\section*{Auditor General's Report-Part R}

\title{
Canal Construction : Contracts disregarded by Engineers.
}

\begin{abstract}
Audit Office, Ottawa, November 3, 1896.
Sir,-In recent disagreements with canal contractors, both in the Audit Office and in the Exchequer Court, the inconvenience has been felt of working under a contractform which has come down from former times with fewer changes than have the methods of administration.

And as if this were not inconvenience enough, it is only within the last few months that any attempt has been made to adhere to those provisions which more particularly guard the interests of the Government--such as ordering extras in writing, and fixing prices for them before the work begins. I do not find that, even yet, the contractors are notified of the details of the monthly allowances to them, in order that they may make repeated claims for omissions, as demanded by the contract.

Let me suggest that special instructions be given to the engineers to terminate the old regime of neglecting contract-provisions, and to omit no precaution in the Government interest which the contracts provide. This for existing contracts.

Before entering on new works it would be well, I think, to recast the contract-form with the benefit of knowledge obtained from recent litigation and other differences. The Government engineers and other experts in this subject might be asked for suggestions, and the proposed new form submitted to the best legal talent.

I desire not to be undertood as suggesting that the contracts should necessarily be on their face more favourable to the Government. It seems to me that frequently the mistake has been the other way. I hope that a contract-form can be prepared which, while it will (when put in force) guard all the public interests which should be protected, will at the same time guard equally well the interest of the private individual who enters into a contract with the whole people.
\end{abstract}

I am, sir, your obedient servant, The Deputy Minister Railways and Canals.

\author{
J. L. McDOUGALL, A.G.
}

Railways and Canals Dept., Ottawa, November 18, 1896.
Sir,-In reply to your letter of the 3rd instant, in which you offer certain suggestions in regard of canal contracts, I have the honour to state that the chief engineer has long since given instructions to the engineering staff to give effect to the clauses in contracts referred to.

The matter of a new form of contract being adopted has been under consideration for some short time.

The Auditor General.
I am, sir, your obedient servant,
COLLINGWOOD SCHREIBER, D.M.

\section*{Canal Construction : New Form for Progress Estimates.}

Audif Office, Ottawa, October 16, 1896.
Sir,-I find that the Progress estimates on canal construction are not made out in sufficient detail to enable a satisfactory audit to be made.

Inclosed is a copy of the April estimates on section 2 of the Cornwall Canal, compiled from the books in Mr. Rubidge's office. I should like to have, for each contract, an estimate made out on about the same plan, say once a year. The other estimates during the year need mention only the additional work of the month, in as full detail.

Some of the items in the inclosed estimate do not give enough information, as more was not at the moment available. It would be well to have the same standard of fulness maintained throughout.

\section*{Auditor General's Report—Part R}

An examination of this detailed Cornwall estimate will show that many items are classed under heads to which they do not belong. Every irregularity of this kind should be corrected.

Please have the new system inaugurated at as early a date as possible. I should like all October estimates to be in detail, if convenient.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

\section*{Rallways and Canals Dept., Ottawa, Oct. 31, 1896.}

Sir,-I have to acknowledge the receipt of your letter of the 16 th instant, by which you indicate the nature of the progress estimates on works of canal construction which you desire to have adopted, and in reply to state that the matter has been brought before the attention of the chief engineer.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.

\section*{Final Estimates: Examination at Ottawa.}

Audit Office, Otrawa, May 6, 1896.
Sir,-Let me acknowledge receipt of your application No. 422 for \(\$ 9,854.86\) in favour of the Weddell Dredging Co., being the balance of their final estimate of \(\$ 223,419.80\) for work on section 2 of the Rapide Plat Canal.

Please send me the calculations by which the Engineers have connected the linear measurements with the quantities returned for payment.

I should like to be informed as to the extent to which these calculations have been examined in the department at Ottawa. This is in the line of section 46 of the Audit Act, herewith inclosed.

I am, sir, your obedient servant,
The Deputy Minister, Railways \& Canals. J. L. McDOUGALL, A.G.

\section*{Railways and Canals Dept., Ottana, May 8, 1896.}

SIR,-I have the honour to acknowledge the receipt of your lettter of the 6th instant, requesting to be furnished with certain information relative to departmental application No. 422 for \(\$ 9,854.86\) in favour of the Weddell Dredging Company, being the balance of their final estimate for work on section 2 of the Rapide Plat Canal.

In reply I inclose herewith the calculations and diagrams, etc., asked for by you, and I have to request that you will be pleased to issue instructions that they be returned to the chief engineer of this department when you have finished with them, as they form part of the records of his office.

I have to state that, as regards the checking of the details of the final estimate, the calculations are checked by three officers at Cornwall and the other local offices, and that a large number of the totals in the detailed estimates, the areas of many of the cross-sections, and also of the lineal measurements of the works, are checked by an efficient officer in the department before the estimate finally reaches the chief engineer for his certificate, and until that officer's initials are placed upon the final estimate the chief engineer does not attach his name theretc.

I am, sir, your obedient servant,

\section*{Galops Canal : Departures from Contract.}

Cornwall, April 28, 1896.
Sir,-In reply to yours of the 25 th instant, I beg to explain the reduction in concrete item, \&c.

The invert was first decided upon in 1892 for the Tail Bay of guard lock and the contractor notified that it would also be required for the lift lock and weir, and asked to agree upon the price ; this, however, he stated he could not do until he had ascertained its cost when built ; it was therefore arranged that the work should be proceeded with, leaving the question of price to be decided later on, when a fair percentage on the actual cost might be agreed upon; in the meantime all invert work was to be returned under the head of "Concrete" in the monthly estimates.

The work on the locks was completed in 1894, and the sum of \(\$ 11\) per cubic yard therefor agreed upon, on condition that the weir invert, then about to be commenced, should be included.

All masonry was finished last November, and the quantities, based on final measurements, returned in the revised progress estimate for March, 1896.

> I am, sir, your obedient servant,

The Chief Engineer of Canals.
TOM S. RUBIDGE, Supt. Eng'r.
Audit Office, Ottawa, May 15, 1896.
Sir,--Let me acknowledge receipt of your application No. 432 for \(\$ 18,450\) in favour of Murray and Cleveland, being their March estimate for work on the Galops canal.

The arrangement, by which the price of \(\$ 11\) for inverts was fixed after the work was done, was not according to section 5 of the contract, which says that prices shall be previously fixed by the engineer in writing.

The bills of extras are for work in former years, and no evidence is given that the claims have been continuously presented.

An Order in Council will be necessary to sanction the departures from the contract, as in the case of Wm. Davis \& Sons.

It would have been better, in the previous estimates, to return the inverts under their accurate description, than to classify them as concrete.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Extract from Order in Council, June 2nd, 1896.
On a memorandum dated 2nd June, 1896, from the Minister of Railways and Canals representing that under date the 15th May, 1896, the Auditor General has called attention to the March estimates, as certified by the chief engineer of Railways and Canals, and transmitted to him under the contract with Messrs.' Murray \& Cleveland, dated 14th November, 1888, for enlargement works on the Galops Canal - that included in the items covered by the said estimate is a bill for extra work amounting to \(\$ 1,355.62\) for stone cutting in changing the face stone of wing walls, executed in 1891 and 1892, as to which bill the Auditor General observes that no evidence is given that the claim has been continuously presented, as called for by clauses 26 and 27 of the contract.

The Auditor General further observes that the price for the construction of certain masonry inverts, or aprons, laid in Portland cement, namely \(\$ 11\) a cubic yard, was fixed after the work was executed instead of before, as required by the fifth section of the contract; and he (the Auditor) suggests that an Order in Council be obtained to sanction the departures from the contract, as in a similar case dealt with by an Order in Council of the 12th of December, 1895.

\section*{Auditor General's Report-Part R}

The Minister observes that as regards the extra work of 1891 and 1892, above referred to, the necessary certificates of the inspector, the resident engineer, and the superintending engineer show the time charged to be correct, the work to have been performed as ordered, and the charges to be fair and just; and that, as regards the inverts, the price was agreed upon by the engineer, and is certified by him to be fair and reasonable.

The Minister recommends that the provisions of clauses numbers 5, 26 and 27 of the contract in question be waived in so far, and so far only as they call for action, the omission of which stands in the way of the payment of the aforesaid items as to which the Auditor General has raised objection.

The Committee submit the foregoing for Your Excellency's approval.
J. J. McGEE, C.P.C.

\section*{Galops Canal-Extra \(\$ 1\) a Yard for Portland Cement.}

\section*{Audit Office, Ottawa, June 17, 1896.}

Sir,-I return herewith your application No. 499 for \(\$ 10,820\) in favour of Murray \& Cleveland, for their May estimate on the Galops canal.

The balance of the vote now available is only \(\$ 8,536.46\), -a fact which should appear on the books of your own department. Please explain how the application for \(\$ 10,820\) came to pass the accountant.

You do not forget that your department is as responsible for the error which would be involved in the passing of such an application as this office would be.

There is a new item, No. 32a, for "random-coursed masonry laid in Portland cement, 548 yards at \(\$ 7.50\)," being an increase of \(\$ 1\) a yard on the price for the same work in native cement. There should be a letter fixing the price before the work was done, and a statement of the dates of the performance of the work.

The extra charge for Portland cement on all contracts in recent years has been \(\$ 1\) a yard. You will find, however, under your No. 127050 of July 4, 1888, the following letter from Wm. Davis \& Sons, to Mr. Wise, the engineer of the Tay Canal: "We beg herewith to confirm our verbal agreement with you, viz. : That we build all masonry under our contract for the Tay Canal with Portland instead of with Canadian cement, and that our price for said masonry be increased on that account to \(\$ 9.50\), an increase of 50 cents per cubic yard."

Have you any calculation which connects the difference between the barrel-prices of Portland and native cement with the yard-prices of masonry, and shows sufficient relative variation of the first to explain the increase of 50 cents in the second?

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDoUgall, a.g.

Cardinal, September 10, 1896.
Sir,-I beg to forward my agreement with Messrs. Murray \& Cleveland, contractors, to substitute "Portland cement" for "Canadian" in the foundation of the lift lock and also in the superstructure around the hollow quoins and capstan pier adjoining.

I am, sir, your obedient servant,
TOM. S. RUBIDGE, Supt. Eng'r.
Cardinal, August 6, 189i.
Sir,-We will put in concrete made with Portland cement in the foundations of the lift lock at the Galops Rapids enlargement in accordance with the terms of the specifications for seven dollars ( \(\$ 7\) ) per cubic yard.

Also when required around the quoins, chain walls, \&c., will substitute Portland cement for native hydraulic cement for one dollar (\$1) per cubic yard of masonry in addition to our contract price for masonry laid in native hydraulic cement.

Respectfully yours,
MURRAY\& CLEVELAND.
The Supt'g Engineer.
This offer to substitute Portland for Canadian cement is fair and reasonable.

\begin{abstract}
August 6, 1891.
TOM S. RUBIDGE.
\end{abstract}

This agreement to apply to the guard gates and supply weir.
\[
\text { May } 18,1893 . \quad \text { T. S. R. }
\]

Agreement applicable to superstructure of south pier.
October 18, 1894.
T. S. R.

Audit Office, Ottawa, June 22, 1896.
Sir,-Let me acknowledge the receipt of your amended application, No. 499, on account of Murray \& Cleveland's May estimate, being now for \(\$ 7,500\), instead of \(\$ 10,820\), which would have over-expended the vote.

You forward Mr. Rubidge's correspondence with the contractors, fixing \(\$ 1\) a yard for change to Portland cement; but you have not noticed the last two paragraphs of my letter of June 17, conserning the price of 50 cents formerly paid for the same service on the Tay Canal.

As the \(\$ 3,300\) held from this estimate for want of funds will more than cover the charge for Portland cement on the new item for random-coursed masonry, I am passing the application now in hand. But this must not be understood as waiving my objection to the 81 a yard for Portland cement, until I am furnished with the information requested.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, \(A . G\).

\section*{Railways and Canals Dept., ()ttawa, July 11, 1896.}

Sir,—Referring to your letter of the 22nd ultimo respecting the allowance of \(\$ 1\) per yard made to Messrs. Murray \& Cleveland in connection with their contract on the Williamsburg canals for the change to Portland cement on the item for random-coursed masonry, I have the honour to inform you that I am unable to afford any explanation relative to the price paid on the Tay Canal, but it has been the practice of the department to make an allowance of \(\$ 1\) per cubic yard for the substitution of Portland for native cement, and I consider it a fair and reasonable allowance, and have so certified.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.

\section*{Iroquois Canal : Renewal of Wharf.}

Audit Office, Ottawa: August 15, 1896.
Sir,-Let me acknowledge receipt of your application for \(\$ 2,142.11\) in favour of Paymaster George Reid, of the Williamsburg canals, to pay an account of A. Patton for timber and lumber supplied for renewal of wharf at Iroquois.

There seems to be no need for the intervention of a paymaster. The application should be made in favour of Mr. Patton himself.

\section*{Auditor General's Report-Part R}

An item of 1,060 lineal feet of 10 -inch flatted pine and tamarack is marked "delivered by G. Reid to A. Patton." Please explain more fully the connection of Mr. Reid with this transaction. Also, I should like further information as to the meaning of the notes "from Ottawa" and "Mr. Ross," in other parts of the bill.

Several of the entries are described merely as "timber." The kind of timber should be specified, as pine, tamarack, \&c.

The 10 -inch flatted timber supplied by Mr. Patton himself is divided into " 12 feet and under" at 12 cents a lineal foot, and "over 12 feet long" at 20 cents a foot. Of the 1,060 lineal feet supplied by Mr. Reid, all of which is charged at 20 cents, 422 lineal feet is made up of 12 -foot sticks, which would apparently have been only 12 cents a foot at Mr. Patton's prices. What is the explanation of this?

I am, sir, your obedient servant, The Deputy Minister Railways and Canals.
J. L. McDOUGALL, \(A . G\).

Morrisburg, August 25, 1896.
Sir,-_To the inquiries of the Auditor General in re A. Patton's account for timber for the Iroquois wharf, I forward the following explanations :-

In the first place, Mr. Geo. Reid has no connection with this transaction. Mr. Patton purchased some of the timber used, from the Cardinal Manufacturing Co., and Mr. Reid, one of the company, made out the bill and Mr. Patton's clerk charged this bill under the item in the account as shown. This explanation applies equally to \(\mathbf{M r}\). Ross. "From Ottawa" specifies the bill of square timber Mr. Patton purchased there.

The kinds of timber used in the work were elm, ash, pine, tamarack and cedar.
The account was made out so that the lengths were specified and not the kinds of timber.

The wharf took so much more timber than was estimated because on taking it down it was found to be so much more rotten and useless than it was supposed. We had no alternative but to rebuild, and our increased demands forced Patton to get timber from others, and in doing so furnished more expensive timber than we required. That is he gave us square pine at the price of elm.

Of the \(1,060 \mathrm{ft}\). supplied by Mr. Reid, 432 ft . is of flatted pine, and Patton's price for this is \(15 \frac{1}{2}\) cents per lin. ft ., and therefore it was an error to have charged it all at 20 cents per lin. ft. This would make a difference in the amount of the account of \(\$ 19.44\), or a deduction of \(4 \frac{1}{2}\) per lin. ft . on 432 ft ., reducing the entire amount to \$2,122.67.

I return you herewith the inclosures.
Your obedient servant,
T. S. Rubidge, C.E., Cornwall.

CHAS. E. HICKEY, Supt.

\section*{Rapide Plat-Damage to Steamer "Acadia."}

\section*{Audit Office, Ottawa, October 22, 1896.}

Sir,-I notice that the accident to the steamer "Acadia" on which Judge Burbidge awarded \(\$ 44,909.40\), to \(k\) place about three quarters of a mile from Morrisburg, apparently in Poupore and Fraser's section.

Section 20 of the contract-form makes the contractor liable for damages caused by his work.

I am holding whatever certificates accrue in favour of Poupore \& Fraser for other works, until it is decided whether this is a case for the operation of section 20.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

Otrawa, November 6, 1896.
Dear Sir,--I received with thanks. copy of letter which you sent the Deputy Minister of Railways and Canals in relation to the accident to the Str. "Acadia".

The position of the firm of Poupore \& Fraser (contractors) in that matter is as follows:

They were not made parties to any suit taken against the Government by the owners of the Steamer "Acadia" or their representatives, nor did they, Poupore \& Fraser, receive any notice of such suit in any form whatever.

They never knew, nor did they receive notice from the Government, that a judgment had been so rendered against the Government, whereby they, Poupore \& Fraser, were to be held liable for the accident to the Steamer "Acadia".

By section 20 of the contract referred to in your letter to the Deputy Minister of Railways and Canals, Poupore \& Fraser are bound to not obstruct the navigation of the old canal duriug the prosecution of their work. They did not in the case commit an infraction of that clause; which is established by the fact that the whole navigation of the St. Lawrence River, including all classes of boats, passed south of, and in the channel of the old canal, on the north side of which the Steamer "Acadia" was grounded.

Seeing that Poupore \& Fraser were not only not made parties to the suit against the Government, but were not even notified that a judgment was rendered against the Government, it is hardly reasonable that they should be held responsible in the case.

The withholding of the estimates causes a serious inconvenience and loss to the contractors, and as a matter of common justice I would ask you to pay the same, with interest thereon at the rate of 6 per cent since the amount became due and payable under the terms of the contract.

Accidents are of frequent occurrence in canalling, the world over, and contractors should not be held responsible, when they are not blameable for such accidents.

> Yours truly,

The Auditor General.

\author{
POUPORE \& FRASER, per W. J. POUPORE.
}

Audit Office, Ottawa, November 6, 1896.
Sir,--With reference to my letter of the 22nd ultimo regarding the accident to the Steamer "Acadia" and the connection which Messrs. Poupore \& Fraser might have with the judgment rendered against the Government, I now inclose a copy of a letter from Poupore \& Fraser, of this date, bearing upon the case. May I ask your immediate attention to this matter?

I presume that you will consider it advisable to obtain without delay the opinion of the Department of Justice on the course which tine Government should take in instituting an action against Poupore \&Fraser, and, if such an action is considered advisable, in retaining the amount of their estimates, now due and which may become due before the termination of the case. Perhaps you will also ask why the contractors were not made parties to the suit against the Government.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, December 10, 1896.
Sir, -With reference to my letter of the 6th ultimo regarding the Acadia damage and the connection which Messrs. Poupore and Fraser might, under their contract, have with the matter. I would remind you that I suggested that the opinion of the Justice Department might be obtained by you, for your own guidance, as to the duty of the Government in holding the moneys earned until the decision of the matter in the courts.

\section*{Auditor General's Report—Part R}

I now understand that it has been determined to enter an action against Poupore \(\&\) Fraser, which of course disposes of part of my inquiry.

What I am still in doubt about is whether pending the decision of the suit, the Government should retain the money which has been earned under the contract as well as the deposit and drawback, which you would otherwise consider yourself justified in releasing from time to time to Messrs. Poupore \& Fraser as the work proceeded.

Your early reply will oblige.
I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Ottawa, Dec. 24th, 1896.
Sir,-In reply to your letter of the 10th instant, I have the honour to inform yon that, as suggested by you, the Department of Justice have been asked with regard to the retention of the estimates of Messrs. Poupore \& Fraser in connection with the accident to the steamer "Acadia;" from the reply received from that department the matter appears to be one which requires consideration.

> I am, sir, your obedient servant,

The Auditor General.
COLLINGWOOD SCHREIBER, D.M.

\section*{Railways and Canals Dept., Ottawa, January 26, 1897.}

Sir, -I have the honour to inclose herewith a copy of a report received from the Department of Justice in the above matter, and to say that it would appear proper to retain all the 10 per cent drawback and the deposit security, but that the monthly progress estimates should be paid.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCUHREIBER, D.M.

\section*{Dept. of Justice, Ottana, January 15, 1897.}

Sir,-With reference to your letter of the 14th ultimo inclosing at letter from the Auditor General, dated the l0th instant, suggesting that as he understands action is to be taken against the contractors, Messrs. Poupore \& Fraser, the Government should retain moneys carned under their contract as well as the security deposit and the drawback pending decision as to their liability in the premises, in which you ask me to advise whether this course should be followed, I am directed to inform you that an information has already been filed in the Exchequer Court at the suit of the Crown seeking to recover the amount of the judgment against the contractors, and further that the contract covering the security provides that the security of \(\$ 28,700\) is to be held by Her Majesty as security for the due performance and fulfilment by the contractors of their contract and of all the covenants, agreements, provisoes and conditions therein contained and by them to be performed and fulfilled, and inasmuch as clause 20 of the contract expressly provides that the contractors shall be liable for claims such as the Crown alleges the present claim to be, it would seem that the security is referable to the performance of the 20 th clause of the contract quite as much as to any other covenant or agreement therein contained. The security deposit therefore stands good for the present claim and may lawfully be withheld until that claim is disposed of. As to whether in addition to this the payments upon the contract to which the contractors are otherwise entitled should be withheld seems to be rather a question of business prudence or expediency than a question of law.

The Minister desires me, therefore, to say that the latter question is one of policy which the Government should decide.

I may add that in any case there would seem to be no reason for withholding payments in excess of the amount which could be recovered in the present action against the contractors. The latter amount would be the amount of the judgment which your department has paid, together with interest thereon and the costs of the action.

I am, sir, your obedient servant,
The Secretary, Railways and Canals.
E. L. NEWCOMBE, D.M.J.

Audit Office, Ottawa, January 28, 1897.
Sir,-In accordance with your oral request, I return herewith the application No. 289 for \(\$ 15,000\) in favour of Poupore ir Fraser, on account of drawback on Rapide Plat canal contracts.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals. J. L. McDOUGALL, A.f.

\section*{Rapide Plat, Weddell \& Co. : Earth-filling in Stata's Bay.}

\section*{Audit Office, Ottawa, June 9, 1896.}

Sir,-In the details accompanying the final estimate of the Weddell Dredging Co. for Section No. 2 of the Rapide Plat Canal, I find the following item classed with " Earth excavation."

Earth-filling in Stata's Bay, behind crib and stone:
\[
\begin{aligned}
& \text { Classed as "above water," at } 27 \mathrm{c} \text {. . . . . . . . . . . . . . . . . ],438.92 yds. } \\
& \text { Classed as "below water," at } 36 \ldots . . . . . . . . . . . . . . . \text {. } 4,569 \cdot 56 \text { yds. } \\
& \text { Total of re-handling. . . . . . . . . . . . . 6,008.48 yds. }
\end{aligned}
\]

There is a note, which I do not understand; to the effect that the classification is arrived at by the proportion of the cost of labour.

The payment appears to be a second one for material already included in the ordinary excavation.

You have informed me orally that this earth-filling in Stata's Bay was carefully selected and laid, as a foundation for the new workshops, and that this was the reason for doubling the contract rates for the excavation of the quantity of material so used.

Please let me have full information in writing concerning this item, and copies of correspondence with the local engineer and the contractors.

If the correspondence does not establish more clearly the necessity of classifying the work as "excavation above water" and "excavation below water," it would be better to treat it as an extra, and certify it "Prices fair and just."

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Cornwall, June 15, 1896.
Sir,-In reply to yours of the 9 th instant, inclosing a commmunication from the Auditor General questioning the item of earth excavation to the extent of \(6,008 \cdot 48\) cubic yards in earth filling in Stata's Bay.

This work was done by my orders to the resident engineer. Earth was brought from Mariatown Point in scows and wheeled into place.

The larger item classed as "below water" was procured from the seasoned spoil bank at that point, from whence it was wheeled to the scow, taken to Stata's Bay and again wheeled into place in rear of the talus and derrick cribs.

\section*{Auditor General's Report-Part R}

The smaller item "above water" was selected and taken direct from excavation in progress, to Stata's Bay, wheeled into place, and spread to surface the coarser material from spoil bank.

The whole of the \(6,008 \cdot 48\) cubic yards has been properly treated as borrowed material.

Yours truly,
TOM S. RUBIDGE, Supt. Engr.

\section*{Sault Ste. Marie Canal: Excavation below grade.}

\section*{Justice I)ept., Ottawa, January 23, 1896.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 17 th instant, No. 100005, in which you ask for an opinion upon a question raised in connection with a contract made with Messrs. Hugh Ryan \& Company, on the 30th January, 1889, for the work of forming a channel of approach to the lower entrance of the Sault Ste. Marie Canal.

You thus state the case :-
Under date the 7th instant, the Chief Engineer of the department has reported to the effect that he has issued a final estimate for section No. 1 (the said lower entrance), but that the contractors claim that they should be paid for dredging done outside the slopes of the prism of the channel, and also for work done below grade.

This claim is, he considers, debatable, and a legal interpretation of the contract as regards the measurement of the dredging is desired.

The difficulty appears to rest on the wording of certain clauses of the contract specification, one stating that the material that "has to be removed in order to give the necessary width and depth of the channel way shall be estimated and paid for at the rate and price stated in the tender," while further provisions read as follows :-"Persons tendering should further clearly and distinctly understand that all the work done for the formation and deepening of the channel will be measured, computed and paid for in the solid. For this purpose, before the works are commenced, soundings will be made with reference to fixed and permanent benchmarks at short distances apart along the whole length and breadth of the proposed channels on both sections.
"A copy of the cross-sections made from these soundings will remain on record in the otice of the Department of Railways and Canals, and another in the office of the resident engineer; from these, together with levels and soundings taken after the whole shall have been completed, will be computed the quantities of excavation, dredging and work done for which payment will be made ".

I am directed to state that while the passage from the specifications first quoted by you, taken by itself, would seem to afford some support to the clain of the contractors, the Minister is of the opinion that the context indicates that it has no bearing on the claim. In order to show this, the paragraph in which the passage occurs should be read from the beginning. Immediately preceding it is a statement as to the character of the material to be excavated, so far as it was known to the officers of the department. The paragraph then provides as follows :-

It should, nevertheless, be distinctly understood that persons tendering accept the risk of whether the material turns out to be more or less difficult to excavate or remove than may be inferred from the foregoing remarks, or other representations, or even a close personal examination of the locality. The intention of this specification being that all material found in the widening, deepening and formation of the channel-ways on both sections, of whatever nature or character it may be, shall be estimated and paid for at one and the same rate, as stated in the tender. That is to say, that boulderstones, cemented or loose gravel between or around them, Potsdam sandstone in position, or of whatever nature the material may be that has to be removed in order to give the necessary width and depth of the channel-way shall be estimated and paid for at the rate and price stated in the tender.

The Minister thinks that the only object and efiect of this provision is to fix the rate of payment for excavation. That is to say, it provides that, whatever the character of the material excavated, no more than the contract rate is to be paid.

On other grounds, however, the Minister thinks that the contractors are entitled to be paid for whatever material it was necessary to excavate in order to attain in all parts of the channel the required width and depth.

The second passage quoted by you from the specifications provides that from the levels and soundings taken before the works are commenced, tbgether with those taken after they are completed, will be computed the quantities of excavation, dredging and work done for which payment will be made. It appears to the Minister that, if only the contents of the prism of the channel were to be paid for, the levels and soundings taken after the completion of the work could play no part in the computation of the excavation and dredging for which payment must be made. Something beyond that, therefore, must be intended, and the Minister thinks that this, in the absence of any express provision in the contract, must be taken to be the amount necessarily removed in order to obtain the required result. Papers returned herewith.

I am, sir, your obedient servant,
The Secretary, Railways and Canals.

\author{
E. L. NEWCOMBE, D.M.J.
}

Audit Office, Ottawa, Dec. 4, 1896.
Sir,-With reference to the opinion given by the Justice Department under date of Jan. 23rd, 1896, in the case of Hugh Ryan \& Co. for excavation below grade at Sault Ste. Marie :

I notice that you are now applying for payment to Allan \& Fleming for apparently similar work, under authority of the Ryan opinion.

It would be well to have a separate opinion in each case, and from the department as constituted at the time of making the payment.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A. \({ }^{\prime}\)

Memorandum for the Deputy Minister of Justice's consideration in connection with Auditor General's letter of 4th December, 1896, re Allan \& Fleming's estimates.

The excavation in respect of which the Auditor General requires a further opinion is below grade, but only so far below grade as was reasonably required in order to get the depth and width called for by the specifications.

December 5, 1896.
COLLINGWOOD SCHREIBER, Chief Engn'r.

Dept. of Justice, Ottawa, December 5, 1896.
Sir,-Referring to our conversation of this morning and to the Auditor General's letter to you of the 4th instant, in which he states as follows :-
" With reference to the opinion given by the Justice Department under date of January 23, 1896, in the case of Hugh Ryan \& Co., for excavation below grade at Sault Ste. Marie : I notice that you are now applying for payment to Allan \& Fleming for apparently similar work, under authority of the Ryan opinion. It would be well to have a separate opinion in each case, and from the department as constituted at the time of making the payment."

And to your memorandum of this date stating that the excavation with respect to which the Auditor General requires a further opinion, is below grade, but only so far below grade as was reasonably required in order to get the depth and width called for by the specifications: I have the honour to inform you that the question involved appears to be the same as that with respect to which I expressed the opinion of the department in my letter to the secretary of your department of 23rd January last relating to Messrs.

\section*{Auditor General's Report-Part R}

Hugh Ryan \& Co.'s contract of 30th January, 1889, and that I adhere to the view therein expressed.

I am to add that the Solicitor General also concurs in that opinion.
I return the papers, also copy of your memorandum of this date.
I am, sir, your obedient servant,
The Deputy Minister of Railways and Canals.
E. L. NEWCOMBE, D.M.J.

\section*{Soulanges Canal-Painting Fenders.}

Audit Office, Ottawa, October 21, 1896.
Sir,-Let me acknowledge receipt of your communication No. 115 for \(\$ 8,870\) in favour of Randolph Macdonald, being his September estimate on section 13 of the Soulanges Canal.

The estimate contains a new item: "Painting fenders on entrance piers, 2 coats, 540 square yards at 20 cents, \(\$ 108\)."

The written order of the engineer, fixing the price before the work was done, is necessary for the audit in this otfice. I shall have to hold the estimate until it is forwarded.

Would it not be possible to send copies of such orders to me when they are issued? This would save delays to the contractors.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals. J. L. McDOUGALL, A.G.

Coteau Landing, P.Q., October 21, 1896.
Sir,-I hereby agree for twenty cents per square yard to furnish all materials, labourers, platforms, \&c., for painting with two coats of paint, the oak fenders on the entrance piers on section No. 13 of the Soulanges Canal. The materials to be of good quality and the workmanship to your satisfaction.

\author{
R. MACDONALD.
}

To Thomas Monro, Esq., Coteau Landing, P.Q.
Approved -

Audit Office, Ottawa, October 30, 1896.
Sir,-LLet me acknowledge receipt of your 161730 of Oct. 28, inclosing Mr. Randolph Macdonald's offer for painting fenders.

My letter of Oct. 21 asked for a copy of the engineer's order, which should have fixed a price in writing before the work began ; Mr. Macdonald's offer is dated Oct. 21, and you approved it on Oct. 22. The work itself was done in September.

Since, therefore, the work was done before the price was fixed by the engineer in writing, it cannot be paid for under any authority now in existence. Please remove the item from the estimate.

> I am, sir, your obedient servant,

The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Cttawa, November 17, 1896.
Sir,—In reply to your letter of the 30th ultimo re charge of Mr. Randolph Macdonald for painting fenders, I desire to say that the claim referred to has been struck out of the present estimate, but the chief engineer says it will have to be paid, as the work was done by order (verbal) of the Engineer in charge.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.
Audit Office, Ottawa, November 18, 1896.
Sir,-Let me acknowledge receipt of your 161974, wherein it is stated that Randolph Macdonald's claim for painting fenders must be paid, as the work was ordered orally by the engineer in charge.

I do not think that this necessarily follows. The contractor should not have acted on an oral order, when he knew or ought to have known that it was invalid. It would of course be to his advantage to avoid any of the safeguards against overpayments.

The question is a legal one.
I am, sir, your obedient servant, The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A. \(G\).

Tay Canal: Wm. Davis \& Sons.
Audit Office, Otrawa, November 2, 1896.
Sir,-Let me acknowledge receipt of your application, No. 96 , for \(\$ 10,602.56\) in favor of Wm. Davis \& Sons, on account of Tay Canal Extension, as follows :-

Balance of final estimate, dated Oct. 3, 1895, for work up to Feb. 12, 1891
\(\$ 7,69232\)
Interest, June 20, 1890 to Oct. 10, 1896, at 6 per cent.... 2,910 24
This settlement is made under the Order in Council of Feb. 25, 1896. It will, I think, be necessary to have a new order passed since the money became available.

The wording of the special vote to pay the account is: "Rideau Canal-Wm " Davis \& Sons' final estimate and interest, \(\$ 11,200\)." Without this vote, the Government would have been unable to pay interest at all : and since no mention is made of six per cent in the vote, it is not clear to me that so high a rate as six per cent is necessarily implied in the use of the words " and interest." Please give the reason for the conclusion that 6 per cent interest is payable.

The Order in Council refers to a final estimate dated Feb. 12, 1891, which was prepared by Mr. Wise. Please let me have a copy of that document.

Concerning the bills for extra, were all the contract provisions satisfied, which related to written orders by the engineer, and repeated notice by the contractor?

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A. \(G\).

Rallways and Canals Dept., Ottawa, December 11, 1896.
Sir,-In reply to your letter of the 9 th instant in the above matter I would say that I was not aware that it was necessary to have two Orders in Council authorizing payment of the final estimate in favour of the contractors, or I certainly should have complied with the requirement. Assuming it to be necessary, I am having a report to Council prepared.

As regards written orders concerning extras, I am not aware of the existence of such documents. The final estimate of 1891 was not accepted by the contractors, they

\section*{Auditor General's Report-Part R}
always contending that they were short measured in many items, and a claim from them was found on file in the department. Instructions were given to the chief engineer to have the claim thoroughly investigated, which was done, and all items which could not be treated either by measurement or by other evidence, were rejected. The measurements did, as you state, increase many of the items, which, as amended in the final estimate issued under the signature of; the chief engineer, I believe to be correct. I may explain that in this case there was no settled contract re-opened, as the contractors declined to accept the draft final estimate. I, however, may state that, T onsider it most objectionable to allow such matters to go unsettled for so long a period, and that the chief engineer finds much difficulty in disposing of them; having, of course, no personal knowledge of the work.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, Dy. Min.

Railways and Cayals Dept., Ottawa, November 14, 1896.
Sir,-With reference to your letter of the 2nd instant, respecting the application of this department for the issue of a cheque in favour of \(W\). Davis \& Sons in settlement of their claims under their Tay Canal contract, I inclose herewith a copy of a letter from the contractors dated the 6th instant, covering one from the Quebec Bank, showing that they have been charged interest at the rate of 6 per cent on their overdrawn account.
I am, sir, your obedient servant.

The Auditor General.
L. K. JONES, Act. Depy. Min.

Extract from Order in Council, Jan. 7, 1897.
On a memo dated 29 th December, 1896, from the Minister of Railways and Canals, representing that the sum of eleven thousand two hundred dollars ( \(\$ 11,200\) ) was placed in the Supplementary Estimates and voted at last session of Parliament to cover an amount due Messrs. Davis and Sons, for contract work performed on the Rideau Canal, being their final estimate and interest on the same.

The Minister states that Messrs. Davis \& Sons have furnished a statement showing that their bankers in Ottawa exacted 6 per cent interest on their overdrawn account.

The Minister, therefore, deems it reasonable that the contractors be allowed this rate on the amount due under their contract, and accordingly recommends the payment of \(\$ 7,692.32\), the amount of the final estimate, together with interest on the same at 6 per cent from 20 th June, 1890, to the date of payment.

The Committee submit the above recommendation for Your Excellency's approval.

> J. J. MCGEE, C.P.C.

\section*{Tay Canal: Land Damages.}

\section*{Audit Office, Ottawa, July 20, 1896.}

SIr,-I notice that a sum of \(\$ 10,000\) has been placed in the hands of Mr. A. J. Matheson, of Perth, and charged to "Land Damages, Rideau Canal.

Please let me have an explanation of the reasons for making payment otherwise than directly to the creditors of the Government.

Mr. Matheson should be asked to deposit without delay, to the credit of the Receiver General, whatever part of this money is still in his possession.

I am, sir, your obedient servant,

Sir,--In reply to your letter of the 20 th instant, relative to a certain sum of \(\$ 10,000\), charged to land damages, Rideau Canal, I have the honour to state that the cheque was drawn out in favour of Mr. Matheson at the suggestion of the Department of Justice.

In pursuance of your suggestion, the Department of Justice has been asked to instruct its agent to deposit to the credit of the Receiver General any moneys remaining from this anount still in his hands.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.

Perth, (Ont., August 3, 1896.
Sir,--In reply to your telegram of today, I have to state that on June 5 you wrote me with following instructions in this matter :
"You are authorized to endorse cheque over to Messrs. Hall \& Hall upon their undertaking to furnish a copy of the award and the receipts from the claimants as mentiuned in my letter to you."

In accordance with these instructions I endorsed cheque over to them, and on June 8 they gave me receipt and undertaking in accordance with instructions, which receipt I forwarded to you on lst instant.

They inform me that they cashed the cheque at the time of its receipt in June.
On receipt of your telegram of to-day I wrote them as per copy inclosed, demanding return of cheque or the unexpended balance, for the purpose of depositing the same to the credit of the Receiver General, and I now inclose their reply to my demand.

The releases from claimants were all registered, and these provided for release of claim on the \(\$ 10,000\) being paid over to Messrs. Hall \& Hall as their attorney in accordance with settlement, and I do not see how any demand for return of cheque or unexpended balance can be now enforced.

I am, sir, your obedient servant,
The Deputy Minister of Justice.

\author{
A. J. MATHESON.
}

Perth, Ont., August 3, 1896.
SIR,-In reply to your request to return you the Government cheque for \(\$ 10,000\) paid to us in settlement of the claims for damages by reason of the building and construction of the Tay branch of the Rideau Canal, we have to say:

That the cheque was paid to us in trust for the claimants in pursuance of a settlement made with the Department of Railways and Canals.

That we have complied 'with the terms of settlement, and that all the claimants have released their claims for damages, and we are entitled under the releases signed to the money, and we have to account for it to the parties who signed the releases.

Mr. Moore is at present examining the lands damaged, and as soon as he makes his award, we will furnish you with a copy of same and with evidence of payment of the money to the parties entitled thereto.

> I am, sir, your obedient servant,

Col. A. J. Matheson, Esq.
HALL \& HALL.
Audit Office, Ottawa, August 21, 1896.
SIr,-Let me acknowledge receipt of copies of letters from Mr. A. J. Matheson and Messrs. Hall \& Hall, concerning the \(\$ 10,000\) for land damages on the Tay Canal.

My letter of July 20 asked for the reasons for making payment otherwise than directly to the creditors of the Government. I do not find any mention of the reasons, in the correspondence now submitted.

\section*{Auditor General's Report - Part R}

Messrs. Hall \& Hall say, under date of August 3, that the claimants have released their claims, and that Mr. Moore is now examining the lands with a view of making an award. The two statements are incompatible, in the ordinary run of business. Claimants will not release until they know how much they get.

Who is Mr. Moore?
If any one except an owner of the damaged land has any of this money in his hands, he should refund it at once, without further discussion.

Between now and August 31, new cheques can be drawn for specific payments to named creditors. Any payment after August 31, even to a creditor, will be illegal, and cannot be recognized.

This subject was discussed last year, in a letter shown on page \(\mathrm{R}-157\) of my report for 1894-95.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals. J. L. McDOUGALL, A.G.

\section*{Rallways and Canals Dept., Ottawa, August 25, 1896.}

Sir,--I have to acknowledge the receipt of your letter of the 21 st instant in furthur regard of the payment of the sum of \(\$ 10,000\) in settlement of certain claims for damages caused by the water of the Tay branch of the Rideau Canal as improved by the Government works. I regret that you have not found my previous reply sufficiently explicit. I would now supplement that reply by the following observations.

