## Stores Accounts to be Audited.

Audit Office, Ottawa, April 14, 1894.
Sir,-Under section 54 of the Audit Act, the Minister of Finance has requested me to make an audit of all Stores Accounts.

I would therefore ask you to fo ward me a statement showing all stock on hand at your various supply depots on June 30, 1893, with the value of each item.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

Audit Office, Ottana, April 18, 1894.
Sin, - With reference to my letter of April 14th in which I asked for a statement showing the stores in the possession of your department on June 30, 1893, I would call your attention to the necessity of your department's keeping your stock account of stores since June 30,1893 , in such a form that at any time without previous notice to your department, this office may make an audit of them.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

## Advertising for Tenders for Supplies.

Audit Office, Ottawa, Maroh 9, 1894.
Sir,-I see that your department advertises for tenders for the supply of clothing and of the various militia store supplies and necessaries, such as boots, mitts, blankets, sadalery, wood, \&c., but that you do not ask for tenders for the supply of bread, meat, groceries, wood, forage and other necessaries to the Permanent Batteries and schools and to the Annual Drill Brigade Camps. Perhaps you will give the reason for the two systerns.

The Department of Railways and Canals now call for public tenders for nearly all their supplies, and a marked reduction in price has in most instances been the result.

I am, sir, your obedient servant,

Militia and Defence, Ottawa, March 16, 1894.
Sir,-In reply to your letter of the 9 th instant, respecting militia stores, clothing, supplies and necessaries, I have the honour to inform you that tenders were called for, for the supply of these articles, except in cases where it was thought advisable to renew the existing contracts.

I am, sir, your obedient servant,
The Auditor General. C. EUG. PANET, D.M. M. \& D.

Audit Office, Ottawa, April 3, 1894.
Sir,-In reply to your letter of the 16 th ultimo, let me say that my reasons for thinking your department did not call for tenders for the various supplies required for the Permanent Batteries and Schools and for Annual Drill, were that in the fiscal years 1891-92 and 1892-93 I could not see that there were any advertisements calling for such tenders.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

Militia and Defence, Otrawa, April 13, 1894.
Sir,-In reply to your letter of the 3rd inst., relative to supplies required for the Permanent Batteries and Schools and for Annual Drill, I have the honour to inform you that on the occasion referred to, tenders were invited in order to secure the minimum cost to the public.

I am, sir, your obedient servant,
The Auditor General.
C. EUG. PANET, D.M.M. \& D.

Audit Office, Otrawa, April 16, 1894.
Sir,-In answer to your letter of 13 th instant, in which you state that on the occasions mentioned in my letter of the 3rd instant, tenders were invited, let me say that the method of calling for tenders I referred to was that of public advertisement in the newspapers and not that in which tenders are asked directly by the department.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, $A . G$.

## Quartermaster-General Lake: Pay and Allowances.

Militia and Defence, Ottana, April 16, 1894.

SIR,-In reply to the inquiry contained in the first clause of your letter of the 12th instant, respecting the pay of Colonel P. H. N. Lake, Quartermaster-General, I have the honour to state :-

Colonel Lake, Quarter Master General, receives $\$ 2,600$ pay and $\$ 600$ staff allowances, or consolidated pay at $\$ 3,200$. Colonel Powe.!, Adjutant General, is paid in precisely the same way, and at the same rate of pay and allowances.

I am, sir, your obedient servant,

## Audit Office, Ottana, April 20, 1894.

Sir,-In answer to your letter of the 16 th instant, in which you state that Colonel Lake, Quartermaster-General, receives $\$ 2,600$ pay and $\$ 600$ staff allowance, the same rate of pay as is received by Colonel Powell, Adjutant-General, let me ask what expenses are supposed to be covered by this staff allowance of $\$ 600$, given to Colonel Powell and to Colonel'Lake.

I am, sir, your obedient servant,
The Deputy Minister of Militia.

J. L. McDOUGALL, A.G.

## Militia and Defence, Ottawa, April 26, 1894.

Sir,-In reply to your letter of the 20th instant, inquiring what expenses the $\$ 600$ allowances of the Adjutant General and the Quartermaster-General cover, I have the honour to state that these are the usual allowances of military officers who are not provided with quarters, rations, fuel, light, \&c. The, allowances of military officers in Canada are far less than those in the Imperial service. I may add that you will observe by section 37 of the Militia Act that the Major-General commanding the militia is to receive $\$ 4,000$ in full of all pay " and allowances." Inferentially, where the pay only of a rank is specified, the allowances of all military officers entitled thereto follow as a matter of course.

I am, sir, your obedient servant,
The Auditor General.
C. EUG. PANET, D.M.M. \& D.

## Kingston: Rent for Cataraqui Bridge.

Audit Office, Ottawa, July 9, 1894.
Sir,-I would like to be furnished with a copy of the agreement under which your department pays to the Cataraqui Bridge Co. an annual rental of $\$ 1,403.82$ for the use of their bridge.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

Militia and Defence, Ottawa, July 13, 1894.
Sir,-In reply to your inquiry of the 9 th inst., I have the honour to state that in the year 1827 the Imperial authorities made an agreement with the Cataraqui Bridge Company, by which the latter erected the present bridge and the War Office agreed to pay them an annual rental of $£ 300$ sterling for the use of the said bridge. On the withdrawal of the British troops from Canada the Dominion Government agreed to continue the payment of such rent provided they be given the use of the bridge on the same terms and conditions that the Imperial authorities had enjoyed, and the War Office stipulated that the perpetual charge for toll on the bridge assumed by the Dominion would be paid out of the rent of the Queen's Wharf, Quebec, transferred at that time to the Dominion Government, under Statute 49, Victoria, cap. 45, to be retained for military purposes and never to be disposed of by the Dominion Government.

I am, sir, your obedient servant,

# Kingston College : Extra pay to Capt. Twining. 

## Audit Office, Ottawa, April 28, 1894.

Sir,-Please explain what expenses are covered by the inspection allowance of $\$ 5$ per day which was paid to Capt. P. E. Twining, for 7 days between Nov. 1 and 13, 1893.

You will see by the inclosed vouchers that all his transport and hotel expenses are paid.

As Capt. Twining draws pay at the rate of $\$ 2,000$ per year from the Royal Military College, he could not receive any extra allowance for services.

I am, sir, your obedient servant,
The Deputy Minister of Militia.

J. L. McDOUGALL, A.G.

## Dept. of Militia and Defence, Ottawa, May 10, 1894.

Sir,-In reply to the inquiry contained in your letter of the 28 th ultimo, I have the honour to state that Captain P. E. Twining, Professor of Fortifications at the Royal Military College of Canada is the Inspector of Engineers, and that, while so serving, he receives a special rate of pay of $\$ 5$ per diem. Vide No. 3 of Militia General Orders (19) of the 5th August, 1881 (Canada Gazette of 6th August, 1881) :-
"Inspection of engineer corps.
"The Professor of Fortification, for the time being, at the Royal Military College of Canada, is to be the officer to inspect the engineer corps of the militia, and while so employed he will be allowed pay at the rate of five dollars a day."

I am, sir, your obedient servant,

## The Auditor General.

C. EUG. PANET, D.M.M. \& D.

## Audit Office, Ottawa, May 25, 1894.

Sir,-In reply to your letter of the 10 th inst., in which you state that Captain $P$. E. Twining, as Professor of Fortifications at the Royal Military College received extra pay at the rate of $\$ 5$ a day while absent on such duties under a Militia General Order of Aug. 5, 1881, let me say that as these duties were performed by him for 7 days between Nov. 1 and 13 during which time the college was in session and he was supposed to be performing those services for which he is paid $\$ 2,000$ a year, I consider that his case comes under section 51 of the Civil Service Act which states that "No extra salary or additional remuneration of any kind whatsoever shall be paid to any deputy head, officer or employee in the Civil Service of Canada or to any other person permanently employed in the Civil Service of Canada," and that therefore he should refund \$35, the amount he received as pay for these seven days' services.

At the time the militia order above referred to was issued, the Act did not prevent the receiving of extra pay.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

Militia and Defence, Ottana, June 21, 1894.
Sir,-Adverting to your letter of the 25th ultimo, objecting to the payment to the Professor of Fortifications of the Royal Military College of a per diem allowance for acting as inspector of engineers, on the ground that the Civil Service Act provides for no extra remuneration being paid to persons employed in the Civil Service, I have the honour to point out that the Royal Military College is not a branch of the Civil Service nor under Civil Service regulations in any way; it is a military, not a civil institution, organized, not under the Civil Service Act, but under a special statute (49 Vict., chap.
42). The Inspector of engineers is not a civil servant, but an officer of the Royal Engineers, detailed for special military service in Canada.

I am, sir, your obedient servant,

## Medical Supplies: Differences in Cost.

Audit Office, Ottawa, March 9, 1894.
Sir,-Is there any explanation of the marked difference as shown below in the cost of the medical supplies purchased for the several batteries and schools during the fiscal year 1892-93 :-

|  | Establishment. | Cost. |
| :---: | :---: | :---: |
| "A" Battery | 159 men and 18 horses. | \$154 39 |
| "B" do | 171 do | 78739 |
| "C" do | 74 men. | 37810 |
| Quebec Cavalry School. | 39 men and 30 horses. | 4578 |
| Winnipeg Mounted Infantry School | 106 men and 50 horses. | 97585 |
| Fredericton Infantry School. | 106 men. | 43493 |
| St. Johns do | 107 men . | 36769 |
| Toronto do | 106 men. | 19157 |
| London do | 106 men . | 24515 |

I am, sir, your obedient servant,
The Deputy Minister of Militia. J. L. McDOUGALL, A.G.

## Militia and Defence, Otrawa, April 26, 1894.

Sir,-In reply to your letter of the 9 th ultimo, asking whether there is any explanation of the marked difference, as shown in the abstract which you give, in the cost of the medical supplies purchased for the several batteries and schools during the year 1892-93, I have the honour to state that no explanation can be given, why medicines are at a higher rate in some districts; but the attention of the respective commandants has been drawn to the matter, with a view to having these purchases brought to the lowest figure possible.

I am, sir, your obedient servant,
The Auditor General.
C. EUG. PANET. D.M.M. \& D.

Militia and Defence, Ottawa, May 25, 1894.
Sir,-Adverting to your letter of the 9th March last, respecting the cost of medical supplies purchased for the permanent corps, I have now the honour to state that in view of the marked discrepancy that there appears to be between the cost of these supplies in the different localities, if you will be so good as to refer back to me all the vouchers in this matter, which are now filed in your department, I will cause a very close investigation to be made.

I am, sir, your obedient servant,
The Auditor General.

$$
\text { C. EUG. PANET, D. M.M. \& } D .
$$

Audit Office, Ottawa, May 28, 1894.
Sir-In accordance with the request contained in your letter of the 25 th instant, I inclose the accounts for medical supplies purchased for the permanent corps during the fiscal year 1892-93.

I am, sir, your obedient servant,

## Tunics for Governor General's Orderlies.

Audit Office, Ottawa, Feb. 13, 1894.

$\mathrm{Sir}_{\mathrm{I},}$,-Before passing your application for a bill of exchange in favour of C.J. Webl \& Co., I would like to be informed of the regulations under which the annual issue of tunics is made to the three orderlies of the Governor General.

I find that the cost of those purchased a year ago was $\$ 17.03$ each, but that the price asked for the present issue is $\$ 21.90$ each.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

Militia and Defence, Ottawa, Feb. 15, 1894.
$S_{\text {ir, - I }}$ have the honour to acknowledge receipt of your letter of the 13 th instant, and to inform you that the tunics for the Governor General's orderlies are, at the request of the Governor General's Secretary, ordered from Messrs. C. \& J. Webb \& Co., London, England, from time to time as required.

Inquiry is being made as to the difference in cost between the last and previous issue.

I am, sir, your obedient servant,
The Auditor General. C. EUG. PANET, D.M.M. \& D.

Ropemaker St., Moorfields, London, E.C., March 2, 1894.
Sir, - In reply to your letter of 15 th ultimo, concerning the difference in price of Staff-Sergeant's uniforms in 1892 and 1893, we have to state that there was an error in our estimate of the cost in 1892, and they were supplied at a considerable loss to us.

The price charged in 1893 , viz, 90 s. each, is the lowest they can be supplied at.
We are, sir, your obedient servant,
Lt.-Col. Macpherson, Ottawa.
C. \& J. WEBB \& CO.

# Calculation of Allowances to Bands and Rifle Associations. 

Audit Office, Ottawa, April 25, 1894.
Sir,-I would like to be informed of the regulations which determine the amount of allowance to be made to the several Efficient Bands and Rifle Associations which receive Government aid.

I am, sir, your obedient servant,
The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

Militia and Defence, Ottawa, May 2, 1894.
Sir,-In reply to the inquiry contained in your letter of the 25 th ultimo, I have the honour to state that Bands and Ritle Associations receive Government aid according to merit, which is reported upon by local officers and the staff at headquarters.

I am, sir, your obedient servant,

## Auditor General's Report-Part K

## Over-payments to Capt. Heron not Refunded.

Audit Office, Ottawa, April 12, 1894.

Sir,-Will you please inform me what action is being taken by your department to obtain from Honorary Major W. L. Heron a refund of the over-payments which were made to him on account of his having been paid as Major and not according to his real rank which is that of Captain.

These over-payments are for 13 days on the Militia Board of Survey in 1890-91, for 15 days on the brigade staff of the Kingston camp in 1892, and for 29 days on the brigade staff of the Kingston camp in 1893. As the difference in pay between rank of Major and rank of Captain is $\$ 1.08$ a day, you will thus see that the total refund to be made is $\$ 61.56$.

$$

$$

The Deputy Minister of Militia.

## Cavalry Barracks: Sale of Manure.

## Audit Office, Ottawa, April 13, 1894.

Sir,-I notice among your refunds sent to this office under date April 7 last, one for $\$ 20$ made by Lieut.-Col. Turnbull on account of sale of manure at the Cavalry Barracks, Toronto.

I would like to know if this is the only cavalry school or battery at which any sale of manure is made, as $I$ do not find that there has been any previous deposit for this purpose.

I am, sir, your obedient servant,
The Deputy Minister of Militia. J. L. McDOUGALL, A.G.

## Quebec Cartridge Factory : Pay-lists not receipted.

Audit Office, Ottawa, April 8, 1895.
Sir, - Let me acknowledge receipt from your department of the lists of piece-work done at the Government Cartridge Factory, Quebec, for 12 months ended June 30, 1894, showing names of workmen, and amounts paid to each.

These pay-lists, although settled by cash instead of by cheques, are not signed by the men who earned the money. This is necessary evidence, and should be supplied at as early a date as possible.

I am, sir, your obedient servant, The Deputy Minister Militia and Defence. J. L. McDOUGALL, A.G.

## Quebec: Repairs to Lt. Col. Forrest's Quarters.

## Audit Office, Ottawa, May 2, 1894.

Sir,--Please inform me of your reasons for considering the inclosed account of Lt.-Col. W. H. Forrest for $\$ 700$ a Government liability, seeing that at the times these repairs were made, it was thought that they should be paid for by himself. The original accounts for these repairs should be furnished if they are now obtainable.

I am, sir, your obedient servant,

Militia and Defence, Ottawa, Feb. 26, 1895.
Sir,-As requested by your letter of 2nd May last, I have the honour to inclose to you the account, $\$ 700$, furnished by Lt.-Col. W.H. Forrest, for repairs done to the buildings occupied by that officer, St. Louis street, Quebec; also, a letter from Lt. Col. Forrest, dated Quebec, 4th instant, stating the reasons why sub-vouchers cannot be procured, as the repairs in question were made from time to time, and the parties being dead or gone from the locality. I am to add that this account was paid under the authority of the Honourable the Minister of Militia and Defence, on Sert. 28, 1893.

I am, sir, your obedient servant,
The Auditor General.
C. EUG. PANET, D. M. M. \& D.

## Auditor General's Letters not answered by Department.

Audit Office, Ottawa, Nov. 19, 1894.
Sir,-I would like, at your earliest convenience, to receive answers to the following letters to your department:-

April 12, 1894.-Inquiring what action is being taken by your department to obtain a refund from Honorary Major W. L. Heron, of an over-payment of $\$ 61.56$ which was made to him.

April 13, 1894.-Asking for vouchers in support of a payment made by Major C. W. Drury for two horses. (Answered in March, 1895.)

April 13, 1894.-With reference to sales of manure at the batteries and cavalry schools.

April 26, 1894.-Asking for certain information with regard to some vouchers for warlike and other stores retuined to your department.

April 26, 1894.-Asking for particulars of a payment $\$ 2,240.70$ to W. J. Gates for work done on the rifle ranges at Barriefield, and that a copy of the contract be sent.

April 26, 1894.-Asking for some further information with reference to two inclosed accounts, one for a payment of $\$ 607$ to T. McMahon \& Co., and the other for a payment of $\$ 378.63$ to Savage Bros.

April 25, 1894.-Asking for particulars with reference to two payments, one of $\$ 7.50$ to George Pearson, and another of $\$ 90.58$ to John Cornelius for work done at Belleville drill hall.

April 30, 1894.-Stating necessity for an Order in Council being obtained for an extra payment of $\$ 400$ a year to Lt.-Col. Forrest in addition to his regular pay of $\$ 1,000$ a year.

April 30, 1894.-Asking that piece-work pay-lists at the Quebec Cartridge Factory be forwarded. (Answered in Feb., 1895.)

May 2, 1894 -Asking for reasons why a payment of $\$ 700$ to Lt.-Col. Forrest for repairs was considered a Government liability, when they were not considered so at the time they were done. (Answered in Feb., 1895.)

May 4, 1894.-Inclosing certain vouchers for construction and repairs of military properties, and asking that additional information be given on them.

May 4, 1894.-Asking for a statement showing how certain retiring gratuities to militia officers were calculated. (Answered in March, 1895.)

Please return at once the vouchers, which according to the above quoted letters were sent to you, as they are needed for the preparation of the militia expenditure statements of the annual report of this office.

I am, sir, your obedient servant,
The Deputy Minister, Militia and Defence.
J. L. McDOUGALL, A.G.

## Re Arrears Due.

## Audit Office, Ottawa, October 3, 1894.

Sir,-I have to ask for a detailed statement of all arrears due to your department on the 30th June last, which have not yet been satisfied: (1) by collecting officers ; (2) by disbursing officers ; (3) by persons not Government officers.
I. have the honour to be, sir, your obedient servant,

The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Necember 14, 1894.
Sir,-I have to remind you that I have not received any reply to my letter of October 3 last, asking for a statement of arrears due to your department on the 30th June last, that had not yet been satisfied.

Be good enough to give this matter your earliest attention, so that the publication of the Audit Report may not be delayed.

I have the honour to be, sir, your ubedient servant, The Deputy Minister of Militia.
J. L. McDOUGALL, A.G.

## Audit Office, Ottawa, January 7, 1895.

Sir,-I wrote you on June 16 last, in reference to the arrears due for rent of the Government property at Annapolis, N.S., and asking why a tenant who does not pay his rent should be allowed to retain possession of the property.

I have not received any reply; nor have I been furnished with the statements of arrears asked for on October 3, and again on December 14 last.

If I do not hear from you during the current week, I shall feel it to be my duty to lay the matter before the Treasury Board.

I have the honour to be, sir, your obedient servant, The Deputy Minister of Militia.
J. L. McDOUGALL, A. . $^{\text {. }}$

Audit Office, Otrawa, March 4, 1895.
Sir,-I beg to inclose herewith, for submission to the Treasury Board, a copy of the statement of arrears due to the Department of Militia and Defence as published in the Audit Report of 1891-92; also a copy of the correspondence in reference thereto. No statement was furnished last year or this year.

I have the honour to be, sir, your obedient servant,

## Salary Cheques to be made payable to the order of two Persons.

Audit Office, Ottawa, January 5, 1894.

Sir,-I beg to acknowledge the receipt of your letter of the 28th ultimo, inclosing communications addressed to you by the Post Office Inspector at Stratford and the Postmaster at Toronto, with reference to a circular recently issued by your department to the various Inspectors and Postmasters, informing them that in future the monthly cheque issued in payment of the salaries of their respective staffs would be made payable to two persons instead of to one as heretofore.

I am glad you have taken the necessary steps to adopt this system of dual responsibility for the cheques in question, and I fail to see any good reason for objection to it on the part of any Inspector or Postmaster on the ground that its adoption would be a reflection on his honesty or authority, considering that the same practice prevails here with regard to all cheques issued under the letters of credit granted to the different departments. The system is simply a wise precaution taken by the Executive for the better security of the public funds and their proper distribution as directed by Parliament. It seems to me that it would not be advisable to make exception of any office in regard to the mode of paying the salaries, as it is better that any practice in this respect should be general. I return the communications inclosed in your letter, herewith.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Salary Cheques drawn by Postmasters and Post Office Insfectors.

Audit Office, Ottawa, February 3, 1894.
Sir,-With reference to the salary cheques drawn by the various Postmasters and Post Office Inspectors during last year-1892-93-and which were sent to this office some time ago, I beg to call your attention to the following :-

Quebec Post Office.-The inclosed cheques in favour of J. P. T. Gingras are not properly endorsed. The attempt at a signature is in a handwriting altogether different from Mr. Gingras's usual style. I return the cheques that you may have the matter rectified.

Winnipeg Post Office.-The cheques inclosed are made in favour of bearer, and are not in any instance endorsed by the clerk to whom the salary should have been paid. In consequence of this omission they are useless as receipts.

Montreal Post Office.-The Postmaster at this office does not sign the salary cheques, his signature being atfixed by means of a stamp. This is irregular and should be discontinued. I would call your attention also to the date on which the salary cheques in favour of the Postmaster, Mr. Dansereau, were issued. In every instance the cheque for the month's salary was issued a full month before it became due, the salary for July, 1892, having been paid on June 25, and so on throughout the year. Please explain this irregularity.

I am, sir, your obedient servant,
The Deputy Postmaster General.

> J.. L. McDOUGALL, A.G.

Note by Auditor General.-The cheques under Quebec and Winnipeg were returned to this office rectified as desired. No explanation has been given in regard to Montreal.
J. L. McD.

## Payment of $\$ 1.50$ per diem to John Rooney irregular.

## Audit Office, Ottawa, February 28, 1894.

Sir,-I beg to call your attention to the allowance of $\$ 1.50$ per diem paid to John Rooney for special duty as a Railway Mail Clerk at Vancouver during the first six months of the current fiscal year, and to point out that an allowance of this nature is contrary to the Order in Council of February 6, 1893, governing travelling expenses.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Note by A.G.-A like payment was made for last six months.

## Increase in price paid for Boots to J. L. Lightfoot, Hamilton.

## Post Office Department, Ottawa, March 3, 1894.

Sir,-I have the honour to acknowledge the receipt of your communication of the 28th ult., asking for an explanation in regard to the increased price paid to J. L. Lightfoot \& Sons, Hamilton; for letter-carriers' boots of from $\$ 4.37$ to $\$ 4.50$ per pair since September, 1893, and, in reply, to say that the increase in question was allowed to the firm named in order to place them upon the same footing in this regard as the different other firms who supply letter-carriers' boots to the department, Messrs. Lightfoot \& Sons having shown to the satisfaction of the department that they were unable to furnish the high class article, both as to material and workmanship, necessarily demanded by the department for the service required, at the lower price.

> I am, sir, your obedient servant,

The Auditor General.
WM. WHITE, Dep. P.M.G.

## Expenditure in connection with St. Roch Post Offlce.

Audit Office, Ottawa, May 31, 1894.
Sir,-I beg to bring to your notice vouchers 1153 and 1158 for $\$ 600$ and $\$ 100$, respectively; paid to Etienne Paradis. The former payment is for one year's rent of the building formerly occupied as a post office at St. Roch, Quebec, and the latter for lock boxes transferred to the new building. I am not aware that the rent of the

## Auditor General's Report-Part M

old building was ever made a charge on the appropriation for Post Office Miscellaneous, and should like to be informed on what authority the present payment was made. Was the building used by the Government during the year for which payment was made?

As to the payment for the lock boxes, it seems to me that unless the Postmaster has been directed to deposit the revenue usually obtained from this source to the credit of the Receiver General, the payment was one that should not have been made by the department.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Post Office Department, Ottawa, August 24, 1894.

Sir,- Referring to your letter of the 31st of May last (which I regret has escaped notice at an earlier date), respecting the payment of rent for the building occupied as a post office at St. Roch, in which you remark that you were not aware that the rent of the old building was ever made a charge on the appropriation for Post Office Miscellaneous, I beg to say that the allowance for rent, fuel and light for the St. Roch Post Office was six hundred and fifty dollars (\$650). An allowance varying in amount from time to time for rent has been paid for many years; the only difference is that the department has taken hold of the building itself instead of allowing the payment to be made to the Postmaster.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

Audit Office, Ottawa, March 6, 1894.
Sir,-I beg to bring to your notice a payment of $\$ 1,170.04$ made by cheque 309 to E. T. Nesbitt for repairs to the post office at St. Roch, Quebec. As this building is not Government property, I should like to be informed under what authority the repairs in question were undertaken, and the nature of the agreement entered into with the owner as to the length of time the building may be used for post office or other Government purposes. I ask for this information because an expenditure of this nature is an unusual charge on the vote for Post Office Miscellaneous, and in my opinion more properly belongs to the Department of Public Works.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Post Office Department, Ottawa, March 9, 1894.
Sir,-I have the honour to acknowledge the receipt of your letter of the 6th instant, in which you call attention to the payment of eleven hundred and seventy dollars and four cents $(\$ 1,170.04)$ for repairs to the post office at St . Roch, and state that you think that an expenditure of this nature is an unusual charge on the vote for Post Office Miscellaneous, and should be charged to the Department of Public Works.

In reply I beg to call your attention to an item in your Report for 1892-93, page E-118, for repairs to the post office at St. Sauveur, one hundred and five dollars (\$105), to a similar item on page E-120 for repairs to the branch post office, Pearl Street, Hamilton, $\$ 59.95$, and to similar items on the same page amounting to four hundred and seventy dollars (\$470) for fitting up branch offices in Montreal, and to further items on page E-122 for fitting up braich offices in Toronto. Items of this character have always been charged against the Post Ottice Department; buildings occupied as branch offices do not belong to the Government but are leased for such term as may be agreed upon.

I am, sir, your obedient serv $\uparrow$ nt,
The Auditor General.
WM. WHITE, Dep. P.M.G

Audit Office, Ottana, March 17, 1894.
Sir,-I have the honour to acknowledge the receipt of your letter of the 9 th inst., with reference to an expenditure of $\$ 1,170.04$ for repairs to the Post Office building at St. Roch, Quebec, to which I called your attention in my letter of the 6th, in which you ppint out that similar expenditure was incurred during the year at St . Sauveur and at Montreal, Hamilton and Toronto.

In regard to the expenditure at St. Sauveur, I beg to point out that I called your attention to it on November 3, 1893, and that my letter and your reply thereto have been published in the Report of this office fur 1893.

I did not call your attention to the expenditure for the branch offices at Hamilton, Montreal and Toronto because it appeared to me, from the items in the accounts sent me , that the supplies furnished in these cases were largely of the nature of furniture and fittings which could be easily removed to another building in case a transfer of the office was deemed desirable by the department and consequently would remain during their time of usefulness in the possession of the Government. The repairs in connection with the post offices at St. Sauveur and St. Roch seemed to be of a wholly different character. In these cases the expenditure incurred was apparently forpermanent improvements to the buildings proper and not for movable requirements for post office purposes, and such being the case the department should, I think, produce reasonable proof that the benefits arising from the outlay would be altogether in the interests of the public ; that is, it should not be in the landlord's power to divert the building to other purposes so as to obtain at the expense of the country the benefits arising from the repairs in question.

As to the work being done under the direction of the Department of Public Works, I beg to refer you to section 7 of Chapter 36, R.S.C.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, a.G.

## Post Office Department, Ottana, March 24, 1894.

Sir,--With further reference to the subject-matter of your letter of the 17 th instant, I beg to say that a lease for ten years from the lst of May, 1893, has been taken of the Pust Office building at St. Roch. It was in consideration of this extended lease that so large an expenditure was made. I trust that this explanation will be satisfactory.

The Auditor General.

> Yours faithfully,
> WM. WHITE, Dep. P.M.G.

## * Certificates on Mail Contractors' Pay-Lists.

Post Office Department, Ottawa, December 14, 1893.
Sir,-I have the honour, with reference to previous correspondence on the subject, to inclose to you herewith, a copy of a letter which I have received from the Deputy Minister of Justice with reference to the form of certificate which you desire the Inspectors to send in with respect to the prices paid to mail contractors for mail service; 1 also inclose a copy of your certificate amended in accordance with the suggestion of the Deputy Minister of Justice; will you kindly let me know whether the certificate as it now stands will meet your views.

> I have, \&c.,

The Auditor General.
WM. WHITE, Dep. P.M.G.

[^31]
## Auditor General's Report-Part M

Department of Justice, Ottawa, December 5, 1893.
Sir,-In reply to your letter of the 1 st instant, respecting the correspondence which has taken place between your department and the Auditor General with reference to the formal certificate which the Auditor requires the Post Office Inspectors to sign in connection with payments to mail contractors, I have the honour to state that in addition to the information contained in the papers, a personal interview with the Auditor General has been obtained. The Auditor General explains that the object of the certificate he requires is to satisfy him that when the contract for the carriage of mails is renewed there is no cause in connection with the facilities of carrying on the contract that would entitle the Crown to a cheaper service. I think, however that, that is a matter to be considered by the Postmaster General when he has to decide whether a contract should be renewed under section 61 of the Post Office Act, and that the Postmaster General having once given his decision, the Auditor General cannot go behind that decision. This view would apply too in the case of a contract involving an annual expenditure of less than two hundred dollars given by the Postmaster General under the provision of sections 54 and 58 of the Act.

I am, sir, your obedient servant,
The Deputy Postmaster General.

E. L. NEWCOMBE, D.M.J.

## Certificate recommended by Department of Justice.

I certify that the various services charged for on this pay-list were satisfactorily performed during the quarter ended........... ; that for those marked "a" the prices charged severally are according to contract determined in the manner and form prescribed by section 54 of the Post Office Act; that for those marked " $b$ " the prices charged are according to agremment made under directions from the Postmaster General, and are fair and just; and that for those marked " c " the prices charged are according to agreement temporarily arranged, and are fair and just.

Audit Office, Ottawa, February 19, 189.4.
Sir,-I observe that the Deputy Minister of Justice is of opinion that, when the Postmaster General has given his decision that a contract, no matter what the amount involved, is to be renewed or that a new contract involving a sum not greater than $\$ 200$ is to be made, I have no right to go behind the decision.

I assume, from your sending me the opinion, that you desire this view to be acted upon.

Let me draw your attention to 32 (a) of the Audit Act, which gives the legal manner of proceeding in appealing from my decision in such a case. As I adhere to my opinion, it is advisable, I think, that no time should be lost in obtaining an authoritative ruling on the point.

I regret that, owing to the work connected with the annual report of this office, I have delayed this reply longer than I should have liked.

It is plainly part of my duty to inform Parliament when the expenditure of certain branches of the Public Service is supported by less complete vouchers than those which are furnished for the rest of the expenditure, particularly when the vouchers wanting are those which specific and direct requirements of the Audit Act call for with reference to the ordinary expenditure.

If the view the Deputy Minister of Justice takes in this matter is the correct interpretation of the Post Office Act, the 33rd section of the Audit Act, although manifestly intended to be of general application, does not apply in this case. So far as I can see, there are no circumstances connected with the renewing of all contracts or the letting of new contracts for not more than $\$ 200$ which make it less expedient or desirable to have the certificate, as to value, of the public servant who knows most about the value, than
it would be in the case of expenditure in any other derartment, or for any other pur' pose in your own department. The Postmaster General, from the nature of his duties does not know, and cannot know, how much public money should be paid for the service in each case. He would, like all other public servants, commit the gravest wrong if through carelessness, or for any other reason, he caused a greater payment to be madefor such service than the service was worth. If he exercises care and obtains the information necessary for his guidance, the information can be obtained most readily and with the greatest security for its trustworthiness from the local Inspector, whose daily duties make him familiar with the work and all the connected facts. Then the certiticate of the Inspector on the contract, which, wherever it is produced, will warrant the calling upon him for the reasons for his opinion, will convey to his mind the serious responsibility which he assumes and induce that watchfulness of the public interest which responsibility brings.

Now let me show how the wrong might be done. As such a wrong would be the act of the Postmaster General, I must presume irregularity upon the part of a Postmaster General. This, you will of course see, has no personal application, as men and parties come and go while principles remain. The wrong should be guarded against no matter when without such safeguard it might be done. Under our system of government, the Ministers from their general intelligence and their knowledge of the wants of the country are more capable than officials of determining the general principles that should control public affairs, but no matter which party or what men are in power the working out of the details would not be economically done by Ministers who cannot, as I have shown above, be expected to know the value of what they are dealing in, and who have a temptation to please Members of Parliament, who in their turn are tempted to press the unreasonable as well as the reasonable demand; of constituents. It is because this is felt and acknowledged by every one that the certificate of the public official as required by the Audit Act is so generally and cheerfully furnished.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Audit Office, Otrawa, April 19, 1894.
Sir,-I beg to call your attention to the omission from the mail contractors' paylists of the Kingston and Nova Scotia divisions for September quarter, 1893, of what appears to me to be the proper certificates by the Post Office Inspectors of those districts. In connection with this matter I beg to inquire what action has been taken by the department with reference to my letter of February 19 last, dealing with the form of certificate which it appeared to me was called for under the law in regard to the service performed by the various mail contractors.

I am, sir, your obedient servant.
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, October 22, 1894.
Sir,-I beg to bring to your notice my letters of February 19 and April 19, 1894, with reference to the certificate which in my opinion should be given on the mail contractors' quarterly pay-lists, and to point out that I have not received any reply to these communications. Please let me know if the question in dispute with reference to this certificate has been submitted to the Treasury Board for final decision, as if such has not been done I shall be obliged to consider how far I am justified in sharing responsibility for payments which I regard as illegal, by authorizing the letters of credit from which such payments are made.

I am, sir, your obedient servant,

## Auditor General's Report-Part M

## Post Office Department, Ottawa, October 24, 1894.

Sir,-I have the honour to acknowledge the receipt of your letter of the 22 nd inst., calling attention to previous correspondence regarding a form of certificate which you propose to be attached to the pay-sheets for mail service, and stating that in your opinion it is desirable that the question of the necessity for such a form should be submitted by this department to the Treasury Board, as you are reluctant to continue to assume the responsibility devolving upon you for payments which without such certificate you consider illegal.

In reply, I am to say that the matter has been fully considered by this department and it is of opinion that the objections of the Post Office Inspectors to sign as to facts not within their knowledge aro valid, and furthermore, it considers that paragraph 2, section 61 of the Post Offic: Act, confers on the Postmaster General full powers regarding renewals of contracts "when, in his opinion, the service has been satisfactorily performed, and on conditions advantageous to the public interest."

If, however, you desire the decision of the Treasury Board on the points raised, it would seem that under clause $C$ of section 32 of the Audit Act, the duty of bringing the question before the Board lies upon you.

\end{aligned}
$$

The Auditor General.

## Audit Office, Ottawa, November 5, 1894.

Sir,--In reply to your letter of the 24 th instant I beg to point out that, under the Audit Act, when a department and the Audit Office differ, the Audit Office view prevails until on appeal to the Treasury Board the Audit Office view is overruled. Manifestly the Audit. Office has no object in stopping the operation of its own view. Your opinion is that the question is undecided, while under my reading of the Audit Act it is decided. If you are not satisfied with the decision it is your privilege to appeal to the Treasury Board. If the decision is a reversal of mine I am relieved of responsibility. If I am upheld you will require to follow what I think the law requires.

As you are now proceeding, cheques are issued by you under a credit passed by me, in payment of what I have decided to be illegally supported accounts. On the other hand I feel the responsibility of refusing to issue a credit to your department, as the result would be the depriving you of the means of making any payments. With reference to the merits of the case, I would be very sorry to call upon Post Office Inspectors or any other officials to certify to anything of which they have not full and accurate knowledge.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Transfer of Mail Contracts before expiration of time stipulated in Contracts.

Audit Office, Ottawa, May 31, 1894.
Sir,-I beg to ask for explanation in regard to the transfer of the contracts for carrying the mails between Gore and Mount Uniacke, in the province of Nova Scotia, and Lavaltrie and Railway Station, in the province of Quebec.

It appears from the information sent me that Joseph Thompson was under contract to perform the former service for $\$ 350$ per annum to March 31, 1895 , but was relieved of his contract obligation on July 1, 1893 , when the service was transferred to B. C. Crowe at the increased rate of $\$ 455$ per annum.

In the latter case Geo. Giguère was under contract until September, 1895, at $\$ 120$ per annum, but the service was transferred to P. Grenier on July 1,1893 , at $\$ 250$ per annum.

Post Office Department, Ottana, July 31, 1894.
SIR,-I have the honour to acknowledge the receipt of your letter of the 31st May last, asking an explanation in regard to the transfer of the contracts for carrying the mails between Gore and Mount Uniacke, and between Lavaltrie and Railway Station. In both these cases, the contractors having undertaken the service at a sum much below that at which it could possibly he performed were unable to continue the services; in the latter case the contractor left the country. The contract with Mr. B. C. Crowe for the former servise was made with him as being the lowest bidder when tenders were received and that with Mr. Grenier for the second service was also the lowest tender received, in reply to the advertisement asking for tenders.

I am, sir, your obedient servant.
The Auditor General.
WM. WHITE, Dep. P.M.G.

## Audit Office, Ottawa, October 22, 1894.

Sir, -With reference to your letter of July 31 last in explanation of the transfer of the contracts for mail service between Gore and Mount Uniacke, and Lavaltrie and Railway Station, before the time stipulated, I beg to point out that the contractors in question having failed to perform the service as agreed upon it was apparently open to the department to call upon the sureties to carry out the contract. Please let me know if any action was taken in this direction before asking for new tenders.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOU(xall, A.G.

Post Office Department, Ottawa, October 24, 1894.
Sir,-I have the honour to acknowledge the receipt of your letter of the 22 nd instant, respecting the termination of the contracts for the mail services between Gore and Mount Uniacke, and Lavaltrie and Railway Station, before the dates of their expiration, and asking whether before advertising for new contracts, the department had made any effort to obtain the service from the contractors' sureties.

In reply, I beg to say that recourse was not had to the sureties in the cases. mentioned.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

Audit Office, Ottawa, November 8, 1894.
Sir,-I beg to acknowledge the receipt of your letter of the 24 th ultimo, in which you state that recourse was not had to the sureties in the cases of the defaulting contractors for the mail services, between Gore and Mount Uniacke, and Lavaltrie and Railway station.

It seems to me, in view of the agreement entered into by the sureties in question with the Postmaster General for the due performance of these services. that the reasons. for relieving them of their contract obligations should be given. I shall be glad tohear from you on this point at your early convenience.

I am, sir, your obedient servant,

## Mail Service by Water-Incomplete Vouchers-The Authority of the Governor in Council not received.

Audit Office, Otrawa, September 11, 1894.

Sir,-With reference to the vouchers sent me in support of the expenditure during last year for mail service by water, I beg to call your attention to my letter of September 30, 1893, and your reply thereto of October 2 following in regard to the omission from similar accounts of 1892-93 of the dates of sailing in all cases in which the service was not a daily one, and to point out that the vouchers for last year show no improvement in this respect.

I append a list of the vouchers for the service in question on which it seems to me it is desirable for the purposes of efficient audit that the dates of sailing should be given, certified by the officers of your department having personal knowledge of the service.

I am, sir, your obedient servant,

The Deputy Postmaster General.

Rimouski and Mail Steamers : I. C. Railway............ 6,433 33
St. John and Fredericton: The Star Line SS. Co....... 1,500 00
St. Stephen and St. Andrews: Passamaquoddy S. B. Co. 1,500 00
Vancouver and Nanaimo: Union SS. Co. of B. C....... 2,624 00
Vancouver and Victoria: C. P. Navigation Co......... 10,000 00
Victoria and Port Townsend : Oregon Short Line ...... 1,691 66
Victoria and Port Townsend: Northern Pacific Railway. 1,208 33
Victoria and Fort Simpson: J. D. Warren.............. 3,25000
Victoria and New Westminster: C. P. Navigation Co... 5,000 00
Yarmouth and Boston: The Yarmouth SS. Co.......... 3,42930
I anı, sir, your obedient servant,

Sir,-I have the honour to acknowledge the receipt of your letter of the 11 th inst., calling attention to a request made by you on a previous occasion that the vouchers for water service in all cases where the service is less than daily may contain the dates of sailing.

In reply, I beg to say that the matter will have immediate attention.
I am, sir, your ohedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.
Mail Service by Railways-O. C. required for Contracts over $\$ 1,000$.
Audit Office, Ottawa, September 7, 1894.
Sir,-I beg to inform you that I have not received the authority of the Governor in Council for the increased rates paid for railway mail services in the following cases during the fiscal year 1893-94 :-
C. P. R.-Sutton Junction and Knowlton, from 3c. to 8c. per mile.
" Quebec and Three Rivers " 1c. to 2c. "
" Montreal and Three Rivers " lc. to 2 c . "
Ottawa and Gatineau Valley Railway " 4c. to 6c. "
Canada Eastern Railway, change from $\$ 2,570$ per annum between Chatham and Fredericton to 4 c per mile.

The Order in Council authorizing the rate paid on the Ottawa, Arnprior and Parry Sound Railway has not been sent me.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Post Office Department, Ottana, September 8, 1894.

Sir,-I have the honour to anknowledge the receipt of your letter of the 7th inst., calling attention to the fact that you have not been furnished with Orders in Council in certain cases where railways have been utilized for the conveyance of mails, and in others where changer have taken place in the conditions of existing railway mail service, which have affected the rates of payment.

In reply, I am to say that in the cases where changes have taken place in the mail service on established lines, the Postmaster General does not consider it necessary to refer the questions of payment arising therefrom to Council, since in no case has the change in rate involved a difference of $\$ 1,000$ per annum.

As to the Ottawa, Arnprior and Parry Sound Railway, I am to say that the rate of payment for this service is that tixed by Order in Council dated the 8th April, 1865, which was adopted as the result of the deliberations of the Railway Commissioners in that year, and intended to determine the rates of payment for the various classes of service in accordance with the provisions of section 64 of the Post Office Act.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

Audit Office, Ottawa, September 18, 1894.
Sir,-I have the honour to acknowledge the receipt of your letter of the 8 th inst., with reference to certain payments made for railway mail service last year for which the authority of the Governor in Council has not been obtained. I understand from your letter that this authority was not deemed necessary, because in no case did the clange effected involve an increase exceeding $\$ 1,000$, and consequently that section 60 of the Post Office Act did not apply.

## Auditor General's Report-_Part M

It seems to me that the section quoted doos apply to the cases in question; but for further information I should like to have the Order in Council of April 8, 1865, referred to in your letter, and under which you state that the mileage rates paid for railway mail service generally, has been determined. I have not been able to find a copy of this Order in the Orders in Council of Canada, consolidated by Mr. Bligh.

> I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

## Post Office Department, Ottawa, September 19, 1894.

Sir,-I have the honour to acknowledge the receipt of your letter of the 18th inst., in which you ask to be furnished with the Order in Council of the 8th April, 1865, fixing the rates of payment to railway companies for mail service, and in reply to say that you will find inclosed a copy of the Order in Council in question.

> I am, sir, your obedient servant,
> WM. WHITE, Dep. P.M.G.

The Auditor General.

## Copy of a Report of a Committee of the Honourable the Executive Conncil, approved by His Excellency the Governor General in Council on the Sth April, 1865.

The Committee have had under consideration the annexed report, dated 7th April, 1865, from the Honourable the Postmaster General, submitting for the sanction of Your Excellency in Council the terms on which he proposes contracts should be entered into with the several railway companies for the performance of the railway postal service in this province, founded-as respects the Grand Trunk Railway-on a special agreement made between him, the Postmaster General, and the manager of that railway Company, as set forth in the said annexed report, and as respects all other railways in the province-on the recommendation contained in the report of the commissioners appointed under the Order in Council of the 15 th November, 1864, and the Committee respectfully advise that the several recommendations submitted in the said report of the Postmaster General be approved and carried out, and that the necessary contract be entered into for giving effect to the same with the Grand Trunk Railway.

The Committee submit their concurrence in the opinion expressed by the Honourable the Postmaster General that it would be for the interest, both of the public and of the railways, that all postal railway service should be performed and paid for under definite contracts.

Certified.

W. H. LEE, C. E. C.

## Audit Office, Ottawa, September $\supseteq 4,1894$.

Sir,-I beg to acknowledge the receipt of your letter of the 19th instant, inclosing a copy of an Order in Council of April 8, 1865, respecting the terms on which contracts may be entered into with railway companies for the performance of railway postal service, and to point out that the Postmaster General's report of April 7, 1865, referred to therein, forms part of the Order and is essential to a proper understanding of it. Please send me this report.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Post Office Department, Ottawa, September 26, 1894.

Sir, -I have the honour to acknowledge the receipt of your letter of the 24th instant, asking for a copy of the Postmaster General's report of April 7, 1865, referred
to in the Order in Council of April 8, 1865, and in reply to say that the Clerk of the Privy Council has been requested to furnish you with a copy of the report in question.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.
Audit Office, Ottawa, November 5, 1894.
Sir,-I beg to inform you that I have not yet received the Postmaster General's report to Council with reference to the rates of payment to railway companies for carrying the mails, referred to in your letter of the 26 th September last.

In connection with this matter it seems to me quite clear that all new arrangements with railway or steamboat companies in regard to payment for carrying the mails must be made subject to section 60 of the Post Oftice Act. This Act was passed in its present form in 1886, whereas the Order in Council which you quote in your letter of September 8 is dated April 8, 1865, and consequently is not based on the Act of Parliament now governing the contracts in question. All contracts, then, with railway or steamboat companies for carrying the mails, which involve an annual payment of more than $\$ 1,000$, and all increases in the rate of payment in existing contracts above this sum should, as a matter of law, receive the approval of the Governor in Council before being put in force.

I shall be glad if you will give this question your early attention and let me know if you intend obtaining the necessary authority for the payments to which I called your attention in my letter of the 7th September, 1894.

> I am, sir, your obedient servant, J. L. McDOUGALL, A.G.

The Deputy Postmaster General.

## Credit entries in Borbridge's Accounts.

Audit Office, Ottawa, October 11, 1894.

Sir,-The accounts rendered by Messrs. S. \& H. Borbridge for mail service supplies during the fiscal year 1893-94, show three credit entries amounting to $\$ 28.45$ for bars and label cases at 5 cents each returned by the department to be re-used.

Please let me know if the sum allowed-5 cents-represents the original cost of these articles, or if not, who is responsible for the valuation placed on them.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Post Office Department, Ottawa, October 19, 1894.

Sir,-Referring to your communication of the 11th inst., in which you ask to be informed in connection with certain accounts of Messrs. S. \& H. Borbridge during the fiscal year 1893-94, showing credit entries amounting to $\$ 28.45$ for old bars and label cases, at 5 cents each, returned to them by this department to be re-used, if the suin allowed represents the original cost of these articles, or if not, who is responsible for the valuation placed on them, I beg to say, in reply, ai respects the bars, that since the date of the credit entries above mentioned, it has been represented by the contractors, aud established to the satisfaction of the Postmaster General, that the sum of 5 cents is largely in excess of the original cost of the same, and that it would be unfair to them, and inequitable, to require that they should continue to allow that sum to the department; and that by a subsequent rearrangement of the terms upon which these bars are returned by the department to Messrs. Borbridge for re-use, the original coṣt price, as shown by the manufacturers' invoices, is now exacted from the contractors, viz., six dollars (\$6) per hundred weight ( 100 cwt .)

## Auditor General's Report—Part M

Regarding the label cases which, it may be explained, are of the class which are permanently attached to the letter bags, and not to be confused with the movable (slip) label cases used for newspaper sacks, I would point out that the original cost of the former cases is embraced in the price of the new bags complete to which they are attached.

The first cost of these letter bag label cases to the contractors, according to the makers' invoices, is $6 \frac{1}{2}$ cents each, but in view of the fact that the department requires that before being again utilized for new bags all these cases must be cleansed of rust, and reburnished, in order to ensure the quick and easy insertion and removal of the labels, and, too, in consideration of the time, skill and labour involved in preparing these old cases for reattachment to the bags, taking off the protecting leather backing (riveted to the bags) \&c., this backing being used to prevent the rivets pulling through the bag material, it is considered that the existing arrangement whereby a revenue of 5 cents on each old label case re-used, accrues to the department, and as a result of which, also, the new bags fitted with the old label case in reality cost the department 5 cents less each than do the new bags fitted with the new label case furnished by the contractors, is unquestionably in all respects an advantageous one for the department.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

## Account not properly Certified.

Audit Office, Ottawa, October 15, 1894.
Sir,-I beg to bring to your notice an account rendered by the British American Bank Note Company during last year, amounting to $\$ 787.48$ for work on maps of the several provinces supplied the Post Office Department.

In this account there are several charges for labour at 60 cents per hour and the certificate given by Mr. Maingy does not state that the full time for which charge is. made was occupied at the work in question. Please let me have a certificate to this ellect from the officer of the department who personally superintended the work.

I am, sir, your obedient servant,
The Deputy Postmaster General. .

J. L. McDOUGALL. A.g.

## Quebec and Chicoutimi Mail Service not performed as required by O.C.

## Audit Office, Ottawa, October 17, 1894.

Sir,-I beg to inform you that I have not received the authority of the Governor in Council for the payment made last year to the Richelieu and Ontario Navigation Company for mail service between Chicoutimi and Quebec.

The payment in question is considerably in excess of that paid the previous year-1892-93-and I shall feel obliged if you will cause to be sent me the Order in Council covering the expenditure.

I am, sir, your obedient servant,
The Deputy Postmaster General.

$$
\text { J. L. McDOUGALL, } A . G .
$$

Post Office Department, Ottawa, October 19, 1894.
Sir,-I have the honour to acknowledge the receipt of your letter of the 17 th inst., asking to be furnished with a copy of the Order in Council under which the existing contract with the Richelieu and Ontario Navigation Company for the Chicoutimi and Quebec mail service was made.

In reply, I beg to inform you that the Clerk of the Privy Council has been requested to furnish you with the copy you desire.

I am, sir, your obedient servant,

Audit Office, Ottawa, October 24, 1894.
Sir,-I bey to bring to your notice the voucher rendered by the Richelieu and Ontario Navigation Company in support of 83,500 paid them last year for mail service between Chicoutimi and Quebec.

