158a. Return to an Order of the House of Commons, dated 27th April, 1885, for a Return showing :

1. How many industrial schools for the instruction of Indian half-breed youth have been established in the Province of Manitoba and the North-West Territories respectively, under the authority and by permission of the Government of Canada, and where they are located. 2. At what places lands have been surveyed and set apart for Indian half-breed schools in 1884, and what quantity at each place. 3. Through whose representations and recommendations these half-breed schools are established from time to time, and whether any request from the Indian half-breeds themselves is required for the establishment of a school. 4. What subjects of instruction are provided for these schools in regard to industrial pursuits, moral and religious, and are both sexes included in the general school provisions. 5. Whether any of the Indian half-breed schools are placed under the care or supervision of any religious body or denomination ; if so, what are the conditions upon which such control is granted, and what is the extent of the denominational control, and is it, to the extent granted, a temporary or permanent control ; if there are denominational schools, what is the number belonging to each denomination, where they are located, and what quantity of land is owned or controlled by each, and what is the number of pupils. 6. Whether, when the moral and religious instruction of an Indian half-breed school is placed under the supervision or control of any denomination, it gives to the denomination control of the land and buildings of such school. 7. At whose cost the Indian half-breed school buildings are erected and furnished, and under whose directions the text books are selected or compiled, and by whom they are paid for. 8. What standing of attainment is required of teachers in these schools ; how and from whom they receive certificates of qualification, and whether there is a system of Governmental inspection of these Indian half-breed schools. 9. Whether the teachers and trustees or managers of these schools are required to make any periodical returns to the Government of the attendance, general condition, progress and expenditure of each. 10. Whether any of the religious denominations have obtained lands for church or school purposes from the Government or from any Indian reservation by treaty or otherwise. 11. Whether any of the religious bodies, on their own responsibility, have established schools among the Indians or half-breeds, and if they have, whether they receive any assistance directly or indirectly by land grants or otherwise for the support of such schools from the Government. Presented to the House of Commons, 18th July, 1885.—*Mr. Kirk* *Not printed.*

159. Return to an Address of the House of Commons, dated 12th February, 1885, for copies of all correspondence, petitions and Orders in Council, relating to any applications by or on behalf of any railway company elsewhere than in Manitoba or the North-West, for aid or additional aid. OFFICE OF THE SUPERINTENDENT OF INSURANCE,

OTTAWA, 21st July, 1884.

To the Honorable

Sir LEONARD TILLEY, C.B., K.C.M.G.,

Minister of Finance.

SIR,—I have the honor herewith to submit the statements in detail of Insurance Companies for the year 1883, together with such an abstract and analysis of them as appeared proper to exhibit the progress of the business and the condition of the Companies.

FIRE AND INLAND MARINE INSURANCE COMPANIES.

At the beginning of the year 1883 there were twenty-nine (29) companies in operation, and two new companies, The National Insurance Company of Ireland and the Caledonian Insurance Company of Glasgow, were admitted during the year, while one, the Scottish Imperial, retired. Since the close of 1883, two other companies, the Sovereign (formerly the Isolated Risk) and the Anchor, both of Toronto, have retired, and the "Glasgow and London," of Glasgow, has been admitted, having taken over the business of the Sovereign.

Of these 30 active companies at the end of 1883, there were 8 Canadian, 18 British and 4 American. The business of Fire Insurance was done by 29 of these, while Inland Marine Insurance was transacted by 6 of them (4 Canadian and 2 American). Ocean Marine was also transacted by 4 of them, 3 Canadian and one American, but this business is mainly in the hands of companies which do not report to this Department, no license being required for companies doing this class of business exclusively.

FIRE INSURANCE IN CANADA, 1883.

The business of the year has been characterised by a large increase of volume, and by a considerable rise in the rate of premium, the latter circumstance being probably due to a combination of the companies for the adoption of a tariff, whereby they have been able better to adapt their rates to the circumstances of a locality, and also to equalise the expenses entailed on them by the imposition of municipal taxes or license-fees imposed in some places. The loss-rate, though somewhat larger than in the previous year (63·14 against 63·01) is still less than the corresponding rates in eight out of the fourteen previous records, and has now reduced the general average of the fifteen years to 77·67.

