Hunting Regulations

AUGUST 2021
TO JULY 2022

To hunt migratory game birds in Canada, you must possess:

- a valid Migratory Game Bird Hunting Permit;
- a Canadian Wildlife Habitat Conservation Stamp affixed to or printed on the permit.

These two documents are issued by the federal government and are valid in all provinces and territories.

Most provinces and territories have additional licence requirements for hunting migratory birds and/or to carry firearms. To know what you require, and if there are further restrictions for hunting migratory birds, please verify the applicable regulations for the province/territory where you will be hunting. Municipalities may have additional restrictions on discharging firearms. Note that all required permits and licences must be in your possession while you are hunting.

Waterfowl and Snipe Hunting Zones

“Coastal” refers to that portion of the coast lying within 100 metres of the mean ordinary high-water mark, including the coastal portions of offshore islands and the adjacent marine coastal waters. For more information on hunting districts, contact the Provincial Ministry of Fisheries and Land Resources.

You can purchase and print your Migratory Game Bird Hunting Permit by visiting the *Migratory Game Bird Hunting Permit* web page on the Government of Canada website (www.canada.ca/en/environment-climate-change/services/migratory-game-bird-hunting/permit.html).

Consultation Process and Migratory Birds Regulatory Reports

A national consultation process has been developed to provide an opportunity for everyone to participate in developing the migratory birds hunting regulations. For more information, consult the *Migratory Birds Regulatory Report Series* web page on the Government of Canada website (www.canada.ca).

Enforcement

The *Environmental Violations Administrative Monetary Penalties Regulations* authorize game officers to use administrative monetary penalties (AMPs) to enforce the provisions of the *Migratory Birds Convention Act, 1994* (MBCA) and its associated regulations.

The fine regime and penalty provisions in the MBCA and the *Designation of Regulatory Provisions for Purposes of Enforcement (Migratory Birds Convention Act, 1994) Regulations* allow courts to impose penalties that reflect the seriousness of offences following a conviction pursuant to the MBCA or its associated regulations.

For more information on AMPs and the fine regime, consult the *About the Environmental Enforcement Act* web page on the Government of Canada website (<https://canada-preview.adobecqms.net/en/environment-climate-change/services/environmental-enforcement/acts-regulations/about-act.html>).

Game officers enforce the federal MBCA throughout Canada. This law regulates human interventions, such as hunting that could adversely affect long-term wildlife conservation. For any questions, please contact Wildlife Enforcement by telephone or by email at the contact information at the end of this hunting summary.

Waterfowler Heritage Days

Waterfowler Heritage Days are intended for young hunters under 18 years of age. These days provide opportunities for young people, for a few days before or during hunting seasons, to:

- develop safe hunting habits in a supervised and structured environment;
- be guided by adult hunters who serve as mentors and pass on their skills and knowledge;
- learn more about wildlife conservation.

The following rules are in effect during Waterfowler Heritage Days:

- Young hunters can hunt without having a Migratory Game Bird Hunting Permit or Canadian Wildlife Habitat Conservation Stamp.
- Young hunters must comply with all safety and licensing requirements found in the *Firearms Act* and provincial hunting regulations.
- Young hunters must be accompanied by a licensed mentor (who is not a minor).
- Adults acting as mentors:
 - must have a valid Migratory Game Bird Hunting Permit and Canadian Wildlife Habitat Conservation Stamp;
 - may not hunt or carry a firearm;
 - may accompany no more than two young hunters.
- Only young hunters are allowed to hunt when Waterfowler Heritage Days fall outside of the regular open seasons.

Murre (turr) hunters: This hunt is only open to **residents** of Newfoundland and Labrador. Murres are the only migratory bird that can be legally hunted from a boat that is moving due to its motor. Any occupant of a boat who shoots or retrieves murres, or anyone who operates a boat to pursue murres, is hunting as defined in the Migratory Birds Regulations, and is **required** to hold a Migratory Game Bird Hunting Permit and a Canadian Wildlife Habitat Conservation Stamp.

Shot

- **Non-toxic shot must be used** to hunt all migratory game birds, except for murres (turrs).

To reduce your exposure to contaminants in meat, make sure, before cooking it, to:

- remove the shot from birds hunted with lead shot;
- remove the skin and fat from fish-eating birds.

Species at Risk

Barrow's Goldeneye is listed in the *Species at Risk Act* as a species of special concern, and the **daily bag and possession limit is 1 bird**.

CRIME STOPPERS

Anyone wishing to report illegal hunting activities, illegal selling of birds or other offences related to migratory birds is asked to call Crime Stoppers at 1-800-222-TIPS (8477) or “Échec au crime” in the province of Quebec at 1-800-711-1800. Your call is anonymous, and you may be eligible for a cash reward.