It would seem from the particulars given on this voucher that a daily service between these points was maintained during the months of July and August only ; whereas, according to the Order in Council of April 25, 1893, which I have just received from the Clerk of the Privy Council, authorizing the service, a daily service during the season of navigation is required to entitle the Company to payment of the full amount- $\$ 3,500$. Please let me have your explanation.

> I am, sir, your obedient servant,

The Deputy Postmaster General.

> J. L. McDOUGALL, A.G.

## Audit Office, Ottawa, December 22, 1894.

Sir,-I beg to call your attention to ny letter of October 24th last with reference to the mail service by water between Chicoutimi and Quebec and to point out that I have not yot received any explanation in regard to the full amount authorized by Council having been paid to the Contractors, though the service performed was defective to a large extent in respect of the frequency of sailings called for by the contract. Please let me have your explanation within a few days as I have nearly completed my report on the expenditure of your Department for 1893-94.

I am, sir, your obedient servant,
The Deputy Postmaster General.

> J. L. McDOUGALL, A.G.

## Authority of Governor in Council not received for Provisional Allow ance in Manitoba and British Columbia.

Audit Office, Ottawa, October 16, 1894.
Sir, -I beg to inform you that I have not received the authority of the Goveruor in Council for the disbursements made during last year from the vote for provisional allowance for post office employess in Manitoba, the North-west Territories and British Columbia, and to request that you will cause to be sent me at your early convenience the Order in Council covering the expenditure in question.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, November 9, 1894.
Sir,- - I beg to ask for explanation of the payment of $\$ 10$ to Miss Anna Barber for provisional allowance for the month of September, 1893, when the salary for that month was paid from the vote for Civil Government Salaries at Ottawa. According to the paylist of the Post Office Inspector at Victoria she left that office on the last day of August, 1893.

> I am, sir, your obedient servant,

The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Post Office Department, Ottawa, 16th November, 1894.
Sir,-I have the honour to acknowledge your letter of the 9th instant, asking an explanation of the payment of $\$ 10.00$ to Miss Anna Barber, for provisional allowance for the month September, 1893, when her salary for that month was paid from the vote

## Auditor General's Report—Part M

for Civil Government salaries at Ottawa ; in reply I beg to state that Miss Barber did not leave Victoria as originally intended at the end of August, but remained there until the 13 th of September, and did not report for duty here until the 27 th of that menth, and it was thought therefore that she was fairly entitled to provisional allowance under the circumstances. Perhaps it might be well to transfer from the vote for Civil Government to that for the Outside Service in British Columbia, Miss Barber's salary for the month of September.

The Auditor General.

I have, \&c.,
WM. WHITE, Dep. P.M.G.

## Authority for price paid for certain stamps.

Audit Office, Ottawa, October 20, 1894.
Sir, -With reference to the accounts rendered during last year-1893-94-by the British American Bank Note Company, I beg to bring to your notice the following charges for post cards and C. P. R. statement forms, which I do not find authorized in the contract of Feb. 8, 1892. Please let me know on what authority these prices were paid.

$$
\begin{aligned}
& \text { 1e. post cards, } 10,082,000 \text { at } \$ 1.30 \text { per M............ } \$ 13,10660 \\

& \text { " " } 12,000 \text { at } \$ 1.02 \text { " } \ldots . . . \text { I2 24• } \\
& \text { I am, sir, your obedient servant, }
\end{aligned}
$$

The Deputy Postmaster General.
J. L. McDoUGALL, A.G.

Post Office Department, Otrawa, 16th November, 1894.
Sir,-I beg to acknowledge the receipt of your communication of 29 th ulto. asking for the authority under which the British American Bank Note Company are paid by this Department the undermentioned prices for the articles named:

Post Cards $\$ 1.30$ and $\$ 1.02$ respectively.
Letter Cards $\$ 1.75$.
C. P. R. Statements 90 c. and $\$ 1.00$ respectively, and, in reply, beg to say that the prices for Post Cards are authorized by Order in Council of 30th November, 1892, and 14th February, 1894, respectively and that for Letter Cards by Order in Council 13th October, 1892.

With regard to the C. P. R. Statements they have been treated as the Current Post Card, and charged at the same rates.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

## Increased price paid for Stamping Pads.

Audit Office, Ottawa, October 27, 1894.
Sir,-I beg to ask for explanation of the increased price paid for composition stamping pads to Mr. Geo. Bailey last year. According to the accounts rendered for 1892-93 the price of these articles was, for No. 1, 90 c. per set, and for No. 2, 60c. per set, whereas the price paid last year was $\$ 1.25$ and 95 c. respectively.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

Post Office Department, Ottawa, November 6, 1894.
Sir,-Referring to your communication of the 27 th ult., in which you ask "for an explanation of the increased price paid for composition stamping pads to Mr. George Bailey last year, as according to the accounts rendered for 1892-93 the price was, for No. 1, 90c. per set, and for No. 2, 60c. per set, whereas the price paid last year was $\$ 1.25$ and 95 c. respectively," I beg to say you are in error in supposing that any increase in the cost of stamping pads has taken place. This article forms one part only of the stamping equipment of a post office and stands at the original price, i.e., composition pads, $4 \mathrm{in} . \mathrm{x} 5 \mathrm{in}$. in japanned tin box, 60c. each (for larger class of offices and railway mail clerks). Felt pads, 4 in. x 5 in. without covering box, 30c. each (for smaller post offices).

I may say, however, that the increase to which you refer, (35c.) has been allowed by the authority of the Postmaster General on the stamping ink, as may be seen by reference to the accounts in your office, covering the entire period of the last fiscal year, for considerable quantities of this material (inclusive of 600 gills for post offices other than of cities) supplied to this department by Mr. George Bailey during the period in question, the object sought to be attained by such increase being to ensure the supply to this department of an improved and absolutely indelible stamping ink, in order to prevent the possibility of the cleaning and re-use of any postage stamp which has been cancelled with such ink, a practice which was discovered to exist to some extent-entailing, no doubt, a certain loss to the revenue-whilst the cheaper ink was employed, but which is believed to have been rendered impossible, and to have entirely ceased, since the introduction of the improved and necessarily higher priced indelible ink.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

## Audit Office, Ottawa, November 8, 1894.

Sir,-I beg to acknowledge the receipt of your letter of the 6 th inst., in which you state that I am in error in supposing that any increase in the cost of stamping pads had taken place during the fiscal year just closed, but that an increase of 35 cents in the price of stamping ink had been authorized by the Postmaster General, because a better quality of ink than that formerly used was now required by the department and supplied by Mr. Bailey.

The accounts rendered by Mr. Bailey and which have been sent me to audit do not so represent the case. I would refer you, for example, to vouchers 876 and 1290 of 1892-93 on which there are charges for stamping pa is No. 1 and No. 9 at 90 c . and 60c. per set respectively, and to vouchers 412 and 572 of 1893-94 on which the charges are $\$ 1.25$ and 95 c . On none of these accounts is there any mention of ink in connection with the pads in question. With reference to the price which you state has been allowed Mr. Bailey for the ink supplied, I find that during last year-1893-94-stamping ink was purchased at $\$ 2.25$ a quart, $\$ 1.75$ a pint, and 55 c . a gill, and that similar prices were paid during the previous year.

I was aware that no payment was made last year for the cheaper ink at 20 c . and 30 c . a gill, and 50 c . a pint, but there was no need of my calling your attention to that fact.

I am, sir, your obedient servant,
The Deputy Postmaster General.

## Post Office Department, Ottawa, November 13, 1894.

Sir,-Referring to your reply of the 8 th inst. to my letter of the 6 th inst., I can only repeat that your supposition that there has been an increase in the cost of the stamping pads, instead of, as I have explained, in that of the stamping ink, is erroneous.

As stated in my letter of the 6th inst., the stamping pad forms one part only of the stamping outfit of a post office. The phrase employed by Mr. Bailey in rendering his accounts: "sets of stamping pads No. l," or "No. 2," as the case may be, is merely a convenient abbreviation and covers in reality one pad, one can of ink, one muller (or muddler), and one cardboard box for the better preservation of these articles by postmasters.

I may state that cheque No. 2179, 6th July, 1893, for \$259.20, in settlement of orders covering a portion of June, 1893, was the only payment for the indelible stamping ink at the advanced price made for the year 1892-93, no other payment at such price having been made during any previous period of that year, as might be inferred from your letter of the 8 th instant.

I would also point out that the cheaper ink was never obtained, as you state, at 30 c . a gill and 50 c a pint, but at 20 c . and 60 c . respectively, and that the charge of 30 c . a gill was an isolated one, covering merely the refilling of the cans which had previously contained the inferior ink, with the better ink.

I am, sir, your obedient servant.
The Auditor General.
WM. WHITE, Dep. P.M.G.
December 21st, 1894.
Sir,-I beg to acknuwledge the receipt of your letter of the 13 th, ultimo in further explanation of the increased price during last year for the composition stamping pads, Nos. 1 and 2, supplied the department by Mr. Bailey.

As pointed out in a previous letter the accounts rendered by Mr. Bailey showed clearly that an increased price had been paid for each set of stamping pads, but as you now state that the word "set" includes several other articles used in connection with the pads to each of with a definite price is attached, it seems to me it would be better that the accounts rendered in this respect in future should state exactly the articles of which earh set is composed and the prices allowed therefor.

I am, sir, your obedient servant,
The Deputy Postmaster General.

## Power of Attorney from Mrs. Halley not received.

## Audit Office, Ottawa, October 26, 1894.

Sir,-I beg to bring to your notice voucher 1463 for $\$ 75$, rendered by Mrs. Halley for rent of letter-carriers' rooms at Montreal.

You will notice that the account is receipted by White, Duclos and O'Halloran, and that the cheque in payment was issued in their favour. Please send me the power of attorney or other authority under which this mode of payment was adopted.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Authority of Governor in Council not received for certain Transfers.

#### Abstract

Audit Office, Ottawa, October 26, 1894. Sir,-I beg to inform you that I have not received the authority of the Governor in Council in regard to the following :-

Transfer of Mr. D. Spry, P.O. Inspector, from Barrie to London. Transfer of Mr. A. Jones from Kingston to Barrie. Payment of $\$ 210.65$ to Mr. D. Spry to cover removal expenses.

I am, sir, your obediant servant,

## Audit Office, Ottawa, November 2, 1894.

Sir,--I beg to inform you that I have not received the authority of the Governor in Council for the appointment of Mr. R. W. Barker as Post Office Inspector at Toronto, nor for a payment of $\$ 220.50$ made him last year for removal expenses from London to Toronto.

With reference to the account rendered by Mr. Barker for his removal expenses, I would call your attention to a charge of $\$ 12.50$, "loss on two tons of coal impossible to remove or dispose of at London." It seems to me this charge should not have been allowed, as surely the coal could easily have been sold for something near the market price.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Rents of Letter Boxes and Drawers.

## Audit Office, Ottawa, March 20, 1894.

Sir,-I am to-day in receipt of an application from the Public Works Department for the payment of letter boxes.

As I wrote you November 22, 1893, that department informed me that letter boxes had been put in at the expense of the Government in all the new post offices erected since Confederation.

With the exception of the city post offices no revenue has reached the Government for the rent of these letter boxes.

I have brought this matter to your notice several times, and have had no explanation of the cause of the absence of revenue.

In view of these facts I feel it my duty to hold this application. Unless I get some satisfactory reply from you within a few days, I shall be obliged to submit the matter to the Treasury Board.
I am, sir, your obedient servant,

The Deputy Postmaster General.

J. L. McDOUGALL, A. .

## Post Office Department, Ottawa, March 22, 1894.

Sir,-I have the honour to acknowledge the receipt of your letter of the 20th instant, with reference to the revenue derived from the renting of letter boxes in town post offices. In reply, I beg to state that the question appears to me to be clearly one of administration and policy, and, therefore, appertains exclusively to the Postmaster General. If, however, you still hold to the contrary opinion, there can be no possible objection to your bringing the matter under the notice of the Treasury Board.

I am, sir, your obedient servant,
The Auditor General. WM. WHITE, Dep. P.M.G.

## Audit Office, Ottawa, April 2, 1894.

Sir,-With reference to your letter of the 22 nd ultime, re letter box revenue, and to make the point in difference between us as clear as possible for the Treasury Board, is your view that the 53 rd section of 49 Vic., cap. 35, gives the Postmaster General the power to assign the whole receipts to the Postmasters, or that the power is given in some other place? If so, where?

> I am, sir, your obedient servant,
J. L. McDOUGALL, A. G.

Post Office Department, Ottawa, April 6, 1894.
Sir,-In reply to your letter of the 2nd instant, I beg to state that in my opinion section 53, cap. 35, 49th Victoria, gives the Postmaster General the right to fix the salary and allowances of every kind to all Postmasters not paid by regular salaries, that is to say, not borne on the strength of the Outside Service.

I am, sir, your very obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.
Audit Office, Ottawa, April 9, 1894.
Sir,-I inclose herewith copy of correspondence with the Deputy Postinaster General and the Secretary of the Department of Public Works in reference to letter boxes, dec. This correspondence may be summed up as follows:-
(1.) The Government has fitted up letter boxes and drawers in all the Post Office buildings erected since Confederation.
(2.) With the exception of the city Postmasters all the Postmasters retain the ful. charges collected from the public for the use of these boxes and drawers in their respective offices.
(3.) The Deputy Postmaster General claims that this is a disposal of the receipts which the Post Office Department can legally make under 49 Vic., cap. 39, section 53. Surely it is not contemplated by this section to authorize the placing upon the whole people the cost of a convenience for a particular locality,-a convenience for which the locality pays, not to the whole people, but to one individual. When it is said that Postmasters may be paid a percentage on the amount collected by them it seems not to mean that the whole may be paid.

Even as a return for labour there cannot, I presume, be any contention that the labour directly connected with the boxes and in addition to what it would be without boxes justifies the transferring of the whole receipts to the Postmaster.

Under these circumstances, and as I am now holding over an application for a payment for letter boxes for a post office now being fitted up, I have to request you to bring the matter before the Treasury Board at an early date.

$$

\end{aligned}
$$

The Secretary, Treasury Board,

## Extract from minutes of Treasury Board meeting held on twentyfirst day of November, 1894.

Post Office,-The Board had under consideration a copy of the correspondence which has been had between the Auditor General and the Post Office and Public Works Departments as to whether the Postmaster General has the power to allow to Postmasters the whole of the moneys received as rent for letter boxes and drawers placed by the Government in the Post Office buildings erected by the Public Works Department the Postmasters in charge of which are not under the Civil Service Act.

In connection with the matter the Board also had under consideration a communication from the Deputy Minister of Justice in which he states that in the opinion of the Minister of Justice, Section 53 of the Post Otfice Act-R.- S. C., chap. 35-gives to the Postmaster General the powers above referred.

The Board concur in the opinion of the Minister of Justice as expressed.

> J. M. COURTNEY, Secretary.

## Re Post Office Revenue.

Audit Office, Ottawa, October 3, 1894.
Sir,-In accounting for the stamps and cards issued by the Stamp Branch during 1893-94, credit is taken for $\$ 11,220$, the amount of stamps destroyed in transit to offices in Manitoba and the North-west Territories. Please let me have the papers, reports and correspondence in reference to this case.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Post Office Department, Ottawa, October 9, 1894.

Sir,-I have the honour to acknowledge your letter of the 3rd instant asking to be furnished with papers, reports and correspondence in reference to a credit taken by this department for $\$ 11,220$ on account of postage stamps and post cards destroyed in transit to ottices in Manitoba and the North-west Territories.

## Auditor General's Report—Part M

In reply, I beg to say that the inclosed sheet contains a memorandum of the several supplies of stamps and cards which make up the total of $\$ 11,220$, and that a certificate can be furnished by the Superintendent of the Stamp Branch that these several amounts appear in his hooks as having been despatched on the 7 th June last by the train which met with an accident involving the total destruction of the postal car and its contents on the 9th June.

The Post Office Inspector of Ottawa Division can also certify that the several parcels of stamps referred to were entered as registered articles on the bills of the Railway Post Office on the date of despatch from the Stamp Branch, and formed part of the mail matter destroyed on the occasion in question.

Will you kindly say whether such certificates would meet the case. We have no papers, reports or correspondence bearing specially on the destruction of these stamps.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

Audit Office, Ottawa, October 15, 1894
Sir, -I am in receipt of your letter of the 9 th instant in reference to stamps destroyed while in transit to Manitoba and the North-west Territories.

Please send the certificates of the Superintendent of the Stamp Branch and the Inspector, referred to by you. The certificate of the officer who was present or afterwards visited the scene of the disaster, should also be furnished, vouching from personal knowledge of the effects of the accident. You state the postal car and its contents were totally destroyed, but I understand some quantity of damaged stamps rescued from the wreck was returned to your department.

> I am, sir, your obedient servant,

The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Post Office Department, Ottawa, December 3, 1894.

Sir, -With reference to my letter of the 9th October last in regard to the credit taken by this Department for $\$ 11,220$ worth of postage stamps destroyed in transit to offices in Manitoba and the North-west Territories and to the inquiries made verbally on the subject by an officer of your Department, I now beg leave to inclose the following statements :-
(1.) One by the Superintendent of the Postage Stamp Branch of this Department giving a detail of the stamp supplies sent from his office on the 7th June last addressed to post offices in Manitoba and the North-west Territories and showing the total value of the same to be $\$ 11,220$.
(2.) Une by the Post Office Inspector of Ottawa certifying that the several packages mentioned in the preceding certificate were duly forwarded with the mails of that day by the Canadian Pacific Railway going west.
(3.) One by the Assistant Post Office Inspector stationed at Port Arthur giving particulars of the accident which happened on the 9th June to the Canadian Pacific Mail train which left Ottawa on the 7 th of that month and certifying that all the postage stamps included in the mails were destroyed by fire or by water with the exception of a few which were recovered in a damaged condition.

The damaged stomps were duly forwarded to the Department and will be destroyed.
Under the circumstances you will perhaps see no objection in credit being taken by the Department for the whole amount of the stamps in question, viz., $\$ 11,220$.

I am, sir, your obedient servant,

## Casual Revenue.

Audit Office, Ottawa, November 8, 1894.
Sir,-During the year 1892-93 sales of waste paper were accounted for by the following officers :-Postmasters at Toronto and Quebec and the Inspector at Toronto. In my letter of November 28, 1893, I inquired why there was not some return, large or small, from each of the large offices. In your reply of December 11, 1893, you stated that in future a formal return would be asked to avoid any difficulty of determining whether there is or is not any disposable waste paper.

According to the returns for 1893-94, the only receipts for waste paper are from the same officers.

I shall be glad to hear from you on the subject.
I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Losses by Fire and Burglary.

Audit Office, Ottawa, November 9, 1894.
Sir,-During 1892-93, thirty-two Orders in Council were passed authorizing reimbursement to Postmasters for stamps burnt or stolen. None of these Orders in Council have been furnished to this office.

In five of these cases the voucher is receipted by an officer of your department and the cheque made payable to the Receiver General. If it is expedient to hold the cheque and pass it to the credit of the Postmaster, he should be required to sign the receipt for the amount. Unless there is some sufficient reason for acting otherwise, all cheques should be drawn payable to the order of the person entitled to payment.

I am, sir, your obedient servant,
The Deputy Postmaster General. J. L. McDOUGALL, A.G.
Post Office Department, Ottawa, November 16, 1894.
Sir,-I have the honour to acknowledge the receipt of your letter of the 9 th instant, in which you call attention to the fact that 32 Orders in Council were passed authorizing re-imbursement to postmasters for stamps burnt or stolen, and that in five of these cases the voucher is receipted by an officer of this Department and the cheque made payable to the Receiver General ; the cases to which you refer, are cases in which the amounts so paid were due to the Department, and in the majority of instances the postmaster had left the country and his signature could not, therefore, be obtained; wherever it is practicable, the postmaster will be required to sign the receipt, but I presume you do not wish that these payments should be held in abeyance because the persons from whom they are due have left the country.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

## Salaries paid from Revenue.

## Addit Office, Ottawa, November 2, 1894.

Sir,-I observe that for the last fiscal year the salaries of the postmasters of the branch offices in the large cities have been paid from revenue. This, so far as they are concerned; is a new departure. You will recollect that in discussing with you the now long-continued practice of paying in this way the salaries of the country Postmasters, I have urged the propriety of abandoning the practice of meeting expenditure from

## Auditor General's Report-Part M

revenue in this branch of the service of your department-the only one in the whole service to which it is applied.

Once I understood that the Postmaster General had determined to ask for the requisite appropriation. Now it appears that the intention is to extend the practice.

I would call your attention to chapter 29, section 27, of the Revised Statutes, which expressly provides that the gross revenue shall be deposited to the credit of the Receiver General.

You have not, I think, any special statutory authority for the payments. Please explain the reasons for paying the branch offices in the manner indicated, and say whether you intend to advise the bringing down of estimates for your whole expenditure.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.g.

## Re Post Office Account.

Audit Office, Ottawa, November 21, 1894.
Sir, - When the accounts of each year are closed there is usually a balance at the credit of post office account, representing the Money Orders remaining unpaid. The amount of this balance on 30 th June last was $\$ 187,731.63$. No returns are furnished to enable me to determine that this balance covers all the orders outstanding. It is important that these returns should be furnished. As the accounts of each year remain open for some time after the end of the financial year could you not arrange that the deposits and repayments for all orders issued previous to June 30th should be entered up to the accounts of that year. That would reduce the balance to such a comparatively small amount that a detailed statement of the orders still outstanding could easily be given and the account verified.

I shall be pleased to hear from you on the matter.
I have the honour to be, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## Re Outstanding Warrants.

Audit Office, Ottawa, November 21, 1894.
Sir,--The outstanding warrants on the 30 th June last amounted to $\$ 94,503.64$, an increase of $\$ 8,097.88$ on the amount outstanding on the 30 th June, 1894. These warrants I understand are issued to Postmasters in payment of their salaries and allowances, and this sum of $\$ 94,503.63$ is a liability of the Government not brought to account. No doubt a large portion of this sum is for warrants issued for the quarter preceding the close of the year. It would be much better I think if the practice followed with reference to Letter of Credit cheques should be adopted in connection with these warrants, that is the charging the warrants as issued instead of as paid. I have to request your consideration of this point.

In the meantime please send me a detailed statement of the warrants outstanding on 30th June last, yet remaining unpaid.

I have the honour to be, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

## $\overline{r i e}$ Waste Paper of the Senate.

## Audit Office, Ottawa, October 10, 1894.

Sir,-I have to inquire if the waste paper of the Senate is now collected by the person who holds the contract for the purchase of all the waste paper of the Government offices in this city.

I am, sir, your obedient servant,

J. L. McDOUGALL, A.G.

## Department of Public Printing and Stationery, Ottawa, October 15th, 1894.

Sir, -I have been making closer inquiries with regard to the Senate paper, and I regret to find that I have not been getting the waste paper from the Senate. The man who collects it mistook the House of Commons for the Senate, and misled me in answering my question.

I am putting out new tenders this week, and will see that the Senate is included.
I am, sir, your obedient servant,

The Auditor General.
S. E. DAWSON, Q. P., \&cc.

## Re Sale of Waste Paper, \&c.

Audit Office, January 16, 1895.
Sir,-I have just received a memo. of the sales of waste paper, \&c., during 1893-94. In future please have a statement furnished monthly, with copies of the invoices certified by the weighing clerk and the accountant.

I have to ask for explanations of the following items :-
John Leslie, gold waste from bindery . . . . . . . . . . . . . . . . . \$61 35
J. L. Morrison, empty spools . . . . . . . . . . . . . . . . . . . . . . . . . 1460

This is the first time anything came to account for the sale of such articles.
I am, sir, your obedient servant,
The Queen's Printer, dc.

J. L. McDOUGALL, A.G.

## Department of Public Printing and Stationery, Ottawa, January 17, 1895.

Sir,-I have the honour to acknowledge receipt of yours of 16 th , to the Queen's Printer, and in reply beg to say that the item for gold waste is the proceeds from the sale of cloths used in the bindery for cleaning off books after gilding, and sweepings from the finishing benches which contain superfluous gold. With reference to the other item for spools, it is just what is stated, empty spools, from which the sewing wire has been used. It has been the custom, I think, in the past to give credit for empties returned on the invoices for new orders.

I am, sir, your obedient servant,
The Auditor General.
W. GLIDDON, Acct.

Audit Office, Ottawa, January 18, 1895.
Sir,-In his reply to my letter of January 17th, your accountant explains why there was no previous revenue from the sale of empty spools. He has not, however, explained what disposition was made of the gold waste in previous years.

I am, sir, your obedient servant,
The Queen's Printer.
J. L. McDOUGALL, A.G.

Department of Public Printing and Stationery,
Ottawa, January 18, 1895.
Sir - Your letter of January 18th is to hand, inquiring what disposition was made in former years of the gold waste.

In reply, I beg to say that I do not know, and at this lapse of time it is impossible to find out. The question of gold waste is a mooted point in binderies. Some establishments allow the gold rags to be kept by the men and some do not. Certainly no return was ever made here before. It had been the custom in my bindery before I came here to make a return of the waste, and, as all the men are paid full wages, I think that is the proper course. Besides the contrary custom tends to careless use of gold leaf, for no man will care to economize if the balance of waste goes into his rag. Therefore, when the matter came to my notice, I insisted that the rags should be given up. How far this return extends back I cannot tell, and there is no way to tell or to do more for the

## Auditor General's Report-Part N

Government than I was able to do for myself. If sending the return this way troubles your audit, I might have it deducted from the account for supplies, but in all such matters the clearer the facts are the better.

I am, sir, your obedient servant,
The Auditor General.
S. E. DAWSON, Q. P., \&cc.

Audit Office, Ottawa, January 19, 1895.
Sir, -I am in receipt of your letter of the 18th, with explanations in reference to the sale of gold waste.

In answer to your last sentence of your letter I desire to say that there is no objection to your accounting for this and all such receipts as you have done, that is, crediting them to casual revenue.

It is well that you noticed the irregularity and put an end to it.
I am, sir, your obedient servant,
The Queen's Printer.
J. L. McDOUGALL, A.G.

## Public Works: Travel of Ottawa Employees.

Audit Office, Ottawa, Feb. 7, 1895.

Sir,-In the vouchers rendered by employees of your department for travelling expenses, I notice several items which do not appear to be proper charges on the public funds: for instance-books, shaving, cleaning boots, baths, umbrella, medical attendance, hire of fur coat, and wear and tear of coat and suit. These items, which will be found in the details of travelling expenses on pages $\mathrm{P}-12$ to $\mathrm{P}-15$ of my report for 1893-94, should be refunded, as well as any similar charges since July 1, 1894.

The charges for cab-hire to and from Ottawa station are proportionately larger and more numerous than those of any other department yet brought to my notice. It might be possible for the employees to avail themselves, to a greater extent, of our efficacious street-car service. Please call their attention to this apparently feasible economy.

Similarly with regard to return-tickets. Mr. Côté, for instance, has charged 38 single tickets between Ottawa and Montreal, at $\$ 3.50$ each. Such frequent travelling should be done either on return-tickets or on mileage-books, by which a considerable saving may be effected.

There appeared under Mr. Gobeil's name, at the time the Statement of Travel was compiled in December, some $\$ 442$ of 1893-94 cheques for which vouchers had not been received at this office. Please let me know whether they have yet been prepared. I should like to have them at as early a date as possible, as that part of my report is ready to be printed. Press of work has delayed an earlier request for this information,

I am, sir, your obedient servant,
The Secretary, Public Works Department.
J. L. McDOUGALL, A.G.

## Public Works: Extra Clerks charged to Wrong Votes.

Audit Office, Ottawa, March 9, 1894.

Sir,-I notice in the accounts of 1893-94, that some of the employees in the Public Works Department are paid from votes other than those described as for Departmental services, for instance :-

Jas. Howden, charged to Dredging, and to Ship Channel.
E. B. Godwin, charged to Dredging Generally.
C. Robinson, charged to Dredging Generally.

Jos. Bedard, charged to Surveys and Inspections.
All departmental services not paid from Civil Government should be charged against one of the four votes under "Miscellaneous Public Works," namely, Chief Architect's Staff, Chief Engineer's Staff, Telegraph Branch, and Temporary Clerical and Other Services.

Please pick out all the items charged otherwise since July 1, 1893, and apply for their transfer. Also, please discontinue making similar payments.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Jan. 2, 1895.
Sir,-LLet me call your attention to my letter of March 9, 1894, objecting to payments for "Departmental Salaries at Ottawa" out of such votes as those for Dredging and Surveys, on the ground that all such salaries not charged to Civil Government should be charged to one of the four votes specially provided therefor.

No answer has been received in this office to the letter in question.

I am now able to sum up the corresponding charges for the whole year 1893-94, which are as follows-all being incorrectly made by you:
St. Lawrence Shin Channel : -
Howden, Jas., Supt. of Dredging, 6 mos ..... $\$ 1,25000$
Ottawa Buildings-Repairs, Furniture, \&c.:-
Belanger, Saxton, general jobber, 84 w.d. at $\$ 2$ ..... 16800
do clerk, 92 d . at $\$ 2$ ..... 18400
Gareau, J. D., clerk, 184 d. at $\$ 2.75$ ..... 50600
Lafromboise, C., storekeeper, 365 d . at $\$ 2.20$ ..... 82125
Repairs to Piers, P.E.I.:-
Perley, Henry F., C. E., professional services, May 21 to June 30, 1894, at $\$ 215$ a month ..... 29463
Harbours and Rivers Generally :-
Bedard, Jos., office-jobbing, sorting, \&c., 77 w.d. at $\$ 1.50$ ..... 11550
Desrivières, J. F. M., draughtsman, 89 d. at $\$ 1.75$ ..... 15575
McMillan, H. A., at cement-testing, 11 mos. at $\$ 40$, less $17 \frac{1}{2} \mathrm{~d}$. ..... 41708
McRae, M., extra work, 60 h . at 50c ..... 3000
O'Connor, Mrs. M., copying, $626 \frac{3}{3}$ fol. at 5 c ..... 3133
Repairs to Dredge Vessels :-
Godwin, E. B., clerk, 2 mos. at $\$ 100$ ..... 20000
Robinson, C., clerk, 2 mos. at $\$ 87.50$ ..... 17500
Dredging Generally :-
Howden, Jas., Supt. of Dredging, 6 mos ..... 1,250 00
Godwin, E. B., clerk, 1 m . at $\$ 87.50,9$ mos. at $\$ 100$ ..... 98750
Robinson, C., clerk, 10 mos. at $\$ 87.50$, less 9 d ..... 84959
Collection of Slide and Boom Dues :-
Russell, A: J. H., clerk, $\$ 1,200$; less $\$ 18$ supn. tax. ... 1,18200
Telegraphs Generally-Collection of Revenue :-
Lavigueur, F. K., messenger, 211 d . at $\$ 1.50$. ..... 31650
McDonell, Æ. D. O., clerk, 218 d. at $\$ 1.75$ ..... 38150
Sundry Votes, as shown on Page P-10:-
Prieur, Arthur, translating Report of P. W. Dept. ..... 38000
Trudel, A., translating specifications, \&c ..... 28446

In accordance with the provisions of the Audit Act, I am submitting this correspondence to the Treasury Board.
I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Feb. 8, 1895.
Sir,-Herewith please find copies of two letters addressed by me to the Public Works Department, concerning the charging of extra clerks to other votes than those specially provided therefor.

I have received no answer to either of these letters. Please bring the subject to the attention of the Treasury Board.

I am, sir, your obedient servant,

## Ottawa Employee charged to Wrong Vote.

## Audit Office, Ottawa, Aug. 22, 1894.

Sir,-Let me acknowledge receipt to-day of your application No. 859 for a transfer entry for $\$ 173.32$, chargingsundry votes, and crediting Superannuation Revenue, for taxes on salaries between Oct. 1, 1893, and June 30, 1894.

I notice an entry under the heading "Collection of Slide and Boom Dues" of $\$ 18$ for nine months tax on the salary of A J. H. Russell, a clerk in the Public Works Department.

You will find this officer's case fully discussed at page C-326 of my report for 1892-93.

I am unable to sanction the passing of a document which involves the charging of Mr. Russell's salary to any vote except "Civil Government," "Chief Engineer's Staff," or "Temporary Clerical Services."

The application is returned herewith for amendment. Please apply also for a transfer to relieve "Collection of Slide and Boom Dues" from Mr. Russell's whole salary for the year 1893-94.

I am, sir, your obedient servant.
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

## Stores Accounts to be examined in Audit Office.

## Audit Office, Ottawa, June 4, 1894.

Sir,-Let me call your attention to the letter of the Minister of Finance, shown at page 5 of the preface to my report for 1892-93, which directs me to make an audit of Stores Accounts.

Please cause lists to be prepared of all property in the hands of your department on the 30 ch of June, 1893 and 1894, and statements of Purchases and Issucs for the period between those two dates.

In the future, please supply me at regular intervals with statements of the Stores Accounts, and have Stores Ledgers so kept that the Stock-in-hand may be checked at any time.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, June 9, 1894.
Sir,-I have the honour to acknowledge the receipt of your letter dated the 4th instant, calling attention to the communication of the Hon. the Minister of Finance, shown at page 5 of the preface to your report for 1892-93, which directs you to make an audit of Stores Accounts, \&c., \&c..

I am, sir, your ubedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

Audit Office, Ottawa, Feb. 8, 1895.
Sir,_Let me call your attention to my letter of June 4, 1894, concerning the auditing of Stores Accounts.

I do not find that any answer has been received from you, or any action taken, other than the formal acknowledgment dated June 9.

This subject cannot be further postponed, and will be taken up immediately after the completion of our Annual Report now in hand.

I am, sir, your obedient servant,

# Outstanding Advances: List not sent to Audit Offlee. 

Audit Office, Ottawa, Dec. 4, 1893.

Sir,-Please let me have a statem nt of the sums, if any, advanced by your department to anyone before July 1, 1893, and not yet accounted for up to date.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Jan. 26, 1894.
Sir,-_Please let me have an answer to my letter of December 4, 1893, asking for a statement of the sums, if any, advanced by your department to anyone before July 1, 1893, and not yet accounted for up to date.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, Feb. 2, 1894.
Sir,-I have the honour to acknowledge the receipt of your communication dated the 26th ultimo, applying for an answer to your letter of December 4th, 1893, asking for a statement of the sums, if any, advanced by this department to anyone before July, 1893, and not yet accounted for up to date.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary, per Th. F.

Audit Office, Ottawa, Feb. 8, 1895.
Sir,-Let me call your attention to my letters of December 4, 1893, and January 26, 1894, asking for statements of advances for which accounts have not been rendered.

This information is essential for a proper audit of your expenditure. Please forward it at as early a date as possible.

I am, sir, your obedient servant,
The Secretary, Public Works Department.
J. L. McDOUGALI, A.G.

Govt. Offleers should not prepare Vouchers for Creditors.
Audit Office, Ottawa, Oct. 18, 1894.
Sir,-Let me acknowledge receipt of your application No. 217 for $\$ 325.50$ for tamarack ship-knees supplied at Sorel for New Dredging Plant, as follows:-

$$
\begin{aligned}
& \text { Nazaire Peloquin, } 61 \text { knees at } \$ 3.50 \text {. . . . . . . . . . . . . . . . . } \$ 21350 \\
& \text { Louis Cartier, } 32 \text { knees at } \$ 3.50 . \ldots . . . \text {. . . . . . . . . . . . . . . . } 11200
\end{aligned}
$$

Both vouchers appear to be in the handwriting of one of the employees in the Ship Channel office at Sorel. I need the original bills, made out by the creditors or their agents : the latter should not be Government officers.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J L. McDOUGALL, $A . G$,

Public Works Dept., Ottawa, Nov. 2, 1894.
Sir,-In reply to your letter dated the 18 th instant, acknowledging the receipt of our application No. 217 for $\$ 325.5$ ) for tamarack ship-knees supplied at Sorel for new dredging plant, and stating that you need the original bills made out by the creditors or their agents, and that the latter should not be Government officers, I am directed to inform you that our Chief Engineer to whom your letter was referred, reports as follows:-
"I am afraid that the original bills in the handwritings of both Nazaire Peloquin " and Louis Cartier cannot be obtained, as in all probability these two men cannot write. " My instructions to the Resident Engineers or officers in charge of work are that all " accounts are to be in the handwriting of the creditor or his agent, unless the creditor "or his agent cannot write. In such a case I hold that the person in charge of the " work is the only one to write the account."

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

Note by Auditor General.-It was subsequently arranged orally with the Chief Engineer, that Government officers are not to prepare vouchers.

## Certificate of unauthorized Official cannot be accepted.

Audit Office, Ottawa, October 18, 1894.
Sir,-Let me acknowledge receipt of applications 220 and 221, as follows :-
220-John Martin, timber for Port Hope
$\$ 58395$
220-W. W. Campbell, plank for Port Hope
221—Bradley \& Cameron, lumber for dredge plant....... 113519

I notice that the vouchers are certified by Mr. F. C. Lightfoot, on behalf of Mr. Coste.

Please refer to the discussion on pages C-243 and C-244 of my report for 1891-92, with reference to Mr. Lightfoot's signature.

As there shown, the arrangement was, that Mr. Lightfoot was to sign only for a short time, and was not to sign final estimates.

I have not received from you any answer to my letter of August 4, 1892.
The Bradley \& Cameron voucher appears to be in the handwriting of one of the Sorel employees. Please send the original bill.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

## Original Certificates needed.

Audit Office, Ottawa, Oct. 18, 1894.
Sir,-LLet me acknowledge receipt of your application No. 234 for $\$ 240$ in favour of A. C. Vaughan, of Port Arthur, for 150 cedar telegraph poles delivered at Moose Jaw.

The voucher is marked by an officer in the Telegraph Branch "Original certified goods received, by A. Wilcox, agent."

As mentioned several times before, this is of no use for the purpose of audit. We need a certificate from Mr. Wilcox himself-not a mere statement from some other person that Mr. Wilcox has certified.

As a general principle, an auditor should be supplied with the best evidence procurable : not the second-best.

The papers are returned herewith for amendment. In view of the number of times that the same objection has had to be raised, might I ask you to issue specific instructions to your subordinates against a repetition of this defect?

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

## Identical Services charged to different Votes.

Audit Office, Ottawa, Oct. 26, 1894.
Sir,-Let me call your attention to the different votes to which your department. has charged the annual payment to the Boiler Inspection Company for inspecting boilers at Ottawa :-

It would be better always to charge the same Expenditure to the same Vote. I am, sir, your obedient servant, The Secretary, Public Works Dept. J. L. McDOUGALL, A.G.

## Paymaster's travel exceeded half the Pay-list.

Audit Office, Ottawa, Oct. 17, 1894.
Sir,-Let me call your attention to the following vouchers for expenditure on Yamaska Lock in 1893-94 :-

81398-Nine labourers, sums under \$3 each . . . . . . . . . . . . . \$ 1475
82275—Paymaster Dagneau, expenses of paying same...... 790
83121-Five labourers, three at $\$ 4$, two at $\$ 3 . . . . . . . .$.
84430-Paymaster Dagneau, expenses of paying same...... 965
87261-Nine labourers, sums under $\$ 3$ each ................ 1810
87718-Paymaster Dagneau, expenses of paying same...... 925
Was there no way of avoiding travelling expenses amounting in each case to more than half the pay-list?

> I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, $A . G$.

## Engineer's Orders needed for Extras.

Audit Office, Ottawa, Dec. 5, 1894.
SIR,-Let me acknowledge receipt to-day of your application No. 342 for $\$ 1,011.31$ in favour of Brewder \& McNaughton, being the balance of their Final Estimate for Goderich Pier Extension.

Please send me copies of the Engineer's Orders for the work charged in the bill of $\$ 716.31$ for Extras, and get the rates certified "Prices fair and just."

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Chief Engineer's Office, Ottawa, Dec. 7, 1894.
The Auditor General might be told that no orders were issued by the engineer in connection with this extra work. It was not ordered as a lump but almost day by day as the work progressed-one extra bolt being placed here and there as required ta strengthen the work, binders being placed where necessary also to strengthen work, and the ties at the north-east angle of the outer crib being allowed to run through the work also with a view of strengthening that part of the work.

The prices paid to the contractors are fair and reasonable and were allowed by the Resident Engineer after consulting with the Chief Engineer.

LOUIS COSTE, Chief Engineer.

## Langevin Block : No Final Estimate yet.

Audit Office, Ottawa, Jan. 3, 1895.
Sir,-LLet me refer you to the correspondence on pages C-328 to C-330 of my report for 1892-93, asking when we might expect a Final Estimate for the Langevin Block.

Nothing has been received from you since your note of January 30, 1894, over eleven months ago.

The six advances on interim certificates (equivalent to $\$ 97,000$ dated Sept. 19, 1889), have not yet been accounted for to this office by estimates,-a delay of more than five years.

Please let me know at an early date whether you have been able during the pastyear to make any approach toward a settlement with Mr. Charlebois.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Feb. 8, 1895.
Sir, -Please notice that my letter of January 3, 1895, asking for information concerning the Final Estimate for the Langevin Block, is still unanswered.

I am sir, your obedient servant, The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

## Montreal: Price of White Lead.

## Audit Office, Ottawa, March 9, 1894.

Sir,-I am passing to-day your application No. 634 for $\$ 202.37$ in favour of Letourneux, fils \& cie, for hardware supplied to St. Vincent de Paul Penitentiary between Jan. 8 and Feb. 26.

The voucher includes $\$ 32$ for 400 lbs. of "Pure White Lead" at $\$ 8$. Please let me have a closer description of the quality and brand.

The Department of Railways and Canals is buying "White Lead, Tiger Brand," under contract in Montreal for $\$ 4.80$. It would appear practicable, therefore, for you to obtain lower rates, by concentrating your orders and inviting tenders.

I am, sir, your obedient servant,

## Memorandum from the Office of the Chief Architect, Department of Public Works, Ottawa, March, 1894.

Re Brands of White Lead.-So far as I can learn, each manufacturer establishes his own brand of white lead so that no two brands in the market may be of equal quality. The following information I have received from a reliable wholesale manufacturer, viz. :-that the white lead from which he manufactures his various brands is imported and known as James' English pure lead and costs $\$ 10$ per 100 lbs. From it he manufactures the following brands :-

Architects and others who wish to have first-class work done, place so little reliance on brands that it is customary to specify that the lead be brought on the works, examined and tested before being made into paint. The same remarks apply to oils, Portland cements and such like articles.

> D. EWART, for Chief Architect.

## Cement: Prices paid by different Departments.

Audit Office, Ottawa, July 28, 1894.

Sir,-I am passing your application No. 817 for $\$ 1,740.40$ for expenses of the St. Vincent de Paul Penitentiary, including a bill of $\$ 963.36$ for hardware supplied by Letourneux, fils \& cie. There is an item of $\$ 62.50$ for 25 barrels of Portland cement at $\$ 2.50$. For similar purchases in future, please mention the quantity of cement in the barrel. I notice that the Dept. of Railways and Canals has a contract in Montreal for " White's English Portland Cement," at $\$ 2.09$ for $400-\mathrm{lb}$. barrels, and $\$ 1.96$ for $375-\mathrm{lb}$. barrels.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L McDOUGALL, A.G.

## St. Vincent de Paul: Oats bought at more than Market Price.

(Continuing the discussion on pages C-341 and C-342 of the Report for 1892-3.)
Public Works Dept., Ottawa, March 31, 1894.
Sir,-Having reference to your communication dated the 24th January last, acknowledging my letter of the 5th of the same month, respecting the price paid for oats at St. Vincent de Paul Penitentiary, and calling attention to the fact that Mr. Bisson's rate is 45 cents and the penitentiary rate is 40 cents, both for 1892-93, I am directed to state that the Chief Architect reports as follows :-
"In the memo. on cover of No. 140,318, the price of oats in Mr. Bisson's account "is 40 c ., but it should have been 45 c . Still the statement that the oats were purchased "at 5 c . per bushel less than the contract price for $1<93-94$ is correct. It would require "to be established that the oats supplied at the penitentiary and those sold in Montreal "were in all respects equal in quality, weight, \&c., befcre the comparison as to the price "paid is of value, and furthermore the market price of Montreal is not a reliable "criterion of the St. Vincent de Paul price."

As to the last part of your letter stating that your information as to the price of oats in Montreal on the Saturday preceding the Tuesday's purchase, has not been dis-

## Auditor General's Report-Part P

cussed, I am directed to say that, following your own example when you doubt every one of the statements made in support of our certificates to accounts, we must decline to accept, for a basis of discussion, your unsupported statement that oats were selling at a certain price on a certain day, and that pioof will have to be adduced by you that sales actually took place at the figures you name.

> I am, sir, your obedient servant,

The Aulitor General.
E. F. E. ROY, Secretary.

## Audit Office, Ottawa, April 14, 1894.

Sir,-LLet me acknowledge receipt of your 148033, continuing the discussion shown at page C-341 of my report for 1892-3, about the high price paid for Oats at St. Vincent de Paul Penitentiary.

My statement that oals were selling in Montreal for $34 \frac{1}{2}$ and 35 cents, just before your purchase at 45 cents, was taken from the Market Returns published in the Montreal "Gazette" of March 27, 1893.

I have not the names of the sellers and buyers, nor the quantities sold.
I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

## Ottawa Repairs Pay-list: Information not furnished.

Audit Office, Ottawa, January 3, 1895.
Sir,-Let me call your attention to the discussion on pages C-351 and C-352 of my report for 1892-93, concerning some defective pay-lists between Oct. 17 and Dec. 14, 1892, for repairs to Ottawa Buildings.

The discussion is still at the point where it was left by my letter of Feb. 12, 1894, and you have not supplied me with any of the information for which I asked, and which is necessary for a complete release of your department from liability for the sums involved.

You will see, on page A-55 of my report for 1892-93, that I explicitly refused to certify these payments.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALI, A.G.

## Ottawa: Employment of Artizans not limited by Orders in Council.

Audit Office, Ottawa, April 28, 1894.

The undersigned has the honour to call attention to the Order-in.Council of Feb. 6, 1893, shown on page A-10 of Auditor General's Report for 1892-93, concerning persons employed at Ottawa, and paid out of other votes than Civil Government, and to inquire whether it was contemplated that Orders in Council should be obtained for the employment of skilled artizans, such as Carpenters, Masons, Heating-Engineers, \&c. Respectfully submitted,
To the Hon. the Privy Council
J. L. McDOUGAII, A.G.

Treasury Board, Ottawa, July 26, 1894.
Sir, $_{2}$-In reply to your letter of the 28 th April last, I am directed by the Treasury Board to inform you that it was not contemplated that Orders in Council should be obtained for the employment of skilled artizans, such as carpenters, masons, heatingengineers, \&c.

I am, sir, your obedient servant,
The Auditor General.

## Ottawa Electric Light Co.: Contract now arranged.

Audit Office, Ottawa, July 28, 1894.
Sirs, $^{-}$Let me acknowledge receipt of your application No. 797 for $\$ 600$ in favour of the Ottawa Electric Light Co., for maintaining 24 Arc-lamps on Ottawa streets and bridges for 3 mos. to June 30, 1894, at $\$ 100$ a year.

I do not find that any answer has been received to my letter of Feb. 6, 1894, (shown on page C-361 of my Report for 1892-93), wherein I remarked that this service should be placed under contract.

The new City Contract, to run from May 1, 1895, is at $\$ 65$ a year for each lamp. Probably the City would be willing to maintain, for $\$ 65$ or thereabout, those of the 24 lamps which are within the City boundaries, in view of the fact that the public derive most of the benefit from them. Since the lamps are already on the City circuits, there would be no difference at all in the quality of the service. This suggestion has been made to you before.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Oct. 5, 1894.
Sir,-Please let me know what action has been taken on my letters of February 6 and July 28, 1894, suggesting that the 24 Arc-lamps on Ottawa streets and bridges should be placed under contract, at a rate approximating to that of $\$ 65$ recently arranged by the City.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, Oct. 13, 1894.
Sir,-Having reference to your letter of the 5th instant, suggesting that 24 Arclamps on Ottawa streets and bridges be placed under contract at a rate approximating to that of $\$ 65$ as arranged by the city, I have the honour to inform you, that we have been in communication with the Ottawa Electric Company, with a view of making a new agreement, on the basis of that come to between the city and the company, but that upon our request that this new agreement should be made to date from the list instant, the company has requested us to continue with the present agreement until the lst May next, when the new contract with the corporation of Ottawa will come into force. The department intends making with the company, a new agreement similar in price, etc., to that made by the corporation.

I am, sir, your obedient servant,
The Auditor General. E. F. E. ROY, Secretary.

Manitoba Dredge Pay-list: Fictitious Receipts for money.
(Continuing the discussion from page C-385 of the Report for 1892-93)
Audit Office, Ottawa, July 25, 1894.
Sir,-Let me acknowledge receipt of your application No. 812 for $\$ 700$ in favour of the Alberta Railway \& Coal Company for 100 tons of coal at $\$ 7$, delivered to the dredge " Winnipeg" at West Selkirk.

The certificates are: "Material received-C. H. West, master of dredge ;" and "Prices, fair and just-W. F. Gouin, Resident Engineer."

I am unable to accept certificates from either of these gentlemen until they clear up the mystery which surrounds the dredge pay-lists of 1892 . (See the discussion on pages C-382 to C-385 of my report for 1892-93, and the note on page A-55.)

Please charge the unreceipted wages to the salary-accounts of Messrs. Gouin, West and Smith, until they furnish evidence of payment.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, Aug. 29, 1894.
Sir,-Having reference to your letter, dated the 25th ultimo, acknowledging our application No. 812 for $\$ 700.00$ in favour of the Alberta Railway and Coal Company, for coal delivered to the dredge "Winnipeg," at West Selkirk, and stating that you cannotaccept certificates from Messrs. West \& Gouin until they clear up the mystery which surrounds the dredge pay-lists of $1892, \& c$., \&c., I am directed to forward to you herewith inclosed, copy of our Chief Architect's report upon the subject, and to request you to kindly pay the Alberta Railway and Coal Company's account above referred to.

The Auditor General.
E. F. E. ROY, Secretary.

Dept. of Public Works, Ottawa, August 15, 1894.

## Memo:

There was no mystery in connection with the pay-lists of 1892 -only an irregularity against which Mr. Gouin has been warned and which will not be repeated. This irregularity is explained in the correspondence published by the Auditor General in his last report, and has not been rectified owing to the fact that changes have taken place in the crews of the dredges and that it is not possible at present to obtain the signatures of the men. Of one thing I am satisfied, and it is that every man mentioned in the paylists in question has worked full time, or if absent was absent on a regular permission, and also that every man has been paid the amount set opposite his name. The men are engaged for the season, and the number of men on the pay-lists represents the full crew of the dredges, without which these dredges could not perform their regular work.

## L. COSTE, Chief Engineer.

Audit Office, Ottawa, Feb. 8, 1895.
Sir,--Let me call your attention to the discussion at pages C-382 to C-385 of my report for 1892-93, concerning money charged as paid to employees on the Manitoba. dredges, but for which we have only fictitious signatures made by some Government officer, instead of genuine receipts from the men themselves.