By way of closing up this somewhat complicated matter, an agreement for settlement was obtained in March, 1895, from the parties concerned, for the bulk sum of \(\$ 10,000\); such sum to cover all claims; the amount to be paid over to Messrs. Hall \& Hall, of Perth, in trust, and Mr. J. H. Moore, of Smith's Falls, to be the person who should make the surveys necessary, and apportion to each person the amount of compensation.

On the 10 th of April last the Department of Justice handed over the several releases executed by the said claimants, 30 in number, and advised that, so far as their agents had been able to ascertain, these 30 persons included not only all who had filed claims, but all who would in any way be entitled to share in the said sum of \(\$ 10,000\) alloted. They stated, further, that their agents were of opinion that the said sum was a moderate one in proportion to the amount of damages inflicted.

On the lst of June last, the Department of Justice advised, after examination, that the present rights of the Crown are of such a doubtful character as to justify a compromise of the claims in the manner proposed.

On this opinion, the cheque for \(\$ 10,000\) was sent to that department and by them forwarded to their agent, with instructions as to his procedure.

Under those instructions the agent endorsed the cheque to Messrs. Hail \& Hall as Attorney for the claiments, and they gave their receipt therefor, and further undertook to furnish a copy of Mr. Moore's award when made, together with evidence of payment of moneys to the parties entitled thereto.

The cheque was cashed by Messrs. Hall \& Hall at the time of its receipt ; the releases given by the claimants have all been registered, and, as you will observe froin the correspondence sent you with my last letter, Messrs. Hall \& Hall hold that the conditions of settlement have been fulfilled, and that it only remains for them to account to the parties concerned.

The matter does not appear to be now one with which the Government has any further concern, the releases having been given and the moneys paid over to the duly authorized persons.

I may add that in July last the Department of Justice stated that they had been informed by their agent to the effect that the award of damages would probably amount to a good deal more than the \(\$ 10,000\) for which settlement has been made. This, however, affects the parties themselves alone, and will be adjusted, no doubt, by proportionate deductions.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, Dep. Min. 291

Audit Office, Otrawa, September 29, 1896.
\(S_{\text {IR--In }}\) further discussion of the \(\$ 10,000\) for land damages on the Tay Canal :
We shall need receipts from the owners of the damaged lands; and the dates of the receipts must show that the money reached the owners themselves before September 1, 1896.

Any part of the \(\$ 10,000\) which was in the hands of agents at that date (no matter who they are) must be refunded. No other course will be in conformity with the Audit Act.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Rallways and Canals Dept., Ottana, October 3, 1896.
SIR,-I have the honour to acknowledge the receipt of your letter of the 29th ultimo, in further relation to the matter of the Tay Canal claims. in which you state that you require receipts from the owners of the damaged lands, and in reply would say that Messrs. Hall \& Hall, of Perth, the attorneys for the claimants, have been asked to furnish a copy of the award of the valuators, together with evidence of the payment of the moneys to the several parties entitled thereto. On receiving this information you will be at once communicated with further.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.
Audit Office, Ottana, Feb. 16, 1897.
Sir,-I have not yet been supplied with receipts from the owners of the damaged lands on the Tay Canal, near Perth, as promised in your letter of Oct. 3, 1896.

I am, sir, your obedient servant,
The Deputy Minister Railway and Canals.
J. L. McDoUgall, a.g.

\section*{Quebec Canals: October, 1896.}

Audit Office, Ottawa, November 11, 1896.
Sir,-Let me acknowledge receipt of your application No. 158, for a letter-of-credit for \(\$ 14,402\), in favour of Paymaster Guilbault, being the October expenses of Quebec canals.

The staff pay-list for St. Ours was certified by Superintendent Coderre, 24th October, and the staff pay-list for Ste. Anne's, by Superintendent Daoust, October 30th. Both will need to be returned to these superintendents for fresh certificates.

In the Chambly staff pay-list, a voucher from the Machinery Supply Co. for 3,000 carbons is not certified "materials received."

The pay-list for "Dredging to 20 feet between locks 2 and 3, Lachine Canal", includes an account for \(\$ 5.28\) from Amiot, Lecours \& Larivière, which is not certified "Prices fair and just", by Engineer Marceau.

The same pay-list has an item of \(\$ 116.25\), and "Beauharnois, Income" one of \(\$ 93\), for hire of the tug "McMahon" at \(\$ 7.75\) a day. There should be a certificate that the rate is fair and just.

In Chambly Repairs there is an account from Moïse Many for \(\$ 75\), as follows : "Loyer d'un terrain occupé de temps à autre par le canal, depuis 1889 à 1896." A calculation of the amount will be needed, as well as a fuller description of the manner in which the claim accrued and the reasons for not paying it before, and an Order in Council on account of the age of the claim.

\section*{Auditor General's Report—Part R}

This is the first month in which Sunday labour has been charged for the lockmen on the Ste. Anne's lock and the Carillon and Grenville canal. All six lockmen at Ste. Anne's are entered for 9 hours each, for 4 Sundays. The fact should be established very clearly (by an explicit certificate from Mr. Marceau) that all six workmen were necessary at one time, and that the traffic could not have been handled by part of the staff. Please ascertain the amount of the actual Sunday traffic at Ste. Anne's during October.

I am, sir, your obedient servant,
J. L. McDoUGaLL, a.G.

The Acting Deputy Minister Railways and Canals.

Montreal, 25 th November, 1896.
Sir,-In answer to your letter of the 20 th instant, in which you ask why the whole staff was kept on duty on Sundays at Ste. Anne lock during October last, I beg to state that although the names of the six men on the staff appeared on the list for Sunday work, each man was only returned for nine hours. The men worked in two shifts of nine hours each from 6 a.m. to 12 p.m., and although all of them appear on the list the expenditure is the same as if only three men had been returned for the whole time.

I am, sir, your obedient servant,
The Chief Engineer of Canals.
ERNEST MARCEAU, Supt. Eng.

\section*{Canal Accounts: Certificate-Stamps Abolished.}

\author{
Audit Office, Ottawa, December 16, 1896.
}
- Sir,-Let me acknowledge receipt yesterday of your application No. 221 for a letter of credit of \(\$ 37,584.22\) in favour of Paymaster Guilbault, for November expenses of Quebec canals.

Your attention is directed to the certificates on the accounts for Lachine Canal, staff and repairs.

The repairs accounts carry three stamped certificates: "received in good order and condition," "certified correct in all details and particulars" and "prices just and fair," signed respectively by Storekeeper Michael Bahen, Superintendent John Conway and Superintending Engineer Ernest Marceau.

These certificates, if honestly made, are complete and satisfactory. They are the outcome of a discussion between this office and the Department of Railways and Canals, some years ago.

A glance at the pay-list for Lachine Canal staff, however, shows that the signatures of the storekeeper and the superintendent cannot be taken as evidence of the facts which appear to be guaranteed by them. Their signatures are on the accounts throughout, but without any stamp.

The unavoidable inference is, that the pay-lists are first put together in this form, these two officers signing the sepuate vouchers without knowing what use is to be made of their names; and that the stamps are put on afterward: "Received in good order and condition'" over one man's name, and "Correct in all particulars" over the other. The Lachine Canal pay-list now in hand has accidentally escaped the stamping-officer's attention, and his method is thereby exposed.

The result pf the system has been, to fix up into an apparently valid form, a lot of vouchers which would have passed neither your department nor this office, had the truth about them been known.

It is unnecessary to explain to you that all certificates made in this manner are worthless, and must be renewed.

Please investigate the origin and extent of this dishonest practice in the Montreal office.

The November pay-lists are returned herewith. It would be better, I think, to amend your application by passing only the wages of the employees in the meantime, as far as the Lachine Canal is concerned.

Please abolish all certificate-stamps. The certifying-officers should write out, in their own hand, the facts for which they make themselves responsible. For instance, the certificate "Received in good order and condition, Michael Bahen, storekeeper" should be written entirely by Mr. Bahen himself.

After you ascertain how far back the practice of stamping after signing originated, and what classes of expenditure have been affected, it will be necessary to collate all the defective vouchers, and submit them anew to the appropriate officers, for written certificates as above described.

I am, sir, your obedient servant.
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Ottafa, December 29, 1896.
Sir-_I have the honour to acknowledge the receipt of your letter of the 16th instant, drawing attention to a certain irregularity in procedure in respect of the certificates placed on the accounis for the Lachine Canal staff and repairs.

Communication has been had with the superintending engineer of the Canal, and an explanatory letter has been received from him, dated the 21 st instant, a copy of which I inclose.

If these accounts are satisfactory please return them at once for payment.
I am, sir, your obedient servant,
The Auditor General. COLLINGWOOD SCHREIBER, Dty. Min.

Engineer's Office, Montreal, December 21, 1896.
Sir,--In returning the inclosed file No. 162608, being a letter from the Auditor General about the manner in which the Lachine Canal accounts are certified, I beg to report as follows :-

I must at once protest against the charge of dishonesty in this matter and will, I think, be able to show that it is unwarranted.

As you are aware, a new system of book-keeping was introduced on the canals under my charge about two years ago, in order that former irregularities might be avoided in future. This system, I am pleased to say, has worked satisfactorily ever since.

Under this method all goods are ordered under a requisition signed by the superintendent. This requisition is sent to this office, countersigned by me, and a duplicate one issued to the dealer, the original remaining of record in this office.

The goods are received by the storekeeper with an invoice which is at once entered in an invoice book. At the end of the month the dealers send in their bills to the superintendent, wh, hands them to the storekeeper for the purpose of checking with the invoice bonk and of certifying as to the receipt of them. They are then returned to the superintendent who certifies to their correctness after checking with his requisitions, and finally are forwarded to me when I affix my certiticate as to the prices. But before I do so, the accounts are again checked with the original requisitions issued by the superintendent and kept in my office as above stated.

It is true that for a pretty long time the accounts for the Lachine Canal have been signed by the storekeeper and sometimes by the superintendent before being stamped : the stamps being generally aftixed in my office in the presence of the superintendent if not by himself, but I do not consider that this in any way invalidates the certificates, for it will be observed that both the storekeeper's and superintendent's signature on an account can only mean, in the case of the former that he has received the goods, and in

\section*{Auditor General's Report-Part R}
that of the latter that the account is correct, and the moment they affix it they understand that it is for the purpose of the above certificates and for no other object whatever.

Under the circumstances therefore, their signatures constitute the certificates even if the stamps are not there. I admit, however, that the stamping by the signing officer would be more regular, but I again feel bound in justice to myself and the other officers signing accounts to protest against the charge of dishonesty in the letter herewith returned, and beg to call for an examination of the books in the canal office here to show that they agree with the vouchers returned.

I may also add that the storekeeper is perfectly independent of the superintendent in the matter of signing as to the receipt of goods, and the superintendent is in the same position towards me with regard to his certificate on accounts. I have repeatedly given them to understand that their responsibility in this matter is complete, and they will be prepared, I am sure, to state so at any moment.

If the above explanations appear satisfactory, the charge of dishonesty in the Auditor General's letter ought in justice to be withdrawn.

I return herewith the Lachine Canal accounts sent back by the Auditor General. You will notice that the certificates of the storekeeper and superintendent have been written by themselves on the 19th instant.

The stamping of certificates here has been done in the manner complained of for a couple of years, although a good many of the accounts were stamped before being signed by the storekeeper and superintendent.

However, if deemed necessary, all the accounts paid since Mr. Bahen's appointment might be sent back to be certified over again.

I am, sir, your obedient servant,
The Chief Engineer of Canals.
ERNEST MARCEAU, Suptg. Engr.

\section*{Audit Office, Otrawa, January 13, 1897.}

Sir,--The Lachine Canal accounts are still unsatisfactory, although my letter described very plainly the amendment needed.

I asked that the certifying officers should write out, in their own hands, the facts for which they make themselves responsible. The wording which has since been written in, over the name of Supt. Conway, is apparently in the hand of Mr. Bahen, the storekeeper. There is no proof that Mr. Conway has seen it since it was written. Mr. Conway should write the certificates himself.

Also four vouchers, for goods received by Messrs. Enright, Evers, Fitzpatrick and Tierney respectively, should be returned to these officers for similar alteration.

To understand this correspondence fully, please go back to its origin, before your own time, at pages E-228 to E-231 of my report for 1888-89. Mr. Parent, at section 5 on page E-229, advanced the theory that "Correct in all details and particulars" méant both "Materials received" and "Prices fair and just,"-and refused to comply with the Audit Act until notified (E-231) that such vouchers would not be cashed.

This then was the instruction conveyed to the Lachine Canal Staff in 1889-that no accounts could pass the Audit Office which were not certified "Materials received" by the person who handled the goods. The accounts have been so prepared since that time as to represent the storekeeper signing under the words "Materials received"whereas the words have been stamped over his name after the accounts left him.

The fixing up, to pass this office, of vouchers which could not expect to pass it if the truth were known, was a "dishonest practice" as stated in my letter of December 16. I asked that its origin and extent be investigated ; this has not been done.

Mr. Marceau, in his reply, construes the word "dishonest" as applying to cash alone: it has a wider sense. I do not insinuate that any one has profited; but the vouchers are not as good as they pretend to be. The voucher is prepared for the purpose of conveying that the storekeeper and superintendent made certificates, while they did not do so. That is official dishonesty.

There is another reference to this subject, at page E-234 of my report for 1888-89, concerning the writing-in of an additional statement over Mr. Beique's name. I would not have let that transaction pass with the euphuism there recorded, had I not supposed it would be the last of its kind.

All of this correspondence took place some years before Mr. Marceau's appointment to the Quebec canals.

Other references of interest concerning explicit certificates are: 1st, the evidence of Mr. McConomy, the former storekeeper, as given at the St. Louis investigation, that he signed when ordered ; and 2nd, a Welland Canal account of July, 1889, certified "Correct" at \(\$ 235.20\), and reduced to \(\$ 194.88\) when we asked for " Prices fair and just."

I notice, in the part of Mr. Marceau's letter concerning Messrs. Bahen \& Conway, his opinion that "their signatures constitutes the certificates, even if the stamps are not there." If Mr. Marceau adheres to this conclusion after further study of the subject, he should at least declare his intention of acting on our opinion here, that signatures alone do not satisfy the explicit requirements of section 33 of the Audit Act, viz.: "upless the officer, under whose special charge such part of the public service is, certifies that such materials have been supplied."

Mr. Marceau explains that the storekeeper, when he signs, understands that it is for the certificate "Goods received," and for no other object whatever. The vouchers of \(1895-96\) were stamped "Received above goods." Those of \(1896-97\) are stamped "Received in good order and condition"-apparently a valuable improvement. Was Mr. Bahen notified that he had changed his "understanding?"

These remarks concern only the past. For the future, all ambiguity as to the intention of the certifying officer will be removed by his writing the whole certificate himself when he signs.

I am, sir. your obedient servant,
The Deputy Minister Raialways and Canals.
J. L. MćDOUGALL, A.G.

\section*{Canal Office, Montreal, January 26, 1897.}

Sir,-Referring to the letter of the Auditor General dated the 12 th instant, and handed me with yours of the following day, I beg to state that the fact of some of the certificates on the accounts returned having not been written by the persons signing those accounts had escaped my notice. Those certificates have since been amended as required and the accounts paid.

I now beg to again refer to the Auditor General's letter of the 12th instant, and to say that in affixing their signatures to the accounts before the certificates had been stamped thereon, the superintendents as well as the persons receiving the goods had no intention of misleading or in any way deceiving either your office or that of the Auditor General, and did not consider that they were fixing up the vouchers to pass the Audit Office.

Their signatures were given for a certain purpose of which they were fully aware, and, as stated in my report of the 21 st December last, each and every one of them can be sustained under oath if this is considered necessary.

This practice may be irregular, but I still maintain that there was no dishonesty about it, ofticial or otherwise, as there was no intention to deceive, and the accounts were what they were represented to be.

With regard to complying with the provisions of section 33 of the Audit Act, I think my desire to do so was plainly expressed in the last paragraph of my report of the 21st December, 1896.

The investigation demanded by the Auditor General about the extent of the practice complained of has been made by me. The results have been given in my report above mentioned as far as the Lachine Canal Staff and Repairs are concerned, and I now beg to supply information in the shape of letters from resident engineers and superintendents with respect to other works.

\section*{Auditor General's Report—Part R}

I have not asked the superintendents of the St. Ours and Ste. Anne Locks for a report on the matter, as there are no storekeepers at those points, and the accounts certified by the Superintendents alone always arrived complete at my office.

It will be seen that the signing of accounts before the certificates were stamped thereon was confined to the Lachine Canal. Should it be deemed necessary, all the accounts returned since the inauguration of the new system of book-keeping may be sent sent back and the certificates will be written as required.

In concluding his letter, the Auditor General asks whether store-keeper Bahen was notified that he had changed his understanding when the certificate "Goods received" was changed to that of "Received in good order and condition."

In answer I may state that the new stamp had been sent to the superintendent at the beginning of the fiscal year, and that Mr. Bahen must, or at least should, have received the one he was going to use in the month of July last.

I am, sir, your obedient servant,
The Chief Engineer of Canals.
ERNEST MARCEAU, Suptg. Eng.
Montreal, January 18, 1897.
Sir,-In answer to your letter of the 15 th inst. asking me whether it has been my practice, in certifying accounts returned in connection with the works under my charge, to have the signatures of persons receiving materials, as well as my own, affixed after the certificates had been stamped on the face of the accounts, and if not, to state the method I have followed, I beg to state that it has been my practice to have the accounts stamped on their face with the proper certificates, before having them signed by the persons receiving the materials and by myself. For at least two years past this rule has been strictly followed except in case of third and fourth copies of accounts which are for the record of your office and mine.

It has also been my practice to certify a first and second copy of an account only after the person receiving the goods affixed his signature. I have always been careful to impress upon the men acting as receivers of goods on works under my charge, not to affix their signature on the face of an account unless they had actually seen and received the goods mentioned in such account. They are made to understand that their signature has nothing to do with the correctness of the account, but that it renders them fully responsible for the goods.

As far as I am concerned I know that when I affix my signature on the face of an account it renders me fully responsible, whether the certificate is stamped over it or not.

I am, sir, your obedient servant,
E. Marceau, Esq., Suptg. Eng.
L. S. PARISEAU, R.E.

Montreal, January 16, 1897.
Sir,-In answer to your inquiry about my practice in certifying accounts, I must say that it has been my habit to affix my certificate at the same time as my signature, always stamping the certificate myself. As to signatures of other persons on account sometimes the signature was given first and the certificate "Received above goods" printed afterwards. Sonetimes the words of the certificates were printed first and the account presented afterwards for signature; and at other times the certificate and signature were simultaneous. It has been my practice always to inquire first from the man asked to sign, whether he had personal knowledge of the delivery of goods and whether he could certify to the quantities being correct, so that even in cases when certificates have been printed afterwards, the signer was aware of the maaning of his signature.

Of late, that is for the last two years, most goods for work under my charge were received through the store-keeper of the Lachine Canal, and I am perfectly satisfied that he understood the full meaning of the certificate his signature stood for. He never signed an account offered by me without taking time to compare with entries in his
books and being sure that the quantities charged for were the correct ones. When there was the slightest doubt in his mind, I told him not to sign until he had ascertained.

As you are aware, the accounts are given us in quadruplicate, and printing the certificates instead of writing them meant a saving of time, and less delay in sending lists.

> I have the honour to be, dc.,

Mr. Ernest Marceau, Suptg. Engr.
L. G. PAPINEAU, Res. Engr.

St. Andrews, Que., December. 25, 1896.
\(S_{\text {Ir }}\),-In answer to your inquiry of the 22 nd instant, "re certifying and receiving of goods."

For all work done out of canal shop, orders are issued by foreman in charge, Pierre Girard. He, on receipt of invoice, checks over his orders and goods and, if found correct, stamps and certifies same, and should there be an error, invoices are returned for correction.

After accounts are certified by foreman he then transfers them to me; and after satisfying myself same are correct, they are returned for payment.

I am, sir, yours truly,
The Suptg. Engr. Canals, Montreal.
G. H. SIMPSON, Supt. C. \& G.

Beauharnois Canal Office, Melocheville, December 23, 1896.
Sir,-I have the honour to acknowledge receipt of your letter dated 22 nd instant, \(r e\) certificate given by the storeman and the canal superintendent, in connection with accounts to be paid, viz. : whether the formula of the certificate is stamped by the person signing said certificate and before the signing of same.

In reply I beg to state that to my knowledge the certificates have always been stamped before the signature has been affixed.

I am, sir, your obedient servant,
E. Marjead, Esq., Supt. Engr.

ZEPH. BOYER, Supt.
Chambly Basin, December 23, 1896.
Sir, -In reply to your letter of the 23 rd instant, in connection with the certifying of accounts for supplies for the Chambly Canal, I have the honour to state that I exact from each vendor an account in quadruplicate for materials received, two copies for the department, one copy for your office and the fourth or last is annexed to the pay-roll of record in the Chambly Canal office.

After verification the accounts are duly classified, as the case may be, as follows :Staff, repairs or income, then the first three copies are stamped to be signed first by the party who has received the goods, then by the superintendent, and finally by the vendor, when payment is made.

Ever since the accounts are paid by cheques, the word "Witness" is omitted, except, however, when the vendor cannot sign. In this case the word "Witness" is stamped for the certificate of payment.

If the foregoing explanations are not sufficient, kindly let me know.
I have the honour to be, sir, \&c.,
Mr. Einest Marceau, Suptg. Engr. P. B. BENOIT, Supt. C.C.
Audit Office, Ottawa, January 19, 1897.
Sir,-The December pay-lists for Cornwall, Welland and Williamsburg Canals have been passed without delay, to avoid inconvenience to the lockmen.

Please request the different officers to prepare the January pay-lists with written certificates, instead of with stamps.

I am, sir your obedient servant,
The Deputy Minister Railways and Canals. J. L. McDOUGALL, A.G.

\section*{Purchase of Stationary.}

\section*{Rallways and Canals Dept., Ottawa, November 28, 1896.}

SIR,-I have the honour by direction to ask that you will be pleased to advise this department whether, under the law as it stands, the supply of stationery, including ink and mucilage, for the Intercolonial can be obtained through tenders to be sought from firms in the city of Quebec and points touched by the railway.

I am, sir, your obedient servant,
The Auditor (General.
L. K. JONES, Act. D.M. R.\& C.

Audit Office, Ottawa, Nov. 30, 1896.
Sir,-I have your letter No. 50242 of this day, asking whether the supply of stationery for the Intercolonial can, under the law, be obtained through tenders to be sought from firms in the city of Quebec and points touched by the railway.

In reply, I beg to refer you to 51 Vic. cap. 17, sec., 2, which, as it seems to me, leaves no doubt but that all purchases of stationery, \&c., for the outside as well as for the inside service, must be made by the Queen's Printer's Department, and be distributed by that department.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Acting Deputy Minister Railway and Canals.

\section*{Cornwall Canal : Accounts of Wm. Davis \& Sons.}

Audit Office, Ottawa, December 19, 1895.
Sir,--Let me acknowledge receipt to-day of applications 274,275 and 276 in favour of Wm. Davis \& Sons, for October and November estimates on the Cornwall Canal.

For sections 2 and 4 there are bills for extra work done in April, 1895, and subsequent months. Please let me know if there are engineer's orders in writing, and whether the claims were presented by the contractors from month to month, as described in the contract.

I notice two new items for timber in glance-cribs, at 20 and 30 cents, under special agreement. Please send me a copy of the engineer's letter arranging the price.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.g.

Audit Office, Ottawa, Feb. 28, 1896.
Sir,-Let me acknowledge receipt of your application No. 339 for \(\$ 7,320\) in favour of \(W_{\mathrm{m}}\). Davis \& Sons, being their January estimate for Sheik's Island Dam.

There is a bill of work attached, amounting to \(\$ 2,764.48\), for clearing and grubbing between June 27, 1893, and January 15, 1896, as follows:-
\begin{tabular}{|c|c|}
\hline Foremen, \(107 \cdot 25\) days at \(\$ 4\) & 42900 \\
\hline Laborers, \(1,000 \cdot 6\) days at \(\$ 1.50\) & 1,500 90 \\
\hline Teams, \(133 \cdot 5\) days at \(\$ 3.50 .\). . & 46725 \\
\hline Horses and carts, 3 days at \$2.25 & 675 \\
\hline Supervision, 15 per cent on \(\$ 2,403.90\). & 36058 \\
\hline
\end{tabular}

I should like to be informed of the reasons for delay in presenting these items. Were the claims repeated by the contractors from month to month, as demanded by the contract form?

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Railmays and Canals Dept., Ottawa, March 2, 1896.
Sir,--I have the honour to acknowledge the receipt of your letter of the 28th irstant, requesting information relative to a bill for \(\$ 2,764.48\), attached to Messrs Davis and Sons' January estimate for the Sheik's Island Dam.

In reply I have to state that the chief engineer of this department has reported that this bill is not for extra work. He further says that, as he has always understood the clauses you refer to, they relate to works which are claimed as extra under the contract. If the clauses refer to the contract work it would lead to large expense for the Government and the contractor, as the work covered by the monthly progress estimates would require to be measured up the same as a final each month, whereas they are merely rough measurements which are supposed to be always on the safe side. There has been no claim made for the amount of this day-work, as it is dealt with by the engineer in due course.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.MI.

\section*{Extract from Order in Council of March 11, 1896.}

That the provisions of the Order in Council of 12th December. 1895 (whereby, in order to meet technical objections raised by the Auditor General to payment for certain back accounts for extra work in the then current progress estimates issued under the contracts of Messrs. Davis \& Sons, for sections 2, 3, and 4 of the Cornwall Canal, the contract requirements were to that extent waived), be extended to cover certain similar accounts covered in the progress estimates now current, namely up to the 31st January, 1896, and also to cover similar accounts in the current progress estimate (for work done up to the same date) under the contract with the firm for the Sheik's Island Dams, dated 19th June, 1893.
J. J. McGEE, C.P.C.

Note.-The Order in Council of Dec. 12, 1895, referred to above, is shown on page R-152 of my Report for \(1894-95 .-\) J. L. MeD.

\section*{Railways and Canals Deft., Ottawa, March 28, 1896.}

Sir,-As requested, I send you herewith explanations from Mr. Tom S. Rubidge, with reference to the different claims allowed Messrs. William Davis and Sons, in connection with their contracts on the Cornwall Sanal.

Yours truly,
The Auditor General.
COLLINGWOOD SCHREIBER, C'E.

\section*{Memoranda by Engineer Rubidge.}

Claim No. 1, Section No. 2, providing and maintaining temporary bridge from 1889 to 1893
\$2,989.00
This claim is based on the fact that the canal was not unwatered for one entire winter nor the stationary bridge used as provided for in the contract.

In 1889 the chief engineer decided that the water should be drawn off from about the 15th March to the end of April of each year, or until all foundations and works below water were completed, and the contractors were requested by me to make their arrangements in accordance with his decision.

This change involves the erection and maintenance of a temporary "swing bridge" accross the canal to provide for ordinary navigation instead of the fixed structure, as the under-water work was expected to extend over two or more seasons.

Accordingly in February, 1890, the old swing bridge was removed 300 feet west from Augusta Street and erected near York Street on tempoiary piers and abutments constructed of timber and piles, the channel way and head races to the mills being further protected by piles and booms to lead vessels through the opening.

The temporary structure was kept in repair by the contractors and worked satisfactorily until the completion of the New Bridge, in June 1893, when it was removed after being three years in use.

For the reason that all the work above referred to was not embraced in the contract but was necessary and ordered to be done, I am of opinion that the contractor's claim, as corrected, should be paid, less the contract items Nos. 12 and 43.

This claim is for extra work ordered by the chief engineer on close pile dams formed on the north side of new lock-pits in connection with the old locks, and is not provided for in the contract, which required ranges of close piles to be driven in the winter of 1888-89, between the close and opening of navigation.

The limited time within which the work was ordered 10 be performed was insisted upon, and to ensure its completion the chief engineer directed the pile driving to be carried on day and night, and an electric plant to be provided for that purpose, also, to render it possible to drive piles to the required depth, a trench exceeding 20 feet in depth was first ordered to be excavated, and afterwards to be filled in with puddle or earth free from stone.

By adopting this method the close piling was accomplished, but at a much greater cost to the contractors than contemplated by the contract, and for which they now ask payment at the rate of 64 cents per cubic yard for excavation, an advance of 100 per cent on the contract price.

It is proper to state that failing the completion of the close pile dams before the lst May, 1889, the work on locks 18 and 19 must necessarily have stopped until the following year.

I have a distinct recollection of the circumstances of the case and consider the increase in price asked for very reasonable, I therefore recommend that the extra work be paid for, also that the electric plant which has not been used since the completion of the trenches, be taken off the contractors' hands.

> The advance of 100 per cent on excavation is to cover the extra cost of night and Sunday labour, lighting, \&c., and amounts to . . . .......................................

\section*{Claim No. 3, Section No. 2.-Unwatering Wood's Creek Culvert, 1889 to 1895 , exclusive of iron pipes. \\ \(\$ 2,14200\)}

There is no provision in the contract or in the form of tender for unwatering, although the specification, page 26 , requires "The contractor to state a bulk sum for " which he will make and maintain the necessary dams and do all the pumping, bailing,
" and whatever is required to unwater the pit necessary when forming an extension of
" the culvert at Wood's Creek, and to keep the space unwatered while the works are in " progress, and up to the time of their full completion."

The conditions re the unwatering of the canal having been changed by the then Chief Engineer, Mr. Page, and the plan by his successor Mr. Trudeau, who substituted a cast iron pipe for the masonry proposed, and in connection with which a bulk sum of \(\$ 6,500\) was agreed upon for the unwatering, lighting, dc.

And for the unwatering in connection with the south end of the culvert and removing the arch, de., the contractors proposed a bulk sum based on actual time returns, amounting to \(\$ 2,142\), this was submitted to the chief engineer and approved, and as the work is completed it might now be returned in progress estimate as an addition to the item "Wood's Culvert, unwatering, lighting, \&c."

> Claim No. 4, Section No. 4.-Unwatering Robertson's Creek Culvert, unfinished............................ \(\$ 9,64390\)

With reference to this claim there is no provision in the contract for unwatering, attention is simply called to the fact, page 26 of specification, that "a considerable quantity of water passes into the canal that must be guarded against, in well as the passing of it provided for by the contractor."

Owing to the conditions relating to the unwatering of the canal having been changed, the work of removing the old culvert and constructing the drainage as contemplated and described in the specification, has occupied several seasons and is still incomplete.

A moderate estimate based on contract prices of the cost of the undertaking, if is had been completed during the one winter the canal was intended to have been unwatered, would have been \(\$ 9,643.90\) or \(\$ 1,000\) more than the cost of unwatering Wood's Culvert, a work of the same character but of less difficulty.

The contractors' offer of the 29 th March, 1895, "to do all the unwatering required in connection with work as per contract and specification at Robertson's Culvert, Section 4, for the bulk sum of \(\$ 11,014.24\)," which was made in accordance with the instructions of the chief engineer, may not be excessive, when the risk attending the removal of the old culvert, which has yet to be done and which it is proposed to undertake next spring, is considered.

> Claim No. 5, Section No. 2, making and removing stop-log dam at lock 18
> \(\$ 25328\)

Payment of accounts presented for work done at lock 18 in connection with the making and removing of the stop-log dams is asked for by the contractors, for the reason that owing to the delay in furnishing them with the plans of lock gates and machinery, they were unable to build them in time to make use of them upon the completion of the lock, and therefore obliged to resort to the alternative of stop-logs.

The dam formed in the upper stop checks of the lock was ordered by me in the fall of 1890 as a necessary precaution to supplement the earthen banks at the upper end of the lock-pit, which owing to dredging operations and the frequent unwatering of the canal combined with the action of the weather would render them liable to be damaged or entirely destroyed and thereby interfere with navigation.

The tine only is included in the account, the materials have in part been returned in progress estimates.

> Claim No. 6, Section No. 3, making and removing stop-log dam at lock 19
> \(\$ 47537\)

Payment of accounts presented for work done at lock 19, in connection with the making and removing of the stop-log dams is asked for by the contractors, for the reason that owning to the delay in furnishing them with the plans of lock gates and machinery they were unable to build them in time to make use of them upon the completion of the lock, and therefore obliged to resort to the alternative of stop-logs.

The dam formed in the upper stop checks of the lock was ordered by me in the fall of 1891, as a necessary precaution to supplement the earthen banks at the upper end of the lock-pit, which owing to dredging operations and the frequent unwatering of

\section*{Auditor General's Report-Part R}
the canal combined with the action of the weather would render them liable to be damaged or entirely destroyed and thereby interfere with navigation.

The time only is included in the account, the materials, have in part been returned in progress estimates.

> Claim, No. 7, Section No. 2, unwatering lower entrance pier, lock 18
> \$2,396 18

There being no provision in the contract for payment for this and similar work, instructions were given by the chief engineer, 15 th March, 1895 , that the time of labour and plant should be kept and the usual 15 per cent added thereto, which has been done.

This work was begun in the spring of 1891 and finished in 1895.

> The amount of the account for labour and plant, including also materials in use suitable for the purpose intended and charged for at reduced rates.................... \(\$ 2,396 \quad 18\)

Claim No. 8, section No. 3, unwatering lower entrance pier lock 19
\(\$ 99089\)
There being no provision in the contract for payment for this and similar work, instructions were given by the chief engineer, 15 th March, 1895, that the time of labour and Iplant should be kept and the usual 15 per cent added thereto, which has been done.

This work was begun and finished in 1894.

> The amount of the account for labour and plant, including also materials in use suitable for the purpose intended and charged for at reduced rates......... \(\$ 99089\)
Claim No. 9, section No. 4, unwatering lower entrance
pier lock \(20 \ldots . .\). ................................ 1,724 02

There being no provision in the contract for payment for this and similar work, instructions were given by the chief engineer, 15 th March, 1895 , that the time of labour and plant should be kept and the usual 15 per cent added thereto, which has been done.

This work was begun and finished in 1895.
The amount of the account for labour and plant, including also materials in use suitable for the purpose intended and charged for at reduced rates.
\(\$ 1,72402\)

> Claim No. 10, section No. 2, unwatering weir-pit and raceway lock 18
> \(\$ 5,21100\)

The work under water of this weir was commenced in the fall of 1892 and completed 1893.

My remarks on clain No. 11 relative to change in plan, \&c., \&c., the amount tendered for unwatering, the difference in levels between the original plan and time occupied on the work as constructed apply to this claim No. 10.

> The cost of unwatering this weir-pit treated on the basis of the information furnished by the contractors in support of claim No. 11 would be
> \(\$ 5,21100\)
> My estimate for the work for the reasons stated in claim
> No. 11 amounts to. . . . . . . . . . . . . . . . . . . . . . . . . . 5,20000
> Less amiount for unwatering in tender.................. 1,50000
> Amount recommend to be paid for "unwatering weirpit," \&c., vide item No. 59
> 3,700 00

\title{
Claim No. 11, section No. 3, unwatering weir-pit and raceway lock 19. \\ \(\$ 6,52912\)
}

The below-water work on this weir was commenced in the spring of 1893 and completed in 1895.

The contract provided for adopting the old lock for the purpose of a supply weir, this plan was changed by Mr. Trudeau, the then chief engineer, and the new weir, raceway, dc., directed to be located on the site of the old weir.

The tender for unwatering the weir-pit under the original plan, item 51, was a bulk sum \(\$ 1,500.00\), by this plan the bottom of the weir was fixed at the level of the upper recess platform of old lock.

Whilst the new plan required the bottom of the weir to be sunk to level of the platform of the lower recess, this together with the location and extent of the head and tail races, which differs from the original plan, materially increased the area required to be unwatered, as also the length of time occupied in construction.
\[
\begin{aligned}
& \text { The cost of unwatering this weir as claimed by the con- } \\
& \text { tractors is according to their statement. } \\
& \text { 6,500 } 00
\end{aligned}
\]
Claim No. 12, section No. 4-Unwatering weir-pit and race- ways, lock 20 ..... \$7,123

The under-water works of this structure were begun in the spring of 1893 and finished in 1894.

My remarks on claim No. 11 relative to change of plan, difference in levels between original plan and that adopted, and time occupied in construction, etc., are applicable to this weir.

> The amount for unwatering weir-pit in tender for section 4 is \(\$ 1,500\)
> The cost of unwatering this weir-pit treated in a similar manner to that on sections 2 and 3 would be.
Claim No. 14, Sections Nos. 2, 3 and 4, inverts or aprons for locks and weirs including all materials in place, per cubic yard ..... 1130

Work of this character was not contemplated by the specification nor included in the contracts. It was, however, found to be very necessary to protect the work below the lock gates and weirs from scour, which has resulted in many cases on this canal in serious damage.

The inverts built have been thoroughly tested, whilst the new locks were used as supply weirs.

An approximate estimate of the cost of this class of work in question is from \(\$ 10\) to \(\$ 11\) per cubic yard, the contractors, however, claim \(\$ 11.30\), as the actual value including a fair profit.

\section*{Auditor General's Report-Part R}

> Claim No. 15, Sections Nos. 2, 3 and 4, unwatering foundations of extension walls i.e. ("Retaining walls") above and below locks (south side) also for length of said walls outside of bridge-pit, section No. 2
> \(\$ 4,88400\)

There being no provision in the contract for payment for this and similar work, it is submitted and treated in the same manner as the lower entrance piers, in accordance with instructions given by chief engineer, 15th March, 1895.

This work was begun in 1890 and has been carried on to a greater or less axtent every season to the present time.

The contractors' offer, in the absence of time records kept by Government officers, to accept a lump sum for each work, based on the undermentioned lengths of foundation trenches, is considered reasonable.

Cornwall, 8th February, 1896.
TOM S. RUBIDGE, Suptdg. Engineer.

\section*{Rallways and Canals Dept., Ottawa, April 9, 1896.}

Sir,-I send you herewith a copy of a letter, dated the 4th instant, addressed to Mr. Tom S. Rubidge by Messrs. William Davis \(\mathbb{A}\) Sons, with reference to their accounts for days' labour, etc., in connection with their contracts for sections 2, 3 and 4, Cornwall Canal, from the commencement of the work to the 31st of December, 1895.

> I am, sir; your obedient servant,

The Auditor General.
COLLINGWOOD SCHREIBER, C.E.

Cornwall, Ont., April 4, 1896.
Sir,-We beg to say the accounts rendered up to the end of December, 1895, and adjusted by the chief engineer of railways and canals on February 8, 1896, are all the claims we hold against the Department of Railways and Canals for days' work and the material connected therewith, on our contract for sections 2, 3 and 4, Cornwall Canal, to the date of December 31st, 1895.

Yours truly,
T. S. Rubidge, C.E., Cornwall.

Wm. DAVIS \& SONS.

\section*{Audit Office, Ottawa, March 23, 1896.}

Sir,-In addition to the copies of letters asked for by me orally last Friday in connection with the Davis January estimates, I find that I shall need the following information :-
(1). A copy of that part of the original plan between old and new locks 18 , to show the 32 -cent pile-trenches contemplated in the 5 th-last and last paragraphs on page 6 of the specification, and the pile-trench for which payment is now asked at 64 cents a yard;
(2). A calculation of the 6,300 cubic yards claimed at lock 18, based on the linear dimensions as marked on the plan;
(3). A similar plan and calculation for the 7,600-yard pile-trench at 64 cents, at lock 19.

> I am, sir, your obedient servant.

The Deputy Minister Railways and Canals.

