Trademarks Journal

2021-01-20 — Vol. 68 No. 3456

Trademarks Journal

Vol. 68 No. 3456

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Class 09

Software for migrating, deploying, managing business software and for database management; Downloadable cloud-based software for storing and managing text documents, digital images, music and voice clips, migrating, deploying and managing business software and for database management; Downloadable cloud computing software for managing business software and for database management; Downloadable cloud computing software for electronic interchange of business operations data; Computer software for electronic interchange of business operations data; computing software for managing business software and database management; computer software for configuring, migrating and upgrading cloud integration software on tablets, computer notebooks and cellular phone; computer operating system software for computers, cellular phones, computer notebooks and tablets; Computer peripherals, namely, mice, keyboards, monitors, printers, scanners, microprocessors, hard drives, flash drives, computer cables, computer carrying cases, computer interface cards, computer network adaptors, computer servers; Computer hardware; Computer accessories, namely, computer mouse, keyboards, monitors, computer software for use in database management, home theater equipment, namely, TVs, cameras; telephones, fax machines, video equipment and audio equipment, namely, batteries, hand-held computers, mobile computers, portable computers, chargers, converters, power adapters, network media players to stream, download, and store music, movies, documents and photos, Computer software for recording, transmission, processing and reproduction of sound, images or data, namely software featuring software for improving infrastructure of business computer systems by increasing integration and connection among people, information, and objects, by on-site installations of vertically integrated stacks that promote business application efficiency, and by deployment of innovative architecture within a global network of data centers for the connection and integration of computing resources; Software for use by others for use for real-time collection, capture, processing and analysis of their business operation information, backup, archive, and storage software to allow the replication and archival of their important business operation information; software for managing business software and database management; software for configuring, migrating and upgrading cloud integration software on tablets, computer notebooks and cellular phones; Software for collecting and processing log and event data, namely, application logs, security logs, operating system logs, directory service logs, file replication logs

and DNS server logs from computers, tablets, computer notebooks and cellular phones, websites and for collecting these logs from third-party software applications loaded onto computers, tablets, computer notebooks and cellular phones; Software for data management, for accessing, managing, processing, storing, streaming and analyzing text documents, digital images, audio music and voice clips, third-party software programs in the fields of business management, computer network management, third-party electronic data storage, business logistics and computer network security; software data management, for accessing, managing, processing, storing, streaming and analyzing third-party business operational software and databases in the fields of business management, computer network management, third-party electronic data storage, business logistics and computer network security; Software for data management, for accessing, managing, processing, storing, streaming and analyzing the electronic interchange of business information namely e-commerce software to allow users to perform electronic business transactions, for managing customer accounts, and for use in managing and controlling production schedules, shipping schedules, purchase of materials, and inventories in the fields of business management, computer network management, third-party electronic data storage, business logistics and computer network security; Software for tracking the scheduled maintenance and updating of third-party business operational software and database management; Software for accessing, managing, processing, storing, streaming and analyzing the electronic interchange of business operations data; Software for accessing, managing, processing, storing, streaming and analyzing third-party business operation information, digital videos and digital graphics and third-party software applications to aid in the integration into a global computer network; Electronic databases to allow users to track electronic business transactions, for managing customer accounts, and for use in tracking production schedules, shipping schedules, purchase of materials, and product inventories; Software for use in database management; Software for the operation and maintenance of third-party database servers held on a computer network; Software to aid in the integration of existing third-party computer networks into cloud based computing environments.

Services

Class 35

(1) On-line ordering services, catalog ordering services, and telephone ordering services in the fields of computer hardware, networking hardware, servers, computer software, computer peripherals, computer memory cards, monitors and scanners, speakers, projectors, handheld computers, internal drives, external drives, removable drives, blank computer storage drives, power adaptors, power strips, voltage surge protectors, batteries, cameras, mobile computers, portable computers, printers, printer equipment, toners, inks, and paper; distributorships in the fields of computer hardware, networking hardware, servers, computer software, computer peripherals, computer memory cards, monitors and scanners, speakers, projectors, handheld computers, internal drives, external drives, removable drives, blank computer storage drives, power adaptors, power strips, voltage surge protectors, batteries, cameras, mobile computers, portable computers, printers, printer equipment, toners, inks, and paper; value-added reseller services, namely, distributorship services in the fields of computer hardware, networking hardware, servers, computer software, computer peripherals, computer memory cards, monitors and scanners, speakers, projectors, handheld computers, internal drives, external drives, removable drives, blank computer storage drives, power adaptors, power strips, voltage surge protectors, batteries, cameras, mobile computers, portable computers, printers, printer equipment, namely, toners, inks, and paper; business consulting services in the field of computer software and computer hardware integration; business management consultancy; procurement services, namely, purchasing in the fields of computer hardware, networking hardware, servers, computer software, computer peripherals, computer memory cards, monitors and scanners, speakers,

projectors, handheld computers, internal drives, external drives, removable drives, blank computer storage drives, power adaptors, power strips, voltage surge protectors, batteries, cameras, mobile computers, portable computers, printers, printer equipment, toners, inks, and paper for others; commercial administration of the licensing of the goods and services of others, employment agency services; outsourcing of computer networking configuration services for others; computerized database management services for others; consultation in the field of management and compilation of computerized databases; employment hiring, recruiting, placement, staffing and career networking services; on-line retail stores in the fields of computers, computer peripherals, computer software, computer hardware, telephones and headphones, microphones, fax machines, audio and video receivers, audio/video cable connectors, audio/video cables, hand-held computers, mobile computers, portable computers, home office computer equipment, computer graphic imaging equipment as well as computer scanners, and computer printers, firewall network security equipment, removable computer data storage drives, digital-to-analog converters, direct current converters, electric converters, and camera adapters, computer card adapters, computer network adapters, video cable adapters, electric adapter cables, network media players to stream, download, and store music, movies, documents and photos, inks and toners, power protection devices for power faults and surges, CDs, DVDs, CD and DVD burners, batteries, distributorship services featuring computers, computer parts, computer software, computer peripherals, computer hardware, electronic components, namely computer hardware parts and data center hardware; business management services, namely, managing logistics, reverse logistics, and supply chain services for others; Inventory control management services; business marketing consulting and information services in the fields of customer relationship management, product purchases, product cost analysis, business information management services concerning the development of data processing programs by order of third parties; providing operational business assistance to enterprises by providing technical operation services for the management and operation of computer servers with network and Internet infrastructure and interconnection; promoting the goods and services of others through advertisements and infomercials on Internet websites; real-time pricing, availability and ordering services on behalf of others; product structured pricing, vendor special bids, and index pricing models on behalf of others; providing a searchable website featuring the goods and services of other vendors; commercial assistance in the field of business computer systems installation and integration; business management consultancy as well as development of processes for the analysis and the implementation of strategy plans and business management projects, providing information on the procurement of goods and services on behalf of other businesses, arranging of contracts for the buying and selling of goods for others, and on the administration assistance in responding to calls for tenders all in the field of computers and computer networks via a global computer network; Asset tagging and reporting services, namely, inventory control services, preparing business reports, provision of marketing reports, statistical analysis and reporting services for business purposes; Inventory control reporting services; physical audit services namely, on-site inventory auditing services; procurement services in the form of purchasing computer software and hardware in the fields of management software integration, implementation and project management services.

Class 36

(2) Financial asset management services; providing information on financial appraisals in responding to calls for tenders in the field of computers and computer networks via a global computer network.

Class 37

(3) Installation, maintenance, and repair services in the fields of fibre optic networks, Internet access networks, computer networks, installation of computer hardware for global computer

networks; Installation, maintenance, and repair services in the fields of computers, computer systems consisting of computer hardware and peripherals, computer laptops, tablets, smart phones, and printers; technical support services, namely, troubleshooting in the nature of the repair of computer hardware.

Class 39

(4) Consultation for the physical storage of electronically-stored data or documents for archiving databases, images and other electronic data; warehousing services; provision of a data warehouse, namely, physical storage of electronically stored data.

Class 42

(5) Providing management and operation of computer mainframes; Installation of digital data security software to prevent cyberattacks and personal and business data breaches, and the installation of anti-virus and anti-malware software; providing online non-downloadable software for tracking and managing licenses for software programs; computer services, namely, design, maintenance, and administration of local area networks and wide area networks, design and implementation of enterprise software, computer technology support and management services; technical support services, namely, troubleshooting computer hardware and software problems, software application support and hardware diagnostic services; computer security consultancy; application service provider services featuring software to create catalogs for purchases within an enterprise and to track purchase orders; hosting of digital content on the Internet; leasing of on-site private computer network server facilities; providing co-location services, namely, providing facilities for the location of computer servers and network equipment of others; computer disaster recovery planning services, namely, third-party data back-up and recovery; computer software and computer networking integration services; providing on-site management of computer networks for others; management of computer networks for others through remote access; computer technical support services, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems, and web applications; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; computer software project management services; computer network project management services; information technology consulting in the fields of computer programming, computer software, computer hardware, computer networking; consulting in the fields of information technology computer software project management and computer network project management services; consulting services in the fields of design, selection, implementation and use of computer hardware and software systems for others; consulting services in the field of computer-based information systems for businesses; consulting in the field of configuration management for computer hardware and software; consulting services in the field of cloud computing; consulting in the fields of computer software design and development; consulting in the fields of selection, implementation and use of computer hardware and software systems for others; computer technical support services, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems, and web applications; technical support, namely, monitoring technological functions of computer network systems; technical support, namely, providing backup computer programs and facilities, technical support, namely, providing computer facilities for the electronic storage of digital data; computer system analysis; computer systems integration services; computer system design services; computer network configuration services; design, deployment and management of wireless networks for others; rental of memory space for others in an on-site private computer network server facility; data center and network services, namely, hosting online web facilities and cloud network infrastructure across hybrid clouds, on-site private computer network servers, and across private and public cloud server networks; software as a services for computer system and

application development, deployment and management; data replication services, namely, duplication of third-party computer programs and duplication of third-party digital information contained on a computer network server for others; operating a storage area network (SAN); operating computer network server facilities and managing computer network infrastructure for others; maintenance of computer software relating to computer security and prevention of computer risks; updating of computer software relating to computer security and prevention of computer risks; computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile or network resources based on assigned credential; computer services, namely, cloud hosting provider services; project management services in the fields of computer software, applications, hardware, peripherals and cloud services; design and development of computer software for database management, cloud storage of data, and migrating, deploying and managing business software; providing temporary use of on-line non-downloadable cloud computing software for use in database management, use in electronic storage of data and use in migrating, deploying and managing business software; design and development of computer hardware; design and development of computer software; providing temporary use of non-downloadable software for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of third-party business operational software and computer databases; providing temporary use of non-downloadable software for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of the electronic interchange of business operations data; providing temporary use of non-downloadable software for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of text documents, digital images, music and voice clips, computer software and computer programs; providing temporary use of nondownloadable software for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication in the fields of business management, computer network management, third-party electronic data storage, data management, business logistics and computer network security; providing temporary use of non-downloadable software for collecting and processing log and event data, namely, application logs, security logs, operating system logs, directory service logs, file replication logs and DNS server logs from computers, tablets, computer notebooks and cellular phones, websites and for collecting these logs from third-party software applications loaded onto computers, tablets, computer notebooks and cellular phones; Providing temporary use of non-downloadable software for collecting and processing log and event data, namely for other business software and databases management; Providing temporary use of non-downloadable software for collecting and processing log and event data, namely for the electronic interchange of business operations data; providing temporary use of non-downloadable software for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication in the fields of business management, computer network management, third-party electronic data storage, data management; Software as a service (SAAS) for managing business software and database management, namely, hosting software for use by others for use in business systems, streamlining time, ease of enterprise software, enabling adopting of software without enterprise installation; Software as a service (SAAS) for electronic interchange of business operations data, namely, hosting software for use by others for use in business systems, streamlining time, ease of enterprise software, enabling adopting of software without enterprise installation; Software as a service (SAAS) for hosting software for use by others for use in business systems, streamlining time, ease of enterprise software, enabling adopting of software without enterprise installation in the fields of business management, computer network management, third-party electronic data storage, data management, business logistics and computer network security; Platform as a service (PAAS) provider featuring software platforms for use in the adoption of middleware, computer databases and utility software in the field of computer programming and computer

networking; Platform as a service (PAAS) provider featuring software platforms for use in accelerating computer application onboarding and adoption cycles, custom frontend computer applications, mobile computer applications and greenfield computer programming development for third-party business enterprises; Application service provider (ASP) services featuring software to provide a framework on which computer applications are selected to run choosing appropriate microservice architecture containers based on computer network server workloads in order to maximize computer network infrastructure efficiency; Software as a service (SAAS) services, namely, hosting software for use by other, and Platform as a service (PAAS) services, namely, providing computer software platforms, both featuring software for improving infrastructure of business computer systems by increasing integration and connection among people, information, and objects, by on-site installations of vertically integrated stacks that promote business application efficiency, and by deployment of innovative architecture within a global network of data centers for the connection and integration of computing resources; Software as a service (SAAS) services, namely, hosting software for use by others for use for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of third-party business operational software and computer databases; Software as a service (SAAS) services, namely, hosting software for use by others for use for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of the electronic interchange of business operations data; Software as a service (SAAS) services, namely, hosting software for use by others for use for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of text documents, digital images, music and voice clips, computer software and computer programs; Software as a service (SAAS) services, namely, hosting software for use by others for use for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication in the fields of business management, computer network management, third-party electronic data storage, data management, business logistics and computer network security; Software as a service (SAAS) services, namely, hosting software for use by others for use for collecting and processing log and event data, namely, application logs, security logs, operating system logs, directory service logs, file replication logs and DNS server logs from computers, tablets, computer notebooks and cellular phones, websites and for collecting these logs from third-party software applications loaded onto computers, tablets, computer notebooks and cellular phones; Application service provider (ASP) services, namely, hosting software for use by others for use for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of text documents, digital images, music and voice clips, third-party software programs; Application service provider (ASP) services, namely, hosting software for use by others for use for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of third-party business operational software and computer databases; Application service provider (ASP) services, namely, hosting software for use by others for use for real-time collection, capture, processing, analysis, alert-generation, storage, backup and replication of electronic interchange of business information namely e-commerce software to allow users to perform electronic business transactions, for managing customer accounts, and for use in managing and controlling production schedules, shipping schedules, purchase of materials, and inventories; Application service provider (ASP) services, namely, hosting software for use by others for use for collecting and processing log and event data, namely, application logs, security logs, operating system logs, directory service logs, file replication logs and DNS server logs from computers, tablets, computer notebooks and cellular phones, websites and for collecting these logs from third-party software applications loaded onto computers, tablets, computer notebooks and cellular phones; providing temporary use of non-downloadable software in the fields of business, technology, security, logistics, management, business management, electronic data and data management for accessing, managing, processing, storing, streaming and analyzing text