The latest contribution to the discussion is the Chief Engineer's memorandum of August 15, 1894, wherein he states that changes in the crews have made it now impossible to get receipts from the employees of 1892.

This explanation loses its force on closer examination. The pay-list of the dredge "Winnipeg" in August, 1892, for instance, contained the names of eleven employees, of whom seven are on the pay-list for September, 1894 ; and receipts from these seven at least were easily procurable at the time of Mr. Coste's writing in August, 1894.

Some of these latter men are probably now available at Winnipeg, or will be re-employed when navigation opens. Declarations should be obtained from them at the earliest possible date, as to the correctness of the disputed pay-lists.

I must renew my suggestion of July 24, 1894, that these unreceipted wages be charged up in the meantime to the salary-accounts of the officers who made the false signatures.

You will notice, by page A-55 of my report for 1892-93, that I explicitly refused to certify the charging of the pay-lists in question to the parliamentary appropriation for Dredging.
. I am, sir, your obedient servant,

## Esquimalt: Dockmaster acts as Agent for Paint Company.

Audit Office, Ottawa, January 8, 1895.

Sir,-Let me call your attention to the discussion on pages C-394 and C-395 of my report for 1892-93, concerning Esquimalt Graving Dock.

I notice that the two irregularities there mentioned are continued in the fiscal year 1893-94, namely, the paying of Dockmaster Devereux's daily car fare from Victoria to Esquimalt and back, and the same officer's agency for an outside firm. The vouchers read as follows :-

> John Devereux (by permission agent for Suter, Hartmann \& Ralitzer, at the Graving Dock only), anti-corrosive paint, $4 \frac{1}{2}$ cwt. at $\$ 30,3$ cwt. at $\$ 37.50$
> $\$ 24750$
> National Tram-Car Co., tickets for Dockmaster to and from Esquimalt, April 27, 1893, to Mar. 7, 1894, 300 dys. at 17 c
> 5100

Please describe any steps you may have taken during the year to obtain authority for these payments.

The objections are the same as those of last year : that under the Audit Act, an Order in Council is necessary before a revenue officer can engage in outside business; and that daily car fare to one's work is an addition to salary, and should not be paid for a permanent officer.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, $A . G$.

## Chaudière Bridge: Granite Roadway at Hull End.

## Public Works Dept., Ottawa, Dec. 21, 1893.

Sir,-I have to request the passing of the following transfer entry: Traffic Bridges. throughout the Dominion, Dr.: To Ottawa City Bridges, \&c., $\$ 3,127$; being the sum of three payments to the Canadian Granite Co.

In the preparation of the estimates for these appropriations it was not intended that the above work should be charged to Ottawa City Bridges, the greater part of it having been placed entirely beyond the limits of the city.

I am, sir, your obedient servant,
The Auditor General.
O. DIONNE, Acct.

Audit Office, Ottawa, Dec., 23, 1893.
Sir,-Let me acknowledge receipt of your letter of Dec. 21, asking for a transfer of expenditure of $\$ 3,127$, crediting the vote for " Bridges, Ottawa City, over the Ottawa. River, the Slides, the Rideau Canal and approaches thereto"; and charging the vote for "Traffic Bridges built by Government throughout the Dominion : Repairs."

The wording "Repairs to Traffic-Bridges" might perhaps be general enough to cover the Canadian Granite Co.'s account of $\$ 3,127$, for Bridge-Approaches, in the absence of a more specific vote. But when there is a vote which mentions "Approaches to Bridges over the Ottawa River," the service can be charged to no other vote. The intention of Parliament must be respected, in limiting the described services to $\$ 6,500$.

The fact that most of the granite-paving is in Hull does not, I think, conflict with the wording of the vote for "Bridges, Ottawa City, over the Ottawa River, and approaches thereto."

For the reasons above, I do not feel at liberty to pass the transfer entry requested. I am, sir, your obedient servant,

# Auditor General's Report-Part P' 

## Chief Engineer's Office, Ottawa, Dec. 27, 1893.

Sir,-Mr. Dionne, the Accountant of the Department of Public Works, has handed me your letter of the 23 rd inst., relative to a transfer entry of $\$ 3,127$ from the appropriation "Bridges, Ottawa City, \&c.," to the appropriation "Traffic Bridges, \&c."

While I admit that you may not, on the face of the explanation, or perhaps owing to the lack of information given by the Accountant, feel justified in making the transfer in question, I hope to venture that the following will make the question perfectly clear to you :-

The appropriation " Bridges, Ottawa City, over the Ottawa River, the Slides, the Rideau Canal and approaches thereto " is an appropriation of $\$ 6,500$, same as last year. It is intended to cover the expenditure incurred in ordinary repairs on the Ottawa City bridges under the control of this department, such as painting, renewing flooring, \&c., and in maintaining the approaches leading to these bridges. That appropriation was not intended to cover the cost of permanent improvements such as the paving which was done with the amount of $\$ 3,127$ paid by mistake out of that appropriation to the Canadian Granite Co.

On the other hand the appropriation "Traffic Bridges built by Government throughout the Dominion : Repairs," is a new appropriation which was specially asked from Parliament to permanently improve the bridges and approaches thereto, and can very properly serve in paying the account of the Granite Co.

I give you this explanation as a matter of fact and not to force your hand in granting the transfer entry.

I may add that unless the transfer is made, the further maintenance of the approaches to the Chaudière Bridge, the Dufferin and Sappers Bridges and the Maria Street Bridge must be discontinued until the lst July next, and you no doubt know how great would be the damage caused to the public if that course was adopted.

Trusting that you will see the justice of my remarks, and grant the transfer in question,

I am, sir, your obedient servant,
The Auditor General.

## Chief Engineer's Office, Ottawa, Jan. 17, 1894.

Sir,-I desire to call your attention to my letter of the 27th December last, relative to a transfer entry of $\$ 3,127$ from the appropriation " Bridges Ottawa, City, \&c.," to the appropriation " traffic bridges, \&c.," which letter has not been answered.

The above amount is absolutely required for the maintenance of the Chaudière bridges and approaches, and I am informed that unless these bridges are attended to without delay serious damage may result.

I contend that you have not any right to refuse the transfer entry ; and in case you should persist on your own authority to do so, I must by this letter disclaim any responsibility in the matter and throw upon you any responsibility for any accident to persons or property which may result from the fact that these bridges are not properly looked after.

I am, sir, your obedient servant.
The Auditor General.

## LOUIS COSTE, Chief Engineer.

## Audit Office, Ottawa, Jan. 18, 1894.

Sir,-My reason for not answering your letter of the 27 th ult. re transfer from the appropriation "bridges Ottawa City \&c." to that for " traffic bridges built by the Government throughout the Dominion : Repairs," was that I could not change the position which I took in my previous letter.

I thought that in the conversation which we had after the receipt of your letter of the 27 th December you understood that my position was unchanged.

I see quite clearly that I must bear the responsibility for declining to pass an application for a transfer of expenditure, from an appropriation under which the expenditure was properly made if the appropriation had been sufficient in amount, to one which did not authorize the expenditure in question. I trust, however, that I shall not be held responsible for an insufficient appropriation or for want of care in making expenditure, one of which must be the cause of your present difficulty.

I am, sir, your obedient servant,
The Chief Engineer, Public Works Dept.
J. L. McDOUGALL, A.G.

## Accountant's Office, Ottawa, Jan. zē, 1894.

Sir, -When applying, on the 21 st December last, for a transfer of the Canadian Granite Co.'s account, $\$ 3,127$, from "Ottawa City Bridges" to "Traftic Bridges" appropriation it never occurred to me that I was in any way ignoring the "intention of Parliament." I thought on the contrary, that Parliament, in granting the vote for traffic bridges, intended to authorize this department to use same whenever required.

The fact that an annual vote for maintenance of the "Ottawa City Bridges," is granted, does not deprive the department of its right to use the general appropriation in defraying expenditure for extraordinary repairs not provided for by the specific vote.

The department at whose request the votes are granted is, it will be admitted, as good a judge of the intention of Parliament as any one else.

Now the amount referred to being required to carry on urgent works and this department holding they have a right to use same for the purposes for which it was voted, I have to state, for your information, that the transfer asked for has accordingly been made in our books.

I am, sir, your obedient servant,
The Auditor General.
O. DIONNE, Accountant.

Audit Office, Ottawa, Jan. 26, 1894.
Sir,-I forward to you, inclosed, a copy of a letter received by me to-day from the Accountant of the Public Works Department concerning a Transfer asked for by him, which this office declined to make, giving reasons in writing for declining.

Please let me know without delay whether the views and action of Mr. Dionne are to meet with the approval of the Department.

I draw your attention to the gravity of this transaction. I need only add that should any over-expenditure result from it I shall feel obliged, so far as this cffice is concerned, to cancel your Departmental Credit. I need not remind you how appeals from my decisions are made.

All letters to me involving anything beyond routine matters should emanate from the Secretary's Branch or be signed by yourself, as a guar nntee that the action is part of the policy of the responsible Deputy-Head.

I am, sir, your obedient servant,
The Deputy Minister, Public Works Dept.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, Feb. 9, 1894.
Sir, -In reply to your letter of the 26 th January, I have the honour to inform you that I am secking the advice of the Department of Justice in reference to the view that you take of the transfer which we propose to make from one appropriation to another of the suas expended for the repaving of the Hull approach to the bridge over the ©ttawa River at Chaudiere Falls. In reference to the last paragraph of your letter, I desire your attention to the fact that you yourself invited correspondence from the

## Auditor General's Report-Part P

accountant of this department, as your letter of the 23 rd December was addressed to him and naturally called for an answer from him. Any correspondence addressed to me is always answered by me.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

Audit Ofhice, Ottawa, Feb. 22, 1894.
Sir,-LLet me acknowledge receipt of your 87623 of Feb. 9, stating that you are seeking the advice of the Department of Justice concerning the transfer of the Canadian Granite Company's account.

The Audit Act, as you are aware, makes the Treasury Board the only reverser of my decisions : and a formal over-ruling from them will be necessary before the transfer can be made.

Having a very decided opinion on a point, I could not act in a direction which would indicate an opposite opinion unless I was relieved from responsibility by the regularly constituted authority.

The opinion of the Department of Justice will be sought by the Treasury Board after the receipt of your appeal, independently of any communication between your department and that of Justice.

The Accountant's letter of Dec. 21, asking for the transfer, was one of routine. That of Jan. 25, announcing that he took upon himself the prerogatives of the Treasury Board, was evidently not one of routine. Hence my comments on the signature.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. MoDOUGALL, A.G.

## Public Works Drpt., Ottawa, Feb. 28, 1894.

Sir,-In reply to your communication dated the 22nd instant, acknowledging my letter of the 9 th concerning the transfer of the Canadian Granite Company's arcount, I an directed to state that we have sought the opinion of the Department of Justice; that their decision is against our contention, and that the transfer referred to will not be made.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

## D. A. McLaughlin: We do not know what his prices include.

Audit Office, Otrawa, Jan. 8, 1894.
SIr,-Let me call your attention to page C-403 of my Report for 1892-93, with reference to the accounts of Mr. D. A. McLaughlin for blue prints and photographs.

I should like to have an answer to my letters of February 20, and December 5, 1893, and January 25, 1894, asking how much of the materials and instruments are supplied by Mr. McLaughlin, in addition to his time.

I am, sir, your obedient servant.
The Secretary, Public Works Dept. 227
1-15 $\frac{1}{2}$ P

J. L. McDOUGALI, A.G.

## Salary paid to Officer who owes the Dominion.

Audit Office, Otrawa, Dec. 5, 1893.
Sir,-Let me call your attention to an item of Arrears of Hydraulic Rents, shown on page F-42 of my report for 1891-92 :-
D. Carmichael, Calumet
$\$ 70000$
If this is the D. Carmichael who receives $\$ 480$ a year as Deputy Slidemaster at Calumet, it would be well to arrange with the Public Works Department for an off-set of a portion of his monthly salary, until the debt of $\$ 700$ is extinguished.

I am, sir, your obedient servant,
The Secretary, Treasury Board. J. L. McDOUGALL, A.G.

Finance Dept., Ottawa, Dec. 27, 1893.
Sir,-I regret that owing to my absence from Ottawa, vour letter of the 5th instant, respecting the arrears of Hydraulic rent at Calumet was laid aside for the time, and only yesterday was brought to my attention.

Before taking up the matter, may I ask under what section of the Audit Act you make this reference to the Treasury Board?

Yours truly,
The Auditor General.
J. M. COURTNEY, D.M.F.

## Audit Office, Ottawa, June 7, 1894.

Sir,-I regret that your letter of December 27 has been overlooked, asking under what section of the Audit Act the question of Duncan Carmichael's arrears was referred to the Treasury Board.

The authority under which this step was taken is shown on page 6 ot the preface to my report for 1885-86, being a letter from the Deputy Minister of Justice, advising that off-sets be referred to the Treasury Board separately, instead of being dealt with under a general rule.

I notice that Mr. Carmichael has been superannuated at $\$ 392$ from April 1, 1894.
I am, sir, your obedient servant,
The Secretary, Treasury Board.
J. L. McDOUGALL, A.G.

## Votes Overdrawn by Departmental Cheques.

Audit Office, Ottawa, May 9, 1894.

Sir,-Let me acknowledge receipt of your application No. 714 for $\$ 68,877$ in favour of the Bank of Montreal, for cheques drawn by your department in April.

After entering up this expenditure against the several votes, I find overexpenditures as follows :-

Lighting Dominion Buildings............. 1,131 10
Harbours, Maritime Prov. Generally..... 12671
Rimouski Pier...... . . ....... ......... 2452
Cobourg Breakwater................................ 411

The over-drafts for "St. John Custom-house" and "Lighting Dominion Buildings" are by arrangement with the Minister of Finance. Please let me have explanations concerning the others. Were the provisions of the Order in Council of July 7, 1892,

## Auditor General's Report-Part P

observed, which requires the Accountant to notify the Deputy Minister? (See page A-19 of my report for 1892-93.)

It is perhaps unnecessary for me to point out that no more expenditure should be made for these services until authority is obtained.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

Audit Office, Ottawa, June 29, 1894.
Sir,-Let me acknowledge receipt of your application No. 751 for $\$ 21,979.99$ in favour of the Bank of Montreal, to repay the May expenditure of Messrs. Gamble and Macdonald in British Columbia.

The item of $\$ 398.25$ for "Harbours and Rivers, British Columbia Generally," when added to the $\$ 2,640.16$ already spent, will make $\$ 3,038.41$, an excess of $\$ 38.41$ over the vote.

Please draw the attention of the proper officer to this irregularity: and see that his methods are amended so as to prevent a similar occurrence in future.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Feb. 7, 1895.
Sir, --Let me call your attention to my two letters of May 9 and June 29, 1894, with reference to votes over-expended by you in 1893-94. The explanations asked for have not yet been furnished.

Your December expenditures overdrew the following votes: "Renewals, Mari"time Provinces," by $\$ 72.29$; "Renewals, Quebec," by $\$ 111.67$; and "Cow Bay" by \$91.38. The same information is necessary, to wit: why were the over drafts allowed, and did the Accountant notify the Deputy Minister that the votes were exceeded?

The application No. 336 for $\$ 500.75$ in favour of Goldie \& McCulloch, for a safe for Lethbridge custom-house, is another instance in which the prescribed limit of expenditure has been disregarded, Had it been allowed to go through by this office there would have been an over-expenditure of $\$ 40.30$; and moreover, your department paid $\$ 25.50$ additional, at a subsequent date, making $\$ 65.80$ of an over-draft in your own books, on a vote for $\$ 600$.

When sending over your statement of expenditure under letter-of-credit for January, 1895, please collect into a separate application whatever items of over-expenditure there may be; and support each item by the Accountant's letter of previous notification to the Deputy Minister, which is prescribed by the Order in Council of July 7, 1892.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.

> J. L. McDOUGALL, A.G.

## Public Works Dept. making all payments through letter-of-credit.

Audit Office, Ottawa, Jan. 10, 1895.
Sir,-I learn that you are now paying contractors under your letter-of-credit, in stead of by Receiver General's cheques on application to this office.

The letter of-credit system has been greatly extended since the establishment of this office, and it appears to me that the extension has conduced to the convenience of both the public and the service. With payments so numerous as they are in closing the purchases of the various departments, it is advisable that payment should be made by the several departments where the transactions are simple and of a routine character, and that therefore delay should occur only when delay is necessary.

Postponement should take place only when there may be differences of opinion between the department and the Audit Office. With this view the credit cheque of the departments has taken the place of the Receiver General's cheque with reference to almost all of the public expenditure except the payment of contractors for works executed under the Railways and Public Works Departments.

It appears to me advisable that we should not go any further, because with both departments the differences of opinion between the departments and the Audit Office are frequent, and therefore there is necessity for the approval of the Audit Office before payment.

Then a recent decision of the Exchequer Court in a case between Murray \& Cleveland and the Railway Department has an important bearing on this. If I have interpreted the decision correctly, it involves the principle that the allowing of a certain rate for any class of work in a monthly or any kind of progress estimate puts the allowance beyond dispute for that class of work for the whole undertaking. How'necessary then that each estimate should be thoroughly scrutinized before payment.

I trust, therefore, that you will send to this office, as heretofore, applications for payments under contract.

The Secretary, Public Works Dept.

> I am, sir, your obedient servant,

> J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Jan. 23, 1895.
Sir, -With reference to my letter to you of the 10 th instant to which $I$ have notreceived an answer, I beg to say that I shall be unable to renew your letter-of-credit until the matter has been settled.

I am, sir, your obedient servant, The Deputy Minister, Public Works Dept.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, Jan. 23, 1895.
Drar Sir,-I have the honour to acknowledge the receipt of your letter of the 23 rd instant informing me that, until you have received an answer to yours of the 10th to me, you shall be unable to renew the letter-of-credit of this department. I beg to state in reply that I am just now preparing such a reply which I hope to be able to send to you shortly, but that, meantime, I desire to leave entirely to your responsibility any trouble which may occur on account of your refusal to renew the said letter-of-credit.

I am, sir, yours very truly,
The Auditor General.
A. GOBEIL, Deputy Minister.

Public Works Dept., Ottawa, Jan. 26, 1895.
Sir,-In further reference to our correspondence respecting the renewal of the letter-of-credit of this department and your refusal to renew the same until certain matters at issue between your office and this department are adjusted, I beg to state that the credit on which this department has been drawing during the past month is nearly exhausted and, when the end of the month is reached, there will not be enough money to pay for the salaries of the employees and for those of the firemen, engineers, caretakers, dc., in the outside buildings. The stoppage of the payment of those men for any indefinite period, will be, in many cases, very disastrous, and I will propose to you that you shall issue a portion of the letter-of-credit applied for by me, upon the understanding that, until our difficulty is settled, I shall not issue any cheques for the payment of contractors.

I am, sir, your obedient servant,
The Auditor General,
A. GOBEIL, Deputy Ministor.

## Auditor General's Report-Part P

Audit Office, Ottawa, Jan. 28, 1895.
Sir,-I beg to inform you that a credit for $\$ 100,000$ is now being issued in favour of your department upon the conditions proposed in your letter of the 26th instant, viz., that you should not issue any cheques for the payment of contractors against it.

I am, sir, your obedient servant,
The Deputy Minister, Public Works.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, Feb. 8, 1895.
Sir,-In reply to your letter dated the 28th ultimo, stating that a credit for $\$ 100,000$ is being issued in favour of this department upon the conditions proposed in the Deputy Minister's letter of the 26th January, viz., "that we should not issue any cheques for the payment of contractors against it," I am directed to say that, as agreed, all applications for payments to contractors are now sent to your office, pending the Minister's decision on the point raised.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

## Auditor General's Report-Part P

## Re Sales of Sundry Materials,

Audit Office, Ottawa, Jan. 15, 1894.

Sir,-I am returning herewith for the necessary receipts and certificates the papers in connection with sales of property at Nanaimo and New Westminster, B.C., and at St. Etienne, Que.

The auctioneer's statement should be signed by him and certified by the agent of the department under whose directions the sale was made. The vouchers for advertising should state the number of lines and the number of insertions, and a clipping from the paper containing the advertisement should be furnished. All advertising accounts should be certified by the Queen's Printer.

Does it seem to you advisable to expend $\$ 33.29$ in advertising a sale, the gross receipts of which only amounted to $\$ 65$ ? Is it impossible to make a regulation limiting the cost of advertising to a certain percentage of the departmental valuation of the goods to be sold by auction?

An auctioneer should be required to deposit the gross receipts of his sales, and send in the bills for expenses, certified by him and the agent of the department. When examined and approved in the department and the advertising accounts certified by the Queen's Printer, payment could be made by means of the departmental letter of credit, and a charge made against Casual Revenue.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Dept. of Public Works, Ottawa, Feb. 14, 1894.
SIR,-I am directed to return to you, herewith inclosed, the papers in connection with sales of property at Nanaimo and New Westminster, B.C., and at St. Etienne, P.Q., duly certified and receipted as requested by you in your letter of the 15 th ultimo. I am, sir, your obedient servant,
E. F. E. ROY, Secretary.

Audit Office, Ottawa, Feb. 16, 1894.
Sir,-I am in receipt of your letter of the 14 th instant inclosing vouchers in connection with certain sales of materials which had been returned to you from this office on January 15 for completion. You overlooked having the advertising accounts certified by the Queen's Printer. Two of these accounts do not give particulars as to number of lines and number of insertions, and are not receipted.

I am returning all the advertising accounts herewith.
I am, sir, your obedient servant,

> J. L. McDOUGALL, A.G.

Audit Office, Ottawa, June 22, 1894.
Sir,-With reference to your letter of the 16th February last, in connection with certain accounts for advertising the sale of old dredge materials in British Coliambia, I now return you the accounts from the Nanaimo "Free Press" and the Vancouver "World," duly certified by the Queen's Printer, together with deposit receipts for $\$ 1.80$ and $\$ 9.35$ respectively being refunds of the amounts paid these papers for insertions in excess of the number allowed by Order in Council.

Our resident engineer reports that he has been unsuccessful in obtaining refunds from the New Westminster "British Columbian," and the Vancouver "Daily and Weekly News."

I am, sir, your obedient servant,

Audit Office, Ottawa, June 23, 1894.
Sir, -I am in receipt of your letter of June 22, returning two of the advertising accounts in connection with the sale of old dredge materials, and deposit receipts for refund of the overcharges on them.

You state that the resident engineer reports that he has been unsuccessful in obtaining refunds from the other newspapers. If he does not succeed in getting these newspapers to refund the amounts overcharged, you should instruct him to return the accounts to your department, and deduct the amounts overcharged from the next payments made to them.

> I am, sir, your obedient servant, J. L. McDOUGALL, A.G.

Audit Office, Ottawa, April 18, 1894.
Sir,-I am returning, for the necessary certificates of the proper officers, the following vouchers received with your letter of the 17 th instant, viz. :-
(1) For sale of old iron at St. John, N.B.
(2) For sale of old plaster boilers at Ottawa.

1 wrote you June 15, 1893, as to the class of certificate that should be furnished when it is deemed advisable to sell Government property without being advertised and sold by public auction.

Were tenders for the old iron sold at St. John asked for by advertisement? If not, were tenders asked for from any others than the firm to which it was sold?

I am, sir, your obedient servant.
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

## Re Slide and Boom Dues.

Dept. of Public Works, Ottawa, December 16, 1893.
Sir,-Having reference to your communication dated the 20th ultimo, asking for a reply to your letter of the 23 rd of May last, inquiring what progress bad been made towards the securing of payment of the balance due by Messrs. Price Bros. \& Co., for slide and boom dues on the Saguenay River, P.Q., I am directed to say that the above gentlemen have requested for delay in payment on account of a counter claim they state they have against the Department of Marine.

> I am, sir, your obedient servant,

The Auditor General.
E. F. E. ROY, Secretary.

Audit Office, Ottana, March 5, 1894.
Sir,-The Messrs. Price Bros. \& Co., owed in 1892, $\$ 8,900.03$ for slide and boom dues on the Saguenay. Two years dues amounting to $\$ 1,162.69$ since accrued, remain unpaid. The reason given for non-payment was that they had a contra claim against the Department of Marine. You wrote September 6, 1892, that payment would be enforced as soon as possible. You wrote again (Dec. 16, 1893) that they ask for further delay for the same reason. Don't you think it is time that this matter should be disposed of? Have you inquired from the Department of Marine as to this claim of Messrs. Price Bros. \& Co., whether it is undisputed or not, and the probable time of payment. I shall be glad to be informed what further action you are taking.

> I am, sir, your obedient servant,

## Auditor General's Report-Part P

Dept. of Public Works, Ottawa, April 4, 1894.
Sir,-In compliance with the request contained in your letter of the 5th ultimo, in $r e$ the action taken by Messrs, Price Bros. \& Co., for dues on the Saguenay Slide, I have the honour to send you, herewith inclosed, a copy of a letter from the above mentioned firm, giving explanations of the delay.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

Quebec, January 8, 1894.

## E. F. E. Roy, Esq., <br> Secretary Public Works Department, Ottawa.

Dear Sir,-Your favour of the 16 th ultimo addressed to Chicoutimi, came to hand a few days past, contents duly noted.

When writing the Hon Sir A. P. Caron in February last we were under the impression that our Mr. Price would be in attendance at Ottawa during a portion of the late Session of Parliament; unfortunately, he was an invalid all winter and spring and unable to attend. This winter sickness has again compelled him to leave for England earlier than usual. On leaving he expressed the hope of being in a position to visit Ottawa the coming Session.

We have therefore, once more, to ask that the account be allowed to remain in abeyance until Mr. Price reaches Ottawa, when our contra claim and your department's account can be adjusted, we trust satisfactorily.

Yours truly,
PRICE BROTHERS \& CO., Per Amos J. Colston.

## Audit Office, Ottawa, November 5, 1894. <br> Re Arrears Slide and Boom Dues.

Sir.-I am in receipt of your letter of October 31, inclosing statement of arrears of slide and boom dues.

You do not state that these are all the arrears due to your department. If there are any other, please send a statement of them as soon as possible.

The following new items have been added to the arrears due last year:-

and the amount against Hall, Neilson \& Cu., $\$ 1,440.90$ for dues on the St. Maurice River, his been paid.

It is noted on the statement that the items $a, c$ and $d$ are disputed and have been referred to the Department of Justice. Please state the grounds on which payment of these dues is disputed. As Pri e Bros. owe $\boldsymbol{r}$ large amount of arrears for many years, for which you wrote Sept. 6, 189:2, th at payment would be enforced, explain why the dues which accrued last year have not been collected.

I shall be ;lad to know what action you purpose taking in reference to the difficulty with Mr. Booth. As the matter stood when your application in his favour came before me, I felt bound to refuse to pass it on account of the arrears standing against him. If you considered I was wrong, you should have submitted the case to the Treasury Board. If Mr. Booth has a just claim against your department for damages
owing to the breakage of a boom, provision for its payment should be made in the Estimates. The practice of allowing a person holding a claim against the Government to secure payment of it by retaining fees due by him is manifestly highly irregular.

I am, sir, yonr obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

## Re Sale of Lot, Three Rivers.

Audit Office, Ottawa, March 21, 1894.
Sir,-On your Return No. 86 of bank receipts forwarded to the Receiver General, I find the following items, viz. :-
$\$ 600$.-Sale of land at Three Rivers.
$\$ 38.71$. -Toronto Post Office.
No further vouchers nor explanations have been furnished. Please have them forwarded.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Dept. of Public Works, Ottawa, April 7, 1894.
Sir,-Having reference to your letter of the 20th ultimo, respecting Return No. 86 of bank receipts forwarded to the Receiver General, and asking information in connection with two items, viz. :
$\$ 600$, sale of land at Three Rivers, and $\$ 38.71$, Toronto Post Office, I have the honour to send you, herewith inclosed, a copy of our Chief Accountant's memo. in connection with the same.

> I am, sir, your obedient servant,

The Auditor General.
E. F. E. ROY, Secretary.

Re Sale of Lot, Three Rivers.
1st.-Sale on 13th June, 1893, as per deed No. 2343 of "Cadastral lot No. 1126, in Notre Dame Ward, in the city of Three Rivers," area " 1 acre 3 roods 20.06 perches."

Re Toronto Post Office.
2nd.—\$38.71, being amount refunded by Samuel Fitzgerald, fireman, Post Office, Toronto, on account L. C. cheque No. 77090 of lst June, 1893, portion of salary overpaid for May, '93. 27-3-94. O. DIONNE, Accountant.

Audit Office, Ottawa, April 9, 1894.
SIr,-I am in receipt of your letter of the 7 th instant in re the sale of lot No. 1126 Notre Dame Ward, Three Rivers.

You do not state the authority of this sale; whether by Order in Council or otherwise ; nor if sold by private sale or auction. Please let me have all the papers in reference thereto.

I am, sir, your obedient servant,
The Secretary, Public Works Dept. J. L. McDOUGALL, a.G.

## Auditor General's Report-Part P

Public Works Dept., Ottawa, April 18, 1894.
Sir,--In reply to your letter dated the 9 th instant, applying for information respecting the sale of lot No. 1126 in Notre Dame Ward, Three Rivers, to La Banque du Peuple of Montreal, I have the honour to inform you that the Clerk of the Privy Council and the Under Secretary of State have, this day, been requested to forward to you, the former a certified copy of the Order in Council authorizing the sale of the above lot, and the latter a certified copy of the grant itself.

I am, sir, your obedient servant,
The Auditor General.

E. F. E. ROY, Secretary.

Audit Office, Ottawa, April 26, 1894.
Sir,-In connection with my inquiries in reference to the sum of $\$ 600$ that recently came to account, I am now in receipt of a copy of an Order in Council dated June 13, 1893, authorizing the sale of lot No. 1126, Three Rivers, to the Banque du Peuple. This sule seems to have been made to enable the bank to dispose of contiguous property, assigned to the bank by Hall, Neilson \& Co.

It would be much more satisfactory if copies of Orders in Council affecting the revenue were promptly furnished to this office, instead of months after their date, when their existence becomes known incidentally.

I have now to inquire if the opportunity arising out of the selling of this lot was taken advantage of to secure payment of the bond of this bank guaranteeing the payment of $\$ 1,440.90$ due by this firm for slide and boom dues?

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Note by A.G.- $\$ 1,440$ was deposited to credit of Receiver General, August 29, 1894, and credited to accounts 1894-95.

## Re Rivière du Lièvre Lock.

Audit Office, Ottawa, March 1, 1894.
Sir,-In your letter of March 20, 1893, you stated that the lockmaster of the Rivière du Lièvre lock had been instructed to furnish a monthly statement, after the form furnished by this office, which would be examined in your department and certified by the accountant.

I have not received any statements of the fees collected during the season of 1893, nor do I find that any amount has come to account.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, March 28, 1894.
Sir,-Having reference to your letter of the 1st instant, I have the honour to inform you that the statement of fees collected during 1893, in connection with lock Rivière du Lièvre, P.Q., has just been received and will be sent in to your office in a few days.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

Audit Office, Ottawa, Dec. 3, 1894.
Sir,-On March 28th last you wrote that the statement of fees collected at the Rivière du Lièvre lock during 1893, had just been received and would be sent to this office in a few days.

These returns have not been furnished. Neither have any returns for the season just closed come to hand; and no fees for either year have come to account.

I shall be glad to hear from you at an early date, in order that your letter in explanation of the absence of these returns and fees may appear in the Audit Report.

> I am, sir, your obedient servant,

The Secretary, Public Works Dept.
J. L. McDOUGALL, $A . G$.

Audit Office, Ottawa, February 22, 1895.
Sir,-I have received your letter of yesterday inclosing returns of the fees collected by the lockmaster of the Rivière du Lièvre lock from April, 1893, to November, 1894, amounting to $\$ 986.70$ which was deposited in the Bank of Montreal here on the 7 th instant.

The returns are not certified by the lonkmaster, and there is nothing on them to indicate to whom he remitted or paid over the money.

The Treasury Board has directed that a deposit or remittance shall be made daily if the receipts amount to $\$ 25$, otherwise whenever that sum is on hand.

You stated in your letter of March 20, 1893, that the lockmaster had been instructed to make monthly returns ; and in your letter of March 28, 1894, that the rcturns for 1893 had reached your department.

I have now to ask for an explanation of the delay in forwarding the returns of this office and why the receipts have not come regularly to account, in accordance with the Treasury regulations. Please state when the various receipts left the lockmaster's hands, and to whom they were paid.

I am, sir, your obedient servant,
The Secretary, Public Works Department. J. L. McDOUGALL, A.G.

## Audit Office, Ottawa, February 25, 1895.

Sir,-I regret to have to inform you that there appears to have been a serious irregularity in connection with the Public Works revenue of Lièvre lock.

The revenue seems to have been handed from time to time during two years by the lockmaster to Mr. F. M. Hamel, the assistant chief engineer, while all of it remained in the hands of the latter until it was handed by him in one amount of $\$ 986.70$, about the 7th instant, to the Deputy Minister of his department, who caused it to be deposited to the credit of the Receiver General.

I shall forward later correspondence with the Public Works Department on this subject.

I am, sir, your obedient servant,

## Auditor Generals Report-Part P

## Audit Office, Ottawa, February 25, 1895.

Sir,-Referring to my letter of this date re delay in depositing the collections at Rivière du Lièvre lock during the past two seasons, I am sending you herewith a copy of the correspondence with the Department of Public Works on the subject.

I am, sir, your obedient servant,
The Secretary, Treasury Board.
J. L. McDOUGALL, A.G.

Dept. of Public Works, Ottawa, March 9, 1895.
Sir,-I am directed by the Hon. the Minister of Public Works to acknowledge the receipt of your letter of the 22nd ultimo having reference to the delay in the return made to you of the fees collected for the use of the lock, \&c., at the Rivière du Lièvre during the years 1893 and 1894.

In reply I am to state that the matter has been laid before the Hon. the Minister, as is shown by the memorandum, a copy of which is sent for your information and contains a reply to the questions made in your letter, both as regards the dates at which the various amounts were received which form the total of the fees for these two years, as well as the explanation of the receiving officer, Mr. Hamel, for the delay which has occurred in the forwarding of his return.

You will also see by that memorandum that a change has taken place in the mode of collecting the revenue of the various works under the control of this department whereby the said collection is centralized into the hands of one officer, who has no other duties to perform but to attend to the said collection, and from whom the department will hold a satisfactory and adequate guarantee.

As regards the officer whose culpable neglect has been the cause of the present incident, the Hon. the Minister while taking the above measures which will prevent the recu rence of the same irregularities in future, had the whole correspondence placed before him in order that he may deal with the question as he may think best and most advisable in the interest alike of the service and of the discipline of the department.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

Department of Public Works, Ottawa, March 5, 1895.
Memorandum io the Minister.-I have the honour to submit to you the following facts in reference to the returns made to the department of the fees collected by the Lock Master on the Rivière du Lièvre for the use of that work from the beginning of the year 1893 to the end of the year 1894, the said dues amounting to $\$ 986.70$.

On the 18th July, 1893, the Auditor General wrote to the department calling attention to the fact that a deposit of $\$ 102.17$ had been made for the part of the year 1892 during which dues had been collected, but that nothing for the beginning of the year 1893, at the time of his writing, had come to account, and he inquired whether any fees were collected during the season then current. This letter, which was addressed to the Secretary by the Auditor General, was referred by the former to the Chief Engineer who noted on it that he would attend to the matter at once.

The Chief Engineer states that he then called the attention of the officer, Mr. Hamel, to whom the dues were remitted by the lock master, and Mr. Hamel stated that he would make his return immediately.

Matters, however, remained in abeyance until the month of March, 1894, when a second letter was received from the Auditor General calling the department's attention to the fact that $n$ n dues had been remitted for the past year, and asking the reason of the delay. This letter, which was also addressed to the Secretary, was again referred by him to the Chief Engineer who again called the attention of Mr. Hamel to the delay, and as a result of an interview with the latter, reported that the returns had been received and the dues would be forwarded in a few days. The Auditor General was informed of the fact on the 20th March, 1894.

Again no action was taken, and on the 3rd December last, the Auditor General wrote once more stating that the returns promised by the March letter had not been furnished and that he would require an explanatory letter with the returns at an early date.

The Chief Engineer again pressed the matter on Mr. Hamel and wrote to him on the 10th December to forward the returns in question without further delay; but having to leave shortly afterwards for Halifax, in connection with the funeral of the late Sir John Thompson, he was prevented from taking any action in the matter until his return, and on the 6th February last, I was informed by him that Mr. Hamel had, on that day, made a full return of the fees collected for the years 1893 and 1894.

These fees, amounting to $\$ 986.70$, were handed to the Chief Engineer on the 6th, and in turn passed to the Secretary, who got the Accountant to deposit them to the credit of the Receiver General, which was done on the 7th February, the day following.

As there seemed to have been gross neglect in the matter Mr. Hamel the officer of the Chief Engineer's office charged with the returning of those fees, was asked by the Chief Engineer, at my request and by your orders, to give an explanation of the delay, and in his letter to that effect of the 12th February last, Mr. Hamel states that the returns and moneys collected as fees for the Rivière du Lièvre were received by him between the 5th and 10th day of the month following the date of each monthly return. He further adds that his intention was to prepare a comparative statement for the years 1893 and 1894 of each class of goods, merchandise and minerals passing through the locks, but that owing to his numerous duties when at headquarters and frequent absence from Ottawa on official business, he was unable to do so. He also adds that he delayed to forward the statement until such time as the classification above referred to was completed, but that the dues were received by him in currency and were at all times in his possession and at the disposal of the department.

In connection with the collection of the revenue on that work for the now current year, I beg to inform you that in accordance with your orders, the collection of the whole revenue accruing to this department, for the various works under its charge, has now been cenıralized into the hands of the present Collector of Slides and Booms dues, who has already given to the department a guarantee bond which he will be asked to replace by one of say $\$ 8,000$ of a regular Guarantee Company, and special and definites instructions and regulations are being prepared for your approval, in order to make sure that hereafter there may be no delay nor irregularity in the collection of all the revenue of this department.

I attach hereto the correspondence in the department in this matter, in which you will find the letter of explanation from Mr. Hamel, to which I have already referred in this memorandum : in order that you may have before you all the references required to take the action necessary in the cass.

I may add that, in accordance with your orders, Mr. Hamel was suspended from the performance of his duties on the 4th instant.
A. GOBEIL, Deputy Minister, P.W.D.

Audit Office, Ottawa, March 13, 1895.
Sir,-Referring to your letter of the 9th instant, and inclosure, I have to ask for a copy of Mr. Hamel's letter of February 12th, referred to in the memorandum, to the Minister of Public Works. I have also to ask for a copy of any other correspondence you have in reference to the matter.

I am, sir, your obedient servant,
The Secretary, Public Works Dept.
J. L. McDOUGALL, a.G.

## Auditor Generals Report-Part $\mathbf{P}$

## Public Works Dept., Ottawa, March 13, 1895.

Sir, -In answer to your letter of this day asking for a copy of Mr. Hamel's letter of February 12th, referred to in the memorandum to the Minister of Public Works, and asking, also, for any other correspondence that we may have in this department in reference to this matter, I beg to say that your letter will be duly submitted to the Minister of Public Works.

I am, sir, your obedient servant,
The Auditor General.
E. F. E. ROY, Secretary.

## Re Arrears Due.

Audit Office, Ottawa, Dec. 11, 1894.
Sir,-I wrote you October 3rd last for a detailed statement of all arrears due to your department on 30th June last, which have not yet been satistied : (1) by collecting officers ; (2) by disbursing officers ; (3) by persons not Government officers.

The only reply I have yet received is your letter of Oct. 31st, inclosing a statement of arrears of slide and boom dues unpaid.

I have to ask your further attention to this subject at your earliest convenience. I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Secretary, Public Works Dept.

Sec. 1 : Excavation, including clearing, grubbing, unwatering and depositing the material as specified.
.c. yds.
Paid in 1893-94 (page Q-28), $\$ 221.81$; in $1894-95, \$ 56.44$.

## Willamsburg Canals-Galops, Upper Entrance.

Murray \& Cleveland-Estimate 59, $t \rightarrow$ Dec. 31, 1894.
6 : Earth excavation, over water line, McLaughlin's Hill
c. yds .
( $5.000 \mathrm{c} . \mathrm{ydg}$. of this item have been paid for a second time in filling at 50 c. per c. yd., $\$ 2,500$, see item C.)
8 : Earth excavation in lock pits and approaches
( $18,721 \mathrm{c} . \mathrm{yds}$. of this item have been paid for a second time in filling at 25 c . per c. yd., $\$ 4,650.25$, see item B. ; 43,443 c. yds. of this item have been paid tor a second time in filling at 50 c . per c. yd., $\$ 21,721.50$, see iten C.)
9: Boulders in excavation (exclusive of No. ?).
( $12,245 \mathrm{c}$. yds. of this item have been paid for a second time in filling at 50 c . per c. yd., $\$ 6,122.50$, see item C.)
13 : Earth excavation, upper and lower entranc $\rightarrow$ guard lock.
$(20,867$ c. yds. of this item have been paid a second time in filling at 25 c . per c. yd., $\$ 5,216.75$, see item B. $; 14,095$ c. yds. of this item have been paid for a second time in filling at 50 c . per c. yd., $\$ 7,047.50$, see item C .)
1: Rook excavation, under water, west of 9 domile road..... .... ( $2,087 \mathrm{c} . \mathrm{yds}$. of this item have been paid for a second time in filling at 50 c . per c. yd., $\$ 1.043 .50$, see item C.)
4 : Earth excavation, over water, west of 9 -mile road. .
16 : Unwatering lock-pits. ............ ...................................... sum
7 : Earth excavation, under water, east of old guard-lock, boulders deducted
$(25,864 \mathrm{c}$. yds. of this item have been paid for a second time in filling at 50 c. per c. yd., $\$ 12,932$, see item C.)
A: Boulders found in excavation under item No. $7 . . .$.
B : Material used in dam
C: Embankment in rear of lockwalls, \&c.
17 : Concrete, guard-lock

18 : Pine timber in foundations
c. ft.

19: String pieces or sub-sills.

28: Wrought iron bolts
lbs.
29 : Segment-plates, angle-iron, \&c
No.
30 : Pressed spikes
Ibs.

25 : White oak timber in mitre sil
c. ft.

21 : Glance timbers and fitting to mitre-sills. c. ft.
l. ft.

31: Masonry in lock walls and extension c. yds. do special agreement ، 6
35 : Puddle in rear of lock walls
b. m .

26 : White oagk plank under steps.
l. ft.

24: Sill pieces under segment-plates. c. yds.

58 : Earth excavation in foundation of weir ( $3,650 \mathrm{c}$. yds. of this item have been paid for as second time in filling at 50 c . per c. yd., $\$ 1,825$, see item C.)
12 : Earth excavation, over water surface, at entrance to guard-lock $(4,557 \mathrm{c}$. yds. of this item have been paid for a second time in filling at 50 c . per c. yd., $\$ 2,278.50$, see item C.)
36: Furnishing and placing stone for protection of bunks........ ".
37: Preparing seat or bench for protection of banks 1. ft.

54 \& 57 : Coffer dams (on bulk sum of $\$ 500$ )
Lock gates and their equipments-
39: White oak timber.
40 : White pine timber.

\section*{Hard Pan Payments: Reason why Passed.}

Audit Office, Ottawa, Oct. 3, 1894.
Sir,-Let me acknowledge receipt of your applications Nos. 114 to 118 for the following payments on account of Cape Breton and Oxford and New Glasgow Railway Hard Pan cases, being balances calculated by Mr. Justice Burbidge :-
\begin{tabular}{|c|c|}
\hline Isbester \& Reid. & \$3,208 00 \\
\hline McNeil, McDougall \& Co. & 4,843 57 \\
\hline McDonald \& O'Brien. & 94000 \\
\hline Stewart \& Jones . & 86000 \\
\hline McManus, Gray \& Trites & 70000 \\
\hline
\end{tabular}

On account of the explanation made to Parliament by the Minister, as shown at page 6522 of the Hansard of 1894, I am passing these applications without delay. I am, sir, your obedient servant, J. L. McDOUGALL, A.G.

The Deputy Minister, Railways and Canals.

\section*{Stores Accounts to be Audited.}

Audit Office, Ottawa, June 4, 1894.
Sir,-LLet me call your attention to the letter of the Minister of Finance, shown at page 5 of the preface to my Report for 1892-93, which directs me to make an audit of Stores Accounts.

Please cause lists to be prepared of all property in the hands of your department on the 30th of June, 1893 and 1894, and statements of Purchases and Issues for the period between those two dates.

In the future, please supply me at regular intervals with statements of the Stores Accounts; and have Stores Ledgers so kept that the Stock-in-hand may be checked at any time.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

\section*{Printing for Government Railways: Queen's Printer's Certificate.}

Audit Office, Ottawa, March 8, 1895.
Sir,-I notice that the vouchers rendered by Maritime Province newspapers for Intercolonial Railway printing are certified by you in one of two forms, either "charges fair and just," or "certified at \$ pending final settlement."

Please explain the full, meaning of these certificates. I should specially like to be informed whether the prices allowed are those for which the work could be done in the Government Printing Bureau at Ottawa, as provided by 56 Vic., cap. 15.

I am, sir, your obedient servant,
The Queen's Printer.
J. L. McDOU ALL, A.G.

\section*{Information needed with Railway Subsidy Payments,}

Audit Office, Otrawa, Nov. 2, 1894.
Sir,-Let me acknowledge receipt of your application No. 181 for \(\$ 28,000\), in favour of the Canadian Pacific Railway Co., being their subsidy on the first ten miles built between Revelstoke and Arrow Lake.

The Order in Council of Oct. 24, with reference thereto, has not yet been received from Mr. McGee.

I notice that we have not been supplied recently with copies of the contracts for railway subsidies. Please revert to your former practice, of furnishing them to me as soon as the contract is made ; and let me have copies of those on which work is now doing, including the one under discussion.

When, as in the present instance, a subsidy is paid at different rates on different portions of the line, I should like to have, with the first certificate, a statement of the proposed division of the whole sum voted.

The engineer's certificate would generally be more intelligible if there were attached to it a rough plan of the railway, with places and distances marked, as far as they refer to the subsidy-payment. The plan need not be scaled.

I am, sir, your obedient servant, The Deputy Minister, Railways and Canals.
J. L. McDougall, \(A . G\).

\section*{Cornwall Canal: New Item for Pitched Stone Facing.}

Audit Office, Ottawa, Dec. 24, 1894.
Sir,-Let me acknowledge receipt of your application No. 261 for \(\$ 16,323.30\), in favour of Wm. Davis \& Sons, being their November estimate on section 2 of the Cornwall Canal.

There is a new item under Special Agreement, as follows: "Pitched stone facing to banks, 800 cubic yards at \(\$ 4.75, \$ 3,800\)." This is supported by a copy of your letter of Aug. 24, 1894, to Mr. Rubidge, in these words: "On secs. 2, 3 and 4 of the Cornwall Canal Enlargement, described in clauses 3 and 5, page 5 of the specification, there is some pitched stone facing to be done, the price for which, agreed upon with Mr. Davis, is \(\$ 4.75\) per cubic yard, at which price you may return it in the monthly estimates."

I should like to be informed whether a similar item is to be found in any of the other contract-schedules.

It is understood that Mr. Justice Burbidge's recent order in the Murray \& Cleveland claim for Galops work, makes the prices in a Progress Estimate more conclusive than we had supposed them to be. For this reason, and because our opinions have already differed as regards the chief engineer's power to fix rates, in the correspondence about the Sheik's Island Dams, it would be well to await the Treasury Board's decision in the latter case, before pursuing another discussion in which a similar difference appears probable.

To avoid unnecessary inconvenience to the Messrs. Davis, I am ready to pass without delay an application reduced by \(\$ 3,420\), if you prepare and forward it.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A. G.

Note by Auditor General.-In consequence of the overruling by the Treasury Board of similar objections in the case of "Sheik's Island Dams," (shown in the preface to this. report), this estimate was passed without further discussion.

\section*{Gilbert Dredging Co. : 15 per cent for loss of Profts.}

\section*{Audit Office, Ottawa, April 7, 1894.}

Sir, - Let me acknowledge receipt of your application No. 397 for \(\$ 29,350\), in
favour of the Gilbert Blasting \& Dredging Co., as their anticipated profit ; being 15 per cent of \(\$ 195,663.62\), the work not to be done on the Cornwall Canal, in consequence of the adoption of the Sheik's Island scheme.

Please send me copies of the reports of Mr. Rubidge and yourself, concerning the amount to be paid.

\section*{Auditor General's Report-Part Q}

Railways and Canals Dept., Ottawa, April 10, 1894.
SIR, -With reference to your letter of the 7th instant, I now send you a copy of my report in relation to the \(\$ 29,350\) in favour of Messrs. E. Gilbert \& Son, Contractors for sections 5, 6, 7, and 8 of the Cornwall Canal, together with a copy of Mr. Rubidge's statement.

Yours truly,
The Auditor General.
COLLINGWOOD SCHREIBER, D. M. \& C.E.

> J. S. WELLER, Res. Engineer. TOM. S. RUBIDGE, Supt. Engineer.

Cornwall, 25th January, 1894.

Railways and Canals Dept., Ottawa, March 15, 1894.
Sir,-I have the honour to report that Messrs. E. Gilbert \& Son are the contractors for sections 5, 6, 7, and 8 of the Cornwall Canal, that by reason of the adoption of the Sheik's Island Dam scheme, parts of sections 5 and 8 and the whole of sections 6 and 7 are abandoned, the value of work remaining to be done under these contracts on the abandoned portions of the canal is \(\$ 195,663.62,15\) per cent on which is, say \(\$ 29,350.00\), which I submit as a fair consideration for the cancellation of the contracts covering these sections of work.

The Secretary, Railways and Canals.
I am, sir, your obedient servant,
COLLINGWOOD SCHREIBER, C.E.

\author{
Audit Office, Ottawa, April 13, 1894.
}

Sir,-I forward herewith, for your consideration, the papers connected with a proposed payment to the Gilbert Dredging Co., for anticipated profits on contract-work under a cancelled plan. The papers are : The Order in Council describing the claim, and giving authority for its payment; and the blank contract-form used by the Department of Railways and Canals.

The cancelled sections are related to the Sheik's Island Channel in this manner :-

A difficulty occurs to me, on which I should like to have your opinion :
Is the claim shut out by paragraph 7 of the contract? The department holds that this paragraph covers only minor alterations.

Please reply at your earliest convenience.
I have the honour to be, sir, \&c.,
Z. A. Lash, Esq., Q.C., Toronto.
J. L. McDOUGALL, A.G.