\author{
J. L. McDOUGALL, A. G.
}

Audit Office, Ottawa, April 4, 1896.
Sir,--The three applications in favour of Wm . Davis \& Sons for work on the Cornwall Canal amount to \(\$ 52,097.69\), while the balance of the vote is only \(\$ 37,566.78\).

I retain the applications, to continue the investigation as to the merits of the claims, but you will see that even if the claims are all apparently correct the applications cannot all be passed when the appropriation is not sufficient.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.

\author{
J. L. McDOUGALL, A.G.
}

\section*{Rallways and Canals Dept., Ottawa, April 8, 1896.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 4 th inst., relative to the three applications in favour of Messrs. Wm. Davis \& Sons, for work on the Cornwall Canal, which amount to \(\$ 52,097.69\).

In reply, I have to inform you that I was aware of the fact that the balance of the vote would not cover the whole amount of these applications, and that they, therefore, could not be paid in full, but my reason for sending the applications to you was that, when the appropriation was available, no unnecessary delay should occur in the payment of the balance due.

I am, sir, your obedient servant,
The Auditor ( 'eneral.
COLLINGWOOD SCHREIBER, D.M.

Audit Office, Ottawa, April 15, 1896.
Sir,-I find that additional information will be necessary concerning the January estimate of Wm . Davis \& Sons, on the following items:-

Close-pile trenches at 64 cents, instead of 32 cents.
Sec. 2. 6,300 yards at 32 cents extra. . . . . . . . . . . . . . . . . \(\$ 2,016\)
Sec. 3. 7,600 yards at 32 cents extra. . . . . . . . . . . . . . . . . . . 2, 432
The claim for twice the contract-rate is based on "the extra cost of night and "Sunday labour, lighting," \&c., otherwise the service appears to be exactly that described on pages 6 and 7 of the specifications. Mr. Rubidge mentions that "the limited time within which the work was ordered to be performed was insisted upon, and to insure its completion the chief engineer directed the pile-driving to be carried on day and night."

If I understand the nature of this item correctly, the possibility of hasty work being needed could have been inferred from the specification. If the pile-driving had to be done between the closing and opening of navigation, and probably with no frost in the ground, there would not be much time left for leisurely operations; and speedy methods would be the only ones available, and therefore those on which the original tenders were based.

I should like to have a statement of dates, snowing in detail how the actual performance of the pile-driving differed in point of time from the pile-driving as described in the specification, if the latter had been followed.

\section*{Unwatering Foundations of Retaining Walls.}
\begin{tabular}{l} 
Sec. 2. Lock 18 , head and foot: 949 lin. ft. at \(\$ 1.50 \ldots\). \\
Sec. 3. Lock 19 , head and foot: 600 lin. ft. at \(\$ 1.50 \ldots\) \\
Sec. 4. Lock 20 , head and foot: 950 lin. ft. at \(\$ 1.50 \ldots\) \\
\hline
\end{tabular}

I should like to be supplied with plans, showing the location of these works, of the lock-pits, and of the dams by which the unwatering of the lock-pits was accomplished. Also, the dates at which work on the retaining walls was first returned in the progress estimates, and the date when the Messrs. Davis made a claim for unwatering retaining walls, in addition to the price for masonry.

\section*{Unwatering Lower Entrance Piers.}

I do not find any reference to these piers in the specifications or in subsequent correspondence. Please let me have copies of the agreements under which they were built, and a rough plan of their location with reference to the locks.

\section*{Unwatering as an Extra Allowance on all Items.}

There appears to be a much larger number of items for this service in these \(J\) January Cornwall estimates than any previous estimates for other works have contained. Is Mr. Rubidge not changing the interpretation of the contract in this respect? I should like to have an interview with him, on his next visit to Ottawa.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, May 6, 1896.
Sir,-Mr. Engineer Rubidge had an interview with me Monday, May 4, in the course of which we discussed at some length my letter of April 15, with the following results:

\section*{Close Pile Trenches at 64 cts . instead of 92 cts .}

Mr. Rubidge left with me a statement showing that the close-pile driving at locks 18 and 19 was done between February and June, 1889, and he said that it did not differ in point of time from the pile-driving as described in the specification.

He laid some stress upon the fact that a gullet for these piles was indicated on a drawing which was exhibited to the contractors before they made their tenders. Please let me have a copy of this drawing.

\section*{Unwatering Retaining Walls aud Entrance Piers.}

I understood Mr. Rubidge to say that the contractors are now claiming pay for unwatering, in addition to their contract rates, on all items for which unwatering is not specially mentioned in the contract schedule; and that he thinks there is a decision by the Justice Department in favour of the contractors' claim. I should like to have a copy of this decision; and the certiticates on the estimate should be moditied if they are based on it, as in the Goodwin case.

Please obtain from Mr. Rubidge a letter embodying his views on the subjects above-mentioned.

> I am, sir, your obedient servant,

Railways and Canals Dept., Ottana, May 15, 1896.
Sir,-In reply to your letter of the 6th instant, asking for further information as to certain claims of Messrs. Davis and Sons in connection with their contract works on the Cornwall Canal, I have the honour to inclose a copy of a letter from the chief engineer of the department, dated the 9 th instant, covering a copy of a communication received by him from the superintending engineer of the canal, Mr. Rubidge, to whom your letter was referred. In this will be found a copy of a diagram showing the "gullet" in connection with the close-pile trenches, which was embraced in the general information given to contractors before tendering, which you desire to have.

I am to add that the matter has not been referred to the Department of Justice, the chief engineer not considering, he states, that there was any question to refer.

> I am, sir, your obedient servant,

The Auditor General, Ottawa. COLLINGWOOD SCHREIBER, D.M.

Cornwall, May 7, 1896.
Sir,-In reply to your letter of the 6th instant inclosing a copy of one from the Auditor General of same date, asking for a letter from me on the subjects mentioned therein, viz.:-
\[
\text { 1st.-Close-pile trenches at } 64 \text { cents instead of } 32 \text { cents. }
\]

I beg to forward a copy of a diagram representing the gullet referred to on page 7 of specification made previous to letting, and embraced in the general information given to contractors before tendering, at Cornwall and Ottawa.

The close-pile driving at locks Nos. 18 and 19 was done between February snd June, 1889, on the dates given in my statement, and in the manner described in the specification.

> 2nd.-Unwatering Retaining Walls and Entrance Piers.

Replying to the Auditor General's question I stated "that the contractors' claims embraced, in addition to contract price for materials, the unwatering of the foundations of all structures not specially provided for in the contract." I also stated in reply to other questions as to whether these claims had been referred to the Justice Department, and if a decision had been given, "that I understood they had been so referred by the chief engineer, but was not aware if a decision had been given."

> Yours truly,
> TOM S. RUBIDGE, Supt. Eng.

The Chief Engr: of Canals.
Depart. of Justice, Ottawa, May 22, 1896.
SIr,-I have the honour to inform you that the Department of Railways and Canals has referred to me certain papers relating to a claim for payment under progress estimates of Messrs. Davis \& Sons for work done under sections 2, 3 and 4 of the Cornwall canul.

These progress estimates appear to have been passed in January last, and it is stated that you decline to pass the applications for payment and that the contractors are now asking a reference of the claim to the Exchequer Court,

It would appear that in the view of the Department of Railways and Canals, the contractors are entitled to payment, and it would seem unnecessary to incur the costs of a reference unless there is really some proper question in dispute. I am not advised as to what the nature of your objection is. Would you be good enough to state it, so that it may be considered in connection with the present application for reference to the Exchequer Court.

The Auditor General.
I am, sir, your obedient servant,
E. L. NEWCOMBE, D.M.J.

\section*{Auditor General's Report-Part R}

Audit Office, Ottawa, May 22, 1896.
Sir,--I have your letter of this date with reference to certain estimates of Messrs. Davis \& Sons for work done on sections 2, 3 and 4 of the Cornwall Canal, which are now in this office.

These estimates have been for some time in my hands. They are estimates in connection with work that has been going on for a consilerable time and they are all for work done outside of the contract, and therefore have required a great deal of consideration and have necessitated much correspondence with the Department of Railways, and between that department and the resident engineer in reply to my letters.

I have not declined to pass the estimates. One of the staff of this office is now at Cornwall in connection with this matter. I saw Mr. M. Davis in the beginning of this week and explained to him the points which I was still considering, and informed him that I intended to obtain information on the spot regarding these points.

As soon as I have obtained clear views on the subject I shall either pass the estimates or inform Mr. Schreiber that I cannot take the responsibility of passing them. If I consider it my duty to object to passing these estimates I shall state the nature of my objections to the Department of Railways.
I am, sir, your obedient servant,

The Deputy Minister of Justice.

\section*{Dept. of Justice, Ottawa, May 26, 1896.}

SIr,--I have the honour to acknowledge your letter of 22 nd instant, with regard to the January progress estimates of Messrs. Wm. Davis \& Sons in respect of sections 2, 3 and 4 of the Cornwall Canal.

I observe that you have not leclined to pass the estimates and that one of your staff is now at Cornwall in connection with the matter, but you do not explain how the requirements of the Audit Act render it necessary, or reasonable, that there should be such delay in the payment of a claim in respect of which, after it has been duly certified by the department concerned for the period of four months, no one is prepared to state any objection. I would suppose that a reasonable period for the purposes of audit had long since expired, and I can see no reason from your present statement why I should not advise that it would be proper, if the contractors insist, to make the reference for which they ask.

I am, sir, your obedient servant,
The Auditor General.
E. L. NEWCOMBE, D.M.J.

\section*{Audit Office, Otrawa, May 29, 1896.}

Sir,-As your department is anxious that further delay shouid not take place in the consideration of claims of Wm. Davis \& Sons for extra work on the Lachine Canal, and as it is not likely, owing to Mr. Hayter's investigation at Cornwall, that I shall be able to see my way to passing the claims, and as the question will therefore have to be fully discuseed before the Treasury Board if you should appeal on the full claims, I return the applications, declining to pass them, and save the time which would be taken up in the discussion with me.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

Deputy Minister Railways and Canals.
Note-The rest of the correspondence on these estimates will be found in the part of this report devoted to "Treasury Board Over-rulings." See part A.-J. L. McD.

Audit Office, Ottawa, June 3, 1896.
Sir,-Let me acknowledge receipt of your applications in favour of Wm. Davis \& Sons, to pay their April estimates on sections 2, 3 and 4 of the Cornwall Canal.

I notice several new items under the head of "Milleroches Bridge," amounting to \(\$ 43,402\), which are not covered by the contract. Please let me have a copy of the Engineer's letter as usual, fixing the prices before the work was begun. I should also like to have information as to the dates between which the work of unwatering was performed, which is estimated at \(\$ 7,000\).

There are new items for stone-filling in glance-cribs, as follows:
\[
\begin{aligned}
& \text { Section 4; 170 yards at } \$ 1.50 \ldots . . \text {. . . . . . . . . . . . . . . . . . . . . } 255
\end{aligned}
\]

Please let me have for these, also, the engineer's letter fixing the price. I should like to be informed in addition, as to the difference between this service and the con-tract-item in section 2, " stone-filling in cribs of road-bridge, 1,130 yards at 50 cts."

If the papars supplied in answer to these requests are satisfactory, there still remains, in section 4, an item of \(\$ 3,643.90\) as final payment for unwatering Robertson's Culvert, being a balance of \(\$ 9,643.90\). 1 am raising an objection to this amount in connection with the \(\$ 6,000\) shown in the January estimates. Please reduce the April application by this \(\$ 3,643.90\) in the meantime.

The April estimate of course includes the whole of the January estimate, some items of which are still in dispute. I should like to be informed of any decision by the Department of Justice, as to whether, in a case like this, the passing of the second estimate would weaken our right of objecting to items in the first, although the work on such items is not increased in the second.

I ann, sir, your obedient servant.

The Deputy Minister Railways and Canals.

\section*{Railmays anj, Canals Dept., Ottawa, June 5, 1896.}

Sir,-In reply to your letter of the 3rd instant, requesting certain information respecting works under contract with Messrs. Davis \& Sons on the Cornwall Canal, your request being made in view of applications from the department for payment of their April estimates, I have the honour to inclose papers furnished by the chief engineer, which it is hoped, will give you the explanations you desire.

I am sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.
Cornwall, November 19, 1895.
Gentlemen :-It having been decided to remove the site of the proposed bridge from near the head of lock No. 20, and as its location is now definitely fixed at a point about 1,200 feet west of the Milleroches Culvert, I therefore beg to ask in view of its close connection with your works now in progress on forming the entrance from the new channel to the canal proper-whether you are prepared to build the necessary piers and abutments therefor, and to fully complete the same ready for the superstructure, by the opening of navigation, on the lst May, 1896, and also if you are willing to undertake this work for the prices paid for similar work done on the regulating weir in accordance with your contract and agreements for section No. 4, of the Cornwall Canal.

In connection with the Milleroches bridge, it is proper to state: that it is intended to open the new or "Sheik's Island Channel" for navigation on the lst May, 1896, and you will therefore readily understand that there must be no question as to the bridge piers being completed on or before that date.

Arrangements will be made by the department for the superstructure.

\section*{Auditor General's Report—Part R}

Owing to the lateness of the season, and the short time remaining to make arrangements for the early commencement of the work next spring, to insure its completion within the time stated : I shall be glad if you will meet me at the bridge site this afternoon to discuss the matter and obtain such further information as will lead to your early reply.
\[

Wm. Davis \& Sons, Cornwall.
}

Cornwall, Ont., November 20, 1895.
Sir,--In reply to your letter of the 19 th instant, we beg to say that we are prepared and agree to do the work required in the construction of the piers and abutments for the proposed bridge which you state is to be removed from the vicinity of lock 20 to a point about 1,200 feet west of the Milleroches culvert, at the same prices we receive as per our contract for the weir on section No. 4.

The work to be commenced at once, and to be completed on or before the first day of May, 1896, as stated in your letter.

We are, sir, yours respectfully,
T. S. Rubidge, C.E., Cornwall.

WM. DAVIS \& SONS.
Cornwall, November 28, 1895.
Sir,-I inclose copies of my letter to Messrs. Wm. Davis \& Sons, and their reply, agreeing to build the piers and abutments and complete the same on or before the lst of May, 1896.

This offer was accepted and work begun on the 21st instant, viz. : dredging for foundations and delivery of materials.

The Chief Engineer of Canals.

\author{
Yours truly, TOM S. RUBIDGE, S.E.
}

Cornwall, Ont., March 5, 1896.
Sir,-We hereby offer and agree to cut and remove ice, make, maintain, and remove dams, do the necessary pumping and bailing in connection with new bridge at Milleroches, and also construct a bulkhead at north entrance to Moulinette culvert for purpose of regulating the filling of new basin, the whole for the bulk sum of \(\$ 7,000\).

We remain, sir, yours respectfully.
WM. DAVIS \& SONS.
Cornwall, March 6, 1896.
Gentlemen,-Your offer of the 5th instant to remove ice, make maintain and remove dams, do the necessary pumping and bailing in connection with new bridge at Milleroches, and also construct a bulkhead at north entrance to Moulinette Culvert for purpose of regulating the filling of new basin, the whole for the bulk sum of seven thousand dollars, I consider fair and reasonable and is therefore accepted.

I am, gentlemen, your obedient servant,
TOM S. RUBIDGE, Supt. Eng.
Wm. Davis \& Sons, Cornwall.

Audit Office, Ottawa, June 16, 1896.
Sir,-After consultation with your accountant, we find that about \(\$ 69,000\) will be available out of the vote for Cornwall Canal Capital, to pay part of the January and April estimates of Wm. Davis \& Sons now in hand.

Attached is a statement showing items which can now be passed, to make up this sum.

An application from you to pay \(\$ 69,000\) on this statement will be passed without delay.

This action of course will not interfere with Mr. Davis's claim to balances on these items, or to sums on which nothing has been paid.

> I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Ottawa, June 18, 1896.
Sir,-As I find there is not sufficient appropriation available to cover the applications already sent you for the works executed on the Cornwall Canal, I am sending you an application for \(\$ 69,000\), being the available amount.

Will you please return the applications previously sent you.
I am, sir, your obedient servant,

The Auditor General. COLLINGWOOD SCHREIBER, D.M.

Audit Office, Ottawa, October 15, 1896.
SIR,-Let me offer the following remarks on the estimates of Wm. Davis \& Sons on the Cornwall Canal between November, 1895, and August, 1896.

In the August estimates the following items are shifted, without explanation, from "masonry in retaining-walls, \&c., in Portland cement" at \(\$ 8.95\) a yard to " masonry in walls of weir" at \(\$ 13.50\) a yard.
Sec. 2, July-Masonry in retaining-walls, 886 yds at \(\$ 8.95\).
Sec. 2, Aug.-Masonry in walls of weir, 886 yards at \(\$ 13.50\) \(\$ 11,96100\)
Sec. 3, July.-Masonry in retaining-walls, 1,214 yards at \(\$ 8.95\).
\[
10,86530
\]
Sec. 3, Aug.-Masonry in walls of weir, 1,214 yards at \(\$ 13.50\)
16,38900
Sec. 4, July-Masonry in retaining-walls,
I,290 yards at \(\$ 8.95\)
11,54550
Sec. 4, Aug.-Masonry in walls of weir, 1,290 yards at \(\$ 13.50\).
17,415 00
\(\$ 30,340 \quad 50 \quad \$ 45,76500\)

This is an increase of \(\$ 15,424.50\) due to a change in classification alone, with no new work done. Since no explanation is offered as to the insufficiency of the engineer's previous certificate that the walls are \(\$ 8.95\) work, I have no reason for accepting the new certificate in preference to the old one. Please give me copies of the correspondence which led the engineer to change his mind. Also, diagrams of the walls under discussion, and the dates at which they were built.

\section*{Auditor General's Report—Part R}

The following decreases in quantities of masonry are made in recent estimates, fictitious increases having been previously shown in order to pay for using Portland cement :
Sec. 2, May.-Masonry in weir-walls, 1,172
yards at \(\$ 12.50 . \ldots . . . . .\). ............. \(\$ 14,65000\)
Changed to: Masonry in weir-walls in Port-
land cement, 1,084 yards, at \(\$ 13.50 \ldots\).
\(\$ 14,63400\)
Sec. 2, May.-Randomeoursed masonry,
890 yards at \(\$ 5.50 \ldots \ldots . .\).
Changed to: Random-coursed masonry in
Portland cement, 770 yards at \(\$ 6.50\). .
5,00500
Sec. 2, May-Masonry in bridge, 1,406
yards at \(\$ 12.50\)
17,57500
Changed to : Masonry in bridge in Portland
cement, 1,326 yards, at \(\$ 13.50 \ldots \ldots\). .
17,901 00
Sec. 4, June.-Masonry in weir-walls, 1,890
yards at \(\$ 12.50 \ldots \ldots . . . .\).
Changed to : Masonry in weir-walls in Port-
land cement, 1,750 yards at \(\$ 13.50 \ldots\)
23,62500

A similar reduction in quantity is shown under the item for "earth excavation from horrow-pit," to rectify a similar overstatement in previous estimates:

> Sec. 2, May.-Earth excavation from borrow-pit: 46,000 yards at 35 cents.... \(\$ 16,10000\)
> Changed to : Reinforcing banks west of lock 18 : 25,800 yards at 65 cents
\(\$ 16,77000\)
Of the three kinds of information on which to pass an account, namely-correct information, incorrect information, and no information at all-I prefer the third to the second, as at least indicating the necessity for further inquiry. The mis-statements shown above, however wide of the truth, are perfectly innocent in appearance, especially when certified up by two engineers; and they convey to an outsider no suggestion that they will go to pieces if examined too closely. There should be no more of this : facts must be shown accurately, no matter what the consequences are.

Please instruct Mr. Rubidge in this sense ; and obtain from him and his assistants (Messrs. Weller and Sargeant) descriptions of their understanding of the duty of certifying in future.

I shall need to be supplied with copies of all the orders isssued to the contractors, instructing them to use Portland instead of native cement. Also, it would be well to make out a calculation to establish a connection, between the extra \(\$ 1\) a yard on masonry for using Portland cement, and the average price of this cement by the barrel, to show that the \(\$ 1\) a yard extra is fair and just. You will remember that the Messrs. Davis charged only 50 cents a yard for the same service on the Tay Canal.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, October 19, 1896.
Sir,-In further discussion of the August estimates of Wm. Davis \& Sons on the Cornwall Canal :

For the masonry in retaining-walls of weirs, now classed by the engineer as \(\$ 13.50\) work, instead of as \(\$ 8.95\), I should like to be supplied with full descriptions of the distinguishing features of each class of masonry involved. It would facilitate comprehension by laymen, if sketches were added, showing the theoretical face-appearance generally corresponding to each class-name, and the way"in which different classes merge into each other, if they do ; and sketches showing the face-appearance of the walls as
actually built. The extra \(\$ 15,000\) due to the change is sufficiently large to warrant this trouble.

For the masonry in the coping of old lock 19 , which is paid at \(\$ 24\) a yard, as in new lock 20, (while the coping and repairs of old lock 20 were paid together at \$14): please separate in old lock 20 the quantity of coping from that of repairs, and place an approximate value on the latter. A diagram would again be of assistance. This information is not for the purpose of revising the payment at lock 20 , but for better understanding of the rate at lock 19.

I notice \(\$ 9,750\) in section 3, and \(\$ 5,200\) in section 4, for "reinforcing banks," at 65 cents a yard. Previous estimates on section 2 contained a similar service ; but Mr. Rubidge's explanation of the rate of 65 cents involved local considerations peculiar to section 2 itself, and was therefore inapplicable to sections 3 and 4. Please obtain further statements from Mr. Rubidge as to the two latter sections.

The August estimates include entries for spare lock-gates as follows: Section 3, \(\$ 2,028\); section \(4, \$ 3,630\). As each amount contains an item for painting one pair, I infer that they are completed. Please inform me as to the reason for such a difference in the total cost.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, October 30, 1896.
Sir,-In the August estimate of Wm. Davis \& Sons for work on Sheik's Island dam, I notice that a previous item of 900 yards of masonry in cut-off walls at \(\$ 8.95\), making \(\$ 8,055\), has been changed to 846 yards of masonry in walls of weir at \(\$ 13.50\), making \(\$ 11,421\).

As in a similar change on sections 2,3 and 4 , I shall need full explanations, and copies of the correspondence.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals. J. L. McDOUGALL, A.G.

\section*{Soulanges Canal. George Goodwin.}

Dept. of Justice, Ottawa, January 15, 1896.
Sir,-Referring to your letter of the 4th October last, inclosing additional correspondence and the report of your chief engineer with regard to contractor Goodwin's claim as to payment for the construction of water-tight embankments on the Soulanges Canal, I have the honour to state that Sir Charles Hibbert Tupper, while Minister of Justice, gave the matter very careful consideration and heard Mr. Goodwin in support, of his claim. The Minister came to the conclusion that the claim was one which should be allowed by your department, but he resigned his office before that advice could be communicated to you. He desired me, however, to inform you that he had reached the conclusion which I have stated. I return the papers herewith.

I am, sir, your obedient servant,
The Secretary, Railways and Canals.
E. L. NEWCOMBE, D.M.J.

\section*{Rallways and Canals Dept., January 18, 1896.}

Sir,-I inclose herewith two copies of your report of the 2nd of October last, in the matter of Mr. Geo. Goodwin's claim in re water tight embankments on sections Nos. 4, 5, 6 and 7 of the Soulanges Canal, together with two copies of a letter from the Deputy Minister of Justice dated the 15th of January instant, from which you will see that Sir Charles Hibbert Tupper, when Minister of Justice, examined into this claim, and came to the conclusion that Mr. Goodwin's claim should be allowed. I am, therefore, to instruct you to act in accordance with that conclusion.

I am, sir, your obedient servant, The Deputy Minister Railways and Canals. JNO. H. BALDERSON, Secretary.

\section*{Auditor General's Report—Part R}

Coteau Landing, February 26, 1896.
Sir,-I have your letter of the 20th ultimo, with copies of correspondence respecting a claim of George Goodwin, contractor, in reference to the embankments on sections Nos. 4, 5, \(6 \& 7\) of the Soulanges Canal.

There is no precise statement of this claim in my possession, but I understand that a decision has been given by the late Hon. Minister of Justice to the effect that all the embankments on these sections must be paid for as water-tight throughout, and this decision must govern the preparation of the progress estimates.

The last of these was up to the 30th November, 1895. This shows the total earth excavation to be \(1,103,713\)-water tight banks 450,733 . Should the whole be paid for as if made into water tight embankments, the estimate would be as follows :-

Excavation as above \(1,103,713\) c. yds. As all this went into the banks, the amount of the latter would be (with 10 per cent deduction shrinkage) \(993,340 \mathrm{c}\). yds.

As a matter of fact, however, the balance of \(542,607 \mathrm{c}\). yds. now returned as water tight is spoil bank made up partly of sand, sods, loam and other pervious materials standing upon the unmucked surface of the natural ground. It was merely designed to back up the water-tight lining of the inside slopes of the prism-which was put in as specified. This amount of \(542,607 \mathrm{c}\). yds. was not intended to be made water-tightnor was it ordered to be made water-tight-nor has it been made water-tight in accordance with the requirements of clause No. 11 of the specification written by me for sections 4, 5, 6 and 7 of this canal.

This question appears to me one of fact only, and I therefore respectfully desire to state my firm adherence to the views which I have previously expressed on the matter. I have, however, prepared the accompanying estimate at your request, with the distinct understanding that my responsibility in reference to it does not extend further than what would attach to a mere statement of quantities.

> I am, sir, your obedient servant,
> THOMAS MONRO, M. Inst. C.E.

The Chief Engineer of Canals, \&c.

COLLINGWOOD SCHREIBER, D.M.
}

\section*{Audit Office, Ottawa, February 29, 1896.}

Sir,-Let me acknowledge receipt yesterday of your application No. 345 for \(\$ 73,-\) 260 , in favour of Geo. Goodwin, on sections 4, 5, 6 and 7 of the Soulanges Canal, as follows :

> No. 5 :-Earth in water-tight embankments, 542,607 yards at 15 cents.
> Less 10 per cent drawback.. . . . . . . . . . . . . . . . . . . . . . . . 8,130 00
> Payment now requested.
> \$73,260 00

The item of 542,607 yards is marked "Classification in accordance with" decision of Minister of Justice. See letter of January 15, 1896. T.M.

The certificates on the summary are "Signed by me subject to condition stated in my letter of February, 26, 1896 : Thomas Monro," and "Certified as regards item No. 5, in accordance with letter of Deputy Minister of Justice, dated January 15, 1896 : Collingwood Schreiber."

Please send me copies of the correspondence affecting this point : a copy of Mr. Goodwin's contract, which I have not yet received : and a diagram in elucidation of Mr. Goodwin's claim.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, March 2, 1896.
SIr,-In addition to the information asked for in my letter of February 29, concerning Mr. Goodwin's contract, I should like to be supplied with the dates on which the quantities in dispute were returned by the resident engineer as "ordinary excavation and embankment," and the date on which Mr. Goodwin made his claim for payment as "earth in water-tight embankments."

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOtgalle a.g.

Railways and Canals Dept., March 12, 1896.
SIR,-In reply to your letter of the 2nd instant, asking for certain further information relative to the claim of Mr. George Goodwin, contractor for sections Nos. 4, 5, 6 and 7, on the Soulanges Canal, I have the honour to state that since the work was commenced in May, 1893, portions of the quantities in dispute have, from time to time, been returned in the monthly progress estimates as ordinary excavation, and that Mr . Goodwin first made his claim in writing in March, 1895, although he had been agitating the matter for several months previously.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, \(D . M . R . \& C\).

\section*{Auditor General's Report-Part R}

Audit Office, Ottawa, March 13, 1896.
Dear Sir,-I inclose herewith documents bearing on a claim of George Goodwin. They, I think, explain themselves. As I expect to be in Toronto to talk this matter over with you on Monday, I should be glad if you could find time to read the papers to-morrow. 'lhose which seem most important are Goodwin's memorandum, and sections 5 to 11 of the specification.

I am, sir, your obedient servant,
Z. A. Lash, Esq., Q.C., Toronto.
J. L. McDOUGALL, A.G.

Toronto, March 17, 1896.
Sir,-Re Goodwin contract, sections 4, 5, 6 and 7, Soulanges Canal. In the list of prices to be paid for the works given in clause No. 24 of this contract there are the following, viz. :-
"4.' 'Earth excavation', per cubic yard, 20 cents."
" 5 . 'Earth in water-tight embankments', per cubic yard, 15 cents.
Section 6 of the specifications provides as follows :-
" 6 . The price tendered for 'earth excavation' must cover the entire cost of excavating, hauling and forming into embankments all kinds of materials found in the pits for locks, weirs or other structures and in the prism of the canal, race-ways, side ponds or wherever excavation is necessary, except solid stratified quarry rock. The surplus material arising from the prism, \&c., on section No. 7 shall, after making up the banks on that section, be carried forward to widen the embankments of sections to the eastward, and the surplus on section No. 6 shall be dealt with in the sane manner, so that all the excavation arising from the sections embraced in this contract west of lock No. 5 will be disposed of in making the embankments on each side of summit level between sections 180 and 460 , filling around the various structures, \&c."

Section 11 is as follows :-" 11 . Wherever the surface level of the water in the canal is higher than the ground alongside, water-tight banks shall be made when so directed. In these cases the top soil must be removed for such width and depth as may be considered necessary to form the embankment seats; the material arising from this mucking to be deposited where pointed out. It will be paid for as ordinary earth excavation. The seats shall also be well roughed up with a plough so as to make good bond with the first layer of earth forming the base of the embankment ; puddle-holes or cut-offs to be made where required, the puddle to be prepared and laid as specified hereafter. When the bank seats are properly prepared, inspected and approved, and not till then, the bank shall be carried up in layers of selected material of about 8 inches in thickness, well spread, the lumps broken, watered, trodden down or otherwise compacted, and carefully shaped to the heights and slopes given by the engineer. Only such portions of the embankments as shall be laid out by the engineer and made up in strict accordance with the foregoing specification will be paid for as "Earth in water-tight banks."

In places where the surface level of the water was higher than the ground alongside the engineer fixed the width and depth of the top soil to be removed. Both width and depth varied, the width from 101 to 112 feet from the centre line of the canal, and the depth from less than 1 foot to several feet. The material arising from the removing of the top soil, called 'mucking' was deposited in rear of the space from which it was removed. The space mucked was roughed with the plough and the bank was carried up in layers as directed by section 11 of the specifications. The total width of the base of the canal bank as finished covered the space in rear of the mucked part on which the soil removed in mucking was deposited, and, although (except the absence of mucking) there was only a slight difference between the mode of forming the part carried up from the mucked space and the part in rear, yet the material used in the rear part included vegetable and other porous matter which were not used in the other part.

The contractor clains payment for the entire quantity in the whole bank at the rate of 15 cents per yard, contending that it is earth in water-tight embank-
ments, within the meaning of item 5 in the list of prices. The engineer in charge denies the claim, except as regards that part of the embankment carried up from the mucked space, contending that the remaining part is covered by item 4 in the list of prices and is included in the 20 cents per yard allowed for earth excavation. The difference in money between the two contentions is large, amounting on this contract alone to over \(\$ 200,000\), and on the whole canal to between \(\$ 500,000\) and \(\$ 750,000\).

I am asked for an opinion as to the proper construction of the contract with regard to the question involved. I have had the advantage of perusing copies of two communications from the contractor to the Deputy Minister of Railways and Canals, dated 22 nd March, 1895, and 12th September, 1895, setting out fully the contractor's contentions and containing lengthy arguments on his behalf. The importance of the case calls for a critical examination of the contract and for an explanation of the reasons for the opinion which I have formed.

The specifications are declared to be a part of the contract, and it is provided by clause 4 that the several parts of the contract shall be taken together to explain each other and to make the whole consistent. Items 4 and 5 in the price list, and sections 6 and 11 of the specifications must be read and considered together. The contractor contends that section 6 "cannot be properly admitted as a factor in the consideration of the question at issue because (he argues) it is inconsistent with item 5 of the price list and with section 11 of the specifications, and, as one must be disregarded, and as section 6 is the general clause and section 11 the special clause, the latter must prevail and the former be excluded."

Not only does clause 4 of the contract require that the several parts shall be taken together to explain each other and to make the whole consistent, but the law relating to the construction of contracts makes it the duty of any one construing this contract to adopt a construction which will give effect to each part and to avoid a construction which would exclude any part. Sections 6 and 11, properly understood, are not inconsistent. Section 6, it is true, is the general clause and section 11 the special ; but, instead of the special excluding the general, it is to be treated as an exception to it only, leaving to the general clause in all other respects its full application.

Under item 4 of the price list, and section 6 of the specifications, the price for earth excavation, viz. : 20 cents per yard, covers the whole embankment formed with the earth so excavated, and it is only under item 5 of the price list and section 11 of the specification that any additional payment can be claimed for such earth in the embankment. The question therefore is: For how much of this earth does section 11 provide payment?

The section contains a clear definition of what is meant by 'earth in water-tight banks.' Its concluding words are "only such portions of the embankments as shall be laid out by the engineer and made up in strict accordance with the foregoing specification will be paid for as 'earth in water-tight banks.'" The section is dealing only with such portions of the general embankments as are to be made water-tight. This is the key to its construction, and, bearing this in mind, its construction is not difficult.
"In these cases the top soil must be removed for such width and depth as may be considered necessary to form the embankment seats." What are the 'embankment seats' here referred to? Clearly the seats of the portions to be made water-tight.

Further-" The seats shall also be well roughed up with a plough so as to make good bond with the first layer of earth forming the base of the embankment." What base is here referred to? Clearly the base of the portion of the embankment to be made water tight.

Further-" When the bank seats are properly prepared, inspected and approved, and not till then, the bank shall be carried up in layers of selected material." This can only refer to the portions resting on the prepared seats.

The removal of the top soil, in some cases to the depth of several feet, was not a mere matter of form ; it was evidently an essentiai part of the formation of the watertight portions of the bank, as no bank could be water-tight if built on a porous base or foundation. In this connection it will be proper to notice an argument submitted by the contractor in support of his contention that the base of the whole embankment for

\section*{Auditor General's Report—Part R}
its whole width should be considered as the 'prepared seat' referred to in section 11. He quotes the clause in the contract which gives to the engineer power "to make any change which he may deem expedient in the dimensions, character, nature, location or position of the work" and he argues, as I understand him, that under this power the engineer might dispense with the whole of either the mucking or roughing up with a plough, and that, having directed only a portion of the surface to be mucked, \&c., he had in effect dispensed with the mucking of the remainder, and that consequently the whole base of the embankment, mucked and unmucked, must be considered as "properly prepared, inspected and approved" so as entitle the contractor to claim that the whole bank carried up from the base contains 'earth in water-tight embankments' to be paid for at 15 cents per yard. This argument disregards the concluding words of section 11, that only such portions shall be paid for as 'earth in water-tight embankments, as are made up in the way described, viz.: the top soil first to be removed so as to form the seats; then the seats to be roughed up with a plough so as to make a good bond with the first layer of selected material ; then the layers of selected material to be put on in the manner described. But, irrespective of this, I would point out that by directing only a portion of the surface to be mucked the engineer is dispensing with nothing. It is only by virtue of his direction that the mucking is to be done, and where his direction ends the duty of the contractor to do the mucking also ends. To avoid the force of this answer to his argument the contractor is driven to contend that important words should be eliminated and diregarded. He says that the words "when so directed "refer only to the time when the formation of the banks may be proceeded with, viz. : after the foundations have been inspected and approved, and that consequently they "may be considered as eliminated." Such á construction would be directly opposed to the well-known rule of law above mentioned, to say nothing of the fact that preparation of the foundation is the first step in the formation of the water-tight embankment, and that this first step cannot be taken without the direction of the engineer.

For the foregoing reasons I am clearly of opinion that the contractor's claim for 15 cents per yard for the whole quantity of earth in the embankments in the cases referred to annot be supported. I return the papers,

And am, yours truly,
The Auditor General.
Z. A. LASH.

Audit Office, Ottawa, March 20, 1896,
Sir,--I have your application No. 345 to pay Geo. Goodwin \(\$ 73,260\), and the file of papers connected with his claim that the 15 c . per cubic yard for the embankment, in addition to the 20 c . for removing the earth, should not be confined to the portion allowed by you in the first instance, but should exiend to the whole embankment.

I should like to be supplied with all the other correspondence between your department and the Justice Department on this claim, and any documents which you may have furnished to that department in support of your view. I do not know whether the contractor's memorandum went to the Department of Justice through your hands or not. In any case you, no doubt, saw it about the time it was submitted to the Government, and probably made a detailed criticism of such part of it as you thought might be supposed by the Department of Justice to support the contractor's contention.

Your application for payment is made subject to the letter of the Deputy Minister of Justice, that letter being confined to a statement that the late Minister of Justice (Sir Charles Hibbert Tupper) came to the conclusion that the claim should be allowed. I think that you should explain to what extent you hold yourself, as chief engineer, responsible for your certificate under such conditions. The superintending engineer is more explicit. He states clearly that he does not think that the claim is well founded.

Please explain, in connection with your certificate as chief engineer, your view of your responsibility as shown by section 33 of the Audit Act. You apparently think that, under certain if not under all circumstances, you are relieved from the responsibility conveyed by this section, which reads :-
"No payment shall be authorized by the Auditor General in respect of work performed or material supplied by any person in connection with any part of the public service of Canada, unless, in addition to any other voucher or certificate which is required in that behalf, the officer under whose special charge such part of the public service is, certifies that such work has been performed or such materials supplied as the case may be, and that the price charged is according to contract, or if not covered by a contract, is fair and just."

Please say to what extent you consider yourself relieved, and give the reasons for thinking that you are relieved. I can quite understand that you may find many occasions on which the advice of the Department of Justice is of the greatest service to you, but the question in my mind is whether you are justified, under any conditions, in saying that the price charged is "according to contract" because the Department of Justice thinks that it is, while you think that it is not. Then, supposing you do think that you are are justified in so certifying. why do you consider that the letter of the Deputy Minister of Justice conveys the opinion of the Department of Justice? It states, without any argument, what is the opinion of a gentleman who had ceased to be the Minister of Justice at the time the letter was written. If his successor was not sworn in when the letter was written, he was sworn in on the 15th of January, the day on which the letter was written.

The superintending engineer says that five hundred thousand dollars at least is involved in the adoption of the opinion of the late Minister of Justice, of which \(\$ 210,000\) will go to Mr. Goodwin, whose claim we are now considering.

Under all the circumstances,--the magnitude of the sum involved, your own doubt at least, the strong adverse opinion of the superintending engineer, and the fact that a legal opinion, unsupported by reasons and given by a gentleman who had ceased to be a member of the Government at the time the opinion was given, is all upon which the claim rests-surely you might have declined to certify in any form until at least the opinion of the present Minister of Justice was given. Even then, the Government, having no responsibility to the contractor to be guided by the opinion of the Minister of Justice, might have got the opinions of other lawyers, and it appears to me ought, in view of the large sum at stake, to get such opinions before making payment.

My right to discuss your duties in this connection arises from the fact that I must evidently in the majority of applications from the Railway Department, although not in all of them, rely entirely on your certificate. I, however, am not justified in passing an application if \(I\) have reason to doubt the soundness of the principle on which the certificate as to the sum involved is based. I read over the memorandum of the contractor and the statements of yourself and the other engineers and came to the conclusion that I was not justified in passing the certificate I consulted Mr. Z. A. Lash, Q.C., and inclose his opinion which is, as you will observe, decidedly against the admissibility of the claim.

I wish that you would ask the superintending engineer to call to see me the first time he is in Ottawa.

I am, sir, your obedient servant,
The Deputy Minister Railways and Canals.
J. L. McDOUGALL, \(A . G\).