Comparing the net amounts insured at the end of 1883 with that of our earliest year 1869, being respectively \$572,264,041 and \$183,359,809, it will be seen that the

amount has, in this time, been more than tripled. About two-thirds of this insurance is held by British Companies, and less than one-thirteenth by American, while the remainder is held by Canadian.

FIRE PREMIUMS AND LOSSES IN CANADA IN 1883.

The cash received for premiums during the year in Canada has amounted to \$4,624,741, being in excess of that received in 1882 by \$395,035; and the amount paid for losses has been \$2,920,228, which exceeds that paid in 1882 by \$255,242. The ratio of losses paid to premiums received is shown in the following table:—

FIRE Insurance in Canada, 1883.

	Paid for Losses.	Received for Premiums.	Rate of Losses paid per cent. of Premiums received.	The same for 1882.
	\$	\$		
Canadian Companies.....	760,430	1,091,801	69·65	71·01
British do	1,992,671	3,178,850	62·69	60·80
American do	167,127	354,090	47·20	56·53
Totals.....	2,920,228	4,624,741	63·14	63·01

The corresponding results for the fifteen years over which our records extend are given below:—

FIRE Insurance in Canada.

	\$	\$	
1869	1,785,539	1,027,720	57·56
1870	1,916,779	1,624,837	84·77
1871	2,321,716	1,549,199	66·73
1872	2,628,710	1,909,975	72·66
1873	2,968,416	1,682,184	56·67
1874	3,522,303	1,926,159	54·68

1876	3,708,006	2,867,295	77·33
1877	3,764,005	8,490,919	225·58
1878	3,368,430	1,822,674	54·11
1879	3,227,488	2,145,198	66·47
1880	3,479,577	1,666,578	47·90
1881	3,827,116	3,169,824	82·83
1882	4,229,706	2,664,986	63·01
1883	4,624,741	2,920,228	63·14
Totals.....	48,967,296	38,031,507	77·67

Taking the totals for the same fifteen years, according to the nationalities of the companies, the following are the results:—

FIRE Insurance in Canada for the Fifteen Years—1869-1883.

	Premiums received.	Losses paid.	Rate of Losses per cent. of Premiums.
	\$	\$	
Canadian Companies.....	16,776,605	12,719,965	75·82
British do	28,278,026	22,378,596	79·14
American do	3,912,665	2,932,746	74·96
Totals.....	48,967,296	38,031,307	77·67

If we had excluded from these tables the year of the disastrous fire in St. John (1877), the average loss-rate would have come out 65·35, and although this rate is certainly high, it cannot be called excessive.

Some indication of the relative condition of the business of Fire Insurance in the different Provinces is given by the following return furnished by six of the companies operating therein. Of course, this is not the whole business done:—

	Net Premiums.	Losses Paid.	Loss-Rate.
	\$	\$	
Ontario, Quebec and Manitoba.....	1,229,325	774,993	63·04
Nova Scotia	138,050	61,921	44·85
New Brunswick	98,987	45,281	45·74
British Columbia	31,159	11,727	37·64

FIRE INSURANCE IN FORCE IN CANADA, 1883.

The total net amount insured by fire-policies in Canada at the end of 1883 was \$572,264,041, shewing the large increase over that at the end of 1882, of \$45,407,563. By far the largest share of this increase has fallen to the British Companies, although the American Companies shew also a considerable gain. The Canadian Companies, unfortunately, have again experienced a large falling off.

The distribution is as follows:—

	Net in Force 1883.	Increase <i>i.</i> Decrease <i>d.</i>
	\$	\$
Canadian Companies	149,930,173	<i>d</i> 2,633,906
British do	380,613,572	<i>i</i> 41,093,518
American do	41,720,296	<i>i</i> 6,947,951
Total.....	572,264,041	<i>i</i> 45,407,563

The details of the increase and decrease for the individual Companies, are as follows:—

CANADIAN COMPANIES.

INCREASE.—London Mutual, \$451,704; Quebec, \$129,716; Royal Canadian, \$801,237; Western, \$3,705,111. Total, \$5,090,768.

DECREASE.—British America, \$1,961,988; Citizens', \$1,853,154; Sovereign, \$3,909,532. Total, \$7,724,674.

Total decrease, \$2,633,906.

BRITISH COMPANIES.