Toronto, April 17, 1894.
Sir,-I have considered the question submitted in yours of the 13 th inst., with respect to the proposed payment to the Gilbert Dredging Company of a sum in lieu of profit that would have accrued to the contractors had they been permitted to complete the works on the Cornwall Canal in accordance with their contract.

I gather from your letter, and the copy of the Order in Council of the 28th March, 1894, that the contract embraced sections \(5,6,7\) and 8 , and that in consequence of the adoption of a different scheme for the improvement of the navigation, the whole of sections 6 and 7 and parts of sections 5 and 8 were abandoned by the Government. I gather that the contractors consent, or will consent, to the contract in this respect being changed in consideration of a sum of money to be paid to them. This sum appears to have been arrived at by estimating a percentage upon the probable value of the work remaining unexecuted upon the sections referred to.

I gather that you desire my opinion as to whether you, as Auditor General, would be justified in allowing the payment of this sum to be made.

Section 7 of the contract is as follows :-" 7 . That if any change or deviation in or omission from the works be made by which the amount of work to be done shall be decreased, no compensation shall be claimable by the contractors for any loss of anticipated profits in respect thereof." Section 5 authorizes the engineer to make any changes which he may deem expedient; in the dimensions, character, nature, location or position of the works, whether or not such changes increase or diminish the work to be done or the cost of doing same. This clause provides that if any change or alteration constitutes in the opinion of the engineer a deduction from the works, his decision as to the amount to be deducted on account thereof shall be final and binding. Section 7 must, I think, be read in connection with section 5, and upon the construction of the whole contract, I am of opinion that the changes in the dimensions, character, nature, location or position of the works referred to are changes made with a view of accomplishing the object of the contract, and so long as they are made with that objeat in view, a very wide discretion is vested in the engineer, and the contractor is shut out from any claim for loss of anticipated profits in respect thereof. I am, however, of opinion that the powers to make changes and diminish the work, contained in the contract, would not enable the Government to practically cancel the contract for the doing

\section*{Auditor General's Report-Part Q}
of the work under the guise of making changes diminishing the work to be done, the real object being, not to carry out to substantial completion the works contracted for, but to get rid of the contract itself. If, then, the changes contemplated in this case come within the latter category, the Government could not properly make them without becoming liable to the contractor for damages for breach of contract. If, however, they are within the former category, then clause 7 would, I think, apply.

I wish to point out, however, that clauses 5 and 7 are parts of a contract between the Government and the contractors, and in strictness there is nothing to prevent the Government from modifying by subsequent agreement the terms of the contract. Whether or not the Government could justify to Parliament so doing would of course depend upon all the circumstances, but I think they have a strict right by agreement with the contractor to modify the terms of any contract not controlled by the express provisions of the statute.

I assume that the abandonment of sections 6 and 7 and of parts of sections 5 and 8 , really constitutes a substantial abandonment of the work provided for by the contract, and cannot be considered as changes made with the object or carrying out such work. This, however, is a question of fact, on which the papers before me do not afford sufficient information.

I return copy of Order in Council and contract.
I have the honour to be, your obedient servant,
The Auditor General.
Z. A. LASH.

\section*{Poupore \& Fraser: New Interpretation of Contract Item.}

\section*{Audit Office, Otrawa, Oct. 20, 1894.}

Sir,-Let me acknowledge receipt of your application No. 169 for \(\$ 25,670\), in favour of Poupore \& Fraser, being estimate No. 41 on section 1 of the Rapide Plat Canal.

I notice therein three new bills for extras, amounting to \(\$ 18,646.34\), of which some items are dated as far back as April, 1893.

Please let me know whether the conditions of the contract were fulfilled, with respect to ordering and valuing the work before its performance, and presenting the claims continuously until their recognition. I should like to have copies of the orders.

Two of the certiticates have been amended by striking out the words "as ordered." Please explain this circumstance.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Chief Engineer's Office, Ottawa, Oct. 24, 1894.
Sir,-I have your letter of the 20th instant with reference to the application 169 for \(\$ 25,670\), in favour of Messrs. Poupore \& Fraser, being estimate No. 41 for section 1 Rapide Plat Canal, and I inclose herewith for your information a copy of a letter from the Department of Justice in regard to the work in connection with repairing the leak which occurred in the south side of the lock pit.

The work was a necessity at that time, and was not ordered as an extra, as it was then considered to be covered by the contract ; however, track has been kept of what was done. The matter has since been referred to the Department of Justice and the decision given that the Government is bound to remedy the defect in the crib-work, or that the additioual work required should be regarded as an extra under the contract.

Yours truly,
The Auditor-General.

Justice Dept., Ottawa, October 4, 1894.
Sir,-I have the honour to acknowledge your letter of 3rd instant, enclosing contract and specifications with plans for the construction of section No. 1 of the Rapide Plat Canal.

You state the case upon which the advice of this department is desired as fol-lows:-
"In the plan and specification, provision is made for building a lock, to accomplish " which, coffer dams had to be constructed, and the lock had to be unwatered.
"The plan exhibited showed the dams and other provision proposed to be made to " accomplish this, and the contractors tendered at a certain figure for the construction " and maintenance of the dams, and a lump sum for the unwatering and keeping un-
" watered of the lock pit. All the works constructed in connestion with these dams
" and other works relating to the lock pit, it is admitted, have been executed according
" to contract."
"A leak, however, has occurred in the south side of the lock pit through (crib"work) one of the " other works" referred to, and the contractors are making a claim " for the expense of stopping the leak as an extra to their contract. The question for " advice is as to the interpretation of the contract upon this point. Did the contractors " under their contract, assume all responsibility for the unwatering and keeping unwa" tered the lock pit, under the plan and specifications for the sums named in the contract. " in connection therewith."

It appears that under the contract and specification the contractors are required to construct a permanent crib-work on the south side of the lock pit. Specifications for this permanent work are set forth in detail, and the contractors are required to build in accordance with such specifications. I understand that no discretion is allowed to the contractors to depart from the specifications with regard to the crib-work in any manner. The contractors have constructed the crib-work according to the specifications, and it is in this crib-work and by reason of an admitted defect in the specifications that the leak has occurred which now gives rise to the question submitted. It is also a part of the contract that the contractors shall build dams for the purpose of excluding the water on the north and east sides of the lock pit. There are specifications as to the nature of these dams, but it is also stated in effect in the specifications that the contractors are not to be held strictly to such specifications, but are to be held responsible for the sufficiency of the dams for the purpose intended.

The contractors are also required to unwater the lock pit, but the unwatering is treated of in the specifications in connection with the building of the dams, and it is expressly stated that the unwatering is only mentioned as a distinct item for the purpose of aiding the contractors in arriving more readily at a conclusion. See sections 46 and 47 of the specifications.

Under these circumstances, the Minister having regard to the sections of the specifications referred to, is of opinion that, while the contractors are responsible for the sufficiency of the dams and for any difficulty which might occur in unwatering through the inadequacy of the dams or for any cause connected therewith, or which might ordinarily be anticipated, the specifications do not contemplate that the contractors shall be responsible for the sufficiency of the crib-work nor liable to remedy at their own expense a leak such as that in question.

The Minister thinks that the Government would be bound to remedy the defect in the crib-work, or that the additional work required should be regarded as an extra under the contract.

Papers returned herewith.
I am, sir, your obedient servant,

\author{
E. L. NEWCOMBE, D.M.J.
}

\section*{Auditor General's Report-Part Q}

Toronto, Nov. 7, 1894.
Sir,-The facts, as I understand them, from the explanations made by you at our interviews, and from the papers submitted, are shortly as follows :-

Poupore \& Fraser entered into a contract with Her Majesty, dated 26th of January, 1891, for the execution of certain works at the lower end of the Rapide Plat Division of the Williamsburg Canals, for which Her Majesty agreed to pay the several prices or sums set out in a list of prices attached to the contract. This list contains a large number of items, including several items for which a bulk sum is the price. Among these bulk sum items are numbers 11,12 and 13 , which relate to the construction of certain dams at the upper and lower ends of the section, at the upper north-west side and end of lock pit, and at the south and east end of lock pit, and number 14, which is as follows :-" Unwatering lock pit, bulk sum \(\$ 11,000\)." The list contains also a number of items under the heading "protection crib-work, \&c.," which are not bulk sum items, the price being per lineal foot or per cubic yard, \&c.

You have been asked to authorize the payment of an estimate under this contract Which includes three accounts rendered by the contractors, as follows:-1st., for labour and materials in connection with construction dam formed in south protection crib-wor:z to keep river water from lock pit, section number 1; 2nd, for labour and materials in connection with stopping leak coming from south protection crib-work into lock pit; 3 rd., for iabour and material in connection with making cut-off and puddle trenches in south protection crib-work to prevent river water coming into contractor's lock pit : and my opinion is asked as to whether the work and materials represented by these three accounts form proper claims against the Government, or whether they are included in the bulk sum prices to be paid for the items above mentioned:

I have carefully read through the specifications, and am of opinion that the work alluded to is not comprised within any of the bulk sum items. What is included in those items can, I think, be readily learned from the specifications. If, therefore, the work does not come within the bulk sum items, it must be within the works contracted for and to be paid for according to the list of prices, or it must be extra work not covered by the contract. This question is one which the engineer is empowered by the contract to decide. If it be covered by the contract he must apply to it the prices named in the contract. If it be extra work the engineer is entitled to fix a price to be paid for it.

I return the papers herewith, and am, The Auditor General.

Your obedient servant,

\author{
Z. A. LASH.
}

\section*{Lachine Canal.-Unreliable Certificates Rejected.}

\section*{Audit Office, Ottawa, April 17, 1894.}
\(\mathrm{S}_{\mathrm{IR},}\),-Let me acknowledge receipt of your application No. 425 for \(\$ 2,262.54\) in favour of Hugh McMillan, to pay Repairs Accounts on the Lachine Canal, ranging from Aug., 1892, to May, 1893.

I notice that many of the vouchers are certified by Superintendent Kennedy, Foreman Darragh, and Storekeeper McConomy.

Since these officers were proved at the recent investigation to have certified without necessary care, I should like to be informed of any steps you may have taken towards substantiating their certificates, before passing the accounts now in question.

I am sir, your obedient servant,

\section*{Chief Engineer's Office, Ottawa, April 18, 1894.}

Sir,-Referring to your communication of yesterday in relation to some Repair Accounts on the Lachine Canal, ranging from August, 1892, to May, 1893, many of the vouchers being certified by Superintendent Kennedy, Foreman Carpenter Darragh and Storekeeper McConomy.

When these accounts were brought to my notice, I appreciated the importance of having them looked into thoroughly, and on the 17 th of October, 1893, I returned them to Supt. Engineer Marceau, with instructions to be sure as to their correctness before putting his name to them. He looked carefully into them, made full inquiries about them, and satisfied hinself they were correct, and obtained the certificates of the officers you have named as appearing on the vouchers.

There are, I may say, a further similar lot of accounts yet remaining to be paid, which have gone through the same course, the audit and classification of which at the time of Supt. Engineer Marceau forwarding these in question, were not complete. These, I think, will close up the old score.

> I am, sir, your obedient servant,

The Auditor General.
COLLINGWOOD SCHREIBER, C.E.

\section*{Audit Office, Ottawa, May 8, 1894.}

Sir,-LLet me acknowledge receipt of your letter concerning the Lachine Canal accounts certified by Superintendent Kennedy, Foreman Darragh, and Storekeeper McConomy.

Since Mr. Kennedy certifies as superintendent, I infer that these accounts passed through his hands before his retirement from office ; and the certificates of Messrs. Darragh and McConomy, of the same date, were therefore made before the investigation which exposed the manner in which they signed without personal knowledge of the facts. (See Montreal "Star" of June 8, 1893).

Some accounts were shown to Mr. Darragh for lumber delivered at Côte St. Paul, to which accounts his name was attached. He did not know whether he had received the lumber. He had been asked by Mr. Kennedy and Mr. McConomy to sign the accounts. He had "an idea" of the stuff he got, and he signed for it.

Mr. McConomy testified that he had been instructed by the Superintendent to sign the accounts. He had signed accounts on the certificate of others, and not on his own knowledge-he not having received and measured all the materials.

The Commission's report (see Toronto "Mail," May 4, 1894) says that 2,594,800 ft. B.M. of timber and lumber could have been used, and that the quantity charged was about \(3,613,600 \mathrm{ft}\).; leaving a shortage of some \(1,018,800 \mathrm{ft}\). B.M. It goes on to say: "We cannot ascertain where this latter quantity of timber or lumber was used ; it is probable some of it never reached the works."

In other words, we relied on the certificates of Messrs. Darragh and McConomy that they had seceived all the materials-and they knew nothing about what they were signing. They signed because they were told to do so by the Superintendent. Had a proper examination been made by them before certifying, and a record kept of issues, the Commission would not now have to report a shortage of a million feet of lumber.

For the conduct of these two officers, as described by themselves, I can see only three possible explanations: dishonesty, natural incapacity, and ignorance. If either the lst or 2nd cause exists, it is irremediable. It is so unlikely that ignorance was the sole cause, that your department should prove it, if they are continued as Certifiers of Accounts.

Then if they were simply ignorant, it is necessary to prove that they are now enlightened, and to show by their own explanations of their duties that they understand them.

\section*{Auditor General's Report-Part Q}

Even if the department can take the responsibility of saying that these men will in the future perform their duties efficiently, and of retaining them in their positions, I shall think it unfortunate that the country does not derive the improvement in the performance of the public service which would accrue from their dismissal.

If Mr. Marceau is relying on any other evidence for his approval of the accounts, it ought to be described on the vouchers as well. The papers are returned herewith, for completion in the directions indicated.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Chief Engineer's Office, Ottawa, May 17, 1894.
Sir,-I return you application No. 425 for \(\$ 2,262.54\), in favour of Mr. Hugh McMillan, Paymaster, to pay Repairs Accounts, on the Lachine Canal, ranging from August, 1892, to May, 1893, and 1 send herewith a copy of a further report upon these accounts from Mr. Marceau, acting superintending engineer, who states that he has inquired thoroughly into them.

I also inclose affidavits from the following parties with reference to the accounts: -J. M. Campbell, Thomas B. Brown, James Traill Shearer, Napoleon Doré, Ambroise Goulet and George F. Hall.

The Auditor General.
Yours truly,
COLLINGWOOD SCHREIBER, Chief Engineer.

\section*{Lachine Canal, Montreal, May 16, 1894.}

Sir,-In answer to your letter of the 8th instant, covering one from the Auditor General, with some Lachine Canal accounts, certified by Messrs. Kennedy, Darragh, McConomy and others, and directing me to again thoroughly look into the said accounts before returning them, I have the honour to report as follows :-

The certificates of Messrs. Kennedy, Darragh and McCon my, as well as others, had been appended to these accounts before last summer's investigation. In some cases a redistribution of the items had to be marle, in order to charge them to the proper appropriation, and the above named officials were then asked to give new certificates on the face of the amended vouchers.

These had been closely examined before being signed by me, and I now beg to return them with the results of my inquiry written on the face of each of them, in so far a: these results give evidence of the correctness of the charges made.

The accounts are in five sets, viz. :-
1. Dredging.
2. St. Gabriel break.
3. Lock gates.
4. Rebuilding lock No. 1.
5. Lachine Canal repairs.

The following remarks are supplementary to those on the face of the bills :-
1. Dredging. -These bear the certificates of Messrs. George Yale and C. Cockburn, both careful and reliable men, who would not certify an account unless they were satisfied that the work and goods charged have been performed and delivered.

I have, moreover, procured from Mr. George Yale a declaration under his signature to the effect that all the material charged can be traced up to this day.
2. St. Gabriel Break.-Mr. Mathew Fitzpatrick was in charge of these repairs. \(\mathrm{H}_{e}\) is also a reliable employee and has furnished, in addition to the usual certificate, a declaration stating that all the material charged has been used in the work under his supervision.
3. Lock Gates.-This batch comprises three accounts, two of which are in favour of Mr. John McDougall for iron and labour, and the other in favour of Messrs. Shearer \& Brown for oak timber.

Except two items in the first one, under dates the 30th July and 9th August, all the goods charged for by Mr. McDougall here can be traced to the present day, either in the store or in the work on the canal. With regard to Messrs. Shearer \& Brown's account, I beg to refer you to my report of the 19 th March last, which shows, I think, that the oak timber charged has been duly delivered and never paid for.
4. Rebuilding Lock No. 1.-As stated by Mr. John Conway, the Acting Superintendent, on the face of the voucher, this account has been checked from a book in the possession of lockmaster of lock No. 2, who kept a record of all lockages in connection therewith.
5. Lachine Canal Repairs.-This is the less satisfactory of the five sets. Numerous items in Mr. McDougall's accounts are for work done at various points on the canal, and of which no record was kept. In some cases delivery tickets were found, and these have been noted on the face of the vouchers. Other items are certified to by Messrs. Clark, Cunningham \& Fitzpatrick, whose signature I have no reason to suspect. Whenever the materials charged could be traced, I have stated so on the face of the bills.

As to the remaining items, I have inquired from the men and found that as far as their memory goes all have been supplied; but this of course is no sure evidence of delivery.

Capt. Goulet's account is for freight on goods sent from the store to the various locks and bridges on the canal. No record of this was kept, but there is no doubt that the most part, if not the whole, was transported as charged. Messrs. J. \& R. Weir's accounts for turning and planing iron are certified by the machinist who has explained them, and has given a supplementary certificate in addition to the one already on the face of the bills.

Delivery tickets in connection with coal supplied by Mr. George F. Hartt have been found in the store.

The painter's work in Mr. J. O. Julien's account is now certified to by the Acting Superintendent. There still remain the accounts of Messrs. Dore \& Co., for towage, Kingman \& Brown for coal, and Shearer \& Brown for 2-inch oak plank, for which no evidence of delivery can be procured. In these cases, as well as on all others where a doubt existed, I have asked the parties rendering the accounts to give an affidavit stating that the charges made by them are correct, and that the amounts claimed have not been paid. I could see no other means of establishing the correctness of their accounts with regard to the doubtful items therein.

Hoping the above explanations will be found satisfactory.
I am, sir, your obedient servant,

\author{
ERNEST MARCEAU,
}

The Chief Engineer of Canals, Ottawa.

\section*{Quebec Canals: April, 1894.}

Audit Office, Ottawa, May 23, 1894.
Sir,-Let me acknowledge receipt of. your application No. 472, for a letter of credit for \(\$ 26,252.23\) in favour of Hugh McMillan, to pay April expenses of the Quebec Canals.

Some of the vouchers for Lachine Canal supplies are certified "Received above goods" by Thomas McConomy, one of the two officers against whom I recently made the objection that they signed whether they received or not. These vouchers will need to be strengthened in the manner indicated by my previous letter.

\section*{Auditor General's Report-Part Q}

The April pay-list for "Repairs to Carillon Dam" contains only two items, namely :R. H. Welden, timekeeper and clerk of works, 25 days at \(\$ 2.50\)
\(\$ 6250\)
R. H. Welden, one horse, 3 days at \(\$ 1.50 \ldots \ldots \ldots .\).

It would ke well to expand the description of Mr. Welden's duties, if he had other work to do ; otherwise a time-keeper and clerk of works cannot be the only man on a pay-list.

The April expense account of Mr. Ernest Marceau, the Acting Superintending Engineer, includes \(\$ 73\) for board at the St. Lawrence Hall, being 30 days at \(\$ 3\), less \(\$ 17\) for absence. Mr. Marceau was paid at \(\$ 1,440\) a year up to May 13, 1893, as Assistant Engineer of the Ottawa River Canals, resident at Ottawa; and he has been paid at \(\$ 3,000\) a year since that date as Acting Superintending Engineer of the Quebec Canals in the ottice at Montreal. His board at the St. Lawrence Hall, Montreal, between May 14, 1893, and April 30, 1894, has amounted to \(\$ 886.75\), all paid by the department.

The expenses of such a prolonged stay in one place should not be paid under the Order in Council relating to Travelling Expenses since they are not travel, but under that of Sept. 8, 1871, relating to Removal Expenses. The removal of Mr. Marceau and family from Ottawa to Montreal (even had it been paid by the Treasury Board notwithstanding his increase of salary, on account of its temporary nature) would probably not have cost two months of his board at \(\$ 3\) a day. Moreover, a \(\$ 3\) a day rate for several months is not the economical arrangement which an officer would make for his own money. I should like to be informed on this subject also, as to the proposed line of future action.

I am, sir, your obedient servant,
\[
\text { J. L. McDOUGALL, } A . G \text {. }
\]

Chief Engineer's Office, Ottawa, May 30, 1894.
Sir,-In reply to your letter of the 23 rd instant, with reference to application No. 472 for a letter of credit for \(\$ 26,252.23\), in favour of Mr. Hugh McMillan, to pay April expenses of the Quebec Canals, I may state that the vouchers to which you refer for supplies to the Lachine Canal certified to by Mr. Thomas McConony, storekeeper, will be returned to you certified by the Acting Superintendent, Mr. Conway, who is personally aware of the goods having been received.

With respect to Mr. R. A. Welden, Timekeeper, in connection with the Carillon Dam, I may state that for the time shown on the pay-sheets, he was employed in taking stock of tools and materials, \&c., left on hand after the completion of that work.

As regards Mr. Marceau's expense account in Montreal, he is not only performing the duties he formerly did on the Ottawa River Canals, but is also Acting Superintending Engineer of the Lachine Canal, Beauharnois Canal, Chambly Canal and St. Ours Lock, and in order to look after these latter works it is necessary for him to be constantly in Montreal. As I have been in daily expectation of a permanent appointment being made in connection with these latter canals, it has been necessary that Mr. Marceau should continue to remain in Montreal temporarily, hence his board has been paid, and J think should be paid so long as this uncertainty exists, as he has also to retain his residence in Ottawa.

Trusting these explanations are satisfactory.
I am, sir, yours truly,
The Auditor General.
COLLINGWOOD SCHREIBER, C.E.

Audit Office, Otrawa, June 1, 1894.
Sir,-Let me acknowledge receipt of your letter dated May 30, 1894, and of your application for a credit of \(\$ 570.95\) in favour of Hugh McMillan to pay Lachine and Carillon accounts.

The certificates of Acting-Superintendent Conway on the Lachine accounts are satisfactory.

With reference to the April wages of R. H. Welden, the timekeeper and clerk of works on the Carillon Dam, and the only person on the pay-list, you explain that "he " was employed in taking stock of tools and materials, \&c., left on hand after the com"pletion of the work."

On reference to the March pay-list, I observe that the work practically ended on the 17 th of March-the wages between that date and March 31 being only \(\$ 4.13\), exclusive of Superintendent Gaherty and Timekeeper Welden. Thus Mr. Welden has already been paid two weeks' wages (March 19-24, March 26-31) or \(\$ 30\), for time which could have been spent in no other way than Taking Stock. As this payment may not have been brought to your notice when certifying the April wages, I return the papers herewith, in case you may consider that Mr. Welden received in March enough for the whole service.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, \(A . G\).

Chief Engineer's Office, Ottawa, June 8, 1894.
Sir,-I am in receipt of your letter of the 1st instant, with further reference to the April wages of R. H. Welden, timekeeper and clerk of works on the Carillon Dam.

In reply, I desire to say that between the 19th and 24th of March, Mr. Welden was engaged with a couple of men and horses, hauling materials and tools from the Dam to the Store, and in order to make his returns he had to go round to the houses of the farmers, who had supplied stone during March, and get their bills made. It seems to have been impossible to persuade these farmers to render their accounts at regular intervals, and Mr. Welden had to call personally on them each time for the bills.

A couple of days before the end of the month he commenced assorting the materials and toole, and went on with the stock-taking until about the middle of April, when he began to prepare a full report on the operations at the Dam. This report and statement on the Carillon Dam, I am informed, could not be made without a great deal of work, which kept him fully occupied up to the 28th of April, or within two days of the whole month.

> Yours truly,

The Auditor General.
COLLINGWOOD SCHREIBER, C.E.

\section*{Cornwall Canal: Temporary Lockmen Formerly Paid for Sundays.}

\author{
Audit Office, Ottawa, May 10, 1894.
}

Sir,-Let me acknowledge receipt of your application No. 445 for \(\$ 60\) in favour of Paymaster Flanagan, for wages for Temporary Lockmen at Locks 18, 19, 20 of the Cornwall Canal, between April 23 and 30, who are employed in consequence of the extra work caused by the Contractors.

I notice that the proposed payments to them include Sunday, April 29, although the contract binds the contractors not to work on Sunday.

In charging these wages to Capital, it will be necessary in each case to mention that some of the contractors' vessels went through the locks.

> I am, sir, your obedient servant,

\section*{Auditor General's Report-Part Q}

Chief Engineer's Office, Ottawa, May 19, 1894.
Sir,-In reply to your letter of the 10th instant upon the subject of men's extra time for Sunday the 29 th of April, charged on pay-rolls Cornwall Canal "Construction," I return you herewith the pay-rolls, together with a copy of a letter from Mr. Superintendent Ross, explaining this matter.

The Auditor General. COLLINGWOOD SCHREIBER, Chief Eng.

> Yours truly,

Supt.'s Office, Cornwall, May 14, 1894.
Sir,-In answer to your inquiry-Did any of the contractors' boats go through Locks 18, 19 and 20, Cornwall Canal, on Sunday, the 39th April, 1894 ?

I do not know that any did go through, but I did as has been done heretofore. These men work until midnight Saturday and begin midnight Sunday, and have always been paid for every day in month from time navigation opens till it closes. Contractors' vessels are constantly passing after six p. m. on Saturdays.

I am, sir, your obedient servant,
The Supt. Engineer, Cornwall.
A. P. ROSS, Supt.

Audit Office, Ottawa, June 5, 1994.
Sir,-In order to avoid further inconvenipnce to the six Temporary Lockmen on the Cornwall Canal, I am passing the April pay-list at \(\$ 10\) each on account.

Superintendent Ross, in his explanation, however, justifies the stand that I have taken, namely, that these men do not work on Sunday. He says they "work until midnight Saturday, and begin midnight Sunday."

Being temporary, it does not appear correct to pay them for Sundays when they do not work. If you agree with this opinion, please rectify the overpayment on the May pay-list.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Note by Auditor General : After July 1, 1894, the temporary lockm?n on the Cornwall Canal were paid only for week-days.

\section*{Single Fares Charged, instead of Return Tickets.}

\section*{Audit Office, Ottawa, March 16, 1895.}

Sir,-Let me call your attention to voucher 4968 of 1893-94, being a payment of \(\$ 31.35\) to Lockmaster J. K. Read for travel of himself and Lockman Nevins to Deseronto in January, 1894, to inspect damages to steamer "Nile."

Three of the items are as follows:-
Railway fares, Ottawa to Deseronto, two at \(\$ 5.40 \ldots . . . . . . \$ 1080\)

In view of the short duration of the trip, there should be a reason given for not obtaining return-tickets. The saving would have been \(\$ 3.60\).

There should be a certificate from Lockman Nevins to cover his portion of the expenses.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Ottawa, March 25, 1895.
Sir,-I have the honour by direction to acknowledge the receipt of your letter of the 16 th instant, re payment of \(\$ 31.35\) to Lockmaster J. K. Read, for travel of himself and Lockman Nevins to Deseronto in January, 1894, to inspect damages to steamer "Nile," and, in reply, to inform you that inquiry will be made as to why return-tickets were not purchased.

I am, sir, your obedient servant,
The Auditor General.
JNO. H. BALDERSON, Secretary.

\section*{Lockmasters paid throughout the winter months.}

\section*{Audit Office, Ottawa, June 5, 1894.}

Sir,-I have received to-day a copy of an Order in Council of April 28, 1894, superannuating Mr. Jas. W. Simmons, the Lockmaster at Chaffey's, on the Rideau Canal.

Let me call your attention to my letter of Jan. 27, 1892, shown at page D-383 of my report for 1890-91, and of which I inclose a copy herewith. It is there suggested that new appointments of lockmasters be made for the open season only (like those of lockmasters on the Welland Canal, and of lock labourers generally), so that no wages will accrue in the winter when there is no work done or to do.

It is worthy of notice that Mr. Rubidge could find no other defence for paying lockmasters throughout the winter, than that it had "always been done." This is not, I believe, a reason which has much weight with yourself.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Ottawa, June 26, 1894.
Sir,-I have your letter of the 5 th instant with reference to the wages of lockmasters and lock-labourers during the winter.

Mr. Rubidge explains to me orally that the same system prevails on the Cornwall and Williamsburg Canals, as on the Welland Canal, viz. :-

That the lockmen are engaged for the season of navigation only, and that during the winter season the work is divided up amongst them regulating the water for the mills, which gives each man about a week's work in a month.

> Yours truly,
> COLLINGWOOD SCHREIBER, Chief Eng'r.

The Auditor General.

Audit Office, Ottawa, March 30, 1895.
Sir,-In further discussion of the question of paying lockmasters throughout the winter:

Mr. Rubidge's explanation relates only to the suisordinate lockmen, although none of them have been paid for the whole winter.

What I would like to have is an explanation of the reasons for paying the lockmasters on the rest of the canals, for all the year round, while payment for the open season only is found sufficient on the Welland Canal.

I am, sir, your obedient servant,

\section*{Auditor General's Report-Part Q}

Railways and Canals Dept., Ottawa, April 4, 1895.
Sir,-I have the honour to acknowledge the receipt of your letter of the 30 th ultimo, requesting to be informed of the reasons for paying the lockmasters on all the canals, except the Welland, for all the year round, while payment for the open season only is found sufficient on the Welland Canal.

In reply, I have to inform you that on the Welland Canal all hands go off duty in winter, and each gets a turn of about two weeks' work in winter. On the other canais, all but the lockmasters lay off during the winter, these men remain on to regulate the water. On the Chambly and Beauharnois Canals, the lockmen are carpenters, and do errpenters' work in connection with repairs during the winter.

\section*{I am, sir, your obedient servant,}

The Auditor General.

\section*{COLLINGWOOD SCHREIBER, D.M.}

Audit Office, Ottawa, April 9, 1895.
Sir, -Let me acknowledge receipt of your letter of April 4, explaining that the \(^{\text {m }}\) lockmasters on canals other than the Welland are paid for the winter months, because they remain on to regulate the water.

This seems to apply with sonewhat less force on the Rideau than on the other canals, since very little of the Rideau water-power is used by manufacturers.

Another apparent anomaly is the employment of a labourer at each lock on the Cornwall Canal during recent winters, in addition to the lockmaster; while the lockmaster alone does all the work on the Williamsburg and Beauharnois Canals.

> I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Ottawa, April 11, 1895.
\(\mathrm{S}_{1 \mathrm{R}, \text {-I }}\) am in receipt of your letter of the 9 th instant with reference to the lockmasters on the Rideau Canal being paid during the winter months.

Even since the canal was built the lockmasters at each station have been employed during all the year round, their duties during the winter months being to watch the works, regulate the discharge of water and take charge of all government property and stores contained in the station.

On the Rideau Canal there are dams that hold back large sheets of water, and it is absolutely necessary for the safety of the works that some one should watch them continually so that sufficient water shall be discharged during the winter to ensure the spring freshets passing off without injury to the works, and that also sufficient water be retained to provide for uninterrupted navigation the following season.

At no less than twelve different lock stations on the canal, manufacturing industries are carried on by means of water power from the waste weirs, and the power at each station depends on the supply of water from the one above \(i t\), thus involving the twenty-four lock stations on the canal.

Several of the lockmasters also have charge of the protection of booms and reservoir dams at considerable distances from their stations, which they have to visit durin. the winter as well as in summer.

\section*{Re Station Agents' Returns.}

Audit Office, Ottawa, February 22, 1894.
Sir,-The following station agents are not forwarding returns to this office in accordance with the regulations:-

Acadiaville: Never furnished any returns.
Afton: None since November.
Amherst Ticket: Changed this month to 10 days' statements. Why?
Apohaqui : None since January 10 ; irregular before that date.
Athol: None since April 20, 1893.
Avondale: None since July 10, 1893.
Beaver Brook: None since Nov. 30, 1893.
Bedford: Returns irregular.
Belmont: None since June 30, 1893.
Berry's Mills : Somewhat irregular.
Bloomfield : None since December 10; irregular.
Boundary Creek: None since December.
Brookfield : Irregular.
Brookville: None since May, 1893.
Chatham : Sends monthly return without details. Should send proper return every 10 days.
Chatham Junction: Should send daily. (See your letter April 21, 1893.)
College Bridse: None since June, 1893.
Dartmouth : None since July 18, 1893. Should make daily returns. (See your letter April 21, 1893.)
Eel River: Irregular.
Elmsdale: do
Ferrona Junction: Should make daily returns.
Flatlands: Irregular.
Halifax City Ticket: None since August.
Hastings: None since December 20.
L'Islet: Only 1 return since September.
Maccan: None since September.
Meadowville: None since December.
Memramcook: The only return ever received was one in September last.
Milford: Have been irregular.
Millerton: None since November 20.
McIntyre's Lake: None since May 20.
Nappan: Only 1 return since December.
Nashe's Creek : None since September.
Norton: None since July 20.
Orangedale: None since November 10.
Oxford Junction: None since October 10.
Painsec Junction: Somewhat irregular.
Petit Roche: None since July 10.
Pictou: None since September 20.
Pictou Landing: Only 1 received since July.
Piedmont: None since June.
Point du Chêne: None since October.
Point Tupper: None since November.
Pollett River: None since May, 1893.
Quebec T. D. S.: None ever received.
Red Pine: None since June.
River Denys: Irregular, none since January 20.
Rockingham: Irregular.
Rogersville: Irregular.

Sackville: Should make daily return.
Salisbury: None since June 10.
Scotsburn: None since December 31.
South River : None since December.
Stewiacke : None since January 20, 1894.
Sussev: None since June 20, 1893.
St. Alexandre: Irregular. None since January 10, 1894.
Ste. Hélene: do
St. Henri: do None since December 10.
St. Joseph : None since July.
St. Luce : Irregular.
St. Octave: None since June 10.
St. Pierre : None since January 31, 1893.
St. Roch : None since December, 1892.
Tatamagouche: Irregular.
Thomson: None since March, 1893.
Truro Ticket: None since August 16, 1893.
West Merigomish: None since August 10.
West Chester: Irregular.
Westville: None since November 30.
Windsor Junction: None since July 20.
. I am sir, your obedient servant,
The General Manager Government Railways.
J. L. McDOUGALL, A.G.

\section*{Gen. Manager's Office, Ị.C.R., Moncton, N.B., March 10, 1894.}

Sir,-In answer to your letter, dated February 22, with reference to station agents' returns, I send you herewith a letter from Mr. Williams, dated March 2.

Acadiaville, Afton, Boundary Creek, Brockville, College Bridge, Flatlands, Meadowville, Nashe's Creek, Piedmont, Pollett River, St. Joseph, West Merigomish, are all flag stations where there is no agent, and a book of blank tickets is put in the hands of some one living in the station or near by; generally these people are section men or section foremen, and their families sell the tickets. The object of having tickets at these places is to reduce as much as possible the collection of money on the trains. It is diffcult to make these people understand with reference to the returns, and I am afraid there will always be more or less trouble about getting them to send returns regularly, as they are not accustomed to business methods. However, Mr. Williams is writing them and will do the best he can with them.

Amberst ticket agent had no authority for changing to ten days statements, and he has been instructed to send them daily as before.

Chatham is an outside ticket agency in the town of Chatham selling tickets on commission ; perhaps you did not understand it that way. If you still think that he should send a return every ten days he will be ordered to do so.

Chatham Junction has been instructed to send daily returns.
Dartmouth station has been closed since July last as the bridge connecting it with the railway was swept away then. I send you copies of the circulars with regard to this, and in future copies of all circulars relating to the opening and closing of stations and changing of names will be sent you.

Ferrona Junction has been instructed to make daily returns.
Hastings was closed on the 31st December as a booking station, and it is now only an outside ticket agency on commission. The agent has been instructed to send a monthly return.

Quebec, T. D. Shipman. This is an outside ticket agency, Mr. Shipman having a general ticket office and selling tickets for the Grand Trunk and other railways. He has been written to send the returns

Sackville has been instructed to make a daily return.
St. Roch had its name changed to Ste. Louise in September last. I send you herewith a circular to that effect.

The agents at all the places mentioned in your letter have been written to by Mr. Williams, and the agents at the following places have been fined:-Apohaqui, Athol, Avondale, Beaver Brook, Belmont, Bloomfield, Chatham Junction, Halifax City ticket, L'Islet, Maccan, Memramcook, Millerton, McIntyre's Lake, Nappan, Norton, Orangedale, Oxford Junction, Petit Roche, Pictou, Pictou Landing, Point du Chéne Point Tupper, Red Pine, River Denys, Salisbury, Scotsburn, South River, Stewiacke, Sussex, St. Alexandre, St. Henri, St. Octave, St. Pierre, Ste. Louise, Thomson, Truro ticket, Westville; Windsor Junction.

The ticket agent at Amherst has been reprimanded for changing the statements to ten days without authority.

I am, sir, your obedient servant,
The Auditor General.
D. POTTINGER, Gen. Manager.

Audit Office, Ottawa, February 28, 1894.
Sir,-In your letter of March 27, 1893, in reply to my letter of March 13, you enclosed a letter from Mr. Williams. In that letter it is stated that the remittances from stations at or near terminal points should be for the total on hand at the close of the previous day, and that other stations should include part of the current day's receipts. This regulation is observed by some agents but not by all ; and it is observed by some agents part of the time only. Do the returns furnished to Moncton enable you to watch this point? Agents who make deposits should do so towards the close of the banking hours in order to deposit as much as possible of the current day's receipts. What are the circumstances that render it necessary for the freight agent at Halifax to carry such large balances? The deposit made each day is in the neighbourhood of \(\$ 2,000\) less than the balance carried from the previous day St . John city ticket agent makes a deposit and-return about every third day. Are his receipts not sufficiently large to warrant a daily deposit and return?

Agents furnishing ten days' returns should give the date, bank number and amount of each deposit.

> I am, sir, your obedient servant,

The Gen. Manager Govt. Railways.
J. L. McDOUGALL, A.G.

Gen. Mgr's Office, I.C.R., Moncton, N.B., March 24, 1894.
Sir,-In answer to your letter, dated February 28, our treasurer states that he is watching carefully the remittances of the several stations.

In the cases of the stations which deposit in the local banks it has been impossible to fix a time of the day for the agent to make his deposit as his movements in this respect have to be governed by the movements of the trains and volume of work, \&c., that is, Halifax station ticket agent has to make his deposit previous to noon as from that time he has to be on hand for our own and Windsor and Annapolis Railway trains departing. The Halifax agent has been instructed to deposit the freight money as late in the day as he can so as to include as much as possible of the current day's receipts. He has also been instructed to show in his returns to you of what his balance consists, as it sometimes does not consist entirely of cash on hand ; thus on the 26th of February the balance was \(\$ 3,364.88\).

This consisted of pay-rolls which he has paid for extra labour. \(\$ 1,01591\)
Cash stolen when the safe was broken in a burglary a few
months ago................................................ . . . . 88749
Cash
1,461 48

\section*{Auditor General's Report-Part Q}

In the case of some agents, there is at times an accumulation of silver which has to be worked off and which swells the amount of money on hand beyond the \(\$ 20\) allowed for change, and at some stations such as Salisbury, Windsor Junction, Chatham Junction, \&c., the agent has occasionally to hold back amounts in order to get sufficient money to settle the back charges due connecting railways.

The St. John City ticket agent's receipts are small. In January on one day they were as low as \(\$ 9.16\). On nine days in the month they were less than \(\$ 20\), and for the whole month they averaged \(\$ 37\) a day. He has been instructed to make a deposit whenever he has \(\$ 50\) on hand.

The agents furnishing ten days' returns have been instructed to give the date, bank number and amount of each deposit.

I am, sir, your obedient servant,
The Auditor General.
D. POTTINGER, General Manager.

\section*{Re Agents' Returns.}

\author{
Audit Office, Ottawa, April 24, 1894.
}

Sir,--The following is a statement of the balances in the hands of the ticket agents at New Glasgow, Antigonish, Londonderry and Mulgrave, as shown on the returns forwarded direct to this office, and on the abstract forwarded from Moncton :-
\begin{tabular}{lr} 
Stations. & \multicolumn{1}{c}{ Bal as per Agts. returns. }
\end{tabular} Bal. as per abstract.

I have to ask for explanations of the differences.
Agents who collect freight charges, as well as sell tickets, should be instructed to enter on the return for the last day or period of the month, the charges on all freight in store, in order that the balances shown may be compared with the balances shown on the abstract.

I have again to remark on many differences between the returns of the agents and and the cashicr. The suggestion of Mr. Williams that I should call on the agents to explain discrepancies of this kind, is objectionable for several reasons. As I stated in my letter of July 20, 1892, it is the invariable practice of this office to have all communications with the department, or the head office that is responsible for the correct performance of the work. And I may add that the same view is taken by the Department of Railways and Canals. I would again ask your consideration of the advisability of substituting a form similar to that now furnished to this office, for the advice note now sent to your traffic auditor by the agents. You would then be in a position to know every time a remittance was made whether the agent was remitting according to instructions, and whether his return was correct. If such an arrangement were effected the agents might be instructed to send to this office a copy of every such return sent to the traffic auditor. The result would be that correct returns would reach this office regularly.

> I am, sir, your obedient servant,

The General Manager Govt. Railways.
J. L. McDOUGALL, A.g.

Gen. Mgr. Office, I.C.R., Moncton, N.B., May 5, 1894.
Sir,-In answer to your letter, dated April 24th, with reference to differences between the statement of the balances in the hands of the agents on December 30th last, as shown in the returns forwarded direct to your office, and on the abstract forwarded from Moncton:

I may say that these will frequently disagree, because the returns furnished to you direct by the agents are the summaries of cash received and remitted, and the balance shown by this return at the close of the month indicates only the cash balance at the station or agency, and not the station balance, which includes the charges on freight in store, amounts paid out for labour, and other items. The balance shown by the agen at the close of the month as the station balance is probably correct according to the way-bills, tickets, \&c., in the agent's hands at the time, but it is subject to change in the checking that the accounts undergo in the Audit Office here, and through way-bills of freight from distant points on the Grand Trunk and Canadian Pacific Railways not reaching the station until the agent's returns for the month have been sent to the Audit Office, such way-bills, of course, being taken afterwards into the accounts of the station for the month to which they belong.

You ask for an explanation of the differences at New Glasgow, Antigonish, Londonderry, and Mulgrave. I send you this, and also an explanation of the differences at the Halifax Ticket Agency, which will show the differences that arise at ticket stations.

The station agents have been instructed, as requested by you in your letter of April 24th, to show the charges on freight in store on their cash summaries for the last day of the month, though this will not do away with the difficulty that you experience.

In regard to the differences between the returns of the agents and the cashier, the agents have been instructed, by the use of carbon paper, to send to the tratic auditor a duplicate of the return of the cash receipts sent to your office. This will insure that both statements shall be alike. There will then remain only to be adjusted the corrections made by the cashier in the remittances received. These will be done by the cashier who will record on a form any errors made in the amounts remitted to him by the agents, and this form will be attached to the daily cash-book statement which he makes, and will explain the discrepancies between the agents' and the cashier's returns.

\section*{I am, sir, your obedient servant,}

The Auditor General.
D. POTTINGER, General Manager.

\section*{Auditor General's Report-Part Q}

\section*{Re Rents of News Stands.}

\section*{Audit Office, Ottawa. July 27, 1894.}

Sir,-The return inclosed in your letter of May 21st last shows, that the rent of the news stands at St. John is \(\$ 300\) per annum, and that at Halifax is only \(\$ 50\). Please explain why there is such a large difference. Are these privileges under lease or agreement, and if so, are they for any stated time?

I am, sir, your obedient servant,
The Gen, Mang. Government Railways.
J. L. McDOUGALL, A.G.

\section*{Re Windsor Rranch Railway.}

Audit Office, Ottawa, Feb. 12, 1894.
Sir,--Returns from the Windsor and Annapolis Railway for six months of the present fiscal year have reached this office, but no data are furnished on which to make an audit. In your letter of Sept. 4, 1893, you intimate that these returns are now made out on the basis of actual gross receipts, and that a statement was being prepared of the transactions of the previous year in order that a claim might be made for the difference. Please send me a summary of this statement. Has the amount been paid? The monthly returns should be certified by the Windsor and Annapolis authorities as follows:-"I certify that the above return is a full and correct statement of the actual gross receipts of the traffic on the Windsor Branch Railway for the month of \(\qquad\) I am, sir, your obedient servant,

Gen. Manager's Office, I.C.R., Moncton, N.B., March 26, 1894.
Sir,-In answer to your letter, dated February 12th, one month's returns, as furnished by the Windsor and Annapolis Railway for the Windsor Branch, were sent to you some time ago as a sample that you might see how the returns were rendered. You returned these to Mr. Williams, and it was not thought that you desired anything further in regard to them. Mr. Williams is now sending you all the returns as received and checked by us, from the 1st July, 1893, that is, for this fiscal year, and he will continue to send you these returns as soon as they are checked month by month. The returns are now made on the basis of actual gross receipts as decided upon by you. A statement was prepared upon this basis for the year commencing on the 1st July, 1892, and a cheque for the additional amount, \(\$ 573.17\), was received from the Windsor and Annapolis Railway in December, 1893, and this amount was included in the returns for November, 1893, as you will find by a reference to them. A copy of the statement is inclosed.

The new form of certificate given in your letter of February 12, 1894, is now being used by the Windsor and Annapolis Railway authorities upon the returns that they send in.

I am, sir, your obedient servant,
The Auditor General.
D. POTTINGER, Gen. Manager.

\section*{Audit Office, Ottawa, March 29, 1894.}

Sir,-I have your letter of the 26 th instant, inclosing a statement showing that the difference between the actual earnings of the Windsor and Annapolis Railway for foreign passenger traffic during 1892-93 and the statement of that traffic on which settlement has been made was \(\$ 1,719.50\). One-third of this amount has been paid over by \({ }^{*}\) the Windsor and Annapolis Railway.

Please let me know what steps you are taking looking towards a settlement of the shortage in the accounts of the years previous to July, 1892.

> I am, sir, your obedient servant,

The General Manager Government Railways.

\author{
J. L. McDOUGALL, A.G.
}

Gen. Manager's Office, I.C.R., Moncton, N.B., April 13, 1894.
Sir,-I have your letter dated March 29, and I have asked the Windsor and Annapolis Railway to make a settlement for the years previous to July, 1892.

I am, sir, your obedient servant,
The Auditor General.
D. POTTINGER, Gen. Manager.

Audit Ofrice, Ottawa, June 19, 1894.
Sir,-The Windsor and Annapolis Railway takes credit for \(\$ 83.66\) in the January returns, and for \(\$ 77.25\) in the February returns, as their share of trunk line bookings. These amounts do not seem to have come to account.

Has any settlement yet been made of the shortage in the accounts of the years previous to July, 1892, which you stated in your letter of April 13th last you had asked for?

I am, sir, your obedient servant,
The Gen. Manager Government Railways. J. L. McDOUGALL, A.G.

Gen. Manager's Office, I.C.R., Moncton, N.B., June 25, 1894.
Sir,-II have your letter, dated June 19th, with reference to the \(\$ 83.66\) in the January returns, and the \(\$ 77.25\) in the February returns of the Windsor and Annapolis Railway as their share of trunk line bookings.

These amounts are correct and will be taken to account in the month of June.
The Windsorand Annapolis Railway have not made any settlement yet of the amount claimed for the years previous to July, 1892, but I have called upon them again to do so.

I am, sir, your obedient servant,
The Auditor General.
D. POTTINGER, Gen. Manager.

Audit Office, Ottawa, June 28, 1894.
Sir, -I have received your letter of the 25 th instant, in reference to the accounts of the Windsor and Annapolis Railway. You state that no settlement has yet been made of the amount claimed for the years previous to July, 1892. Am I correct in assuming that you have had a statement prepared showing the amount due to the Government, which you furnished to the authorities of the W. and A. Railway, requesting payment? If so, please let me have a copy of it, and let me know on what data it was based.

I am, sir, your obedient servant,
The Gen. Man. Govt. Railways.
J. L. McDOUGALL, A.G.

The Gen. Manager's Office, I.C.R., Moncton, N.B., September 11, 1894.
SIR,-In answer to your letter, dated June 28th, about the accounts of the Windsor Branch Railway and the one-third earnings of the Windsor Branch.

I send you herewith a letter from Mr. Williams, our Treasurer, dated July 18th, explaining why it is impossible for him to prepare a statement such as you speak of. I also send you a letter, dated June 29th, from Mr. Campbell, General Manager and Secretary of the Windsor and Annapolis Railway, declining to open up the accounts previous to July, 1892, and to send additional statements for the years previous, and giving his reasons.

I am, sir, your obedient servant,
The Auditor General.
D. POTTINGER, Gen. Manager.

Treasurer's Office, Moncton, N.B., July 18, 1894.
Sir,-Re the Auditor General's letter of 28th ultimo, with respect to balance claimed from Windsor and Annapolis Railway under the old agreement re Windsor Branch.

I have delayed replying to your memo: waiting Mr. Boggs's visit to Kentville when paying Windsor Branch employees for June. He saw Mr. Gifkins, General Passenger Agent of Windsor and Annapolis Railway, and it appears to be their practice to destroy all tickets at the end of four or five years after collection, so that the Windsor and Annapolis Railway has only material on hand on which to base corrected statement back for about that length of time. He promises to have that statement prepared as soon as possible. Prior to that an estimate will have to be formed of difference due Windsor Branch Railway on tickets.
D. Potilinger, Esq., General Manager, Intercolonial Railway.
T. WILLIAMS. 185

\author{
Gen. Manager's Office, W. \& A. R. R.. Kentville, N.S.! June 29, 1894.
}

Dear Sir,-I much regret that your letter in reference to the matter of one-third of the earnings of the Windsor Branch has remained unanswered so long, but I have been absent at Ottawa, attending to some legislation and was not able therefore to give the subject the consideration to which it is entitled.

In my letter to you of the 14th September, 1892, I stated very fully the history of the mode of accounting which prevailed between my Company and the Intercolonial up to July, 1892. After attention was called at that date to the matter by Mr. Gorman, I made inquiries and after some correspondence with yourself, I consented to account to your auditor upon the basis of the amount received for each through passenger carried. That being so and as my Company are most desirous of avoiding all cause of conflict with the Governinent, I would much have preferred that the question had not again been raised.

Prior to 1892, the method of accounting established between the Government and ourselves had been acted upon for twenty years, without question or dispute, in every matter connected with the branch tolls, monthly statements being rendered and audited by the Intercolonial auditor, and monthly payments made and receipts given therefor. I do not consider, therefore, that my Company should be called upon to furnish further statements for the years prior to July, 1892 ; indeed it would be exceedingly difficult and would entail very great labour to go over all the accounts again, and for the earlier years the materi il is not in existence. Whether if such accounts were made up they would show any balance coming to the Government, I am not prepared to say, as in many cases I know that the rate credited the Windsor Branch was in excess of what a mileage division would have given.