documents, digital images, audio music and voice clips, third-party software programs; providing temporary use of non-downloadable software for accessing, managing, processing, storing, streaming and analyzing digitized text, music, user-generated video, and computer graphics transmitted via the internet or computer networks in the fields of management, computer network management, third-party electronic data storage, data management business logistics and computer network security; providing temporary use of non-downloadable software for accessing, managing, processing, storing, streaming and analyzing third-party software in the fields of business management, computer network management, third-party electronic data storage, data management, business logistics and computer network security; Software as a service (SAAS) services for accessing, managing, processing, storing, streaming and analyzing text documents, digital images, audio music and voice clips, third-party software programs in the fields of business management, computer network management, third-party electronic data storage, data management, business logistics and computer network security; Software as a service (SAAS) services for accessing, managing, processing, storing, streaming and analyzing digitized text, music, user-generated video, and computer graphics transmitted via the internet or computer networks in the fields of business management, computer network management, third-party electronic data storage, data management, business logistics and computer network security; Software as a service (SAAS) services for accessing, managing, processing, storing, streaming and analyzing third-party software in the fields of business management, computer network management, third-party electronic data storage, data management, business logistics and computer network security; Application service provider (ASP) services featuring software applications for accessing, managing, processing, storing, streaming and analyzing text documents, digital images, audio music and voice clips, third-party software programs; Application service provider (ASP) services featuring software applications for accessing, managing, processing, storing, streaming and analyzing digitized text, music, user-generated video, and computer graphics transmitted via the internet or computer networks; Application service provider (ASP) services featuring software applications for accessing, managing, processing, storing, streaming and analyzing third-party software; hosting cloud computing web facilities; hosting computer databases over computer networks for others; Monitoring of databases and computer network environments for others to improve performance and ensure proper functioning; providing cloud computer network backup services; providing computer databases backup services; scaling services, namely, providing scale-in and scale-out computer and electronic general storage of computer data on a computer network for others; Application service provider (ASP) featuring software for use in database management; Platform as a service (PAAS) featuring computer software platforms for use in database management; Software as a service (SAAS) services featuring software for use in database management; computer services, namely, providing database servers of variable capacity to others; providing a website featuring non-downloadable software for database management; Administering and maintaining databases and virtual machines being computing environments for others; cloud hosting of electronic databases and virtual machines being computing environments; cloud computing services, namely, providing virtual computer systems and virtual computer environments through cloud computing for the general storage of data; cloud computing featuring software for use in database management and user-generated video streaming; computer services, namely, providing variable computer programs and providing the electronic storage services for general storage of data for others; shared computing capacity scaling services, namely, providing scale-in and scale-out computer and electronic general storage of computer data on a computer network for others; electronic data storage on computer and network server architecture for the general storage of third-party data; cloud computing provider services for general storage of data; installation of computer software; computer services, namely, remote hosting of operating systems and computer applications;

providing hosted operating systems and computer applications through the internet; providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of text documents, images, music and voice clips, thirdparty software programs; providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of electronic database; technical advice relating to installation of software; computer software design and development; computer networking security services; configuration of computer networks; computer services, namely, creation of computer networks to contain information, websites and resources; Product stating services in the fields of computers, computer software, computer hardware, peripherals, network hardware, routers, switches, serves, mobile devices, point of sale equipment, phone system equipment; technological consultation in the field of information technology, namely, computer programming, computer network storage, computer network infrastructure, computer network security, computer hardware programming and computer software programming and installation services, collaboration with businesses on their computer network infrastructure and developing software to increase productivity through updated business operation computer processes relating to supply chain management, procurement services, business management services, and staff augmentation; technical support services, namely, remote and on-site computer network infrastructure management services for monitoring, administration and management of public and private cloud computing network servers and computer network application systems; configuration of computer networks, computer systems integration, design and development of computer software application technology for others; computer software development and consultation services in the area of portals and collaboration, business intelligence and performance management, cloud computing, software as a service (SaaS); computer services, namely, integration of software with cloud based computing environments; Information, advisory and consultancy services in the fields of computer software development for procurement software for accounting, collaboration, management information, enterprise resource planning, invoicing, content management in the field of spend management for businesses; provision of a data warehouse, namely, cloud computing provider services for general storage of data.

Colour Claim

Colour is claimed as a feature of the trade-mark. the logo consists of a butterfly on a circular background. the antennae of the butterfly are red. C:13% M:93% Y:93% K:0% the wings of the butterfly are gradations of yellow, orange and red. The two circles in the background include gradations from orange to yellow in opposing directions.

Goods

Class 09

(1) Electronic publications in the field of field of insurance, health & wellness, life coaching, womens health for operating a professional business namely : educational newsletters, reports, pamphlets, books, e books, booklets, presentations, speeches, guides, manuals, magazines . Downloadable electronic publications , e books and voice recordings and videos in the field of life skills coaching, health and wellness for the purpose of establishing and operating a professional business namely: presentations, speeches, e books, pamphlets, guides, manuals, and magazines.

Class 16

(2) Printed publications in the field of field of insurance, health & wellness, life coaching, women's health for operating a professional business namely educational newsletters, reports, pamphlets, books, booklets, presentations, speeches, manuals, magazines

Services

Class 38

(1) Providing access to an on-line interactive website in the field of health related matters and in the field of establishing and operating a professional business. Providing access to an on-line secured site to guide the client through the process and have the ability to obtain solutions on-line in the field of health care.

Class 41

(2) Professional life coaching services for women in the field of personal finance. Coaching life skills primarily for women and young girls in the field of health care. Life coaching in the field of health and wellbeing.

Class 42

(3) Hosting an on line secured site to guide the client through the process and have the ability to obtain solutions on-line in the field of health care. Hosting a digital platform in the field of health products that are offered to caregivers and elder care for their health and wellbeing.

Class 44

(4) Providing a resource centre in the field of healthcare matters, namely providing public health counselling.

Goods

Class 09

(1) Apparatus for recording, transmission, reproduction of sound and images, namely blank magnetic discs, magnetic encoded card readers, magnetic tape recorders, pre-recorded audio cassettes, pre-recorded audiotapes, pre-recorded video cassettes, pre-recorded videotapes, blank compact discs, blank audio digital discs, blank hard discs, blank laser discs, blank magnetic discs, blank optical discs, blank digital versatile discs, blank digital videodiscs, high definition digital discs, blank audio digital discs, blank digital audiotapes, digital disc drives, pre-recorded CDs, DVDs, laser discs, and optical discs containing information in the field of television programming, compact disc players, record players for digital compact disks, video disc players, digital versatile disc player, digital audiotope players, optical disk players, optical disk readers; data processing equipment, namely computers; integrated circuits, memory chips, cable television transmitters, television transmitters, video transmitters, satellite transmitters, radio frequency transmitters, radio transmitters for remote controls, radio receivers for remote controls, audio and video receivers, cable television receivers, radio frequency receivers, satellite receivers, television receivers, video receivers, remote controls for televisions, remote controls for radios; application software for organising, viewing and distributing films, movies, television shows, music videos, audio and video clips for use in television programming, television production, television broadcasting; computer hardware; audio/video cables; television receivers for use with computers; television monitors for use with computers; software for organising, viewing and distributing media, entertainment, television and television production; televisions; television peripherals, apparatus and equipment namely television and DVD remote controls and television set-top boxes; exposed cinematographic film; downloadable electronic publications in the nature of magazines, journals, newsletters, brochures, newspapers, e-books, and media releases; calculators; decorative magnets; cameras, photographic cameras, motion picture cameras, digital cameras, cinematographic cameras, film cameras, television cameras, motion-activated cameras, still cameras, singleuse cameras, video cameras, bipods for cameras, tripods for cameras, monopods for cameras, bags for cameras and photographic equipment, cases adapted for cameras, color filters for television and motion picture film cameras, covers for cameras, film magazines for cameras, flashlamps for cameras, lenses for cameras, selfie sticks for use with digital cameras, shutter releases for cameras, zoom lenses for cameras; digital video players; splicing devices for

use in the editing of video tapes; remote controls for surveying instruments; video games; computer game software for use with video game interactive remote control units and accompanying digitally-stored manuals sold as a unit; cards namely credit cards, debit cards, transaction cards, identification smart cards, telephone smart cards, memory cards, cards containing a computer chip, blank flash memory cards, blank smart cards, blank USB cards

Class 16

(2) Paper, cardboard; printed matter namely television program guides; printed publications, namely brochures, bulletins, books, booklets, catalogues, directories, calendars, newsletters, periodical publications, prospectuses; magazines; bookbinding material; calendars; photographs; paper stationery; adhesives for stationery and household purposes; artist's materials, namely artists' brushes, artists' moulds, artists' palettes, artists' pastels, artists' pencils; paint brushes; typewriters and office requisites, namely office binders, office glues, office paper stationery, office perforators, staples for offices; instructional and teaching material in the nature of television program format bibles and style guides; plastic bags for packaging, plastic film for packaging; printers' type; printing blocks

Class 28

(3) Video game interactive remote control units

Services

Class 35

(1) Advertising namely advertising services provided by television and in the nature of dissemination of advertising for others via online global electronic communication networks; rental of advertising space on web sites; publicity agency services; the promotion of goods and services for others namely through the distribution of on-line promotional material and promotional contests; sale promotion for others provided through the distribution of on-line promotional material and promotional contests; administration services for the management of business information, namely providing services for composing, compiling, or systemizing communications; business marketing consulting services, marketing services in the field of arranging for the distribution of the products of others, marketing services in the field of evaluating markets for existing goods and services of others; promoting the goods and services of others by arranging for sponsors to affiliate their goods and services with films, movies, television shows, music videos, audio and video clips; market research, analysis and survey services; opinion polling, research and analysis; ratings surveys which collect data regarding viewership of television programs and analysis of such surveys; audience response surveys, monitoring and analysis; compiling and publicising statistical information; systemisation of information into computer databases; creating, providing, placing of advertisements for others; advertising the goods and services of others via an interactive computer communications network; retail and wholesale services, namely retail and wholesale sale of videos featuring television programs and related merchandise being clothing, footwear, headgear, books and magazines, online sale of television programs and related merchandise being clothing, footwear, headgear, books and magazines, home shopping services for videos featuring television programs and related merchandise being clothing, footwear, headgear, books and magazine via the Internet, by telephone, and by means of television; auction services provided via the television, by telephone and over global communication networks, the Internet and wireless networks; the advertisement and sale of films, movies, television shows, music videos, audio and video clips for others; business management assistance for performing artists; sales demonstration for others; production of television commercials; arranging and conducting trade shows in the field of television programming and television production for commercial or advertising purposes; organization of exhibitions and trade fairs in the field of television programming and television

production for commercial or advertising purposes; collection of market research information; market research data collection services; compilation and exploitation of statistical data

Class 38

(2) Subscription television broadcasting

Class 41

(3) Educational services in the field of television programming, television production, television broadcasting, films, movies and television shows; entertainment in the form of films, movies and television shows; providing entertainment information in the field of television programming and television production; entertainment services in the nature of non-downloadable television shows and movies transmitted via the internet; entertainment services in the nature of non-downloadable videos and images featuring television shows and movies transmitted via wireless computer networks; entertainment in the form of live performances by a musical band; entertainment services in the nature of live dramatic performances; entertainment services in the nature of live musical plays; entertainment in the form of theatre productions; entertainment services in the nature of live theatrical performances; entertainment services in the nature of producing, distributing and disseminating television programs; online television entertainment and information services namely digital recording of television programs for delayed, interactive and personalised viewing; online provision of television program listings and suggested viewing guides; television viewing guide services via the internet; providing on-line computer games; providing entertainment news and information via a website in the field of television shows and movies, computer games, news and current events, sports, music; production of radio, films, television shows and television programs; publishing of electronic publications; publishing of web magazines; publishing of catalogues, reviews and documents; publishing of music; organization of sports events in the field of running, swimming, football, soccer, cricket, hockey, tennis, basketball, baseball; event management services in relation to the organisation of sporting events and music concerts; arranging and conducting dancing competitions; arranging and conducting of running competitions, swimming competitions, football competitions, soccer competitions, cricket competitions, hockey competitions, tennis competitions, basketball competitions, baseball competitions; conducting competitions during television broadcasts; providing news, editorials, and opinions concerning current events via a website; news reporter services; arranging and conducting musical concerts; workshops and seminars in the field of television programming, television production and television broadcasting; production of television shows, theatre shows, music shows, game shows; presentation of live comedy shows, live musical plays, live theatrical performances, live performances by a musical band, live dramatic performances; arranging and conducting of events for entertainment purposes; rental of recording studio equipment, television sets and scenery; providing on-line non-downloadable electronic publications; subtitling; script writing services; online video gaming services; entertainment in the nature of online music videos, films, movies, television shows, audio and video clips

TRADEMARK DETAILS

Trademark Type

Position

Visual Representation

Trademark Description

The trademark consists of the positioning of the colour orange as applied to the whole visible surface of the three-dimensional shelving unit shown in the drawing. The three-dimensional shelving unit shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the sign.

Colour Claim

Colour is claimed as a feature of the trademark. The surface of the particular three-dimensional object shown in the visual representation is orange.

Services

Class 35

Retail department store services featuring home improvement products.

Design

Visual Representation

The logo for Inseego, featuring the word "inseego" in a lowercase, sans-serif font. The "insee" part is in gray and the "go" part is in blue.

Colour Claim

Colour is claimed as a feature of the trade-mark. The color(s) gray and blue is/are claimed as a feature of the mark. The mark consists of inseego in stylized letter with 'insee' in gray and 'go' in blue.