\section*{Rallways and Canals Dept., Ottawa, March 21, 1896.}

Sir,-A communication from the Auditor General dated the 20th instant upon the subject of the item for water tight embankments in the monthly progress estimates for February, in favour of Mr. George Goodwin, contractor for sections Nos. 4, 5, 6 and 7 of the Soulanges Canal, having been referred to me for my remarks in relation to his comments and interrogations as regards my action as chief engineer in the matter :
1. An explanation is asked to what extent I hold myself responsible as chief engineer for my certificates based as is explained thereon upon the letter of advice from the Justice Department dated the 15 th January, 1896.

\section*{Auditor General's Report-Part R}

I consider that upon being furnished with the decision of the Justice Department as to the meaning or intention of the contract, and the plans, specifications and drawings, that it is my duty to act thereon, and that I am relieved of responsibility in that respect, but that \(I\) am, under that ruling, the sole judge of the work and material in respect of both quantity and quality.
2. An explanation is asked in connection with my certificate as chief engineer as regards my responsibility as shown by section 33 of the Audit Act.

I conceive my duty to be, in cases in which the question of the meaning or intention of the contract, and the plans, specifications and drawings have been referred to the Justice Department and their advice received, to act upon it, making use of the prices in the contract schedule applicable to the work under the letter of advice.
3. I am further asked to state to what extent I consider myself as chief engineer relieved from responsibility under the circumstances, and my reason for so thinking.

I consider in cases of advice having been given by the Justice Department as to the meaning or intention of a contract and plans, specifications and drawings in whole or on any particular item, that it is my duty to act upon it, and I am relieved of responsibility in that respect. My reason for so thinking is, that I was advised by the late Sir Alexander Camphell, Minister of Justice, and subsequently by the late Sir John Thompson, Minister of Justice, that such was my duty as chief engineer ; the mere fact that a case was referred to the Justica Department was evidence that I, as chief engineer, held an opinion adverse to the contractor.

Based upon the advice of the Justice Department as to the interpretation of the contract, the item of water tight embankments is correct, being merely a monthly progress estimate, which gives approximate quantities, they being rather under the actual quantities executed.
lam, sir, your obedient servant,
The Secretary, Railways and Canals. COLLINGWOOD SCHREIBER, C.E.

\section*{Audit Office, Otrawa, April 11, 1896.}

Sir, -With reference to your application of February 28, in favour of George Goodwin for \(\$ 73,260\), on account of work done on sections 4, 5, 6 and 7 of the Soulanges Canal, and your letter of the 9 th instant, and the correspondence which accompanied the letter, I beg to state that I am unabie to pass the application.

In my letter of the 20th ultimo I drew attention to the fact that the letter of the Deputy Minister of Justice conveyed the information that Sir Charles Hibbert Tupper, who had then ceased to be Minister of Justice, came to the conclusion that the claim ought to be admitted, but gave no reasons.

I don't find in the letter of the chief engineer to the secretary of the department, nor in that of the secretary to me, an answer to the following in my letter to you of March 20:
"Then supposing you do think that you are justified in so certifying, why do you consider that the letter of the Deputy-Minister of Justice conveys the opinion of the Department of Justice?"

The letter mentioned means the letter written on January 15 last, conveying the opinion of Sir Charles Hibbert Tupper, who had then ceased to be Minister of Justice. Did the Deputy-Minister of Justice wish you to understand that such an opinion should be considered as the opinion of the Department of Justice?

I would now ask your consideration of the letter of the Deputy-Minister of Justice, dated February 28, 1894, which states that the then Minister of Justice, Sir John Thompson, came to the conclusion that the claims ought not to be admitted, and gave his reasons. This letter was among the papers which were recently sent to me, and therefore was unknown to me when my former letter was written.

I observe from a document among these papers that you are strongly of opinion that the claim is inadmissible. This also strengthens the position which the papers
previously received seemed to me to warrant my taking-not that additional strength was required.

This claim, which involves half a million of dollars at least, has less foundation than any claim which has been presented to me since I entered upon the duties of this office ; and this, whether you consider the reports of officials or the merits of the case as shown by the contract and specification.

The contractor might as well have claimed that a cubic yard of earth ought to be calculated at 20 cubic feet insteall of 27 . The money might with as good reason be given to the first man who should present himself, one who never had is contract with the Government.

I am, sir, your obe lient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

\section*{Rallway s and Cayals Dept., Ottawa, April 15, 1896.}

Sir,--The Auditor General's letter of the 11th instant re George Goodwin's claim in connection with water-tight banks, having been referred to me in my capacity of chief engineer of Railways and Canals for eport, I may explain that by an oversight in answering the interrogatories contained in the Auditor General's letter of the 20th ultimo, it appears I neglected to answer the following questions, viz:-
"Then supposing you do think that you are justitied in so certifying, why do you consider that the letter of the Deputy-Minister of Justice dated 15th January last, conveys the opinion of the Justice Department?"
"Did the Deputy-Minister of Justice wish you to undertand that such opinion should be considered as the opinion of the Justice Department ?"

It not having been clear to me as to whether or not the letter should be accepted as the opinion of the Department of Justice, I called at that department for advice, when it was explained to me by the Deputy that the Minister of Justice, after having given the superintending engineer and the contractor a full hearing, and having carefully considered all the fact; as divulged by the papers, gave instructions to his deputy to advise the Department of Railways and Canals that in his opinion the claim of Mr. Goodwin should be allowed, but that owing to pressure of business some delay occurred in having the letter written, and in the meantime Sir Charles Hibbert Tupper had resigned office, so that when his opinion as Minister of Justice was actually communicated to the Department of Railways and Canals, he was out of office. The DeputyMinister of Justice, lowever, stated that he considered the letter should be accepted as the advice of the Department of Justice.

I therefore, certainly understand that the opinion conveyed to me was that of Sir Charles Hibbert Tupper, when he was Minister of Justice, and reached by him in the discharge of his duties.

Respecting the opinion of his predecessor in ottice, you will on reference to the correspondence observe, that a question of fact was subsequently raised, and that further papers and information, which did not exist when Sir John Thompson's opinion was expressed, had been transmitted by this department to the Department of Justice.

The opinion of the late Minister of Justice, Sir Charles Hibbert Tupper, relates only to the question of water-tight banks in places where the water is above the original surface of the ground.

Not being trained in the law, I cannot say with the Auditor General, in view of the opinion of the Department of Justice, that the contractor might as well have claimed that a cubic yard of earth ought to be calculated at 20 cubic feet instead of 27 , or that the money might with as good reason be given to the first man who should present himself, one who never had a contract with the Government.

I may observe with respect to the absence of reasons in the last opinion from the Justice Department, that it is not usual to request them ; but I doubt not that on

\section*{Auditor General's Report-Part R}
application, had the Auditor General expressed a desire to be furnished with them, this department could easily have obtained them.

> I have the honour to be, sir, your obedient servant, COLLINGWOOD SCHREIBER, Chief Eng.

The Secretary, Railways \& Canals.
Audit Office, Ottawa, May 1, 1896.
Sir,-May I ask you in connection with my letter of the llth ultimo regarding the Goodwin claim, to indicate always on the estimates, in your capacity of chief engineer, when you sign because your department has the opinion of the Department of Justice that the interpretation of a contract or other document requires this to be done, -your own opinion as chief engineer being that the payment should not be made. Such a course would notify me of the additional reason for making particular investigation.

I have the honour to be, sir, your obedient servant,
The Deputy-Minister, Railways \& Canals.
J. L. McDougall, \(A\). \(G\).

\section*{Railways and Canals Dept., Ottrawa, 2nd May, 1896.}

Dear Sir,-I have your letter of the lst instant asking me to indicate on the estimates in my capacity as chief engineer, when I sign because this department has the opinion of the Department of Justice that the interpretation of a contract or other document requires this to be done, my own opinion as chief engineer being that payment should not be made.

I will make such a note on the estimates in future.
Yours truly,
The Auditor General.

\section*{COLLINGWOOD SCHREIBER, Chief Eng.}

Note.-The Exchequer Court decided this case in favor of the Government, January 11, 1897. It is now in the Supreme Court, on appeal by Mr. Goodwin. -T. L. McD., March, 1897.

\section*{Geo. Goodwin-Work not Prosecuted.}

\section*{Audit Office, Ottawa, October 1, 1896.}

Sir,-On George Goodwin's canal contract No. 12, I do not find that we have had any estimate since that for October, 1893. Moreover, it is a matter of common knowledge that he is not going on with the work.

Let me call your attention to sections 13 and 14 of the contract-form, which provide against negligence and abindonment by the contractor.

Section 13 gives authority to the engineer to employ additional workmen, \&c., and their wages "may be retained and deducted out of any moneys at any time payable to the contractor."

Section 14 allows the department to finish the work as it may see fit, and the "contractor shall remain liable for all loss and damage which may be suffered."

It might be well for the department to consider the expediency of taking whatever steps may be legally necessary to establish the right of seizing-for contract 12-any money which may become due to Mr. Goodwin on contracts 4 to 7 .

You will quite understand that while it is only with this, the financial aspect of the case, that I make a remark, I do not hold myself in any way responsible for the not pointing out where loss might arise in other similar cases.

I am, sir, your obedient servant,

Sir,-Let me acknowledge receipt of your application No. 168 for \(\$ 2,500\) in favour of Geo. Goodwin, being the amount of his October estimate on sections 4 to 7 of the Soulanges Canal.

I do not find that any answer has yet been received to my latter of Oct. 1, 1896, concerning Mr. Goodwin's neglect of section 12.

The present application is held in the meantime.
I am, sir, your obedient servant,
The Deputy-Minister, Railways and Canals. J. L. McDOUGALL, a.g.
Audit Office, Ottawa, Dec. 23, 1896.
Sir,-Please let me have an approximate calculation of the probable loss to the Government, if it had to finish Geo. Goodwin's two contracts on the Soulanges Canal.

I am, sir, your obedient servant,
The Deputy-Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Rallways and Canals Dept., Ottawa, Dec. 29, 1896.
Sir,-In reply to your letter of the 23 rd instant, by which you ask for an approximate calculation of the probable loss to the Government if it had to finish Mr. Geo. Goodwin's two contracts on the Soulanges Canal, I have to inform you that the chief engineer states that he is not in a position to give this information as he is not notified that Mr. Goodwin will not complete his contracts.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.
Audit Office, Otifawa, January 25, 1897.
Sir,-Let me acknowledge receipt of your letter of December 29, stating that the department is not in a position to give an approximate calculation of the loss on section 12, since Mr. Goodwin has not yet formally abandoned his contract.

The only uncertainty, I think, is in the date at which Mr. Goodwin might stop work in the future. For our present purposes, a close enough calculation might be made by taking the current date. For instance, what would be the approximate loss if Mr. Goodwin were to do no more work ? .

There has been no estimate on section 12 since October, 1893.
I am, sir, your obedient servant,
J. L. McDougall, a.g.

The Deputy-Minister, Railways and Canals.
Audit Office, Ottawa, January 25, 1897.
Sir,-I forward herewith for your information a copy of an opinion received by me from Mr. Lash, of Toronto, concerning the Soulanges Canal contract No. 12, which Mr. Goodwin is supposed to have abandoned.

Mr. Lash thinks that it is outside of my duty, to protect the government's interests on section 12 by withholding payment on Mr. Goodwin's other contract on sections 4 to 7 : that whatever should be done in that line is for departmental action alone.

I therefore return to you the applications in favor of Mr. Goodwin. If you conclude to maintain them, please accompany them with a statement that you have considered Mr. Lash's opinion. No further delay will then take place in this office.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

\section*{Auditor General's Report-Part R}

Toronto, December 17, 1896.
Sir,-I duly received yours of the 9th instant and now reply thereto.
The question you ask is more one of expediency than of law, but it will, I think, help a decision on the question of expediency if I point out what would be the position under similar circumstances of private parties. Owing to the differences of procedure in litigation between the Crown and the subject, and subject and Crown, the forms of remedy differ, but it seems to me that in substance the two positions are the same and the same rules for guidance may fairly be followed.

The case you put in is shortly this :-There are two contracts, under one of which the contractor is in default, and the Government has a bono fide and substantial claim for damages on account of the default; under the other the contractor is entitled to payment of certain moneys from the Government ; and the question asked is whether the Government would be justified in withholding from the contractor payment of this money until the claim for damages upon the other contract had been adjusted.

In our Ontario Courts, and also in England, when an action is brought by one person against another, the defendant is allowed not only to defend the action itself but to set up a counterclaim against the plaintiff, whether this counterclaim arises out of the transaction in respect to which the action is brought or is entirely separated from it. It may of course happen, and has frequently happened, that the defendant has no real defence to the plaintiff's claim, and that the counterclaim is for unliquidated damages not capable of being pleaded as a defence by way of set-off. It was at one time thought that if in the defence the defendant admitted the plaintiff's claim, or a part of \(i t\), he should be ordered to pay the amount admitted, either to the plaintiff or into Court, to abide the trial of the counterclaim; but the later cases have established that, if the counterclaim be made in good faith and the amount claimed thereby is equal to or greater than the amount admitted to be due the plaintiff, the defendant will not be ordered to pay the amount admitted; but, unless there be special circumstances requiring a different course, the whole case will be allowed to go to trial, and if the defendant be found entitled to a judgment upon the counterclaim, such judgment will be set-off as against the plaintiff's admitted claim, and the balance only ordered to be paid to whichever party is entitled to it.

You will gather from this that the courts justify a defendant in withholding payment of an admitted claim if he has a bona fide, though disputed and unliquidated claim, against the plaintiff.

If the contractor in this case should sue the Crown for payment of the moneys due to him under the one contract, the Crown would probably not, technically, set up a counterclaim, as the procedure upon petitions of right does not seem to provide for a counterclaim by the Crown. This, however, is a matter of procedure only, and, by instituting in the same court (the Exchequer Court) an action against the contractor for damages for the breach of the other contract, the Crown could probably attain the same end as if the counterclaim were allowed in the petition of right case.

As the granting of the fiat upon the petition of right and the payment of any judgment which might be obtained upon it are matters in respect of which the Crown, so far as time is concerned, may exercise a pretty wide discretion, it would not be difficult so to regulate the progress of the petition of right case as to allow the other case to come to trial before any judgment in the petition of right case was ordered, if, under the circumstances, the fiat for the petition of right was granted and that proceeding allowed to go on at all.

There are, however, other considerations of expediency which must be regarded before a decision to withhold payment is arrived at. The main question is, of course, whether, if the Crown should subsequently get a judgment against the contractor, it could realize upon that judgment. If they were danger that it could not, then it would seem unjust in the public interests to keep on paying money to the contractor under the other contract, unless by not doing so the Crown is likely to lose in another way; for, if the money be not paid, it may be that work would stop under the other contract also, and further loss might thereby be entailed upon the Crown.

I, of course, know nothing about the financial ability of the contractor in this case, or whether or not he has given security for the performance of his contracts.

With these explanations you will doubtless be able to discuss the matter with those who must ultimately decide it, as it is a question for the Government, or the department. in charge of the work, and not strictly a question for your own action.

> I am, sir, your obedient servant,

The Auditor General.
Z. A. LASH.

\section*{Galops: Murray and Cleveland: Supreme Court Judgment.}

\section*{In the Supreme Court of Canada, Murray \& Cleveland v. The Queen.}

Judgment of the Court by Sedgewick, J. :-This is an appeal fron the judgment of the Exchequer Court rendered on November 23, 1895, setting aside a judgment of that court given on December 14, 1894, which latter judgment declared the claimants entitled to the full amount of their claim, viz. : \(\$ 8,907.30\), and costs.

On November 14, 1888, the claimant firm entered into a contract with the Crown, represented by the Minister of Railways and Canals, for "the construction of a lift lock, guard lock and supply weir, also the deepening and widening of the upper or western end of the Galops Canal" on the St. Lawrence River, the works under the contract being still in progress but nearly completed.

The contract was not for a specified lump sum, but contained a schedule of prices to be paid by the Crown for work done and materials provided by the contractors. The 25th clause was as follows:-
" 25 . Cash payments equal to about ninety per cent of the value of the work done, approximately made up from returna of progress measurements and computed at the prices agreed upon or determined under the provisions of this contract, will be made to the contractors monthly on the written certificate of the engineer that the work for, or on account of, which the certificate is granted has been duly executed to his satisfaction and stating the value of such work computed as above mentioned-and upon approval of such certificate by the Minister for the time being, and the said certificate and such approval thereof shall be a condition precedent to the right of the contractors to be paid the said ninety per cent or any part thereof. The remaining ten per cent shall be retained till the final completion of the whole work to the satisfaction of the chief engineer for the time being, having control over the work, and within two months after such completion the remaining ten per cent will be paid. And it is hereby declared that the written certificate of the said engineer certifying to the final completion of said works to his satisfaction shall be a condition precedent to the right of the contractors to receive or be paid the said remaining ten per cent, or any part thereof."

And the 8th clause :-
" 8 . That the engineer shall be the sole judge of work and material in respect of bothquantity or quality, and his decision on all questions in dispute with regard to work or material, or as to the meaning or intention of this contract, and the plans, specifications and drawings shall be final, and no works or extra or additional works or changes shall be deemed to have been executed, nor shall the contractors be entitled to payment for the same, unless the same shall have been executed to the satisfaction of the engineer, as evidenced by his certificate in writing, which certificate shall be a condition precedent to the right of the contractors to be paid therefor."

And the 5th clause :-
" 5 . The engineer shall be at liberty at any time, either before the commencement or during the construction of the works or any portion thereof to order any extra work to be done, and to make any changes which he may deem expedient in the dimensions, character, nature, location, or position of the works, or any part or parts thereof, or in any other thing connected with the works, whether, or not, such changes increase

\section*{Auditor General's Report-Part R}
or diminish the work to be done, or the cost of doing the same, and the contractors shall immediately comply with all written requisitions of the engineer in that behalf, but the contractors shall not make any change in or addition to, or omission, or deviation from the works, and shall not be entitled to any payment for any change, addition, deviation, or any extra work, unless such change, addition, omission, deviation, or extra work, shall have been first directed in writing by the engineer, and notified to the contractors in writing, nor unless the price to be paid for any addition or extra work shall have been previously fixed by the engineer in writing, and the decision of the engineer as to whether any such change or devintion increases or diminishes the cost of the work, and as to the amount to be paid or deducted as the case may be in respect thereof, shall be final, and the obtaining of his decision in writing as to such amount shall be a condition precedent to the right of the contractors to be paid therefor. If any such change or alteration constitutes, in theopinion of the said engineer, a deduction from the works, his decision as to the amount to be deducted on account thereof shall be final and binding."

And item 6 of the schedule of prices reads as follows :-
" 6 . Earth Excavation.- Over water-line, for the widening of canal on the north side from a point 100 feet east of present guard-lock to end of section, including all kinds of materials (solid rock and boulders containing one-fourth of a cubic yard excepted), hauling the same across canal and for a distance of 700 feet to 3,600 feet to form a dam at Round Bay shoal to inclose space for lock, per cubic yard, 50 cents."

The demand which the appellants now seek to enforce is for a balance alleged to be due for work done and materials furnished under the contract between the 1st of February and the 31st of August, 1893. They allege that the work done during these months as certified by the departmental engineers amounted in value to the sum of \(\$ 88,541.53\); that they were entitled to be paid under clause 25 above set out that amount, less 10 per cent, viz.: \(\$ 79,687.38\), but that they were paid but \(\$ 70,790\), leaving the difference still due. Leaving out of view in the meantime certain technical defences as to the form of certificates and the approval of the Minister, the Crown substantially admits the truth of these allegations, but claims the right to deduct from that sum an equivalent amount under the following circumstances (and which \(J\) take in substances from the appellant's factum, admittedly correct in these particular.) :-This counterclaim relates to 39,588 cubic yards of earth used to form a certain dam described in the specifications. This dam was for the purpose of inclosing after the manner of a cofferdam the space covered by water to be occupied by the new locks. The evidence shows that the dam was originally intended to be of a depth of about seven feet below the natural brd of the river ; that it was contemplated that all the material necessary for it would be obtained at McLaughlin's Point, as described in clause 12 of the specifications, and that the claimants were to be paid 50 cents per cubic yard for this material as mentioned in item 7 of the schedule of prices. After the commencement of the work, however, the then chief engineer, Mr. John Page, decided, owing to the soft nature of the material in the river bed, to increase the depth of the foundation of the dain to about 23 feet below the river bed. This decision was carried out, the result being that a great deal more of material was required for the dam. The contractors exhausted all that was to be got at McLaughlin's Point, and thereupon they were directed by the chief engineer to utilize for the dam so much of the material excavated from the lock pits and entrances thereto as would be found suitable for the purpose, and were told that they would be paid for putting it on the dam at the same rate as if they had taken it from McLaughlin's Point,-that is to say 50 cents per cubic yard, in addition to the prices mentioned in items 8 and 13 of the schedule for excavating it; it being contemplated according to the specifications and schedule that all the naterial taken for the lock pits and entrances would have been wasted in Round Bay. 39,588 cubic yards of material taken from the lock pits and entrances were found suitable for the dam and carried over and put into it insteud of being wasted in Round Bay. This was done principally in the summer and autumn of 1889 and the spring of 1890 . The evidence is meagre on the point, but so far as it goes it establishes that the expense of
removing material from the excavations to the dam was in excess of the expense of removing it to Round Bay. As will be seen later on, Mr. Page and his successor, Mr. Trudeau, allowed 50 cents per cubic yard for this excess of expense, and Mr. Schreiber, the present engineer, was willing to allow 25 cents for it.

In the estimates that were prepared in 1889 and in the spring of 1890, no allowance was made by the resident engineers for this work so far as putting the material into the dam was concerned, no formal instructions having been given them by Mr. Page; but the appellants were paid for the excavation of it under items 8 and 13 of the schedule.

Mr. Page died in July, 1890, not having included in the estimates up to that time the work in question. In September, 1890, on the contractor's application, and after investigation and inquiry, the resident engineer, Mr. Haycock, as directed by the then chief engineer, Mr. Trudeau, with the approval of the then Minister of Railways and Canals, returned it one-half in the October estimate and one-half in the November estimate for 1890 , under item 6 of the schedule of prices at 50 cts. a cubic yard-the same as the material taken from McLaughlin's Point.

These estimates were signed by the chief engineer, Mr. Trudeau, and approved of by the Minister, and the amount estimated, less proper deductions, paid over to the contractors, and from month to month thereafter, until March, 1893, the works progressed and estimates were periodically issued and the moneys certified as due thereunder, paid.

In December, 1892, Mr. Trudeau ceased to be chief engineer, and was succeeded by Mr. Collingwood Schreiber, C.E., who certified the monthly estimates for December, 1892, and February, 1893, there being none for January. After this last estimate it would seem that Mr. Schreiber caused a new examination and measurement of the work to be made and no subsequent estimate was made until September, 1893, when one was made, numbered 45, to which special reference must be made. By this examination and re-measur ment, Mr. Schreiber, having ascertained that the contractors had been paid for excavating the 39,588 cubic yards according to the prices partly of item 8 and partly of item 13 of the schedule, and also at 50 cts. a cubic yard for carrying it over and putting it into the dam, formed the opinion that they should not have been paid for it under both of these classifications, and reported that the 50 cts. a cubic yard should be taken back from them as having been improperly paid. This action of Mr. Schreiber was communicated to the contractors and resulted in the estimate No. \(4 \overline{5}\) above referred to being made, by which 25 cts. a yard was allowed to the contractors for the 39588 cubic yards as "estimated extra cost of depositing it (the material) according to order in dam" instead of the 50 cents a cubic yard which had been previously allowed and paid under the estimates for October and November, 1890.

The contractors refusing to accept the 25 cents for the 50 cents a cubic yard, the same Order in Council directed a reference to the Exchequer Court to determine whether the 50 cents had been regularly and properly allowed under the provisions of the contract, and whether even if it had not been so regularly and properly allowed the department could set up these irregularities and take advantage of them after payment, or whether these irregularities had not been thereby waived, and also whether Mr. Schreiber had the right to revise the former estimates in this respect, and reduce the price from 50 cents to 25 cents a cubic yard. The reference was in due course made to the Exchequer Court, and the case was tried upon such reference upon the examination of witnesses, but without pleadings; and we are now called upon to decide whether upon the evidence and the admissions of counsel there should be a judgment for the contractors or for the Crown.

It is, I think, to be regretted, that in the present case there are no formal pleadings. At the argument before us, upon the case as presented, it was difficult to apprehend all the points upon which the Crown might or intended to rely as a defence to the claim. For instance, the contract provided that the whole work was to be completed on or before the 15th of June, 1891, and that time was to be considered as of the essence of the contract. Did the Crown rely upon these stipulations? The contract provided (see clause 25), that before any payment could be made there should be a cer-

\section*{Auditor General's Report—Part R}
tificate that the work had been duly executed to the satisfaction of the engineer. No such certificate in terms, had ever been signed, although, without detriment to the public interest, large amounts had been paid under it. The estimate and certificate of September, 1893, had been acted upon by the department, and the contractors had obtained the moneys thereby appearing due, although no evidence appeared upon the face of the document that the Minister of Railways and Canals had approved of it and although the contract had made his approval a condition precedent to payment. Clause 25 of the contract required that there should be as a condition precedent to payment so far as the September, 1893 estimate is concerned a certificate in substantially the following form, signed by the chief engineer and countersigned by the Minister, viz.:
"I certify that the work for or on account of which the certificate is granted, viz. : for the months of February, March, April, May, June, July and August, 1893, has been duly executed to my satisfaction, and I state the value of such work computed accord ing to the contract schedule of prices to be sum of \(\$ 88,541.53\).

\section*{Chief Engineer.}
" Approved,

\section*{" Minister of Railways and Canals."}

No such certificate was ever signed, but as a substitute for it, (and as I suppose) in intended compliance with the provisions of the contract there was this document attached to a detailed statement of all work previously done under the contract:-
"I herby certify that the above estimate is correct, that the total value of work performed and materials furnished by Messrs. Murray \& Cleveland up to the 31st August, 1893 , is \(\$ 722,592.53\), and the drawback to be retained \(\$ 72,252.53\), and the net amount due \(\$ 650,340\), less previous payments."

27th September, 1893.
Progress and final estimate sheet,
Ottawa, 27th September, 1893.

Total amount certified on this contract \(\$ 722,592.53\). All previous payments to be deducted.
(Sgd.) Collingwood Schreiber, Chief Engineer.

It was manifest that a certificate of this character did not comply with the terms of clause 25 of the contract, although it was doubtless sufficient for the purposes of audit. There was no certificate, in terms, that the work had been executed to the satisfaction of the chief engineer; there was no approval by the minister of the certificate of the chief engineer; there was no specific statement in the certificate itself of the value of the work done since the issue of the last previous estimate. These and other minor objections presented themselves to us as conclusive reasons if urged, and relied on, why the contractors could not as a matter of technical law though not of natural justice maintain their action, and there being no pleadings Mr. Hogg, Q. C., the learned counsel for the Crown, was asked by members of the Court to define what apparent defences were waived, with a view of ascertaining some idea of the substantial defence of the Crown. The following is the minute of the admission of the Crown Counsel as noted by the learned Chief Justice in his note book and read to counsel and assented to by them and which admission, I think, was under the circumstances most
properly made: "Crown does not raise any purely technical formal objection that certificate does not state [show] on its face that there was no approval of Minister, and also no objection that certificate does not state work done to the satisfaction of the engineer in so many words, and further admits that certificate and estimate sufficient in form."

With this admission before us only two questions would seem to arise on this appeal. First, whether we can gather from the certificate and from the estimates to which it is attached and which estimates must be considered as forming part of it the value of the work done between 1st February and 31st August, 1893. If so, under the admission, that amount may be considered as having been certified by the engineer and approved by the Minister. In other words we will have a certificate such as I have above suggested as the proper one under clause 25 of the contract with the value of the work done in those months filled in, and thit sum, less 10 per cent will be the amount payable to the contractors.

And the second question will be:-
Assuming the certificate shows the value of the work in respect of which it is given, can the engineer in the present case go behind a previous decision either of himself or his predecessor and make the deduction which is here sought to be made?

As to the first question, the estimate we have to consider is that of 31st August, 1893, numbered 45 , and it is to that estimate that the certificate I have set out on page 9 is attached. That certificate states that the estimate is correct. If then we can gather from it the amount of work done during the months in respect to which it relates, we have a certificate under the admissions substantially as required by clause 25 of the contract. Now these estimates show that the amount of such work was \(\$ 88,541.53\). That abundantly appears from an intelligent perusal of the documents themselves as well as in a statement prepared by the Railway Department on page 82 of the case, where it is in effect admitted that the estimates show the value of the work in question to be the sum stated. All that portion of the certificate which relates to the total value of the work done and to the amount of total deduction made is no necessary part of a certificate to a monthly estimate. It may be convenient for departmental purposes; it may be accurate or inaccurate ; but it is not required under the contract ; the contractors are not bound by it, and as to them it is a mere surplusage.

The result is that so far as the certificate is concerned there has, under the admissions, been a substantial compliance with the requirements of the contract, and the contractors have shown themselves entitled to the amount so certified, less the ten per cent deduction.

The further question remains. Can the Crown give effect to the chief engineer's proposal that the contractors refund one half of the amount received by them upon the certificate of the late engineer, approved as it was by the Minister, for the 39,588 cubic yards of excavated material?

I am of opinion that it cannot. There has been a question as to the character of that work, as to its classification and its value, and that question has been determined by the then engineer Under clause 8 above set out he was made the sole judge and his decision was declared to be final This was one of these very cases for which clause 8 was intended to provide. The engineer did decide, the Minister approved and the money was paid. I do not think that in the absence of fraud a decision so come to and acted upon can be reopened or reversed by a succeeding engineer, or be regarded otherwise than as final and conclusive as between the contractors and the Crown. See the case of Jones v. Jones ( 17 L.J.Q.B. 127) where it was decided that when a certificate had been given by an architect he was functus officio and could not afterwards vary or alter it.

Apart, however, from the purely legal question the merits as disclosed in the evidence would appear to be with the contractors. There was, as already pointed out, some evidence that there had been an overcharge, but chat evidence was far more than balanced by the evidence the other way, The onus was on the Crown to prove the fact of over-payment. It has signally failed to do so, and as the case at present stands

\section*{Auditor General's Report—Part R}
it would appear that the original classification was proper and the payments made under is justly due.

In expressing this opinion I am not to be understood as holding the view that monthly estimates under this contract may not be revised. Under clause 25 the monthly measurements are not intended or expected to be exactly accurate; they are mere approximations coming as nearly as may be to the reality, but always subject to the final measurement when the work is completed and the balance due tbe contractors has to be determined.

But I am of opinion that when in such a case as the present a classification of a specified work has been made under clause 5 or 8 of the contract, and a price fixed and the money paid, such a determination is final, and in the absence of fraud cannot under this contract be reviewed either by the engineer who made it or by his successor.

One further point remains. The Crown contends that the contractors are not in any event entitled to proceed by action upon a progress estimate. A simple perusal of clause 25 which contains an unqualified covenant on the part of the Crown to pay the sum less 10 per cent thereby certified for will show that such contention is untenable.

In my opinion the appeal should be allowed with costs, including the costs of the rehearing below, and the original judgment of Mr. Justice Burbidge restored. It need only be added that had the case come before that learned Judge in the same way as it was presented to us his judgment would manifestly have been the same as ours.

The Chief Justice, and Taschereau, King and Girouard, J.J., concurred in the above judgment.

\section*{Auditor General's Report-Part R}

\section*{Re Arrears Due.-Acct. of Railways.}

\author{
Rallways and Canals Dept., Ottawa, February 22, 1896.
}

Sir,--Referring to the request contained in your letter of the 3rd of December last, I have the honour, by direction, to inclose herewith a statement of the amounts in the open accounts of the Government railways, with explanations of each item. I have, also, to state that the General Manager has reported that none of the collecting or disbursing officers on the Government roads are in arrears.

I am, sir, your obedient servant,
The Aulitor General.
JNO. H. BALDERSON, Sec.

Audit Office, Ottawa, March 21, 1896.
Sir,-I received y jur letter of February 22, inclosing a statement of the open accounts of the I. C. Ry. and the P. E. I. Ry., as on June 30 last.

These statements were not received in t:me for publication, and are not quite what were asked for. By reference to my letter of October 7 last, you will observe that I ask for a statement of arrears due on June 30th remaining unpaid when the statement is prepared. The statements furnished included all amounts due on June 3uth, whether they had since been paid or not.

It would add to the value of the return were the arrears classified under the following headings :--Departments; Railway and Forwarding Companies; Stations; Outside and other Agents; Private persons and companies, and the whole added up.

I have to inquire what action is being taken looking towards a settlement of the following amounts:-
Department of Agriculture ..... \$ 42199
Department of Militia. ..... 1,854 57
St. John St. Railway. ..... 3100
Allan Steamship Line. ..... 1,892 13
Steamship" Admiral " ..... 81622
Town of Dartmouth ..... 32,000 00
W. H. Merrill ..... 5788
Pickford \& Black ..... 13288
Polson Iron Works. ..... 27325
L. R. Harrison ..... 2,183 75
Railway Solicitors to pay A. Forbes. ..... 8218
H. Atkinson ..... 1280
James Wales ..... 11000
I am, sir, your obedient servant,The Secretary, Railways and Canals Dept.J. L. McDOUGALL, A.G.
Audit Office, Ottawa, November 19, 1896.Sir, -Referring to my letter of October 5th last, I have to remind you that thestatements of arrears due June 30th last, and yet unpaid on account of the Inter-colonial and Prince Edward Island Railways, have not yet been received. Please havethem furnished as soon as possible.

The statements furnished of arrears due June 30th, 1895, were not received in time for publication, which makes it all the more necessary to have them in time this year. Explanations given before need not be repeated.

> I am, sir, your obedient servant,

Rallways and Canals Dept., Ottawa, November 23, 1896.
- SIR,-Referring to your communication of the 19 th instant, addressed to the Secretary of the department on the above subject, I have to inform you that arrears due the Intercolonial and Prince Edward Island Railways are sent you monthly in the shape of open accounts, and that those for 30th June last were forwarded to you on the 7th August.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.R. and C.

Audit Office, Ottawa, November 24, 1896.
Sir,-II am in receipt of your letter of the 23 rd instant, stating that the arrears due on the Intercolonial and Prince Edward Island Railways are shown under the heading of "Open Accounts" on the balance sheets furnished monthly.

I have to remark that these balance sheets do not furnish the information required. They give a statement of the open accounts as they stand on the last day of the month for which they are written, and include accounts current with railway companies and others, many of which have been changed or paid since. What I need is a statement for publication, of Arrears due June 30th last and still unpaid. It would not be right to publish as in arrears many of the accounts that appear on the balance sheet of June last, and the railway authorities can readily determine which should and which should not be published.

I shall be glad to have the statement asked for in my letter of the 19th instant, as soon as possible.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDoUGall, a.g.

\section*{Re Cashier's Balances.}

\section*{Audit Office, Ottawa, March 4, 1896.}

Sir,--The daily statement furnished by your cashier invariably shows a balance carried over to the next day. The following statement shows certain items that go to make up this balance on the respective dates:-
\begin{tabular}{|c|c|c|}
\hline & July 3, 1895. & Feb. 22, 1896 \\
\hline Newfoundland Notes. & \$49 00 & \$56 00 \\
\hline Stamps. & 758 & 2444 \\
\hline O. Gold & 2103 & 4157 \\
\hline Silver. & 8100 & 5100 \\
\hline Discount & 176 & 9209 \\
\hline Cents. & 114 & 134 \\
\hline B. Silver & 570 & 570 \\
\hline Cash & 1400 & 8780 \\
\hline Checks. & 3000 & 1890 \\
\hline Short. . & 231 & 677 \\
\hline
\end{tabular}

I have to ask for explanations of these items, how they arise and how they are eventually disposed of.

The Newfoundland bills received by officers of several other departments were forwarded to the Finance Department for collection. How do you propose to realize on those held by your cashier?

I am, sir, your obedient servant,

\section*{Auditor General's Report_Part R}

General Manager's Office, Moncton, N.B., March 14, 1896.
Sir, -In answer to your letter, dated March 4th, I send you herewith a letter from Mr. Williams, treasurer, giving an explanation of the various items that go to make up the daily balance of the cashier on the 22nd of February, 1896.

If you wish any other arrangement to be made in regard to the disposal of these items than what has been the custom, as detailed by Mr. Williams, please let me know. I am, sir, your obedient servant, The Auditor General.
D. POTTINGER, Gen. Mgr.

\section*{Intercolonial Railway, Treasurer's Office, Moncton, N.B., 13th March, 1896.}

Dear Sir,--Re your D. 12804 (being the Auditor General's letter of 4th inst.,) respecting cashiers balances.

The items are explainable as follows:-
Newfoundland Notes increased from \(\$ 49\) to \(\$ 56\). The \(\$ 49\) represents the amount of Newfoundland bank notes on hand at the time they suspended payment early in December, 1894. The increase of \(\$ 7\), arises from notes inadvertently accepted in remittances from agents since that date, and not discovered by the cashier until too late to locate from which agent received.

The whole of these notes have been placed with the Bank of Montreal here to collect dividend when it may be forthcoming, probably in this present year, though the agent of the Bank of Montreal, at St. John's, states that it may not be until 1897.

Stamps.-Are postage stamps rectived from ticket agents and connecting railways in remittances for tickets and car mileage. As soon as they amount to \(\$ 20\) or \(\$ 25\) they are taken for use by this railway and a cheque issued to the cashier in payment for them.

Old Gold-Represents British gold taken by agents which the bank refuses to accept in daily deposit on account of it being slightly worn, but which when a few pounds have accumulated they will take at a small discount.

They have agreed to take the amount on hand at this date.
Silver.-This is 5 c . and 10 c . pieces accumulated by the cashier for the use of the paymaster, as latter is often unable to obtain from the bank enough small change wherewith to pay the men. This is taken off cashier's hands by the paymaster as soon as the pay roll cheques are issued early each month.

Discount.-Is the discount on cheques from U.S. Ry. connections in payment of ticket and car mileage balances. A cheque is issued from time to time to recoup the cashier this loss.

Cents are the accumulation of those which the bank does not wish to take in the daily deposit, and are worked off by the cashier in making change, etc.

British Silver.-Is British silver coins accepted at rate of 20 cents per shilling, and which the bank will accept at that rate when a quantity have accumulated. They are now taking those on hand.

Cash.-Kepresents amount cashier has been notified will be needed for advance to an employee for travelling expenses, when closing his deposit, and which is recouped by cheque promptly.

Cheques.-Are express company's money orders received in remittances which are cashed on presentation at the express agents here and included in next deposit with bank.

Short.-Is the amount lost by cashier from errors in counting, etc., and is made good by himself from time to time.

I have instructed the cashier that hereafter stamps and discount shall be cleared monthly from his balance; and the items of uncurrent gold and silver as quickly as the bank will take the amounts accumulated.

Yours truly,
D. Pottinger,

General Manager Govt. Railways.
T. WILLIAMS, Chief Acct. and Treasurer.
\(1-23 \frac{1}{2} \mathrm{R}\)

\section*{Re Agents' Remittances.}

Audit Office, Ottawa, March 14, 1896.
Sir,-A comparison of the remittances ciaimed by the agents for the 6 months to December 31st last, with those accounted for by the cashier discloses the following differences:-
\begin{tabular}{|c|c|c|c|}
\hline \multirow{2}{*}{Station.} & \multirow{2}{*}{Date.} & \multicolumn{2}{|r|}{Remittances.} \\
\hline & & Agents Return. & Cashiers Return. \\
\hline Shubenacadie & Oct. 24. & \$120 00 & 11000 \\
\hline Stellarton & " 26. & 3500 & 2900 \\
\hline Westrille. & July \({ }^{\text {20 }} 0\)-31. & 74000 & 73000 \\
\hline Londonderry & Nov. 1. & 23465 & 22465 \\
\hline Westchester . & Oct. 20. & 6300 & 5600 \\
\hline Apohaqui. & July 10. & 12178 & 10000 \\
\hline Hampton......... & Aug. 20 & 27800 & 22100 \\
\hline St. Charles Junction.
Sydney ........ .... & Dec. 10 & 12500
13100 & 9500
11100 \\
\hline Sydney & & & \\
\hline
\end{tabular}

The Halifax station freight agent claims a deposit on account of Idaho tickets, July \(6-10\), of \(\$ 247.20\). The cashier credits \(\$ 195\). on July 9 th.