Under the circumstances therefore I regret that I cannot comply with your request to send statements for the years previous to July 1892, upon the grounds :-

That the accounts have been settled and clo eed;
That monthly statements have been made and accepted;
That the accounts have been audited from month to month by the accountant from the head office of the Intercolonial Railway;

And that the payments made by my Company have been accepted in satisfaction and discharge of the claim of the Government under the agreement.

I am, dear sir, yours faithfully,
D. Pottinger, Esq., Gen. Man. Government Railways, W. R. CAMPBELL.

Audit Office, Ottawa, September 15, 1894.
Sir,-I am in receipt of your letter of the 11 th instant, inclosing letters from Mr . Williams and Mr. Campbell.

Mr. Campbell's letter is dated June 29th, and in it he seems to refuse to furnish any statements for the years previous to July, 1892, for several reasons which do not seem conclusive.

Mr. Williams's letter, dated July 18th, intimates that Mr. Gifkins, the General Passenger Agent, had, on the other hand, promised to have a statement prepared covering all the years for which they still had the tickets, adding that prior to that an estimate will have to be formed of the difference due Windsor Branch Railway on tickets. I assume he means due by the Windsor Branch Railway. Would it not be advisable to ask Mr. Gifkins if he has prepared this statement, and if so, to send an officer to Kentville to compare it with the tickets and returns. Having actual figures for a period of five or six years, it will no doubt be possible to make an estimate of the previous years' transactions, the tickets for which they state have been destroyed, that will be fair to all parties concerned. In any case it seems to be the only possible disposition of the matter that can be made.

If the General Manager persists in refusing to open up the question prior to July, 1892, a full statement of the whole facts of the case should be prepared and submitted to the Department of Justice to ascertain the legal rights of the Government.

I am, sir, your obedient servant, The General Manager Government Railways. J. L. McDOUGALL, A.G.
(See letter to Dep. Min. Trade and Commerce, page S-9.)

\section*{Re Canal Tolls.}

Dept. Rallways and Canals, Ottawa, April 11, 1894.
Sir,-I have the honour, by direction, to inform you that the suggestion made in your letter of the 18th March, 1893, to the effect that the toll collectors should furnish to your office direct their summaries of collections, either daily or weekly, as the case may be, has been now carried out, the necessary forms having been furnished to collectors with instructions to forward them to you, as shown by the accompanying list.

While thus endeavouring to meet your views, I am, at the same time, in order to avoid possible misunderstanding hereafter, directed to say that any communication you may desire to have in resprct of matters covered by these forms, must continue to be made, as heretofore, through the department itself.

I am, sir, your obedient servant,
The Auditor General.
JNO. H. BALDERSUN, Secretary.

\section*{Collectors instructed to forward Returns to the Auditor General.}

Daily.-Port Colborne, Port Dalhousie, Cornwall, Montreal, Kingston, St. Johns, Ottawa, Grenville.

Weekly.-Dunnville, Port Maiıland, Port Robinson, St. Catharines, Chippewa, Beauharnois, Lachine, Cardinal, Kingston Mills, Smith's Falls, Peterborough, Fenelon Falls, Chambly, St. Ours, Carillon, St. Anne's, St. Peter's, Hastings, Buckhorn, Burleigh, Brighton, Bobcaygeon.

\section*{Audit Office, Ottawa, March 13, 1894.}

Sir,—Since writing you on the 7 th instant, I have received returns of the collectors of canal tolls, \&c., for the six months to Dec. 31. There are no returns from the Culbute or Tay Canals. A summary is furnished of each month's returns, on a form similar to the one furnished from this office, but the departmental certificate is not endorsed.

The collector's certificate has not been changed to that suggested in my letter of March 18, 1893. Your attention is requested.

I am, sir, your obedient servant,
The Secretary, Railways and Canals Dept.
J. L. McDOUGALL, a.g.

Dept. Railways and Canals, Ottawa, April 19, 1894.
Sir,--In reply to your letter of the 13th ultimo, acknowledging the receipt of returns from the collectors of canal tolls for the six months ended Dec. 31, 1893, I have the honour, by direction, to inform you that no returns have been received for the Culbute Canal during the present fiscal year, and the returns for the Tay Canal will be found incorporated with those for the Rideau Canal.

The change in the certificate, to which reference is made in your letter, does not, I am to say, appear to be feasible.

I am, sir, your obedient servant,
The Auditor General.
JNO. H. BALDERSON, Secretary.

Audit Office, Ottawa, March 13, 1894.
Sir,-Referring to the returns from the collectors at Cornwall, Kingston, Lachine and Montreal, I have to ask for a statement in detail of the let-passes issued during the past season by each of the three former collectors, payable at Montreal ; and a statement in detail of the let-passes issued by each of these collectors, that were paid at Montreal during the same time.

I am, sir, your obedient servant,
The Secretary, Railways and Canals Dept.
J. L. McDOUGALL, A.G.

\section*{Re Hydraulic Rents, Lachine Canal.}

Adif Office, Ottawa, May 5, 1894.
Sir,-In your letter of September 6, 1893, acknowledging my letter which inclosed a statement and asked for information concerning hydraulic rents at the Lachine Canal, you mention that the yearly statement would be furnished me as soon as completed, and that it would probably afford the information desired. I have received no such statement. I have lately received a copy of your Departmental Report for 1892-93, but I do not find any statement published in it, covering the information I asked for.

I shall be glad to hear from you further on the subject.
I am, sir, your obedient servant,
The Secretary, Railways and Canals Dept.
J. L. McDOUGALL, \(A . G\).

\section*{Dept. Railways and Canals, Ottawa, May 19, 1894.}

Sir,-Referring to previous correspondence on the subject of arrears of hydraulic rents on the Lachine Canal, and more particularly to your communications of August 21, 1893, and May 5, 1894, I have the honour, by direction, to inform you that this department has now received payment of all arrears to 1st May, except in the five following cases, which are now being dealt with :-
H. Bulmer, jr., \& Bro., before Department of Justice for action.

Bourgouin \& Thibault "، " " "
Tate Bros.
Tate Bros. " " "
Hurteau Bros., awaiting return of lessee who is absent from Canada.
Henderson Bros., has contra account against department, unsettled.
I am, sir, your obedient servant,
The Auditor General.
JNO. H. BALDERSON, Secretary,

\section*{Re Arrears Due.}

Audit Office, Ottawa, Dec. 18, 1894.
Sir,-I have received your letter of the 15 th instant, inclosing statements of arrears due to your department in connection with canal accounts.

You have not furnished any statement of arrears due in connection with railway accounts.

I will be glad to hear from you further in reference thereto.
I am, sir, your obedient servant,
The Secretary, Railways and Canals Dept.
J. L. McDOUGALL, A.G.

\section*{Auditor General's Report—Part R}

Department of the Secretary of State, Ottawa, June 7, 1893.
SIR,-II have the honour to transmit herewith an account frim the Queen's Printer of the Province of Quebec for the publication in the Quebec Official "Gazette," of the proclamation respecting the forthcoming election under the Canada Tenperance Act in the County of Brome.

With regard to the charge fur an extra of this Official "Gazette," which you will observe in the a count, I may explain that although the proclamation was sent from this department to His Honour the Administrator of the Province of Qu-bec on the 18th of May for publicat:on in the Gazette of th \(\rightarrow 27\) th of that month, and of the 3rd and 10 th instant, it did not appear on the date first named. An extra issue of th"Gazette" was therefore necessary and while this department is in no sense to blame for the delay which occurred, there would seem to be no question as to the propriety of paying the additional expense involved thereby.

I am, sir, your obedient servant,
The Auditor General.
L. A. CATELLIER, Under Secretary of State.

Audit Office, Ottawa, September 12, 1893.
\(\mathrm{S}_{\mathrm{IR}, \text {, -In the account of the Quebec Official "Gazette" for publishing the pro- }}\) clamation respecting the Brome temperance election there is a charge of \(\$ 20.99\) for cost of an extra.

As the proclamation was sent from your department in time for insertion in the regular issue of the "Gazette" it appears to me that the cost of the extra should not be borne by the Dominion. Is there any further explanation?

I am, sir, your obedient servant, The Under Secretary of State.

\author{
J. L. McDoUGALL, A.G.
}

\section*{Department of the Secretary of State, Ottawa, September 13, 1893.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 12th instant, respecting the charge of \(\$ 20.99\) for cost of an extra of the Quebec Official "Gazette" containing the proclamation concerning the election under "The Canada Temperance Act" in the county of Brome.

As you observe, the proclamation in question was sent from this department in time for insertion in the regular issue of the Gazette.

The circumstances in which the delay occurred, however, are such that, to reiterate the opinion expressed in my letter to you of the 7 th June last, there would appear to be no question as to the propriety of paying the amount.

The despatch conveying the proclamation was addressed to His Honour the Administrator of the Government of Quebec, at Quebec. His Honour being absent from the seat of Government at the time, the despatch had to be forwarded to him, and before action could be taken thereon the date of the regular issue of the "Gazette" had passed.

I trust this will be sufficient explanation to warrant the payment of the charge, especially as in requesting the issue of an extra this department agreed to be responsible, for the expense thereof.

I am, sir, your obedient servant,
The Auditor General.
L. A. CATELLIER, Under Secretary of State.

\section*{Aldit Office, Ottawa, September 14, 1893.}

Sir,-I have your letter of yesterday's date in reply to mine of the 12th instant with reference to the cost of an extra of the Quebec Official" Gazette "' containing the proclamation of the Brome temperance election.

If, under the circumstances stated in your letter, the Dominion is liable for the payment of the charge, it must be because the Lieutenant Governor is exempted by his position from the responsililities which would devolve upon an official of the Quebec Government. As this is a legal point I should like to see the opinion of the Justice Department as to the responsibility of the Dominion.

If we are held responsible for extra expense incurred by a province when the delay is in transmitting documents from the Lieutenant Governor of the province to the otficials of that province, is there any valid objection against sending the documents to some official for whom the Provincial Government would be responsible in the event of delay?

> I am, sir, your obedient servant,

The Under Secretary of State.

\author{
J. L. McDOUGALL, A.G.
}

Department of the Secretary of State, Ottawa, Sept. 18, 1893.
Sir,-In continuation of the correspondence respecing the charge of \(\$ 20.99\) for cost of an extra of the Quebec Official "Gazette" containing the proclamation concerning the recent election under the Canada Temperance Act in the County of Brome, I have now the honour to acknowledge the receipt of your letter of the 14 th instant in which you express a desire for the opinion of the Department of Justice as to the responsibility of the Dominion for such charge, and also ask whether there is any valid objection to transmitting these proclamations to some official of the Provincial Government concerned instead of to the Lieutenant Governor.

With regard to the question of responsibility, I will refer the papers to the Department of Justice as you suggest.

As regards the second point which you raise, however, I may observe that according to the practice instituted at Confederation and confirmed as a regulation by Order in Council of the 16th February, 1880, the Lieutenant Governors are the channels of communication between this Government and the several Provincial Governments.

I am, sir, your obedient servant,
The Auditor General.
P. PELLETIER, Actg. Und. Secy. State.

\section*{Department of the Secretary of State, Ottawa, Oct. 30, 1893.}

Sir,-Referring to prior correspondence respecting the charge of \(\$ 20.99\) for cost of an extra of the Quebec Official "Gazette" containing the proclamation concerning the election under the Canada Temperance Act in the County of Brome, and with special reference to your letter of the 14th September upon ti e same subject, I have now the honour to transmit to you, herewith, copy of a letter, dated the 26 th instant, from the Deputy Minister of Justice, embodying his decision with respect to the points raised in your said last mentioned communication as to the responsibility of this Government for the payment of the amount in question.

I am, sir, your obedient servant,

\section*{Auditor General's Report-Part R}

\section*{Justice Department, Ottawa, October 26, 1893.}

Sir,--Upon the reference of correspondence with the Auditor General relative to the cost of an extra of the Quebec Official "Gazette" containing the proclamation of the Brome Temperance Act election, I have the honour, by direction, to say that there appears to be no ground for the Auditor's contention that because the proclamation was sent from your department in time for insertion in the regular issue of the "Gazette," the cost of the extra should be borne by the province.

The delay appears to have been occasioned by the absence from the seat of Government of His Honour, the Administrator of the Government. There appears to be no warrant fur holding the province responsible for a delay resulting from the movements of the Lieutenant Governor or the Administrator of the Government

With reference to the Auditor's suggestion that documents should be sent to some official for whom the Provincial Government would be responsible in the event of delay, I am to say that the Minister of Justice does not see how that suggestion could be carried out, inasmuch as the Dominion Government issues instructions to the Lieutenant Governor or the Administrator, as the case may be, but has no authority in these matters over any employee of the Provincial Government.

> I am, \&c.,

The Under Secretary of State.
A. POWER, Acting D.M.J.

\section*{Steamship Service: Certificate on Accounts.}

\author{
Audit Office, Ottawa, April 4, 1894.
}

Sir,-With reference to the certificate given by Mr. King, the Post Office Inspector at St. John, on the inclosed account from the Bay of Fundy Steamship Company, it seems to me it would be more in accordance with section 33 of the Audit Act and at the same time be more satisfactory evidence in regard to the proper performance of the service in question if Mr. King would certify somewhat after this manner :-
"I certify that the steamship service between St. John, Digby and Annapolis was "performed during the quarter ended March 31, 1894, by the Bay of Fundy Steamship "Company in accordance with the requirements of the contract as to frequency of "service and otherwise. Sailings were regularly made twice per week during the " months of January and February, and three times per week during March."

Of course the form here used could be changed so as to suit the particulars in each case. I should be glad if you would procure a certificate of this kind to the account inclosed, which I have passed in the meantime, and also to others of a similar nature in which payments are made quarterly, or at such periods as may include a number of trips.

I am, sir, your obedient servant,
The Deputy Minister of Trade and Commerce.

\author{
J. L. McDOUGALL, A.G.
}

Dept. of Trade and Commerce, Ottawa, April 5, 1894.
Sir,-I have yours of yesterday's date re the account of the Bay of Fundy Steamship Company for subsidy for services between St. John, Digby and Annapolis for the quarter ended 31st March last.

I notice your objection to the formal certificate used by the Post Office Inspector, in which I quite concur, hut allowed the account to be sent over as it was strictly within the terms of all previous accounts rendered by that company to which no objections were taken by your department.

I myself would prefer an entirely different reading of the account, and that the certificate would come from the Customs authorities instead of from the Post Office Inspector, for the reason that the subsidy is not merely for the conveyance of mails, and the Post Office Inspector can have no knowledge of the actual sailing and arrival of the steamers, and practically certifies to nothing more than the carrying of mails. I will send the account to the Collector at St. John for the proper certificate and will notify the Bay of Fundy Steamship Company that all other accounts must be made in terms similar to those made by other companies receiving subsidy.

I am, sir, your obedient servant,
The Auditor General.
W. G. PARMELEE, Deputy Minister.

\section*{Auditor General's Report-Part S}

\section*{Re Chinese Immigration Tax.}

Audit Office, Ottawa, February 20, 1894.
Sir,-I passed yesterday your applications for \(\$ 50\) each in favour of A. R. Milne, Collector of Customs, Victoria, B.C., to refund the tax to two Chinese, collected in error. I beg to point out that no statements are furnished to this office of the collections on account of this tax, and in consequence \(I\) have no means of properly auditing it. I have passed these and former applications though unable to verify them, pending an arrangement with the Customs Department as to the other classes of revenue. As this revenue is now under the direction of your department, it might be as well that you should take steps to have properly certified detailed statements of your collectors forwarded regularly to this office, accompanied by the counterfoils of the receipts issued, and any other vouchers obtainable.

Does their want of knowledge of English make it impracticable to make the refund cheques payable to the persons who are to receive the money?

I am, sir, your obedient servant,
The Deputy Minister Trade and Commerce.
J. L. McDOUGALI, A.G.

Trade and Commerce Dept., Ottawa, February 21, 1894.
SIr,-I have yours of yesterday's date in re Chinese capitation tax, in which you point out that no statements are furnished to you of the collections on account of this tax, and in consequence you have no means of properly auditing it.

I think you must be in error with reference to this, as the revenue derived from Chinese immigration passes through the accounts of the Department of Customs, and the monthly accounts current show you exactly the amount collected and paid in at each port each month, together with the dates of the deposits.

I would be very glad if we can arrange for the furnishing of any satisfactory or necessary information, but that suggested by you is not attainable, that is to say, there are no counterfoils of receipts, for the reason that no receipts are ever given. By reference to the Act you will observe that before Chinamen can be landed from any vessel, the full amount of their capitation tax must be deposited. This is considered always as an ad interim deposit, as the law goes on to provide that as regards those who are entitled to free entry, the amount so deposited shall be returned to them. This would necessitate an innumerable number of refunds, and to obviate that, to those who on examination immediately they are landed are found to be exempt, the money is handed back and no account of it is taken, while those who are subject to the tax are, under the law, required to register. The Statement, Form C. I. 4, by which they are registered is equivalent to an entry at Customs, and a copy of this is given you on each application for refund; in fact more evidence is furnished you with reference to refunds, than is given by the Customs Department, where simply the number of the entry is given. The entry itself you never see, but with Chinese refunds you have not only the number of the entry but a copy of it. If you would sometime when in this block kindly step into this office, I will show you our registers and the duplicates of the entry papers, and point out to you the completeness with which records connected with. Chinese are kept, and the impossibility of any moneys collected not being carried to account.

As regards the certificates of registration which are given to each Chinaman, they are on lithographed forms, machine numbered, and are issued in consecutive numbers, which numbers appear upon the entry forms themselves. These certificates are issued to the collectors at Vancouver and Victoria, the places where nearly all the Chinamen come in, in packages of one thousand each, for which a receipt is required, and every one of the thousand must be accounted for. If one is spoiled it must be returned to the office, so that the check upon the collection is as complete as is possible to be, but if we can devise any means that will further assist you in auditing, I will be very glad to do so.

I am, sir, your obedient servant,
The Auditor General.

\author{
W. G. PARMELEE, Chief Controller.
}

Audit Office, Ottawa, July 30, 1894.
Sir,-I have to-day passed your application for a payment of \(\$ 25,437.50\) to the Province of British Columbia for its share of the capitation tax collected in that province during 1893-94.

Referring to the question of a proper audit of this revenue, discussed in our correspondence of February dast, I have again to point out that I am not furnished with any statement in detail and have no means of determining that all Chinese immigrants, except those exempt, pay the tax, nor that collectors account for all the money they do collect.

The return of the Collector of Customs merely states the total amount of Chinese tax collected during the month

Is there any reason why the ship's officers should not furnish a certified statement of the total number of Chinese carried each incoming trip? The collector's return should account for the number called for by the ship's return, furnishing a detailed statement of all who pay the tax, and a separate statement of those exempt, giving the grounds of exemption.

You have not made any reference to the last paragraph of my letter with regard to making cheques payable to the persons entitled to receive the money.

I am, sir, your obedient servant,

Trade and Commerce Dept., Ottawa, October 10, 1894.
Dear Sir, -Would you kindly have searched out and send me Customs vouchers :Nos. 333, 895, 1493 and 1833 of 1891-92.
Nos. 166, 936, 1498 and 2209 of 1892-93.
Nos. 124, 1153, 1913 and 2530 of 1893-94, all refunds to Windsor and Annapolis Railway.

The Minister would like to see them in connection with negotiations now going on with a view, if possible, to some kind of a commutation of the claim they have for refunds under their charter.

> Yours truly,

The Auditor General.

\author{
W. G. PARMELEE.
}

\section*{Audit Office, Ottawa, October 13, 1894.}

Sir,-I am in receipt of your letter of the 10th instant asking for certain vouchers in connection with refunds of Customs duty to the Windsor and Annapolis Railway. The vouchers for 1891-92 were returned to the Customs Department 12th September last. The other vouchers asked for I am sending herewith.

I may inform you that the Government have a claim against this railway for shortages in its share of the revenue prior to June, 1892. The lease of the Windsor Branch to the Windsor and Annapolis Railway Company stipulates that one-third of the gross earnings shall be paid to the Government. I had a test audit made of the railway accounts at Moncton in June, 1892, and it then transpired that the Windsor and Annapolis Railway were accounting for all through tickets at a fixed rate of two cents per mile instead of one-third of the actual gross receipts. This fact was confirmed by a visit to the head offices at Kentville. After some correspondence, the company prepared a corrected return for the transactions of the year 1892-93, showing a balance due to the Government of \(\$ 573.17\), which was paid. There yet remains unsettled the shortage on the returns from the commencement of the lease till June 30, 1892.

As you stated in your letter that negotiations are now going on with a view of a commutation of the claim of the company for refunds of Customs duty, I consider it timely to acquaint you with the foregoing facts, so that both questions might be settled at the same time.

> I am, sir, your obedient servant,

The Deputy Minister Trade and Commerce.

\section*{Insurance on Yacht "Dream."}

\author{
Audit Office, Ottawa, Sept. 29, 1893.
}

Sir,-By Order in Council of July 5, 1881, the Government provided for the underwriting of its own risks as well on movable as on immovable property. Will you, therefore point out the special authority under which your department insured the steam yacht "Dream" in the "Union Assurance Society," paying therefor \(\$ 40\) premium, as per voucher 2505, in May last.

I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

Customs Department, Ottawa, Oct. 10, 1893.
Sir,-I beg to acknowledge receipt of your letter of 29th ultimo, calling my attention to the Order in Council of July 5, 1881, under which provision was made for the underwriting by the Government of its own risks, as well on movable as on imporable property,-and asking for the special authority under which this department insured the steam yacht " Dream," recently purchased.

I beg to advise you that, as the vessel in question was intended for use in the harbour at the port of Quebec, and it was considered by the Controller of Customs that she would be constantly exposed to risk and probable loss, he ordered that an insurance of \(\$ 2,000\) should be placed upon her, which was accordingly done.

I shall place your letter before the Controller for his consideration.
I am, sir, your obedient servant,

\section*{The Auditor General.}

\section*{T. J. WATTERS, Acting Commissioner.}

\section*{Audit Office, Ottawa, Nov. 15, 1894.}

Sir,-In your favour of the 10 th October, 1893, acknowledging my letter of the 29th Sept., wherein I called your attention to the insurance placed on the steam yacht "Dream," you say that you will "place my communication before the Controller for his consideration." Is it intended to make any further explanation?

I am, sir, your obedient servant, J. L. McDOUGALL, A.G.

The Acting Commissioner of Customs.

\section*{Customs Department, Ottawa, Nov. 17, 1894.}

SIR,-I have the honour to acknowledge receipt of your letter of the 15 th instant, being further on the subject of the payment of the insurance premium on a policy of \(\$ 2,000\) on the steam yacht "Dream," the property of this department, and used in the harbour at the port of Quebec.

I would state that the terms of Order in Council of the 5th July, 1881, under which the Government was, from such date, to underwrite its own risks on movable as well as on immovable property, had not been brought to the attention of the Hon. the Controller of Customs, and had in fact been lost sight of. The policy has since been allowed to lapse.

I am, sir, your obedient servant,
T. J. WATTERS, Acting Commissioner.

The Auditor General.

\section*{Newspapers for Department charged to Outside Vote.}

Audit Office, Ottawa, May 17, 1894.
Sir,-I notice that the account of Messrs. J. Durie \& Son, for sundry newspapers and reviews, amounting to \(\$ 133\), paid by cheque No. 33995, has been charged to account of Board of Customs.

As the subscriptions appear to have been for the use of the Controller, the amount should, I think, have been made a charge against your Civil Government Contingencies.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Acting Commissioner of Customs.

\title{
-Re Collectors’ Bank Accounts.
}

\author{
Audit Office, Ottawa, March 7, 1894.
}

Sir,-Cheques issued by Collectors in payment of the salaries of their staft, are now forwarded to this office.

I assume that the Collectors at all the principal ports furnish you with a monthly statement of their bank account, showing the funds received from the department, cash received as proceeds of seizures, and all other miscellaneous receipts; and on the credit side the disbursements thersfrom. I have to request that this statement and the corresponding cheques may be forwarded regularly to this office.

I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Customs Department, Ottawa, March 15, 1894.}

SIR,-I have the honour to acknowledge receipt of your letter of the 7th inst., on the subject of the bank account of Collectors of Customs.

In reply I would inform you that Collectors of Customs do not and are not required, to furnish this department with a monthly statement of their bank account, but an account current (Form K. 2) is furnished monthly by all Collectors, showing the funds received by them from this department, or as proceeds of seizures, or from other miscellaneous sources, and also showing the disbursements therefrom,--such account current being forwarded to you for examination.

I note your request that the cheques issued by Collectors of Customs as against their bank account, should be forwarded regularly to your office, and have to state tiat I shall place the matter before the Honourable the Controller of Customs for his consideration.

I am, sir, your obedient servant,
The Auditor General.
THOS J. WATTERS, Actg . Commr.

\section*{Re Sale of Unclaimed Goods}

\section*{Audit Office, Ottawa, March 19, 1894.}

Sir,-In the accounts of 1892-93, \(\$ 284.14\) is shown as having come to account for proceeds of sales of unclaimed goods. (See Audit Report, page F-22). No vouchers nor details of any kind have been furnished. Please direct that in future details of such sales shall be furnished, certified by the auctioneer and the Customs officer in charge, and vouchers for any disbursements.

> I am, sir, your ohedient servant.

\author{
Customs Department, Ottawa, March 30, 1894.
}

Sir,-I have the honour to acknowledge receipt of your letter of the 19 th instant, on the subject of sale of unclaimed goods, and note your request that details of such sales may be furnished you for the future, together with vouchers for any disbursements connected therewith.

I beg to say that I shall issue such instructions as will cause your request to be complied with.

I am, sir, your obedient servant,
THOS J. WATTERS, Actg. Commr.

\section*{Re Examining Warehouse Fees.}

\section*{Audit Office, Ottawa, March 19, 1894.}

Sir,-In connection with the examination of this class of receipts and others of a like nature collected by your officers, I wrote you October 12, 1892, and again April 10,1893 . I have not received any reply to either letter, and the returns asked for in these letters have not been furnished.

I have again to ask your attention to the matter.
I am, sir, your obedient servant, The Acting Commissioner of Customs. J. L. McDOUGALL, A.G.

Customs Defartment, Ottawa, March 31, 1894.
Sir,-I have the honour to acknowledge receipt of your letter of the 19 th inst., calling my attention to your letters of the 12 th October, 1892 , and the 10 th April, 1893, on the subject of Examining Warehouse fees,-and have to state that I shall issue such instructions to the Collectors of Customs at whose ports such fees are collected, as will ensure the supplying of proper detailed statements of the same for the future.

I am, sir, your obedient servant,

\author{
The Auditor General.
}

THOS. J. W ATTERS, Actg. Commr.

\section*{Re Customs Seizures.}

\section*{Audit Office, Ottawa, March.5, 1894.}

Sir, -D During the fiscal year \(1887-88\) distribution was made to seizing officers and \(^{2}\). informers of their share of the proceeds of seizures of property imported by the Vacuum Oil Company and the Niagara White Grape Company. Subsequently these companies took legal action and the Government was obliged to refund the amount of seizures and costs. In such cases are the seizing officers required to refund the amount paid them, and were the amounts distributed in these two cases refunded?

I am, sir, your obedient servant.
The Acting Commissioner of Customs.

\author{
J. L. McDOUGALL, A.G.
}

Audit Office, Ottawa, March 19, 1894.
Sir,-The present practice of your department is to give Mr. McMichael an advance of \(\$ 1,000\) at the commencement of the fiscal year, out of which he pays the salaries and expenses of the special agents. Subsequently he gets a cheque for such of these expenses as are chargeable against seizures revenue, which he credits in his account current. As this cheque is issued merely for purposes of account, would it not be preferable
to pass an entry warrant instead ? The details of the expenses chargeable to seizures are not given. The cheques issued by Mr. McMichael have not been furnished. The vouchers furnished for duty paid snould be signed by the Collector of the port.

I am, sir, your obedient servant,
The Acting Commissioner of Customs.

\author{
J. L. McDOUGALL, A.G.
}

\section*{Customs Department, Ottawa, March 30, 1894.}

SIR,-I have the honour to acknowledge receipt of your letter of the 19th instant, on the subject of the advance granted to Mr. Financial Inspector McMichael, from which to pay the monthly salaries and expenses of the special branch of this department, and I note your suggestion that, instead of reimbursing the officer named for such expenses as are properly chargeable to seizure revenue by means of a cheque from this department, the same might be provided for by the issuing of an entry warrant.

In reply I beg to state that, in my opinion, such a change would not be desirable, as at present the accounts rendered by Mr. McMichael, and which show credits given for all amounts originally expended by him on Board of Customs account, but which are later found to be applicable to other funds, make it possible to follow such credits rigidly, and to ensure that they are properly made ; further, as the amount placed at this otficer's credit as an advance exceeds but very little the actual monthly expenditure, it is important where he has expended moneys which apply directly to seizures and can be reimbursed from proceeds of such seizures, he should immediately be placed in funds to enable him to keep his advance account up to the full limit.

I note your request that the cheques issued by Mr. McMichael should be furnished for your examination, and also that the vouchers furnished by him for duties paid, should be signed by the Collector of the port concerned, and beg to state that I shall issue the necessary instructions to have your requirements met in this matter.

I am, sir, your obedient servant,
The Auditor General.
THOS. J. WATTERS, Actg. Commr.

\section*{Audit Office, Ottawa, March 21, 1894.}

Sir,-On the return of the Collector at Quebec for the September quarter (K. 6) I observe that the Schooner "P. Fortin" and two sails belonging thereto, seized by Chas. N. Robitaille, acting preventive officer, were sold by private sale for \(\$ 260\). Please send me all the papers in connection with these sales.

Under what circumstancés is it the practice to dispose by private sale of goods seized, and by whose authority are such sales made?
\[
\begin{aligned}
& \text { I am, sir, your obedient servant, } \\
& \text { J. L. McDOUGALL, A.G. }
\end{aligned}
\]

The Acting Commissioner of Customs.

\section*{Customs Department, Ottawa, April 4, 1894.}

SIR,-I beg to acknowledge receipt of your letter of 21 st ultimo, on the subject of the disposal by private sale of the seized schooner "P. Fortin."

As requested by you, I now send herewith the papers relating to this case, viz. : files 5692 of 1892 and 89 of 1893 , also account sales (K.7) amounting to \(\$ 260\), dated 19th July last.

I beg to advise you that the vessel and sails in question were disposed of by private sale, under the terms of section 190 of the Customs Act.

> I am, sir, your obedient servant,

Audit Office, Ottawa, April 6, 1894.
Sir,-I am returning herewith the papers relating to the sale of the schooner " P . Fortin," received with your letter of the 4th instant.

The sale of this vessel for \(\$ 250\) was authorized May 20, 1893, and among the papers on file is a letter dated April 6, 1893. from C. N. Robitaille, the officer who made the seizure, stating that a respectable merchant of Quebec would give \(\$ 500\) or perhaps a little more for the vessel. He adds that on account of her age \(\$ 500\) or \(\$ 600\) would be a good price for her.

The two sails were sold for \(\$ 10\). In his report of the seizure, the Collector at Quebec places their probable value at \(\$ 100\).

There is nothing on the file to reconcile these differences. They seem to call for some explanation.

I am, sir, your obedient servant, J. L. McDOUGALL, A.G.

The Acting Commissioner of Customs.

\section*{Audit Office, Ottawa, April 3, 1894.}

Sir,-Referring to voucher No. 816, dated October 12, 1893, for \(\$ 2,927.72\), being the distribution in connection with certain seizures made by the officers of the Special Branch, I notice that a special deduction is made of 5 per cent of the gross proceeds in addition to the Financial Inspector's commission of 5 per cent. No vouchers are furnished and I have to inquire to whom the former deduction is paid. Please have the vouchers furnished.

I have also to ask why the whole of the net proceeds of seizure No. 321 is divided between the seizing officer and the informer instead of according to the usual practice of one-third to each.

I am, sir, your obedient servant.

> J. L. McDOUGALL, A.G.

The Acting Commissioner of Customs.

\section*{Customs Department, Ottawa, April 17, 1894.}

SIr,-I have the honour to acknowledge receipt of your letter of the 3rd instant, making inquiry re the distribution of certain seizures of the Special Branch series, vide voucher No. 816, dated the 12 th October last.

In reply I beg to state that the deduction of 5 per cent of the gross proceeds, for which you ask to be furnished with vouchers, is not a payment, but an amount deducted, under the terms of Order in Council of 8th June, 1892, whereby this deduction is authorized from the gross proceeds of all Customs seizures and of all fines or penalties imposed in connection with any Customs seizure or for violation of any Customs law, and may be deposited to the credit of the Receiver General, as a special fund, from which may be paid, under authority of the Minister of Customs, any expenses legitimately incurred and regularly vouched for in connection with the Customs preventive service. This deduction is shown on the distribution sheet in order that a record of the amounts so deducted may be made, and to enable the department to state at any time, what sum is to the credit of this fund.

With reference to your further inquiry as to why the whole of the net proceeds of seizure No. 321 is divided between the seizing officer and the informer, I beg to state that such award was made by authority of the Hon. the Controller of Customs, who may, under the terms of the above noted Order, at his discretion, award the whole or any portion of a fine or penalty under \(\$ 100\) to the officers and informers, if any, as a reward for vigilance.

The Auditor General.
I am, sir, your obedient servant,
THOS. J. WATTERS, Actg. Commr.

Audit Office, Ottawa, April 20, 1894.
Sir,-I am in receipt of your letter of the 17 th instant explaining that the deduction of 5 per cent of the gross proceeds of seizures, \&c., is to provide a special fund from which may be paid any expenses legitimately incurred and regularly vouched for in connection with the preventive service.

I have to inquire if it is contemplated that all the expenses of the officers of the special service, with the exception of their salaries, shall be met from this fund?

I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Customs Department, Ottawa, April 28, 1894.}

Sir,-I beg to acknowledge receipt of your letter of 20 th inst., on the subjest of the deduction of 5 per cent from gross proceeds of seizures, in order to provide a special fund from which may be paid any expenses legitimately incurred, or regularly vouched for in connection with the preventive service of this department.

I note your inquiry as to whether it is contemplated that all the expenses of the officers of the special sarvice, with the exception of their salaries, shall be met from this fund, and in reply would state that the expenses of special officers, wherever possible, are now charged against the particular seizures in connection with which such expenses were incurred, and such practice will be continued for the future. It may occur at any time that special investigations will require to be made into alleged frauds upon the revenue, apart from the ordinary duty of the special preventive officers, and the expenses attending such investigations will be charged against the special fund herein referred to. It may be, when the amount at credit of the fund has reached a sufficient limit, that the question will receive consideration as to whether the expense of special preventive officers, outside those chargeable to particular seizures, may be met from such fund, and I shall place your letter before the Hon. Controller of Customs for his consideration.

I am, sir, your obedient seruant,
The Auditor General.
THOS. J. WATTERS, Actg. Commr.

Audit Office, Ottawa, June 1, 1894.
Sir,-The large number of seizures undisposed of at the port of Montreal, seems to call for some explanation. The Return (K. 6) for the December quarter of 1893, the last to hand, contains 80 seizures undisposed of. Of these, one was made in 1864, and the case is in court ; one in 1866, released on bond of A. M. Delisle; one in 1879 awaiting orders from department; six in 1880, five of which are in court, and one awaiting orders from department. The remaining seventy-one seizures are awaiting orders from the department, of which three are in 1881, five in 1882, two in 1885, two in 1886, two in 1889, two in 1890, thirteen in 1891, fourteen in 1892 and twentyeight in 1893.

What disposition has been made of the goods held under these seizures?
I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, July 30, 1894.
SIR, -Referring to our correspondence of July and August, 1892, in which I called attention to the incomplete vouchers furnished for refunds of seizure, I have again to bring the matter to your notice. The vouchers furnished now, as then, are merely receipts for the sums paid.

\section*{Auditor General's Report-Part S}

The cheques, instead of being made in favour of the Collectors to be by them paid over to the persons entitled to payment, should be made in favour of the latter.

Is there any reason why all the papers, including the Controller's decision, should not be furnished to this office?

I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.g.

\section*{Customs Department, Ottawa, August 1, 1894}

SIR,-I have the honour to acknowledge receipt of your letter of the 30th ult., in which you again draw my attention to the fact that vouchers furnished you for refunds made on account of seizures, are merely receipts for the sums paid, and I note your suggestion that all the papere relating to seizure matters in respect of which refunds have been made, should be furnished to your office.

I beg to remind you that seizure expenditures are not made from appropriations granted by Parliament, and while this department has made no objection in the past to forwarding to you all vouchers for expenditures made upon seizure account, I have to point out to you that under the terms of section 50 of the Consolidated Revenue and Audit Act, and in the absence of any notification to this department that regulations have been made by the Treasury Board for the audit by you of seizure accounts, it does not appear to me to be competent for your office to call for the Controller's decision and other papers relating to seizure cases in which expenditure may be made.

I note your further suggestion that cheques for refunds on account of seizures, instead of being made in favour of Collectors of Customs, to be by them paid over to the persons entitled to payment, should be made in favour of the latter, which will be duly considered.

I am, sir, your obedient servant,
The Auditor General.
THOS. J. WATTERS, Actg. Commr.

\section*{Audit Office, Otrawa, August 2, 1894.}

NIr,-I have the honour to acknowledge receipt of your letter of yesterday in which you express doubts as to my duty in connection with the examination of seizures expenditure.

Possibly you have overlooked the action of the Treasury Board as shown on page 12 of the report of this office for 1886 . Kindly let me know if such is the case.

I am, sir, your obedient servant,
The Acting Commissioner of Customs.

\author{
J. L. McDOUGALL, A.G.
}

\section*{Customs Department, Ottawa, August 8, 1894.}

Sir,-I have the honour to acknowledge receipt of your letter of the 2nd instant, in reply to my communication of the lst August, and thank you for drawing my attention to the action of the Treasury Board, as shown on page 12 of your report for year 1886, of which no record appears in this department.

I have now to say that in all future instances where remissions are made on account of seizures, I shall cause to be attached to the voucher for such remission, a copy of the Controller's decision as rendered in the case, which will make clear to you the basis upon which such remission has been made.

Audit Office, Ottawa, December 3, 1894.
SIR,-In the expenditure for distribution of seizures accounts of 1893-94, vouchers 1783, 2141 and 2143, port of Rimouski, and vouchers 1727 and 1786, port of Gaspé, contain payments to Hypolite Boudreau amounting to \(\$ 151.63\), and to Private O'Brien, amounting to \(\$ 11.99\). Opposite these names appears the word "deserted." Please let me know if these sums were refunded. The cheques seem to have been issued to Geo. M. May, Commander of the "Constance."

I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Vouchers Short.}

Audit Office, Ottawa, December 7, 1894.
Sir,-The following vouchers appertaining to the accounts of 1893-94 have not been furnished:-

\section*{Refunds of Revenue.}

July.-No. 73, \$2.75, J. Crawley, Winnipeg.
Dec.-No. 1502, \$1,161.67, Mercer Co. (Ltd.), Toronto.
June.-3056, \$6.75, Acting Collector, Niagara Falls seizures.
Dec.-1397, \$17.35, Collector, Sydney.
I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Re Steamboat Inspection Revenue.}

\section*{Audit Office, Ottawa, April 26, 1894.}

Sir,-The following vessels are entered on the returns of the Inspectors as having paid the fees, but the fees are not accounted for on the Collectors' returns :-
\begin{tabular}{|c|c|c|c|c|}
\hline Vessel. & Inspector. & Port. & Fees. & Date of Payment. \\
\hline & & & \$ cts. & \\
\hline Dolphin. & Geo. F. Clift. & Montreal. & 548 & July 25 \\
\hline Coponaning & John Dodds. & French Rive & 644 & Sept. 25 \\
\hline Maggie McLean & do & do & 796 & do 25 \\
\hline Norcross.. & do & do & 660 & do 25 \\
\hline Lilly. & & do & 676 & do 26 \\
\hline Purvis & J. Johnson. & Gore Bay ...... & 1812 & Nov. 23 \\
\hline
\end{tabular}

It is worthy of notice that three of these vessels under the port of French River were reported to you May 13, 1892, as unaccounted for, and I do not find that I have since been informed of the action taken by your department in reference thereto.

I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

Audit Office, Ottana, April 24, 1894.
Sir,-Referring to previous correspondence on the question of departmental responsibility for the collecting and auditing of Steamboat Inspection Revenue. I have now to inquire if you have yet had an interview with the Deputy Minister of Marine and Fisheries in reference thereto ; and, if so, what arrangements, if any, have been concluded.

I am, sir, your obedient, servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, November 5, 1894.
Sir,—You wrote, November 22, 1893, that you would take an early opportunity of conferring with the Deputy Minister of Marine and Fisheries in reference to the question of having Inspectors' returns of Steamboat Inspection Revenue audited in your department.

I wrote you April 24 last, inquiring if you had the proposed interview, and what arrangements had been concluded. I have not since heard from you on the subject, and would again ask your attention to the matter.

I am, sir, your obedient servant,
The Acting Commissioner of Customs. J. L. McDOUGALL, A.G.

\section*{Removal Expenses not paid according to O. C. of Sept. 8, 1871.}

\author{
Audit Office, Ottawa, Februaiy 9, 1894.
}

Sir,-I beg to bring to your notice the Order in Council of Sept. 8, 1871, regarding removal expenses, the provisions of which are as follows :-
"No removal allowances can be granted except on report of the Treasury Board" No removal allowance is to be granted if the salary is increased except in special "cases, and on report of the head of the department. A removal allowance is not " to exceed the actual cost on account rendered."

In connection with the expenses of removal of Excise officers and their families from one port to another, I have not received the reports of the Treasury Board. Please supply me with them.

\section*{I am, sir, your obedient servant,}

The Commissioner of Inland Revenue.
J. L. McDOUGALL, A. \(\boldsymbol{G}\).

\section*{Inland Revenue Dept., Ottana, February 27, 1894.}

Sir,-In reply to your communication of the 9 th inst., calling my attention to an Order in Council of the 8th Sept., 1871, I have the honour to inclose herewith a copy of a departmental regulation of May 31st, 1872, by which this department has been governed in respect of removal expenses from that date to the present.

The department believes the regulations referred to were, when published, intra vires of the Department, and, being so, amended the regulations to which you have referred, in respect of Inland Revenue removal expenses.

I am, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

Inland Revenue Dept., Ottawa, May 31, 1872.
Sir,-As there appears to be some uncertainty as to the manner in which the expenses of outside officers of this department, removed from one place to another, on duty, are to be dealt with, I beg to inform you that the following rules are to govern the auditing of such accounts :-

1st. In the case of officers without families, they are to receive the actual necessary expenses of their journey to the place to which they are removed, and a sum not exceeding the cost of one week's board at the ordinary rate charged at respectable boarding-houses at the place at which they are stationed. All other expenses are to be borne by themselves. Should they be recalled, the necessary expenses of the return journey are to be allowed.

\section*{Auditor General's Report-Part S}

2nd. When officers having families are required to remove from home on temporary duty, their necessary travelling expenses and the full amount of their board while on such temporary duty, at the ordinary rate charged at the place at which they may be stationed, are allowed.

3 rd . When officers having families are notified that they are required to make a change of residence, without promotion, the necessary expenses of removing themselves and their families, and their furniture, together with one week's board for themselves and the members of their families, at the ordinary rate charged at the place to which they are removed, are allowed.

4th. When officers without families are removed on promotion, no travelling expenses are to be allowed.

5 th. When officers having families are removed, on promotion, the allowance of travelling expenses will be submitted to the department, to be specially dealt with as the circumstances of the case may require.

I beg to remain, sir, your obedient servant,

> A. BRUNEL, Commissioner.

\section*{Audit Office, Ottawa, March 1, 1894.}

Sir, --Let me acknowledge receipt of your letter of the 27 th ultimo concerning removal expenses. In reply 1 beg to point out that the Treasuary Board or the Governor in Council has the power to make general regulations with reference to the departments, which an individual department must respect. Your regulation, therefore, is, in my opinion, ultra vires while the general regulation is not repealed.

I am, sir, your obedient servant, The Commissioner of Inland Revenue.

\author{
J. L. McDOUGALL, A.G.
}

\section*{Audit Office, Ottawa, June 8, 1894.}

Sir,_-On February 27 last you wrote that you considered that the departmental regulations regarding payment of removal expenses were, when published, intra vires of the department, and being so, amended the regulations made by the Governor in Council. On March 1, I replied that "the Treasury Board or Governor in Council has the power to make general regulations with reference to the departments, which an individual department is bound to respect, and that, therefore, your regulation is ultra vires while the general regulation is not repealed."

Please let me know what steps have been taken towards making the practice of the department conform with the general regulations, or obtaining the sanction of the Governor in Council for the practice of the department.

I am, sir, your obedient servant,
The Comraissioner of Inland Revenue. J. L. McDOUGALL, A.G.

Audit Office, Ottawa, Dec. 27, 1894.
Sir, —You have not replied to my letter of June 8 last with reference to the regulations under which removal expenses of officers in the Inland Revenue service are paid. Please let me hear from you on this subject at your early convenience.

I am, sir, your obedient servant, The Commissioner of Inland Revenue. J. L. McDOUGALL, A.G.

\section*{Inland Revenue Dept., Ottawa, Dec. 27, 1894.}

Sir,-With reference to your communication of this day's date calling attention to your letter of the 8th June last respecting the regulations under which removal expenses of officers in the Inland Revenue service are paid, I have the honour to say that regulations have been prepared and the recent delay has arisen from the fact that the Treasury Board has not been available. They will be presented at an early date.

I am, sir, your obedient servant,
The Auditor General. E. MIALL, Commissioner.

\section*{Certificates on Vouchers.}

Audit Office, Ottawa, August 18, 1894.
Sir,-The form used by your collectors and other principal outside officers for the periodical summaries of their expenditure has the following certificate printed on it :"I hereby solemnly and in my conscience declare that the foregoing account (except " that portion of it expended by subordinate officers, which is declared by them) is just " and true in all its particulars, and that the expenditure was made wholly for the pub" lic service." 'I'he form for use by subordinate oficers is the same as the above, with the omission of the words in brackets and the addition of a statement to the effect that the whole of the expenditure was incurred by the officer as stated. The vouchers for expenditure inade directly by the department are in most cases either marked "correct" over the initials of an officer of the department, or are merely initialled.

I beg to point out that these certificates are not sufficient to meet the requirements of section 33, Consolidated Revenue and Audit Act, and that, although the certificates on the summaries of accounts are of advantage as fixing the responsibility of the officer in charge at each place for the expenditure there, yet each separate voucher should be certified. The proper officer to give the certificate in any case is the one who has personal knowledge of the facts for which he vouches, and he should understand that in giving a certificate he assumes full responsibility for the correctness of that to which he certifies.

Vouchers for supplies should be certified "materials received, prices fair and just." The certificate on vouchers for labour should state that the service has been performed and the price is fair and just. The certificate on temporary employees' accounts should state that such employees have been in attendance every day for which payment is made, and when more than the minimum salary of a third class clerk is paid to an extra clerk the certificate that the work is technical and that the clerk has special qualifications should be attached. The Order in Council of February 6, 1893, provides that accounts for travelling expenses shall be certified as follows :- "The whole of the expenditure was incurred on Government business."

Please give instructions to have the necessary certificates placed on all accounts for the current fiscal year.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Inland Revenue Dept., Otrawa, October 5, 1894.
Sir,-I beg to acknowledge receipt of your communication of Aug. 18 ult., suggesting certain changes in certificates given by collectors of Inland Revenue and other principal officers of their expenditure.

I do not quite understand what you desire. If your remarks apply to expenditure made directly by the department for supplies and labour, I will see that, in future, your requirements are met.

As applied to the outside officers' vouchers I fail to see how a more comprehensive certificate can be given than that now in use.

\section*{Auditor General's Report—Part S}

They do not buy supplies, unless specially authorized by the department in exceptional cases-neither do they employ temporary labour unless specifically instructed to do so from Ottawa.

We have a large stock of these forms and unless it can be shown that they do not comply with the requirements of the Act or of some Order in Council passed under authority of the Act, it would seem to be a wilful waste to destroy them.

> I am, sir, your obedient servant,
> E. MIALL, Commissioner.

The Auditor General.

Audit Office, Ottawa, December 31, 1894.
Sir,-In reply to your letter of October 5 regarding certificates, I beg to say that, in order to meet the requirements of the Audit Act, each separate voucher should be certified, whether it is paid by a separate cheque or is included with other vouchers in support of a statement of expenditure made by an officer of the department. This would not make it necessary to do away with the forms now used by your outside officers for making their periodical statements of expenditure, for, as pointed out in my letter of August 18 last, the certificates on these forms are of advantage in fixing the responsibility of the officer in charge at each place for the expenditure there.

I am, sir, your obedient sefvant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Methylated Spirits accounts: Certificates.}

Audit Office, Ottawa, February 8 , 1894.
Sir,-I beg to acknowledge receipt of your application No. 198 for a payment of \(\$ 8,423.55\) to H. H. Collier.

I note Mr. Armstrong's report on the backings of the vouchers as to the number of gallons of wood naphtha warehoused; but each of the vouchers should bear his certificate as to the correctness of the quantity charged for. The price should also be certified as "fair and just" or "according to contract" as the case may be.

The papers are returned for the required certificates.
I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Commissioner of Inland Revenue.

\section*{Memo. by Chief Accountant.}

Inland Revenue Dept., Feb. 13, 1894.
In regard to this matter I have to say that I 'phoned Mr. Sutherland of Auditor's Office, to know if they could obtain draft on New York on more favourable terms than we could. After consulting with Finance Department, he replied that we could most likely get better terms by intervention of Finance Department. We then sent application accompanied by invoices. This was on 3rd instant. We have been accustomed to buy drafts with our own cheques, and the certificate asked for was never before asked for in auditing accounts of this nature. Finding that my attempt to economize has resulted in such delay, I have bought a draft as usual.
P. M. R.

Audit Office, Ottawa, June 19, 1894.
Sir,_With reference to your file No. 65167, a copy of which has been sent to this office, I beg to say that it-is clearly necessary, under sec. 33 of the Audit Act, that
the officer of your department who has personal knowledge of the facts should certify on each of the vouchers for wood naphtha, as well as for other supplies, that the quantity charged for is correct and that the price is fair and just. Please see that the required certificate is placed on such vouchers whether they are paid by departmental or Receiver General's cheques.

> I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

The Commissioner of Inland Revenue.