INCREASE.—Caledonian, \$6,526,593; City of London, \$2,322,903; Commercial Union, \$1,264,431; Fire Insurance Association, \$2,432,010; Guardian, \$1,835,689; Imperial, \$957,413; Liverpool and London and Globe, \$2,074,632; London and Lancashire, \$1,223,694; London Assurance, \$312,081; National of Ireland, \$2,655,093; North British, \$2,826,287; Northern, \$2,179,837; Norwich Union, \$988,048; Queen, \$236,767; Royal, \$17,834,667; Scottish Union, \$2,148,738. Total, \$43,318,883.

DECREASE.—Lancashire, \$1,057,642; Phoenix of London, \$521,119; Scottish Imperial, \$5,646,604. Total, \$7,225,365.

Total increase, \$41,093,518.

AMERICAN COMPANIES.

INCREASE.—Aetna Fire, \$68,870; Agricultural of Watertown, \$2,574,913; Hartford, \$3,416,400; Phenix of Brooklyn, \$887,768.

Total increase, \$6,947,951.

PREMIUMS AND LOSSES COMPARED WITH RISKS.

The net amount at risk at the end of the year being \$572,264,041, and the premiums charged thereon being \$6,152,317, it follows that the average rate of premium on every \$1,000 at risk was \$10.75, which is identical with that of 1878, the highest of all from 1875; the rates having been as follows:—

	1875.	1876.	1877.	1878.	1879.	1880.	1881.	1882.	1883.
Rate	10-60	10-66	10-72	10-75	10-51	10-57	10-61	10-52	10-75

The same result is indicated if we consider the premiums charged on the whole amount of risks entered on during the year, thus including for each company the short-term risks as well as those re insured, and giving a rate which may fairly be considered as that at which business has been done during the year. In this way the average rate of premium charged on each \$1,000 of risks taken comes out \$10-528, as against \$10-147, which was the corresponding rate in 1882. The individual rates for the different companies will be found in an annexed table, and will be seen to vary a good deal, as was to be expected, considering the varieties of the business done by the companies.

Obtaining an approximation to the losses incurred during the year, by excluding the payments for losses outstanding at the beginning of the year, and including the amounts estimated for those of the year still unsettled, the ratio of the losses incurred to premiums received comes out 66-11 per cent., which is slightly lower than the 66-37 of the previous year. The following are the corresponding rates from 1878. It would, however, be more proper to compare "losses incurred" with premiums "earned," but the latter cannot be got from the returns:—

	1883	1882.	1881.	1880.	1879	1878.
Canadian	71-17	72-84	112-04	54-50	67-81	52-11
British	65-94	65-27	72-14	37-28	67-83	47-24
American	52-05	54-33	60-94	46-73	79-30	59-13
Total	66-11	66-37	83-94	43-82	68-63	49-67

The losses incurred (approximate) during the year, compared with the amount of risk current (taking for this the mean of the amounts in force at the beginning and end of the year), have been at the average rate of \$5.56 per \$1,000 current risk. The corresponding rates for 1881, 1882, were \$7.35 and \$5.68 respectively.

The losses are, however, distributed very unevenly among the different companies, as appears from the following, computed on the above basis; where, for convenience of comparison, the corresponding rates for 1882 are appended within brackets:—

London Mutual, 1-81 (1-46); Agricultural of Watertown, 1-97 (1-54); Scottish Union and National, 3-41 (6-16); Scottish Imperial, 3-48 (5-27); Guardian, 3-74 (5-04); Liverpool and London and Globe, 4-41 (4-12); North British, 4-34 (6-01); Royal, 4-59 (4-39); Phenix of Brooklyn, 5-00 (1-87); Sovereign, 5-26 (5-03); British America, 5-76 (4-63); Norwich Union, 5-80 (6-22); Lancashire, 6-19 (5-62); Royal Canadian, 6-25 (6-05); Northern, 6-31 (7-94); Imperial, 6-50 (5-43); London Assurance, 6-53 (4-55); Western, 6-55 (6-26); Hartford, 6-57 (5-40); Citizens', 6-71 (7-55); Queen, 6-86 (7-86); Quebec, 7-26 (7-32); Phenix of London, 7-71 (6-51); Commercial Union, 7-72 (8-93); Aetna, 7-81 (10-45); London and Lancashire, 8-03

(1843); Fire Insurance Association, 8·07 (9·05); National of Ireland, 8·26 (—); Caledonian, 10·01 (—); City of London, 10 37 (24 49).