Goods

Class 09

Electronic vehicle management systems comprised of an on-board computer or black box with nonvolatile memory, backup battery, wireless communication modules, input devices, switches and sensors, programmable digital assistant and mobile computers, software application programs, computer servers and databases; vehicle monitoring, tracking, and immobilization systems comprised of an on-board computer or black box with nonvolatile memory, backup battery, wireless communication modules, input devices, switches and sensors, programmable digital assistant and mobile computers, software application programs, computer servers and databases; Telematics apparatus, namely cell phones that provide telematics services and have a cellular phone function; Ruggedized telemetry units composed of microprocessors and integrated transmitters and receivers installed in the field, affixed to individuals, equipment, or vehicles to transmit telemetry data on equipment, vehicles, or personnel to central processing facilities; Communications computer hardware and software for vehicle fleets to transfer data securely over networks to a central location; computer hardware for connecting vehicles to computer networks, communication networks, wireless networks, and vehicular mesh networks; computer hardware for allowing users to monitor and assess network connectivity in vehicles, while they connect to each other and to the Internet; computer hardware for providing vehicles with secure multi-network communication capabilities, supporting both vehicle-to-vehicle and vehicle-to-infrastructure communication; computer hardware for securely connecting vehicles and their occupants to each other and to the available Internet gateways; Computer software, namely, computer software for

management of vehicle fleets, computer application software for mobile phones and handheld computers, namely, computer application software for management of vehicle fleets; Wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, vehicle tracking devices; Vehicle tracking devices comprised of cellular radio modules, computer software and computer hardware, sensors, transmitters, receivers and global positioning satellite receivers, all for use in connection with vehicle tracking, vehicle monitoring and anti-theft vehicle alarms; Electronic devices comprised of hardware and operating software for installation in a motor vehicle by coupling to a vehicle on-board diagnostics (OBD) system to provide wireless communication via cellular, and local area networks for notifying the vehicle owner of a vehicle fault or diagnostic trouble code and for initiating automatic scheduling of a service appointment; electronic devices comprised of hardware and operating software for installation in a motor vehicle by coupling to a vehicle onboard diagnostics (OBD) system to provide wireless communication via cellular, and local area networks for downloading vehicle software applications; electronic vehicle fault code reader operable to notify a vehicle owner of vehicle issues; downloadable software applications to provide vehicle health monitoring reports to vehicle owners; downloadable software applications to provide vehicle health alerts; downloadable software to provide vehicle location information; An electronic device comprised of computer software and computer hardware that provides users the ability to identify authorized drivers via various technologies, namely, wireless communication, radio frequency identification (RFID), near field communication (NFC) technology, facial recognition, audio pattern recognition, gesture recognition, and voice recognition; an electronic device comprised of computer software and computer hardware that provides users the ability to lock and unlock a vehicle's doors, turn accessories on and off, locate and track a vehicle via a global positioning system (GPS), monitor a vehicle's status via its on-board diagnostics (OBD) system and input/output methods, namely, display, voice, audio and keypad, measure and detect changes in speed or acceleration due to an impact or driver behavior, configure a vehicle's immobilization system, and share and transmit data between a vehicle's computer and electronic subsystem and a user's wireless device or computer using OBD, Controller Area Network (CAN), wireless communication, cellular, beacon technology, local area networks and the Internet, web browser or email; Global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; Computer tracking, monitoring, recovery, and theft prevention hardware, computer tracking, monitoring, recovery, and theft prevention software, and computer tracking, monitoring, recovery, and theft prevention peripherals, namely driver behaviour indicators, active radio-frequency identification asset tracking, driver identification, integrated drive terminals, integrated camera solutions, multiple communication channels, temperature monitoring and trailer tracking for use in connection with vehicle and fixed and mobile devices; Computer fleet management hardware, computer fleet management software, and computer fleet management peripherals, namely driver behaviour indicators, active radio-frequency identification asset tracking, driver identification, integrated drive terminals, integrated camera solutions, multiple communication channels, temperature monitoring and trailer tracking; Computer routing, scheduling, dispatching and tracking hardware, computer routing, scheduling, dispatching and tracking software, and computer routing, scheduling, dispatching and tracking peripherals for mobile assets, namely computer hardware, software, and peripherals, namely driver behaviour indicators, active radio-frequency identification asset tracking, driver identification, integrated drive terminals, integrated camera solutions, multiple communication channels, temperature monitoring and trailer tracking for tracking location and speed of assets in transit and in real time; Computer hardware and software for enabling a user to track other users' locations, define geographic perimeters and receive location alerts; Computer software for use in personnel tracking, inventory tracking and inventory management; Software applications for tracking the geographic location of

mobile devices; Software applications for tracking of mobile assets; Software applications for use in vehicle location tracking, vehicle monitoring and reporting of vehicle diagnostics, trip distance, fuel consumption and fuel economy, speed and travel time; software applications for use in mapping, tracking and reporting of vehicle operating and usage parameters

Services

Class 35

(1) Business administration and management; business information services in the field of fleet management; business, commercial, and industrial management assistance in the field of Telematics fleet management, stolen vehicle recovery and personal tracking; retail and wholesale store services featuring electronic vehicle management systems, vehicle monitoring systems, vehicle tracking systems, tracking systems, vehicle immobilization systems, electronic vehicle alarms and anti-theft devices; Mobile asset tracking and mobile asset management services; Providing tracking services and information concerning tracking of assets in transit, namely, vehicles, trailers, drivers, cargo and delivery containers for business inventory purposes; Providing electronic tracking of intellectual and industrial property assets to others for business purposes

Class 38

(2) Providing multiple-user access to a telematics network for the transfer and dissemination of a wide range of information

Class 42

(3) Providing temporary use of online non-downloadable computer software, namely, non-downloadable computer software for management of vehicle fleets and asset management, namely, tracking and monitoring fleet, vehicle, and asset activity, electronic dispatching, monitoring, real-time location tracking, displaying of diagnostics of vehicle and asset performance data, driver performance data, and driver behavior; Cloud-based network management software for use in vehicles; cloud-based communications software for connecting vehicles to computer networks, communication networks, wireless networks, and vehicular mesh networks; cloud-based computer software for administration of computer networks, communication networks, wireless networks, and vehicular mesh networks; cloud-based network access server operating software; cloud-based software for allowing users to monitor and assess network connectivity in vehicles, while they connect to each other and to the Internet; cloud-based software for providing vehicles with secure multi-network communication capabilities, supporting both vehicle-to-vehicle and vehicle-to-infrastructure communication; cloud-based software for securely connecting vehicles and their occupants to each other and to the available Internet gateways; secure cloud-based network management platform for allowing network and fleet operators to deploy and update the firmware remotely; Computer services, namely, providing temporary on-line use of non-downloadable software for use in vehicle monitoring and diagnostics, asset tracking, driver logs, driver and vehicle status updates, geographic mapping and directions, dispatch, logistics and routing, operator identity authentication, security threat detection, security threat validation, security threat escalation and security threat mitigation, namely, engine control and vehicle cargo access control; Software as a service (SaaS) services featuring software for tracking of mobile assets; Software as a service (SaaS) services featuring software for vehicle location tracking, vehicle monitoring and reporting of vehicle diagnostics, trip distance, fuel consumption and fuel economy, speed and travel time; Software as a service (SaaS) services featuring software for GPS-based monitoring of vehicles, and mapping, tracking and reporting of vehicle operating and usage parameters; Software as a service (SaaS) services featuring software for use in real time routing, scheduling, dispatching and tracking of mobile assets, and tracking location and speed of assets in transit; Software as a service (SaaS) services featuring software for tracking the

geographic location of mobile devices; software applications for enabling a user to track other users' locations, define geographic perimeters and receive location alerts; Software as a service (SaaS) services featuring software for prospective and real time routing, scheduling, dispatching and tracking of mobile assets, and planning, analyzing, optimizing and reporting of prospective and real time routing, scheduling, dispatching and tracking of mobile assets; Providing machine-to-machine (M2M) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication technology to facilitate M2M communication via web-based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices; and Electronic monitoring of various functional aspects of vehicles such as opening and closing of doors, crash detection, temperature of a refrigerated vehicle container or trailer, using computers and sensors

Class 45

(4) Vehicle and driver telematics services in the nature of providing information concerning safety risks on driver behavior to consumers and automobile insurance companies; Stolen vehicle tracking; Stolen vehicle recovery services; Vehicle tracking and vehicle fleet management services, namely, vehicle fleet tracking services utilizing GPS technology to provide real time vehicle location information and vehicle data; providing electronic tracking of fleet and freight information to others

Electronic vehicle management systems comprised of an on-board computer or black box with nonvolatile memory, backup battery, wireless communication modules, input devices, switches and sensors, programmable digital assistant and mobile computers, software application programs, computer servers and databases; vehicle monitoring, tracking, and immobilization systems comprised of an on-board computer or black box with nonvolatile memory, backup battery, wireless communication modules, input devices, switches and sensors, programmable digital assistant and mobile computers, software application programs, computer servers and databases; Telematics apparatus, namely, cell phones, that provide telematics services and have a cellular phone function; Ruggedized telemetry units composed of microprocessors and integrated transmitters and receivers installed in the field, affixed to individuals, equipment, or vehicles to transmit telemetry data on equipment, vehicles, or personnel to central processing facilities; Communications computer hardware and software for vehicle fleets to transfer data securely over networks to a central location; computer hardware for connecting vehicles to computer networks, communication networks, wireless networks, and vehicular mesh networks; computer hardware for allowing users to monitor and assess network connectivity in vehicles, while they connect to each other and to the Internet; computer hardware for providing vehicles with secure multi-network communication capabilities, supporting both vehicle-to-vehicle and vehicle-to-infrastructure communication; computer hardware for securely connecting vehicles and their occupants to each other and to the available Internet gateways; Computer software, namely, computer software for management of vehicle fleets, computer application software for mobile phones and handheld computers, namely, computer application software for management of vehicle fleets; Wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, vehicle tracking devices; Vehicle tracking devices comprised of cellular radio modules, computer software and computer hardware, sensors, transmitters, receivers and global positioning satellite receivers, all for use in connection with vehicle tracking, vehicle monitoring and anti-theft vehicle alarms; Electronic devices comprised of hardware and operating software for installation in a motor vehicle by coupling to a vehicle on-board diagnostics (OBD) system to provide wireless communication via cellular, and local area networks for notifying the vehicle owner of a vehicle fault or diagnostic

trouble code and for initiating automatic scheduling of a service appointment; electronic devices comprised of hardware and operating software for installation in a motor vehicle by coupling to a vehicle onboard diagnostics (OBD) system to provide wireless communication via cellular, and local area networks for downloading vehicle software applications; electronic vehicle fault code reader operable to notify a vehicle owner of vehicle issues; downloadable software applications to provide vehicle health monitoring reports to vehicle owners; downloadable software applications to provide vehicle health alerts; downloadable software to provide vehicle location information; An electronic device comprised of computer software and computer hardware that provides users the ability to identify authorized drivers via various technologies, namely, wireless communication, radio frequency identification (RFID), near field communication (NFC) technology, facial recognition, audio pattern recognition, gesture recognition, and voice recognition; an electronic device comprised of computer software and computer hardware that provides users the ability to lock and unlock a vehicle's doors, turn accessories on and off, locate and track a vehicle via a global positioning system (GPS), monitor a vehicle's status via its on-board diagnostics (OBD) system and input/output methods, namely, display, voice, audio and keypad, measure and detect changes in speed or acceleration due to an impact or driver behavior, configure a vehicle's immobilization system, and share and transmit data between a vehicle's computer and electronic subsystem and a user's wireless device or computer using OBD, Controller Area Network (CAN), wireless communication, cellular, beacon technology, local area networks and the Internet, web browser or email; Global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; Computer tracking, monitoring, recovery, and theft prevention hardware, computer tracking, monitoring, recovery, and theft prevention software, and computer tracking, monitoring, recovery, and theft prevention peripherals, namely driver behaviour indicators, active radio-frequency identification asset tracking, driver identification, integrated drive terminals, integrated camera solutions, multiple communication channels, temperature monitoring and trailer tracking for use in connection with vehicle and fixed and mobile devices; Computer fleet management hardware, computer fleet management software, and computer fleet management peripherals, namely driver behaviour indicators, active radio-frequency identification asset tracking, driver identification, integrated drive terminals, integrated camera solutions, multiple communication channels, temperature monitoring and trailer tracking; Computer routing, scheduling, dispatching and tracking hardware, computer routing, scheduling, dispatching and tracking software, and computer routing, scheduling, dispatching and tracking peripherals for mobile assets, namely computer hardware, software, and peripherals, namely driver behaviour indicators, active radio-frequency identification asset tracking, driver identification, integrated drive terminals, integrated camera solutions, multiple communication channels, temperature monitoring and trailer tracking for tracking location and speed of assets in transit and in real time; Computer hardware and software for enabling a user to track other users' locations, define geographic perimeters and receive location alerts; Computer software for use in personnel tracking, inventory tracking and inventory management; Software applications for tracking the geographic location of mobile devices; Software applications for tracking of mobile assets; Software applications for use in vehicle location tracking, vehicle monitoring and reporting of vehicle diagnostics, trip distance, fuel consumption and fuel economy, speed and travel time; software applications for use in mapping, tracking and reporting of vehicle operating and usage parameters

Services

Class 35

(1) Business administration and management; business information services in the field of fleet management; business, commercial, and industrial management assistance in the field of

Telematics fleet management, stolen vehicle recovery and personal tracking; retail and wholesale store services featuring electronic vehicle management systems, vehicle monitoring systems, vehicle tracking systems, tracking systems, vehicle immobilization systems, electronic vehicle alarms and anti-theft devices; Mobile asset tracking and mobile asset management services; Providing tracking services and information concerning tracking of assets in transit, namely, vehicles, trailers, drivers, cargo and delivery containers for business inventory purposes; Providing electronic tracking of intellectual and industrial property assets to others for business purposes

Class 38

(2) Providing multiple-user access to a telematics network for the transfer and dissemination of a wide range of information