\section*{Certificates on Accounts of B. A. Bank Note Co.}

\section*{Audit Office, Ottawa, May 4, 1894.}

Sir,-The accounts which have been sent me in support of payments during July, August and September last to the British American Bank Note Company for Inland Revenue stamps, bear the certificate "Correct" signed by Mr. George Fowler. Under sec. 33 of the Consolidated Revenue and Audit Act, "the officer of the department who receives the stamps should certify that the number charged for has been received, and the officer who examines the account with the contract, to see that the supplies are of the class called for and the prices are those fixed by the contract, should certify to these facts. If Mr. Fowler performs both these services his certificate should be in the form "Goods received, prices according to contract." If any other oflicer has a part of the duties mentioned he should certify to the facts of which he has personal knowledge. Please have the accounts for July, August and September, (which are returned herewith) and all subsequent accounts certified as indicated.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Commissioner of Inland Revenue.

\section*{Travelling Expenses and Board.}

\author{
Audit Office, Ottawa, June 7, 1894.
}

Sir,-In connection with the expenditure under the head of Excise for the first three months of the present fiscal year, I have to ask your attention to the following remarks on the charges for travelling expenses and board:-

Belleville.-Jas. Spereman is allowed \(\$ 12.50\) a month for travelling expenses to Corby's distillery during the months of July and August. Please have details supplied of this expenditure and of any like payments subsequently made.

In the case of the charges for board made by the officers mentioned below, the accounts of the persons to whom the money was paid are required :-

Brantford.-A. C. Hawkins, 22 days' board, August 3-25, at Woodstock, \$33.
Guelph.-J. J. Johnson, 21 days' board, Aug. \(21-\) Sept. 10, at Galt, \(\$ 21\).
London.-Jas. McSween, board, July 17 to Aug. 7, at Strathroy, \$31.50.
Windsor -G. A. Allen, at Pelee Island, 34 days' expenses (March 2-April 4, 1893), \(\$ 17 ; 6\) days' board (June 23-30), \$6.

A number of your oficers, in their accounts for travel do not give their living expenses in detail, in some cases entering the total for each trip in one lump sum, and in others charging a fixed amount per day. To make it clear that the Order in Council of February 6,1893 , is being observed the items of living expenses should be given under their dates and hotel bills should be supplied whenever a stay of one day or more is made in a place.

> I am, sir, your obedient servant,

> J. L. McDOUGALL, A.G.

\section*{Inland Revenue Dept., Ottawa, July 10, 1894.}

Sir,-In reply to your communication of the 7 th instant, asking for details of expenditure under the head of Excise by certain officers, I have the honour, by direction, to inclose copy of our file No. 65859, with a memorandum endorsed thereon by thechief accountant with the required information.

I am, sir, your obedient servant,
WM. HIMSWORTH, Secretary.
The Auditor General.

Memo. by Chief Accountant, July 7, 1894.-The \(\$ 12.50\) per month travelling to Corby's is a special arrangement dating from 1887. The Order in Council quoted does not require any vouchers except a certificate from the officer that the whole was spent on Government business. The Order in Council allows actual reasonable expenser, and I think this department is the best judge of the reasonable. The living expenses are placed under their respective dates, although sometimes it is said, "from - to -." Hotel bills would not give all personal expenses, for instance, porters, boot-blacks, te.-P. M. R.

Referred for the information of the Auditor General.

\section*{E. MIALL.}

\section*{Audit Office, Ottawa, July 13, 1894.}
\(S_{\text {Ir, -I }}\) am in receipt of a copy of your file No. 65859 containing the chief accountant's remarks on my letter of the 7 th ultimo regarding travelling expenses. With reference to his statement that the \(\$ 12.50\) a month allowed to James Spearman for travel from Belleville to Corby's distillery is a special arrangement dating from 1887, I beg to point out that the regulation under which travelling expenses should be paid is the Order in Council of February 6, 1893, and not any special arrangement. Please have the statement of actual expenditure furnished.

The fact that the Order in Council does not mention vouchers for board is no reason why they should not be furnished, There is the same ground for obtaining vouchers for this as for any other expenditure.

I would again draw your attention to the necessity of having the items of expenditure given in accounts for travelling expenses.
\[
\begin{aligned}
& \text { I am, sir, your obedient servant, } \\
& \text { J. L. McDOUGALL, A.G. }
\end{aligned}
\]

\section*{Travel of O. Higman to Chicago ; Account not Properly Made out.}

Audit Office, Ottawa, November 15, 1894.
SIr,-In August, 1893, an average of \(\$ 200\) was made from the vote for Weights and Measures to Mr. O. Higman, on account of his expenses attending the International Electrical Conference at Chicago.

Within the past week an account dated July 18, 1894, has been sent me for the expenditure under the above advance, in which Mr. Higman gives, as his expenses from August 15 to 31,1893 , the following items :-
\[
\begin{aligned}
& \text { Railway fares, cab-hire, \&c. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . } 600000 \\
& \text { Personal expenses . . . . . . . . . } 000
\end{aligned}
\]

Please obtain from Mr. Higman a detailed statement of his expenditure, giving dates, any charge for board in Chicago being supported by hotel bills.

Why was the account not rendered within one month from the conclusion of the trip, as required by the Order in Council of February 6, 1893?

I would also ask your reasons for considering that this money has been expended for the purpose for which the vote for weights and measures inspection was intended to provide.

> I am, sir, your obedient servant,
> J. L. McDOUGALL, A.G.

The Commissioner of Inland Revenue.
Inland Revenue Dept., Ottawa, November 23, 1894.
Sir,-I have the honour, by direction, to incloss herewith copy of our file No. 66711, being a communication from yourself of the 15 th inst., asking for a statement in detail of the expenditure of Mr. O. Higman in attending the International Electrical Conference at Chicago, on which is endorsed a copy of Mr. Higman's statement, and Mr. Commissioner Miall's report thereon.

The Auditor General.

> I am, sir, your obedient servant,
> WM. HIMSWORTH, Secretary.

Mr. Higman's Statement, November 21, 1894.
My recollection of the arrangement under which \(\Upsilon\) went to Chicago is that there was to be no salary in connection with the work, that my personal expenses were not to exceed \(\$ 10\) per diem, exclusive of the cost of travel. As you will see by the account, my expenses for the 16 days fell \(\$ 20\) short of this amount. I kept no detailed account of the expenditure.
O. HIGMAN.

Mr. Commissioner Miall's Report, November 23, 1894.
Mr. Higman's recollection is correct. My reason for considering the payment as coming under the head of Weights and Measures is that it is purely a:matter of weights and measures. The measure of electrical energy is quite as properly under that Act as the measure of capacity or weight, at least so the department views it.
E. MIALL.

\section*{Audit Office, Ottawa, Dec. 31, 1894.}

Sir,-I am in receipt of a copy of your departmental file No. 66711, endorsed with a copy of Mr. Higman's statement regarding his expenses at Chicago in August, 1893, and your report thereon.

In reply, I beg to point out that accounts for travelling expenses should be made out in accordance with the terms of the Order in Council of February 6, 1893, which provides for the payment of "actual reasonable travelling and living expenses," whereas Mr. Higman's account contains nothing to show that the amount of \(\$ 200\) represented either actual or reasonable expenses.

With regard to the statement that this expenditure for attending the Electrical Conference at Chicago was purely a matter of weights and measures, I would remind you that the vote for Weights and Measures inspection is taken to cover expenditure incurred in carrying out the Weights and Measures Act which deals with the measures of capacity and weight alone, and, in my opinion, cannot in any way be applied to the measure of electrical energy.

I am, sir, your obedient servant,

The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Payments to Informers: Proofs of payment wanted.}

\section*{Audit Office, Ottawa, June 19, 1894.}

SIr,-At present no vouchers for payments to informers are supplied to this office, except the cheques in favour of officers of your department for the amount to be paid out to those giving information. We do not get even a certificate that the accounts of the disbursing officers have been examined in the department and that proof of the payment to the informers of the amounts allowed has been furnished.

The best vouchers would be cheques made payable to and endorsed by the persons entitled to receive the money; but if there should be any objection to this method of paying, on the ground that the regulations governing the Excise service provide that the names of the parties giving information are not to be made known unless by their own desire or consent, would it not be possible to obtain receipts from the informers, these receipts to be sent to this office for examination on the understanding that the audit here would be a confidential one by a single examiner, and that the names would not be published?

I shall be glad to hear from you with reference to this matter.
I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALI, A.G.

Audit Office, Otrawa, December 27, 1894.
Sir,-I shall be glad to hear what action you are prepared to take on the suggestions contained in my letter of June 13 last regarding payments to informers.

I am, sir, your obedient servant, The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Inland Revenue Department, Ottawa, January 23rd, 1895.
SIR,-I beg to acknowledge receipt of your communications of the 13 th June, and 27 th December last, asking if vouchers could not not be obtained from informers for sums of money paid them.

In reply thereto the undersigned considers that the department must keep faith with persons giving information. Otherwise the knowledge they possess of wrong-doing would not be communicated to our officers.

One of the conditions upon which information is given is that the name of the informer shall not be made known nor shall his evidence be required when prosecuting.

I am, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

\section*{Informers' share of Penalties imposed.}

Audit Office, Ottawa, June 21, 1894.
Sir,-I beg to ask your attention to the following payments from the vote for Preventive Service :-

Cheque 43295 , Geo. LaRue : to pay informer \(\frac{1}{2}\) penalty im-
posed but not collected in seiz. No. 287. ................ \$50 00
Cheque 43368, C. Curless: to pay informer \(\frac{1}{2}\) penalty im-
posed but not collected in seiz. No. \(679 \ldots \ldots . \ldots .{ }^{2} 00\)
The regulation regarding such payments, a copy of which you sent me, provides that, "If the parties convicted are unable to pay the penalties imposed, and are com" mitted to gaol for non-payment, the department will make good to the informer one-
"fourth of the penalties imposed." Please explain the allowance to the informer of \(\frac{1}{2}\) the penalty in these two cases.

I am, sir, your obedient servant,

Audit Office, Ottawa, December 27, 1894.
Sir,-Please furnish a reply to my letter of June 21, 1894, regarding cheques in favour of Geo. LaRue and C. Curless "to pay informers."

I am, sir, your obedient servant, The Commissioner of Inland Revenue.
J. L. McDoUgall, A.g.

Inland Revenue Department, Ottawa, January 23, 1895.
Sir,-In reply to your letter of the 21 st June last, asking explanation as to certain payments made to the informers through Mr. Collector LaRue and C. Curless, I beg to inform you that prior to September, 1892, one-half the penalty imposed, but not collected, was paid to the informer.

Inclosed please find copy of old regulations under which these payments were made and the regulations now in force.

I am, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

Audit Office, Ottawa, Feb. 1, 1895.
Sir,- -In reply to your letter of the 23 rd ultimo, regarding informers' share of penalties, I beg to point out that the payments were made in July, 1893, and your letter does not give the date on which the penalties were imposed. Please forward this information to show that the payments in question came under the regulations referred to in your letter.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Commissioner of Inland Revenue.
Inland Revenue Department, Ottawa, Feb. 4, 1895.
Sir,--Replying to yours of the lst inst., I beg to state that the seizures, in respect of which the obligations referred to arose, were made in November, 1891, and February, 1892. The date of the payment is immaterial to the case.

I am, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

\section*{Cullers' Annuities: Pay-list not properly Receipted. \\ Audit Office, Ottawa, June 26, 1894.}

SIr,-The pay-lists for cullers' annuities, in many instances, are not signed by the persons entitled to rective the money, but by others for them. These signatures are not valid receipts, and I beg to request that the June pay-list be so worded as to show that the amounts entered on it are the balances due, in every case, up to the end of the current fiscal year-this pay-list to be signed by each person whose name appears thereon.

I would also point out that, unless the department obtains some evidence that the claimants are alive at the end of each month in addition to that furnished by the defective pay-list, it might be possible for the person who was in the habit of receiving the allowance for a superannuated culler to go on drawing it after the death of the latter. In this connection I would suggest the use of a declaration similar to the inclosed which is used for payments under the Superannuation Act.

I am, sir,-your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Inland Revenue Dept., Ottawa, June 30, 1894.
SIR,-I have the honour, by direction, to acknowledge receipt of your communication of the 26 th June in reference to the non-signing in many instances of the pay-list

\section*{Auditor General's Report-Part S}
for cullers' annuities by the persons entitled to receive the money, but by others for them, and, in reply, to inform you that the Supervisor of Cullers has been requested to have a pay-list made out and signed in accordance with your suggestion and forwarded to this department.

I am, sir, your obedient servant,
The Auditor General.
WM. HIMSWORTH, Secretary.
Audit Office, Ottawa, December 27, 1894.
Sir,-I beg to direct your attention to my letter of June 26th last, asking that the June pay-list of cullers' annuities should be so worded as to show that the amounts entered on it were the balances due, in every case, up to the end of the fiscal year-this pay-list to be signed by each person whose name appeared thereon. The reply from your department stated that the Supervisor of Cullers had been requested to have such a pay-list made out and signed as requested. I have not yet received this corrected pay-list. Please have it sent to me at your early convenience.

I would also ask what action has been taken on my suggestion that a declaration, similar to the one used for payments under the Superannuation Act, should be adopted.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Payment, in addition to Salary, for services.}

\section*{Audit Office, Ottawa, June 28, 1894.}

Sir,- The following amounts paid to Mathew Stewart for cleaning Inland Revenue offices at Toronto and attending to them are included in the accounts for July, August and September, 1893, the only months for which vouchers have yet been furnished to me:-
\[
\begin{aligned}
& \text { Excise : for July and August. ................................ . } \$ 2000 \\
& \text { Weights and Measures: for June, July and August. ...... } 750 \\
& \text { Gas: for July and August } \\
& 500
\end{aligned}
\]

As pointed out in my letter of February 9 last, Mr. Stewart, being a permanent employee in the Assistant Receiver General's office, cannot legally receive any additional salary. Please obtain a refund of the amounts noted above and any subsequent payments to Mr. Stewart.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, December 20, 1894.
 priations of 1893-94 to Mathew Stewart for cleaning offices at Toronto :-

Excise : 12 months to June 30, 1894....................... \$120 00
Weights and Measures : 12 months to June 30, \(1894 \ldots .\). ... 3000
Gas : 12 months to June 30, 1894 ........................ . 3000
As pointed out in my letters of February 9, and June 28, 1894, these payments are illegal, since Mr. Stewart is a permanent employee in the office of the Assistant Receiver General. Please let me have your reasons for continuing the expenditure after your attention was called to the matter.

I am, sir, your obedient servant, The Commissioner of Inland Revenue, \(95 \quad\) J. L. McDOUGALL, a.G.

\title{
Allowance for Rent: J. K. Barrett, Dist. Inspector, Man.
}

Audit Office, Ottawa, July 3, 1894.
Sir,-I beg to direct your attention to the discussion in the House of Commons regarding the contingent expenses of the District Inspector for Manitoba, Mr. J. K. Barrett. (See Hansard, unrevised edition, pages 4909-4913.) In view of the statements made about the allowance of \(\$ 300\) for office rent, I have to ask for a certificate from an officer of your department, who is acquainted with the facts, that the expenditure is necessary and that the allowance is a fair and just rental for the premises occupied.

In Mr. Barrett's accounts for travel the total of the living expenses is given in a single item for each trip. Please instruct him to furnish details for this expenditure with dates and to furnish hotel bills whenever a stay of one or more days was made in a place.

Please also ask Mr. Barrett to furnish details, supported by vouchers as far as possible, for his expenditure on postage, telegrams and express.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Inland Revenue Dept., Ottana, July 5, 1894.}

Sir,-In reply to your communication of the 3rd inst., relative to the contingent expenses of the District Inspector for Manitoba, Mr. J. K. Barrett, I beg to state that the growth of the Winnipeg Inland Revenue Division required that the Inspector should give up his room in the Government building to the Collector, and the Minister, on my recommendation, authorized him to procure an office outside of the said building.

In doing so he was authorized to incur an annual expense of \(\$ 300\) to cover rental, heating and lighting.

I have not seen this office and, as he is the superior officer of the district, I do not see how the matter of value can be referred to any of his subordinates. For the present, therefore, the matter must rest on the ground that the expenditure was duly authorized.

I am, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

\section*{Audit Office, Ottawa, July 11, 1894.}

Sir,-I have your letter of the 5th instant regarding the allowance of \(\$ 300\) to Mr. J. K. Barrett, Winnipeg, for rental, heating and lighting of his office, which is located in his own dwelling.

In reply I beg to say that Mr Barrett, who, in this case, is acting as trustee for the Government, should not deal with himself unless it is unavoidable. With regard to your statement that "for the present the matter must rest on the ground that the expenditure was duly authorized," I would say that, if it is impossible to get other premises, the department should obtain independent outside evidence that the place is worth the rental allowed, in order to show that Mr. Barrett is dealing fairly between himself and the Government.

I am, sir, your obedient servant,

Audit Office, Ottawa, Dec. 27, 1894.
Sir,-Please let me know if any action has been taken on my letter of July 11 last regarding the allowance of \(\$ 300\) to Mr. J. K. Barrett, Winnipeg, for office rent, heating and lighting.

I am, sir, your obedient servant, The Commissioner of Inland Revenue.

\author{
J. L. McDOUGALL, A.G.
}

\author{
Inland Revenue Dept., Ottawa, Dec. 28, 1894.
}

Sir,-Replying to your communication of yesterday's date I beg to remind you that, when writing on the 5th July, I stated that Mr. Barrett had been duly authorized to procure an office outside the public buildings and was limited by the then Minister (Hon. J. Costigan) to an expenditure of \(\$ 300\), to include heating and light and the use of the telephone.

Some five months ago he was instructed to make inquiries as to the rates at which premises having similar advantages could be procured. Three offers were submitted, but the lowest being in excess of the present rental, the department has not felt dis. posed to add to its expenditure and the matter is as yet unsettled.

I may say, however, that the department is in no way satisfied with existing arrangements and intends to make a change as soon as an opportunity offers to do so within the present cost.

I am, sir, your obedient servant,
E. MIALL, Commissioner.
The Auditor General.

\section*{Advance to Assistant Commissioner Gerald.}

\author{
Audit Office, Ottawa, Nov. 28, 1894.
}

Sir,--On July 3, 1893, an advance of \(\$ 200\) was made by cheque No. 43083 to Mr. Assistant Commissioner Gerald, to cover expenditure in connection with inspection of tobacco factories. The accounts which have recently been sent me show the expenditure under this advance to have been made as follows :-
\begin{tabular}{|c|c|}
\hline July 6, 1893, rent of telephone. & \$1750 \\
\hline Jan. 17, 1894 do & 1750 \\
\hline April 4-5, 1894, travel to Montreal. & 1515 \\
\hline June 25 do Brockville & 670 \\
\hline June 26 do Montreal. & 1020 \\
\hline & \\
\hline
\end{tabular}

As any contingent expenditure at Ottawa such as telephone rent, could be made as well by departmental cheques, an advance to Mr. Gerald for such expenditure does not seem to have been necessary. With regard to travelling expenses, the regulation in the Order in Council of Feb. 6, 1893, that "all advances for travelling expenses shall be accounted for within one month from the conclusion of the trip," appears to me to imply that such an advance should be made only when a trip is in contemplation. I would suggest that in future this plan be adopted.

I beg also to point out that the cravelling expenses of officers in the inside servics should be paid from the appropriation for Civil Government contingencies, in accordance with the decision of the Treasury Board in the case of the Deputy Superintendent General of Indian Affairs,-see the report of this office for 1889-90, page A-8.

> I am, sir, your obedient servant,
> \(\begin{array}{ll}97 & \text { J. L. McDOUGALI, A.G. }\end{array}\)

> The Commissioner of Inland Revenue.

\section*{Board of Officer at his Headquarters.}

\author{
Audit Office, Ottawa, Nov. 26, 1894.
}

Sir,-I notice from the accounts of 1893-94 that P. Fraser, exciseman at Montreal was paid \(\$ 242.50\) for his board in Montreal from July 1, 1893, to April 16, 1894, in support of which Mr. Fraser furnishes vouchers from Mrs. Christy F. Fraser.

It appears to me that the payment of an officer's board at the place where he is permanently stationed can be regarded only in the light of an addition to his salary, and contrary to 51 Vic., chap. 12, sec. 19 . Please let me have your explanation.

I would also call your attention to the payment of \(\$ 6\) to J. A. Watkins, exciseman, for watching at the vinegar factory, three nights in October, 1893. This payment is contrary to the section above quoted, and the amount should be refunded.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue. J. L. McDOUGALL, A.G.

\section*{Payments to others than Government creditors without Power of Attorney.}

\section*{Audit Office, Otrawa, June 26, 1894.}

Sir,-I notice from the vouchers so far sent me for expenditure under the vote for Adulteration of Food, that a part of the fees due to Dr. J. B. Edwards, as public analyst, have been paid to other persons, viz., \(\$ 41.66\) a month to Miss E. Davidson for services as assistant to Dr. Edwards, \(\$ 34.08\) to G. Rosser, and \(\$ 64.76\) to Lyman, Sons \& Co.

In connection with these payments, I beg to point out that the only authority upon which payment should be made to a person other than the one who renders the service or supplies the material, is a power of attorney on the Government form. Dr. Edwards should be paid the full amount of his fees and left to deal directly with his creditors.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Inland Revenue Dept., Ottawa, July 5, 1894.
Sir,-Referring to your communication of the 26 th ult., as to a part of the fees due to Dr. J. B. Edwards, as public analyst, having been paid to other persons, I have the honour to state that the payments in question were made in the manner stated by you, in pursuance of an understanding arrived at between Dr. Edwards and the department.

I am, sir, your obedient servant.
The Auditor General.
E. MIALL, Commissioner.

Audit Office, Ottawa, July 9, 1894.
SIR,-I am in receipt of your communication of the 5th instant, acknowledging receipt of mine of June 26, as to a part of the fees due to Dr. Edwards having been paid to other persons.

Now that your attention has been drawn to the matter, I assume that the regular tions of the Treasury Board regarding powers of attorney will be adhered to.

I am, sir, your obedient servant,

\section*{Purchases made contrary to Printing and Stationery Act.}

Audit Office, Ottawa, December 26, 1894.
Sir,-The Inland Revenue accounts for 1893-94 include a large number of payments by collectors and others for ink and mucilage, and in British Columbia, for other stationery.

Why were the requirements of the Printing and Stationery Act regarding the purchase of stationery not complied with?

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Travelling expenses of Offlcers on appointment.}

Audit Office, Ottawa, January 2, 1895.
\(S_{\text {IR,-I }}\) beg to direct your attention to the following payments in 1893-94:-
Cheque 43876 for \(\$ 40,43877\) for \(\$ 10\), 44045 for \(\$ 2.45\), in favour of Martin Macdonald for travelling expenses from Ottawa to Winnipeg on his appointment to the position of preventive officer at Winnipeg.

Cheque 45761 in favour of H. A. Costigan to pay R. S. R.Wardell's travelling expenses from Hamilton to Winnipeg, ond one week's board in Winnipeg, upon his entering the Excise service.

Please let me have your reasons for allowing the expenses of these persons to the place where they were to enter upon the duties of the positions to which they had been appointed.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Inland Revenue Department, Ottawa, January 28, 1895.}

Stir,-I beg to acknowledge receipt of your communication of the 2nd inst., and in reply to inform you that Mr. Martin McDonald was appointed preventive officer of Inland Revenue and instructed to report for duty at Winnipeg, and his expenses were paid in the usual manner.

Mr. Wardell was an officer at Hamilton, and was transferred to Winnipeg owing to the staff being reduced by illness.

I am, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

\section*{Audit Office, Ottawa, February 1, 1895.}

Sir,-I have your letter of the 28th ultimo, regarding the travelling expenses of Messrs. M. Macdonald and R. S. R. Wardell.

With reference, to Mr. Macdonald's case I beg to point out that a person, on entering the service, is not entitled to receive his travelling expenses to the place where he is to be employed.

If Mr. Wardell was an officer at Hamilton and was transferred to Winnipeg, his removal expenses should have been paid only after the authority of the Treasury Board had been obtained, as provided by the Order in Council of September 8, 1871.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Re Refunds of Excise Revenue.}

\section*{Audit Office, Ottawa, February 191894.}

Sir,-I have had no reply to my letter of August 3, 1893, calling attention to the insufficient vouchers furnished for certain refunds of spirits, and the vouchers are still being furnished incomplete. During 1892-93, \$13,977.90 was refunded to J. J. Heney; Prescott, and \(\$ 4,530.54\) to A. L. Howard,'Sherbrooke, as refunds of duty paid on spirits used in the manufacture of crude fulminate exported to the United States. The only vouchers furnished in support of these payments were the receipts of the parties.

The vouchers for refunds of duty on spirits and malt for the use of the army and navy are also insufficient. I have again to ask your attention to this subject.

I am, sir, your obedient servant, The Commissioner of Inland Revenue. J. L. McDOUGALL, a.G.

\section*{Re Collectors' Bank Accounts.}

Audit Office, Ottawa, March 71894.
Sir,-I assume that collectors at the principal ports furnish you with a monthly statement of their bank account, showing the funds received from the department, the receipts from seizures and like sources, and on the credit side the disbursements therefrom.

This statement and the corresponding cheques are needed for auditing purposes and I have to ask that they may be forwarded regularly to this office.

I am, sir, your obedient servant, The Commissioner of Inland Revenue. J. L. McDOUGALL, A.G.

Note.-The following memo. endorsed on file No. 65323, was received in reply to the above letter :-

The collectors receive from the department, salary and contingencies cheques, against which they furnish receipted pay-lists and receipted contingencies accounts, which are furnished to the Auditor General as vouchers. Receipts from seizures and like sources are accounted for.

\section*{Re Non-payment for Bill Stamps.}

\section*{Audit Office, Ottawa, March 6, 1894.}

Sirs, I am in receipt of a letter under date of 3rd instant from the Deputy Minister of Justice, stating that in view of representations made by Judge McLeod contending that he was not liable for the payment of the stamps, you had instructed him to take no further action and that you had concluded to ask for authority to write off the balance.

In a letter from the Deputy Minister of Justice, dated November 3, 1892, it is stated that Judge. McLeod held that he had handed the stamps to Inspector Harper, of the North-west Mounted Police, who was then clerk of the court, and that he had asked Inspector Harper to make a return. As this officer is still in the force, should not steps be taken to secure payment from him? When an officer is clearly indebted to. one department, even though paid by another, the amount can be retained out of his salary on the authority of an Order in Council. Cases have already occurred. In order not to press too heavily on the officer, the amount might be spread over a number of months.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue. 107 J. L. McDOUGALL, A.G:

\section*{Re Crown Seizures, Excise.}

Audit Office, Ottawa, October 10, 1894.
Sir,-The gross amount credited during 1893-94 to excise seizures was \(\$ 3,135.41\), and the gross expenditure during the same time made through your letter of credit was \(\$ 5,642.36\), exceeding the receipts by \(\$ 2,506.95\).

Not having been yet furnished with all the vouchers covering this expenditure, I am unable to refer more particularly to it. In the meantime, I have to ask under what authority you felt justified in expending during any fiscal year more than the receipts?

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Inland Revenue Dept., Ottawa, October 11, 189 9a.
Sir,-I have the honour to acknowledge receipt of your communication of yesterday's date.

Kindly inform me under what Act the expenditure on seizures account is restricted to the amount of revenue derived therefrom in the same year.

I am, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

\section*{Re Cullers' Fees.}

Audit Office, Ottawa, March 14, 1894.
Sir,-I am without any reply to my letter of June 21, 1893. You acknowledged the receipt of my letter of July 3,1893, stating that the list of parties in arrears would be classitied as suggested in my letter, but did not make any reference to the amounts collected by M. A. Plamondon and Casault, Langlois \& Angers, which they did not pay over to the department.

I find that the items marked C. (collectable) on the list of arrears furnished by you, Oct. 18,1893 , amount to \(\$ 13,672,52\). The fact that, of this sum, only \(\$ 338.83\) has since come to account calls for some explanation.

I have to call your attention to the increase in the arrears at Quebec and Montreal as shown by the following memo.:-
\begin{tabular}{|c|c|c|c|}
\hline & \[
\begin{gathered}
\text { Bal. due } \\
\text { June } 30,1892 .
\end{gathered}
\] & Bal. due June 30, 1893. & Bal. due Feb. 28, 1894 \\
\hline Quebec. & \$31,031 10 & \$30,997 92 & \$31,716 92 \\
\hline Montreal & 6,799 60 & 7,273 39 & 7,614 40 \\
\hline
\end{tabular}

Statement M. No. 7 gives details of arrears paid, but does not give the details of payments that accrued during the current month. It would be much more satisfactory if those were given also. I am returning herewith departmental files Nos. 59,746, 60,571 and \(6.2,295\); also the classified list of arrears, for such action as you may determine on.

> I am, sir, your obedient servant,

The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Audit Office, Ottawa, December 12, 1894.}

Sir,-I have not received any reply to my letter of March 14 last in reference to cullers' fees. The statements furnished by you Oct. 24 last, show the arrears due on June 30 preceding. I have deducted the amounts since paid, which should have been

\section*{Auditor General's Report-Part S}
done before the statements were furnished to this office, and the figures now stand as follows :
\[
\text { Due at Quebec . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . } \$ 30,22589
\]
do Montreal. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 7,61440
do Three Rivers
33057
Your attention is called to the portion of these arrears that have accrued of late years, as shown by the following :-
\begin{tabular}{|c|c|c|}
\hline Year. & At Quebec. & At Montreal. \\
\hline 1890 & \$282 10 & \$730 61 \\
\hline 1891 & 10241 & 29219 \\
\hline 1892 & 72393 & 47379 \\
\hline 1893 & 39853 & 34101 \\
\hline
\end{tabular}

I wrote you June 20, 1893, asking that details of the amounts collected should be furnished, with counterfoils of the receipts issued. I have not received them, and would again request that they may be furnished.

I am, sir, your obedient servant, The Commissioner of Inland Revenue. J. L. McDOUGALI, A.g.

\section*{Inland Revenue Dept., Ottawa, January 17, 1895.}

Sir,-I \(^{\text {I have the honour, by direction, and as requested in your communication of }}\) the 12 th ult., to inclose statement of outstanding accounts due the office of the Super visor of Cullers at Quebec from the 1st July, 1890.

> I'am, sir, your obedient sorvant,
> WM. HIMSWORTH, Secy.

\author{
The Auditor General.
}

Quebec, December 26, 1894.
Sir,-I beg to inclose statement as asked for by the Auditor General by letter dated 15th instant, Nos. \(60,096-66,860\), which I hope will prove satisfactory. You will please note that the balances as under are correct, say :

> Quebec, due.
> \(\$ 30,22589\)
> Montreal, due.
> 7,614 40
> Three Rivers, due 33057

Re arrears referred to by the Auditor General are correct for the years, say :
\begin{tabular}{|c|c|c|}
\hline Quebec & (year 1890) & 28210 \\
\hline " & (" 1891) & 10241 \\
\hline " & (" 1892) & 72393 \\
\hline
\end{tabular}

The year 1893 should show outstanding \(\$ 418.18\) instead of \(\$ 398.53\),
\(R e\) arrears for the past four years as per statement herewith, \(\$ 1,526.62\). I beg to say that at least \(\$ 1,000\) of the amount will be collected during next season as the lumber is here in market insured, being lumber belonging to such firms as Messrs. Klock \& Co., Messrs. Thompson \& Sons, Messrs. Bradley \& Cameron, and a few others.

The balance of say \(\$ 516\) is really a small one for "four years," when you take into consideration that I am not authorized in any way to seize the timber of any one who may be in default. The Auditor General is not probably aware, that sometimes parties requiring a culler (and to be within the law, file a requisition for a culler), do not, after the timber has been measured, ask for an official specification, as they ship the said timber from their cove and invoice it as per their own specification or measurement.

I having no lien upon the timber, cannot take any action to prevent them.
I am, sir, your obedient servant,
JAMES PATTON, Sup.

Audit Office, Ottawa, Januury 18, 1895.
Sir,-I am in receipt of your letter of the 17 th , inclosing a letter and statements from the Supervisor at Quebec. Mr. Patton states that of the \(\$ 1,526.62\), arrears that accrued in the last four years, he estimates \(\$ 1,000\) will be paid during next season. With reference to the balance of \(\$ 526.62\), he considers it a small one for four years, when you take into consideration that he is not authorized to seize the timber, and that sometimes parties apply for a culler, and instead of asking for a specification and paying the fees, ship the timber and invoice it on their own measurements. Having no lien on the timber, he states he cannot take any action to prevent them.

I shall be glad to hear from fou in reference to these explanations of Mr. Patton. It seems most extraordinary that the Government should have to pay cullers for measuring timber without being sure of payment for their services. It appears to me that the fees should be payable in advance or be a lien on the timber.

I would again call your attention to the last paragraph of my letter of December 12 , asking that details of the collections should be furnished, with counterfoils of the receipts issued.

I am, sir, your obedient servant,
The Commissioner Inland Revenue. J. L. McDOUGALL, A.G.

\section*{Re Methylated Spirits.}

\section*{Audit Orfice, Ottawa, December 19, 1894.}

Nir,-I called your attention on June 11th last to the letter of the Minister of Finance directing that an audit should be made of all stores accounts.

In order to audit the accounts in connection with the manufacture and sale of methylated spirits, I should be furnished with a copy of the regulations in reference thereto; a statement of the quantity on hand, manufactured and in process, at the close of each fiseal year ; a monthly statement showing the quantity of raw spirits purchased, and the quantity manufactured; and a detailed statement of the quantity sold.

> I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

The Commissioner of Inland Revenue.

\section*{Re Deflciencies at Distilleries.}

Audit Office, Ottawa, May 9, 1893.
Sir,-Would you be good enough to inform me what steps have been taken towards collecting the amount due by Messrs. Gooderham \& Worts for the deficiencies on production account of 1890,1891 and 1892? As there is no question of the indebtedness for these amounts, should not payment be insisted on without further delay? The fact of there being an unsettled question regarding the accounts of 1887 is no reason why the accounts of succeeding years, about which there is no dispute, should be allowed to remain open. I have to ask your early attention to this matter.

Are there any balances for deficiencies due by any other distilleries \(?\)
I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

Dept. of Inland Revenue, Ottawa, June 8, 1893.
Sir,-Replying to your inquiry as to the collection of deficiencies at the various distilleries, I beg to state that, inasmuch as the intended amendment to the Inland Revenue Act was not introduced during last session, the department will collect all pending deficiencies before the close of the current fiscal year.

\author{
E. MIALL, Commr.
}

\section*{Audit Office, Ottawa, July 13, 1893.}

Sir,-In your letter of June 8, you stated that all deficiencies at distilleries would be collected before the close of the fiscal year. The receipts that have since come to account do not seem to contain any payment of those arrears. I shall be glad to know what action you are taking in the matter.

I am, sir, your obedient servant, The Commissioner of Inland Revenue. J. L. McDOUGALL, A.G.

Dept. of Inland Revenue, Ottawa, July 13, 1893.
Sir, - In reply to your communication of this day's date, I have the honour to state that the Controller is in receipt of a letter from the Acting Premier, the Minister of Trade and Commerce, directing the postponement of the collection of the deficiencies referred to until the whole matter can be considered by a full Council.

I am, sir, your obedient servant,
The Auditor General.
E. MIALI, Commr.

Audit Office, Ottawa, October 19, 1893.
Sir,-I am in receipt of your letter, dated yesterday, stating that statements are forwarded therewith of all arrears due your department on June 30, 1893.

I do not find any statement among those furnished, of arrears due by distillers. Please let me know if all these arrears have been paid. If not, I have to ask fors a statement of them, showing the name of the distiller, and the amount due for ask for a I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Dept. of Inland Revenue, Ottawa, Nov. 27, 1893.
Sir, \(^{\text {,-Referring to your communication of the 19th ult., I have the honour to state }}\) that the question involved is still before the Hon. the Treasury Board for adjudication. As soon as I have their decision, I will communicate with you.

I am, sir, your obedient servant,
E. MIALL, Commr.

\section*{Audit Office, Ottawa, March 1, 1894.}

Sir,-In your letter of November 27, 1893, in reply to my request for statements of arrears due by distillers, you stated that the question was before the Treasury Board, and that as soon as you had their decision you would communicate with me. As no communication has since reached me, I shall be glad to get such information as you can let me have.

I am, sir, your obedient servant,

Audit Office, Ottana, June 15, 1894.
SIR,-I have to call your attention to previous correspondence on this subject. On June 8, 1893, you wrote that the department would collect all pending deficiencies before the close of the then current fiscal year. On July 13th, you wrote that the Controller had received a letter from the Acting Premier, the Minister of Trade and Commerce, directing the postponement of the collection of the deficiencies referred to until the whole matter could be considered by a full Council. On November 27th, you wrote that the question was still before the Treasury Board, and that as soon as you had their decision, you would communicate with me. I have not since heard from you on the subject. I wrote you on March 1st last referring to your letter of November 27 th, and asking for such information as you could let me have. I have had no reply to this letter.

I have now to ask for the following information: Has the Treasury Board or the Governor in Council passed any Order in reference to this matter? If so, please send me a copy. Have the deficiencies due on June 30th last been paid? If they have not been paid, what action has been taken by your department looking towards securing such payment? What is the present position of this question?

I may say, that unless I am furnished the necessary returns and information, I cannot carry out the instructions of the Treasury Board to audit the revenue accounts. I shall therefore feel it to be my duty to report the facts to the Treasury Board unless I hear from you soon.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.

> J. L. McDOUGALL, A.G.

Department of Inland Revenue, Ottawa, July 9, 1894.
SIR,-Referring to your communication of the 15 th ult., which owing to pressure of parliamentary business has been thus far unanswered, I have the honour to state that the Exchequer Court having decided that the distillers had a legal right to reduce the temperature of the spirits flowing into the close receiver, by the use of refrigerators, the Department issued the inclosed circulars establishing regulations in respect of the test for quantity, which they are advised are intra vires under section 1 of the Inland Revenue Act of 1890 .

The returns of the distillers from the time that the establishment of the duties by weight was brought into force, until the close of the fiscal year just passed are being amended, and when received and checked, I shall with pleasure communicate to you the results.

I am, sir, your obedient servant,

\author{
E. MIALL.
}

The Auditor General.

\section*{Circular G. 412.}

Department of Inland Revenue, Ottana, February 20, 1894.
Sir,--I beg to inform you that Article F of the Regulations of the 3rd July, 1893 (G. 269), is cancelled, and the following Regulation is substituted in lieu thereof :-

\section*{\(F\)-Spirits. Quantity to be determined by Weighing.}
1. In future the quantity of Spirits when entered for or ex-warehouse is to be determined by weighing, the distiller to provide suitable weighing appliances. The said weighing appliances are to be so constructed and situated as to meet the approval of the Department of Inland Revenue.
2. The specific gravity of all spirits, when the quantity is determined by weighing as above, is to be ascertained at a temperature of \(62^{\circ}\) Fah., the sample taken for this

\section*{Auditor General's Report-Part S}
purpose to be raised or lowered to \(62^{\circ}\) by immersing the test glass in which it is contained in warm or cold water as required. The strength of the spirit, however, is to be determined by drawing a sample from the tank after the total quantity to be warehoused has been placed therein and after the spirits have been well plunged. Except that when establishing the charge for duty at the closed spirit receiver by weight in all distilleries where there is a second process of distillation, the specific gravity shall be ascertained at a temperature of \(40^{\circ} \mathrm{F}\). (as when tested by volume heretofore), and the stock books and returns of Distillers, from the date at which the determination of duties by weight became compulsory (1st July, 1891), are to be adjusted accordingly.
3. If on taking stock at any distillery at the close of operations for any fiscal year it should be ascertained that a surplus exists, then the quantity so found shall be charged to the debit of distillery stock.
To the Collector of Inland Revenue.

\author{
E. MIALL, \\ Commissioner, Inland Revenue.
}

\section*{Circular G. 412a.}

Inland Revenue Department, Ottawa, March 6, 1894.
\(S_{\text {IR, }}\), In ascertaining the specific gravity at a temperature of \(40^{\circ} \mathrm{F}\)., as provided by Section 2 of Circular G. 412, all that is required is that the Sample of Spirit be tested for Strength at the temperature found, and the Specific Gravity at \(40^{\circ} \mathrm{F}\). determined by means of the hydrometer book of tables.

Example:-
Temperature, say \(66^{\circ}\) Strength, 60 O. P.
By reference to book of tables at the temperature of \(40^{\circ}\) it will be found that against this strength is an indication of \(13 \cdot 4\) opposite which in gravity table will be found 8.382 as the specific gravity at 40 deg . F., which will be the divisor for determining gallons for duty. This will obviate the necessity for lowering the temperature of the sample when testing for duty.

A form will be forwarded you which when filled in and totalled will show the change in quantity caused during each fiscal year from July 1, 1891, to June 30, 1893, as well as the broken period from July 1, 1893, to February 28th, 1894.

This form is to be filled up with the least possible delay, signed by the officer in charge of distillery and distiller or his agent, and transmitted to the department, when instructions as to adjustment, during above period, will be issued.

The words : "in all distilleries where there is a second process of distillation," in paragraph 2 of G. 412, are to be struck out.
E. MIALL, Commissioner.

To the Collector, Inland Revenue.

\section*{Audit Office, Ottawa, August 25, 1894.}

SIr,-I have the honour to acknowledge the receipt of your letter of the 9 th ult., in which you state that the Exchequer Court having decided that the distillers had a legal right to reduce the temperature of the spirits flowing into the close receiver by the use of refrigerators, the department issued the inclosed circulars establishing regulations in respect of the test for quantity which they are advised are intra vires under section 1 of the Inland Revenue Act of 1890.

If I interpret rightly the decision of the Exchequer Court, the decision did not involve anything that arose since the passage of the Act of 1890 , and therefore did not indicate the present state of the law or how the law has been affected by the Act of 1890. The law as laid down in that respect by the Exchequer Court may therefore be repealed, as I believe it to be by the Act of 1890 .

The deductions from revenue involved are so large-probably not less than \(\$ 50,000\) a year-say \(\$ 150,000\) for the 3 years since the lst of July, 1891, and \(\$ 50,000\) per annum
for the future-and it is so easy to have the matter cleared up by asking for the action of Parliament, that I would suggest the postponement of any action that would involve a disregard of what is the apparent intention of Parliament until after the attention of Parliament is directly drawn to the matter next session by the Government and the sanction of Parliament to your view has been obtained.

I have the honour to be, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Inland Revenue Dept., Ottawa, November 5, 1894.
Sir,-I have the honour to acknowledge receipt of your communication of the 25th August last, and in reply, to state that the view of the department is that Parliament has already given it the power to determine by regulations the time, place and manner in which the duty on spirits produced in any licensed distillery should be established.

I must emphatically take exception to your assertion that the course taken by the department involves a considerable loss to the Revenue.

The object and the effect of the regulations is to leave the distillers in exactly the same position as they occupied before the amendment of 1890 came into effect, when the charge for duty was computed upon the volume of spirits in the Close Receivers, contracted by having passed through refrigerators which lowered the temperature to an average of \(40^{\circ}\) Fahr.

I have the honour to be, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

Audit Office, Ottawa, November 15, 1894.
Sir,-In reply to your letter of the 5th inst., re duty on spirits produced in distilleries, I beg to say that the action of your department leaves matters in the position in which they were before the amendment, but the intention of Parliament was, so tar as we can judge from its enactment, that they should not be left in the same position, and we have no right to look behind the Act to the intentions of those who introduced it.

I have the honour to be, sir, your obedient servant,
The Commissioner of Inland Revenue.
\[
\text { J. L. McDOUGALL, } A . G .

\section*{Re Surplus at Gooderham's Distillery.}

\section*{Inland Revenue Dept., August 6, 1889.}

Sir, -I deem it right, while the matter is fresh in my mind, to call your attention to an item of \(25,712 \cdot 68\) proof gallons of spirits which, by my direction, were held from July, 1888, to July, 1889, under special crown lock, pending certain inquiries, and which I have now ordered to be released to the distillers, Mesars. Gooderham \& Worts of Toronto.

The incident occurred as follows: By law the charge fur duty on spirits is made by Sykes's hydrometer at the closed spirit receiver, into which the spirits are conducted from the tail of the worm after the first process of distillation.

Until lately the premises of a distillery wene treated as a whole. The charge arising at the Receiver formed a debit against him, which was relieved as fallows: Whatever after the second process of rectification was placed in bond, the distillert account was credited with, and the balance remaining at the end of the month deter mized the amount of duty, the distiller had to pay in cash to close the month's transeltions. This figure included the waste by redistillization, and the whole productien ferf the month having beem bondod or duty paid, all the spirits (mot mader crown lock) became the papority af the distiller as duty prid spirite.

\section*{Auditor General's Report-Part S}

The introduction of the principle of enforced maturing by recent legislation involved in fairness an allowance for evaporation during the period the spirits were required by law to be held; and I deemed it prudent to separate the supervision into two parts-the producing and the warehousing-to facilitate which a section was introduced requiring all spirits produced at a distillery to be warehoused. New books were carefully prepared, making the distillery survey and the warehousing survey two distinct operations, inasmuch as every package ex-warehoused for consumption was liable to an allowance (not to exceed 6 per cent the first year, and 4 per cent additional the second) for shrinkage while in bond. The new law came into force in July, 1887, but the books were not ready in time to start with that year, so that for the year 1887-88 the whole distillery premises were treated as theretofore, viz., as one, undivided survey.

The allowances for maturing were, therefore, credited to the production account, and when stock was taken on July 1, 1888, a surplus of 25,712 gallons revealed itself for the first time in the history of distillery supervision. The inspector telegraphed for me, and We discussed the matter very fully. It seemed evident that one of two things must have occurred. Either an error had been made at the close receiver, resulting in an under-debit at that point, or the distillery production had been credited and the warehouse debited too liberally. This would of course be checked before it went into consumption, because while the charge at the receiver is established by measurement and the transfer to warehouse by similar process, the credit to the warehouse for removal or consumption was determined by weight.

The result of our discussion, in which we invited the distillers to join, was an unanimous conclusion that the discrepancy arose in the latter of the two ways, and some tests were made of various tanks, which confirmed the opinion of all that the weight of spirits in the copper tanks had caused an alteration in the contour of such vessels, so that the dipping rod indication failed to give an absolutely correct reading.

I urged very strongly the adoption of weighing into warehouse as well as out, and after some discussion the distillers consented to provide weighing tanks, whereby 5,000 gallons could be weighed in bulk. Meantime I ordered the surplus 25,000 gallons to be put under crown lock, and to be held as government property, subject to duty until every one of the tanks then in stock had been weighed over by the new apparatus agreed to be put in forthwith.

The whole of the copper tanks (new) containing some \(2,000,000\) gallons in all were weighed, and a record of each taken in a book ruled for the purpose (which I now place at your disposal for perusal), and the discrepancy found is 23,615 gallons, thus establishing the fact to my satisfaction that the cause of the surplus was an excessive charge to the warehouse, and the distillers having paid duty upon the entire product of the distillery to July 1, 1888, they were entitled to have the impounded spirits handed over to them.

The difficulty to which I wish to call your attention is this: The distillery books were on July 1, 1888, balanced, the eurplus simply being held under lock. It should have been returned in the accounts as a surplus, but there having been no column provided for such an unforeseen contingency, it was by simply bealancing the books-left out and now it has been decided to restore it-the queation arises how to deal with it. I have instructed the officer to enter it to the debit of their duty paid warehouse mecount as "received from other sources." The quantity is abnormally large to come ander that heading, but it is the only way I can see of dealing with it.

I have been thus explicit, because when it appears in the annual account of the departmental revenues for the year 1889-90, I may while doubtless remembering the broad faets, have forgotton many of those details required for a full explanation.

I am, air, your obedient servant,

}

Audit Office, Ottawa, March 16, 1891.
Sir,-_Referring to your letter of August 6, 1889, in connection with a surplus of \(25,712 \frac{68}{100}\) proof-gallons of spirits which arose at the distillery of Messrs. Gooderham, of Toronto, and the conclusion subsequently arrived at in respect to the same, I have to ask you what action has since been taken. In the last paragraph of your letter yod intimated that the subject would appear in your report for 1889-90. I do not notice any reference to it in the report.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Audit Office, Ottawa, Nov. 11, 1891.}

Sir,-I have not received any reply to my letter of March 16 last, inquiring as to the conclusions arrived at in reference to the surplus of spirits at the distillery of Messrs. Gooderham of Toronto. I should like to hear from you at an early date, as the manuscript of my annual report is now preparing, and I need the information asked for to determine whether it will be necessary to publish the correspondence.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.

\section*{Inland Revenue Dept., Ottawa, Nov. 13, 1891.}

Sir,- I am requested by the commissioner, who is just leaving the city for Now York, to acknowledge the receipt of your communication of Nov. 11, inquiring as to the conclusions arrived at in reference to the surplus of spirits at the distillery of Messrs. Gooderham, of Toronto. In reply thereto, he desires me to state that a report thereon was made to the Hon. the Minister of Inland Revenue, which has been referred for the consideration of the Hon. the Premier. The Commissioner has not yet been advised of his concurrence or otherwise.

I am, sir, your obedient servant,
The Auditor General.
W. J. GERALD, Asst. Commr.

\section*{Audit Office, Ottawa, Nov. 18, 1891.}

Sir,-In reply to my inquiry of Nov. 11, as to the question of the surplus of spirits at the distillery of Messrs. Gooderham, of Toronto, I have received a letter from Mr. Gerald, Asst. Commissioner. He states that you had reported on the matter to the Minister of Inland Revenue, that the Minister had referred the report to the Premier, and that you had not yet been advised of the Premier's concurrence or otherwise. Shortly after the receipt of your first communication in reference to this subject, in August, 1889 , I sent a clerk of this office to Toronto to inquire into it. On his return I informed you that the decision I came to, based on his report, was that the Government was entitled to duty on the whole surplus. At an interview had afterwards with yourself, Mr. Gerald and Inspector Davis, this decision was agreed to by all as correcte In view of these facts, I cannot understand the submission of the matter to the Pre mier.

I am, sir, your obedient servant,

\section*{Report of the Commissioner of Inland Revenue.}

\author{
Dept. of Inland Revende, Ottawa, Nov. 10, 1890.
}

Sir, -In consonance with your expressed wishes, I proceeded to Toronto on the 29th ult. with a view to make closer inquiries upon some points which have arisen in this controversy, upon which I was not perfectly clear. After \({ }^{*}\) a verbal discussion of some hours, so many side issues presented themselves that I thought it dessrable to call in the services of a stenographer and take down the evidence of those most likely to be able to throw any light upon the subject. I now append to this report the evidence so taken, upon which such conclusions as I have been able to arrive at, have been based.

The contention of Messrs. Gooderham-when Mr. Blackstock and Mr. W. G. Gooderham waited upon you some weeks ago, was clearly defined. They then assumed that the surplus had arisen by incorrect measure, in respect of spirits placed in the warehouse, by which means the credits to the distillery had been unduly augmented. I then took the ground that unless an equivalent error occurred at some period anterior to the lst July of the year in question, the surplus in the distillery survey, if due to incorrect measurements, would of necessity produce a deficiency of equal extent in the spirits held in bond.