The annexed table gives the gross amounts of risks taken by the several companies during the year, and the premiums charged thereon, and also the distribution of losses, with the proportionate rate of premiums to risks, and the proportion of the amounts paid for losses and received for premiums during the year. For convenience of comparison the rates of 1882 are appended. It must be noted that the premiums in the second column are those charged on the whole gross amount of risks taken by each company during the year.

BRITISH FIRE COMPANIES.

The total cash receipts from premiums were \$3,178,851, being an increase of \$270,395 over the previous year; the payments for losses were \$1,992,672, being \$224,229 more than for 1882; while the general expenses amounted to \$746,382, being \$87,880 more than in 1882, thus leaving a balance of \$439,797 in favor of the Companies; last year this balance was \$431,511.

The following detail gives the balances for the different companies:—

Balances in favor.—Caledonian, \$36,276.29; City of London, \$29,714.43; Guardian, \$37,024.44; Imperial, \$63,649.35; Lancashire, \$35,127.54; Liverpool and London and Globe, \$43,298.90; London Assurance, \$8,945.68; National of Ireland, \$10,990.14; North British, \$46,642.55; Northern, \$46,718.47; Norwich Union, \$15,203.53; Phoenix of London, \$11,109.16; Queen, \$35,876.52; Royal, \$57,136.23; Scottish Union, \$22,942.98. Total, \$500,656.21.

Adverse Balances.—Commercial Union, \$18,629.56; Fire Insurance Association, \$21,560.86; London and Lancashire, \$4,546.00; Scottish Imperial, \$16,122.80. Total, \$60,859.22.

Total balance in favor, \$439,797.

Hence, for every \$100 of premiums received there was spent, on the average, \$62.69 in payment of losses and \$23.48 for general expenses, leaving \$13.83 for the companies. The rates of expenses to premiums received in the individual companies will be found on page xlix, ranging from \$19.83 per \$100 in the Commercial Union, to \$31.17 in the Fire Insurance Association, among the old companies; and being \$22.72 and \$46.32 in the Caledonian and National of Ireland respectively, which companies now report for the first time. The average rate for all the British companies is \$23.48, which is more than the rate in 1882 (\$22.64.)

Hence, these companies have done a very much larger volume of business at a higher rate of premium (\$10.340 per 1,000 as against 9,972 in 1882) and a higher rate of expense, accompanied by a higher rate of loss.

Collecting the results for the nine years, from 1875 to 1883, as regards the receipts for premiums and the expenditure of the British companies, we find:—

Paid for losses (1875-83).....	\$ 16,628,833
“ general expenses.....	4,362,215
	<hr/>
Total payments.....	\$ 20,991,048
Received for premiums.....	19,617,624
	<hr/>
Excess of payments over receipts.....	\$ 1,373,424

This adverse balance, due to the exceptional circumstance of the conflagration at St. John, in 1877, when the losses paid by the British companies amounted to nearly five millions, is thus seen to be in course of reduction, and will probably be reversed in three or four years more, unless some great disaster intervene.

AMERICAN COMPANIES.

The marine business of the Phenix of Brooklyn will be here included, rendering the result less favorable than would otherwise have been the case. Also, we include the small amount of inland marine insurance done by the Ætna.

The receipts from premiums were \$374,766; the payments for losses, \$195,264; and the general expenses, \$77,367—leaving a balance of \$102,135 for the companies. Last year this balance was \$62,244; hence, for every \$100 of premiums received, there was spent, on the average, \$52.10 in payment of losses, and \$20.64 in general expenses, leaving \$27.26 for the companies.

The balance of \$102,135 in favor of the companies is distributed as follows:—Ætna of Hartford, \$30,726.03; Agricultural of Watertown, \$19,319.91; Hartford, \$37,780.45; Phenix of Brooklyn, \$14,309.02.

The results of the total business of these companies, from 1875 to 1883, inclusive, are as follows:—

Paid for losses (1875-83).....	\$ 2,144,072
“ general expenses.....	482,193

CANADIAN COMPANIES.

In considering the Canadian companies, the business outside of the Dominion in Fire insurance of these companies has to be taken into account, as well as their Marine business, since a separation of expenses between these branches is not made.

The following table gives the distribution of their Fire business between Canada and elsewhere, and shows that the foreign business has been much less favorable than the home business in the case of two of the companies; the Quebec appears to have begun foreign business this year only; and in the remaining company, the result is largely in favor of the foreign business.