Avondale. Agent claimed \(\$ 31\) September 30. Cashier does not acknowledge anything. The agent increased his balance without explanation on his next return, from \(\$ 36.09\) to \(\$ 62.11\). There still remains a difference of \(\$ 4.98\).

North Sydney Junction. The cashier accounts for \(\$ 50\), October 17, which the agent does not take credit for. The agent's returns show that the whole of his collections to that date do not amount to \(\$ 50\).

I have also to ask for explanations of the following credits claimed by the respective agents :-

Chatham Junction. Returns October 18 and 21 take credit as follows:-"By free tickets on certiticates, \(\$ 98.93\) "; tickets issued free on certificate plan, \(\$ 10.44\) ": Return of December 20 takes credit for "Ticket to Boston (sent Agent Barnaby River), \$12.70." The agent at Barnaby River has not accounted for it on his return.

Newcastle. Return December 21, takes credit as follows: "Paid Rev. F. Richard by order J. M. Lyons, \(\$ 127.15\).

The agent at Pointe du Chêne should remit daily during the period of navigation.
The agent at Quebec (T. D. S.) does not now send any returns to this office.
Agent should detail deposits or remittances for which credit is taken, giving date, and amount of each.

The agent at Trenton should make a daily deposit, and the agents at Westville, Maccan and Dalhousie, a daily remittance.

I am, sir, your obedient servant,
The Gen. Manager Govt. Railways.
J. L. McDOUGALL, A.G.

> Intercolonial Rallway, General Manager's Office,
> Moncton, April 3, 1896.

Sir,-In answer to your letter, dated March 14, with reference to agents' remittances.

I send you herewith Mr. Williams' reply, dated March 30, which gives, I believe, all the information that you asked for.

I am, sir, your obedient servant,

\title{
Auditor General's Report-Part R
}

\author{
Intercolonial Railway., Treasurer's Office, Moncton, N.B., March, 30, 1896.
}
D. Pottinger, Esq.,

General Manager Govt. Railways.
Dear Sir,- -Your D 12993 of 18th instant, (Auditor General's letter of 14th): -
Respecting the differences between the amounts claimed by station agents as having been remitted and amounts credited by cashier-

Shubenacadie, Oct. 24.-Agent's return, \(\$ 120\); cashier's return, \(\$ 110\). The difference was short remitted by agent. The amount received being credited by the cashier.

Westville, July \(20-31\)-On 22nd agent's remittance slip stated \(\$ 215\), but \(\$ 205\) only was received and credited.

Londonderry, Nov. 1st.- \(\$ 10\) difference in same manner as above.
Stellarton.-On 25th Oct, agent remitted \$35, and on 26 th \(\$ 29\), and these amounts were duly credited by cashier.

Westchester, Oct. 20th.-The agent remitted \(\$ 56\) in cash (which was receipted for by cashier) and sent in a voucher for storage refunded per authority of general manager \(\$ 7\), for which credit was allowed in the adjustment of his accounts at close of month.

Apohaqui, July 10th, in like manner remitted cash \(\$ 100\); and overcharge refund voucher \(\$ 21.78\), for which latter credit was given him at close of month.

Hampton, period ended 20th August-Remittances were \(\$ 95, \$ 54\) and \(\$ 72-\$ 221\) for which credit was given by cashier.

St. Charles Junction.-Difference \(\$ 30\) between return to Auditor General and cash sent to cashier was error of agent in making return to Auditor General.

Sydney-Agent deposited \(\$ 131\) on 20 th Dec., and \(\$ 111\) on 21 st Dec., separate deposits.

Halifax Ticket Agent was advised on 8th July, to take credit for \(\$ 195\) paid to cashier on his behalf for tickets and cash supplied on order of General Passenger Agent. He misunderstood message, and entered \(\$ 247.20\). The differènce \(\$ 52.20\) was charged to him by inaccuracy from Audit Office.

Avondale agent evidently sent off form 164 to Auditor General advising remittance \(\$ 31\) as being sent to cashier, but subsequently included the amount in \(\$ 43\), which reached cashier on 5th October. The Travelling Auditor was sent to check over the accounts as the remittance had been delayed, but he found the accounts and cash correct. This agent is an old man and seems unable to get a clear grasp of the accounts, but while it is necessary to frequently straighten out his accounts for him the cash is correct.

North Sydney Junction.-A remittance of \(\$ 50\) was received from this agent on 14th Oct., and it was this probably which was advised to Auditor General on 17 th Oct. -error in date. The station balance sheet shows revenue \(\$ 20.19\) in excess of the \(\$ 50\) remitted.

Chatham Junction.-The free tickets issued on certificates were to delegates attending the New Brunswick Sunday School convention held at Chatham. The parties having paid a full first class fare going were entitled to a return trip free on producing certificate of attendance. Ticket sent to agent, Barnaby River, was a Boston ticket sent on request of passenger leaving that station for States. The value was collected by agent Barnaby River and sent to the agent at Chatham Junction, and the transaction does not affect Barnaby River station accounts.

Newcastle.-The \(\$ 127.15\) refunded to Rev. F. Richard on order of General Passenger Agent was for unused tickets to pilgrimage, Quebec, on 15th Aug., 1895.

The station agents at Point du Chene (during navigation), Trenton, Westville, Maccan and Dalhousie have been instructed to remit or deposit daily.

Ticket Agent Shipman, Quebec, is now selling very few tickets, some months not any.

A circular will be sent to the agents directing them to enumerate on form 164 the amount of each deposit or remittance included on the form.

Yours truly,

\section*{Windsor and Annapolis Railway.}

\author{
Audit Office, Ottawa, February \(25,1896\).
}

Sir,-As requested I return herewith the letter from the Department of Justice, in reference to the claim against the Windsor and Annapolis Railway for arrears.

In view, however, of the fact that the claim of the Dominion is an honest one and that under 58 and 59 Vic., chap. 47, section 16 there is to be a commutation of a claim of the Windsor and Annapolis Railway against the Government, it appears to me advisable that the Government claim against the Railway Company should be urged as a diminution to that extent of the commutation.

I am, sir, your obedient servant,
The General Manager, Government Railways.
J. L. McDOUGALL, A.G.

\section*{Intercolonial Railway, General Managek's Office, Moncton, March 13, 1896.}

Sir,-I duly received your letter, dated February 25th, returning the letter of Mr. Newcombe, Deputy Minister of Justice, dated June 13th, 1895, giving his opinion with reference to the claim against the Windsor and Annapolis Railway for arrears, and the suggestion in your letter has been carried out, and I have sent the matter to the Railway Department at Ottawa.

I am, sir, your obedient servant
The Auditor General.
D. POTTINGER, Gen. Mgr.

Audit Office, Ottawa, March 16, 1896.
Sir,-It has been the practice for some years past to credit the receipts for June paid in July, to the following fiscal year. It would be more satisfactory that such deposits be credited to the previous year.

In the returns for the year ended June 30th last, nothing was accounted for from parlour car receipts for the months of December, 1894, January, February, March and April, 1895. The receipts for the other seven months of the year were \(\$ 998.95\). Please explain.

I have to ask for fuller returns of conductors' collections and of the business with foreign companies. The total amount from each for the month, is all the information now furnished.

I am, sir, your obedient servant,
The General Manager, Government Railways.
JOHN GORMAN for A.G.

\section*{Intercolonial Railway, General Manager's Office, Moncton, April 11, 1896.}

Sir,-In answer to your letter, dated March 16th, with reference to the Windsor Branch Railway.

I send you herewith a letter from Mr. Williams, dated March 28th, explaining with reference to the matters refered to.

The parlour cars of the Dominion Atlantic Railway were last year only run in the summer time, therefore, there will be no receipts from them in the winter.

With regard to the one-third earnings for the month of June, each year, the only reason for paying them in July is that otherwise the accounts of the Intercolonial will have to be kept open until late in July in order to enter the Intercolonial proportion, but this can be done if you wish it.

\section*{Auditor General's Report—l'art R}

With reference to the conductors' collections, please say in which of the ways mentioned by Mr. Williams you prefer this return to be prepared, and we will ask the Dominion Atlantic Railway for it.

With reference to the summary foreign railways reports, we have asked the Dominion Atlantic to furnish a duplicate of what they furnish to Mr. Williams.

I am, sir, your obedient servant,
The Auditor General.
D. POTTINGER, Gen. Manager.

\section*{Intercolonial Railway, Treasurer's Office, Moncton, March 28, 1896.}

Dear Sir,-Your D 12990 (being the Auditor General's letter of 16th instant):-
It has been customary with us to cease depositing on account of a past fiscal year by 15 th or 16 th July. The amount from Dominion Atlantic Railway, for proportion of earnings due the Windsor Branch Railway for month of June does not reach me until 28 th or 29 th July, but if the Auditor General so desires a deposit can be made of this amount as on account of June and a supplementary statement of deposit sent to Ottawa.

The parlour cars of the Dominion Atlantic Railway are taken off their trains during the winter season, hence no earnings being accounted for in December, 1894, and January to April, 1895.

With respect to the amount shown on the summary as conductors' collections, and reports from foreign railways-Will the total of each conductor's collections for the month suffice, or is a statement of each day's collections by each conductor required?

The summary of foreign railways' reports occupies about 3 pages of foolscap monthly, and I presume the Dominion Atlantic Railway would furnish a duplicate copy for the Auditor General if that is the shape in which latter requires it.
Yours truly,

\section*{T. WILLIAMS.}
D. POTTINGER, Esq., Gen. Mgr.

Audit Office, Ottawa, May 2, 1896.
Sir,-I am in receipt of your letter of the 11 th ultimo in reply to mine of March 16th, in reference to the Windsor Branch Railway.

I do not desire to suggest any change that will delay you in rendering the Intercolonial Railway accounts to this office. It did not occur to me that an entry respecting the revenue of the Windsor Branch Railway would have that effect.

I observe that the last entry credited to the revenue account of the Intercolonial Railway for \(1894-95\) was entered in the audit books, July 22. Perhaps the authorities of the Windsor Branch, if approached on the matter, might be able to hasten this particular remittance a few days.

With reference to conductors' collections, a monthly statement, similar to that furnished for the Intercolonial Railway and certified by the Auditor will be sufficient.

I note your reference to summary of foreign railway reports.

> I am, sir, your obedient servant,

The Gen. Mgr. Government Railways.
J. L. McDOUGALL, A.G.

\section*{Re Returned Drafts.}

Audit Office, Ottana, October 8, 1896.
Sir,--In the accounts of 1895-96 the following amounts have been deducted from the receipts with the words "draft returned" annexed. With the exception of the two last, these items appear to have been included in former receipts and one entry wipes
out the other. I am not able to trace when these items subsequently came to credit if they did.

With reference to the last two items, please give the date when they first came to credit.

I have to ask for explanation as to all these entries; and I would suggest when a deduction is made in the future for a draft returned, that full particulars be given.

\section*{On Account of Through Tickets}

\section*{Intercolonial Railway, General Manager's Office, Moncton, Uctober 15, 1896.}

Sir,-I received your letter dated October 8th in regard to returned drafts, and herewith beg to send a letter of explanation from Mr. Williams, the treasurer, dated October 13th.

I am, sir, your obedient servant, The Auditor General.
D. POTTINGER, Gen. Mgr.

Treasurer's Office, Moncton, October 13, 1896.
Dear Sir,-Referring to the Auditor General's letter of 8th instant, herewith re turned :-

The explanations of the returned drafts are :-

\section*{through tickets.}

Baltimore \& Ohio RR., \$25.-Draft made on this railway was returned, amount being incorrect. It was found that a ticket report from International SS. Co., \(\$ 11.50\), had been entered up to B. \& O. RR. in error. This was transferred to the proper account, leaving \(\$ 13.50\) owing, which was settled by I. C. R. report, February, 1896, 68 cts., and renittance \(\$ 12.82\) from B. \& O. RR., in May, 1896.

Chicago \& Grand Trunk Ry., \$142.22.-Draft made 30th August, 1895, was returned, as Ch. \& G. T. Ry. had contra account for tickets, \(\$ 95.45\), against I. C. R., which with remittance \(\$ 46.77\) adjusted the account.

Pittsburg \& Lake Erie RR., \(\$ 59.63\).-Draft made in error as amount had been paid in preceding August.

Richelieu \& Ontario Stm. Nav. Co., \$662.40.-Draft made 26th October, 1895, returned, and amount subsequently paid 14th November, 1895, with \(\$ 9.85\) deducted for fares in dispute.-Net, \(\$ 652.55\).

\section*{Auditor General's Report—Part R}

Canada Eastern Ry., \$129.09.-Draft credited to "through tickets" in error, the amount having been transferred from Stations Ledger to Canada Eastern Ry. account in General Lcdger-amount deducted from "through tickets" in cashbook and credited to Canada Eastern Ry. account in same month-April, 1896.

Canada Eastern Ry., \$208.66.-Ticket balances owing I. C. R. Draft returned, and at request of Canada Eastern Ry. split up into seperate drafts, viz. : 7th January, 1896, \(\$ 125.09\), and 23rd January, 1896, \(\$ 83.57\), and credited to Canada Eastern Ry. account on General Ledger, to which the amounts had been tranferred from Stations Ledger.

\section*{CAR MILÉGGE.}

New York, P. \& Ohio RR., \$1.21.-This railway is part of the Erie sy:tem, and would not honour draft. The amount at debit of N. Y. P. \& O. Ry. was transferred to debit of Erie RR. car mileage account and settled by that Company.

Del. Susq. \& Schuylkill RR., 24 cts.-Draft made 24th February, 1896, and subsequently returned, payment being made by that railway's cheque on 28th February, 1896, hence deduction of draft.

Phil. Reading \& N. E. Ry., \$2.59.-Draft made 24th February, 1896, and returned by P. R. \& N. E. RR., as contra account, 71 cts. had accrued in meantime. Cheque \(\$ 1.88\), balance, received 13th March, 1896.

Portland \& Ruchester RR., \$1.66.-Draft made 21st April, but returned as that railway pays by cheque. 6 cts. received lst May and \(\$ 1.60\) on 6th May, covering two month's mileage.

Canada Eastern Ry., \$111.44.-Draft returned to be split up into monthly amounts and credit given for contra account accrued, \(\$ 5.14\). Drafts made for \(\$ 2 \overline{7} .80, \$ 37.09\) and \(\$ 41.41\), and credited to Canada Eastern Ry. account in General Ledger to which amount had in meantime been transferred.

I note the Auditor General's remarks and will in future, when cancelling drafts by deduction, give reference to time and mode of settlement of amount for which draft was made.

\author{
Yours truly, \\ T. WILLIAMS, Chief Acct. \& Treas.
}

The General Manager Govt. Railways,

\section*{Re Cash paid to Head Offlce.}

Audit Office, Ottawa, March 4, 1896.
Sir,-I have to ask for particulars of all receipts at head office with the exception of those from railway and forwarding companies. When these receipts are in payment for old materials or goods sold, the vouchers should be certified as suggested in my letter of August 6th last. Particulars, explanations and details where called for, should be given of other receipts.

I understand you send up two officers to Montreal periodically to audit the returns of the Canadian and Dominion Express Companies. If you advise me the next time you purpose having an audit made, a few days in advance, I will send a clerk from this office to assist, and in that case possibly you may not deem it necessary to send two officers.

Please let me have a memo. of the contracts now standing with the companies having the right to sell papers and literature on the trains, and at stations, and the dates when existing contracts expire.

> I am, sir, your obedient servant,

The Gen. Manager Govt. Railways.

\section*{Re Canadian Express Co.}

\section*{Audit Office, Ottawa, May 11, 1896.}

Sir,-I learn from a report of the audit of accounts of the Canadian Express Co. recently made by your travelling auditors, at which a representative from this office was present, that the Express Company have carried on for some years past a money order business, necessitating the transmission of packages of cash which are passed free. The business done for the Western Union Telegraph Co. is also passed free.

The agreement with the Dominion Express Co., a copy of which Mr. Williams furnished to this office, and which he states is identical as to terms and conditions with the agreements of the Canadian Express Co., makes no reference to D. H. business. Possibly the money order business has been commenced since the date of the last agreement. It has to be considered that any money order business done hy the company lessens the amount done by the Post Office Department.

If no special arrangement was made with the company in respect to this class of business, it would seem to call for consideration whether that part of your business should not now receive special attention. If the time of the agreement with the company is approaching termination the matter might be arranged by an increase in the percentage; otherwise the ordinary charges might be entered up on all express parcels in connection therewith.

> I am, sir, your obedient servant,

The Gen. Manager Govt. Railways.
J. L. McDOUGALL, A.G.

\section*{Re Arrears of Hydraulic Rents, Welland Canal.}

\author{
Audit Office, Ottawa, February 26, 1896.
}

Sir,-The following lessees have not increased or lessened the amounts due by them for hydraulic rents on the Welland Canal, and nothing seems to have come to account for some years past. Presumably they have not been in possession of the properties. Please state what action has been taken or is proposed to secure payment of these amounts :
\begin{tabular}{|c|c|}

\hline Wood \& Green. . & 39020 & 55750 & 76480 & 1,045 75 \\
\hline
\end{tabular}

Please let me know if these lessees are still in possession, and if so why they are not paying the annual rental ; and what action has been taken or is proposed to secure payment.

> I am, sir, your obedient servant,

The Secretary, Railways and Canals Department.
J. L. McDOUGALL, A.G.

Railways and Canals Dept., Ottawa, May 22, 1896.
Sir,-I have the honour to forward herewith a statement furnished by the accountant of this department, which will, it is believed, afford the information asked for by you in your letter of the 26 th of February last, in this matter.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.R. \& C.

\section*{Remarks by Inspector Witton furnished by the Accountant.}

Chambers, R. Lease No. 2530.
This lease is for a site and water-power for a grist and saw-mill, Dunnville. The sawmill has not been built by the Chambers, but Mr. Chambers, who acquired the property in 1853 , built a substantial grist mill. He died in 1873 , and since that date his widow holds the lease. More modern mills have made her mill so out of date that she cannot work, rent or sell it to advantage, and she cannot pay the rent with the property idle.

Mrs. Chambers asks that abatement of the overdue account may be made, for certain expenditure made. The rent for the privilege was for many years paid punctually. Haney S. \& J. Lease No. 2531.

Lessees ask for abatement of balance charged, on ground that full O. C. abatement has not been credited. 2nd. That supply of water has been insufficient and that the rent is excessive.
Walthe, S. now Walthe, E. Lease No. 2532.
Asks abatement as in case of Lessees of No. 2531

Smith, M. A. Lease No. 2534.
Asks abatement as in case Lessees 2531, also because his mill is used only part of the year.
Haney, S. \& J. Lease No. 2536.
Ask abatement of account because they consider full abatements have not been credited, that they sustained injury from certain works prosecuted with consent of the Government near their mill, and that use of water from the feeder at Welland injures their privilege and makes it not worth the rent charged.
McDonald, A. Lease No. 2528.
For several years past the saw mill for which this is lease of water power, has not been in use more than 30 days a year. The lessee claims that the supply of water at his mill has been injured by feeding the main canal from Lake Erie and not made better. He asks abatement of balance on these grounds.
Jarvis, H. Lease No. 7131.
Some of the earth of the lot removed for Canal purposes-premises vacant.-The collector should be instructed to make no further charges, until told to do so.

\section*{Audit Office, Ottawa, June 5, 1896.}

Sir,-I wrote you February 26 th last in reference to a number of lossees of hydraulic privileges on the Welland Canal in arrears, and to the fact that, although the arrears were increasing annually, the lessees were still in possession, and asking what action had been taken or was proposed to secure payment.

I received your letter of the 22 nd ultimo., inclosing a statement of the Accountant of your Department which you believe will afford the information asked for in my letter. Upon examination of the papers inclosed with your letter, I find that they consist of tive letters dated in January and February, 1894, from lessees or their solicitors asking for their remission or reduction of the arrears due; and the remarks of Inspector Witton thereon. These remarks are merely a recapitulation of the claims made by or for the lessees and do not embrace any opinion or recommendation of the inspector, nor are they signed by him.

Though these applications were made over two years ago, no information is furnished as to what, if any, action has been taken in reference thereto.

I have also to point out that the papers furnished only refer to six cases, though my letter referred to thirteen, of which three were for small amounts it is true.

I have to ask for further information in reference thereto.

> I am, sir, your obedient servant,

The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

Audit Office, Ottiawa, July 15, 1896.
Sir,-I have to call your attention to the previous correspondence in connection with the arrears due by lessees of hydraulic privileges on the Welland Canal.

I have now to state that a clerk from this office, who recently visited the canal, informs me that many of the lessees have not paid their rent for the last 12 or 14 years, and that previous to that they had paid with more or less regularity. The collectors at the several offices, where these arrears exist, state that they have done all they could to collect the rents as they accrued, but that the lessees refused or neglected to pay and that they were powerless to make them. Had they the authority to direct the chief engineer of the canal to turn off the water from those refusing to pay, they are of opinion the large majority of the rents would have been paid.

Some of these lessees claim that they have not received the full amount of the abatements granted by the Government some years ago ; and some claim an allowance

\section*{Auditor General's Report-Part R}
for shortage in the water supply. For such reasons as the above they have, seemingly by concerted action, ceased paying their rents.

Unless there are some circumstances with which I have not become acquainted, it is extraordinary that these lessees have been allowed to occupy these privileges for so many years without paying any rent.

This state of affairs still continues and will continue till the department adopts some decisive action.

Possibly there are cases calling for some abatement owing to special causes, and it might be advisable to have these cases inquired into.

I shall be glad to hear from you at an early date. Should the present condition of these rents continue, I shall be forced to report the matter to the Treasury Board.

There is a considerable number of claims for arrears which the collectors declare are utterly useless, and steps should be taken to have them written off.

I am, sir, your obedient servant,
The Deputy Minister, Railways and Canals.
J. L. McDOUGALL, A.G.

\section*{Rallways and Canal Dept., Ottana, October 24, 1896.}

Sir-Referring to your letter of the 26th February and 5th June respectively, I send you herewith a copy of the reports of the different collectors relating to the leases mentioned in the said letters.

I am, sir, your obedient servant,
COLLINGWOOD SCHREIBER, D.M.R. \&C.

Memo. : Re letters of Auditor General, reference, 158443 and 159869. On their " return of balances due on the 30th June, 1896 and remaining unpaid on the 30th September," the different collectors report as follows, with reference to the leases mentioned in the Auditor General's letters:-
R. Chambers, Esq.-Lease No. 2530, balance \(\$ 1,650\).-" I think the estate is able to pay.-Property almost worthless." (Tipton.)

Corp. of Merritton.-Lease No. 9033, arrears \$2,680.-" Good account if pressed" (Cuffe). Rent was reduced from \(\$ 400\) to \(\$ 80\) per annum by Order in Council of December 31, 1895.
A. McDonald-lease No. 2528, arrears \(\$ 1,844.97\).-"Property worthless."-I can give no opinion as to the occupant's means of payment. (Tipton.)
S. \& J. Haney.-Lease No. 2536, arrears \$1,487.72.-"Arrears in dispute.-Good if pressed." Lease No. 2531-now Geo. Reid-arrears \(\$ 1,393.94\)-" Arrears in dis-pute-good if pressed." (Tipton).
M. A. Smith-Lease No. 2534-arrears \$2,299.50.-" Property not worth the amount. Cannot say what Mr. Smith's financial circumstances are." (Tipton).

St. Catharines \& Niagara Central Ry. Co.-Lease No. 10075, arrears \$7."Paid no attention to accounts rendered." Cuffe).

Walthe, E. \& Co.-Lease "No. 2532, arrears \$795.61.-"Arrears in dispute. Think Walthe is not able to pay." (Tipton).

R, Wood-Lease No. 2484, arrears \$1,129.45.-"I have drawn the attention of department to this account a number of times as requiring their special attention." (Clark).

All the above mentioned occupants were called upon to pay and were informed that failing to pay, the matter would be placed in hands of the law officers of the Crown to collect.-Ref. 148246.

Norris \& Neelin - Lease No. 2495-6. This lot is now occupied by Packard Electric Co. Rent is paid up to December 31st, 1895.

Corp. County of Welland.-Lease No. 78ă9-lease was canceiled by O. C. August 22, 1889-rent charged in error in this office-balance written oft.
H. Jarvis.-Lease No. 9583-cancelled by O. C, December 17, 1893.—Mill burnt in 1891 . Rent was charged up to July, 1895 at \(\$ 10\) per annum.

Ottawa, October 20, 1896
LEONARD SHANNON, Acct.

\section*{Re Arrears due for damages-Welland Canal.}
\[
\text { Audit Office, Ottawa, July 18, } 1896 .
\]

Sir,--I learn from an examination recently made by a clerk of this office, of the books of the chief engineer of the Welland Canal, that the following claims for damages yet remain unpaid :-
\begin{tabular}{|c|c|c|}
\hline Vessel. & Date. & Amount. \\
\hline Steam barge "W. A. Haskell". & July, 1889 & \$5,247 30 \\
\hline Steamer " T. D. Stimison ". ... & Sept., 1890.. & 5,509 55 \\
\hline Steamer "Arabian". & Oct., 1892. & 4,305 82 \\
\hline Barge "Alto" & '" 1893. & 1182 \\
\hline Steamer "City of Windsor" & May, 1894. & 3,581 65 \\
\hline Steamer "Sain Marshall" & June, 1894. & 4075 \\
\hline Steamer "W. B. M.", & May, 1895 & 1944
3,80488 \\
\hline  & Aug., 1895 & 3,80488
1210 \\
\hline
\end{tabular}

I have to point out that though I have written you once a year for some years past, for a statement of all arrears due your department, no return was ever made of the above items.

I understand that the claims against the steamers "Arabian" and "City of Windsor" are before the court. I have to ask for information as to the other elaims.

I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

The Deputy Minister of Railways and Canals.

Railways and Canals Dept., Ottawa, August 24, 1896.
Sir,-I have the honour to acknowledge the receipt of your letter of the 18th ultimo, and, in compliance with your request I inclose herewith a statement of damages to the Welland Canal remaining unpaid on the 31st ultimo.

I have, further to say, that the claims against the steamers "E. B. Hale," "Bannockburn" and "Cadillac " and the barges "Veronica" and Minnedosa" in this connection have been paid.

I am, sir, your obedient servant,
The Auditor General,

Auditor General's Report-Part R

Statement of Damages to Welland Canal remaining unpaid July 31, 1896.

LEONARD SHANNON, Accountant.

\section*{Audit Office, Ottawa, November 9, 1896.}

Sir,-I am in receipt of your letter of the 3rd instant inclosing certain statements of arrears due. One of these statements shows the sums due for damages to the several Canals. In reply to my letter of July 18th last in reference to the sums due for damages to the Welland Canal, you wrote on August 24th inclosing a statement with explanations in each case. In this, it was stated that the claims against the owners of the Steamers "W. A. Haskill" for \(\$ 5,347.31\), "T. D. Stimson" for \(\$ 5,509.55\), "Arabian" for \(\$ 3,828.33\), and "City of Windsor" for \(\$ 3,581.65\) had been placed in the hands of the Department of Justice. Please let me know what progress has since been made in these cases.

It was also stated that the Calvin Co. had been called on to pay the damages caused by the steamer "Jack." Have they done so, or if not, has the case been placed in the hands of the Department of Justice?

I am, sir, your obedient servant,
The Acting Deputy Minister Railways and Canals. J. L. McDOUGALI, A.G.

Rallways and Canals Dept., Ottawa, January 26, 1897.
Sir,-In reply to your letter of the 9th of November last, asking what progress has beer made towards the collection of amounts due by the owners of the undermentioned vessels for damage done to the Welland Canal, I have the honour to report as follows :-

That, on the 6th of August last, the Department of Justice wrote advising that The Ogdensburg Transit Co. had renewed their offer to pay the sum of \(\$ 2,500\), and all costs in settlement of tie claim, to which reply was made that the offer could not be accepted by the department and that proceedings should be continued to enforce payment of the amount \((\$ 5,347.31)\) of the cost of repairing the damage done by the str. "Haskell."

With regard to the claim against the owners of the str. "T. D. Stimson" ( \(\$ 5,509.55\) ), I have to say that the papers in thi \(z\) case are with the Department of Justice in order that proceedings may be taken to collect the amount due.

That all the papers in the cases against the strs. "Arabian" \((\$ 3,828.33)\) and "City of Windsor" ( \(\$ 3,581.65\) ) are with the Department of Justice, who have not yet advised that a settlement has been arrived at.

With respect to the claim against the Calvin Company for damage done by their steamer "Jack" I have to say that the Superintending Engineer of the Welland Canal has reported the cost of repairing the damage by this vessel as \(\$ 3,804.88\); that under date the 24 th of February last, the Company offered to pay the sum of \(\$ 1,250\) in full settlement of the claim, which offer the Company were informed, on the 27th of March, could not be entertained. No communication has been received since that date from the Company, nor any payment made by them in this connection.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.

\section*{\(R e\) Arrears Due for Damages.}

Railways and Canals Dept, Ottawa, August 28, 1896.
Sir,-Referring to your letter of the 18 th ultimo, I have the honour to inform you that the Superinten ing Engineer of the Quebec Canals has reported, under date the 22 nd instant, that to his knowledge the only case of damages to the works, remaining unpaid, is that caused to lock No. 12, Beauharnois Canal, by the steamer "Ocean" on the 14th of May, 1894. The expenditure in connection therewith amounted to \(\$ 1,081.39\), and a bond was given by the owners of the vessel to cover the cost of repairing the damages.

> I am, sir, your obedient servant,

The Auditor General.
COLLINGWOOD SCHREIBER, D.M.R. \& C.

\section*{Audit Office, Ottawa, November 7, 1896.}

Sir,-I have to ask for further information of the sums due for damages caused by the following steamers; and what action has been taken to recover same :-
\begin{tabular}{|c|c|}
\hline "Ocean" Beauharnois Canal & \$1,821 14 \\
\hline "Ocean" Cornwall & 4,208 79 \\
\hline "Spartan" Williamsburgh Canal & 24745 \\
\hline "Hall" Cornwall Canal. & 1,060 70 \\
\hline "Rideau Belle" Rideau Canal. & 1,007 24 \\
\hline Ottawa Transportation Co.'s Barge, Lachine Canal & 3788 \\
\hline
\end{tabular}

Has the Superintendent not the power under the law, to hold the vessel in such cases till the damage is paid? Has security been given in each case? If so please state the nature of the security.

I am, sir, your obedient servant,
The Acting Deputy Minister Railways and Canals. J. L. McDOUGALL, A.G.

\section*{Auditor General's Report-Part R}

\section*{Re Canal Revenue.}

Audit Office, Ottawa, May 15, 1896.
Sir,-It is satisfactory to notice that the declaration on the returns of the collectors has been changed as suggested in previous correspondence.

If the Number of the first and last let-passes included in each monthly report, were given, it would be of use for auditing purposes.

The returns are no doubt carefully examined in your department, compared with the let-passes and other vouchers furnished by the collector, with the tariff, and with the bank deposits. I have to request that the certificate of the examining officer as to these points may be entered on each return.

With reference to the daily and weekly returns rendered directly to this office, I have to submit the following :-

Cornwall :-
Return July 1, 1895, let-passes 18500 to 18502, \$1.45, no deposit.
Return Sept. 3, 1895, let-passes 18727 to 18732, \(\$ 11.60\), no deposit.

\section*{Beauharnois :-}

Return Sept., 7,1895 , let-passes 10174 to \(10192, \$ 101.14\). Deposit is \(\$ 100.14\)
Trent-Bobcaygeon,-
No Returns. Deposits amount to \(\$ 455.18\).
Trent-Fenelon Falls :-
No Returns. Deposits amount to \(\$ 42.43\).
Trent-Buckhorn :-
No returns covering let-passes 353 to 365 .
Welland-Dunnville:
Return short, July 1895. Deposit \$41.51.
Welland-Port Maitland :-
Only one Return furnished. Deposits \(\$ 11.82\).
Welland-Pt. Robinson :-
No Returns. No deposits.
I am, sir, your obedient servant,
The Secretary Railways and Canals Dept
J. L. McDOUGALL, A.G.

\section*{Railmays and Canals Dept., Ottawa, June 2, 1896.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 15th ultimo, re returns of canal revenue, and, in reply, I have to state that the certificate of the proper officers will be attached to the returns forwarded to this department as to the correctness of the same.

The inspector of canals revenue has been requested to instruct the different collectors of canal tolls to include in their monthly reports furnished to you the number of the first and last let-passes covered thereby.

The collectors at the several offices referred to in your letter have been instructed to furnish the information desired by you.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.R. \& C. 369

\section*{Re Refunds of Canal Tolls on Materials for the Government or for Government Works.}

Audit Office, Ottawa, April 4, 1896.
Sir,-I have to inquire under what circumstances, and for what reason the canal tolls on material for the (Yovernment or for Government works, are refunded. (See Audit Report, 1894-95, page R-174.)

Is this a general practice or only an exceptional one? Is it customary to state this concession, in the advertisements for tenders, and is it embodied in the contract?

Under what statutory authority is the refund made?
Please let me have this and any other information you have in reference to this question.

I am, sir, your obedient servant, The Secretary, Railways and Canals Dept. J. L. McDOUGALL, A.G.

\section*{Railways and Canals Dept., Ottawa, April 19, 1896.}

Sir,-In reply to your letter of the 4 th instant, I have the honour, by direction, to forward herewith a copy of an Order in Council dated the 18th of September, 1873, authorizing the passing of vessels carrying materials for the enlargement or repairs of canals free of tolls through the canals, together with a copy of an Order in Council dated the 22 nd of April, 1884, amending the above Order in Council, by authorizing the free passage of the vessel and cargo.

I am, sir, your obedient servant,
The Auditor General.
JNO. H. BALDERSON, Secretary.

\section*{Audit Office, Ottawa, April 25, 1896.}

Sir,-I am in receipt of your letter of the 19 th instant, in reply to mine of the 4th, and inclosed therein were two Orders in Council directing that all vessels owned or chartered by persons having contracts for enlargement or repairs of any canal, and employed in removing earth or carrying materials necessary for the prosecution of such works, shall be entitled to pass through such canals free of tolls upon such vessels or cargo.

You have not stated under what authority refunds of tolls have been made to Mr. Heney, the contractor for supplying wood to the Government.

> I am, sir, your obedient servant,

The Secretary Railways and Canals Dept.
J. L. McDougall, a.g.

Rallways and Canals Dept., Ottrawa, May 2, 1896.
Sir,-In reply to your letter of the 25 th instant, asking under what authority refunds of tolls have been made to Mr. John Heney, the contractor for supplying wood to the Government, I have the honour to inclose herewith a copy of an Order in Council, dated the 27th of August, 1895, authorizing the refund of the sum of \(\$ 361.41\) to Mr . Heney, being the amount of tolls paid by him on wood for the public buildings at Ottawa, between the 1st of July, 1894, and the 30th of June, 1895.

I am, sir, your obedient servant,

\title{
Re Canals Revenue. Miscellaneous Receipts.-Montreal.
}

\section*{Audit office, Ottawa, March 31, 1896.}

Sir,-The miscellaneous receipts for the 6 months to December 31st, last collected at Montreal in connection with the Jachine Canal, were as follows :-
\begin{tabular}{|c|c|}
\hline Harbour dues. & \$8,933 57 \\
\hline Wharfage. & 1,978 13 \\
\hline Dry docks (Tate's). & 91900 \\
\hline Storage. & 15951 \\
\hline Winterage & 2460 \\
\hline & 12,014 81 \\
\hline Fines.... & \\
\hline
\end{tabular}

I have to ask that the counterfoils of the receipts issued for payments on account of these dues, may be furnished regularly to this office.

Please explain the nature of the charge for Harbour Dues. I observe that the bulk of the receipts are paid by one firm, Messrs. Kingman, Brown \& Co.

Please send copies of the tariff of fees for each class of these receipts.
I am, sir, your obedient servant,
The Secretary Railways and Canals Dept.
J. L. McDOUGALL, A. G.

Railways and Canals Dept., Ottawa, April 24, 1896.
Sir,--Referring to your letter of the 31st March ultimo, I have the honour to inclose herewith a copy of a letter, dated the 15th instant, from the collector of canal tolls at Montreal, furnishing the information asked for by you.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.R. \&C.

\section*{Collector's Office, Montreal, April 15, 1896.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 11th instant, No. 100788, and the official reference No. 158926, herewith returned, which you received from the Auditor General.
\(R e\)-Canals revenue, and miscellaneous collections, received at this office, during the six months ending on 31st December, 1895, and which you were pleased to forward to me, to furnish such report as would afford the desired information to the Auditor General, to state :-
1. The collections given by the Auditor General in the said communication to you dated 31st March, 1896, are correct.
2. The official receipts issued from this office, when the said miscellaneous dues be received are in triplicate form.

The triplicate copy is given to the payor, the duplicate is forwarded to you, annexed to the deposit receipt covering such collections, and the original is kept in this office and checked by the inspector of Canals Revenue.
3. As to the explanation requested by the Auditor General relative to the nature of the charge for "Harbour Dues," I beg to state, that the new entrance by which seagoing vessels were enabled to enter into the Lachine Canal, was completed in the year 1882, and to prevent such vessels trading with the Port of Montreal entering the canal to avoid the higher dues collected in the harbour, the Government imposed the same fees on sea-going vessels which enter the canal to discharge their cargoes as would be collected if they remained and unloaded in the Montreal harbour. The only difference being that,
sea-going vessels which enter the canal pay their dues in this office, as canal revenue, and are termed "Harbour Dues" to distinguish them from other wharfage charges.
4. Messrs. Kingman, Brown \& Co. are the representatives here of the "Dominion Coal Co." who occupy Lachine Canal land, at Wellington Basin, for the storage of coal, under lease No. 11540, and have paid us during the past summer the sum of \(\$ 9,054.74\), for coal unloaded in the Lachine Canal from off their sea-going vessels.
5. Sections Nos, 21, 24, 25,28 and 32 of the Consolidated Tariff of Tolls and Canals Revenue for 1895, will supply the information desired by the Auditor General relative to the said fees, excepting the dry dock charges which were collected by me on certificates, which I forwarded to you, issued by the department of your superintending engineer here, Mr. Ernest Marceau.

I am, sir, your most obedient servant,
The Secy., Railways and Canals Dept.
JOHN O'NEIL, Collector.
Audit Office, Ottana, April 29, 1896.
Sir,--I am in receipt of your letter of April 24, inclosing one from the collector of canal tolls, Montreal, in reference to miscellaneous canal receipts at Montreal.

According to the collector's letter, the counterfoils of the receipts issued are sent to the department. I have to request that they may be forwarded regularly to this office.

Copies of the tariffs of fees asked for in my letter have not been furnished.
I am, sir, your obedient servant,
The Secretary Railways and Canals Dept.
J. L. McDOUGALL, a. \(G\).

\section*{Re Arrears Due.-St. Peter's Canal.}

Audit Office, Ottawa, November, 7, 1896.
Sir, -I have to ask for information as to the claim, returned in your statement of arrears, as due by the Bras d'Or Steamship Co. for tolls in the St. Peter's Canal from June, 1888, to September, 1891, amounting to \(\$ 3,670.80\).