Class 42

(3) Providing temporary use of online non-downloadable computer software, namely, non-downloadable computer software for management of vehicle fleets and asset management, namely, tracking and monitoring fleet, vehicle, and asset activity, electronic dispatching, monitoring, real-time location tracking, displaying of diagnostics of vehicle and asset performance data, driver performance data, and driver behavior; Cloud-based network management software for use in vehicles; cloud-based communications software for connecting vehicles to computer networks, communication networks, wireless networks, and vehicular mesh networks; cloud-based computer software for administration of computer networks, communication networks, wireless networks, and vehicular mesh networks; cloud-based network access server operating software; cloud-based software for allowing users to monitor and assess network connectivity in vehicles, while they connect to each other and to the Internet; cloud-based software for providing vehicles with secure multi-network communication capabilities, supporting both vehicle-to-vehicle and vehicle-to-infrastructure communication; cloudbased software for securely connecting vehicles and their occupants to each other and to the available Internet gateways; secure cloud-based network management platform for allowing network and fleet operators to deploy and update the firmware remotely; Computer services, namely, providing temporary on-line use of non-downloadable software for use in vehicle monitoring and diagnostics, asset tracking, driver logs, driver and vehicle status updates, geographic mapping and directions, dispatch, logistics and routing, operator identity authentication, security threat detection, security threat validation, security threat escalation and security threat mitigation, namely, engine control and vehicle cargo access control; Software as a service (SaaS) services featuring software for tracking of mobile assets; Software as a service (SaaS) services featuring software for vehicle location tracking, vehicle monitoring and reporting of vehicle diagnostics, trip distance, fuel consumption and fuel economy, speed and travel time; Software as a service (SaaS) services featuring software for GPS-based monitoring of vehicles, and mapping, tracking and reporting of vehicle operating and usage parameters; Software as a service (SaaS) services featuring software for use in real time routing, scheduling, dispatching and tracking of mobile assets, and tracking location and speed of assets in transit; Software as a service (SaaS) services featuring software for tracking the geographic location of mobile devices; software applications for enabling a user to track other users' locations, define geographic perimeters and receive location alerts; Software as a service (SaaS) services featuring software for prospective and real time routing, scheduling, dispatching and tracking of mobile assets, and planning, analyzing, optimizing and reporting of prospective and real time routing, scheduling, dispatching and tracking of mobile assets; Providing machine-to-machine (M2M) communication integration services, namely, the integration of disparate computer systems, networks, hardware and software through the application of wireless communication technology to facilitate M2M communication via web-based browsers, personal digital assistants, mobile phones, embedded microprocessors, sensors and other electronic devices; and Electronic monitoring of

various functional aspects of vehicles such as opening and closing of doors, crash detection, temperature of a refrigerated vehicle container or trailer, using computers and sensors

Class 45

(4) Vehicle and driver telematics services in the nature of providing information concerning safety risks on driver behavior to consumers and automobile insurance companies; Stolen vehicle tracking; Stolen vehicle recovery services; Vehicle tracking and vehicle fleet management services, namely, vehicle fleet tracking services utilizing GPS technology to provide real time vehicle location information and vehicle data; providing electronic tracking of fleet and freight information to others

Class 11

(1) Aromatherapy diffusers and replacement parts therefor

Class 34

(2) Herbal smoking vaporizers and replacement parts therefor, electronic portable smoking vaporizers for personal use, all of the aforementioned not for medical use

Application Number 1,839,067
Language of Application English

Trademark Type

Standard Characters

Goods

Class 07

(1) electric food processors; apparatus for drawing up beer under pressure, namely, beer pumps; brewing machines, namely, coffee extracting machines; electric fruit presses for household use; electric food blenders for household purposes; electric kitchen meat grinders; electric kitchen coffee grinder; electric kitchen salt and pepper grinders; electric egg beaters; electric hedge shears; whisks, electric, for household purposes; electric ice crushers for kitchen use; electromechanical beverage preparation machines namely aerated beverage making machines and electric juicers; electric food preparation machines, namely, food processors; electrically-powered kitchen appliance for chopping meat, electric hand mixers, electric coffee grinders, electric ice crushing machines; vacuum cleaners, steam cleaners, washing machines, dishwashers, electric shoe polishers, electric carpet cleaning machines

Class 08

(2) Flat irons; table cutlery, namely, knives, forks and spoons;

Class 11

(3) Extractor hoods for kitchens; ice cube makers, ice cream makers; electrically heated carpets; electric foot warmers in the nature of footmuffs; electric space heaters; electric blankets, not for medical purposes; electric radiators, fireplace hearths, air reheaters in the nature of electric space heaters; portable electric warm air clothes dryers; plate warmers; electric coffee machines; electric food waste dehydrators; barbecues; bed warmers; bread baking machines; electric bread toasters; fabric steamers; fruit roasters; roasting jacks; electric food steamers; electric deep fryers; heating apparatus for cooking, namely, cooktops; electric appliances for making yogurt; electric coffee pots; electric coffee percolators; electric pressure cooking saucepans; electric tortilla presses; electric waffle irons; electric kettles; electric boilers; heating boilers; hot air cooking ovens; coffee roasters; multicookers; cooking stoves; fumigation apparatus, not for medical purposes, namely, electrical barbecue smokers for cooking meats and fish; electric roasters, namely coffee bean roasters; electric toasters; electric fans for personal use; electric laundry dryers; freezers; electric grills, gas grills, rotisseries; roasting spits for cooking ovens; water heaters; electric blankets [not for medical purposes]; air conditioners; cooking ranges, electric cooking stoves, gas cooking

stoves, electric hotplates; Refrigerators for household purposes, freezers for household purposes, electric wine coolers, electric beverage coolers, refrigerating display cabinets, bar fridges, refrigerators for commercial purposes, freezers for commercial purposes, cooling installations, namely evaporative air coolers for tobacco; air purifiers, namely, industrial air purifiers, air purifiers for house hold purposes, air humidifiers, dehumidifiers, cooker hoods, namely, exhaust hoods for kitchens, range hoods, ventilation hoods; food dehydrators; microwave ovens; toasters; electric fans for household purposes, ceiling fans; Hot water tanks, hot water heaters, hot water boilers; clothes dryers

Class 21

(4) Dustbins, beverage containers, food storage containers, thermally insulated food containers; jars for household and kitchen purposes; cookware; cooking pot sets; portable wine coolers, portable beverage coolers, non-electric wine coolers, non-electric beverage coolers

Class 34

(5) Cooling installations, namely, humidors

Trademark Type

Word

Goods

Class 04

(1) industrial oils and greases; lubricants, namely, lubricants for machines, drilling lubricants; dust absorbing, wetting and binding compositions, namely, dust binding compositions for sweeping, dust removing preparations; fuels, motor spirit and illuminants, namely, alcohol fuel, benzene fuel, diesel fuel, ethanol fuel, motor fuel, petroleum, natural gas

Class 06

(2) Rods, namely, brazing rods, welding rods, steel rods, threaded metal rods; transportable buildings of metal, namely, transportable greenhouses of metal, transportable storage sheds of metal, transportable gazebos made of metal, transportable stables made of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; small items of metal hardware, namely, hardware springs, hardware nails, bolts of metal, hinges of metal, joists of metal, metal knobs, nuts of metal, clips of metal in the nature of cable and pipe clips of metal and hose clips of metal, fasteners of metal in the nature of metal screws, metal clamps in the nature of pipe clamps of metal, metal hose clamps and cable clamps of metal, metal plugs in the nature of wall plugs of metal, and screw nuts of metal; pipes and tubes of metal, namely, metal drain pipes, metal branching pipes, gutter pipes of metal, metal water pipes, branching tubes of metal for pipelines, ground tubes of steel; compressed air, gas and liquid gas, liquid fuel and liquid air containers of metal; metal couplings for fire hoses; hose clips; casings of metal; spraying booths, namely, paint spraying booths made of metal, concrete spraying booths made of metal; pressure containers for liquids, namely, pressure vessels; pressure vessels for paint; pressure fluid branching pipes of metal; metal dowels; pressure tanks for water; vice benches of metal; metal ladders; fastening and anchoring devices, namely, anchor bolts of metal, anchor plates; steel balls for use as ball bearings; guide pins, namely reinforcing pins of metal for formwork, valves, namely, valves of metal for water pipes, springs, namely, valve springs, hardware springs, pillars, namely, metal pillars for building, clamps, namely, metal cable clamps, metal hose clamps, sleeves, namely, metal expanding sleeves for affixing screws, cable junction sleeves of metal; rock bolts, namely, anchor bolts made of metal, expansion bolts of metal for rock reinforcement; top hammer

tubes made of steel for use in mining; drill pipes of metal being parts of drilling rigs; fittings of metal for pipes; stands, made wholly or principally of metal, for use with machine tools, namely, metal engine stands

Class 07

(3) machines and machine tools, namely pneumatically, hydraulically, internal combustion engines and electrically driven machines and machine tools, namely raiseboring machines, drills, augers, drill hammers, drilling bits and drill tubes (part of machines), drilling machines, drill derricks, pile drivers, demolition machines, air tools, screw and nut drivers, crushers and pulverizers, breakers, hammers, flatters, hammers and axes for machines, grinding machines, impact tools, hot-air pistols, spray guns, blow guns, pulverizing guns, sand spraying devices, polishers and sanders, sandblasting containers as well as sand collecting apparatus; machines for assembly and mounting, namely, nutrunners, wrenches and screwdrivers; compressors for industrial machinery, gas compressors, electric compressors, air compressors, regulators for compressors for industrial machinery, electric compressors and gas compressors, after- coolers and intercoolers for compressors for industrial machinery, electric compressors and gas compressors; low pressure and high pressure valves for compressors (not for vehicles); starters for engines and motors; drives and gearings for compressors for industrial machinery, electric compressors and gas compressors; mining machines, namely, truck mills for mining purposes, excavators, construction rammers, elevators, lifts, namely, hydraulic lift tables, cargo lifting derricks; motors, namely, pneumatically driven motors, hydraulically driven motors, internal combustion engines and electrically driven motors; pressure nets and pressure generators for generating air curtains in waters, air bubble pumps; drifting equipment for rock drilling, air hoist blocks and trolleys for hoist blocks, electric compressed air spin dryers and compressed air pumps, air filters for motors and engines, oil filters for motors and engines, generators, separators, heat recovery machines, mounting systems, electric saws, engines, chisels for machines, rasps, spades, all for the aforesaid goods being parts of mining machinery tools; exhausters, namely, exhaust manifold for engines, exhaust mufflers for motors, blowing machines for the exhaustion of gases; metal drifts, namely rock drills for tunnelling and drifting, earth diggers machines; windings (for electrical motors); winches; lubricators for motors and engines, being parts of industrial machinery; pump impellers; feeders, loaders, namely, crawler-tracked loaders, front-end loaders, carburetor feeders; jacks, namely, hydraulic jacks, electric jacks, pneumatic jacks, rack and pinion jacks; windlasses; cylinders for industrial machinery; silencers for engines and motors; electrical vacuum cleaners; main slide valves, membrane valves, starter slide valves; valves, namely, pneumatic, hydraulic, starter and ball valves; pistons; crank shafts; pressure oscillation dampers to be used for power generation for industrial machinery; engine injectors; nozzles, namely, expansion, venturi and Laval nozzles for engines for industrial machinery; adjustable drilling arms, positioning arms and drilling stanchions; feeding devices for drill hammers; pipe cutters for metalworking; milling cutters (machine tool); nibblers being cutting machines for metalworking; conveyors; speed governors for machines, engines and motors; paint cups for paint spraying guns; steam engines and generators; oil separators; crossheads being parts of engines for use in industrial machinery; self- regulating distribution and fuel pumps; flushing heads for drill columns; vacuum pumps, pipeline components, namely, axial flow compressors, check valves, self-regulating fuel pumps; drill rigs, namely, raiseboring rigs, exploration drilling rigs, face drill rigs, oil & gas drill rigs, production drill rigs, rotary blast hole drill rigs, surface and underground drill rigs and well drilling rigs; machines and machine tools for performance of construction jobs and for treatment of construction materials and surface, namely, concrete construction machines, machine tools for breaking up road surface material, cranes, bulldozers, crawler-tracked loaders, concrete cutters, steel cutters, hydraulic breakers, grapples; compactors and compaction equipment, namely, earth compacting machines, waste

compacting machines, ground surface finishing and compacting machines; machines and machine tools namely concrete vibrators, concrete trowel machines and concrete screeds; shank bits being tool bits for rock drilling and shank drills being drilling machines for rock drilling; drilling rods being parts of electric drills; core drilling machines and machine tools; casings for drilling equipment; pumps, namely, hydraulic, electric and pneumatic pumps; dewatering pumps, namely, pneumatic dewatering pumps, hydraulic dewatering pumps; handheld drilling tools equipment and accessories, namely pusher legs, integral drillings rods, tapered rods and drill bits; cutters, namely, chaff cutters, gear cutters for use as a machine tool, milling cutters for milling machines, trench cutters; claw bits and hole openers for use as drill bits for rock drilling; reamers being machines or part of machines; bearing housings for machines; drill bit adaptors for electric drills; bushings (part of machines); concrete spray pumps and mobile concrete spraying machines; concrete sprayers; rock bolting and cable bolting rigs; road and asphalt rollers; floor saws, namely, power saws; excavator attachments, namely steel cutters, pulverizes, excavator magnets, excavator grapple, crusher bucket, compactors and excavator post hole borer; post hole borers and post pullers; percussion hammers; tamping machines; continuous casting machines; machines for dewatering and drainage of concrete; road building and paving machines; combustion engine driven hydraulic power packs (power source machines), namely, electric power generators, industrial steam engine boilers for power generation machinery, power transmission belts for machines, power packs; milling machines; bushings for use as parts of machines; bearing plates as machine parts

Class 08

(4) fastening and joining tools, namely, adjustable spanners, wrenches, ratchet handles, dies; cutting, drilling, grinding and surface treatment hand tools; hand tools and implements for stone, concrete, metal, wood and brick works such as nut runners, screw drivers, screw rotors; grinding and polishing tools, namely, grinding wheels, grindstones, coal picks, pickaxes, hand-operated riveting tools, sheeting hammers, forging hammers, chipping hammers, scaling hammers, striking tools, namely, hand operated hammers, threading tools, namely thread snips, needle threaders, spades, wood and metal drills, augers, rod coupling sleeves, gimlet bits, milling and grinding wheels, cutting wheels and saw blades for hand tools, saws, chisels, rasps, reamers; chisels; milling cutters (hand tools); vices of metal; shanks of metal, namely, bits for hand drills, jig saw blades; grinding wheels (tools for machines)