The spirits contained in some 116 tanks, aggregating nearly four-fifths of their stock, then carried, were subsequently weighed, and a discrepancy of 22,709 gallons was found as between the quantity measured into the warehouse tanks and the quantity weighed out. This fact strengthened my conviction that the proper course was to transfer the spirits from the distillery stock into the bonded warehouse, subject to payment of duty when ex-warehoused for consumption.

The investigation just held, however, has brought out some features, which have somewhat modified my views.

In order to render an explanation at all intelligible, it is necessary first, to place before you in as few words as possible, a description of the method of supervision as it existed in the year 1885-86, and the change which thereafter took place. The charge for duty is by law established at the tail of the worm, where the spirits after the first process of distillation run into the locked receivers.

These receivers are tested daily, the contents being ascertained by dip-rod measurement, and the strength by Sykes's hydrometer. These tests are and always have been made jointly by the chief excise officer, and one of his subordinates, on the part of the department, and the distiller or his representative on the other part. The quantities in proof gallons are then entered to the debit of the spirit stock book and for this debit the distiller is held responsible thereafter.

Under the old method of supervision, the distiller made monthly returns, showing the quantity produced, the quantity placed in warehouse under Crown lock, and the balance between these two quantities he paid duty upon. All the spirits, therefore, not placed in warehouse, were his own property as free spirits.

In 1885, the excise duty was increased from \(\$ 1\) to \(\$ 1.30\) a gallon, and anticipating this, Messrs. Gooderham towards the close of the fiscal year 1884-85 ex-warehoused nearly half a million gallons and paid the duty thereon, so that at stock taking on the lst July, 1886 , it was found that of their entire stock of 977,297 gallons, 532,572 gallons were free duty-paid spirits scattered promiscuously through the distillery premises.

Mr. Davis, the chief Inspector of Distilleries, as he states in his evidence, began to feel alarmed, and telegraphed to me if possible to go up at once. I did so, and went over the ground with him. He expressed his fear that we were, to use his own expression, "losing our grip!" After a great deal of consideration, it was agreed that the free spirit business should be stopped, that the supervision of a distillery premises should be divided into two distinct surveys-that of the distillery as a Producing Establishment, and that of a Bonded Warchouse, each to be in charge of a Special Class Exciseman.

During the following session, sec. 143 of the Inland Revenue Act was amended by sec. 6 of 49 Vic., cap. 39 , providing that all spirits produced in a distillery should in future be warehoused.

Three classes of warehouses were established: No. 1-For non-potable and unfinished spirits. No. 2-For potable spirits in process of maturing in respect of which an allowance for shrinkage might be made under Section 131 of the Inland Revenue Act ; and No. 3-For duty-paid spirits.

The spirits called for by the distiller's books on the 30th June, 1886, were 1,433,\(303 \cdot 65\) proof gallons, the quantity actually found being \(1,381,263 \cdot 47\). These had to be apportioned to the three several warehouses just referred to, and they were classed as follows :- Proof galls.

In process . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 15,704•30
No. 1, unrectified. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 170,891•73
No. 2, maturing . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 8 . \(897,896 \cdot 91\)
No. 3, duty-paid. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 296,770•53
\(1,381,263 \cdot 47\)
Leaving a deficiency as between the quantity required by the books, and the quantity found by actual stocktaking of 52,040•18
\[
1,433,303 \cdot 65
\]

On this deficiency, the distillers were required to pay duty.
The following year, 1st July, 1886, to 30th June, 1887, the transactions were as follows :-
\begin{tabular}{|c|c|}
\hline In process 1st July, 1886. & \begin{tabular}{l}
Proof galls. \\
15,704•30
\end{tabular} \\
\hline Manufactured. & 2,248,776 29 \\
\hline Brought into distillery from other sources. & 9,211 64 \\
\hline & 2,273,692 23 \\
\hline Placed in warehouse . . . . . . . . . . . . . . 2,376,553•32 & \\
\hline Less returns for re-distillation......... 197,043-99 & 2,179,509 53 \\
\hline Balance called for by distillery books on June 30, 1887 & 94,182 \(\cdot 70\) \\
\hline Quantity actually found by stock taking........... & 63,891-29 \\
\hline Deficiency & 30,291-41 \\
\hline
\end{tabular}

Of this deficiency, 12,616 gallons was written off, being the fusel-oil destroyed, and for the remaining deficiency, \(17,675 \cdot 57\), a cheque was demanded and given.

The following year, the transacticns were as follows :-
\begin{tabular}{|c|c|}
\hline In process 1st July, 1887. & Proof galls.
\[
63,891 \cdot 28
\] \\
\hline Brought in from other sources. & -747.11 \\
\hline Manufactured during the year. & 2,494,967-81 \\
\hline & 2,559,606 \(\cdot 21\) \\
\hline \begin{tabular}{l}
Placed in warehouse.................. . 2,621,970.09 \\
Less re-distilled. . . . . . . . . . . . . . . . . . . . . \(98,528 \cdot 48\)
\end{tabular} & \\
\hline Fusel-oil . . . . . . . . . . . . . . . . . . . . . . . . \(\begin{array}{r}2,523,441 \cdot 61 \\ 9,189 \cdot 14\end{array}\) & \\
\hline & 2,532,630•75 \\
\hline Stock called for by distillery books. & 26,975-46 \\
\hline Actual stock in process found on stock-taking & 52,691 58 \\
\hline Surplus & 25,716•12 \\
\hline
\end{tabular}

Now if the quantity placed in warehouse is correct, then either the quantity in proces on 1st July, 1887, was understated, or the quantity charged against the distiller at the close receiver were too small.

All the parties examined-the distiller, the chief Inspector of Distilleries, and the officer in charge, state that the close receiver measurement is unimpeachable.

Therefore it follows that the stock in process at the beginning of the term, must be understated, or the distillery has been over-credited in respect of the item placed in warehouse. On a careful perusal of the evidence, I think you will conclude with me, that the second alternative must be given up.

It is true that the 116 new copper tanks, provided during the preceding year, had each a capacity of some 12,000 gallons (water measure), and had to sustain a weight of sixty tons when being gauged. It is true that the said tenks, and the foundations on which they were erected, proved incapable of holding this immense volume of spirits without changing their shape to a greater or lesser degree.

It is true, as alleged by Mr. Gooderham, that we were dissatisfied with the method of gauging and lost confidence in its correctness, and as a consequence determine 1 to abandon it in favour of weighing, but the fact remains, that every one of these donbtful tanks were weighed over during the following year, and a discrepancy of only 22,709 gallons was found, as compared with the original quantities charged against these tanks by measurement.
\begin{tabular}{|c|c|}
\hline & Proof galle. \\
\hline \multirow[t]{2}{*}{The quantity originally charged to the warehouse account, as respects these 116 copper tanks was... The quantity found by weight 12 months thereafter was} & 1,979,344 \\
\hline & 1,956,635 \\
\hline & 22,709 \\
\hline While the quantity found at the latter date by the diprod measure-the same method as that which determined the original charge-was............ & \\
\hline A discrepancy of & 17,352 \\
\hline
\end{tabular}

Mr. Davis states in his evidence that he would not look-for a loss by evaporation of more than one per cent in 12 months, in tanks of the character and under the conditions to which they were subjected.

Mr. Dudley states that he has by actual test found the loss on spirits weighed into tanks and re-weighed 12 months after to be about one per cent.

A discrepancy therefore was to be looked for to the extent of close upon 20,000 gallons.

I am, therefore, forced back upon the conclusion at which I arrived, when the surplus arose-namely, that when the change in the supervision was made, an error occurred in dividing up the stock into :

> Spirits in process.
> "" bond and
> Duty paid spirits,
and that in all probability when Messrs. Gooderham were called upon to pay at the close of the previous year for an alleged deficiency, they were overcharged.

I feel the more inclined to this belief, because Mr. Davis and myself in talking over the proposed changes in 1885-96 had reached the conclusion that we should have no more deficiencies of any extent, between the close receiver and the warehouse.

The chief shrinkage which they would have to make good, would be transferred to warehouse account, and if it did not there reach more than 6 per cent the first year and 4 per cent the second, as by law provided, the loss would come within the legal allowance, and if it exceeded such legal allowance, an entry ex-warehouse for consumption would be passed and a cheque demanded at once to satisfy the distiller's liability upon each distinct and,separate warehousing transaction.

The deficiency on the distillery transactions would, therefore, be about 1 to \(1 \frac{1}{4}\) per cent upon rectification and the reduction from high strength spirits to whisky. It is a known fact that a gallon of alcohol and a gallon of water do not make quite two gallons of the resultant mixture-probably the globules of alcohol and water are not exactly the same size-and when mixed a slight shrinkage takes place. This the distiller would lose, but on the other hand the law requires the charge to be made at the close receiver by Sykes's hydrometer, which only partially compensates for difference in temperature.

For many years the distillers have had an advantage of about 1 per cent-by being permitted to run the spirits through refrigerators, thus reducing them at the close receiver to a temperature of some 45 degrees. There is thus a contraction in volume, which is held to be about 1 per cent.

It was expected that this advantage and the allowance for fusel-oil extracted, would about counterbalance the loss resulting from the reduction of spirits and waste in handling.

The conclusion then arrived at has been practically verified in respect of the other distilleries, and for two years, Messrs Gooderham were without any deficiency. The stock-taking of 1889-90, however, revealed a deficiency of \(18,065 \cdot 20\) gallons, and they now claim that the deficiency of 1889-90 should be set against the surplus of 1887-88.

The evidence goes to show that the great augmentation of stock during 1885 to 1887, then followed by a change in the supervision, over-taxed the officer then in charge, and he had to be relieved. The task of appropriating the spirits in stock to the various bonded and duty-paid warehouses, fell upon a new officer, who had to obtain his information second-hand. When he took charge in August, the distiller's returns for July were not made, and in order to correctly establish the stock on the 1st July, the stock in process was the more difficult to ascertain, inasmuch as the transactions during the intervening month had to be taken into account.

It appears that one error of 31,000 gallons was detected and the distillers, very fairly raise the question if one, why not a second?

In view of the facts presented and of the further fact that henceforth, under the provisions of last year's amendment the distiller will be charged by weight at the close receiver, and thereafter the spirits will be weighed into, as well as out of the warehouse -thus obviating any chance of further error; I am of opinion that it will be equitable to the distiller and safe to the revenue, to treat the whole period from 1st July, 1886, to 30th June, 1891, as one continuous account.

Meanwhile, the department will give the instructions to weigh over all stock in warehouse, now charged against it by measurement, not already weighed (some 500,000 gallons) provided Messrs. Gooderham will accept the stock-taking of July, 1886, and abide by the results of that of 1891, paying duty upon any deficiency which may result from the aggregate transactions of the said five years. I am inclined to believe that they will accept this compromise as the fairest under the circumstances, that can be recommended.

I may state in making this recommendation, that in any case, every gallon that has gone into actual consumption has paid duty-the present complication is in respect of spirits which have not gone into consumption, but which, according to the departmental contention, has been lost between the tail of the worm and the market.

I have the honour to be, sir, Your obedient servant,
E. MIALL.

The Honourable the Minister Inland Revenue.

\section*{Report of the Auditor General to the Treasury Board..}

\author{
Audit Office, Ottawa, March 7, 1893.
}

Sir,-The recommendation that the 5 years' stock-taking, beginning with 1886-87, be treated as a whole, that is, that from the sum of the deficiencies of the other 4 years

\section*{Auditor General's Report-Part S}
the surplus of \(1887-88\) be deducted, and the duty charged on the balance, should be first examined to see what it really means.

No one pretends that the surplus which is now under crown lock should not, like all other spirits, be subject to duty when it goes into consumption. No one contends that there is ground for supposing that there is anything wrong in the deficiencies charged as having arisen in the other 4 years, except so far as doubt may be cast upon their correctness by the presence of a surplus in this year. It will be observed that I do not take into account the argument that because a man is known who once made a mistake, there is reason to fear an error in every result in the Government books of this distillery, and that the error should have always been against the claimants.

Now, then, if the deficiencies of the other 4 years are correctly found, the deducting of this surplus from the sum of those deficiencies means merely this: the claimants are to be called upon to pay the duty on this surplus, but the Government is to give them every dollar of the payment. Therefore the recommendation is not one of compromise but that everything sought or which could be sought by the claimants should be allowed. Mr. Miall says at page 8 of his report of 10 th November, 1890, to the Minister of Inland Revenue :-
"I feel the more inclined to this belief because Mr. Davis and myself in talking over the proposed changes in 1885-86, had reached the conclusion that we should have no more deficiencies of any extent between the close receiver and the warehouse." -

If Mr. Miall and Mr. Davis anticipated neither deficiency nor surplus, the recommendation involves instead of a compromise, the supposition that the greatest possible error had been made, and that it had worked to its whole extent against the interests of the claimants.

The introduction of the deficiencies of the other years has no result, except to befog the real question, and the matter is therefore brought to what it really is.

Remembering then that it is only the presence of the surplus which has to be accounted for, and that it can only be taken to have been the result of an error, if the error is less likely than that the surplus should have arisen without an error, let us proceed to determine the cause or causes of the surplus. I would now direct your attention to the supposed cause on which reliance was placed by the claimants, that is, that the surplus arose from an error in warehousing. It appears to me that part of the surplus may be traced to that source of error. Mr. Miall says at page 7 of his report: "The quantity originally charged to the warehouse account as respects these 116 copper tanks was . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 1,979,344 p. gallons. The quantity found by weight 12 months thereafter was.......................................................
\[
22,709
\]

While the quantity found at the latter date by the dip-rod measurements-the same method as that which determined the original charge was \(1,961,992\), a discrepancy of 17,352 gallons."

Weighing gives the correct quantity. If the difference of the result by this correct mode of measurement, and the unreliable one by dip rod, at the end of the year was shown to have been 5,357, why is not this difference approximately the error that was made as the spirit was warehoused from time to time, the quantity measured in the two cases having been about the same? If this is a correct view, 5,357 gallons of the apparent surplus arose from that quantity having been charged to warehouse and therefore credited to production in excess of what was warehoused, and therefore 5,357 gallons are accounted for. The charging erroneously the 5,357 gallons to warehouse account did not take anything out of the pockets of the claimants, because although the spirit really lost only 17,352 gallons, while it appears to have lost 22,709 gallons, the claimants paid for what went into consumption properly determined by weight with no charge for apparent waste, unless the waste was over 6 per cent in the first year, and the apparent waste in this case in a year was less than \(1 \frac{1}{4}\) per cent. I shall therefore treat the surplus in the remainder of this memorandum as \(20,17.9\), the apparent surplus of 25,716 gallons less this error in warehousing of 5,357 gallons.

After the sitting of the Treasury Board, at which the claim of Messrs. Gooderham \& Worts was discussed, I had interviews with Messrs. Gooderham and Davis, and obtained from the Inland Revenue Department the yearly abstracts of the revenue accounts of the claimants with the Government, and found from them that the deficiency for 1888-89, the year following the one which showed this surplus was only 258 gallons. Mr. Davis explained the unusually small deficiency by saying that a refrigerator was used during that year. This was the first time that I had heard of a refrigerator, although I now find that reference to it was made in Mr. Miall's report of November, 1890. It naturally occurred to me that the refrigerator must have been in use during the surplus year, and that the average temperature must have been still lower than when the small deficiency arose. Mr. Davis's recollection was that the refrigerator had not been in use except during 1888-89. As, however, the amount involved was large, I thought it well to visit the distillery. When there I obtained the memorandum test books for 1887-88 and subsequent years, and the evidence of Mr. Dudley, who has been the chief excise officer of the distillery since August 1, 1877 and who was previonsly one of the assistants. I also consulted Prof. Ellis, of the School of Science, Toronto, who embodied his information in a letter. All the documents accompany this report, as do abstracts showing temperature from the test books and from those of the Walker \& Sons' distillery. They all have an important bearing on this inquiry. The test books show that while the refrigerator was used at intervals during subsequent years, it was used continuously during the year 1887-88, and that the average temperature of the liquid that year, when ganged at the close receiver was \(40 \cdot 16\), the average in subsequent years having been
\begin{tabular}{rrr}
\(1888-89\) & \(1889-90\) & 1891 \\
50.68 & 56.40 & \\
& & 45.59
\end{tabular}

Prof. Ellis shows that the expansion of the liquid owing to change of temperature from 40 to 62 -the latter being the temperature when the warehousing took place -was 29,552 gallons, the now apparent surplus of 20,179 gallons and 9,373 gallons as well. That is, the whole mystery would be solved if it could be shown that 9,373 gallons would cover the probable amount of loss while the second distillation was going on.

It seems impossible now to determine the waste directly. However, there are some data in the documents which help in limiting the amount of waste.

The departmental returns of Walker's distillery for the year 1887-88 show that there was neither surplus nor deficiency in that year. The memorandum test books of that distillery for that year shows that the average temperature of the liquid when tested at the close receiver was \(49 \cdot 56\), that is, if the same quantity had been manufactured there as was manufactured at Gooderham \& Worts in the same year, and had been tested at \(40^{\circ}\)-the temperature at Gooderham \& Worts-there would have been a surplus to the extent which \(2,500,000\) gallons contract by the temperature falling from \(49 \cdot 56\) to \(40 \cdot 16\), or \(\frac{9 \cdot 4}{22} 0 \times 29,552\), or 12,627 .

In the year 1888.89 in the distillery of the claimants, the deficiency was 258 gallons only, while the average temperature at the close receiver was 50.58 . If therefore the average temperature at the close receiver had been reduced to \(40 \cdot 16\) and the same quantity had been manufactured as in 1887-88, the surplus would have been \({ }^{1} \frac{0}{2} \frac{7}{2}^{2}\) \(\times 29,552,258\) (nearly) or 13,742 gallons.

Mr. Miall remarks (see page 8 of his report) that there would be neither a surplus nor a deficiency in the production account under the new system, but he speaks of the temperature at the Close Receiver as \(45^{\circ}\). That is, he expected that if the temperature had been \(40^{\circ}\) there would have been a surplus \(\frac{5}{22}\) of 29,552 in the year \(1887-88\), or 6,716 gallons.

Mr. Miall expected that the expansion by a rise of temperature from \(45^{\circ}\) to \(62^{\circ}\) or of \(17^{\circ}\) would be lost by the waste in the second distillation, while the result at Walker \(\&\) Sons for that year and at Gooderham \& Worts in the subsequent year waa that the waste was covered by an expansion due to a rise of 13 degrees of temperature in the one case and of 12 in the other.

\section*{Auditor General's Report-Part S}

\begin{abstract}
It has been shown, then, that it is not necessary to have recourse to a supposition of error if the loss in the 2nd distillation was not more than 9,373 gallons.

Then it has been shown by comparing this distillery with the working of another distillery in the year under consideration, and by comparing it with the working of the Gooderham \& Worts distillery the following year, that there was reason to expect that the surplus would have been over 13,000 gallons. Therefore there is no need of making any endeavour to account for more than 6,000 gallons by supposing an error.
\end{abstract}

There are four ways in which this may have arisen:-
1. A mistake may have been made in determining the quantity on hand at the end of the previous year. The excise officer now in charge who assisted in the stocktaking then, does not see how an error could have occurred.
2. One of the drafts of the close receiver may have been overlooked in entering in the memorandum test book.
3. The waste instead of having been 16,000 gallons may have been only 9,300 gallons owing to exceptional freedom from leaks and overflow.
4. There may have been an error in the warehonsing of the remaining part of the product of the year.

If the difference arose from either (2), (3) or (4), all of them more likely events than (1), the claimants did not suffer. If it arose from (1), they did suffer.

It will be observed that this memorandum is not limited to reply to arguments used by those who believe that the claimants are entitled to exemption from duty on the surplus. It seemed proper that the subject should be discussed in the broedest light in which it presented itself to my mind. Although it has been shown that the waste in the distillery of the claimants and in the other large distillery has been much less than was supposed by the Commissioner of Inland Revenue, it must be remembered that producing such evidence does not indicate that the Government is bound to the assumption that the waste cannot be less than it was proved to have been in some other case. It is necessarily too variable to permit the fixing of any limit to its extent.

The use of a refrigerator to serve no purpose but to reduce duty seems to me to have very doubtful parliamentary authority. The duty from which the distillers were exempt by means of it was very much greater than the amount of this claim. It seems to me that the claimants are not entitled to their claim.

Respectfully submitted,
The Secretary of Treasury Board. J. L. McDOUGALL, A.G.

\section*{IN THE EXCHEQUER COURT OF CANADA.}

\author{
Between \\ Gooderham \& Worts (Limited), Plaintiffs, and Her Majesty the Queen, Defendant. special case stated for ter opinion of the court.
}

Part 1.
1. The plaintiffs are distillers within the meaning of the Inland Revenue Act and amending Acts, their distillery being at the city of Toronto. The plaintiffs, for a period of sixteen years and upwards preceding the year 1888, used refrigerators for the purpose of reducing, by a lowering of temperature, the volume of spirits passing from the tail of the first worm in which the spirits were condensed into the close spirit receivers, and the plaintiffs used such refrigerators for the purpose aforesaid during the period from \(1_{\text {st }}\) July, 1887, to 1st July, 1888.
2. The quantity of spirits produced by the plaintiffs during the year last mentioned Was \(2,494,967 \cdot 81\) gallons, the average temperature of the spirits at the times of measurement for the purpose of ascertaining the said quantity being \(40 \cdot 16^{\circ}\). The quantity so ascertained at that temperature is correct, and the plaintiffs have been charged with duty upon that quantity. The said \(2,494,967 \cdot 81\) gallons of spirits were redistilled and
warehoused, and it was then ascertained that there apparently remained, after the second process of distillation, not only the quantity warehoused of \(2,494,967 \cdot 81\) gallons, but also a surplus of 25,712 gallons. That quantity of spirits was thereupon impounded and still remains impounded by the Inland Revenue officers. This surplus admittedly did not arise through any fraud. The defendant is advised that the surplus is to be accounted for, in whole or in a great part, by the fact that the first measurement took place at a temperature of \(40 \cdot 16^{\circ}\), while the measurement after the second process of distillation took place at an average temperature of \(62^{\circ}\). Other causes which cannot be ascertained may have contributed in part. The plaintiffs, while holding the view that, having regard to the loss by redistillation, any gain in bulk through the second measurement having taken place at the higher temperature is not sufficient to account for such a surplus, nevertheless, agree that, for the purpose of the present inquiry, the change of temperature shall be assumed to be the cause.
3. Except in so far as changed by legislation, providing for the weighing of spirits, the practice has always been to measure spirits by bulk, irrespective of temperature, except in so far as temperature may affect the determination of the alcoholic strength of the spirits; a matter not affecting this case. This practice has extended to every branch of the spirit trade.
4. The plaintiffs desire to refer to the Excise Act of 1862, as recognizing the use of refrigerators in distilleries at that period.
5. Refrigerators had since 1869, if not before, been in use for the purpose of shrinking the volume of spirits at the close receivers. This practice was regarded as reasonable in view of the loss incurred by the distilleries in redistillation after the debit for duty had been established at the close receivers. The duties imposed from time to time for the preceding twenty years have been so imposed with this system of measurement in vogue.
6. Removals for consumption have, since the Act of 1874, been tested by weight for the purpose of ascertaining by weighing the quantity in gallons contained in the packages, and the temperature of the gallon of spirits was fixed by regulation of circular 91, 16 th February, 1875, at \(45^{\circ}\). To this circular reference may be made.
7. While the statute of 1874 required removals for consumption to be by weight, no enactment requiring a determination of quantities by weight in testing for duty at the close receiver, or otherwise, was passed until the statute of 1890 , brought into force on the 1st of July, 1891.
8. Plans of refrigerators in use in the various distilleries were furnished each year to the department and reports thereon recognizing them, have been filed from time to time by the Inspector of Distilleries and others, and have never been objected to by the department. Reference may be had to such plans and reports.
9. In the supervision of distilleries the Inland Revenue officers were instructed by the department to see that no agent other than ice was used in the refrigerators for the purpose of lowering the temperature at the close receivers-such instructions were observed, and no agent other than ice was used.
10. The questions for the court, having regard to the above facts, and to the admissions herein made, are :-
(1.) Had the plaintiffs the right to use refrigerators for the purpose stated during the period from 1st July, 1887, to 1st July, 1888? If it be decided that the plaintiffs had the right during that period to use refrigerators for the purpose stated, judgment is to be given for the plaintiffs that the 25,712 gallons so impounded shall be released on payment by the plaintiffs of the duty upon the 5,016 gallons; which quantity is the net deficiency arising as the result of the arrangement hereinafter set forth.
(2.) Assuming it be decided that the plaintiffs had not the right to use refrigerators, are the plaintiffs liable to pay duty upon the stated surplus, in view of the fact that they have already paid duty upon the whole quantity of spirits as ascertained upon the first process of distillation in the manner hereinbefore set out?

If the latter question be answered in the negative, there is to be judgment for the plaintiffs that the 25,712 gallons impounded shall be released to them as duty-paid upon payment by the plaintiffs of the duty upon the said 5,016 gallons.

\section*{Auditor General's Report-_Part S}

\section*{Part II.}

The following facts are admitted:-
11. During the year 1887-88, the year in question, the average temperature of the spirits tested for duty at the close receiver was \(40 \cdot 16^{\circ}\), and the strength about \(60^{\circ}\) over proof.
12. The plaintiffs disputed that the apparent surplus was due to the use of the refrigerator.
13. The average temperature at which spirits have been assessed for duty at the close receiver for nearly twenty years has been about \(40^{\circ}\) and the average strength about \(60^{\circ}\) over proof.
14. The normal condition has for many years been that a deficiency has arisen as between the initial quantity of spirits determined at the close receiver and the quantity accounted for after redistillation, and this is the only case in which a dispute has arisen as to a surplus in this or any other distillery in Canada.
15. About a year and three months prior to the year in question, the plaintiffs had, in anticipation of an increase in duty, removed over 400,000 proof gallons from bond by paying the duty thereon. A large portion of these spirits, namely, about 200,000 gallons continued to remain under Crown lock, at the request of the plaintiffs, during the year in question, scattered in different kinds of receptacles throughout the premises.
16. The aging law of 1885 involved an enormous increase in production and storage capacity, and as the storage was not able to keep pace with the production through the next few years, the premises were in an abnormally congested condition, the quantity in store having increased in the two years, over two millions of gallons.
17. Owing to the same law a new system of accounts had been introduced into the distilleries by the Excise authorities to which the officer in charge was not accustomed, and which differed materially from that formerly in vogue.
18. The first return of the officer in charge after the 1st of July, 1888, showed an alleged surplus of nearly 65,000 gallons. This, upon investigation of the Departraent of Inland Revenue, was reduced by errors discovered to 25,712 gallons. It being impossible to establish any further error, the Inspector of Distilleries weighed, during the next two months, upwards of \(2,000,000\) gallons, for the purpose of ascertaining whether therehad been any further error, and failing to find any further errors the question arose, whether the Government could collect the duty upon the 25,712 gallons or not, the department claiming that the original measurements at the close receiver were correct, and admitting their inability to discover any error in the warehouse or in process; the plaintiffs claiming that they were not liable to pay duty upon the alleged surplus, for the reason among others that they had already been charged for duty upon the total quantity which was produced upon the first process of distillation.
19. Under these circumstances, and for the purpose of settling the differences between the parties, in the autumn of 1888 , the settlement which was eventually concluded by the annexed correspondence. was suggested by the Inspector of Distilleries, and and with the approval of the Commissioner of Inland Revenue, and was accepted and acted upon by the plaintiffs, the said letter of the 15th November, 1890, being the confirmation thereof by the Minister.
20. In the event of the preceding branch of the case (Part I.) being decided against the plaintiffs, then the court is asked to say whether the agreement proposed by the acting Minister of Inland Revenue in his letter of the 15th November, 1890, and accepted by the plaintiffs in their letter of the 19th November, 1890 (both of which are hereto annexed), is binding upon the defendant in view of the facts herein stated.
21. This arrangement afforded, and was intended to afford, the distiller an opportunity to refrain from using the refrigerator to a greater or less extent during the remainder of the period in question, thereby producing a deficiency between the warehouse and the close receiver by increasing the debits established for duty at the latter point to an extent sufficient to meet the alleged surplus.
22. The plaintiffs accordingly used the refrigerator but little during the remainder of the period in question, whereby deficiencies were produced sufficient to meet the alleged surplus and about 5,016 gallons more.
23. The loss by redistillation is not constant but varies from one to two per cent.
24. If it be decided that the arrangement or agreement so entered into is binding upon the defendant, in view of the circumstances above stated, judgment is to be given for the plaintiffs, that the 25,712 gallons, named as aforesaid, shall be released upon the plaintiffs paying duty upon the said net deficiency of 5,016 gallons.
25. If, on the other hand, all the questions herein submitted be decided against the plaintiffs judgment is to be given against them for the amount of duty upon the aforesaid surplus of 25,712 gallons, and also upon the aggregate deficiencies, amounting to thirty thousand seven hundred and thirty-two proof gallons, at \(\$ 1.30\) per gallon.

The parties agree to waive pleadings.

> J. J. CURRAN,
> Solicitor General for Canada.

GOODERHAM \& WORTS, Ltd.,
by
Thomas Gibbs Blackstock, their Solicitor.

Dept. of Inland Revenue, Ottawa, November 15, 1890.
Gentlemen,--I have the honour to state that the Honourable the Postmaster General, acting Minister in absence of the Honourable the Minister of Inland Revenue, has approved of the following recommendation with which I concluded my report' upon the recent investigation.
"In view of the facts presented, dc. * * * * I am of opinion that it will be equitable to the distiller and safe to the revenue to treat the whole period from 1st July, 1886, to 30th June, 1891, as one continuous account. Meantime the department will give instructions to weigh over all stock in warehouse not already weighed (some 500,000 gallons), provided Messrs. Gooderham will accept the stocktaking of July, 1886, and abide by the result of that of 1891-paying duty upon any deficiency which may result from the aggregate transactions of the said five years."

I am instructed on receiving from you a notification that this settlement is accepted as satisfactory, to carry out the proposed arrangement, as a matter of departmental administration.

I am, sir, your obedient servant,
Messts. Gooderham \& Worts, Limited, E. MIALL. Toronto.

Toronto, November 19, 1890.
Sir, - I have the honour to acknowledge the receipt of your communication of the 15th instant re 25,000 gallons odd surplus. The plan of treating the years from lst July, 1886, to 30th June, 1891, as one period will be quite acceptable to me as a final adjustment of this difference.

I am, sir, your obedient servant,

\author{
E. Miall, Esq., \\ Commissioner of Inland Revenue. Ottawa.
}

\section*{Auditor General's Report-Part S}

\section*{IN THE EXCHEQUER COURT OF CANADA.}

Thursday, the 15th day of February, A.D. 1894.
Present-The Honourable Mr. Justice Burbidge.
Between Gooderham \& Worts (Limited),
and
Her Majesty the Queen,
Plaintiffs;

Defendant.
This matter coming on this day for hearing upon the special case agreed upon and stated for the opinion of the court, upon hearing read the said stated case, and upon hearing what was alleged by counsel on both sides.

This court being of opinion on the first question submitted in the stated case, upon the facts therein stated, that the plaintiffs had the right to use refrigerators for the purpose stated in such case, during the period from July 1, 1887, to July 1, 1888, doth adjudge and declare that the plaintiffs are entitled to have the 25,712 gallons of spirits impounded as therein mentioned, released from seizure upon payment by them of the duty upon 5,016 gallons, and thereupon to have the possession of the said 25,712 gallons of spirits restored to them, the said plaintiffs.

By the court.
L. A. AUDETTE, Registrar.

Audit Office, Ottawa, Oct. 23, 1894.
Sir,-I have to inquire what action has been taken by the department on the judgment of the Exchequer Court, rendered February 15 last in reference to the spirits impounded at the Gooderham distillery?

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Post Office Department-Rate of pay of temporary clerk who has passed only the preliminary examination.}

\author{
Addit Opfick, Ottawa, Oct. 18, 1893.
}

Sir,-Miss F. M. Farrell, an extra clerk in the Post Office Department, has passed the prelimizary examination only, which qualifies her for employment as a copyist and entitles her to the minimum salary of a third-class clerk, viz., \(\$ 400\). I find that she is being paid at the rate of \(\$ 1.50\) a day, or \(\$ 547.50\) a year. Please let me know your reasons for allowing this remuneration in view of the restrictions of the Civil Service Act.

I am, sir, your obedient servant,
The Accountant of Contingencies.
J. L. McDOUGAII, A.G.

\section*{Finance Department, Ottafa, Nov. 7, 1893.}

Sir,-I do not find in the Civil Service Act any restriction to the payment to Miss F. M. Farrell as a copyist, of more than the minimum salary of a third-class clerk. On the contrary the certificate was given, as required by section 47, that the work performed by her was technical, requiring special qualifications, and passed by the Treasury Board.

Please show me where, in the Civil Service Act, employment as a copyist, the qualification for which is the preliminary examination, is linked with the minimum salary of a third-class clerk.

I am, sir, your obedient servant,
The Auditor General.
W. H. HAYES, Acct. of Contingencies.

Audit Offige, Ottawa, Nov. 9, 1893.

I note what you say about restricting clerks who have passed the preliminary examination only to the minimum salary of a third-class clerk. You refer to the provision under which the higher salary can be allowed for special qualifications. The Civil Service Act, section 47, subsection 2, reads: "The rate of remuneration to be paid for temporary service shall not exceed the minimum salary of a third-class clerk, unless the service to be performed is technical and requires special qualifications."

Although it is the custom to allow copyists who have passed only the preliminary examination pay at the rate of \(\$ 400\) a year, this custom does not seem to have been contemplated by this section. The expectation seems to have been that, as the preliminary examination is nothing more than a part, and a small part, of the qualifying examination, and as the maximum allowance to a person who had passed the qualifying and much higher examination was to be \(\$ 400\), the allowance to the copyist was to be less than \(\$ 400\). I have never been able to say how much less, because the Act did not fix a separate limit.
\[
1 a-1 \frac{1}{2}
\]

Now, we have to deal with persons who are to receive greater remuneration than the maximum allowance to those who have passed the higher examination. These persons must pass an examination-which is it? If it is optional with the candidate he will of course go to the simple examination. What did Parliament intend?

1st. Small pay to the copyist who passed the preliminary examination.
2nd. Higher pay to the higher grade clerk who passed the higher examination ; and
3rd. The highest pay to the clerk who passed only the preliminary examination.
The first and second are explicitly laid down, surely the third is not a reasonable. consequence.

I am, sir, your obedient servant,
The Accountant of Contingencies.
J. L. McDOUGALL, \(A . G\).

Finance Department, Ottawa, November 18, 1893.
Sir,-I have the honour to acknowledge your letter of the \(\underset{*}{9} \underset{*}{\text { th instant. }}\)
The Civil Service Act prescribes two examinations, preliminary for temporary copyists, and qualifying for clerkships, and section 47 , subsection 2 , which you quote, is as far applicable to the one as to the other. The point seems to me to be just this: is it or is it not possible for a copyist, in performance of duties as a copyist, to be engaged in technical work requiring special qualifications? Is it not possible that a person might not be able to pass the qualifying examination, and still be possessed of special knowledge or attainments which would be of value above the ordinary?

This argument of ours is all in connection with the qualification and payment for temporary services. It is in connection with appointrments to permanent positions that the advantage of the one examination over the other becomes manifest.

If I were interpreting the intention of Parliament I would take exception to your lst and 2nd, as I do not think that what you state is explicitly laid down, but rather that as far as payment for temporary service is concerned they are on the same basis, Further back in your letter you do not seem to think that the terms of the Act are as explicit, as you say "the expectation seems to have been, dc."

You say the 3rd is not a reasonable consequence. I have not said at any time that the clerk passing only the preliminary examination should receive the highest pay.

In conclusion, the facts of the case concerning Miss F. M. Farrell's employment and payment at the rate of \(\$ 1.50\) per day, were before the Treasury Board when such employment was authorized and it is therefore reasonable to believe that I have their concurrence in applying the Civil Service Act as I do.

> I am, sir, your obedient servant,

The Auditor General.
W. H. HAYES, Accountant of Contingencies.

\section*{Audit Office, Ottawa, November 22, 1893.}

Sir,-I have your letter of the 18 th instant, with reference to whether an extro. clerk cau legally be paid more than \(\$ 400\) without having passed the qualifying examination.

It appears to me that we cannot come much nearer to an agreement by continuing the discussion and that, therefore, you should now refer the question to the Treasury Board.

You will be good enough to consider, in the meantime, your credit as not covering payments in which the point now in difference affects the amount.

I am, sir, your obedient servant,

\title{
Treasury Board Over-rulings.
}

Audit Office, Ottawa, December 6, 1893.
Dear Sir Adolphe,-I have your letters of the 1 st and 5 th instant, both with reference to the salary of Miss Farrell.

I regret to have to say that I do not see my way to passing her salary at a higher rate than \(\$ 400 \mathrm{up}\) to the time of the qualifying examination which she attended. You will observe that I am not objecting to the payment of a higher rate than \(\$ 400\) except because the higher examination was not passed. Although it is impossible to say now whether Miss Farrell passed the qualifying examination or not, when it is known that she has passed I shall have no objection to her increased pay counting from the time when she went up for examination.

You will not fail to notice that, although I give my own view on the subject and although I requested Mr. Hayes not to pass more than the salary of \(\$ 400\) in the meantime, the question is one on which there is room for a difference of opinion and an appeal to the Treasury Board might very possibly result in my decision being over-ruled.

If Miss Farrell should take the \(\$ 400\) salary now on account there would be nothing to prevent her receiving the additional amount when it was shown that she was legally entitled to it, either because my decision had been overruled or because she had passed the qualifying examination.

Will you be good enough to excuse my not answering your letter of the 1st instant at once? Between the preparation of my Annual Report and the daily work which has to be attended to I have scarcely known how to turn lately.

I am, sir, your obedient servant,

> J. L. McDOUGALL, A.G.

Hon. Sir A. P. Caron, K.C.M.G., Postmaster General.

\section*{Audit Office, Ottawa, December 16, 1893.}

Dear Colonel White,--In reply to your letter of the 7th inst., I would remind you that my contention is not that Miss M. F. Farrell's duties as a type-writer are necessarily sufficiently paid at \(\$ 400\), or that her work is not technical.

My interpretation of the Civil Service Act is that, if an examination has to be passed at all to receive payment as a technical clerk, the examination should be the qualifying examination, and not the preliminary one. When evidence has been given that the qualifying examination has been passed, any difference of opinion between you and me on the subject will have disappeared and the amount to be paid, although over \(\$ 400\), will then depend on the Governor in Couucil.

You have no doubt seen my letter to the Postmaster General in which my position is more fully defined.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

Order in Council, Feb. 7, 1894-The Committee of the Privy Council having had under consideration the following case recommend the adoption of the same:-

Post Office.
Over-ruling the objection of the Auditor General to the employment of Miss F. M. Farrell at \(\$ 1.50\) per diem.
J. J. McGEE, C.P.C.

\section*{Audit Office, Otrawa, March 16, 1894.}

Sir,-I have received notice of an Order in Council over-ruling my objections to the employment of Miss F. M. Farrell at \(\$ 1.50\) a day.

I beg to point out that by sec. 32 of the Consolidated Revenue and Audit Act the mode of over-ruling is indicated, and that it is by the Treasury Board and not by the Governor in Council. I would suggest, therefore, that an appeal to the Treasury Board be immediately made.

> I am, sir, your obedient servant,
> J. L. McDOUGALL, A.G.

Hon. Sir A. P. Caron, K.C.M.G., Postmaster General.

Post Office Dept., Ottawa, March 22, 1894.
Sir,-With reference to your letter of the 16th instant, on the subject of an Order in Council over-ruling your objections in regard to the rate of pay at which Miss F. M. Farrell is employed as a temporary clerk in this department, I beg to ask you to be so good as to state under what subsection of section 32 of the Consolidated Revenue and Audit Act you contend that the question of overruling is one for the Treasury Board, and not for the Governor in Council.

The Auditor General.

> I am, sir, your obedient servant, WM. WHITE, D.P.M.G.

Audit Office, Ottawa, April 2, 1894.
Sir,-In answer to your letter of the 22nd ultimo, in which you ask under what subsection of section 32 of the Consolidated Revenue and Audit Act, I contend that the question of over-ruling is one for the Treasury Board and not for the Governor in Council, let me say that it is under either of the subsections ( \(a\) ) or (c) which refer to the matter.

Subsection (a) which in the original Act gave the Minister of Finance the power to issue the cheque in the case where the Auditor General had objected on account of the lack of parliamentary authority, was amended by 51 Vic., chap. 7 , sec. 5, so that the Treasury Board has now power in that case also.

I am, sir, your obedient servant,
The Deputy Postmaster General.
J. L. McDOUGALL, A.G.

\section*{Post Office Department, Ottafa, March 20, 1894.}

Sir,--The Auditor General having in the accompanying communication pointed out, with reference to an Order in Council over-ruling his objections to the employment of Miss F. M. Farrell at \(\$ 1.50\) a day, that the question, according to section 32 of the Consolidated Revenue and Audit Act, is one for the Treasury Board and not for the Governor in Council, I have the honour to state that the grounds upon which the Order in Council referred to was based are as follows:-

Under Order in Council of February 1st and June 29th, 1893, the employment of Miss Farrell was authorized at \(\$ 1.50\) a day, as a temporary clerk, but in November last the Auditor General took exception to any further payment at a rate in excess of \(\$ 400\) a year, on the ground that Miss Farrell had not passed the qualifying examination.

Miss Farrell passed the preliminary examination in November, 1892, and she presented herself for the qualifying in November, 1893, but failed to pass in arithmetic,

\section*{Treasury Board Over-rulings.}
and thus obtained only 373 marks out of the requisite 400. She passed successfully in the optional subject of type-writing.

As Miss Farrell is engaged in confidential correspondence for the Postmaster General and the Deputy Postmaster General, and is an expert type-writer, and has also charge of the phonograph and the electrical apparatus in connection therewith, and as such work clearly comes within the definition "technical" in section 37 of the Civil Service Act, it was submitted to the Governor in Council that the objection of the Auditor General to the payment of Miss Farrell at the rate of \(\$ 1.50\) per diem (the rate authorized by the Orders in Council of February 1st and June 29th, 1893) should be over-ruled.

Under the circumstances detailed above, I beg respectfully to submit the matter for the action of the Honourable the Treasury Board.

I am, sir, your obedient servant,

\section*{Post Office Department, Ottawa, April 3, 1894.}

Sir,-In returning the inclosed papers with reference to the over-ruling of the Auditor General's objection to the payment of Miss F. M. Farrell, a temporary clerk in this department, at \(\$ 1.50\) a day, I beg to send you herewith a further letter from the Auditor General on the subject, specifying more particularly the subsection of section 32 of the Consolidated Revenue and Audit Act in which he contends the mode of overruling is indicated.

> I am, sir, your obedient servant,

The Secretary, Treasury Board.
WM. WHITE, D.P.M.G..

\section*{Department of Finance, Otrawa, April 6, 1894.}

Sir,-Referring to your letters of the 20th ultimo and 3rd instant in the matter of the Auditor General's objection to the payment of Miss F. M. Farrell at the rate of \(\$ 1.50\) per diem, I have the honour to inclose herewith a copy of an extract from the Minutes of a meeting of the Treasury Board held on the 24th February, relative to this matter, and in connection therewith I have to say that at the time it was taken into consideration by the Board the Auditor General's letter on the subject was before them, as you will note from the Minute. Undoubtedly it would have been better to have asked for a statement of this case from the Auditor General before taking action, and care will be taken that this practice will be strictly adhered to in future.

I may say the Board were in possession of all the facts and circumstances relating to the case when their decision was given. I would suggest that you transmit this letter and the accompanying correspondence to the Auditor General with the view of having a settlement arrived at.

> I am your obedient servant,

\author{
J. M. COURTNEY.
}

\section*{The Deputy Postmaster General.}

Extract from the minutes of a meeting of the Honourable the Treasury Board, held at Ottawa, on the 24th day of February, 1894.

Post Office,-The Board had under consideration a memorandum from the Honourable the Postmaster General, reporting with reference to the Orders in Council of the lst February, and 29th June, 1893, authorizing the temporary employment of

Miss F. M. Farrell, at a rate of pay of \(\$ 1.50\) per diem (on account of services of a technical character), that the Auditor General has taken exception to the further payment of Miss Farrell at a rate in excess of \(\$ 400\) a year, on the ground that she had not passed the Qualifying Examination-a letter from the Auditor General on this suject being submitted.

The Board are of the opinion that the objection of the Auditor General is not well taken and should be overruled, and Miss Farrell be paid at the rate of pay authorized by the Order in Council above referred to.

\section*{J. M. COURTNEY, Secretary.}

\section*{Post Office Department, Ottawa, April 10, 1894.}

SIR,--In accordance with the suggestion in the accompanying letter from the Secretary of the Treasury Board, I beg to transmit to you herewith that communication and the other papers referring to the Order in Council over-ruling your objections to the employment, as a temporary clerk in this department, of Miss F. M. Farrell, at a rate of pay in excess of \(\$ 400\) per annum.

I am, sir, your obedient servant,
Wm. WHITE, P. D. M. G.
The Auditor General.

Audit Office, Ottawa, April 17, 1894.
Sir,-The Deputy Postmaster General has sent me your letter of the 6th instant, and a copy of the Treasury Board minute of February 24th, regarding the employment of Miss F. M. Farrell.

Apart from the point mentioned in your letter, that the matter was not referred to this office for report before being dealt with by the Treasury Board, there is a more important question, viz, : did the Justice Department give a written opinion that the Board was legally in a position to over-rule my objection, which was taken on the ground that there was not Parliamentary authority for Miss Farrell's employment at the rate of pay authorized by Council. If such an opinion was obtained, please let me have a copy.

> I am, sir, your obedient servant,

The Secretary, Treasury Board.
J. L. McDOUGALL, A.G.

\section*{Payments to C.P. R. Co., and Counter-claims against the Company.}

Order in Council, 8th January, 1894-On a memorandum dated 3rd of January, 1894, from the Minister of Railways and Canals, representing that under date the 30th December, 1893, the Chief Engineer of Canals has reported with regard to certain deductions made in 1883 from the \(\$ 25,000,000\) subsidy granted to the Canadian Pacific Railway Company, such deductions having been on account of steel rails and fastenings and other material on the line between Port Arthur and Rat Portage which the Compány had agreed to take over.

The Minister observes that the agreement in question is represented by a letter from the Company, dated the 3 rd of July, 1883, by which they offered to assume the work of completing the entire line from Selkirk to Fort William on terms named, their offer was accepted by an Order in Council dated the 9th of July, 1883, and that this offer contained a clause by which the company undertook to pay the Government the cash price of any ties or timber or other material then on hand that might be required

\section*{Treasury Board Over-rulings.}
for the completion of the line, and to pay the "fair market value" for any rails or fastenings that might remain after providing for sidings.

The Minister further represents that the present report of the Chief Engineer shows that he had, in 1883 , deducted for these surplus rails, dc., the sum of \(\$ 109, i 61.52\). He states that the company had objected that they had not only been charged for rails to which they were entitled under their contract, but that the prices were not fair and reasonable, further that the sidings were too short. He reports having now gone fully into the matter with the officers of the company and having readjusted the account, allowing 375 tons of rails to make goo the shortage in sidings, and fixing the price to be charged for new steel rails at \(\$ 28.75\) per ton, this being the price for which in the summer of 1883 the company had contracts out for delivery of rails on this section of the line, the account as so amended, a copy of which is hereto attached, amounts to \(\$ 74,612\) in place of \(\$ 109,761.52\), and the difference, \(\$ 35,149.52\), represents the amount deducted from the company's subsidy over and above that which should have been deducted. Upon this sum of \(\$ 35,140,52\) the Company claim interest at 5 per cent from the year 1883 .

The Minister recommends that authority be given for the adjustment of this account as now proposed by the Chief Engineer and for the payment of the said sum of \(\$ 35,149.52\) to the company, together with interest thereon.

The Committee advise that the requisite authority be granted.
JOHN J. McGEE, C.P.C. .

Audit Office, Ottawa, Jan. 26, 1895.
Sir, -With reference to your recent applications in favour of the Canadian Pacific Railway for sums due to them for old work, I would like to be supplied with a statement of any claims which the Dominion has against the railway.

It is preferable to settle both sides of the account at the one time, and it will probably be found easier. Do you see any obstacle in the way?

The question of interest requires some deliberation. If interest is payable to the Canadian Pacific Railway it should be payable to the Government on the claim for fuel in connection with the North Shore transfer.

I am, sir, your obedient servant,

> J. L. McDOUGALL, A.G.

The Deputy Minister of Railways and Canals.

\section*{Railways and Canals Dept., Ottana, Feb. 21, 1894.}

Sir,-In reply to your letter of the 26 th ultimo, I have the honour by direction to inform you that any claims that this department may have against the Canadian Pacific Railway Company are being attended to with all due diligence, and that at the present stage it will not be necessary to call upon you for assistance in the matter.

I have to request that you will be good enough to inform this department at once Whether or not the cheques applied for will be issued, and have to state that if a reply
in the affirmative is not received from you by to-morrow, it will be assumed that you decline, in which case an appeal will be made to the Treasury Board, in accordance with the provisions of the Audit Act.

I am, sir, your obedient servant,
JOHN H. BALDERSON, Secretary.

Department of Finance, Ottawa, March 5, 1894.
Sir,-I have the honour to inclose herewith a communication from the Secretary of the Department of Railways and Canals stating that you had refused to issue yout certificate for the issue of a cheque to the Canadian Pacific Railway Company and asking that the matter be sabmitted to the Treasury Board, I should be glad to receive your reasons therefor at the earliest possible moment, as I wish to have it before the Board without delay. Kindly inform me under which subsection of the 32 nd section of the Audit Act objection is taken to the payment.

I am, sir, your obedient servant,
The Auditor General.
J. M. COURTNEY, D.M.F.

Audit Office, Ottawa, March 5, 1894.
Sir,-I beg to acknowledge the receipt of your notification of this date that the Department of Railways and Canals has appealed to the Treasury Board to overrule my decision that the accounts in the books of the Department of Railways against the Canadian Pacific Railway Company should be furnished when the applications in favour of the company are being considered.

I have to draw your attention to the evidence of Mr. Schreiber, taken before the Public Accounts Committee, on 31st May, 1887 (see page 31) :-
" Mr. Mulock.-Did they pay for the use of them (engines and flat cars)?
" Mr. Scereiber.-They have not yet paid, but they have to pay for them."
It appears to be my duty to ask whether the Canadian Pacific Railway Company ever did pay.