Please explain why payment of these tolls was not enforced as they accrued, and what action has since been taken to secure payment.

I am, sir, your obedient servant,
The Acting Dep. Minister Rys. \& Canals.
J. L. McDOUGALL, a.g.

Railways and Canals Dept., Ottawa, November 17, 1896.
Sir,-In reply to your letter of the 7th instant, asking for information respecting arrears due by the Bras d'Or Steamship Company, for tolls on St. Peter's Canal, I have the honour to inclose a copy of a letter received by the department from its inspector, Mr. H. B. Witton, dated the 27th of February, 1894.

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.R. \& C.

\section*{Inspector's Office, Hamilton, Februay 27, 1894.}

Sir,-In addition to outstanding balances of accounts due canals revenue, I have had the honor to submit for departmental consideration, I beg to include a balance due by the Bras d'Or Steamship Co., of Nova Scotia, for tolls not paid for passage of two of their vessels, during a certain period, through St. Peter's Canal.

\section*{Auditor General's Report-Part R}

From departmental files it will be found the balance due accrued as follows:-Full tolls were paid for the company's steamers, "Marion" and "Neptune," at St. Peters, to August, 1885. Under representations of the special service rendered by these boats to the district between the straits of Canso and Sydney, an Order in Council in July, 1885, retroactively abated tariff tolls already paid for these boats in 1883-84, to \(\$ 1,000\); and commuted theirtolls for 1885 , to \(\$ 450\). for the "Marion" and \(\$ 300\). for the "Neptune." The tariff tolls already paid exceeded the amount due by abatement and commutation made ; and three refunds in all, \(\$ 1,142.77\) were made, balancing the account to end of 1885. The commuted rate granted for 1885, was reaftirmed by Order in Council for 1886, 1887 and 1888 . Nothing was however paid in 1886. In 1887 the commuted toll was paid for the "Marion," and tariff rate for the "Neptune." From June, 1888, to September, 1891, no tolls were paid for these steamers, although they made their regular trips.

Since September, 1891, full tariff tolls have been collected trip by trip.
The balance due by the Bras d'Or Co. for tolls for passage of their boats through St. Peter's Canal, according to the periods and rates given in this memo. is \(\$ 3,670.80\). From communications with the late and present managers of the company, I conclude these arrears cannot be collected in the usual way.

> I am, sir, your obedient servant, The Secretary, Railways and Canals Dept. H. B. WITTON, Insp. of Canals.

\section*{Audit Office, Ottawa, December 18, 1896.}

Sir,-I beg to inform you that I have received from the Department of Trade and Commerce an application for a payment of \(\$ 1,675.94\) to the Bras d'Or Steam Naviga. tion Company, and that in consequence of information received from your department that the company is indebted to the Government for canal tolls to the amount of \(\$ 3,670.80\), I desire to make you acquainted with their present claim against the government so that you may take the necessary steps to have the amount in question placed to the credit of canal tolls for the current fiscal year.

I am holding Mr. Parmelee's application in the meantime.

> I am, sir, your obedient servant,

The Deputy-Minister Railways and Canals.
J. L McDougall, a.g.

\section*{Audit Office, Ottawa, December 18, 1896.}

Sir,-With reference to your application of the 16th instant, for a cheque for \(\$ 1,675.94\) in favour of the Bras d'Or Steam Navigation Co., I beg to inform you that it has been reported to me by the Department of Railways and Canals that the company is indebted to the Government for canal tolls to the amount of \(\$ 3,670.80\). In view of this fact I have written the department in regard to the present claim in favour of the company so that the necessary steps may be taken to place the amount asked for to the credit of canal tolls for the current fiscal year.

In the meantime I am holding your application and the certificates sent me in support of it.

> I am, sir, your obedient servant,

Trade and Commerce Dept., Ottawa, December 28, 1896.
Sir,-Referring to your letter of the 18th in re claim made by the Department of Railways and Canals against the "Bras d'Or Steam Navigation Co."

As I advised you under date of the 21st instant I wrote to the company and an today in receipt of reply as per copy enclosed. Will you kindly instruct what further steps are to be taken in connection with the matter.

I am, sir, your obedient servant, The Auditor General. W. G. PARMELEE, Dept. Min.

Jerusalem Warenouse, Halifax, N.S., Dec. 26, 1896.
Dear Sir,-I am in receipt of your favour of 21st instant.
The claim for canal tolls which the Auditor General has brought to your notice is one which, so far as the writer's memory serves him, extends over a period of years previous to 1890 and which was settled between the then president, Mr. I. S. Maclean, now deceased, Capt. Burchell, now deceased also, and the late Minister at ()ttawa.

No claim was ever advanced by the Government each year and no charge made in the Annual Statement rendered to the shareholders, while the subsidies were regularly paid. There were extra services rendered by the company from time to time which were not charged except the claim for about \(\$ 1,600\) which was rendered for winter services between Baddeck and Grand Narrows and was not paid to the company.

If the writer remembers correctly there was a claim made for canal tolls for a period during which daily payments were made, and then the claim was abandoned.

One of the contentions made by the company was that since the SS. "Clyde," which formerly ran on same route as the steamer of the Bras D'Or Steam Navigation Company paid no dues and the mails were being carried by them, there should be no demand made for tolls. Since the alleged claim was supposed to exist, several presidents of the company have passed away, and the superintendent ; also Capt. Burchell, and the papers connected therewith are scattered about, there is, however, one thing positive in connection with it, namely, that the claim was satisfied as between the late president and the superintendent and the Minister at Ottawa, and an Order in Council should have been passed rescinding it.

The company at the present time is entirely dependent for payment of wages and other pressing liabilities upon payment of remainder of this year's subsidy and would request payment without delay. If any valid claim can be found to exist, it will be entertained by the company when particulars are rendered and examined but there is no equitable claim so far as the company know at present.

I am, sir, your obedient servant,
J. W. GORHAM,

The Deputy-Minister of Trade and Commerce.
Sec. of the Bras d'Or S.N.C.

\section*{Audit Office, Ottawa, January 9, 1897.}

Sir,-I beg to enclose herewith copy of a letter sent me by the Department of Railways and and Canals in explanation of the amount due by the Bras d'Or Steam Navigation Co. for canal tolls, and to inform you that the amount of your application of the 16th December-- \(\$ 1,675.94\)-has been credited to canal tolls for the current fiscal year.

I am, sir, your obedient servant,

\section*{Auditor General's Report - Part R}

\section*{Railways and Canals Dept., Ottawa, January 5, 1897.}

Sir,-In reply to your letter of the 29 th ultimo covering a copy of a letter addressed by the Secretary of the Bras d'Or S. N. Co. to the Deputy-Minister of Trade and Commerce relative to the claim of this department for arrears of canal tolls due by that company, I have the honour to state for your information as follows :-

Full tolls on Company's two steamers for the season of 1883, 1884, and up to August 1885 were paid by company amounting to \(\$ 2,892.78\). By an O. C. of 20th July, 1885, commutation was allowed as follows :-1883 and \(1884 \$ 500\), per annum, and for year \(1885 \$ 750\). A refund was accordingly made amounting to \(\$ 1,142.78\), making their net payments for the above period \(\$ 1,750\), and closing the account.

By O. C. of 11 th May 1886 the same commutation was allowed, but no payments were made by the company.

By O. C. of 28 th June 1887, similar commutation was made, and the company paid the sum of \(\$ 450\), for one steamer (the "Marion") but the trips of the other (the "Neptune") having been also reduced, they paid for her full rates amounting to \(\$ 116.16\).
O. C. of 21 st June 1883, authorized the same commutation of rates, but nothing was paid by the company.

In 1889, 1890 and 1891, there was no commutation authorized and the full tariff rates ware charged as follows :- \(1889 \$ 804,1890 \$ 804\), to 19 th September \(1891 \$ 553.80\), but nothing was paid by company. From the last date (19th September 1891) regular tolls have been collected on each trip.

The total amount due according to the foregoing was \(\$ 3,670.80\), from which has now to be deducted the amount transferred from the department of Trade and Commerce by the Auditor General, viz : \(\$ 1,675.94\), leaving a balance still due of \(\$ 1,994.86\).

I am, sir, your obedient servant,
The Auditor General.
COLLINGWOOD SCHREIBER, D.M.

Railways and Canals Dept., Ottana, December 31, 1896.
Sir,-I have the honour to request that you will transfer to Casual Revenue the sum of \(\$ 1,675.94\), credited to this department as stated by your letter of the 26 th instant, as part of the arrears of tolls due by the Bras d'Or Steam Navigation Company; the amount in question being revenue of previous years.

> I am, sir, your obedient servant,
> COLLINGWOOD SCHREIBER, D.M.

\section*{Audit Office, Ottawa, January 5, 1897.}

Sir,-I am in receipt of your letter of the 31st ultimo asking that the sum of \(\$ 1,675.94\) credited to your department as part of the arrears of tolls due by the Bras d'Or Stean Navigation Company should be transferred to Casual Revenue as the amount in question was revenue of previous years.

I have to inform you that it is the practice to credit any revenue that may be collected to the account to which it naturally belongs, irrespective of the time when it accrued. Take the case of Hydraulic Rents in your own department. Frequently there are collected during a fiscal year, amounts that have accrued in previous years, and these have been invariably credited to Canal Revenue.

Casual Revenue should be limited to any collections that do not come under any regular heading, and to refunds of advances, or sales of materials, that do not come to account during the year in which the expenditure occurred.

The amount now under discussion was for Canal Tolls and was credited to Canal Revenue, and I have to request that it may be so entered in your books.

I am, sir, your obedient servant,
The Deputy-Minister Railways and Canals.
J. L. McDOUGALL, A.G.

\section*{Re Arrears Due.}

Railways and Canals Dept., Ottawa, November 6, 1896.
Sir,-I am in receipt of your communication of yesterday's date acknowledging receipt of information sent you on the 3 rd instant in relation to arrears due this department, and stating that there was no reference made of arrears due by collecting or disbursing officers.

In reply I beg to say that I am informed by the accountant that all collecting officers had accounted for all collections, and all disbursing officers had accounted for all moneys given them to disburse for the year ended 30th of June, 1896.

I am, sir, your obedient servant,

\author{
The Auditor General.

\section*{Auditur General's Report-Part T}

\section*{Re Examining Warehouse Fees.}
Audit Office, Ottawa, March 23, 1896.
Sir,-According to the returns from your department for the six months to December 31, 1895, Examining Warehouse fees came to account as follows :-
\[
\begin{aligned}
& \text { Toronto...................................................... . } \$ 1,96788 \\
& \text { Montreal....................................................... . . } 94168 \\
& \text { Ottawa....................................... . . ......... } 28050 \\
& \text { Quebec..... ............... .............................. } 16705 \\
& \text { St. Johns, Que.. .............................................. . . . } 2000 \\
& \text { Charlottetown.......................................... } 356
\end{aligned}
\]

Please explain why no fees are collected at Halifax, St. John, Winnipeg and other large ports.

I wrote your department October 12, 1892, April 10, 1893, and March 19, 1894, asking for detailed statements of this and other miscellaneous receipts. On March 19, 1894, I received a reply stating that instructions would be sent to collectors to furnish detailed statements, but so far none have been received.

Your early attention is requested.
I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

Custons Dept., Ottawa, May 7, 1896.
Sir,-Replying to your letter of March 23 last, on the subject of examining warehouse fees, I have the honour to send you herewith a copy of memo. \(818 b\), which I have caused to be issued to the collectors of customs on this subject.

You will notice that the collectors are instructed to furnish, in future, all the information required by you.

With respect to your query as to why no fees are collected at Halifax, St. John, Winnipeg and other large ports, I beg to say that I have communicated with the collectors at these ports and am now in recsipt of their replies, in which they state that there are no Queen's warehouses at these places and consequently there are no fees for storage on goods.

The item " Examining warehouse fees" in the account current should be "Storage fess" as no charge is made for examining goods but only for storage on them.

I am, sir, your obedient servant,
The Auditor General.
F. E. KILVERT, Acting Com.

\section*{Re General Regulations.}

\section*{Audit Office Otrawa, March 24, 1896.}

Sir,-I have had no reply to my letter of March 22, 1895, calling your attention to the previous correspondence in reference to General Regulations,

I have again to ask for your consideration of this subject.

> I am, Sir, your obedient servant,

The Acting Commissioner of Customs.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, July 31, 1896.
Sir,-Referring to the question of general regulations in connection with the audit of Customs Revenue, I would again call your attention to my letter of June 27, 1893 and March 22, 1895.

Regulation No. 2, stated in the former letter provides that collectors, in addition to the monthly return (K-2) now made, shall render direct to this office, daily or weekly according to the amount of the receipts, a statement giving a summary of all receipts, details of minor and miscellaneous receipts, and particulars of deposits or remittances made in acquittance. One of the Audit staff who recently visited some of the ports, is of opinion that your collectors could readily furnish this statement. It should be certified as provided in Regulation No. 1 substituting the period covered for the word "month."

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Re Refunds of Revenue.}

Audit Office, Ottawa, March 24, 1896.
Sir,-The Acting Commissioner of Customs in his letter of August 1, 1894, stated that my suggestion that cheques for refunds should be made out in favour of the persons entitled to payment would be duly considered.

The practice of making out the cheque in favour of the collector is still followed, and I have again to request your consideration of the matter.

> I am, sir, your obedient servant,

The Acting Commissioner of Customs.

\author{
J. L. McDOUGALL, a.G.
}

Customs Dept., Ottawa, April 2, 1896.
Sir,-I have the honour to acknowledge the receipt of your letter of the 24th ultimo with respect to your suggestion that cheques for refunds of revenue should be made in favour of the persons entitled to payment.

I have to point out to you that this department receives about 7,000 applications for refund in each fiscal year, and if your suggestion were adopted it would be necessary to employ at least two extra clerks in the Accountant's Branch of this department, and there is no appropriation from which to pay for additional assistance.

It has not been shown that under the present system any refunds have not been paid to the proper parties; but if you require further proof of payment, other than the receipts of the parties applying for refund of over-paid duties; you might call for the production of the cheques issued by the Collectors of Customs in payment of the various refund claims.

I am, sir, your obedient servant,
The Auditor General.

> F. E. KILVERT, Acting Com.

Audit Office, Ottawa, April 9, 1896.
Sir,-I have received your letter of the 2nd instant, in reference to the question of issuing cheques for refunds in favour of the persons entitled to payment, and suggesting that I should call for the collectors' cheques.

In reply, I may state that I did so in my letter of March 7, 1894, and that it will meet the requirements of an audit if they are now furnished.

The cheques issued for salaries of the permanent staff are now furnished and it will only be necessary to add the bank statement, and the cheques which you now suggest sending.

I assume that departmental cheques, issued in payment of refunds, \&c., in connection with ports at which the collector does not keep a bank account and issue cheques, will be made out in favour of the person entitled thereto.

> I am, Sir, your obedient servant,

The Acting Commissioner of Customs.
J. L. McDOUGALL, \(A . G\).

\section*{Re Letters not Answered-Defalcations, \&c.}

Audit Office, Ottawa, March 24, 1896.
Sir,-I have to call your attention to the followiug letters to which I have had no reply:-

March 22, 1895, Re Defalcation at Barrie.
October 25̃, 1895, Re Arrears of Revenue.
Nov. 28, 1895, Re Seizures Quebec, payment to L. P. Grenier.
I am, sir, your obedient servant,
The Acting Commissioner of Customs.
J. L. McDoUgall, \(A . G\).

\section*{Customs Dept., Ottawa, April 9, 1896.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 24th ultimo calling my attention to three letters addressed to me on the 22nd March, 25th October, and 28 th November, 1895, and to which you state you have not received replies.

With reference to your letter on the subject of the defalcation at Barrie :-I beg to state that the papers in connection with this matter are now in the hands of the Department of Justice, and it is, therefore, impossible for me to furnish you with a full statement of the shortage at this out-port at the present moment, but such statement will be sent you as soon as possible.

Your letter of the 25th October last, on the subject of arrears of revenue was replied to by my letter of the 12 th February last, which you have evidently over-looked.

I am to-day replying to your letter of the 28th November, 1895, on the subject of payment to Mr. L. P. Grenier.

I am, sir, your obedient servant,

> F. E. KILVERT, Acting Com.

The Auditor General.

Custons Dept., Ottawa, February 12, 1896.
SIR,-I have the honour to acknowledge the receipt of your letter of the 25 th October last, in connection with arrears of revenue and beg to advise you that there are no arrears due by distributing officers or persons not Government officers.

The statement of arrears furnished you does not include St. Marys, N.W.T., for the reason that this place is an outport and the revenue returns from it are included in the accounts from the Yort of Lethbridge,--there are no arrears at this out-port.

With reference to the shortage at the port of Berlin, Ontario, I beg to advise you that it is not included in the statements sent you because this department was not aware as to the actual shortage at this port at the time the statements were prepared, but as the Government recovered the amount of the security from the bondsmen of the late collector at that port, a statement showing the net amount of the deficiency will be sent you.

It is not the practice of collectors of customs to charge themsel ves with the duties as the merchandise is received,- they make the charge when the duty is paid.

> I am, sir, your obedient servant,
> F. E. KILVERT, Acting Com.

The Auditor General.

Audit Office, Ottawa, August 14, 1896.
Sir,—The Acting Commissioner of Customs in his letters of February 12 and April 9 last intimated that statements would be furnished showing the net amount of the deficiencies in the accounts of the late collectors at the Ports of Barrie and Berlin.

I shall be glad to have these statements and an explanation of the circumstances under which it was possible for these collectors to continue mis-appropriating customs revenue, without its being sooner discovered.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

Customs Department, Ottawa, September 12, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 14 ultimo on the subject of defalcations by the late collectors at the Outport of Barrie and Port of Berlin, and now enclose you statement showing net amounts of the deficiencies in accounts at these ports.

With respect to your request for an explanation in regard to the circumstances under which it was possible for these collectors to continue misappropriating customs revenue without its being sooner discovered, I have the honour to call your attention to the fact that Mr. T. C. Mewburn, Inspector of Customs for the Province of Ontario died in the month of March, 1892, and that his successor in office, Mr. Boulthee,-was not appointed until 20th December, 1893,-and further that the territory to be covered by this inspector, viz. from Kingston in the east to Port Arthur in the west is so large that it is impossible for one inspector to make a proper inspection of each port and outport at desirable periods.

I regret that I am unable to furnish you with details of these deficiencies, as all the papers in connection with the defalcations are in the hands of the agents of the Department of Justice.

I have the honour to be, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

Customs, Canada, Toronto, September 11, 1896.
Sir,-Replying to your letter of the 10th inst., re defalcation at the outport of Barrie, Ont., I have the honour to inform you that the gross amount of such defalcation was \(\$ 2,755.44\). From this should be deducted the sum of \(\$ 225\) obtained by me from the late sub-collector on account of same, leaving the net amount of defalcation \(\$ 2,530.44\).

The whole of the above shortage was in collections on acsount of customs import duties, the returns for other revenues of the outport having been correctly made.

I am, sir, your obedient servant,
The Accountant Customs Dept.
S. W. McMICHAEL, Chief Insp.

\footnotetext{
The amount of defalcations at the port of Berlin, Ont., ascertained during the fiscal year ended 30th June, 1896, is \(\$ 8,708.42\).
}

\section*{Re Payment of Long-standing Accounts.}

\section*{Customs Dept., Ottawa, April 9, 1896.}

Sir,-I have the honour to acknowledge the receipt of your letter of the 28 th November, last, with reference to payment of \(\$ 181.60\) to Mr. L. P. Grenier for services as stenographer in January and February, 1890, in connection with the prosecution of whiskey smugglers at Quebec.

With regard to your question as to why payment of this account was so long delayed, I have the bonour to inform you that the first intimation this department had of the existence of such an account was contained in the letter of the Deputy Minister of Justice dated 23rd November, 1894, in which he asked that the accounts of Mr. Cornellier for professional services in this case be sent him, as Mr. Grenier had rendered a bill for services as stenographer.

Upon receipt of this letter the present accountant wrote one of your oficials for the return of the vouchers covering Mr. Cornellier's expenses, and these vouchers were duly forwarded to the then acting commissioner as will be seen by your letter of the 26th November, 1894.

After a careful scrutiny of Mr. Cornellier's accounts it was found that Mr. Grenier had not been paid, and payment was therefore made after such account was duly certified to by Mr. Cornellier.

I do not see anything in the Audit Act or any Order in Council which provides that the accountant should certify that the account has not been previously paid, nor do I see that it is necessary to obtain the authority of an Order in Council for payment.

I am, sir, your obedient servant,
The Auditor General.

\author{
F. E. KILVERT, Acting Com.
}

\section*{Audit Office, Ottawa, May 8, 1896.}

Sir,- - I am in receipt of your letter of the 9 th ultimo in reference to the payment of the account of L. P. Grenier for services as stenographer in January and February 1890, which was not paid till June 1895.

I have to point out that neither Mr. Grenier's affidavit nor Mr. Cornellier's certificate states that payment had not been previously made, nor gave any reasons or explanation why it was not paid when the work was performed.

With reference to the accountant certifying that the account has not been previously paid, I have to refer you to section 33, chapter 29, R. S., (Audit) Act. This section provides for the certificate of the officer under whose special charge the work was performed, in addition to any other voucher or certificate which is required in that behalf. It is of the first importance that an account should not be twice paid, and it is the duty of every accountant to keep that point constantly in mind even when dealing with current transactions. But it becomes much more important when an account of four or five years standing is presented for payment. You seem to have realized this, as your letter states that after a careful scrutiny, it was found that this account had not been paid. Why is there any objection then to certify the account accordingly?

The necessity of obtaining the authority of an Order in council before paying accounts outstanding for some years, has been the general practice of the departments. In several cases it has been deemed proper to have a special appropriation of Parliament for such cases. The mere fact that an account has not been presented for years is prima facie ample reason to cast doubt on such account, and every safeguard should be taken to protect the interest of the Government in this connection.

I am, sir, your obedient servant,

Custons Dept., Ottana, August 6, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 8th May last on the subject of payment to L. Y. Grenier for services as stenographer in January and February, 1890, and which account was not paid until June, 1895.

It is quite true that section 33 of the Audit Act provides for a certificate from the officer under whose charge the work was performed, in addition to any other voucher or certificate which is required in that behalf, but there is nothing in this section to indicate that the accountant of the department should certify that the account had not previously been paid, nor is any such regulation shown in the executive regulations governing expenditure as printed and distributed by your department.

Having now been notified that such a certiticate is necessary in accounts of this nature, the same will be supplied in future.

As it is stated by you that it is the practice of the departments to obtain the authority of an Order in Council before paying accounts outstanding for some years, although not provided for in law, this practice will be followed by the department in future.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comn'r.

\section*{Re Customs Neizures Special Branch.}

Audit Office, Otrawa, June 5, 1896.
Sir,-It seems to be the practice of the Chief Inspector to make a deposit at the beginning of each month of the receipts from seizures during the preceding month. This deposit frequently amounts to several thousand dollars. Is there any reason why he should not deposit from time to time as he receives the money, as your collectors, do and as is required by the Treasury Regulations?

No statement nor vouchers of the sales of seized goods have reached this office. A statement in each case should be furnished, giving full details, certified by the officer under whose direction the sale has been conducted, and with vouchers for any expenses. * * *
* *
,
The Commissioner of Customs.
\[
\text { J. L. McDOUGALL, } A . G \text {. }
\]

Custons Department, Ottawa, July 21, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 5th ultimo, on the subject of deposits made by the Chief Inspector of Customs on account of seizures revenue.

The Chief Inspector states that his practice has been to make deposits of moneys received by him on seizure account before the end of each current month although it has occasionally happened that such deposits have been made a day or two after the end of the month.

He further states that as he has not authorized any of the officers of his branch to sign or endorse cheques, and as the duties of his position render it necessary for him to be absent from Toronto at frequent intervals and sometimes for extended periods, it has not been practicable to deposit moneys received on seizure account as soon as they reach his office, but he has always endeavoured to be in Toronto about the end of each month in order that deposits might then be made.
* \(*\) *

I am, sir, your obedient servant,

\title{
Re Customs Seizures.-Special Branch.
}

\section*{Audit Office, Ottawa, September 4, 1896.}

Sir,--The return K-6 special branch for the June quarter 1896, reached this office a few days ago.

I inclose a list of 30 seizures that have been dropped from the returns without any explanation ; of 12 seizures in which the decisions (of the controller I assume) have not been complied with; of 18 seizures in which the decision has not been enforced; of 5 seizures in hands of Justice Department ; of 12 seizures the goods held yet unsold; and of 18 seizures entered as "Not decided" or "Not settled".

There is also seizure No. 794, July 11, 1894, tug "Morning Star", to which the explanation given is that the tug was stolen and the case is unsettled.

I have to ask for information as to the circumstances that stood in the way of finally disposing of such of these cases as are not of recent date; and what action is now being taken with that purpose.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDougall, A.G.

Customs Dept., Ottawa, November 21, 1896.
Sir,-Referring to your letter of 4th September last on the subject of special branch seizures ;

I have the honour to inclose you herewith statement, received to-day from the chief inspector, containing the explanations required by you.

I am, sir, your obedient servant, The Auditor General.

\author{
JOHN MCDOUGALD, Comm'r.
}

Audit Office, Ottawa, November 27, 1896,
Sir,-I am in receipt of your letter of the 21 st instant, inclosing a statement received that day from the chief inspector, with explanations as to seizures.

I have to ask that in future when a seizure is removed a statement of the fact with an explanation be given, and that all decisions of the controller affecting such be furnished.

The chief inspector accounts for the non-disposal of a large number of the seizures yet on the returns by stating that no decision has been given by the department, and for others that they are awaiting further action of the department. You have not given any explanation of the delay of the department in dealing with these cases, nor any intimation of what you purpose doing in reference thereto.

I shall be glad to hear from you further on the question.
I am, sir, your obedient servant,
The Commissioner of Customs. J. L. McDOUGALL, A.G.

\section*{Customs Depart., Otrawa, January 20, 1897.}

Sir,--In reply to your letter of the 27 th November last, asking for further explanation respecting certain special branch seizures mentioned in the report of the Chief Inspector of Customs of date 20th November, 1896,--I beg leave to report as follows :-

Seizures Nos. 103, 105, 341 and \(586:-\) No property seized and proceedings abandoned.

Seizure No. 843 :-No property seized and proceedings abandoned for want of evidence.

Seizure No. 901 :-This seizure was also reported from the Port of St. Stephen, N.B. \(\$ 250\) was deposited, which by the decision was declared forfeited.

Seizure No. 1003 .-No property. Party agreed to deposit \(\$ 486.20\) but has not yet done so ; still trying to collect.

Seizure No. 401 :-Liquor seized was condemned and sold for \(\$ 195.50\). No further penalties collected.

Seizure No. 416 :-Deposit forfeited, but only \(\$ 100\) deposited, the balance \(\$ 146.60\) has not been deposited as promised, Party reported unable to pay and no further proceedings taken.

Seizure No. 1079 :-No property seized. Party ordered to pay \(\$ 28\), but amount is not yet collected.

I am, sir, your obedient servant,
JOHN McDOUGALD, Comm'r.
The Auditor General.

\section*{Re Customs Seizures.-Seizure No. 696 Special Branch.}

Audit Office, Ottawa, July 20, 1896.
Sir,-Cheque No. 40580 was issued December 3, 1895, in favour of White, Duclos, O'Halloran \& Buchanan, for \(\$ 1000\), and the only voucher furnished is a summarized statement from that firm worded as follows :-

> March 20,1895 . Services between May 9,1894 , and this date as per details annexed........................... \(\$ 60000\)
> June 23 —Sept. 16, 1894 . Expenses on trip to Europe.... 40000

I have to ask for a detailed statement of those sums, and the usual certificate of the Department of Justice.

There is also a payment of \(\$ 158.76\) made by Mr. McMichael for disbursements in connection with this seizure.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

Customs Department, Ottawa, October 3, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of the 20th July last, asking for detailed statement in connection with professional services of Messrs. White, Duclos, O'Halloran \& Buchanan, of Montreal, in the case of seizure No. 696 of the special branch series.

I inclose you herewith detailed account as requested, to which is attached certificate of the Deputy Minister of Justice.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Audit Office, Ottawa, October 6, 1896.}

Sir,-I am in receipt of your letter of the 3 rd instant with inclosures, in reply to my letter of July 20th last, asking for a detailed statement of the account of White, \(\overline{\text { D }}\) uclos, O'Halloran \& Buchanan, paid by your cheque of \(\$ 1,000\), date December 3rd, 1895.

You now inclose a statement detailing the services performed, but without having any charge set opposite each item, and without even a total of the amount claimed. A certificate of the Deputy Minister of Justice, dated October 1, 1896, is also furnished in which appears the following: "I gather from the details of the account that Mr. White was employed from 23rd June to 16th September upon this mission, in view of this the account appears to me to be reasonable."

The only information or details of the trip to Europe for which \(\$ 400\) is charged and which you paid, is the following: "June 23 to Sept. 16, 1894. To paid ticket to Liverpool and return, travelling and living expenses on continent."

\section*{Auditor General's Report-Part T}

I have to inform you that these vouchers are altogether inadequate and unsatisfactory, and I am returning them herewith. The charge for each item of the legal account should be entered and full details given of the travelling expenses.

I have also to inquire how you arrived at the amount for which a cheque was issued in December, 1895, as all the papers now furnished.are dated October, 1896.

Please explain how you came to make a payment for legal expenses without the certificate of the Department of Justice.

I am, sir, your obedient servant, The Commissioner of Customs.
J. L. McDOUGALL, A.g.

Customs Dept., Otrawa, October 20, 1896.
Sir,-I have the honour to acknowlenge the receipt of your letter of the 6th instint, in further reference to the payment of \(\$ 1,000\) on 3rd December last to Messrs. White, Duclos, O'Halloran \& Buchanan, advocates, Montreal, for professional services in the case of seizure No. 696 of the special branch series.

With respect to your request for a charge to be entered for each item of the legal account, and for full details of the travelling expenses, I beg to say that the parties were written to for these particulars, and Mr. O'Halloran, one of the members of the firm, came up to Ottawa and stated that the account was made in the usual form in which they prepared legal accounts for their clients.

The account was paid before my appointment as commissioner, but I am informed that the firm placed their charge at the sum of \(\$ 1,000\), and such sum was considered by the then controller and the acting commissioner to be a fair and reasonable charge for the services rendered. The payment was made during the absence of the accountant on his annual leave, and it evidently did not occur to the then acting commissioner that the account should have been taxed by the Department of Justice before being paid. A certificate, however, was obtained afterwards.

The date, 23 rd October, 1896, on one of the papers, is obviously written in error for 23 rd October, 1895, as the other paper attached to it bears the latter date.

Mr. White has been asked to furnish further details as requested-which will be sent you when received.

The Auditor General.

\section*{I am, sir, your obedient servant,}

JOHN McDOUGALD, Comm'r.

\section*{Re Customs seizures-Montreal.}

\section*{Audit Office, Ottawa, June 16, 1896.}

Sir,-I inclose herewith three statements in connection with customs seizures, port of Montreal. Statement No. 1 is a list of seizures that seem to have been dropped from the returns without any explanation. Statement No. 2 is a list of seizures on which no decision has been rendered by the department; and of seizures in which the decision has not been complied with.

Statement No. 3 is a list of seizures the goods held under which have been forfeited and are to be sold.

I have to ask for the necessary explanations called for by each of these statements.
Is there any reason why all the goods forfeited should not be sold forthwith?
Please let me know when the proceeds of seizures Nos. 875 and 900 appear on your revenue return to the Receiver General. These items are entered on the March return as having been deposited February 12th, 1896.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.g.

Customs Deft., Ottawa, August 15, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 16 th June last, on the subject of seizures at the Port of Montreal, and have now the honour to inclose you herewith copy of a memorandum received from the collector at that port containing the explanation required by you.

There is no reason why goods forfeited should not be sold as soon as possible after the forfeiture has been accomplished, and the collector at Montreal states that action is being taken so that the return for the current quarter may dispose of every seizure that can be realized upon and carried to account.

The proceeds of seizures No. 875 and 900 were deposited to credit of Receiver General on 14th February last, and should appear on the account current for the month of February.

I am, sir, your obedient servant,
The Auditor General.

> JOHN McDOUGALD, Comm'r.
\[
\text { Customs House, Montreal, July 20, } 1896 .
\]

The following information in reference to customs seizures at this port is submitted in accordance with letter from the Auditor General.

1st. "Seizures dropped from return K- 6 without explanation."
Nos. 650, 741, 742, 743, 750, 751, 788, 801, 813, 819, 830, 8.52 and 893 were released upon the departmental decisions in connection therewith being carried out by the payment of duty, and a penalty under section 8 of the Act where exacted.

Goods comprised in seizures Nos. 807 and 842 were duly re-exported, as also were goods in No. 868, in connection with which a penalty of \(\$ 100\) was paid to the Hon. the Receiver General on January 9th, 1896.

Seizures 757, 758 and 797 were released unconditionally in accordance with decisions therein.

Nos. 863 and 874 were disposed of, and the net proceods paid to the credit of the Hon. the Receiver General on January 14th, 1895, and March 25 th, 1895, respectively. Goods covered by No. 869 were forfeited and destroyed. No. 763 was written off. Harkins, the person from whom these goods were seized, was arrested on the charge of having stolen the same, and the goods were taken possession of by the police authorities. Harkins was acquitted and the goods delivered to him in error by the magistrate. This was the last seen of the man or the goods.

Nos. 779 and 809 should not have been dropped from the return, and will be re-inserted in the current quarter. The terms of the decisions in these seizures have never beeh carried out, and the goods are still in the possession of the Crown at the examining warehouse.

2nd. "vo decision."
No decision has been rendered in connection with any of these seizures as far as can be ascertained from the records at this port. There is no trace of the caps covered by . seizure No. 233, while the locks comprised in Nos. 246 and 247 were not entered from the bank's vaults at the time of seizure. The goods covered by No. 460 are still in the examining warehouse.

No. 736 covered invoices and moneys in the hands of a curator.
"decisions not complied with."
Decisions rendered in seizures Nos. 618, 638, 639, 695, 781, 783 and 899 have not been complied with, and the Government has taken no further action in the matter. The gouds are not in the possession of the Crown.

Goods comprised in Nos. 712 and 795 are still in the examining warehouse.
No. 766 has been brought to court and is still pending.
Nos. 902 and 904 hive been finally settled and will be accounted for in K-6 return for current quarter.

3rd. "goods forfeited and to be sold."
Goods in seizures 656, 657, 748, 784, 803, 814, 820, 822, 823, 829, 832, 835, 862 \(871,876,878,884,889,890,898,906,936,937\) and 946 were disposed of at the recent sale and will be accounted for in the current quarter. Articles covered by Nos. 749 ( 4 doz. hose) and 775 ( 3 doz. gloves), being damaged, were unsaleable and destroyed. Brushes seized under Nos. 839 ( 10 cases brushes) and 840 ( \(15 \frac{1}{2}\) grosses shoe brushes) are

\section*{Auditor General's Report-Part T}
still in the examining warehouse and, being the product of prison labour, will be destroyed. The barrel of coal oil covered by No. 831, (seized at outport of St. Regis) cannot be traced at present, but it will be looked up.

The goods covered by Nos. 645, 666, 786, 841. 860, 873, 879, 882, 892, 894, 896, 901 and 909 are in the auctioneer's. hands, and will be sold at an early date and accounted for in the current quarter.

\author{
Sgd. Win. J. McKENNA, Book-keeper.
}

\section*{Acdit Office, Ottawa, August 21, 1896.}
\(\mathrm{S}_{\text {IR, -I }}\) am in receipt of your letter of the 15 th instant inclosing a memo you received from the collector with explanations as to certain seizures about which I wrote you on June 16th last.

You state that the proceeds of seizures Nos. 875 and 900 were deposited February 14th last. Return K-2 for February contains receipts from three seizures, viz. : No. 875, \(\$ 59.45\); No. \(900, \$ 8.75\); and No. \(888, \$ 200\). The item of \(\$ 200\) came to account on your Revenue Return No. 190, but I do not find that the other items have been accounted for.

It is stated on the memo that \(\$ 100\) was paid to the Receiver General, January 9, 1896, in connection with seizure No. 868. Please say when this amount came to account.

No information is given as to further action in reference to seizures of two timelocks, Nos. 246 and 267.

The decisions rendered in seizures Nos. 618, 638, 639, 695, 781, 783 and 899 have not been complied with, and as yet, no further action has been taken. You do not state the intentions of the department as to these seizures.

Four doz. hose were seized July 30, 1892 (No. 749) and three doz. gloves, December 28, 1892 No. 775 . The memo. states that these goods, being damaged, were unsaleable and were destroyed. It is not stated that these goods were damaged when seized. Certificate of the ofticer in charge of the examining warehouse, approved by the collector or deputy-collector, should be furnished, covering the following points: when and how the goods became damaged; that they had been offered for sale without effect; that they were destroyed, by whom and how.

Ten cases of brushes and fifteen and one-half gross of shoe brushes (Nos. 839 and 840) being the product of prison labour, will, it is stated be destroyed. Further explanations are needed in connection with these goods. Has it been decided that all goods, the product of foreign prison labour, shall be destroyed? If so, please let me know on what authority.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Custons Dept., Ottawa, December 3, 1896.}

Sir,-I beg to acknowledge the receipt of your letter of the 21st August last on the subject of seizures at the Port of Montreal, and I now inclose you a copy of the memorandum in relation thereto received from the collector of customs at Montreal, together with a memo. from Mr. Bleakney of this department, in explanation of the deposit in connection with seizures Nos. 868, 875 and 900.

With reference to the question relating to goods the product of foreign prison labour ; I beg to state that the law (Section 6 Customs Tariff Act) leaves no option with this department, but says " they shall be destroyed."

I am, sir, your obedient servant.

Dear Sir,-_Re seizure Nंo. 749 for a package of hose supporters, I beg to report that the rubber part of the goods in question had become rotten through age and unsaleable. They were offered for sale at public auction without effect and subsequently destroyed by the officer in charge of the warehouse bond.

Yours respectfully,
FDWARD TIGHE, Ex. Warehouse Keeper.
The Collector, Montreal.

Montreal, November 30, 1896.
Dear Sir,-I beg to return, herewith, file No. 24,470, relating to the position of seizures at this port as enquired for by the Auditor General. I have attached to the file a further report of Mr. McKenna, book-keeper of the port, which answers the queries of the Auditor's Department, and shows a considerable progress to have been made in writing off the seizures in arrears.

Yours truly,
The Commissioner of Customs.

\author{
R. S. WHITE, Collector.
}

Montreal, November 30, 1896.
Dear Sir,-Referring to the letter from the Auditor General, dated August 21st, 1896, I beg to report:

The net proceeds of the seizures Nos. 875 and \(900, \$ 59.45\) and \(\$ 8.75\), respectively, were paid to the credit of the Hon. Receiver General on February 14th last, as previously stated. One hundred dollars is also deposited on account of seizure No. 868 on January 9th, 1896.

The goods covered by seizure No. 749 have been destroyed, being unsaleable, as per certificate from the examining warehouse keeper attached. The goods comprised in No. 775, although put up at auction and receiving no bid, were not destroyed as previously reported but will be offered again at the next sale which takes place early in December.

The brushes covered by No. 839 and 840 are still in the possession of the Crown at the examining warehouse. The statement that they would be destroyed was made on the strength of an instruction issued by the department under the provisions of the Tariff Act, which precludes the importation of goods wholly or in part the product of prison labour.

Since my last report in the matter of outstanding seizures quite a number have been disposed of. The following particulars cover all the seizures referred to by the Auditor General.