Class 09

(5) computer programs intended to monitor and control mining, rock excavation, mineral exploration, drilling and construction machinery and equipment; computer software and systems intended to monitor and control mining, rock excavation, mineral exploration, drilling and construction machinery and equipment; computer hardware; touchscreens, namely, touchscreen monitors, computer touchscreens; instruments and apparatus for control and supervising, namely, sensors in the nature of acceleration sensors, motion sensors, proximity sensors, optical sensors, thermal sensors, timing sensors, sensors for determining temperature, pressure sensors, detectors in the nature of motion detectors, radar detectors, laser speed detectors, testing and quality control devices in the nature of speedometer testers, continuity testers, circuit testers, battery testers, remote monitoring apparatus in the nature of video monitors, distance and dimension monitoring apparatus in the nature of distance sensors; pre-recorded downloadable films containing topics of instruction and information in the fields of operation of industrial machinery; distributing regulators, namely, surge protectors, distribution transformers, power distribution boxes; ring gauges; monitors, namely, computer monitors, lcd monitors, tablet monitors; wireless controllers to remotely monitor and control the function and status of mining, rock excavation, mineral exploration, drilling and construction machinery and equipment; data processing equipment, namely, programmable logic controllers, microprocessors; process control software for regulating

and controlling industrial metalworking and mining machine and machine tools; electronic databases in the field of operational instructions for industrial machinery downloadable to computer media, tablet or mobile phone; switches, namely, computer network switches, cut-out switches, Ethernet switches, power switches, optical switches; material testing apparatus and instruments, namely, cement testing machines, metal hardness and strength testing machines, probes for testing semi-conductors; force transducers for use in industrial machinery; electronic sensors, namely, optical sensors, proximity sensors, motion sensors, temperature sensors, infrared sensors, timing sensors; batteries and rechargeable batteries, namely, automotive batteries, electrical storage batteries, general purpose batteries, batteries for machinery and equipment used in mining rock excavation and construction, batteries for vehicles; battery chargers for rechargeable batteries, namely, automotive batteries, electrical storage batteries, general purpose batteries, batteries for machinery and equipment used in mining rock excavation and construction, batteries for vehicles; computer networking and data communication equipment, namely, computer network adapters, computer network routers, computer network switches, computer central processing units, computer chips, computer hardware; audio and visual devices and monitors, namely, computer monitors, touchscreen monitors; downloadable multimedia news podcasts; eyewear, namely, eyeglasses, spectacles, sunglasses, activity tracker, namely, wearable activity trackers, pedometers, earphones; touchscreen gloves; measuring tape; power banks, namely, portable USB chargers; USB-cards, namely, USB blank cards, USB Pre-recorded cards with the user manuals and instructions for mining, rock excavation, mineral exploration, drilling and construction machinery and equipment; safety, security, protection and signaling devices, namely, luminous safety beacons, clip-on flashing safety lights, event recorders for security purposes, personal security alarms, surge protectors, emergency signal transmitters, signalling buoys, signalling bells and whistles; protective and safety equipment, namely, chemical exposure protective footwear and clothing, fire protective clothing and footwear, nets for protection against accidents, safety boots, safety harnesses, safety goggles; head protection, namely, face shields for protective helmets, welding helmets, solderers' helmets, safety helmets, workmen's protective face-shields; application software (apps), namely, mobile apps, hybrid apps and web apps related to the information, instruction and manuals related to mining, rock excavation, mineral exploration, drilling and construction machinery and equipment in the fields of mining, rock excavation, mineral exploration, drilling and construction; computer programs and software for controlling, monitoring and surveying machines, equipment, apparatus and tools used in mining, rock excavation, mineral exploration, drilling and construction; telematic systems consisting of remote and telemonitoring apparatus, namely, remote controls for mining, rock excavation, mineral exploration, drilling and construction equipment and vehicles, remote control transmitters for mining, rock excavation, mineral exploration, drilling and construction equipment and vehicles, global positioning system receivers, software and hardware for collecting, recording, tracking, communicating and reporting data pertaining to the location, productivity, operation and maintenance of mining, rock excavation, mineral exploration, drilling and construction equipment and vehicles and for recording, analyzing, communicating and reporting mine and construction office management information, namely, financial and human resource information; downloadable cloud-based computer software for database management, for creating searchable databases and to automate data warehousing; downloadable electronic publications in the nature of instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams in the fields of mining, rock excavation, mineral exploration, drilling and construction

Class 11

(6) water filtering units for industrial use, filters for air conditioning units; installation for lighting and ventilating, namely lighting fixtures and ventilation systems consisting of ventilating fans and ventilation hoods; apparatus for purification of liquids, namely, oil purifiers, ultraviolet light (UV) water purification device; steam generators; heat exchangers; valves for pipes and hose pipes, namely, air valves for steam heating installations, water control valves for faucets, thermostatic valves for heating installations; air and gas purifiers, namely, air purifying units, gas purification machines, industrial air purifiers; lamps, namely, electric lamps, gas lamps, head lamps, standard lamps; level controlling valves in tanks; compressed gas cylinders for industrial use; paint heaters being parts of paint mixing and recirculating machines for use in industrial applications; lightning and lightning reflectors, namely, lightning rods, lightning arresters, lightning conductors; fans, namely, ventilating fans, fans for air conditioning units, roof fans; trolley mounted lighting fixture

Class 12

(7) mining, rock excavation, mineral exploration, drilling and construction vehicles, namely, loading and transport vehicles and wagons, mine wagons, carriages and vehicles; haul trucks, dumpers, trams; engines for land vehicles; tractors; shaft couplings for land vehicles; carriages for metalworking drilling machines and drilling rigs; carriages for industrial machinery compressors

Class 16

(8) printed matter, namely, wall maps, pictures, books, magazines, leaflets; engraving pencils; training and advertising material, namely, wall maps, pictures, books, magazines and leaflets

Class 17

(9) rubber hoses, plastic hoses, namely, rubber hoses for air conditioners, rubber hoses for use with welding apparatus, plastic hoses for air conditioners, non-metal couplings for use with hoses, namely, pipe couplings of rubber, valves of rubber; rings of rubber for use as pipe connection seals, for pneumatic and hydraulic apparatus; connecting, linking and intermediary junctions, non-metal, for flexible tubes; Plastic and PVC flexible pipes, plastic and fabric tubes, air and water hoses and fittings thereof, namely, valves, all non-metallic for use in mining, rock excavation, mineral exploration, drilling and construction; fittings for flexible plastic pipes for conveying natural gas

Class 19

(10) PVC and fabric ventilating ducts, non-metallic, for use in mining, rock excavation, mineral exploration, drilling and construction

Services

Class 35

(1) business consultation and business analysis services, namely, business management consultancy and analysis, business acquisitions consultancy, business administration consultancy, market analysis, cost analysis, strategic business analysis; advertising, marketing and promotional services, namely, advertising the goods and services of others, advertising agency services, preparing advertisements for others, conducting marketing studies, provision of marketing reports, marketing services in the field of arranging for the distribution of the products of others, developing promotional campaigns for others, promoting goods and services through distribution of discount cards, sales promotion for others by privileged user cards; providing business information, namely, information concerning business accounting, providing business information in the field of social media, in relation to the products within the fields of mining, rock excavation, mineral exploration, drilling and construction; online retail ordering, return and replacement services featuring spare parts and component parts for machinery in the fields of mining, rock excavation, mineral

exploration, drilling and construction; online retail store services featuring downloadable electronic instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams in the fields of mining, rock excavation, mineral exploration, drilling and construction; providing business assistance, namely sales volume tracking services and reporting business sales analysis information derived from global positioning systems and firmware for remote monitoring of industrial machinery to operators of mining, rock excavation, mineral exploration, drilling and construction machinery and land vehicles for business purposes; rental of advertising films; product demonstration services and tradeshow exhibition activities, namely demonstrating the workings and operations of industrial machinery, and equipment and land vehicles by operators

Class 36

(2) insurance; financial services, namely, credit services, financing of machines, machine tools, equipment and vehicles used in the fields of mining, rock excavation, mineral exploration, drilling and construction

Class 37

(3) installation, maintenance, building, repair, service and support services relating to mining, rock excavation, mineral exploration, drilling and construction and machine tools, machinery, vehicles and equipment; rental of mining, rock excavation, mineral exploration, drilling and construction, equipment, machines, machine tools, vehicles and equipment; rental of compressors, namely, compressors for industrial machinery, electric compressors, gas compressors; mining, rock excavation, mineral exploration, drilling and business construction services; leasing of machines, machine tools, equipment and vehicles used in the fields of mining, rock excavation, mineral exploration, drilling and construction

Class 38

(7) providing access to a website containing downloadable online publishing of instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams; providing access to a website featuring non-downloadable publications, instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams in the fields of mining, rock excavation, mineral exploration, drilling and construction and products thereof; providing access to a website featuring non-downloadable software for review and instruction of the drilling and mining machinery and equipment; providing access to a website featuring non-downloadable software for database management, electronic storage, namely, general storage of data and the collection, editing, organizing, modifying, transmission, storage and sharing of data and information, namely, instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams via a global computer network, all provided in fields of mining, rock excavation, mineral exploration, drilling and construction and products thereof

Class 41

(4) publishing of periodicals, magazines and technical books; rental of teaching films; organizing workshops in the field of industrial machinery and equipment and land vehicles; provisions of education and training via podcast, namely, providing downloadable podcasts in the fields of operation of mining and drilling machinery; providing downloadable online publishing of instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams via a website; providing non-downloadable

publications, instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams in the fields of mining, rock excavation, mineral exploration, drilling and construction and products thereof via a website

Class 42

(5) design and development of computer software; consultancy, research, development, design and customization of system solutions relating to mining and drilling machinery; hosting of podcast, namely, providing downloadable podcasts in the fields of operation of mining and drilling machinery; technical consultation services, planning and organization, namely, product design consulting services, consultation services relating to computer software, construction planning; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; providing temporary use of on-line non-downloadable cloud computing software for use in database management and for the general storage of electronic data; hosting a website featuring non-downloadable software for review and instruction of the drilling and mining machinery and equipment; platform as a service (PAAS) featuring computer software platforms for database management and publications; hosting a website featuring non-downloadable software for database management, electronic storage, namely, general storage of data and the collection, editing, organizing, modifying, transmission, storage and sharing of data and information, namely, instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams via a global computer network, all provided in fields of mining, rock excavation, mineral exploration, drilling and construction and products thereof; design of mining, rock excavation, mineral exploration, drilling and construction machinery and equipment; technical consulting in the field of mechanical engineering; providing technical advice, consultancy and support in the fields of metalworking machines and machine tools and land vehicles and equipment for use in mining and drilling; technical advice, consultancy and support in the fields of metalworking machines and machine tools and land vehicles and equipment for use in mining and drilling provided by experts; conducting searches and making analyses in the field of technical and mechanical constructions, namely, exploration and searching of oil and gas, analysis for oil research, mineral and oil assaying, materials testing and analysing; remote monitoring services of mining, rock excavation, mineral exploration, drilling and construction equipment and vehicles, namely, collecting, recording, tracking, communicating and reporting data pertaining to the location, productivity, operation and maintenance of mining, rock excavation, mineral exploration, drilling and construction equipment and vehicles; remote monitoring, remote control and remote adjustment of operation of mining, rock excavation, mineral exploration, drilling and construction equipment and vehicles through Internet, Extranet and any other global computer and telecommunication networks; technical consultation in the fields of mining, rock excavation, mineral exploration, drilling and construction equipment and vehicle information; hosting a website containing downloadable online publishing of instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams; hosting a website featuring non-downloadable publications, instruction manuals, technical catalogs, spare parts catalogs, components catalogs, service manuals, safety manuals, operator manuals, and system diagrams in the fields of mining, rock excavation, mineral exploration, drilling and construction and products thereof

Class 45

(6) Licensing of compute programs and software; licensing of industrial property rights; licensing of wireless communication systems, namely, mobile phone networks, internet networks; licensing of intellectual property; licensing of computer software; licensing of databases; licensing of

technology, namely, licensing of computer programs and software, licensing of industrial property rights, all services provided in the fields of mining, rock excavation, mineral exploration, drilling and construction and products thereof

Design
Position

Visual Representation

Trademark Description

The trademark consists of the position of a design applied to a three-dimensional object, as shown in the visual representation. The design consists of a circle bearing the stylized letters MIPS. The circle is located on the lower rear left-hand side of the helmet, behind the opening for the users' ear. The three-dimensional object shown in dashed outline does not form part of the trademark but is included merely to show the position of the mark.

Colour Claim

Colour is claimed as a feature of the trademark. The colours yellow and black are claimed as features of the trademark. The circle is yellow and the stylised letters MIPS are black and appear within the circle.