Then at another time, although I cannot now find the record of the evidence, Mr. Schreiber, if my recollection is correct, stated before the committee that the Canadian Pacific Railway Company were paid more for hauling the cars referred to above, to the Intercolonial than they should have been. Has this claim been adjusted between the Government and the company?
- It is, in my view, a part of my duty to ask whether there are other claims of which I have not heard directly, but which the letter of the department hereto attached seems to indicate are in existence as " they are being attended to."

Now, the paying of interest at 5 per cent for 10 years, amounting to \(\$ 17,574.76\), is, in my opinion, worthy of serious consideration. I think that it should not be paid without the certificate of the Department of Justice that the Government is legally liable for interest and at this rate. No interest has yet been charged to the Canadian Pacific Railway Company on our fuel account against them, although the principal has been retained in this office by main strength from the amounts of cert:ficates in favour of the company, which have come from the Department of Railways. Now, the Government would be in rather an unfavourable position if it should, while not legally liable pay the Canadian Pacific Railway Company interest on a sum due to the company and be denied interest on as large a sum due to the Government for about the same length of time.

Let me refer you to the correspondence with the Treasury Board which appears on page \(V\) of the report of this office for 1886. A copy is appended hereto.

Note the words of the Deputy Minister of Justice:-"Where the existence of such "cross claims comes to the knowledge of the Auditor General or other officers of the "Government, and any difficulty is found in coming to a settlement, the matter should " be referred to the Treasury Board for adjustment, \&c."

Surely I should disobey the directions of the Treasury Board as, above given, knowing from the party making this appeal to the Board that there are some cross. claims, if I passed this certificate until the Treasury Board had deliberated upon it.

This appeal seems to me to come under 32 (c) of the Consolidated Revenue and Audit Act.

\section*{Treasury Board Over-rulings.}

Treasury Board Minute, March 10, 1894.-The Board had before them the matter of the refusal of the Auditor General to issue his certificate for cheques in favour of the Canadian Pacific Railway Company for \(\$ 57,481.71\) and \(\$ 35,149.52\), under authority of the Orders in Council of the 2nd and 8th January respectively, and on considering the report of the Auditor General and the Deputy Minister of Finance thereon, the Board order that the cheques mentioned in said report be issued. It appears that the claims Which the Auditor General indicates as possible cross-claims are matters of disputed liability and not such as could be properly insisted on as offsets, and it appears also that the Department of Railways and Canals has adopted measures to adjust the liability. As regards the interest included in the proposed payments it appears that the question of liability for interest has been already considered, and does not stand on the same footing as a claim for interest on the fuel account referred to by the Auditor General.

\section*{J. M. COURTNEY, Secretary.}

\section*{Rents of Letter Bozes and Drawers retained by Postmasters.}

SIR,-I am to-day in receipt of an application from the Public Works Department for the payment of letter boxes.

As I" wrote you November 22, 1893, that department informed me that letter boxes had been put in at the expense of the Government in all the new post offices erected since Confederation.

With the exception of the city post offices no revenue has reached the Government for the rent of these letter boxes.

I have brought this matter to your notice several times, and have had no explanation of the cause of the absence of revenue.

In view of these facts I feel it my duty to hold this application. Unless I get some satisfactory reply from you within a few days, I shall be obliged to submit the matter to the Treasury Board.

I am, sir, your obedient servant, The Deputy ' Postmaster General. J. L. McDOUGALL, A.G.

\section*{Post Office Department, Ottawa, March 22, 1894.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 20th instant, with reference to the revenue derived from the renting of letter boxes in town post offices. In reply, I beg to state that the question appears to me to be clearly one of administration and policy, and, therefore, appertains exclusively to the Postmastor General. If, however, you still hold to the contrary opinion, there can be no possible objection to your bringing the matter under the notice of the Treasury Board.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

\section*{Audit Office, Ottawa, April 2, 1894.}

Sir,-With reference to your letter of the 22nd ultimo, re letter box revenue, and to make the point in difference between us as clear as possible for the Treasury Board, is your view that the 53rd section of 49 Vic., cap. 35, gives the Postmaster General the power to assign the whole receipts to the Postmasters, or that the power is given in some other place? If so, where?

I am, sir, your obedient servant,

Post Office Defartment, Ottawa, April 6, 1894.
Sir,-In reply to your letter of the 2nd instant, I beg to state that in my opinion section 53, cap. 35, 49th Victoria, gives the Postmaster General the right to fix the salary and allowances of every kind to all Postmasters not paid by regular salaries, that is to say, not borne on the strength of the Outside Service.

I am, sir, your obedient servant,
The Auditor General.
WM. WHITE, Dep. P.M.G.

Audit Office, Ottawa, April 9, 1894.
Sir,-I inclose herewith copy of correspondence with the Deputy Postmaster General and the Secretary of the Department of Public Works in reference to letter boxes, \&c. This correspondence may be summed up as follows :-
(1.) The Government has fitted up letter boxes and drawers in all the Post Office buildings erected since Confederation.
(2.) With the exception of the city Postmasters all the Postmasters retain the full charges collected from the public for the use of these boxes and drawers in their respective offices.
(3.) The Deputy Postmaster General claims that this is a disposal of the receipts which the Post Office Department can legally make under 49 Vic., cap. 39, section 53.

Surely it is not contemplated by this section to authorize the placing upon the whole people the cost of a convenience for a particular locality,-a convenience for which the locality pays, not to the whole people, but to one individual. When it is said that Postmasters may be paid a percentage on the amount collected by them it seems not to mean that the whole may be paid.

Even as a return for labour there cannot, I presume, be any contention that the labour directly connected with the boxes and in addition to what it would be without boxes justifies the transferring of the whole receipts to the Postmaster.

Under these circumstances, and as I am now holding over an application for a payment for letter boxes for a post office now being fitted up, I have to request you to bring the matter before the Treasury Board at an early date.

I ana, oir, your obedient servant,
The Secretary, Treasury Board.
J. L. McDOUGALL, A.G.

Extract from minutes of T'reasury Board meeting heldon twenty-first day of November, 1894
Post Office,-The Board had under consideration a copy of the correspondence which has been had between the Auditor General and the Post Office and Public Works. Departments as to whether the Postmaster General has the power to allow to Postmasters the whole of the moneys received as rent for letter boxes and drawers placed by the Government in the Post Office buildings erected by the Public Works Depart ment, the Postmasters in charge of which are not under the Civil Service Act.

In connection with the matter the Board also had under consideration a communication from the Deputy Minister of Justice in which he states that in the opinion of the Minister of Justice, section 53 of the Post Office Act-R. S. C., chap. 35-gives to the Postmaster General the powers above referred to.

The Board concur in the opinion of the Minister of Justice as expressed.
J. M. COURTNEY, Secretary.

\title{
Davis \& Sons' contract, Sheik's Island Dam: alteration in rates.
}

\author{
Audit Office, Ottawa, October 20, 1894.
}
\(S_{\text {IR,- -Let me acknowledge receipt of your application No. } 168 \text {, for } \$ 62,250 \text {, in }}\) favour of Wm. Davis \& Sons, being estimates Nos. 8 and 9 on the Sheik's Island Dam, for August and September, 1894.

I notice that the rates paid for five items differ from those paid in the estimates up to and including July. Of the \(\$ 62,250\), now asked, \(\$ 22,562\) is caused by these alterations in rates.

Please let me have a copy of the original contract, and of the authority for the changes in the schedule.

I am, sir, your obedient servant, J. L. McDOUGALL, A.G. The Deputy Minister of Railways and Canals.

\section*{Audit Office, Ottawa, November 5, 1894.}

Sir,-I return to you herewith the estimates Nos. 8 and 9 , and the application for \(\$ 62,250\), in favour of \(\mathbf{W m}\). Davis \& Sons, on the Sheik's Island contract, as they will require amendment in view of the result of our interview on Saturday with the Deputy Minister of Justice.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Deputy Minister, Railways and Canals.

\section*{Justice Department, Ottawa, October 9, 1894.}

Sir,-I have the honour to acknowledge receipt of your letter of the 6th instant, submitting certain contracts and correspondence with regard to the construction of the Cornwall Canal.

It appears that Messrs. William Davis \& Sons, by a contract of the 5 th November, 1888, undertook the work connected with section 4. This contract is in the ordinary form in use by your department with specifications and list of prices for the various kinds of work which were to be executed. A second contract was entered into with these contractors, dated 25th August, 1892, by which the contractors undertook to do certain additional work in deepening and widening sections 2, 3, 4, and straightening the channel on section 2 .

By the terms of this contract the provisions of the previous contract of November 5th, 1888, are incorporated with it and made applicable to the new work undertaken, except in so far as modified by the terms of certain letters annexed. These letters in so far as they relate to section 4, and to prices, stipulated for a price of forty-five cents for earth excavation per cubic yard in widening and deepening the prism, or as is stated in contractors' letter of June 20th, 1892, "for all other extra excavation required in the " widening of the enlargement of the Cornwall Canal beyond and over and above what " is specified in our contract with the Government, dated November 5th, 1888, and "referred to in places and specifications accompanying the same at the following prices: "earth excavation, forty-five cents per cubic yard."

Referring now to the schedule of prices which accompanies the papers, and according to which the contractors claim to be paid, it would seem to be clear that the contractors are eatitled to be paid at the rate of forty-five cents per cubic yard, if the several items of earth excavation mentioned in the schedule for which forty-five cents per cubic yard is charged by virtue as it is claimed of this special agreement, are for excavating in widening and deepening the enlargement of the Canal as contemplated by the special agreement.

There is also a third agreement of June 19th, 1893, by which the contractors undertook to construct certain proposed dams at Sheik's Island in connection with the Cornwall Canal enlargement, under the several covenants and stipulations contained in the contract of the 5th November, 1888, and for which it is stipulated that the contractors shall be paid "the several prices in so far as applicable thereto set forth in their said contract of 5 th November, 1888, without any extra charge or addition to the said contract prices, all the conditions which said contract are to be applied mutatis mutandis.

It now appears that previous to the last mentioned agreement a price had been fixed by the Engineer under the provisions of the contract of November 5th, 1888, for masonry made with Portland cement, for which no price had been fixed by the contract itself, and the contractors claim that by virtue of the agreement of the 19th June, 1893, the prices so fixed for masonry made with Portland cement became applicable to the works to be performed under the latter contract.

I am to state, however, that in the opinion of the Minister the agreement of the 19th June, 1893, does not fix any prices to be paid for the works to be done thereunder, except those prices which are set forth or mentioned in the contract of the 5th November, 1888, and as to works performed under contract of June, 1893, to which none of the prices mentioned in the contract of November, 1888, are applicable. No price appears to have been fixed by contract and it will be necessary, therefore, to have such prices ascertained under the general provisions of the contract of November, 1888, applicable to the case of extra works or work3 performed for which no prices are fixed by contract.

Papers returned herewith.
I am, sir, your obedient servant,

\author{
E. L. NEWCOMBE, D.M.J.
}

The Deputy Minister, Railways and Canals.

Justice Dept., Ottawa, Nov. 6, 1894.
Sir,-Having reference to my letter to you of 9 th ultimo, with regard to prices which should be allowed to Messrs. Davis \& Sons, under certain contracts between them and the Government in respect of the Cornwall Canal, and to the conversation which we had with the Auditor General a day or two ago, I have the honour to state that it now appears that the schedule of prices which accompanied your letter of 6th ultimo, and according to which the contractors then claimed to be paid, does not relate to earth excavation done under the agreement of 25 th August, 1892, but relates entirely to work performed under the agreement of 19th of June, 1893.

The advice of the Minister of Justice upon the questions intended to be submitted by your letter of 6th ultimo is, therefore, contained in the concluding paragraph of my letter of 9 th ultimo, wherein I had the honour to state "that, in the opinion of the "Minister, the agreement of the 19th of June, 1893, does not fix any prices to be paid "for the works to be done thereunder, except those prices which are set forth or men"tioned in the contract of the 5 th of November, 1888, and as to works performed under "the contract of June, 1893, to which none of the prices mentioned in the contract of " November, 1888, are applicable, no price appears to have been fixed by contract and "it will be necessary, therefore, to have such prices ascertained under the general pro" visions of the contract of November, 1888, applicable to the case of extra works or "works performed for which no prices are fixed by contract."

I may add that the agreement of 25 th August, 1892 , is not, in my opinion, material upon the question of construing the contract of 1893 .

I return the papers herewith.
I am, sir, your obedient servant,

Treasury Board Over-rulings.
}

Audit Office, Otrawa, Nov. 12, 1894.
Sir,-I beg to acknowledge receipt to-day of your application No. 200 for \(\$ 62,040\), in favour of Wm. Davis \& Sons, for work at the Sheik's Island Dam, being the amount of revised estimates for August and September-the original estimates having been withdrawn.

Please let me have a list of the rates which you now propose to pay for all the items of work mentioned in Mr. Rubidge's estimate of the total cost.

I am, sir, your obedient servant, The Deputy Minister, Railways and Canals.

\section*{CORNWALL CANAL-SHEIK'S ISLAND DAMS.}

Schedule of prices applied to Sheik's Island Dams works under D. M. Justice's letter of 6th November, 1894.

OtTawa, 9th November, 1894.

\section*{COLLINGWOOD SCHREIBER, \\ Chief Engineer, Rys. and Canals.}

Note.-The contractors protest against the fourth and fifth items, alleging that the contract is not applicable. They claim \(\$ 0.45\) for No. 4, and \(\$ 2.00\) for No. 5 .

Sir,-I have your August and September estimates of work done by Messrs. Wm. Davis \& Sons on Sheik's Island Dams, and your statement of the prices which should be allowed for the work which is not specifically covered by the contract of 1888.

Let me draw your attention to the classitication of stone filling in dams which you have put under the item in the contract of 1888 :-"Finishing, delivering and " placing stone for protection of inside slopes of banks above and below water line, as described in specification." The estimate of the quantity of this material is 43,000 yards. Mr. Rubidge estimated the cost at \(\$ 1\) per yard, and you, by brfiging it under the heading which I mention, make the price \(\$ 1.50\) per yard, or a difference for the quantity of \(\$ 21,500\). Surely there cannot be any reason for considering the inside facing of the canal, which is, as I understand, hand laid of uniform thickness and of stone all less than six inches in diameter, as the same as stone filling in dams, the dimensions of the places to be filled being large and there being little restriction as to the size of the stones used. There seems no ground for supposing that the cost per cubic yard should in one case be anything like what it would be in the other.

If this item is excluded from those for which the schedule of the contract of 1888 supplies the prices, only \(\$ 190,00\) of the cost is covered sspecifically by the contract as against \(\$ 159,000\) which is not covered.

It seems to me that I am justified from my official position in saying that, instead of 40 per cent of the value of the known work having been left undetermined in price, all of it should have been fixed in price. It is true that the contract of 1888 did not cover all the material in the Sheik's Island Dams, but Mr. Rubidge's estimate, as may be seen from the iterations of the Minister of Railways in Parliament, was what he supposed did govern when the prices of the contract of 1888 did not apply. If so, it was no doubt expected by Messrs. Wm. Davis \& Sons that the same estimate should govern. This provision would certainly have been made part of the contract if this important agreement had gone through the hands of the Department of Justice before its execution.

Excluding from what comes under the contract the item discussed above-the stone filling in dams-the contract gives for items detailed by Mr. Rubidge \(\$ 190,501\), as against Mr. Rubidge's estimate of \(\$ 190,878\). On the other hand, your allowances on the items which do not come under the contract, bring that part of the work up to \(\$ 190,919\), while Mr. Rubidge's estimated rates would make it \(\$ 158,740\), or your prices are on an average 20 per cent greater than his.

Why is it right to suppose that Mr. Rubidge's estimate for masonry was not based on the use of Portland cement?

It appears to me in view of the fact, (1) that Mr Rubidge's estimates were evidently supposed by the contractor to govern, (2) that the discussion in Parliament was based on the information furnished by the Minister of Railways that Mr. Rubidge's estimate did give the prices, (3) Mr. Rubidge's statement that the prices were ample, (4) Mr. Rubidge's position as superintending engineer and his extensive general experience-much of it on this very part of the canal system; full information should be given as to the reason for adopting prices differing so greatly from Mr. Rubidge's estimate.

It will of course be observed that in comparing Mr. Rubidge's estimate with yours, his 10 per cent for contingencies must be excluded, as I have done, because that evidently was intended to cover work not foreseen by M. Rubidge, as he says he has made ample allowance for cost in his rates for the quantities of each material described, and in comparing your allowances with his estimate I am moneying out his exact quantities, without contingencies, at your prices. It yet remains to be seen whether his estimate of contingent quantities will be verified or not, but the result will not affect the contractors favourably or unfavourably.

I am of course glad that the present prices bring the whole cost of the work down \(\$ 15,000\) from what it would have been under your first interpretation of the opinion of the Department of Justice.

\section*{Treasury Board Over-rulings.}

Please say under what clauses in the contract you make the schedule to supplement that given in the contract, and the method for which you think the clauses call of arriving at the rates.

I may add that I shall be glad to pass in the meantime a round sum to the contractors on your application. There is no reason for their remaining out of the whole amount until after this matter is settled.

> I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Depंt., Ottawa, November 16, 1894.
Sir,-I have carefully considered your communication of the 15th November instant addressed to me upon the subject of the August and September Monthly Progress Estimates issued by me in favour of Messrs. Wm. Davis \& Sons for work performed under an agreement, dated 19th June, 1893, for the construction of the Sheik's Island Dams, a work which forms a part of tife scheme of widening and deepening the Cornwall Canal.

In reply I may be permitted to state that I conceive it to be my duty to frame both the monthly progress estimates and the final estimate upon the terms of this agreement, and to aid me in doing so, the advice of the Law Officers of the Crown (Justice Department) was sought and obtained.

The first letter of advice, dated the 9th October, I acted upon in good faith, but my understanding of it appears to have been mistaken, and on the 6th November instant, an explanatory communication was received from the Justice Department, and it is upon that communication I am now acting. I need scarcely assure you that I am at alt times ready to correct an error when it is clearly established, but in the present instance, no error appears to exist, and I feel satisfied the two estimates in question are framed as regards prices, in strict accordance with the communication of the Depure Minister of Justice of the 6 th November instant, and I am not disposed to change them unless it can be shown that I have misinterpreted or wrongly construed the opinion and advice therein given. I have adopted the prices in the schedule in contract for section 4, dated 5th November, 1888, so far as they appear to apply, and for such works as that contract schedule of prices was not applicable, \(I\), under the 5 th clause of the contract of November, 1888, fixed them, and in my opinion none of the rates in the schedule of prices which I sent you, based on the communication of the Deputy Minister of Justice, whether they be taken from the contract of November, 1888, or are fixed by me,"are other than reasonable in my judgment.

With regard to the masonry, the contract is clear, that it was to be laid in "native cement," whereas it has been laid in "Portland cement" as directed, the addition of \(\$ 1.00\) per cubic yard having been agreed upon to cover the difference in cost. The contractors were quite willing to carry it out at the price in the schedule of contract of November, 1888, if they were allowed to lay it in native cement.

This is a matter which, it appears to me, can be disposed of now, quite as well as at a later date, and it seems to me it is best to do so.

I am sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M. R. \& C.

\section*{Audit Office, Otrawa, November 27, 1894.} Sir, -In reply to your letter of the 16 th instant regarding Sheik's Island dams estimates, I regret to have to say that I do not see my way to passing the applications at the amounts named.

I enclose for your information a copy of an opinion of Z. A. Lash, QC., on the subject. According to his view of the law I would not be justified in allowing Mr. Rubidge's estimate of prices or any price where the schedule of the 1888 contract does
not apply. The discussion in Parlianent last session, being based on the assumption that this estimate of prices does apply would, I think, justify me in passing the prices according to that estimate, notwithstanding the legal effect of the contract.

Let me say again that I shall be glad to pass at once any sum that is within the amount which I think is now due to the contractors. The acceptance of such a sum on account would in no way lessen their right to any larger sum and would not lengthen the time to elapse before the arriving at a decision by the Treasury Board.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals. J. L. McDOUGALL, A.G.

Toronto, Nov. 7, 1894.
Dear Sir,-The facts, as I understand them from your explanation at our interviews on the subject and from the papers handed to me, are shortly as follows:-

Davis \& Sons had a contract for the construction of certain works on sections 4 of the Cornwall Canal, dated 5th November, 1888. During the progress of these works the Government decided to build the Sheik's Island dams in connection with the canal enlargement. Engineer Rubidge had submitted to the department an estimate of quantities, to which he had applied certain prices showing an estimated cost of \(\$ 414,000\) for the dams, including \(\$ 30,000\) for land and damages. The chief engineer addressed to the Minister a letter, dated 6th May, 1893, referring to Mr. Rubidge's estimate, pointing out certain reasons why in the public interest it would be advantageous to award the work of constructing the dams to Davis \& Sons, were that firm wiling to do the same at their contract prices, and stating that at such contract prices, allowing \(\$ 30,000\) for land and damages, the cost would amount to \(\$ 404,485\), or some \(\$ 10,000\) less than Mr. Rubidge's estimate, and recommending that the Davis contract be extended to cover this work if these contractors were willing. In due course an order in council was passed giving authority for the extension of the contract with Davis \& Sons accordingly, "provided that they agree to do the work at their present contract prices." The contract with Davis \& Sons was not a bulk sum contract, but provided for the payment to the contractors, for and in respect of the works contracted for, of the several prices or sums set forth in a schedule or list. The items of this list are seventysix in number, and I presume include the various classes of work, materials, de., entering into the works included in the contract. On the 19th of June, 1893, a contract was entered into between Davis \& Sons and the government, reciting the contract of 5 th November, 1888, the letter of the chief engineer dated 6th May, 1893, and the order in council referred to, and providing that the works which, under the contract of 5 th November, 1888, the contractors agreed to perform, are to be carried out subject to the addition of the dams above mentioned and referred to in the letter of the chief engineer, which letter is made a part of the contract; providing also that each and every covenant contained in the contract of 5th November, 1888, on the part of the contractors should apply to the additional works, except in so far as the same are in any way expressly modified by the terms of the engineer'sletter; providing also that the contractors accept the terms set forth in the letter and agree to perform, keep and abide by the same. Her Majesty's covenant to pay for this additional work is as follows :"4. And Her Majesty in consideration of the premises, covenants and agrees with the contractors that they will be paid in respect of the works undertaken hereunder the several prices, in so far as applicable thereto, set forth in their said contract of the 5th of November, 1888, without any extra charge or addition to the said contract prices; all the conditions of which contracts are to apply mutatis mutandis." Clause 6 provides that the "indenture of 5th November, 1888, and this indenture are to be read together as constituting the contract with respect to the works in connection with the formation of section 4 of the said Cornwall Canal.

You have been asked as Auditor General to authorize the payment of certain moneys to the contractors in connection with the construction of the dams, and there has been submitted to you an account or estimate certified by the Chief Engineer,

\section*{Treasury Board Over-rulings.}
showing the quantities, dc., of the work, and applying thereto certain prices. These prices in some instances differ frum any of the prices for similar works contained in the list forming part of the contract of November, 1888, and I gather that some of the items, according to the wording in the chief engineer's estimate, do not appear to be included in any item in the list referred to.

My opinion is asked as to the authority of the chief engineer to fix prices differing from those in the list for work included in items contained in the list ; also as to the authority of the engineer to fix prices for work, if any, not included in any item in the list. You also desire my opinion generally upon the legal position of the parties under the contracts.

In the contract of November, 1888, Her Majesty's covenant to pay is in these words :-" 24 . And Her Majesty in consideration of the premises hereby covenants with the contractors that they will be paid for and in respect of the works hereby contracted for, and in the manner set out in the next clause hereof, the several prices or sums following, viz." (here follows the list of prices). The word "works" is defined by the contract to mean the whole of the work and materials, matters and things required to be done, furnished and performed by the contractor under the contract. The following clause appears :-" 34 . It is distinctly declared that no implied contract of any kind whatsoever, by or on behalf of Her Majesty, shall arise or be implied from anything in this contract contained, or from any position or situation of the parties at any time, it being clearly understood and agreed that the express contracts, covenants and agreements herein contained and made by Her Majesty are and shall be the only contracts, covenants and agreements upon which any rights against her are to be founded."

I am of opinion-
(1.) That wherever the work done in connection with the dams is fairly covered by any item or items in the list under the contract of November, 1888, the prices applied thereto in such list must govern, and that the chief engineer has no authority to vary such prices.
(2.) I am of opinion that, if any part of the work in connection with the dams cannot fairly be held to come within any item or items in the list, the chief engineer has no authority to fix prices therefor. The contract makes no provision for paying the contractors anything for such parts of the work ; there can be no implied contract on the part of Her Majesty to pay anything therefor; and I am forced to the conclusion that the prices to be paid for the works to which the list, under the contract of November, 1888, is applicable, are the only prices which the contractors are entitled to demand. This may not have been intended by the parties, but I think it is the legal effect of what has been agreed to. In other words, I think that all the works connected with the construction of the dams must be performed for the prices which the contractors are to receive for those parts which are included in the items of the list.
(3.) The result of this may not be so serious as might be supposed, because I think that the chief engineer, as the person to whom all matters of difference arising under the contract are to be referred, would have considerable discretion in deciding the question as to the applicability of the items in the list to the works upon the dams. It would not, I think, be necessary that the exact wording of these items should precisely apply to the works on the dams. The contract provides that the several prices "in so far as applicable thereto" are to govern. This question of applicability is one partly of fact and partly of scientific opinion; and if the decision of the chief engineer be given after proper consideration and in good faith I think it cannot be controverted. I would call attention to the last four items of the list, which provided for the payment of labourers, carpenters, stonecutters and masons for executing works not embraced in any item paid for otherwise.
(4.) I think your duty is to call the attention of the chief engineer to the legal position of the parties as above explained, and to suggest that he should frame his estimate in accordance with the principles above alluded to.

I return the papers left with me,
And am, your obedient servant,
The Auditor General, Ottawa. Z. A. LASH.

\author{
Audit Office, Otrawa, December 27, 1894.
}

Sir,--With reference to the difference of view taken by the Department of Railways and Canals from that taken by me on the prices which should be allowed to Messrs. Wm. Davis \& Sons, for some of the work on the Sheik's Island dam, I would remind you that since my letter of the 15 th Nov. to the department was written, a decision has been given by the Exchequer Court on an item in the Murray \& Cleveland Galops contract which makes it advisable that all prices, which are not in a schedule of contract prices, should be carefully considered before admitting them into an estimate. I understand the decision of the court to be practically that when a price appears in an estimate the Government is bound by the price for the whole of the similar work done under the contract.

To summarize the differences between the department and this office-The department says :-
(1.) Stone filling in dams comes under the item in the schedule: "Furnishing, delivering and placing stone for protection of inside slopes of banks, above' and below water line, as described in specifications."
The words of the specification are :-
" Protection of Banks,- When the canal has been made of the required width and the bank has been trimmed to the proper inclination, a triangular shaped bench is to be cut in the face of it \(2 \frac{1}{2}\) feet in width, and not less than 18 inches below the surface water line of that part of the canal.

In these benches a facing of small-sized stones is to be placed for the protection of the banks, and carried up, on a line corresponding to the slope, to about 3 feet over the water line, making the vertical height \(4 \frac{1}{2}\) feet.

In it there will be generally from 1 to \(1 \frac{1}{2}\) cubic yards of stone to a lineal yard of bank; but at some places the quantity of stones required may be greater. The largest stones used for this purpose must not exceed such dimensions as would prevent them passing in every way through a ring six inches diameter. The greater portion of them must, however, be smaller, or of a size that they can be readily handled by means of a shovel.

It is to be distinctly understood that stones intended to be used must be broken so as to come within the dimensions above stated; and further, that fine debris will not be permitted in a greater proportion than one-quarter of the quantity of stones, that is to say, a cubic yard of material used for facing the banks may consist of 80 per cent. of stones of and under the dimensions stated; and 20 per cent. of a fine class of what is called quarry waste.

The stones must invariably be either selected of the required dimensions or broken to them, and then piled in a uniform and regular shape, so that they can be readily: and correctly measured.

When the lines for the facing have been fixed upon and the seat for it properly prepared, the stones may be put in place, care being taken that they are well and closely packed, and that in all cases the outer or face part is properly hand laid and well beaten down, by means of a pavior's heavy rammer, to a fair surface corresponding to the intended inclination and lines marked out by the officer in charge."

You might as well say that lumber in the log is worth as much as when it is sawn and dressed.

To me it appears that the chief engineer, if he has the right to fix prices of material not dealt with in the schedule of prices in the contract of 1888 , must do so after holding some kind of court to obtain evidence, and that it is incumbent upon hime now to give reasons for the difference between his opinion and that of Mr \(\backslash\) Rubidger There is no other official who has any such power, and it is not necessary that he should for the efficient discharge of his duty have such power. Evidence can be obtained to establish prices. Why therefore should a decree unsupported by evidence or argument be considered sufficient?

When expenditure is authorized by this office it is done on an application froma. department and the action of this office is subject to over-ruling by the Treasury Board.

\section*{Treasury Board Over-rulings.}

The chief engineer's power, as the Department of Railways and Canals interprets the contra t, extends to making payable without evidence or appeal, any sum for unscheduled work. Is it clear that the Minister of Railways and Canals can impart such authority to the chief engineer?
(3.) The chief engineer says that it is clear that the masonry was, under the contract, to have be laid in native cement, whereas it has been laid in Portland cemen:.

It is not clear, however, that Mr Rubidge in making his estimate contemplated that the masonry was to be laid in native cement. If it does not come under the schedule attached to the contract of 1888 , it must be dealt with outside of that schedule.

I append a statement showing cost under rates now favoured by the Department of Railways to be \(\$ 449.563\), whereas Mr Rubidge's estimate for the same was \(\$ 414,580\).

I am sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Secretary, Treasury Board.

Extract from Minutes of Treasury Board meeting held January 15, 1895.
Treasury Minute, 15th January, 1895. -The Board had under consideration the correspondence and papers in connection with the objection taken by the Auditor General to the payment of certain items in the progress estimates rendered in favour of Messrs. W. Davis \& Sons, for work done in connection with their contract for the dams at Sheik's Island, Cornwall Canal, and also the report thereon from the Deputy Minister of Justice.

The Board concur in the report of the Deputy Minister of Justice, and under the authority of section 32 of the Audit Act, overrule the objections made by the Auditor General, and direct that payment of the items objected to be made to Messrs. W. Davis is Co.

> J. M. COURTNEY, Secretary.

\section*{Geological Survey-\$100 Increase in Salaries.}

\author{
Audit Office, Ottawa, October 13, 1894.
}

Sir,--I have deducted one statutory increase on your pay-list from those of your stait whose increases are made \(\$ 100\). I felt obliged to do this as it was decided several years ago that without special Parliamentary authority the \(\$ 50\) increase could not be given within twelve months after a previous increase, and therefore, that two increases

\section*{Treasury Board Over-rulings.}
could not count from the same time. In the estimates of your department allowance is made in the bulk sum for all the mereases, but there is no indication that provision is being sought for anything except what the Civil Service Act legalizes. The explanation to Parliament made by the Finance Minister gave no additional information.

I am, sir, your obedient servant, J. L. McDOUGALL, A.G.

The Asst. Director, Geological Survey.

Audit Office, Ottawa, January 11, 1895.
Sir,-I return herewith the papers in connection with the \(\$ 100\) increase to the salaries of the technical officers of your department, which were left with me by you some time ago. I have considered them carefully but am still of the opinion that the payment would be illegal.

You are aware that it is for you now to appeal to the Treasury Board if you do not agree with my opinion as I suppose you will not, the Department of Justice being against me.

I shall be asked by the Treasury Board for my opinion as soon as your appeal is received by the Secretary of the Board.

I am, sir, your obedient servant,

> J. L. McDOUGALL, A.G.

The Acting Director, Geological Survey.

Treasury Board, Ottawa, January 18, 1895.
Sir,-I have the honour to send herewith Treasury Board file No. 19108, being correspondence that has taken place between yourself and Dr. Dawson, Deputy Head of the Geological Survey Department in reference to the payment of increases of salary to the technical officers of that department, and also containing an opinion of the Deputy Minister of Justice in reference to the matter, and I have to request that you will be good enough to let me have your opinion regarding the subject at your earliest convenience, for the information of the Treasury Board.

I am, sir, your obedient servant,

\author{
J. M. COURTNEY, Secretary.
}

The Auditor General.

Department of Justice, Ottaifa, November 12, 1894.
My dear Sir,-I return herewith Dr. Dawson's memorandum relating to the salaries of the technical officers of the Geological Survey Department and the withholding by the Auditor General of the intended increases of \(\$ 100\) for the present year.

The moneys necessary for the payment of the increased salaries having been voted by Parliament and the Governor in Council having authorised the payment of such salaries, I am of opinion that these officers are entitled to receive the same, and that the Auditor General is not warranted by the law in refusing to certify for their payment. The Auditor General, as appaars from his letter to Dr. Dawson of the 13th ultimo, treats these increases as statutory increases and, if they were so, his view as expressed in the letter would, no doubt, be correct. But in my letter to Dr. Selwyn of the 5 th June last, a copy of which is annexed to Dr. Dawson's memorandum, I have stated my opinion to be that these technical officers have no claim to the ordinary
statutory increase, and that the Governor in Council may increase their salaries by the amount voted by Parliament, and I see no reason to depart from or vary that opinion.

I think that the Auditor Geneial is called upon only to assure himself that the moneys voted by Parliament are sufficient to pay these salaries and that the Governor in Council has authorised their payment, and if he is satisfied as to these two points, he should not, in my opinion, with-hold his certificate for the full increases of one hundred dollars each.

Yours, \&re,
E. L. NEWCOMBE, D.M.J.

The Minister of the Interior.

Audit Office, Ottawa, February 18, 1895.
Sir,-With reference to the appeal from my decision regarding the application for a payment of \(\$ 100\) to each of several employees of the Geological Survey Department as named in the Order in Council of September 11, 1894, I beg to describe my position in the matter.

There are only four places in the Civil Service Act where professional and technical qualifications are dealt with; section 37 ; section 39 , subsection 4 ; section 47 and schedule A.

Section 47 provides a means of obtaining the temporary services of persons of superior attainments in special branches of departmental work and does not in any way affect the question with which we are dealing. My interpretation of the words in the schedule is that the words give a rank to persons who are above chief clerks and are below deputy heads. This view is supported by the fact that \(a, c, d, e, f, g\) are in a regular descending order of rank and salary, that there are officers in several of the departments who are above \(c\) and below \(a\), that it is necessary that there should be a class for them which there would not otherwise be.

Then as far as the words as they appear in section 37 are concerned they are there introduced for the purpose of bringing into the permanent service the same class of persons as that which may be brought in for temporary service under section 47, and for that purpose alone.

It seems to me that in introducing the words "special professional and technical qualifications" in the schedule it could not have been intended to provide a classification for persons who were brought into the service under section 37 to the exclusion of every other person in the service who possesses special professional or technical qualifications.

It cannot be justifiable to give an interpretation to the words of the classification which deprives the man brought in under section 37 of all the advantages of statutory increases and promotion, unless the words cannot be made to have any other meaning.

There was not a word of explanation on the part of the Government in introducing Civil Service Act, nor a word of comment from a member of Parliament in discussing the measure, which indicated that from men who were brought in for presumably higher qualifications than those possessed by the ordinary 3rd class clerk, all hope of advancement in the service, was to be withheld.

Now if subsection (b) of the schedule covers a class described in the act, why should not the class be composed of those promoted for professional qualitications under subsection 4 of section 39, instead of those brought in under section 37 . We have apparently as much reason for taking one class as the other, but we cannot take both and give the interpretation to section (b) of the schedule which is given to it by the Department of Justice because subsection 4 of section 40 contemplates promotion which must be to one of the regular classes.

The officials whose salaries are under consideration are, in my opinion, entitled to statutory increases under the restrictions of the Civil Service Act, but are not entitled to anything else, because no amount has been specially voted to each official by name. I am, sir, your obedient servant,

\title{
Treasury Board Over-rulings.
}

Justice Drpt., Ottawa, February 21, 1895.
Sir,-I have the honour to acknowledge the receipt of your letter of the 21 st instant -T. 19108.B-and of the papers enclosed therewith, relating to the application of the Minister of the Interio to the Treasury Board against the ruling of the Auditor General in the matter of the payment of the increases of salary to the technical officers of the Geological Survey Department.

I have shown these papers to the Minister of Justice, and he directs me to state that he concurs in the opinion expressed in my letter to Mr. Daly of the 12 th November last.

With regard to the several positions taken by the Auditor General in his letter of the 18th instant, the minister bids me say that, in his opinion, there is nothing in Schedule A to the Civil Service Act or elsewhere in the Act, which warrants the interpretation placed by the Auditor upon paragraph (b) of Schedule A. The Minister sees no reason why officers of the class indicated in that paragraph should necessarily be of a rank between that a deputy head and a chief clerk.

I do not think, as the Auditor seems to suppose, nor does the Minister of Justice think, that all appointments under Section 37 of the Civil Service Act are to be to this class. The section may be availed of to appoint to any office or employment in which a vacancy occurs under the rank of deputy head, and whether the office to be filled be one coming within paragraph (b) of Schedule A, or a first, second or third class clerkship.

Papers returned herewith.

> I am, sir, \&c.,
E. L. NEWCOMBE, D.M.J.

The Secretary, Treasury Board.

Treasury Board Minute, 22nd Feby., 1895.-TThe Board had under consideration, memoranda and papers in connection with the objection raised by the Auditor General to the increase of the salaries of the technical officers in the department of the Geological Survey by the sum of \(\$ 100\) each, authorised by Order in Council of the 11th September, 1894, one-half of such increase being disallowed and deducted from the October paylist on the ground that the pay-list included two statutory increases of \(\$ 50\). The Board, on the advice of the Deputy Minister of Justice, that the money necessary for the payment of the increased salaries having been voted by Parliament and the Governor in Council having authorised the payment of such salaries, these officers are entitled to receive the same and the Auditor General is not warranted by the law in refusing to certify for their payment, overrule the objection of the Auditor and direct that the salaries as provided by the Order in Council above specified bo paid to the officers named therein.

\section*{J. M. COURTNEY, Secretary.}

\section*{Trade and Commerce-Removal expenses of J. S. Larke: Account not certifled by Mr. Larke.}

Treasury Board Minute, Feb. थ2, 1895.-The Bgard had under consideration a memorandum from the Minister of Trade and Commerce with reference to the refusal of the Auditor General to pay for certain tickets procured from the Canadian Pacific Railway District Passenger Agent, at Toronto, for the use of Mr. J. S. Larke, who was removing to Australia to act as commercial agent there. Under date of the 31st January, 1895, an Order in Council was passed authorizing payment of this account, but the Auditor General declined to pay it without its being certified to by Mr. Larke. The tiokets were procured on a telegram from the Minister who initialled the account in respect of which payment is asked, and the matter was referred to the Treasury Board under section 76 of the Audit Act. The Board after consideration of the circumstances of the case direct that payment of the account be made.

Audit Office, Ottawa, February 28, 1895.
Sir,-The extract of the minutes of the Board of the 22 nd inst., with reference to the Trade and Commerce memorandum regarding my action in connection with the account of the Canadian Pacific Railway Company for passages of Mr. J. S. Larke and family who travelled to Australia, reached me on the 26 th inst. I beg to point out that section 76 of the Consolidated Revenue and Audit Act, under which the board acted without a statement of the case from me, does not apply in this case.

The section which does apply is 32, sub-section (c):-
"If the Auditor General has refused to certify that a cheque of the Minister of Finance and Receiver General may issue, on the ground that the money is not justly due, or that it is in excess of the authority granted by Council, or for any other reason other than that there is no Parliamentary authority, then upon a report of the case prepared by the Auditor General and the Deputy of the Minister of Finance and Receiver General, the Treasury Board shall be the judge of the sufficiently of the Auditor General's objection, and may sustain him or order the issue of the cheque in its discretion."

These words make it quite clear that the reference might have come up under the section quoted as similar references have always done.

Section 76 is :-
"Whenever an accountant is dissatisfied with any disallowance or charge in his accounts'made by Auditor General, such accountant may appeal to the Treasury Board, who after such further investigations as they consider equitable, whether by viva voce examination or otherwise, may make such order, directing the relief of the appellant, wholly or in part, from the disallowance or charge in question, as appears to them to be just and reasonable; and the Auditor General shall govern himself accordingly.

The words "directing the relief of the appellant wholly or in part" show that the section is inserted to supply a method of dealing with a case when the money had been already disbursed by the accountant.

The appellant. who is the accountant would require no relief if, as in the present case, he had disbursed no money.

The point of interest to me in the matter is that the decision should take place after I have given my reasons to the Board.

I am your obedient servant,
\[
\text { J. L. McDOUGALL, } A . G .
\]

Treasury Board, Ottana, March 1, 1895.
My dear sir, - With reference to the question of Mr. Larke's passage tickets and your letter of the 28th ultimo thereon, permit me to recall your attention to the fact that I personally saw you on this point and asked you if section 32 of the Act applied, as your correspondence did not indicate under what section you made the objection. This I did as a matter of public convenience. In my recollection you told me no, that it was a matter of certificate, and that it was more convenient and proper for the person who had the use of the tickets to give the certificate.

I am really trying to do all I can to help the public service work smoothly, but if you will not state the sections of the Audit Act under which you make objections, I do not see how friction can be avoided. I have had everything in the past without exception that was stated to come under section 32 sent to you prior to submission to the Treasury Board in order that your report may be annexed to the papers, and I beg to request that in future, in order to avoid trouble, that in the cases of objection which are to come before the Treasury Board, you will kindly state the section of the Act under which you make the objection. The point of interest to me, to use your words, is to have all cases that come before the Treasury Board drawn up in simple, direct and concise manner.

If you desire to have the present case reconsidered and have anything further to add, pray let me hear from you early so that I may put matters in train.
The Auditor General.
J. M. COURTNEY, Secretary.

\title{
Treasury Board Over-rulings.
}

Audit Office, Ottawa, March 5, 1895.
SIR,-I have your letter of the lst instant in answer to mine of the 28th ultimo regarding the Larke tickets.

Very likely my explanation of your question as I understood it, was not very full or clear. My recollection of the purport of your question is that you wished to know whether it was a question upon which the opinion of the Minister of Justice was required. I intended to convey that such an opinion was not required, that the point involved being one of certificate only, the question came before the Board under section 32, subsection (c) instead of subsection (a). In my view of the case, and with the law as it is, you will see that it could not have occurred to me that there might be a doubt in your mind as to whether the question was one which should or should not be forwarded to me for report.

In writing to a department declining to pass an application and stating the additional vouchers required I do not usually give fully my objections, because the department as a rule adopts my view. It is only when an appeal is made to the Board and after the papers are forwarded to me from the Board that my objections are stated at length and supported by such general principles or sections in the Audit Act, as seem to apply.

You will see therefore that I cannot well do as you suggest, but that there is no object in doing so, as every appeal from my decision has under the Audit Act, to be sent to me for report.

To save correspondence, I have sent to your office for the Larke file so that I may be in a position to make the necessary report. I hope to be able to forward the report this afternoon or to-morrow.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Secretary, Treasury Board.

The undersigned Minister of Trade and Commerce has the honour to submit for the consideration of His Excellency the Governor General in Council the following:-

An Order in Council bearing date the 25th August, 1894, was passed appointing Mr. J. S. Larke a Commercial Agent, and authorizing payment for his services at the rate of \(\$ 3,000\) per annum and "the usual travelling and living expenses."

About the 1st December last Mr. Larke was, by instruction of the then Minister, ordered to remove to Australia to act as Commercial Agent there.

On the 30th November the Minister telegraphed to the Canadian Pacific Railway, District Passenger Agent at Toronto as follows :-" Mail to Larke, Oshawa, to-morrow, tickets "Australia, per arrangements. Send account in detail Ottawa, will remit cheque."

About the 6th of the same month Mr. Larke left with his family for Australia and in due course the Canadian Pacific Railway Agent at Toronto forwarded in terms of the Minister's telegram an account for the tickets to Sydney. This account was in due course forwarded to the Auditor General with the request that a cheque be issued wherewith to pay same. He objected on the ground that removal expenses could only be paid on authority of the Governor in Council.

Under date of January 31st, an Order in Council was passed authorizing payment of this account which was again returned to the Auditor General with the request that cheque be issued. At the same time it was initialed by the Minister under whose authority the tickets had been procured. He again returned the account declining to pary without its being certified. to by Mr. Larke:-Vide copy of his, letter hereto attached.

Seemingly all requirements of law and regulations have been complied with. Section 33 of the Audit Act provides,
" No payment shall be authorized by the Auditor General in respect of work perf.rmed, or material supplied by any person in connection with any part of the public service of Canada, unless, in addition to any other voucher or certificate which is required in that behalf, the officer, under whose special charge such part of the public service is, certifies that such work has been performed, or such material supplied, as the case may ber, and that the price charged is according to contract, or if not covered by a contract, is fair and just. 41 V., c. 7, s. 33."

The tickets were procured, it will be observed, under authority of the Minister, and the account certified to, in as much as it bore his initials-the Order in Council was duly passed specifically authorizing its payment. Under these circumstances the undersigned would respectfully recommend that under provisions of section 76 of the Audit Act the matter would be again referred to Treasury Board with the view of securing payment of the account without unreasonable delay which would be necessary were the account to be transferred to Australia for the certificate required by the Auditor General, it being submitted that if the account is wrong such certificate would not make it right, and if the account is correct such certificate would not make it any more correct-the Auditor having it in his power in any event to verify its correctness.

> W. B. .IVES.

Department of Trade and Commerce, Ottawa, February 14, 1895.

\section*{Audit Office, Ottawa, March 5, 1895.}

Sir, -I received to-day the appeal to the Treasury Board, dated the 14th ulto., of the Minister of Trade and Commerce against my decision on the account of the Canadian Pacific Railway Company, amounting to \(\$ 1,108.83\) for \(4 \frac{1}{2}\) passage tickets to Sydney supplied to Mr. J. S. Larke.

Section 33, of the Audit Act quoted by the Hon. Mr. Ives in that appeal is the one which I think makes it incumbent on me to decline to pass the account without the certificate of Mr. Larke, the only person who on behalf of the Government can say whether there were really \(4 \frac{1}{2}\) tickets supplied and used, or whether there were only 4 or \(3 \frac{1}{2}\) or some smaller number.

The reasoning " that if the account is wrong such certificate would not make it right, and if the account is correct such certificate would not make it any the more correct," is not conclusive. The reasoning,"if it applies, would be good against obtaining a certificate on any account and would justify the payment of every account presen-ted-not a very safe doctrine to make public.

When I say that I require Mr. Larke's certificate, I do not mean that Mr. Larke will necessarily certify that \(\$ 1,108.83\) is due by the Government, but that if any amount is due, as no doubt part of it is, he will certify to the correct sum.

The authority to the Canadian Pacific Railway, to provide passages to Sydney at the public expense for Mr. Larke and his family is complete. The whole difficulty is in the furnishing the legal evidence as descrihed in section 33 of the Audit Act, as to the particular sum which should be paid. It happens that the evidence required by law is the only resonable evidence. The Canadian Pacific Railway Company are, in this matter, like any public creditor. The company say they have transported a certain number of persons on Government account. We reply that we know they transported some persons on Government account from the place named to the destination named, but we don't know that the number stated by them is the correct number, and we are not justified in paying them until the certificate required by the Audit Act shall have been obtained.

> I am, sir, your obedient servant,

\section*{Treasury Board Over-rulings.}

\section*{To the Hon. the Treasury Board :}

The following cass is submitted for adjudication under the provisions of section 32, subsection (c) of the Consolidated Revenue and Audic Act, namely :-

On the 28th December, 1894, the District Passenger Agent in Toronto of the Canadian Pacific Railway Company sent to the Minister of Trade and Commerce an account amounting to \(\$ 1,108.83\) for \(4 \frac{1}{2}\) tickets from Toronto and Ottawa to Vancouver and thence to Sydney, Australia, the same having, it was alleged, been delivered to J. S. Larke, who was by O.C. of the 25 th August, 1894, appointed a commercial agent and was, about the lst December, 1894, ordered to remove to Australia to act as commercial agent there,-the tickets being for the use of himself and his family. The account was in due course forwarded to the Auditor General with the request that a cheque be issued to pay the same, but objection being taken by the Auditor General that removal expenses could only be paid on authority of the Governor in Council, an O.C. was passed on the 3rd January, 1895, authorizing payment of the account, which was again returned to the Auditor General with request that a cheque be issued-the account being initialed by the Minister under whose telegraphic instructions the tickets were delivered, the Hon. Sir Mackenzie Bowell. The Auditor General having objected to pay the account without its being certified by Mr. Larke, the matter was referred to the Treasury Board under the provisions of Section 76 of the Audit Act as stated in the memorandum on the subject from the Hon. the Minister of Trade and Commerce, and at its meeting of the 22nd February, 1895, the Treasury Board directed that payment of the account be made. The Auditor General has taken exception to this ruling of the Board on the ground that section 79 does not apply to the case in question, but that section 32, subsection (c) does apply, and the Auditor General annexes hereto a memorandum of his reasons for refusing to sanction the account. The Auditor General is satisfied that the tickets were ordered, but what he requires before he can sanction payment of the account, is a certificate from Mr. Larke in accordance wit's the provisions of section 33 of the Consolidated Revenue and Audit Act, showing what tickets were actually used by him and his family on their journey to Australia.

J. M. COURTNEY, D. M. F. \\ J. L. McDOUGALL, A. G.
}

March 7, 1895.

Treasury Board Minote, 8th March, 1895.-The Board had under consideration a report prepared by the Auditor General and the Deputy Minister of Finance in accordance with the provisions of section 32 (c,) of the Consolidated Revenue and Audit Act, with reference to the objection of the Auditor General to sanction the payment to the Canadian Pacific Railway Company, of the sum of \(\$ 1,108.83\) for \(4 \frac{1}{2}\) tickets from Toronto and Ottawa to Vancouver and thence to Sydney, Australia, supplied about the 1st December, 1894, under telegraphic instructions from the then Minister of Trade and Commerce, by the District Passenger Agent of the Company at Toronto, to J. S. Larke, who had been appointed a Commercial Agent and ordered to remove to Australia, to act as Commercial Agent there-the tickets being for the use of himself and family. The account in question was initialled by the Minister under whose intructions the tickets were supplied, but the Auditor General, while satisfied that the tickets were ordered, requird a certificate from Mr. Larke in accordance with the provisions of section 33 of the Consolidated Revenue and Audit Act, showing what tickets were actually used by him and his family on their journey to Australia.

The Board are of opinion that a sufficient certificate has been given, and direct the issue of a cheque to pay the account in question.
J. M. COURTNEY, Secretary.```