Disposed of by public auction and the proceeds paid to the Hon. the Receiver General on August 31st, 1896 :

Nos. \(645,656,657,748,784,786,803,814,820,822,823,832,829,835,841,860\), \(862,871,873,876,878,879,882,884,889,890,892,894,896,898,901,906,909,936\), 937 and 946 .

No. 618 has been disposed of by the department, and the distribution sheet covering the same issued.--Departmental cheque No. 43,761.

No. 902 was disposed of under terms of moderated decision and the net proceeds were paid to the Hon. Receiver General on August 31st, 1896.

No. 904 was disposed of per entry No. 39,012, July 1896, and No. 749 by the goods being destroyed (as per certificate).

The goods covered by the following seizures will be sold at next sale : Nos. 460 \(666,712,775,795,809\) and 850.

\section*{Auditor General's Report-Part T}

After writing off the above mentioned seizures from the statements prepared by the Auditor General's Department the following will remain undisposed of :-

In which no decision has been rendered, No. 233, 246, 247 and 736 . In which the decision given has not been complied with, Nos. 638, 639, 695, 766, 781, 783 and 899. In none of these cases has the Government possession of these goods or their equivalent.

The barrel of coal oil, seizure No. 831, at outport of St. Regis has not yet been placed.
In addition to these there are several old seizures not covered by the Auditor General's inquiry which I regularly reported on our K-6 return as " not disposed of". They are Nos. 13, 32, 82, 107, 108, 109, 113, 117, 150, 187, 233, 243, 432, and 569. I would suggest that authority be asked to write them off.

Your obedient servant,
The Collector, Montreal.
W. J. McKENNA, Book-keeper.

Customs Dept., Ottawa, December 3, 1896.
Sir,--In reference to the Auditor General's enquiries of the 21st of August last as to the dates at which the net proceeds of seizures 868,875 and 900 were carried to account, I have to state that, \(\$ 100\), on account of seizure No. 868 went to account on Customs Revenne Statement No. 152 which was sent to the Finance Department on the 10th January, 1895.

With regard to Nos. 875 and \(900 ; \$ 59.45\) and \(\$ 8.75\) respectively : these amounts were properly credited in the books of this department on the 14th February, 1896, but were erroneously entered on the statement (No. 185) sent to the Finance Department as "Steamboat Inspection Revenue."

I may say that I was not, at that time, in the department and could not know of this error until I came to compare accounts with the Finance Department at the end of the fiscal year, when the matter was made right by a supplementary transfer entry, dated 17 th October, 1896.

I think all the other matters referred to in the Auditor General's letter are explained in Mr. McKenna's report attached, with the exception of the last in which he enquires whether it has been decided "that all goods the product of foreign prison labour shall be destroyed and if so under what authority".

The authority under which these goods must be destroyed is section 6, Customs Tariff Act.

Respectfully submitted,
The Commissioner of Customs.

\author{
A. C. BLEAKNEY.
}

\section*{Re Customs Seizures-Quebec.}

Audit Office, Ottawa, June 17, 1896.
Sir,-I have to call your attention to the inclosed list of seizu res undisposed of, port of Quebec, compiled from the Return K-6.

I shall be glad to learn what action has been taken or is proposed, with the view of disposing of these seizures.

The Commissioner of Customs.
I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

Customs Dept., Ottawa, July 15, 1896.
Sir,-I have the honor to acknowledge receipt of your letter of 17 th ultimo, enclosing a list of undisposed seizures at the port of Quebec and asking what action has been taken in regard to disposing of these cases.

Seizures Nos. 290 and 308 were released ; seizure No. 348 was released on payment of duty ; seizure No. 364 was released and seizures Nos. 358 and 359 were transferred to the special branch account and are Nos. 1000 and 1001 of that series.

Seizure No. 112 was cancelled and written off on 12th October, 1889, and the two parlor cars were exported to the United States.

The collector at Quebec has been written to in regard to this case and will have his return K-6 amended.

The vessels seized re seizures Nos. 310, 311 and 313 were forfeited by departmental decision dated 26th July, 1895, but I am informed by the collector at Quebec that the vessels were not delivered to him as reported at the time.

This remark also applies to seizure No. 312, but no decision has been rendered in this case.

No decision has been rendered in the cases of seizures Nos. 367 and 369, but they will be disposed of in the near future.

The collector at Quebec did not receive notices of the forfeiture of the goods in the cases of seizures Nos. 347, 361, 363 and 365 until just before the last auction sale, and they could not be included in that sale,--they will, however, be offered for sale at the next auction.
\(R e\) Seizure No. 324,-the collector advises me that the owner declines to pay duty, and the penalty and the goods will therefore be offered for sale at the first opportunity.
\(R e\) Seizure No. 349,-it appears that there has been a difference of opinion between the owner and the appraiser as to the amount to be paid in this case. The party is at present on a trip to England, and the amount will be settled on his return during the present month, or sooner, if the collector is able to effect a settlement with his agent.

I am, sir, your obedient servant,
JOHN McDJUGALD, Comm'r.

\section*{Re Customs Seizures-Port of Winnipeg.}

\section*{Audit Office, Ottrawa, August 4, 1896.}

Sir,--Return K-6 for Port of Winnipeg for the March quarter of 1895, has not come to hand. I would like to have it.

The following seizures have been dropped from the return of this port without any explanation :-Nos. \(254,265,283,284,287,293,299,304,305,306,307,312,313\), 314, 320, 321, 322, 323, 326, 330, 333, 336, 345, 366.

I have to request that collectors be instructed to enter on the return K-6 the final disposition of every seizure.

> I am, sir, your obedient servant,

The Commissioner of Customs.

\author{
J. L. McDOUGALL, A.g.
}

\section*{Customs Department, Ottana, August 15, 1896.}

Sir,-I have the honour to acknowledge receipt of your letter of the 4th instant, on the subject of various seizures at the port of Winnipeg, and inclose you herewith the return K.6 for the March quarter 1895, which it appears was not forwarded you with the other returns for that quarter.

I have the honour to submit the following explanations in reference to seizures dropped from the returns of this port.

Seizure No. 254 was released upon payment of duty and expenses,-the duty being paid by entry No. 11941 of 22 nd March, 1892, the amount of same being \(\$ 20\), and the expenses for keep of the animal, \(\$ 10\) being also paid by the party from whom seizure was made.

Seizure No. 265, released upon payment of duty,—duty paid September 6th, 1893, by entry No. 3487.

\section*{Auditor General's Report-Part ' I}

No. 287, released on payment of duty,-duty paid March 18th, 1893, entry No. 11634.

No. 299, released upon payment of duty,-duty paid April 18th, 1893, entry No. 13095.

No. 314, released upon payment of duty, -duty paid September 28th, 1893, entry No. 4244.

No. 330, released upon payment of duty,-duty paid July 12th, 1894, entry No. 388.

No. 336, released on payment of duty,--duty paid November 29th, 1893, entry No. 7,236 .

No. 333, released on payment of duty.
Seizures Nos. 283,284 and 322 were cancelled, and No. 321 was discharged.
Seizures Nos. 313 and 345 were released unconditionally.
Seizures Nos. \(293,305,306,307\) and 323 ,-the books seized were forfeited and ordered to be destroyed.

Seizure No. 304 was transferred from the Port of Winnipeg to Mr. Inspector Young's series, and is seizure No. 1 of that series.

Seizure No. 312,-no decision has been rendered in this case.
No. 320 ,-this number was skipped by mistake and there is no report for same.
No. 365 not 366 as shown in your statement,-this number was omitted and there is no report for it.

No. 326 ,-the pony was forfeited and sold for \(\$ 13\),-the expenses of seizures amounted to the sum realized.

I am, sir, your obedient servant, JOHN McDOUGALD, Comm'r.
The Auditor General.

\author{
Re Customs Seizures.-Woodstock, N.B.
}

Audit Office, Ottawa, July 18, 1896.
Sir,-I am returning voucher No. 240, Port of Woodstock, N.B., \(\$ 60\).
The decision in this case, according to your accountant's memo. was that the oil seized should be forfeited and a fine of \(\$ 5\) imposed.

It seems that the oil never came into possession of the Crown, and that the owner made a deposit of \(\$ 65\). The fine of \(\$ 5\) was deducted and a cheque for the balance sent to your collector at Woodstock, with instructions to remit it to the party, if the oil was still in the possession of the collector, but if it was not, he was to deduct sufficient to cover the value of the oil and deposit it to the credit of the Receiver General account of this seizure.

The collector, instead of deducting and depositing the value of the oil, only deducted \(\$ 3\) for duty and refunded \(\$ 57\) to the owner.

When advising your further action in this matter, please return the voucher. I am, sir, your obedient servant,
The Conmissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Customs Dept., Ottawa, July 27, 1896.}

Sir,-I have the honour to acknowledge receipt of your letter of 18 th instant on the subject of the remission in the case of seizure No. 298 of the Port of Woodstock, N.B.

You will notice by reference to the voucher sent me with your letter that the accountant duly notified the collector of customs on 6th August, 1895, that a sum sufficient to cover the value of the oil was to be deducted from the cheque of \(\$ 60\).

Having communicated with the collector on the subject I am to day in receipt of his reply in which he states that he must have made a mistake in reading the accountant's letter to him of 6th August, 1895, and read it "duty on the oil " in place of " value of the oil."

He states that he will call on the party for payment of the \(\$ 6\) additional, which would cover the value of the oil, and will deposit same to credit of the Receiver General.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Audit Office, Ottawa, July 29, 1896.}

Sir,-I am in receipt of your letter of July 27 th in reply to my letter of the 18th instant in reference to a refund made on account of seizure No. 298, Port of Woodstock, N. B. You state that the collector made a mistake in retaining the duty of the oil instead of its value ; and that he will call on the party for \(\$ 6\), which will cover the original value of the oil.

As the collector exacted a deposit of \(\$ 65\), which the owner paid, in order to get possession of the oil seized, it seems to call for some explanation that the duty paid value of the oil is now fixed at \(\$ 9\).

> I am, sir, your obedient servant,

The Commissioner of Customs.
J. L. McDougall, a.g.

Custons Dept., Ottawa, July 31, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 29th instant being further in reference to seizure No. 298 of the Port of Woodstock, N.B.

The seizure report covered not only the barrel of oil but also two horses used in the smuggling of same, and the deposit of \(\$ 65\) made by the party covered the value of horses and oil.

Decision of department forfeited the oil and released the horses from seizure upon payment of a penalty of \(\$ 5\).

> I am, sir, your obedient servant,
> JOHN McDOUGALD, Comm'r.

\section*{Re Customs Seizures-Voucher of 1894-95 Short.}

Audit Office, Ottawa, July 29, 1896.
Sir,--Voucher No. 2689, Port of Quebec, for \(\$ 1,710\), is entered in the Audit Report of \(1894-95\) as not having been furnished.

This was the amount allotted to the men engaged in the Isle aux Coudres expedition of 1892. The reason given why this voucher was not furnished was that the shares of ten of the men- \(\$ 10\) each - were unpaid owing to the difficulty of locating the men.

This voucher has not yet been received. I have to ask your attention to the matter.

> I am, sir, your obedient servant,

The Commissioner of Customs.

> J. L. McDOUGALL, A.G.

Customs Dept., Ottana, August 12, 1896.
Sir,-Referring to your letter of 29 th ultimo on the subject of voucher for \(\$ 1,710\) in connection with distribution of the proceeds of the Isle aux Coudres seizures:

I have the honour to inclose you herewith the voucher which was sent to this

\section*{Auditor General's Report-Part T}
department by the collector at Quebec on 10th instant, and would advise you that Lieut.-Col. Montizambert has receipted for the sum of \(\$ 60\), the amount still held for six men of "B" Battery who have left the service and whose addresses the officer is unable to secure.

So soon as he is able to locate the men he will furnish the departmen with their receipts for the amount accorded them.

\author{
I am, sir, your obedient servant, The Auditor General,
}

Audit Office, Ottawa, August 14, 1896.
Sir,_I am in receipt of your letter of the l2th instant inclosing voucher No. 2689 (1894-95), Port of Quebec.

You state that Lieut.-Col. Montizambert has receipted for \(\$ 60\) which he is holding for six men of "B" Battery who have left the service, and whose addresses the officer is unable to secure.

The funds for this distribution have been in the hands of the officers since April, 1895, and as no doubt efforts were made to find all the men entitled to a share, it is not likely that any of the six men yet unpaid will be located in the near future Under these circumstances the \(\$ 60\) held by Lieut.Col. Montizambert should now be redeposited to the credit of the Receiver General and credited to seizures.

In the event of any of these men being found, you can again draw on seizures account to pay them.

I am, sir, your obedient servant,
The Commissioner of Custons.
J. L. McDOUGALL, A.G.

\section*{Re Customs Seizures-General.}

Audit Office, Ottawa, September 10, 1896.
Sir,-Referring to collectors' returns of seizures (form K-6) I observe that seizures released or cancelled by order of the Controller, are dropped from the return without any explanation.

I have to suggest (1) that collectors be notified to enter on their returns all seizures released or cancelled during the quarter, dropping them from subsequent returns; (2) that the department should furnish each quarter a statement of all decisions of the controller ordering the release or cancellation of a seizure.

I am, sir, your obedient servant.
The Commissioner of Customs.

\author{
J. L. McDOUGALL, A. \(\boldsymbol{i}\).
}

Cestoms Dept, Ottawa, September 14, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 10th instant, in which your suggest that collectors of customs be notified to enter on their returns all seizures released or cancelled during the quarter, and that the department should furnish each quarter a statement of all decisions of the controller ordering the release or cancellation of a seizure.

From your former correspondence in reference to seizure matters your present request was anticipated, and in preparing the new form of quarterly Returns, K-6,copy of which I inclose, a foot note was printed instructing collectors to give the required information in future.

These returns will be checked in the department before being forwarded to you, and a certificate given to the effect that the returns are correct in all particulars.

I trust that this certificate will be sufficient, and that you will not require a separate statement from the department of all the decisions of the controller.

I am, sir, your obedient servant,

Audit Office, Ottawa, September 10, 1896.
Sir,-I do not find that the proceeds of the undermentioned seizures entered on Returns K. 6 as paid, have yet come to account :-

Port of Canso, N. S.
No. 7.-Schr. J. L. Nicholson. . . . . . . . . . . . . . . . . . . \(\$ 50000\)
entered on return as deposited Nov. 7, 1895.
Port of Port Hawkesbury, N. S.
No. 30.-Liquors
entered on Return as deposited Dec. 16, 1895.
The return for the March quarter of 1896 from the Port of Coaticook, Quebec, indicates that the goods held under seizures No. 102 had been sold for \(\$ 39\) and those held under seizure No. 103, for \(\$ 5\). Neither of these amounts has come to account.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A. G.

Custons Dept., Ottawa, January 28, 1897.
Sir,-I have the honour to acknowledge receipt of your letter of 10 th September last, on the subject of certain Customs Seizures, and would advise you that the deposit of \(\$ 500\) in connection with Seizure No. 7 , of the Port of Canso, N.S., was made by the department of Marine and Fisheries on the 7th November last.

The sum of \(\$ 331.81\) in connection with seizure No. 30 of the port of Port Hawkesbury, N.S., was credited in error on December 20th, 1895, to Customs Revenue and at the close of the fiscal year was transferred to credit of Seizure No. 30.

In regard to the return for March Quarter 1896, from the Port of Coaticook, I beg to advise you that the \(\$ 39\) represents the value of the goods in connection with Seizures No. No. 102, and \(\$ 5\) represents the value of the goods in connection with Seizure No. 103.

The only amount deposited on Account of Seizures at the Port of Coaticook during the March quarter 1896, was \$2, which amount was deposited on Februaay 3, 1896.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.
Audit Office, Ottawa, September 10, 1896.
Sir,-I have to call your attention to the enclosed list of seizures of some years standing, remaining undisposed of, no reference being made to those of recent date. These are in addition to the seizures at the larger ports undisposed of about which I have previously written.

I shall be glad to be informed of the circumstances that caused the delay in disposing of those cases, and the steps now being taken or proposed to be taken to that end.

I am, Sir, your obedient servant,
The Commissionner of Customs.
J. L. McDOUGALL. a.g.

Customs Department, Ottana, 14th September, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 10 th instant, inclosing list of seizures remaining undisposed of and asking for certain information in reference to the same.

The list is so large that it is impossible to furnish you with the required information at once, but same will be given you at the earliest possible moment.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Auditor General's Report-Part T}

\section*{Re Bonded Coal Sheds.}

\author{
Audit Office, Ottawa, July 30, 1896.
}

Sir,-I understand that it is customary to allow merchants to hold coal in bond in their sheds, and that the usual fee for a bonded warehouse is not exacted; in fact that no charge of any kind is made.

Please let me know the authority for this exception, and an explanation of the circumstances that justify it.

I am, sir, your obedient servant, The Commissioner of Customs.
J. L. McDougall, a.g.

\section*{Customs Depart., Ottawa. August 4, 1896.}

Sir,-I beg to acknowledge receipt of your letter of 30th ultimo, referring to the fact that merchants are allowed to hold coal in bond without being required to pay a fee for bonded warehouse, and asking the authority for this exceptional treatment.

No warehouse fee on coal bonded has been exacted by the Customs Department, as no provision appears to have been clearly made for charging any such fee.

The Order in Council of Deeember 22nd, 1881, does not prescribe any fee, nor place the premises used for storing coal under the class of warehouses for which fees are prescribed by the regulations respecting bonded warehouses These general regulations provide for payment of fees for warehouses of classes \(2,3,4\) and 5 , but there is no reference therein to warehouses of classes 1,6 or 7 .

A customs locker is not required to be in attendance at each delivery of coal which has been warehoused, and a special bond is taken to protect the interests of the revenue in the case of coal warehouses.

The Auditor General.
I am, sir, your obedient servant,
JOHN McDOUGALD, Comm'r.

\section*{Re Inspection of Ports.}

Audit Office, Otrawa, July 31, 1896.
Sir,-Regulation No. 6 referred to in my letter of June 27, 1893, provides that copies of all reports of inspectors who personally examine the outside offices, shall be forwarded to this office regularly as received. None of the inspectors' reports have yet been furnished.
l am, sir, your obedient servant.

\section*{Re Steamboat Inspection.}

\section*{Audit Office, Ottawa, July 18, 1896.}

Sir,-The returns of Steamboat Inspector, P. Thompson, show that the fees on the underwritten vessels were paid to the collector of customs at Peterboro. None of those fees have been accounted for by him.
\begin{tabular}{|c|c|c|}
\hline Vessels. & Date of pay. & Amount. \\
\hline North Star & June, 1895. & \$820 \\
\hline Widgeon. & " & 564 \\
\hline Daisy & July, 1895. & 556 \\
\hline Beaver & " & 644 \\
\hline Bella Fair & " & 556 \\
\hline Golden City & ، & 1044 \\
\hline Mary Ellen & " & 860 \\
\hline Idle Hour. & ، & 516 \\
\hline Undine & " & 612 \\
\hline Outlet Queen. & August, 1895. & 644 \\
\hline & & 6816 \\
\hline
\end{tabular}

The same inspector also reports that the fees ( \(\$ 5.56\) ) on the steamer "Nellie" were paid at Smith's Falls, September 12, 1895, and I do nut find that they have come to account.

I have to ask for information in reference thereto.
I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

The Commissioner of Customs.

\section*{Customs Departmentr, Ottawa, August 25, 1896.}

Sir,-I have the honour to acknowledge receipt of your letter of 18 th July last on the subject of steamboat inspection fees collected by the late collector at the Port of Peterboro and by the sub collector of customs at Smith's Falls, Ontario.

The amount collected by the former, \(\$ 68.16\), was not accounted for by him and forms a part of this officer's defalcations.

I notified the chief inspector at Toronto of this shortage and he informs me under date of the 7 th instant, that he has furnished Mr. Hodgins, Barrister, of Toronto, a statement of the amounts referred to in your letter, in order that he may take the necessary steps to collect same from the sureties of the late collector.

The fees, \(\$ 5.56\), collected by the sub-collector at Smith's Falls on 12 th September, 1895, were not accounted for by him at the time, but upon the matter being brought to his attention he deposited the amount to credit of the Receiver General.

I inclose you herewith copy of his explanation of the delay in accounting for this sum.

> I am, sir, your obedient servant,

JOHN McDOUGALD, Comm'r.
The Auditor General.

Smith's Falls, July 23, 1896.
Dear Sir,-I have received yours of 21 st instant, which gave me quite a surprise, but when I examined my register "Steamboat Tonnage Dues" book a greater surprise met me, the fees collected from Captain Garrett and acknowledged by Inspector Thomson, \(\$ 5.56\), were in the book and had remained there since date of inspection. I can only account for these fees not being remitted at the proper time by above statement,-it

\section*{Auditor General's Report-Part T}
was an oversight at the time and forgotten. My book of receipts has not been opened since last inspection until to-day. I am sorry this should occur,-will remit fees with this week's report.

Your obedient servant,
The Accountant of Customs.
(Sgd.) A. E. MILLS, Sub.-Col.
P.S.-As I have inside and outside work to do here and sometimes very busy. This is the principal reason that this matter was overlooked at the time and as no inspection has been made here since, my book of certificates has not been used until to-day when I found the lost fees.
The Accountant of Customs.
(Sgd.) A. E. MILLS.

Audit Office, Ottawa, August 28, 1896.
Sir,-I am in receipt of your letter of the 25th instant in reply to mine of July 18th, in reference to steamboat inspection fees collected by your officers at Peterboro and Smith's Falls and not accounted for.

I take the opportunity to call your attention to former correspondence as to departmental responsibility for the collection of this class of revenue.

Steamboat inspectors make returns to the Department of Marine and Fisheries, and your collectors make returns to your department, but so far as I know these returns are not compared in either department.

I have to ask for your further consideration of the matter.
I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, October 3, 1896.
Sir,-The following fees reported by steamboat inspectors as paid do not appear to have been accounted for on customs returns :-

Inspector Dodds.

The Commissioner of Customs.
J. L. McDOUGALL, \(A G\).

Customs Department, Ottawa, November 12, 1896.
Sir,-Referring to your letter of 3rd October last on the subject of fees reported by steamboat inspectors as paid and which do not appear to have been accounted for on customs returns:

I beg to advise you that the collector at Sault Ste. Marie reports that the fees re Steamer "Stella", \(\$ 6.28\), were received at his office on 3rd August, 1896, and deposited to the credit of Receiver General on 4th of same month.

The collector at Halifax reports that the fees on Steamer "Nerus", \(\$ 6.24\), were paid on 30th April, 1895, and credited in that month's return, although the certificate was dated 16th July, 1895.

Enquiry has been made from the officer of French River in regard to the fees reported by Inspector Dodds, but up to the present no reply has been received from him.

He has been written to again to-day on the subjet.
I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

Customs Department, Ottawa, November 17, 1896.
Sir,-Referring to my letter to you of 12 th inst. on the subject of fees reported by steamboat inspectors as paid and which do not appear to have been accounted for on customs returns:

I have the honour to advise you that I am to-day in receipt of a letter from the collector of customs at Owen Sound, in which he states that the fees collected by Inspector Dodds at French River were deposited to credit of the Receiver General on 16th inst.

The collector has this day been instructed to call upon the officer at French River for an explanation as to the delay in forwarding these fees.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Re Entrance and Clearance Fees.}

Audit Office, Ottawa, August 2ã, 1896.
Sir,-According to the returns lately received, the receipts that have come to account for entrance and clearance fees for the month of June last were only \(\$ 4\).

The receipts from this source in 1894-95 amounted to \(\$ 7,428.87\), and in 1895-96 to \(\$ 6,540.50\).

I understand that this charge has been abolished, the amounts that have come to account during the last few months having probably accrued previously.

I have to inquire as to the nature of this charge ; on what authority, and with what object it was imposed; when and on what authority it was abolished.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Custons Dept., Ottawa, August 27, 1896.}

Sir,-I have the honour to acknowledge receipt of your letter of 25 th instant on the subject of entrance and clearance fees, and would advise you that the \(\$ 4\) received during the month of June last on this account was collected by officers at outports before receipt of the memorandum from the department instructing them that these fees had been abolished.

I inclose you herewith copy of memo. No. 295-B containing copy of Order in Council of 22 nd May, l889, authorizing the collection of these fees,-and copy of memo. No. 821-B containing copy of Order in Council of 17 th April, 1896, abolishing the fees in question.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Auditor General's Report-Part T}

\section*{Re Vouchers Short.}

Audit Office, Ottawa, October 2i, 1896.
Sir,-The following vouchers in connection with the accounts of 1895-96 have not been furnished. As the absence of these vouchers prevents the closing of the statements for publication in the audit report, I have to request that they may be procured and forwarded as soon as possible :

\section*{Customs Refunds.}
\begin{tabular}{|c|c|}
\hline August, 1895-No.396, Port of Montreal & 800 \\
\hline Auguter, 1895-No. 657, of Windsor, Ont. & 2,883 55 \\
\hline June, 1896-No. 3607, Port of Pictou. & 2,213 15 \\
\hline
\end{tabular}

Customs Seizures.
February, 1896-No. 2340, Port of St. Stephen....... \$ \(\$ 000\)
I am, sir, your obedient servant,
The Commissioner of Customs.

\author{
J. L. McDOUGALL, A.G.
}

Customs Dept., Ottawa, November 3, 1896.
Sir,-I beg to acknowledge receipt of your letter of 27 th ultimo containing a list of vouchers which have not been furnished you in connection with accounts for 1895-96.

With respect to voucher No. 396, dated 19th August, 1895, Port of Montreal, \(\$ 8\), I am in receipt of a letter from the collector at Montreal, dated 2nd instant, in which hes states that this amount was mailed to the party at North Bay, Ont., and went astray.

The last reply the collector had from the Post Office Department on the subject, which was dated 6th October last, states that no trace of the letter can be found.

In regard to voucher No. 2340, dated 18th February, 1896, Port of St. Stephen, \(\$ 50\), the collector reports that the party has been absent for the last eight or nine months but has recently returned.

He says he has notified the party that his money is awaiting him and hopes to be able to forward the voucher shortly.

The remaining vouchers have been written for and will be forwarded to you in due course.

The Auditor General.
I am, sir, your obedient servant,
JOHN McDOUGALD, Comm'r.

\section*{Re Bounty on Beet Root Sugar.}

Audit Office, Ottawa, December 19, 1896.
Sir,-A payment was made to M. Lefebvre \& Co., December 28, 1895, of the bounty on 25,000 pounds of beet sugar testing over 92 , at \(\$ 1.76 \frac{2}{3}\) per 100 pounds.

The Act 59 Vict., chap. 6, provides that the rate of bounty on all sugar manufactured after July 1st, 1895, shall be at the rate of 75 cts . per 100 pounds and 1c. additional for each degree of strength over 70 . This rate would be 98 cts . for the lot quoted.

The claimant in his sworn statement places the date of manufacture on the two days ended October 18th, 1895. There is a memo. on the margin that the lot is the balance of the former year's manufacture. An Order in Council is quoted but I have not received a copy.

I have to ask for the evidence that induced you to pay the rate in force before July 1st, 1895. If an error was made in the sworn claim paper, would it not have been better to have had it corrected?

I am, Sir, your obedient servant,

Custons Dept., Ottawa, December 22, 1896.
Sir,-I have the honour to acknowledge receipt of your letter of 19 th inst., on the subject of payment on 28th December, 1895, to Messrs. M. Lefebvre \& Co., of Montreal, of bounty on 25,000 pounds of beet root sugar testing over 92 at the rate of \(\$ 1.76 \frac{2}{3}\) per 100 pounds, and asking for the evidence that induced the department to pay this rate, which was the rate in force before 1st July, 1895.

In reply I have the honour to inclose you copy of the Order in Council passed on 28th December, 1895, authorizing payment of bounty at the rate in question on 25,000 pounds of beet root sugar manufactured by Messrs. M. Lefebvre \& Co., on 17th and 18th October, 1895, from beets grown in Canada prior to lst day of July, 1895.

I also inclose copy of the recommendation of the then controller of customs dated 30th November, 1895, upon which this Order in Council was founded.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Audit Office, Ottawa, December 26, 1896.}

Sir,-I am in receipt of your letter of the 22nd instant, with inclosures, in reply to mine of the 19th in reference to a payment for bounty on beet root sugar.

The Act \(54-55\), Vict., chap. 31, provides that a bounty, at a certain rate may be paid on beet root sugar produced in Canada wholly from beets grown therein, between Suly 1st, 1891, and June 30th, 1893. The Act 55-56 Vict., chap. 8, continues the former Act to June 30, 1895.

The interpretation of the controller of customs, which was approved by the Privy Council, was that the time limit of these Acts referred to the time when the beets were grown, and not to the time of manufacture into sugar. Was the opinion of the Department of Justice obtained on this question?

Apart from the reasonable intention of the Act, the wording does not seem to warrant this interpretation. If it was so intended, would it not have been likely that the time of manufacture would also have been specified?

I have also to call your attention to the sworn statement of claim, which I am returning herewith. This statement quotes the Act 59 Vict., which provides bounty at a reduced rate. It does not specify that the beets were grown previous to July 1895. A memo. on the margin does claim the lot as the balance of the previous year's manufacture. Nothing is furnished to show when the beets were grown or why if grown during the summer of 1894 they were not manufactured till October, 1895.

In my opinion, the manufacturers were only entitled to a bounty at the rate provided by the Act 59 Vict., chap. 6, and in consequence have been overpaid \(\$ 196.67\), which they should be called on to refund.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Customs Dept., Ottawa, December 30, 1896.}

Sir,-I have the honour to acknowledge receipt of your letter of the 26 th instant having further reference to the payment to Messrs. M. Lefebvre \& Co., of bounty on beet root sugar manufactured by them on the 17 th and 18 th October, 1895 , from beets grown in Canada prior to the lst July, 1895.

This department paid the bounty at the old rate under the interpretation of the Privy Council, as contained in the Order in Council of 28th December, 1895, and the opinion of the Department of Justice was not obtained on the question.

With reference to your inquiry as to why beets grown during the summer of 1894 were not manufactured until the month of October, 1895, I have the honour to inform

\section*{Auditor General's Report-Part T}
you that the Deputy Minister of Trade and Commerce informs me that there are three grades of sugar produced from the beets, viz., firsts, seconds and thirds.

The firsts represents the sugar produced from the first crushing of the beets.
The balance is in the form of molasses and is placed in a hot room until granulated when it is further manufactured into sugar, and the balance from this process is subsequently re-manufactured into another grade of sugar called thirds.

I am informed by Mr. Parmalee that some eight to ten months elapses between the date of the first and third process and this will account for the time which elapsed between the growth of the beets and the final manufacture in this case.

Upon reference to a report of Mr. Chief Inspector McMichael and Mr. Inspector Bremner in connection with this factory, dated 27th February, 1896, I find that there was then in bond in the factory material in process of manufacture from which it was estimated that about 450,000 pounds of sugar would be produced.

I may add that it would be impossible for this department to obtain refund of the amount alleged by you to have been paid in excess in this case, but I would call your attention to the fact that this firm was short paid the sum of \(\$ 102\) on bounty on beet root sugar during the year 1894-95, as will be seen by reference to page T-245 of your report for that year.

This short payment was not claimed by the company nor repaid to them, so that even if your construction of the Act be correct, only \(\$ 94.67\) would require to be refunded by the company.

I am, sir, your abedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Re Refund of duty on Wheat.}

Audit Office, Ottawa, December 26, 1896.
Sir,-I have to ask you for further information in connection with the following refunds, being the duty on Manitoba wheat, which had been stored in United States' bonded elevators at Duluth and Buffalo, for some time previous to re-shipment to Canada :-
H. O. Crowe per D. O. Ellis, Toronto. .\$ 9,391 20
James Richardson \& Sons, Kingston
7,387 95
McKay Milling Co., Ottawa.
10,81845
Your circular letter of 7 th February, 1895, directed that such wheat was liable to duty under tariff item 53. The Order in Council of 13th January, 1896, authorizing the above refunds makes no reference to the departmental ruling and no explanations are given of the grounds on which that ruling is reversed.

The Commissioner of Customs.
I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

\section*{Customs Department, Ottawa, December 30, 1896.}

Sir,-I beg to acknowledge receipt of your letter of 26 th inst. on the subject of refund of duty paid on Manitoba wheat which had been stored in United States bonded elevators in Duluth and Buffalo for some time previous to re-shipment to Canada.

These refunds were paid under the authority of Order in Council of 13th January, 1896, which authorized payment of the same under the provisions of section 78 of the Consolidated Revenue and Audit Act which gives the Governor in Council the power to remit any duty payable to Her Majesty.

It is not within the province of the executive officers of this department to question the reasons why the departmental rulings on this subject were reversed, but simply to carry out the instructions conveyed in the Order in Council referred to.

I am, sir, your obedient servant,
JOHN McDOUGALD, Comm'r.

\section*{Re Bounty on Steel Billets.}

Audit Office, Ottawa, April 23, 1896.
Sir,-Referring to the payments made to the Nova Scotia Steel Co. Ltd., during the present year, for bounty on steel manufactured, I have to ask your attention to the following observations :-

The Order in Council of June 22nd, 1895, making regulations for the payment of this bounty, provides that after July 1, 1895, the manufacture shall be under customs supervision, at the expense of manufacturer. Please explain the nature and extent of the supervision exercised and the time it was commenced. The vouchers do not indicate any such supervision. If there is supervision, the vouchers should be certified by the officer in charge.

You have allowed bounty on every pound of steel manufactured, though there was used in the manufacture thereof to January \(1,1896,1,093 \cdot 119\) tons of foreign pig iron. The Act provides that the bounty shall be allowed if the steel is manufactured from Canadian piry iron made in Canada from Canadian ore, and such other ingredients as are necessary and usual in such manufacture. The Order in Council specifies the other ingredients, but does not include foreign pig iron. Please let me know your reasons for not making a deduction for the foreign pig iron.

I am, sir, your obedient servant,
J. L. McDOUGALL, A.G.

The Acting Commissioner of Customs.

Customs Dept., Ottawa, April 26, 1896.
Sir,-I have the honour to acknowledge the receipt of your letter of the 23rd instant, on the subject of the payments made to the Nova Scotia Steel Company, Limited, for bounty on steel billets manufactured by them.

The Order in Council of 22nd June, 1895, provides that after the lst of July, 1895, the manufacture shall be under customs supervision, at the expense of the manufacturer, but so far no officer has been placed in charge of this furnace.

It is therefore impossible to give a certificate fiom a Customs officer, and the claims are paid upon the parties subscribing to the regular affidavit.

No deduction has been made for foreign pig iron used in the manufacture of the billets, because the Order in Council provides that not more than 50 per cent of the total'weight may consist of ferro-manganese, spiegeleisen, ferro-silicon, scrap iron or scrap steel, and such other ingredients and in such proportion as are necessary and usual in the manufacture of steel billets.

Am I to understand that you rule that foreign pig iron is not a usual and necessary ingredient for the manufacture of steel billets?

Your letter on this point is rather misleading, because while the Order in Council specifies some of the ingredients, it provides for others, unenumerated, which may be used, and only provides that payment shall not be made with respect to foreign ores.

I have the honour, \&c.,
F. E. KILVERT, Acc. Comm'r.

The Auditor General.

\section*{Audit Office, Ottawa, September 18, 1896.}

Sir,-I wrote the Acting Commissioner of Customs on April 23rd last, pointing out that bounty had been paid on all the steel billets manufactured by the Nova Scotia Steel Co. Ltd., though there was used in the manufacture thereof a considerable quantity of foreign pig iron.

In his reply the Acting Commissioner explained in effect that foreign pig iron came under the words " other ingredients" mentioned in the Order in Council in that
behalf, and inquired if \([\) ruled that foreign pig iron was not a usual and necessary ingredient in the manufacture of steel billets. The correspondence was not followed up, as a refund of \(\$ 1,820\) shortly afterwards came to account for the overpayment. Among the vouchers received yesterday with the May accounts is a letter from Mr. John F. Stairs, stating that the president of the company, Mr. Graham Fraser, and the Secretary, Mr. Thomas Cantley, having carefully considered the matter, in view of their previous discussion with the Acting Commissioner, were of opinion that it was doubtful if the company were entitled to receive the bounty on the proportion of steel billets made from foreign pig iron, and that by their request and on behalf of the company he inclosed a cheque for \(\$ 1,820\) for the overpayment.

I also observe that in the payments made in May and June last, a deduction was made for foreign pig iron used. Presumably the payments since made were computed accordingly, and future payments will be also.

It will thus be unnecessary to continue the correspondence. It seems quite clear that the right conclusion has been reached.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, \(A . G\).

Ottawa, April 15, 1896.
Dear Sir, -When Mr. Graham Fraser, the fresident, and Mr. Thomas Cantley, the secretary of the Nova Scotia Steel Company, Limited, were last in Ottawa, they discussed the question of the bounty on steel billets with the Acting Commissioner of Customs.

Their understanding of the regulations had been that so long as not less than fifty per cent of the material used consisted of Canadian pig iron made from Canadian ore, the company were entitled to the full bounty of two dollars per ton.

Since their return they have carefully considered the matter, and in the light of the discussion above referred to are of opinion that it may be doubtful if the company is entitled to receive the bounty on the proportion of steel billets made from foreign pig iron. On looking into the matter carefully they have found that the foreign pig iron used, namely "Millom" and "Swedish" had been included among the other ingredients.

The following is a summary of the total ingredients used by the company since the 27th March, 1894, and prior to the lst March, 1896, in the manufacture of billets upon which a bounty of \(\$ 2\) per ton has been claimed and paid :-

Tons. lbs.
\begin{tabular}{|c|c|}
\hline Ferrona pig iron & \[
\begin{array}{r}
\text { Tons. lbs. } \\
21,224 \cdot 138
\end{array}
\] \\
\hline Foreign "، & 1,218•844 \\
\hline Scrap iron and scrap steel & 15,238 306 \\
\hline Ferro-manganese, etc & \(430 \cdot 1646\) \\
\hline
\end{tabular}

In view of what they now understand to be the interpretation of the bounty regulations, they are doubtful if the company is entitled to the bounty on the proportion of billets produced from the \(1,218 \cdot 844\) tons of foreign pig iron "Millom" and "Swedish," which amount to 910 tons; and by their request and on behalf of the company I now enclose the company's cheque payable to your order for \(\$ 1,820\).

If after looking into the matter you confirm the ruling as they are now of opinion the regulations should be understood, you will receive the cheque in settlement of the amount of bounty overpaid as above stated.

I am, sir, your obedient servant,
The Controller of Customs.
JOHN F. STAIRS. Quantity of billets produced : \(28,462 \cdot 1253\) tons.

Audit Office, Ottana, September 19, 1896.
Sir,-During the year 1895-6 a bounty of \(\$ 2\) per ton was paid on all the steel manufactured from March 27, 1894, to June 30, 1896, with the exception of March, 1896 Was no steel manufactured during that month?

Referring to the regulation that this industry should be under customs supervision I have to inquire if arrangements have yet been made with that object.

I am, sir, your obedient servant,
The Commissioner of Customs.
J. L. McDOUGALL, A.G.

\section*{Customs Dept., Ottawa, September 23, 1896.}

Sir,-In reply to your letter of the 19th instant, I beg to inform you that the manufacture of steel billets by the Nova Scotia Steel Co., Ltd., has been placed under the supervision of the sub-collector of customs at New Glasgow, N. S.

There is no claim for steel billets manufactured by the above company in March 1896, owing, I think, to the furnace being under repair, but I will make further inquiry on this point.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

Customs Department, Ottawa, October 7, 1896.
Sir,-Referring to your letter of the 18th ulto., and in order that there may be no misunderstanding on the point:-

I beg to inform you that the Department of Justice has advised this department to the effect that bounty may be paid on the proportion of steel billets made from 'foreign pig iron' under the conditions prescribed by the regulations, and that the Nova Scotia Steel Co., Ltd., are claiming bounty on the product of foreign pig iron so manufactured.

