## Minister's message

On behalf of Innovation Science and Economic Development Canada (ISED), I am pleased to present our report on fees for 2020–21.

The Service Fees Act provides a modern legislative framework that enables cost-effective delivery of services and, through better reporting to Parliament, improves transparency and oversight.

As part of ISED's commitment to meeting the evolving needs of Canadians and the Canadian economy, the Department has put the emphasis on responding to the COVID-19 pandemic. The economic downturn brought on by the pandemic caused an overall fee volume decrease for fiscal year 2020-21.

As part of the departmental response to the pandemic, an anticipated spectrum auction was delayed to June 2021. This resulted in a large decrease in fee revenue for fees set by either market rate or auction for the current fiscal year. Overall fee volumes and revenues are expected to be normalized in future years.

As the implementation of the Service Fees Act continues, I expect Canadians and Canadian businesses will benefit from increased transparency, accountability and predictability in the management of fees charged by ISED.

The Honourable François-Philippe Champagne, P.C., M.P.  
Minister of Innovation, Science and Industry

## About this report

This report, which is tabled under section 20 of the *Service Fees Act*, including the *Low-Materiality Fees Regulations* and subsection 4.2.8 of the *Directive on Charging and Special Financial Authorities*, contains information about the fees that Innovation, Science and Economic Development Canada (ISED) had the authority to set in 2020–21.<sup>1</sup>

Government of Canada departments may set fees for services, licences, permits, products, the use of facilities, for other authorizations of rights or privileges, or to recover, in whole or in part, costs incurred in relation to a regulatory scheme.

For reporting purposes, fees must be categorized under the following three fee-setting mechanisms:

1. Act, regulation or fees notice
  - An act of Parliament delegates the fee-setting authority to a department, minister or Governor in Council.
2. Contract
  - Ministers have the authority to enter into contracts, which are usually negotiated between the minister and an individual or organization, and which cover fees and other terms and conditions. In some cases, that authority may also be provided by an act of Parliament.
3. Market rate or auction
  - The authority to set these fees is pursuant to an act of Parliament or regulation, and the minister, department or Governor in Council has no control over the fee amount.

This report contains information about all fees that are under ISED's authority.

The information covers fees subject to the Service Fees Act.

For fees set by act, regulation or fees notice, the report provides totals for fee groupings, as well as detailed information for each fee.

Although the fees that ISED charges under the *Access to Information Act* were subject to the *Service Fees Act*, they are not included in this report. Information on ISED's access to information fees for 2020–21 can be found in our access to information report, which is posted on [ISED ATIP References Pages](#)<sup>i</sup>.

1. All years presented in this manner refer to fiscal years beginning April 1st and ending March 31st.

## Remissions

This report does not include remissions issued under the authority of the *Service Fees Act*, since this requirement took effect on April 1, 2021. Remissions issued under the *Service Fees Act* will be reported for the first time, as applicable, in the 2021–22 Fees Report, which will be published in 2022–23.

The *Service Fees Act* requires departments to remit a fee, in part or in full, to a fee payer when a service standard is deemed not met. Under the *Service Fees Act* and the *Directive on Charging and Special Financial Authorities*, departments had to develop policies and procedures for determining:

- whether a service standard has been met
- how much of a fee will be remitted to a fee payer if a service standard is deemed not met

ISED's remission policy and procedures were made available to the public as of April 1, 2021, and can be found on the following web page [Service Fees Remission Policy](#)<sup>ii</sup>.

This report does not include remissions issued under the *Service Fees Act*. The report also does not include other remissions.