Goods

Class 01

(5) Petrol additives (petrochemical), namely, chemical additives for petrol; substances for use in binding dust, namely, activated carbon

Class 04

(1) Coal; coal based fuels; coal briquettes; coal dust for fuel; coal gas; coal naphtha; coal tar oil; fuel, namely, fuels derived from crude oil; fuel briquettes, namely, fuel pellets; fuel gas; fuel mixture, namely fuel mixture comprised of gasoline, diesel, and kerosene; fuel pellets; fuel oil; fuels in liquid form, namely, fuels derived from crude oil in liquid form; gasoline; grease, namely, general purpose grease; hydrocarbon fuels, namely, benzene fuel; hydrocarbon compositions, namely, hydrocarbon compositions, namely alkanes, olefins, alkynes, cyclic hydrocarbons and aromatic hydrocarbons; industrial fuel oil; industrial gasoline; industrial grease; industrial lubricants; lubricants containing low friction additives; lubricants for use in industrial processes, namely, lubricants for industrial machinery; lubricants having cleaning properties, namely, lubricants used in cleaning and maintaining guns; lubricating agents, other than for medical use, namely, lubricating agents for transportation tools; lubricating fluids, namely, lubricating fluids made from distilled material of petroleum; lubricating oil and greases, namely, mineral lubricating oils and greases; liquefied petroleum; liquefied petroleum gas; kerosene; manufactured solid fuels, namely, coke; mineral coal, namely, lignite; mineral fuel, namely, natural gas; mineral lubricating

oils; industrial oil; oil based lubricants, namely, oil based lubricants used for industrial machinery; oil for the preservation of masonry; oil for surface treatment, namely, oil for industrial machinery surface treatment; petrol, namely, unleaded petrol; petroleum; petroleum by-products, namely, fluid wax, petroleum coke; petroleum coke; petroleum based dust suppressing compositions; preparations for absorbing dust, namely, petroleum-based dust absorbing compositions; preparations for binding dust, namely, petroleum-based dust binding compositions; preservatives for the surfaces of buildings (oils), namely, permeable preservative-silane paste; preservatives for cement (oils), namely, sulfate resistant cement preservatives; preservatives for concrete (oils), namely, sulfate resistant concrete preservatives; solid lubricants for industrial purposes; spray-on lubricants, used for industrial machinery; synthetic lubricants used for aviation machinery; substances for use in absorbing dust, namely, dust suppression; wax [raw material]; wax for use in manufacture, namely, wax for industrial purposes

Class 09

(2) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric connectors; apparatus for analysing substances (other than for medical use), namely, mass spectrometers; apparatus for attracting lightning, namely, lightning rods; apparatus for controlling the supply of electrical current, namely, electric control panels; apparatus for electrical safety protection, namely, surge protectors; apparatus for extinguishing fires, namely, fire extinguishers; apparatus for the supply of electricity, namely, electric storage batteries; apparatus for use in fuel measurement, namely, fuel gauges; concrete testing machines; conductors, electric; diagnostic apparatus for industrial use, namely, mechanical fault diagnosis instrument; distance measuring instruments, namely, measuring tapes; ducting (electricity), namely, electrical ducts; ducting containing electrical conductors for electric cables; electric conductors for transformers; electric discharge apparatus, namely, electric discharge tubes; electrical control apparatus for electric welding machines, namely, welding transformers; electrical control apparatus for use in welding processes, namely, automatic electronic welding machines; electronic distance measuring apparatus, namely, optical range finder; fire control equipment, namely, sprinkler systems for fire protection; fire control apparatus, namely water extinguishers; fire detecting apparatus, namely, fire and smoke detectors; fire extinguishers; fire fighting apparatus, namely, fire blankets; fire protection apparatus, namely, sprinkler systems for fire protection; fire resistant gloves; fireproof articles of clothing, namely fire protective clothing; footwear for protection against fire; fuel consumption measuring apparatus, namely, fuel consumption flow meters; fuel flow measurement apparatus, namely, fuel flow meters; fuel consumption meters; lightning conductors; material testing apparatus, namely, heat analyzer; material testing instruments and machines, namely strength tester; measuring tapes; petrochemical analyzers, namely, chemical element analyser in petroleum; petrol gauges; scientific apparatus for use in the preparation of materials used for industrial processing; apparatus for analysing substances in liquids (other than for medical use), namely, laser spectrometer

Class 19

(6) Petroleum by-products, namely, asphalt

Class 22

(3) Bags made of textile material for packaging; binding twine made of plastic fibres; carbon fibers for textile use; carded threads in natural fibres for textile use; chemical fibers for textile use; bags and sacks for the transport and storage of materials in bulk; cords made of plastics; cords made of textile fibres; down feathers; fibre being partly prepared synthetic materials for textile use; fibres being raw synthetic materials for textile use; fibres made of synthetic material; flexible containers in the nature of sacks for polyethylene terephthalate chips; loose down feathers; mesh bags for

storage; metallic fibers for textile use; natural fibres, namely, cotton fibres, ramie fibres, coconut fibres, bamboo fibers and silk fibers; non-metallic binding thread for binding industrial products, namely binding thread made of polyester fibers for binding boxes; nonmetallic ropes; non-metallic twines; non-metallic ties for tying, wrapping and binding, namely, plastic fastening ties for tying, wrapping and binding; packaging bags of textile material; plastic liners (sacks) that go inside a container for polyester fibers; raw fibre for use in manufacture, namely, raw carbon fibre for use in manufacture; raw fibres of carbon for textile use, namely, raw carbon fibers for textile use; raw textile fibers; raw fibrous textile materials, namely, raw textile fibers; sacks of textile for packaging; synthetic fibers for textile use; textile fibers; plastic mesh not for packaging and wrapping, namely, plastic mesh for textile use

Class 23

(4) Carded yarns in natural fibres for textile use; ceramic fibre yarns for textile use; chemical fiber base mixed thread and yarn; chemical-fiber threads and yarns for textile use; combed yarns made of natural fibres; elastic strips of synthetic fibres for textile use; elastic thread and yarn for textile use; metal fibre thread for textile use; mixed spun threads and yarns; natural yarns; non-metallic yarns for textile use; polyester pre-oriented yarns; polyester textured yarns; rubber thread for textile use; silica threads and yarns; spun polyester fibre for textile use; spun thread and yarn; synthetic fibre thread and yarn; textile filaments (threads); textile yarns; threads for textile use; threads of plastic materials for textile use; weaving fibres for industrial use; twisted thread and yarn; worsted yarn; yarns and threads, for textile use; yarns for sale in kit form; yarns for textile applications, namely, yarns for textile use; yarns made of natural fibres for textile use; yarns made of synthetic material for textile use; semi-synthetic fiber thread and yarn [chemically treated natural fiber yarn]

Services

(1) Chemicals used in industry and science, namely chemical additives for the manufacture of cosmetic products, chemical food additives, chemical preservatives for use in the manufacture of soap and vegetable oils; chemicals for preparing flavourings; chemical additives for fertilizers; chemicals for the agri-food industry; chemicals for eliminating odour nuisances; chemical reagents (other than for medical and veterinary use), namely chemical test paper, cell culture reagents for scientific or research use; fertilizers; fire extinguishing compositions; decolorants for industrial use, the designated goods all being from or for the sensory additive market, and none of these goods are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear.

Class 03

(2) Essential oils and aromatic extracts, namely essential oils for use as food flavourings, aromatic essential oils, essential oils for flavouring beverages, essential oils for aromatherapy; essential oils, perfumes, flavourings for cosmetic use; essential oils, perfumes, flavourings for household use; deodorant soaps and room fragrances for use in cosmetics, personal care products for human and veterinary purposes, namely for hygiene and personal care; beauty soaps, saddle soaps, body care soaps, deodorant soaps, antiperspirant soaps, room fragrances for use in industry; room fragrances for olfactory marketing; air scenting preparations; deodorant soaps; deodorizing products, namely feminine hygiene aerosol deodorants, scented air deodorizer sprays, deodorizing cleaning products for litter boxes, deodorizing products for cleaning litter boxes; bleaching preparations and other substances for laundry use, namely essential oils for use as fragrances for laundry use; lotions, hair products and treatments, namely preparations for hair care; depilatories; toothpastes, the designated goods all being from or for the sensory additive market, and none of these goods are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear.

Class 05

(3) Pharmaceutical and veterinary preparations, chemical preparations for medical and pharmaceutical purposes and chemical preparations for veterinary use, in powder, gel and liquid form, for odour masking, odour neutralization, odour elimination, odorization and naturally derived adsorbents, namely odour neutralizing preparations for clothing and textiles, odour neutralizing preparations for carpets and paints, air deodorizers, air purifying preparations; multi-purpose disinfectants; preparations for destroying vermin; fungicides; herbicides; bath preparations for medical use; sanitary napkins and panties; odour eliminating additives for sanitary napkins and panties; parasiticides; air purifying products; hygiene products for animals in powder, gel and liquid form, for odour masking, odour neutralization, odour elimination, odorization and naturally derived adsorbents; hygiene products for human beings in powder, gel and liquid form, for odour masking, odour neutralization, odour elimination, odorization and naturally derived adsorbents; purifying products in the nature of disinfectant products for animals, the designated goods all being from or for the sensory additive market, and none of these goods are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear.

Class 07

(4) Steam extraction pumps; machines, namely robots, the designated goods all being from or for the sensory additive market, and none of these goods are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear.

Class 09

(5) Measuring instruments and apparatus, namely particle counters for measuring air quality, yardsticks, instruments for measuring air quality parameters; supervision and checking apparatus and instruments, namely high, medium and low pressure devices, misting devices, misting and fogging devices, water and air filtration devices, filtration devices in liquid and gaseous form.

Class 11

(6) Ventilation apparatus, namely circulating fans, air purifying apparatus and machines, namely air purifying units, air purifiers for household purposes, air purifiers, electric bath-water purifying apparatus for household use, air purifiers for industrial use, steam generating apparatus, namely steam generators, steam generating installations, materials, namely misting and ventilation apparatus for treating ambient air, steam accumulators, air deodorizing apparatus, deodorizing apparatus not for personal use, air filtration installations, air sterilizers, the designated goods all being from or for the sensory additive market, and none of these goods are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear; apparatus and material for odorization or odour elimination, namely air diffusers containing essential oils for air freshening.

Services

Class 37

(1) Installation, maintenance and repair of machines, namely air purifying apparatus and machines; development, engineering, installation, maintenance and repair of misting and ventilation materials for treating ambient air, the designated services all being from or for the sensory additive market, and none of these services are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear.

Class 40

(2) Treatment of ambient air; treatment of bad odours in agricultural and industrial buildings and any other premises; odour elimination through liquids or solids for the agricultural, industrial and household fields, namely essential oil spraying services for purifying and deodorizing the air; air purification; air deodorization; odour treatments; odour absorption; waste treatment (transformation); sorting of waste and secondary raw materials (transformation); recycling of waste and trash, the designated services all being from or for the sensory additive market, and none of these services are for, or related to, the surface covering industry or market, in particular floors and walls and accessories therefor, in particular glues, coatings or footwear; design of misting and ventilation materials for treating ambient air, the designated services all being from or for the sensory additive market, and none of these services are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear.

Class 42

(3) Scientific research in the field of chemistry; research and development of chemicals for eliminating odours; safety monitoring of consumer products; compliance testing services; quality testing for certification purposes; air analysis; research and analysis of volatile organic compound emissions in the air and atmosphere; scientific laboratory services, chemical, biochemical and microbiological analyses, particularly in terms of safety and quality in the fields of health, dietetics, cosmetics, drugs and odour treatment and elimination, the designated services all being from or for the sensory additive market, and none of these services are for, or related to, the surface covering industry or market, in particular in relation to floors and walls and accessories therefor, in particular glues, coatings or footwear.

(1) Moulds of metal for the manufacture of casts, empty packaging and containers; metal beverage bottles, metal bottles for use in packaging

Class 07

(2) Blow-moulding machines for the manufacture of hollow bodies, preforms, containers and bottles; preform feeder machines for use in the manufacture of plastic bottles and plastic storage containers; preform orientation machines for use in the manufacture of plastic bottles and plastic storage containers; machines for manufacturing stoppers and caps; machines for orienting stoppers and caps; wrapping machines; sealing (closing) machines namely bottle sealing machines, sealing machines for industrial packaging; cutters [machines] namely milling equipment for manufacturing metal molds; packing machines; conveyors [machines]; filling machines namely bottle and can filling machines; unitisation machines namely load unitization machines used for packaging; cutters namely milling cutters machine tools ; pallet packing machines; tray packers; pallet wrapping machines; labellers namely machines to fix labels on containers; machines for handling and sorting plastic and cardboard containers for packaging; packers and unpackers namely machines for organizing and putting products in packs, namely machines for grouping or collating products and further introducing them in a box, erecting a box around them, or wrapping them with a film and unpackaging machines; palletising machines namely machines for automatically stacking cases of goods or products onto a pallet ; de-palletising machines namely material handling machines for automatically removing cases of goods or products from a pallet; washing apparatus and cleaning apparatus namely bottle washing machines, washing machines, electric washing machines for industrial purposes, high-pressure pumps for washing appliances and installations; motors and engines (except for land vehicles) namely motors and engines used in industrial applications; machine parts, namely, moulds for use in the manufacture of bottles and containers

Class 09

(3) Weighing machines namely check weighers, beltweighers, weighing scales for transport containers, industrial scales and balances for use in the food and beverage industries; measuring apparatus namely instruments for measuring milk quality parameters, measuring wheels, measuring tapes, pressure sensors; weighing, measuring, signalling, checking apparatus and instruments namely weighing machines for empty or full containers for food and beverage; industrial process control software and computer hardware for remotely controlling and operating industrial equipment and machinery in pharmaceutical, chemical, food and beverage industries; detectors namely cameras, presence detectors in the nature of an electrical sensor apparatus for sensing the presence or absence of individuals or objects by contact or pressure, movement detectors, namely motion detectors, optical detectors for detecting light and laser detectors for detecting distance between objects; apparatus for monitoring and recording the performance of machinery namely computer software for use in monitoring and recording the performance efficiency of machines

Class 11

(4) Pasteurizers for use in the food and beverage industry

Class 20

(5) Packaging containers of plastic, non-metallic bottle stoppers, non-metallic bottle caps

Class 21

(6) Containers and packaging of glass, plastic bottles, glass bottles, refrigerating bottles