The \(\$ 1,820\) refunded by the company was handed in before the correspondence with your office regarding the use of foreign pig iron began, and I understood from the parties, the refund was made under a mistaken impression that an opinion had been given by the Justice Department that the weight of foreign pig iron entering into the manufacture of steel billets could not be computed in the weight for bounty.

A copy of the opinion received from the Department of Justice on this subject, on the 4th July, 1896, is forwarded herewith.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Commr.

Department of Justice, Ottawa, 4th July, 1896.
Sir,-I have the honour to acknowledge the receipt of your letter of 30th ultimo -No. 17539 -in which you ask for an opinion as to the interpretation to be placed upon the regulations for the payment of bounty upon steel billets.

In reply, I am directed by the Minister of Justice to state as follows:-
(1.) In the opinion of the Minister of Justice foreign pig iron which is a necessary and usual ingredient in steel billets manufactured from pig iron (made in Canada from Canadian ore) cannot be excluded in computing the bounty under these regulations, unless it is a foroign ore within the meaning of the regulations. It is not an ore in any ordinary sense of that term and, such being the case, and, in view of the fact that in the schedule to the regulations, foreign pig iron and foreign ore are treated as separate

\section*{Auditor General's Report-Part T}
and distinct classes of ingredients, the Minister thinks that foreign pig iron cannot be held to be foreign ore within the meaning of the first clause of the regulations.
(2.) The Minister is of opinion that the bounty is payable only upon billets in which the "other ingredients" constitute not more than 50 per cent of the total actual weight of such billets when manufactured.

I am, sir, your obedient servant,
The Commissioner of Customs.
A. POWER, A.D.M.J.

\section*{Customs Dept., Ottawa, October 8, 1896.}

Sir,-With further reference to my letter of 23 rd ultimo, I find that the claim of the Nova Scotia Steel Company, Limited, for bounty on steel billets manufactured in March 1896, was sent to the company on 11th June for amendment, and has not yet been returned.

> I am, sir, your obedient servant,

JOHN McDOUGALD, Commr.

\section*{Audit Office, Ottawa, Ocwber 10, 1896.}

Sir,-I am in receipt of your letter of the 7 th instant, in reference to the disputed point as to bounty on steel billets.

I note that the Acting Deputy Minister of Justice seems to assume that foreign pig iron is a necessary and usual ingredient in the manufacture of steel billets, and bases his decision thereon. I shall be glad to learn what evidence on this point has been furnished.

The president and secretary of the company, after having carefully considered the matter, came to a different conclusion and refunded the bounty paid them on the proportion of the billets made from foreign pig iron.

If the company have made an application for a refund of the \(\$ 1,820\) refunded by them or for any bounty dependent upon the use of foreign pig iron, and you decide to comply with it, I have to request in view of all the circumstances, that you should make a direct application for the amount to this office, instead of issuing a cheque on your genera! letter of credit. If I cannot see my way to passing the application, you can appeal from my decision to the Treasury Board, which by its action will relieve both you and me from responsibility.

The Commissioner of Customs.
I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

Audit Office, Ottawa, October 15, 1896.
Sir,--Since writing my letter of the 10th instant, my attention has been called to the second paragraph of the decision of the Department of Justice, dated 4th July, 1896.

The paragraph reads as follows :-
"(2.) The Minister is of opinion that the bounty is payable only upon billets in which the 'other ingredients' constitute not more than 50 per cent of the total actual weight of such billets when manufactured."

According to this decision, the company would have been entitled to bounty on but three of their applications covering \(\$ 7,700.28\) out of \(\$ 61,318.52\) paid them to June 30th last. I do not see how the conclusion is arrived at. I would suggest that an explanation I dod from the Department of Justice.
be asked have to inquire what action you have taken in reference thereto.
I am, sir, your obedient servant,

Sir,-Referring to your letters of 10 th and 15 th ultimo, respecting the above matter, I have the honour to state that when the Minister of Justice gave the opinion that foreign pig iron used in the manufacture of steel billets was an ingredient upon which bounty could be paid, such opinion was based on the assumption that foreign pig iron is necessary and usual ingredient in the manufacture of steel billets.

The declaration of the manufacturers in the statement of claim filed supports this assumption, and it may be specially noted that on the foreign pig iron used in the steel billets the manufacturer pays more than two dollars duty for each dollar of bounty received therefor, and there would thus be no advantage in using foreign pig iron if it were not necessary.

Your views as to obtaining a decision from the Treasury Board in regard to the payment of this claim, are concurred in, and steps will be taken to have this done.

As to the paragraph in the decision from the Department of Justice, on 4th July, 1896, which reads as follows :-"(2.) The Minister is of opinion that the bounty is payable only upon billets in which the 'other ingredients' constitute not more than 50 per cent of the total weight of such billets when manufactured,"-I do not understand this paragraph to have the meaning which you attach to it. Mr. Power informs me that the weight of the "other ingredients" is the weight as melted in the manufactured steel billet.

I think no question will be raised in regard to the relative weights produced from the different classes of ingredients.

I am, sir, your obedient servant,
The Auditor General.
JOHN McDOUGALD, Comm'r.

\section*{Custons Dept., Ottawa, December 9, 1896.}

Sir,-Herewith please find application of the Nova Scotia Steel Company Ltd.., dated 20th November, 1896, for refund of the sum of \(\$ 1,820\) for bounty on steel billets manufactured by them, and which sum it is claimed was returned by Mr. John F. Stairs, President of the Company, in error on 15th April, 1896, under a mistaken impression that the Department of Justice had decided that bounty could not be paid on the proportion of steel billets made from foreign pig iron.

A statutory declaration respecting the use of foreign pig iron in the manufacture of steel billets accompanies the application.

Further claims for bounty on steel billets manufactured by the Nova Scotia Steel Company Ltd.; aforesaid, are also forwarded herewith as follows :-

The claims for bounty on steel billets manufactured in March and June, 1896 were substantiated and presented within three months after the manufacture of the steel billets on which such bounty is claimed, but were returned for amendment, as bounty was claimed on "other ingredients" used in excess of the weight of pig iron made in Canada from Canadian ore.

Formal applications for the payment of these claims and the refund of \(\$ 1,820\) above mentioned, are herewith submitted for your consideration.

I am, sir, your obedient servant,
JOHN McDOUGALD, Comm'r.

\section*{Auditor General's Report—Part T}

\section*{Audit Office, Ottawa, January 13, 1897.}

Sir,-I have received your letter of the 9 th instant enclosing your application in favour of the Nova Scotia Steel Co., and vouchers in connection therewith.

I have to ask for the original claims marle by the company for bounty on steel manufactured in March and June; and a copy of any other opinion of the Department of Justice that you obtained, other than that dated July 4th, of which I have a copy.

The manager of the works in his affidavit declares that foreign pig iron is a necessary ingredient. Under these circumstances why is the quantity used not proportionate, varying from less than 1 per cent to \(17 \%\) per cent, and how does it come that no foreign pig iron was used during the months of March and June?

I would again call your attention to the omission of the customs supervision from July, 1895 to September, 1896, though directed by the Order in Council. Had you any other evidence as a substitute for the omission of supervision? If not pleased explain why the bounty was paid. Do you purpose having the production accounts covering the period in question yet examined?

I am, sir, your obedient servant,
The Commissioner of Customs.

\author{
J. L. McDOUGALL, A.G.
}

Customs Dept., Otrawa, January 20, 1897.
Sir,--Referring to your letter of the 13 th instant in the above matter, I beg to state that there is no opinion from the Department of Justice on file here with regard to the payment of steel bounty claims, excepting the one dated 4th July, 1896, of which you have a copy.

The original claims made by the Nova Scotia Steel Company for bounty on steel manufactured in March and June, 1896, are not here, as they were sent back for amendment and new claims returned instead.

Regarding your enquiry as to the use of foreign pig iron, " why is the quantity used not proportionate, varying from less than 1 per cent to \(17 \frac{1}{2}\) per cent, and how does it come that no foreign pig iron was used during the months of March and June?" I beg to point out that the works manager states in his declaration that a mixture of foreign pig iron is necessary in order to produce the percentage of phosphorus in the Canadian pig iron used, and thus produce the quality of steel required.

The steel produced is of various qualities, to meet the requirements of trade. The percentage of phosphorus in the steel varies, and depends on the amount of phosphorus in the ingredients used in the manufacture.

The manufacture has been under customs supervision since June, 1896 (shortly after my appointment to office). I do not know why customs supervision was not provided previously, but the production accounts can yet be examined, if necessary, after a decision is given regarding the present application

Very complete details of ingredients used are kept on record at the company's works, and the claims hitherto paid for bounty on steel appear to be based on the class and quantity of ingredients permitted to be used in this manufacture under the regulations.

I am, sir, your obedient servant,
JOHN McDOUGALD, Comn'r.
The Auditor General.
Note by A.G.-This discussion is continued on page T-132.

\section*{Auditor General's Report-Part T}

\title{
Regulations Governing Removal Expenses.
}

Audit Office, Ottawa, February 1, 1897.
Sir,-Your letter No. 69,086 of March 26, 1896, inclosed a memorandum from the accountant of your department in reply to several communications from this office.

With reference to removal expenses, about which I wrote you December 13th, 1895, and January 2nd, 1896, the accountant states: "New regulations regarding the payment of removal expenses to be sent to Treasury Board for approval as soon as printed." Have these regulations yet received the sanction of the Treasury Board? If so, please let me have a copy for my guidance in examining the accounts.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McIDOUGALL, A.G.

\section*{Duplicate Payments.}

Audit Office, Ottawa, December 12, 1896.
Sir,-Geo. Bailey's account paid by cheque 49172, in August, 1895, contains the following item :

July 17 —To brass meter case. . . . . . . . . . . . . . . . . . . . . . . . . . \$8 75
The account paid by cheque 50,304 in December includes a similar charge under date of July 15th. Each of these items is marked "Higman." Did Mr. Higman get two meter cases, or is this a duplicate charge for the same article?

These accounts are certified "correct." They should bear the certificate "Goods received, prices fair and just," as prescribed by section 33 of the Audit Act.

I inclose the two accounts. Please return them with your explanations.
I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

Audit Office, Ottawa, December 16, 1896.
SIr,-I beg to ask your attention to the duplicate payment for gas at the Montreal Inland Revenue office for the period between June 29 and October 2, 1895, as shown by the accompanying vouchers, Nos. 49,946 and 50,179.

Please have the overpayment of \(\$ 8.60\) refunded.
I am, sir, your obcdient servant,
The Commissioner, Inland Revenue Dept.
J. L. McDOUGAL'L, A.G.

\section*{Audit Office, Ottawa, February 1, 1897.}

Sir, -Kindly let me have an answer to the inquiry in my letter of December 12th last regarding two charges for a brass meter case in Geo. Bailey's accounts.

I should like to be informed whether or not the overpayment to the Montreal Gas Company, noted in my letter of December 16th, has been refunded.

Please return the vouchers which were sent you with the two letters referred to above.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Auditor General's Report-Part T}

\author{
Inland Revenue Department, Ottawa, February 11, 1897.
}

Sir,--I beg to acknowledge receipt of your letter of lst instant in re double charge of \(\$ 8.75\) in Mr. Bailey's account and over-payment to the Montreal Gas Company of \(\$ 8.60\), and in reply would inform you that both these sums have been refunded by the respective parties. The vouchers asked for in your letter are herewith returned.

Your obedient servant,
E. MIALL, Com.

\section*{Application of Superannuation Act.}

Audit Office, Ottawa, March 2, 1896.
Sir,-I have received an Order in Council appointing Mr. F. Parent to the position of assistant manager of the methylated spirit warehouse, with a salary of \(\$ 825\).

From the list of salary cheques for January it appears that a deduction for superannuation was made from Mr. Parent's salary. As the Order in Council appointing Mr. Parent does not place him under the operation of the Superannuation Act, I have to request that you will apply for a Receiver General's cheque in Mr. Parent's favour for the amount which has been deducted from his salary.

On looking into the matter I find that there is no Order in Council on file here giving Mr. W. Armstrong the benefit of the Superannuation Act. If such authority was obtained at the date of his appointment, please cause me to be supplied with a copy. If it was not obtained, application should be made for a refund to Mr. Armstrong of the Superannuation abatements from his salary since his appointment.

The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Inland Revenue Department, Ottawa, March 12, 1896.}

SIR,-Your communication of the 2nd instant, raises the question as to whether inspectors of weights and measures and gas are not in the same position as Mr. Armstrong and Mr. Parent, and whether an Order in Council should not be procured to place them under the Superannuation Act.

Kindly let me know on what ground their pay-lists have been concurred.in for years, as I know of no Order in Council having been passed dealing with this phase of the matter in any of these cases.

The same remarks apply to our analyst's branch-none of these are mentioned in schedule B of the Act.

The Auditor General.
I am, sir, your obedient servant,
E. MIALL, Com.

Audit Office, Ottawa, March 23, 1896.
Sir,- -I have your letter of the J 2 th instant, regarding the application of the Superannuation Act to certain outside officers of your department.

As you are aware, chapter 18, Revised Statutes, brought under the operation of the Act all persons who were at the time of the revision, (June 2, 1886) contributing to the fund. I do not, however, find that the necessary authority has been obtained for giving the benetits of the Superannuation Act to your officers appointed since the date mentioned, whose salaries are paid from the Votes for Gas inspection, Weights and Measures inspection, Adulteration of Food and Preventive Service, except in the case of one or two individual appointments.

This should be remedied, either by obtaining an Order in Council bringing the officers referred to under the operation of the Superannuation Act, or by refunding to them the amount paid by them into the Superannuation Fund. Until Council has had an opportunity of acting please discontinue the abatement.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.

\author{
J. L. McDOUGALL, A.G.
}

Audit Office, Ottawa, February 1, 1897.
Sir, -Please let me know if any steps have been taken towards legalizing the deductions for superannuation made from the salaries of Inland Revenue officers appointed since June 2nd, 1896, and paid from the Votes for Gas inspection, Weights and Measures Inspection, Adulteration of Food, Preventive Service and Methylated Spirits.

In this connection I would refer you to our correspondence on the subject in March last.

This matter should be set right with as little delay as possible.
I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Auditor General's Report-Part T}

Auditor General's Report-Part T

\section*{Re Alberta Railway Company.}

\section*{Audit Office, Ottawa, June 17, 1896.}

Sir,-In your return of minor revenues for May, the Alberta Railway Company is entered as in arrears, \(\$ 2,520\). This consists of 3 years interest on \(\$ 14,000\) at 6 per cent, the figure at which the company purchased the telegraph line between Dunmore and Macleod.

I have to inquire what action you have taken or propose taking in connection with this claim.

> I am, sir, your obedient servant,

The Commissioner of Inland Revenue.
\[
\text { J. L. McDOUGALL, } A . G .
\]

Dept. Inland Revenue, Ottawa, July 14, 1896.
Sir,-In reply to your communication of the 17 th ultimo, relative to the arrears due by the Alberta Railway and Coal Company, on account of the purchase of the telegraph line between Dunmore and Fort Macleod via Lethbridge, I have the honour by direction to inform you that inquiry has been made in connection with this matter and deposit receipts from the Bank of Montreal have been received through the Department of Public Works this day, for the sum of \(\$ 3,750.44\) which is made up as follows :-lst, \(\$ 3,666.66\) the first instalment of the purchase money \((\$ 11,000)\) and 2 nd \(\$ 83.78\), the interest on the first instalment from the 1st January to 19th May last, 139 days.

I enclose copy \(o^{+}\)an Order in Counsil of the 18th of January, 1896, under which the sale of the said line is to be settled.

I am, sir, your obedient servant,
The Auditor General.
WM. HIMSWORTH, Secretary.

Audit Office, Ottawa, July 18, 1896.
Sir,-I am in receipt of your letter of the 14 th instant in reply to mine of the 17 th ultimo, in which you state that you have received a deposit receipt for \(\$ 3,750.44\) in payment of the first instalment of the purchase money for the telegraph line between Dunmore and Lethbridge, and interest thereon from January 1st to May 19th, 1896.

I have to point out that my letter of the 17 th ultimo refers to the arrears due by the company, amounting to \(\$ 2,520\) for three years' interest accrued previous to Jannary 1st last on the original purchase of the whole line from Dunmore to Fort Macleod. I do not find any reference to these arrears in your letter now to hand, and I shall be glad to hear further from you on the subject.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, \(A . G\).

\section*{Inland Revenue Dept., Ottawa, July 21, 1896.}

Sir,-I have the honour, by direction, to acknowledge receipt of your communication of the 18th instant asking as to the arrears due by the Alberta Railway Co. amounting to \(\$ 2,520\) for three years' interest accrued previous to January 1st ultimo on the original purchase of the whole line from Dunmore to Fort Macleod, and, in reply, to inform you that the account therefor has been sent to them, and, if not paid, will be placed in the hands of the Department of Justice for suit.

I am, sir, your obedient servant,

\section*{Auditor General's Report-Part T}

\section*{Re Deficiencies at Gooderham's Distillery.}

\author{
Audit Office, Ottawa, May 1, 1896.
}

Sir,-The instructions contained in your letter of October 30th, 1894, to the collector of Inland Revenue at Toronto, authorized him to pass credit entries reducing the deficiencies of 1891-92 and 1892-93 in accordance with circular G-412. The deficiencies of 1889-90, 18,065 gallons and 1890-91, 12,667.14 gallons having arisen previous to the introduction of the practice of determining by weight, were not affected, and at the date of your letter were not disposed of. I am without any reply to my letter of November 7 th last, in reference thereto.

I have now to inquire if duty has been paid these deficiencies, and if so, the date of payment. I am, sir, your obedient servant, The Commissioner Inland Revenue.

\author{
J. L. McDoUGALL, a.g.
}

\section*{Department of Inland Revenue, Ottawa, 8 May, 1896.}

Sir,-Replying to your communication of the lst instant, I have the honour tostate that with the exception of a trifling deficiency in connection with the Pelee Island Distillery all deficiencies have now been settled.

The one you specifically allude to was included in the settlement made by the Exchequer Court on the 15th February 1894. The settlement was given effect to on the 18 th February, 1895, by the payment of a cheque of the company amounting to \(\$ 6,525.56\).
The Auditor General.
I am, sir, your obedient servant,
E. MIALL, Commissioner.

\section*{Re Minor Revenues-Rent of building, Portland, N.B.}

Audit Offige, Ottawa, April 9, 1896.
Sir,-I have to ask for an explanation of the indebtedness of W. C. Dunham for rent of part of building at Portland, N.B. The March statement of Minor Revenues shows a balance due of \(\$ 247.50\). This balance is made up as follows :-
\begin{tabular}{|c|c|c|c|}
\hline Debits. & \multicolumn{3}{|c|}{Receipts.} \\
\hline January, 1894... & \$ 6500 & June, 1895. & \$ 6500 \\
\hline Janail, do & 6500 & October, 1895. & 2500 \\
\hline April, do & 6500 & November, 1895 & 1250 \\
\hline July, do & 6500 & February, 1896. & 4000 \\
\hline Jannary, 1895 & 6500 & & \\
\hline April, do & 6500 & & 14250 \\
\hline & & Balance due. & 24750 \\
\hline & 39000 & & \\
\hline & & & 39000 \\
\hline
\end{tabular}

Who has been the lessee of this building since July, 1895? what action has been taken to secure the balance due by Mr. Dunham?

I am, sir, your obedient servant,

\author{
J. L. McDOUGALL, A.G.
}

Sir, -In reply to your communication of the 9 th instant, I have the honour by direction to inclose herewith copies of all correspondence in relation to the matter, viz. :Files Nos. \(63,999,65,435,67,154,67,622,67,966,69,061\), also the replies thereto.

\section*{I am, sir, your obedient servant,}

WM. HIMSWORTH, Secretary.
The Auditor General.
Judgment was obtained against lessee for \(\$ 335\), on which \(\$ 182.50\) was still due June 30, 1896.

\section*{Re Ferry Licenses.}

Audit Office, Ottawa, April 9, 1896.
Sir,-Referring to your statement of minor revenues for March last, I have to call your attention to the arrears due for ferry licenses.

Two of the licenses are in arrears for 3 years' fees, three for 2 years' fees, and four for the fees of last season.

Please inform me what action you have taken or purpose taking in reference thereto.

I am, sir, your obedient servant,
The Commissioner Inland Revenue.
J. L. McDOUGALL, \(A . G\).

\section*{Dept. Inland Revenue, Ottawa, July 6th, 1896.}

Sir,-In reply to your communication of the 9 th April in reference to the action this department purposes taking in collecting arrears due for ferry licenses, I have the honour by direction to inform you that a number of the lessees of the ferries mentioned have settled the arrears and steps are being taken to have all the arrears settled.

I am, sir, your obedient servant,
The Auditor General. WM. HIMSWORTH, Secretary.

Audit Office, Ottawa, May, 22nd, 1896.
Sir,-In the statement of ferries on page 13 of your report for 1894-95, there is entered a license for a ferry at Ouellette St., Detroit, the fee on which is \(\$ 1\). Please explain why the fee on this license is placed at such a nominal figure. Does the ferry cross between Windsor and Detroit? If not, why is there no license for a ferry between these points?

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.

> J. L. McDOUGALL, A.G.

Depart. of Inland Revenue, Ottawa, June 2, 1896.
Sir,-I enclose a copy of the Order in Council granting a license to the Detroit and Windsor Ferry Co.

I am not in a position to state why the license fee exacted was only a nominal one, but presume that His Excellency in Council esteemed that public policy was being thereby subserved.

International ferries are not absolutely under control of the Canadian Government.
I am, sir, your obedient servant,

\section*{Auditor General's Report-Part T}

\section*{Re Inspection of Weights and Measures and Gas.}

Audit Office Ottana, June 4, 1896.
Sir,-I wrote you May 15, 1895, asking that a monthly statement should be furnished of the stamp account kept in the department in connection with weights and measures inspection, and with gas inspection; also suggesting that the inspector's return should be based on the stamps.

In your reply of July 26 th, you seemed to imply that these statements could not be furnished because the stock of stamps in the department and in the hands of the inspectors is not checked monthly.

The fact that the stock of stamps in the department and in the hands of the inspector are not verified monthly, is no reason why the monthly returns asked for cannot be furnished.

I asked for further consideration of this subject in my letter of August 13th last, but I have had no reply to my letter.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A. \(G\).

\section*{Re Electric Light Inspection.}

\section*{Audit Office, Ottawa, April 30, 1896.}

Sir,--I have to ask you for a copy of the regulations and the tariff of fees in connection with Electric Light Inspection, and amendments thereto.

The annual fee appears to be paid directly to the department and the fees for inspection come to account through the collectors of Inland Revenue. The counterfoils of the receipts issued for the payments made to the department, should be furnished. What means have you of determining that all the companies doing business have paid the annuel fee? Whose duty is it to attend to this point?

A monthly return should be furnished by each inspector, showing the date of each inspection, the name of the person for whom made, the capacity of the meter inspected and the amount of the fee. This return should by certified by the inspector.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, \(A . G\).

\section*{Re Insufflient Vouchers.}

Audit Office, Ottawa, May 1, 1896.
Sir I have had no reply to my letters of August 3, 1893, February 19, 1894, and July 5,1895 , in reference to the insufficient vouchers furnished for refunds of spirits and malt.

Section 238 of the Inland Revenue Act under which a drawback is authorized on spirits used in the manufacture of crude fulminate exported, provides that proof must be furnished that the duty has been paid on the spirits, that the spirits have been made for the purpose set forth, and that the fulminate has subsequently been exported. The only voucher furnished is the receipt for the amount repaid.

I have again to request your attention to this matter.
I am, sir, your obedient servant,

\section*{Re Arrears of Cullers' Fees.}

\author{
Audit Office, Ottawa, October 21, 1896.
}

Sir,-I am in receipt of your letter of the 14th, inst., inclosing statements of arrears due to your department, according to which the amount due for cullers' fees is \(\$ 38,090.53\). In October, 1893, you furnished a classification of the amounts then due, in which \(\$ 13,672.52\) was considered collectable. Of this amount only \(\$ 1,627.49\), has since been paid. I have to inquire if the balance is still considered collectable, and what action has been taken in reference thereto.

On December 12th, 1894, I called attention to the arrears that had accrued during the previous four years amounting to \(\$ 1,526.62\) at Quebec, and \(\$ 1,837.70\) at Montreal. The supervisor at Quebec stated in his letter of December 26th, 1894, that he expected to collect at least \(\$ 1,000\), of the \(\$ 1,526.62\) due at Quebec, but only \(\$ 785.64\) has since been paid. Further arrears amounting to \(\$ 121.35\) accrued in 1894 , which are yet unpaid.

Of the \(\$ 1,837.70\) that accrued at Montreal, nothing has since been paid and a further amount of \(\$ 294.19\) accrued in 1894.

I shall be glad to have an explanation of the delay in collecting those of recent years, and what action has been taken to that purpose.

I am returning the statement, as it is not alphabetically arranged, as stated in your letter.

The fees collected during 1895-96 amounted to \(\$ 11,405.02\). I have to ask for a detailed statement of this amount as the returns furnished monthly do not give this information.

> I am, sir, your obedient servant, The Commissioner of Inland Revenue.

\author{
J. L. McDOUGALL, A.G.
}

Inland Revenue Dept., Ottawa, January 5, 1897.
Sir,-With reference to your several communications in respect of cullers' arrears, I can only say that the whole matter is now in the hands of the Department of Justicf, and I understand is being vigorousiy pushed by the Hon. the Solicitor General.

I am, sir, your obedient servant,
The Auditor General.
E. MIALL, Commissioner.

\section*{\(R e\) Unanswored Letters.}

Audit Office, Ottawa, January 15, 1897.
Sir,-I have to call your attention to the following letters to which I have not received any reply :-

April 30th, 1896-Re Electric Light Inspection.
May 1st, 1896-Re Insufficient vouchers.
June 4th, 1896-Re Inspection of Weights, Measures and Gas.
I am publishing these letters in my report and would like to have your replies appear with them. To do so I will need to hear from you before the close of next week.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G. .

\section*{Inland Revenue Department, Ottawa, January 26, 1897.}

Sir,-In reply to your communication of l5th instant, in which you draw attention to certain unanswered letters:-

The first has reference to electric light inspection. In your letter of 30 th April, 1896, you ask: "What means have you of determining that all companies doing busi-

\section*{Auditor General's Report-Part T}
ness have paid the annual fee?" In reply to this inquiry I may say that the Dominion is divided into Inland Revenue collection divisions, presided over by collectors. It was in order that the whole territory might be covered that the collectors of Inland Revenue were made responsible for the annual registration fees. Beyond their recognized intelligence and long tried obedience to official instructions, the department has no proof that some company has not registered. The Act is being administered tentatively, and new companies are springing up every month or two, and the organization of the Excise Brauch is being made use of until the more technical branch has been fully established.

You ask that the counterfoils of the receipts for payments made to the department should be furnished to your department. This cannot well be done. They are retained by our collectors for the departmental audit which is made by our inspector staff. The suggestion made in your last paragraph that "a monthly return should be furnished by each inspector showing the date of each inspection, the name of the person for whom made, the capacity of the meter inspected and the amount of fee," is utterly impracticable, with the limited means at our command. Every certificate issued bears a stamp, for which the inspector has to pay-a duplicate certificate comes to the department for financial and statistical purposes, and these certificates are open to inspection and audit at any time. To require a triplicate of these for the Department of the Auditor General would only increase the clerical work of men whose chief duties and knowledge are technical, and would, in no way that I can see, add a single safeguard to the collection of the revenue.

Your letter of the lst of May, I find, was referred to the chief accountant with the following endorsation :-" \(7-5-96-\mathrm{Mr}\). Campeau,-As I understand it we have the affidavit of the officers in charge as to the quantity of alcohol used in the production of fulminate, the quantity of fulminate produced therefrom, and a statement that the whole quantity so produced has been exported, this latter endorsed by the Customs officer who witnessed its exportation. I presume these papers can all be available to the Auditor General.-(Signed) E. Miall." To this he replied as follows :-
"Besides the papers furnished by our officers we have also the certificate of receipt from U.S. officer, but unless the department procure these papers in duplicate I would not advise to part with them, especially for the Auditor General's Department, where our vouchers are kept for over a year before they are returned.-(Signed) F. R. E. Campead, Accountant-16th May, 1896."

I then filed it away with the intention of bringing the whole question before the Honourable the Treasury Board, so soon as the department has a direct representative thereon.

Professional audits are generally made where the books are kept and where refer. ence may be had to all the detailed documents. Every letter which emanates from your department the more clearly convinces me that the usual method is the proper one, and that if the audit of Revenue accounts is to continue to be entrusted to your department, some officer, paid by your department, should be detailed to check the financial accounts of this department from day to day, or week to week. He could then have access to original documents. It must be borne in mind that the officers of this department are responsible to the Government and to Parliament, and the practice of parting with original papers, in the absence of which improper views of their action might prevail, is much to be deprecated.

I am, sir, your obedient servant,

\section*{Audit Office, Ottawa, February 2, 1897.}

Sir,-I have your letter of the 26 th ultimo in reply to mine of the 15 th . Your letter is based on the assumption that whenever it is not quite convenient for your department to furnish the vouchers which it appears to this office, as auditors of your revenue account, should be produced, you are quite at liberty not to furnish them, and
what, to my mind, is still less excusable, to decline to answer an application for as many months as you wish-in this case eight. Why don't you go a step farther and claim the right to appoint the auditor? How do you suppose that it is possible for this office to have ready for Parliament on January 15, a report on expenditure and revenue for a year ended on the previous June 30, when it takes four months to print the report, if the department whose accounts are examined and reported upon assume that they have a right to leave unnoticed until after the report should be in print requests for information on the accounts?

You intended to bring the question before the Treasury Board as soon as your department had a representative at the board, but you did not carry out the intention. Your minister has been a member of the board for over seven months.

It appears to me fair to assume that the method of audit, the vouchers to be furnished and the place or places where the audit is to be made are, if not settled by higher authority, the function of the auditor, the man who is to examine and scrutinize, rather than that of the person whose acts are to be examined and scrutinized. Are not sections 50 and 51 of the Audit Act sufficiently explicit in this direction?

Mr. Campeau knows well that there was no difficulty in arranging with your department to have ready access to the vouchers for expenditure when you feared similar inconvenience should those vouchers leave your hands.

I shall send this correspondence to the Treasury Board, so that the Government may have notice of the report, which I have to make to Parliament, of the assistance which is given to this office in its efforts to examine the revenue accounts of your department.

I am, sir, your obedient servant,
The Commissioner of Inland Revenue.
J. L. McDOUGALL, A.G.

\section*{Inland Revenue Department, Ottawa, February 4, 1897.}

Sir,-I have the honour to acknowledge the receipt of your communication of the 2 nd instant in reply to mine of the 26 th ultimo.

I quite concur in the wisdom of your determination to bring the matter before the Honourable the Treasury Board, but before doing so, I must ask you to correct a misquotation from my letter. You make me to say:"I intended to bring the question " before the Treasury Board as soon as this department had a representative at the Treasury Board." If you will refer again to the original you will see that I said a " direct representative."

I am quite aware that the Hon. the Minister of Trade and Commerce is on that board, but most matters which are referred to that board are matters of detail which can only be familiar to some one daily and hourly in touch with the department. The Hon. the Minister of Trade and Commerce has his mind fully occupied with larger matters than the petty details of the Inland Revenue and Customs administration, though these, as to general policy, are under his jurisdiction and control, and all these smaller matters require time and attention, which \(I\) have found by a lengthy experience to be a limited quantity.

The whole tendency of the practice during the past few years has been towards the disintegration of the individual departments through general regulations made in ignorance of their specific requirements, and I am quite of opinion that if the whole subject were re-considered, many inconsistent regulations would be cancelled in favour of others drawn up with a view to meet the special wants of each department.

I am, sir, your obedient servant,

\section*{Auditor General's Report-Part T}

\section*{Audit Office, Ottawa, February 8, 1897.}

SIR,-I send you herewith a copy of correspondence with the Commissioner of Inland Revenue, in reference to certan returns and vouchers, that I requested him to furnish.

As Mr. Miall's letter indicates, the returns and vouchers asked for have not been furnished. The audit of the account affected is necessarily incomplete.

The commissioner does not refer in his letter to my letter \(r e\) weights and measures revenue. The returns I asked for were a departmental stamp account and a stamp account from each inspector. Similar returns are furnished by the Post Office Department, and provide a means of making an effective audit.

The objection to furnishing the returns and vouchers in reference to electric light is the extra amount of work involved. As the return asked for is merely a copy of the inspector's cash book, and the vouchers, the counterfoils of the receipts issued, the additional work placed on the inspector should not be very great.

The objection to furnishing the vouchers in connection with the refunds for crude fulminate was previously raised as to the vouchers for expenditure. These have been furnished for some years, and seemingly no difficulty has arisen therefrom, as very few applications have been made for the return of a voucher while in our hands. The Customs Department, where the refunds and drawbacks are five times more numerous than in the Inland Revenue Department, furnish all the papers and vouchers in connection with each payment.

As the present system of conducting the work of this office is the outcome of the Act of Parliament establishing an Audit, and has now been in successful operation for over 18 years, it does not seem necessary to discuss the serious objections there are to the adoption of the suggestion of the commissioner which would change the whole system.

I trust that this correspondence sufficiently indicates the necessity of the Board's dealing at its earliest convenience with the subject.

I am, sir, your obedient servant, The Secretary, Treasury Board.

\section*{Bounty on Steel Billets.}

Correspondence continued from page T-83.
Audit Office, Otrawa, February 8, 1897.
Site,-I enclose papers connected with a claim of the Nova Scotia Steel Company (Ltd.) for bounty on Steel Billets, from which you will see the nature of an uncertain factor in that claim-the manner in which the claim should be affected by the presence of Foreign Pig Iron in the charge.

There must be at least \(50 \%\) of the charge Canadian Pig Iron made in Canada from Canadian ore. There apparently may be Foreign Pig Iron as part of the other ingredients, but having been imported as pig iron and not as ore, should the bounty accrue on the whole weight of billets produced, or should a deduction be made for that proportionate weight of the ingredients as if the ingredient had been in the ore, or should it not?
Z. A. Lash, Esq., Q.C., Toronto.
J. L. McDOUGALL, A.G.

Toronto, February 11, 1897.
Sir-Replying to your letter of the 8th inst. submitting case for opinion. I beg to say :-- By 57-58 Victoria, Cap. 9, the Governor in Council may authorize the payment of "a bounty of two dollars per ton on all steel billets manufactured in Canada from pig iron (made in Canada from Canadian ore) and such other ingredients as are neces-
sary and usual in the manufacture of such steel billets, the proportion of such ingredients to be regulated by Order of the Governor in Council ; provided that in computing the bounty no payment shall be made with respect to foreign ores used in the products herein mentioned."
(2.) By Order in Council approved on 22nd June, 1895, provision was made for the payment of a bounty of two dollars per ton on steel billets, the Order in this respect following the words of the Statute quoted. The proportion of the other ingredients to be used in the manufacture is thus stated-" not more than fifty per cent of the total weight, and may consist of ferro-manganese, spiegel, ferro-silicon, scrap iron or scrap steel, and such other ingredients, and in such proportions as are nece:sary and usual in the manufacture of steel billets."
(3.) The Nova Scotia Steel Company, Limited, manufactured steel billets, and from the papers sent I gather that in such manufacture a certain quantity of foreign pig iron was necessary and usual, and was used. The question asked is whether, (under the proviso in the Statute, that in computing the bounty no payment shall be made with respect to foreign ores used in the products,) a deduction should be made from the total weight of the billets to represent the foreign pig iron which was used, or whether the whole weight of the billets as manufactured should be regarded in computing the bounty. I gather from the papers that more than fifty per cent of the total weight resulted from the use of pig iron made in Canada from Canadian ore.
(4.) I am of opinion that, under the Statute and Order in Couracil, the bounty is payable upon the total weight of the steel billets, unless foreign ores have been used in their manufacture. If foreign ores have been so used, a deduction must be made with respect to them. In other words, the weight of the other ingredients (except foreign ores), which are necessary and usual in the manufacture of the billets, must be computed.
(5.) I am of opinion that foreign pig iron cannot be coasidered as foreign ore within the mean ng of the Statute or Order in Council. There is nothing in the context to extend the meaning of the word "ore" beyond its ordinary common meaning, and this meaning does not, I think, include pig iron made from it. If it were necessary to deduct anything for foreign pis iron because it was made from foreign ore, it would be equally necessary to make a d duction for such scrap iron, scrap steel, or other like ingredients used in the manufacture of the billets as may have been made from foreign ore. Therefore, as more than fifty per cent of the total weight of the billets resulted from the use of pig iron made in Canada from Canadian ore, and as the other ingredients used were authorized by Order in Council, and as foreign ore was not used, I am of opinion that in computing the bounty upon the billets manufactured by the Nova Scotia Steel Company, the total weight of those billets must be taken.

I return the papers sent, and have the honour to be, Your obedient servant,

    The Auditor General.

[^15]:    *Refund of amount paid years ago for land that was not patented to him, as it was required for canal purposes.
    tA refund cheque was issued January $12 \mathrm{th}, 1893$, in favour of S . Colt. It was refused and re-deposited in 1894-95, (see Audit Report, 1894-95, page G-107). This amount is now reissued.

[^16]:    *Travel of Judges in Manitoba, North-west Territories and British Columbia paid under Supply Bill.See page I-6.

[^17]:    " upon some special duty away from his home he is allowed his living expenses, * * * because "ordinarily his expenses at home are going on while he is on this special duty." I desire to bring the full history of the case to your notice and to point out that it is not one of ordinary travelling expenses.

    Under the authority of an Order in Council, dated May 21, 1894, Mr. Foster, endowed with all the powers of warden, proceeded from Ottawa to New Westminster to take charge of the penitentiary there, consequent upon leave of absence having been granted to the then warden, Mr. McBride. It appears that Mr. Foster on arrival at New Westminster put up at the Guichon Hotel, as the first account for travelling expenses rendered by him contained a charge for board there to June 30, 1894, at the rate of $\$ 2.50$ per day. During the four succeeding months--to October 31 , he continued at this hotel, his board having been paid at the rate of $\$ 50$ per month. Towards the end of October the services of Mr. McBride were dispensed with, and it would appear that on November 1, 1894, Mr. Foster moved into the warden's quarters, as from this date he did not send regular monthly accounts for board, but merely transmitted to the department for payment the several accounts rendered him in this respect by the various merchants with whom he deait. There has been paid for accounts thus transmitted for the period from November 1 to July 31, 1895, the sum of $\$ 479.21$. Now it must be remembered that during all this time Mr. Foster was in possession of free quarters at the penitentiary, that he was paid, under authority of a special Vote of Parliament, at the same rate as if he were permanent warden, and that apparently his place of residence was New Westminster. The payment of his living expenses could not, therefore, have been to ensure him against pecuniary loss, unless it can be shown that during the period in question he was obliged to maintain his ordinary household expenses elsewhere.

    The department, it seems to me, should have accepted the Vote of Parliament increasing Mr. Foster's salary as an evidence that he was to be treated, in regard to perquisites and allowances, in all respects as if he were a permanent warden. I notice that of the sum $\$ 479.21$ to which objection is taken, $\$ 201.60$ was paid during the fiscal year 1894-95, and the balance in June, 1896, or nearly twelve months after Mr. Foster had ceased to act in the capacity of warden at British Columbia.

[^18]:    * Residence valued at $\$ 400$. $\dagger$ Residence valued at $\$ 600$.