(1) Computers, computer peripheral devices, namely computer mice, computer chips, computer disk/disc drives, computer interface boards, computer interface cards, computer network adaptors, computer power supplies, computer printers, computer cameras, videophones, joysticks, and scanners, computer terminals; computer hardware; microprocessors, memory boards, computer monitors, displays namely computer display terminals, computer monitors, digital display screens, LCD screens and touch screens, keyboards, computer cables, modems, printers, disk drives, connectors for electronic circuits, and computer hardware namely drivers, hard disk drivers; blank computer storage media namely, hard computer discs, digital video discs and digital versatile discs namely DVD-R discs, CD-Rom computer discs; magnetic data storage carriers namely blank floppy disks, blank magnetic tapes, blank digital optical disks, magnetic storage disks, blank compact disks, blank digital video disks, blank digital audio tapes and blank video tapes for media storing and recording data, namely, music, audio, video files and multimedia content; computer software and firmware, namely, operating system programs, data synchronization programs, for personal and handheld computers; pre-recorded computer programs for personal information management, database management software, character recognition software, messaging software, paging software; database synchronization software, computer programs for accessing, browsing and searching online databases, computer hardware and software for providing integrated telephone communication with computerized global information networks; handheld digital electronic devices namely, personal digital assistants, electronic organizers, electronic notepads, mobile phones, cameras, computer game cartridges, videophones, mobile telephones and tablet computers for the sending and receiving of telephone calls, electronic mail, and other digital data, namely personal information, text messages, audio files, video files, multimedia files, music files, calendar and contact information, spreadsheets, graphics, still images, moving pictures, books, publications, journals and presentations consisting of text, graphics and video content, mobile telephones and tablet computers for use as a digital format audio and video player, for use as an electronic publication reader, and for use as a handheld computer, voice recorder, video recorder, digital compass and camera and software related thereto namely software for recording, organizing, transmitting, manipulating, and reviewing text, data, image, audio and

audiovisual files for the sending and receiving of telephone calls, MP3 players for the storage, transfer and playback of music, audio, video and multimedia files; hand held computers, tablet computers, personal digital assistants, electronic organizers, electronic notepads; mobile digital data and cellular electronic devices namely computers, cellular telephones for recording, organizing, transmitting, manipulating, and reviewing text, data, image, audio, and audiovisual files, for the sending and receiving of telephone calls, electronic mail, and other digital data namely personal information, text messages, audio files, video files, multimedia files, music files, computer software, calendar and contact data, spreadsheets, graphics, still images, moving pictures, books, publications, journals and presentations comprising text, graphics and video content for use as a digital format audio and video player, computer gaming device, an electronic publication reader, hand-held computer, personal digital assistant, electronic organizer, electronic notepad, camera, telephone, voice recorder, video recorder, digital compass and global positioning system (GPS) electronic navigation device; cordless telephones; mobile telephones; parts and accessories for mobile telephones namely electrical connectors, wires, cables, and adaptors, chargers, cases, headphones, earphones, ear buds, audio speakers, microphones, and headsets; facsimile machines, answering machines, cameras, videophones, telephone-based information retrieval software for computers and mobile telephones for the retrieval of data and of information namely personal information, text messages, audio files, video files, multimedia files, music files, computer software, calendar and contact data, spreadsheets, graphics, still images, moving pictures, books, publications, journals and presentations comprising text, graphics and video content; electronic handheld units namely personal digital assistants, electronic organizers, electronic notepads, mobile phones, electronic digital audio and video players namely electronic publication readers, cameras, computer gaming machines, videophones, and handheld computers for the wireless receipt, storage and transmission of data and messages, namely personal information, text messages, electronic mail, audio files, video files, multimedia files, music files, computer software, calendar and contact data, spreadsheets, graphics, still images, moving pictures, books, publications, journals and presentations comprising text, graphics and video content and electronic devices, namely personal digital assistants, electronic organizers, electronic notepads, mobile phones, electronic publication readers, cameras, computer gaming machines, videophones and handheld computers that enable the user to keep track of and manage personal information; computer software for the synchronization of data between a remote computer station and fixed computer station; electronic computer storage and optical storage media namely, computer chips, hard computer discs, digital video discs and digital versatile discs namely blank DVD-R discs, computer storage discs namely blank CD-Rom discs, computer memory expansion modules, and blank magnetic disks and blank magnetic tapes namely blank floppy disks, blank magnetic video and audio tapes and disks, blank digital optical disks, blank magnetic disks, blank compact disks, blank digital audio tapes and video tapes for storing and recording computer programs and software; solid state computer and electronic memory devices, namely solid state storage drives and flash drives; computer equipment for use with any of the aforesaid goods namely, computer network adaptors, computer power supplies, computer speakers, computer headphones, blank computer storage media namely hard computer discs, digital video discs and digital versatile discs namely DVD-R discs, CD-Rom computer discs,; accessories, parts and fittings for all the aforementioned goods namely electrical connectors, wires, cables, adaptors, headphones, earphones, ear buds, audio speakers, microphones, and headsets; user manuals in electronically readable, machine readable or computer readable form for use with, and sold as a unit with, all the aforementioned goods; hard drives; miniature hard disk drive storage units; electric batteries namely cellular phone batteries and handheld mobile digital electronic device batteries; chargers namely, cellular phone battery chargers, camera battery chargers, and handheld mobile digital electronic device battery chargers; headphones; stereo headphones; in-ear headphones; stereo

speakers; radio receivers, amplifiers, electric phonographs, record players, audio and video tape recorders for the reproduction of music, video, multimedia and audio files, loudspeakers, multiple speaker units for amplification, recording and reproduction of music, video, multimedia and audio files, microphones; digital audio and video devices, namely handheld computers, electronic handheld personal organizers, audio speakers, video cameras; radio transmitters; bags and cases adapted or shaped to contain MP3 players, hand held computers, tablet computers, personal digital assistants, global positioning system (GPS) devices, electronic organizers and electronic notepads; computer software for assisting developers in creating program code for use in multiple application programs; computer software for running development programs and application programs in a common development environment; compiler programs, debugger programs and utility programs for creating graphical applications. Computer software for user authentication; encryption keys, electronic encryption keychain, electronic security token, hardware security token; smart cards namely chip card or integrated circuit card (ICC) for the purpose of encryption application used by an authorized user of a computer system facilitate authentication; electronic security token in the nature of a fob-like device used by an authorized user of a computer system to facilitate authentication; software to facilitate transactions utilizing digital crypto-currencies, namely the receipt, transfer, purchase, issuance, dispensation, conversion, exchange, storage and management of digital cryptocurrencies and to display rates of exchange for same; computer software programs relating to public key infrastructure based security systems and access control and authorization management solutions, namely, information security applications, cryptography, public key cryptography, private key cryptography; Computer software for enabling credit, debit, cash, gift, and payment card number and authentication storage and authorized user selection of the stored data for use in connection with payment for goods and services; integrated circuits, printed circuit board (PCB); computer software for running software development programs and application programs in a common development environment.

Class 25

(2) Clothing, namely casual clothing

Class 28

(3) Computer gaming machines namely electronic hand-held game units, computer game consoles, computer game joysticks; Stand-alone video game machines; Computer and electronic games namely electronic handheld game units; Toys namely toy desktop computers, toy laptop notebook computers, toy hand held and mobile computers, toy personal digital assistants, toy electronic organizers, toy electronic notepads, toy cameras and toy computer gaming machines namely toy electronic hand-held game units, toy computer game consoles, toy computer game joysticks, toy computer game cartridges, stand alone toy video game machines; games and playthings namely, computer game consoles, computer game joysticks; computer gaming machines namely electronic hand-held game units, and stand alone video game machines; playing cards; electronic hand-held game units; musical toys; toy audio apparatus namely, toy stereo headphones, toy in-ear headphones, toy audio speakers, toy digital audio players, toy portable and handheld digital audio players, toy earphones, toy ear buds, toy microphones and toy headsets; toy musical boxes; toy musical instruments; toy record players for playing tunes and cassettes; battery operated toys namely, computerrelated battery operated toys, namely, cars, robots, board games, electric action toys, musical toys, construction playsets, toy sports equipment, namely tennis rackets, balls, bike trainers, golf gloves, golf clubs, golf tees and baseball bats, binoculars, battery operated computer toys for the sending and receiving of telephone calls, electronic mail, and other digital data namely personal information, text messages, audio files, video files, multimedia files, music files, graphics, still images, moving pictures, books, for use as a digital format audio player and for use as handheld computers, battery operated toy personal digital

assistants, battery operated toy electronic organizers, battery operated toy electronic notepads, battery operated cameras, battery operated toy computer gaming machines and battery operated toy videophones; hand-held electronic games and apparatus, other than those adapted for use with television receiver only, namely, computer game consoles, computer game joysticks, computer gaming machines and videophones; video output toys and games namely, toy touch screens, toy digital display screens, toy LCD screens; interactive computer toys and games for the sending and receiving of telephone calls, electronic mail, and other digital data namely personal information, text messages, audio files, video files, multimedia files, music files, calendar and contact information, spreadsheets, graphics, still images, moving pictures, books, publications, journals and presentations consisting of text, graphics and video content, for use as a toy digital format audio player, and for use as toy handheld computers, toy personal digital assistants, toy electronic organizers, toy electronic notepads, toy cameras, toy videophones and toy computer gaming machines namely electronic hand-held toy game units, toy computer game consoles, toy computer game joysticks, toy computer game cartridges, stand alone toy video game machines; musical toys; stand alone video game machines incorporating a means of display; toy handheld electronic devices namely, toy personal digital assistants, toy electronic organizers, toy electronic notepads, toy cameras, toy videophones; toy computers (not working); toy mobile telephones (not working).

Services

Class 35

(1) Business management consultancy services in the field of education services, namely, organizing and conducting exhibitions, displays, exhibits, workshops, seminars, training, and conferences all in the field of computers, computer software, computer peripherals, consumer electronics, online services, namely technical support and technician training, high technology, communications, namely computer networking and the Internet, information technology, information services, namely training services for providing information services to third parties in the field of computers, computer software, computer peripherals and consumer electronics;

Class 36

(2) Services to facilitate and support transactions utilizing digital crypto-currencies, namely the receipt, transfer, purchase, issuance, dispensation, conversion, exchange, storage and management of digital cryptocurrencies, and to display rates of exchange for same

Class 38

(3) providing to third parties a telecommunication access service namely, providing multiple user bandwidth and dedicated access to the Internet to enable electronic access to computer software, Internet websites, Internet web software applications, electronic databases, digital content, and business computer software applications of others accessible via the Internet, electronic mail; providing to third parties, telecommunication access to websites and electronic news services online allowing the download of information and data, namely personal information, text messages, electronic mail, audio files, video files, multimedia files, music files, calendar and contact information, news, weather, financial information, map and direction information, spreadsheets, graphics, still images, moving pictures, books, publications and journals and presentations in the field of computers, computer software, computer peripherals, and consumer electronics, consisting of text, graphics and video content; providing to third parties telecommunication access to web sites on the Internet for the purpose of identifying, locating, grouping, distributing, and managing data and links to third-party computer servers, namely data and links to personal information, text messages, electronic mail, audio files, video files, multimedia files, music files, calendar and contact information, news, weather, financial information, map and direction information,

spreadsheets, graphics, still images, moving pictures, books, magazines, periodicals, newsletter, journals, other publications, and presentations in the field of computers, computer software, computer peripherals, and consumer electronics, consisting of text, graphics and video content; webcasting services for the transmission of radio and television programmes by electronic and digital means via cellular networks and computer networks; providing telecommunication access to digital music web sites on the Internet to third parties; providing telecommunication access to MP3 web sites on the Internet to third parties; delivery of digital music by telecommunications namely, electronic transmission of streamed and downloadable electronic publications for browsing over computer networks; electronic mail services; providing on-line bulletin boards for the transmission of messages among computer users concerning entertainment namely, music, concerts, videos, radio, television, film, news, sports, games and cultural events; rental and hire of communication apparatus boxes namely, telephones, cordless telephones, mobile telephones, and electronic mail-boxes; providing to third parties electronic communication and telecommunication services, namely, dissemination via computer, internet-based databases, electronic communications networks and information networks of news in the field of sports, weather, cultural events and entertainment namely music, concerts, plays, celebrity gossip and movies; electronic communications consultancy namely consulting services in the field of the electronic transmission of data and of information by electronic means namely, text messages, electronic mail, video, music, computer software, photographs, calendar and contact data, news, weather, financial information, map and direction information, via cellular networks and global computer networks; providing to third parties telecommunication access to databases and directories via communications networks for obtaining data in the fields of music, music videos, video games, video sports, film, books, television, and sports; Providing temporary internet access to use on-line non-downloadable software to enable users to program audio, video, text and other multimedia content, namely music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs of all kinds namely recitals, concerts, plays, videos, radio, television, film, news, sports and games; Providing user access to the Internet (service providers). Facsimile and telegram services; call forwarding services; electronic messaging and electronic information distribution services by global communication network (the Internet) and private access networks (Intranet), namely: providing multiuser access to a global computer information network and internal computer information network for the transfer and dissemination of information in the field of information technology defence and military domains; supply of access to a radio telephone network namely subscription for flat fee services; Providing internet forums, in the field of computers; Providing podcasts in the field of computers.

Class 41

(4) the publication of books, texts and magazines; developing and conducting educational programs in the field of computers; conducting and organisation of conferences in the field of computers; organisation of competitions in the field of computers; production and presentation of television programmes namely, films, sound and video recordings and computer programmes; organisation, production and presentation of television shows; game services provided on-line from a computer network; amusement park services; providing instructional videos in the field of computers; publication of electronic journals, featuring user generated or specified content; publication of electronic books, manuals and journals on-line; Education and training services in the field of computers; instruction services in the field of computers; teaching services in the field of computers; online tutorials in the field of computers; publishing online wiki in the field of computers; providing online publications (non-downloadable) relating to computers; publication of electronic web logs, featuring user generated or specified content; providing webinars in the field of computers;

Class 42

(5) Time sharing services for communication apparatus namely, computers, telephones, cordless telephones, mobile telephones, handheld and mobile digital electronic devices for the sending and receiving of telephone calls, faxes, electronic mail, and other digital data, namely personal information, text messages, electronic mail, audio files, video files, multimedia files, music files, calendar and contact information, spreadsheets, graphics, still images, moving pictures, books, publications, journals and presentations in the field of computers, computer software, computer peripherals, and consumer electronics, consisting of text, graphics and video content, via cellular networks and computer networks. Providing to third parties scientific and technological services and research in the field of computer networks and network systems design; industrial analysis and research services in connection with computer hardware and software, and electronic messaging systems; design and development of computer hardware and software; rental to third parties of computer hardware and computer peripheral devices namely computer mice, computer chips, computer disk/disc drives, computer interface boards, computer interface cards, computer network adaptors, computer power supplies, computer printer cartridges, computer printers, computer cameras, joysticks, and scanners; multimedia and audio-visual software consulting services; computer programming; support and consultation services for developing computer systems, databases and applications; graphic design for the compilation of web pages on the Internet; creating and maintaining web-sites; hosting the web-sites of others; providing search engines for obtaining data via communications networks; providing to third parties search engines for obtaining on a global computer network, data namely personal information, text messages, electronic mail, audio files, video files, multimedia files, music files, calendar and contact information, news, weather, financial information, map and direction information, spreadsheets, graphics, still images, moving pictures, books, magazines, periodicals, newsletter, journals, other publications, and presentations consisting of text, graphics and video content; computer consulting and support services for scanning information into computer discs. Secure data transmission services in particular with access codes, namely: design, monitoring and testing of security computerized system dedicated to data, sound and image processing, radar detection, software protection programs. Design and development of software security equipment for public network operators, consumers and enterprises; information management services, namely: installation of computer systems, monitoring of computer systems, computer programming; consulting services in the field of electronic security; computer programming; industrial and scientific research in the field of telecommunications namely, services for the updating of databases and software; software maintenance services; computer programming services; research and design relating thereto in the field of computers; support and consultation services for design and development of computer systems, databases and applications; installation, maintenance and repair of computer software; design and development of computer memory devices, digital data storage devices and systems namely, hard disk drives, solid state disk drives, miniature fixed disk drives and computer storage disks; computer systems analysis; creating and maintaining web-sites; Design and development of computer software; computer software programming. Design and development of computer hardware; computer consultation, design, testing, research and advisory services; research and development of computer hardware and software; compliance testing of computer hardware; design and development of computers, computer peripherals;

(1) Home automation hubs comprised of voice-activated speakers, computer hardware, and software for controlling any device having an internet connection, namely, audio speakers, computers, televisions, video monitors, set top boxes, personal digital voice recorders, MP3 players and recorders, MP4 players and recorders, smart audio speakers, DVD players and recorders, portable computer hardware, game consoles, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, light bulbs, and consumer appliances, namely, air conditioners, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers; devices for home and environmental monitoring, control, and automation, namely wired and wireless controllers, and electrical control systems for lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; security surveillance apparatus, namely electronic components of security alarm systems; security alarm monitoring systems; devices, namely wireless and wired controllers, and electrical control systems for lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window

sensors, and cameras; computer software for use in sharing and transmission of operational data and information between networked devices, namely lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for the purposes of facilitating home and environmental monitoring, control, and automation; intercommunication apparatus, namely, wireless radio transmitters and receivers; intercommunication apparatus, namely, computer hardware and software to communicate, control, check the status of security alarm systems, automated environmental systems, networked kitchen appliances, electronic doorbells, and cameras in home, offices, and other buildings; electronic controllers for home automation, namely electronic controllers for controlling lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; stand-alone voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; anti-intrusion and anti-theft warning apparatus and devices, namely, anti-theft alarms and electronic sensors used with anti-theft alarms; theft prevention installations, namely burglar alarms; security alarm controllers; photographic apparatus and instruments, namely, cameras, video cameras, cases adapted for photographic equipment, and camera mounts; optical apparatus and instruments, namely optical profilers, optical scanners, and optical sensors; computer hardware and software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing digital images, live audio feeds, audio clips, live video feeds, video clips and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; wireless communication devices for voice, data, or image transmission, namely electronic doorbells, video cameras, and audio speakers; electronic voice and radio transmitters and receivers; doorbells; electronic lock assemblies; motion sensors; electronic door alarms, electronic window alarms; alarm sensors for detecting motion, temperature, air quality and ambient light; fire and smoke detectors; audio speakers; video monitors; security cameras; video cameras for monitoring the interior and exterior of residences and commercial buildings, and wireless controllers for remote monitoring, control, and automation of home devices and systems, namely, household appliances, lighting systems, HVAC systems, thermostats, security systems, cameras, garage door openers, electronic lock assemblies, electronic gates, home entertainment systems, stereos, televisions, computer hardware for video streaming and recording, video cameras, DVD recorders, audio speakers, computers, laptop computers, tablet computers, wearable activity trackers, smart watches, and irrigation systems; video streaming devices, namely computer hardware for streaming videos; video recording devices, namely video cameras, DVD recorders, and portable computer hardware; video receivers; cameras; webcams; apparatus and devices providing night vision, namely, night vision sensors and night vision cameras; personal security alarm system mounts and stands, and camera mounts and stands all connected to a wireless network; environmental hazard detectors, namely, devices that detect and record the presence of water, humidity levels, heat, temperature, movement, motion, and sound; closed circuit televisions and cameras; security lights; pet and baby monitors, video monitors for pets; parts, fittings and accessories for all the aforesaid goods, namely cases adapted for cameras, mounts for cameras, and screwdrivers specifically designed for installing electronic doorbells; security software; computer software and software applications for mobile phones, tablets, and desktop computers, namely software for use in monitoring home security systems, for use in electronic storage of data, and for controlling home devices and systems, namely lighting fixtures, HVAC systems, security systems, household appliances,

temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers; software and software applications permitting users to identify and communicate with persons at their door; software development kits (SDKs) consisting of computer software for the development, use, and interoperability of application programming interfaces (APIs) that are used by third party electronic devices for home and environmental monitoring, control, and automation, and electrical control systems for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras that exchange information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers, via communications networks and the internet and that connect with cloud-based data storage and exchange services; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to internet connected consumer electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, personal digital voice recorders, MP3 players and recorders, MP4 players and recorders, smart audio speakers, DVD players and recorders, portable computer hardware, game consoles, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, light bulbs, and consumer appliances, namely, air conditioners, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to theft-prevention and security systems, and home and business surveillance systems; voice command and recognition software; computer software used for controlling stand-alone voice controlled information and personal assistant devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; computer software for remote monitoring and analysis of home security and wireless networked lighting systems; security and anti-theft software applications; electronic control systems for controlling lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; software for monitoring and controlling communication between computers and automated machine systems, namely lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; global positioning navigation software for

use with smart, autonomous vehicles and mobile machines, namely wheeled carts specially adapted for audio-visual equipment and motorized carts specially adapted for audiovisual equipment for use in connection with lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for home and environmental monitoring, control, and automation; software for use in tracking and monitoring position and range of smart, autonomous vehicles and mobile machines, namely wheeled carts specially adapted for audio-visual equipment and motorized carts specially adapted for audio-visual equipment for use in connection with lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for home and environmental monitoring, control, and automation; electronic systems, equipment and instruments, namely behavior engine software for use with any device having an internet connection, for use in home and environmental monitoring, control, and automation, namely software that permits autonomous operation of any internet-connected device on which the software is installed; electronic systems, equipment and instruments, namely positioning engine software for use with any device having an internet connection, for use in home and environmental monitoring, control and automation, namely software for use in determining the geographic position of any internet-connected device on which the software is installed; electronic systems, equipment and instruments, namely positioning sensors for use with any device having an internet connection, for use in home automation and environmental monitoring, control, and automation; electronic systems, equipment and instruments, namely dynamic intelligent software and sensors for use in connection with any device having an internet connection, for use in home and environmental monitoring, control, and automation, namely software that permits autonomous operation of any internet-connected device on which the software is installed, and motion sensors for use therewith; automated self contained electronic security surveillance carts specially adapted for audio-visual equipment that can be deployed to gather evidence or intelligence; wearable activity trackers; wearable cameras; wearable computers in the nature of smartwatches; wearable computers in the nature of smartglasses; wearable video display monitors; communications headsets for use with mobile phones, communication radios, intercom systems, or other communications network transceivers; light switches; lighting control panels; lighting systems, namely, led (light emitting diode) modules, power supplies and wiring; light diodes.

Class 11

(2) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely electric lighting fixtures, air purifiers, electric fans, electric heating fans, ventilating exhaust fans, air filters for air conditioning units, air conditioning units, and tap water faucets; floodlights, spotlights, wall lights; Light bulbs; LED light bulbs; lighting fixtures; lighting fixtures with motion detection; battery powered lighting fixtures; electric lighting fixtures, namely, power failure backup safety lighting; scone lighting fixtures; lanterns for lighting; lighting apparatus, namely, security lighting fixtures, and outdoor lighting fixtures; ceiling lights; ceiling light fittings; electric night lights; LED (light emitting diodes) lighting fixtures for use in display, commercial, industrial, residential, and architectural accent lighting applications; LED lighting fixtures for indoor and outdoor lighting applications; lights for illuminating stairs, doors and other portions of buildings; portable battery-operated lights that can be placed on surfaces where other light sources are unavailable; portable utility lights; solar light fixtures, namely, indoor and outdoor solar powered lighting units and fixtures; spot lights; wall lights; fixtures for incandescent light bulbs; lighting fixtures for use in parking decks and garages; lighting fixtures for use in parking lots and walkways; electrical magnifying light fixtures; miniature light bulbs; lighting fixtures that

integrate natural daylight and fluorescent lighting into the fixture; lighting for cabinets, pantries, work spaces, sheds, shelving units, and cupboards; electric lighting fixtures, namely, power failure backup safety lighting.

Services

Class 35

(1) Online retail department store services; computerized database management; collection and compilation of statistics and information into computer databases in the field of home security, home monitoring, office and other facilities security, and criminal activity; database and file management; message transcription, namely compilation and transcription of video and audio recordings for businesses; compilation and systemization of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers into computer databases; data searches in computerized files for others; subscriptions to telecommunications database services for others, namely arranging subscriptions to a database containing video clips and live views of surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; promoting consumer awareness of personal safety, home security and crime prevention; retail store services in the fields of consumer electronics, security and surveillance equipment, and audiovisual equipment; retail store services in the field of general consumer merchandise, namely retail department store services.

Class 38

(2) Telecommunication services, namely internet access provider services; transmission of information by electronic communication networks, namely, transmission of information gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; electronic transmission of data, namely audio, video and multimedia files gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers via computer and electronic communications networks; transmission of motion detection alert messages, person detection alert messages, voice, video, images, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers through a global communications network; communications via fiber optic networks and wireless broadband, namely providing Internet access via fiber optic broadband networks and wireless broadband networks; audio broadcasting services, namely broadcasting live audio feeds and audio clips over the Internet; video broadcasting services, namely broadcasting live video feeds and video clips over the Internet; data broadcasting services, namely broadcasting information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet; video communication services, namely, electronic transmission of video clips from security and surveillance systems via the Internet; video telephone services; data communication services, namely electronic mail services; data streaming, namely streaming of information about water

levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet; providing voice communication services over the Internet, namely voice over Internet Protocol [VoIP] services; consultancy and advisory services in the field of the electronic transmission, broadcast, streaming and communication of audio, video and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet.

Class 41

(3) Audio and video recording services; subscription video recording services; electronic library services for the supply of electronic information (including archive information) in the form of audio and/or video information; consultancy and advisory services relating to the aforesaid services.

Class 42

(4) Platform as a service (PAAS) featuring computer software platforms for use with home and environmental monitoring, control, and automation systems; software as a service (SAAS) services featuring computer software for use with home and environmental monitoring, control, and automation systems; application service provider featuring application programming interface (API) software for home and environmental monitoring, control, and automation; Platform as a service (PAAS) featuring computer software for use to electronically connect and control voice-activated speakers, computer hardware and software for controlling any network-enabled devices that are connected to home automation hubs via the internet, namely, wired and wireless controllers, and electrical control systems for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; Software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, namely, home automation hubs, wireless and wired controllers, and electrical control systems, all for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart security alarm systems, environmental systems, kitchen appliances, doorbells, cameras, audio speakers and computer hardware with virtual personal assistant capabilities; software as a service permitting users to identify and communicate with persons at their door; voice-activated software as a service, namely, non-downloadable software for stand-alone voice controlled information devices comprised of cloud-connected and voice-controlled smart audio speakers and computer hardware with virtual personal assistant capabilities; computer services, namely, providing an internet site featuring technology for use in home and environmental monitoring, control, and automation systems; computer services, namely, providing an internet portal featuring technology enabling users to remotely interact with home and environmental monitoring, control, and automation systems; providing online non-downloadable software for recording, viewing, storing, sharing and analyzing online audio and video gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; providing temporary use of on-line non-downloadable software for the management and transmission of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of

smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; design and development of computer hardware and software; hosting a website for the general electronic storage of data; monitoring of computer systems by remote access; monitoring of camera systems by remote access; installation, maintenance and repair of computer software; cloud recording and storage services, namely cloud-based video surveillance services; cloud computing providers services for general storage of electronic media, namely, images, text, audio, and video data; providing an online non-downloadable internet-based application featuring technology enabling users to share videos; providing an on-line network environment that features technology that enables users to share live audio feeds, audio clips, live video feeds, video clips, photographs, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; providing temporary use of online non-downloadable software for recording, viewing, storing, sharing, and analyzing live audio feeds, audio clips, live video feeds, video clips, photographs, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; information technology support services, namely, help desk services and troubleshooting of computer hardware and software problems for customers by means of a support hotline; provision of technical support services for software for computer systems; consultancy and advisory services in the fields of platform as a service (PAAS) services, software as a service (SAAS) services, application service provider services, and the provision of computer services, all with respect to home and environmental monitoring, control, and automation; consultancy and advisory services in the fields of platform as a services (PAAS) services, software as a service (SAAS) services, the provision of computer services, and the provision of on-line non-downloadable software, all with respect to the connection and control of smart and networked consumer electronic devices, namely lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, electronic doorbells, video cameras, and audio speakers for the purposes of facilitating home and environmental monitoring, control, and automation; consultancy and advisory services in the field of design and development of computer hardware and software; consultancy and advisory services in the fields of electronic storage, website hosting, monitoring of computer systems, and monitoring of camera systems, consultancy and advisory services in the field of installation, maintenance and repair of computer software; consultancy and advisory services in the field of the provision of information technology support services, namely troubleshooting computer hardware and software problems; consultancy and advisory services in the field of the provision of technical support for software and computer systems.

Class 45

(5) Home security monitoring services; consultancy, advisory and information services relating to home security monitoring; electronic monitoring and security services for residential and commercial properties; providing information about personal safety, home security and crime prevention; consultancy, advisory and information services relating to home security monitoring; providing information about personal safety, home security and crime prevention via a website.

Trademark Description

The mark consists of the word "Mishkah" and placed directly above the word is an arabic translation of the word Mishkah; to the right of both words is a symbol similar to a horizontal oval but with a straight line at the bottom of the mark; inside the mark shows two curved lines in the center.

Foreign Character Translation

As provided by the applicant, the English translation of "Mishkah" is "a niche in the wall where lamps are placed".

Foreign Character Transliteration

As provided by the applicant, the non-Latin characters in the mark transliterate to "Mishkah".