The assets of the seven Canadian companies doing Fire business, amounted, at the end of the year, to \$3,949,540, covering a total amount of insurance of all kinds of \$269,885,241, being at the rate of \$14.63 for every \$1,000 of insurance in force; they have also a reserve of subscribed capital not called up, amounting to \$2,667,193, making a total security of \$24.52 for every \$1,000 insured. The liabilities of the same companies amounted to \$2,238,060, made up as follows:—

Unsettled losses.....	\$ 371,970
Unearned premiums	1,759,343
Sundry	157,747
Total	\$2,238,060

The unearned premiums are here taken to be the *pro rata* proportions of the gross premiums for the time unexpired in the cases of Fire and Inland Marine insurance, and the whole premium in the case of a current Ocean risk. The surplus of assets over liabilities available for the protection of policyholders, independent of the reserve of subscribed capital not called up, amounts to \$1,631,480.

The capital stock of these companies, paid up or in course of payment, amounts to \$1,616,445, and the result shows a surplus of this capital to the amount of \$45,035

At the end of 1882 there was an impairment of \$385,397; this, however, included that of the Canada Fire and Marine Company, which does not appear in this year's statement, and in some other cases there has been a reduction of paid-up capital, made in accordance with special Acts of Parliament. The loss of the active companies during the year has been \$201,700; but \$110,400 of this is accounted for by dividends to shareholders paid this year but declared on the business of the previous year.

The following table gives the condition, at the end of 1883, of all the Canadian stock companies in reference to their surplus or impairment of paid up capital.

‡ Formerly the Isolated Risk.

A comparison of this, with the corresponding table for the previous year, enables us to gauge the progress of each company during the year, and shows the following results:—

Gain or improvement during 1883:

Anchor, \$1,779.09; London Mutual, \$20,143.16; Quebec, \$2,091.51; Royal Canadian, \$21.19.

Loss or deterioration during 1883:

British America, \$48,658.76; Citizens', \$18,572.92; Sovereign, \$27,193.76; Western, \$135,599.81.

Including the purely Marine company, and the whole business of the mixed Companies, as well outside as within the Dominion, it appears that the Canadian Companies have received, during the year 1883, a total cash income of \$3,168,510.42 (exclusive of \$90,235.00 received on account of capital stock), which is made up as follows:—

	1883.	The same in 1882.	The same in 1881.
	\$ cts.	\$ cts.	\$ cts.
Premiums.....	3,005,945 52	3,007,132 65	3,131,925 97

Total.....	3,168,510 42	3,188,397 39	3,332,020 17

In the same way, the cash expenditure during 1883 has been \$3,327,879.43, distributed into—

	1883.	The same in 1882.	The same in 1881.
	\$ cts.	\$ cts.	\$ cts.

Total	3,327,879 43	3,322,552 40	3,944,862 40

Hence, it appears that for every \$100 of income there has been spent, \$105.03, namely,—for losses, \$72.32; for general expenses, \$29.22; and for dividends to stockholders, \$3.49. Hence, also, for every \$100 of premiums received, there has been paid out \$76.23 for losses, \$30.80 for expenses, and \$3.67 for dividends to stockholders.

It is to be hoped that there may soon be a reversal of the unfavorable record shown by the above table for the past three years.

INLAND NAVIGATION AND OCEAN MARINE INSURANCE.

Including the Canadian business of the Phenix of Brooklyn and the Ætna, and the whole business in these branches done by the four Canadian companies, the following are the results of the year:—

For Inland Navigation.

Premiums received, \$114,494; losses incurred, \$94,278, of which were paid \$82,852, leaving a balance of \$11,426 of them still unsettled. There was also paid

during the year, \$46,916, on account of losses incurred in previous years, making the total payments during the year, on account of losses, \$129,768, while the total outstanding or unsettled losses at the end of the year were \$12,426.

Ocean Marine.

Premiums received, \$336,383; losses incurred, \$294,553, of which were paid \$254,936, leaving a balance of \$39,617 of them still unsettled. There was also paid during the year, \$38,051, on account of losses incurred in previous years, making the total payments during the year on account of losses \$292,987, while the total outstanding or unsettled losses at the end of the year were \$60,803.

The Inland Marine business has, therefore, been unprosperous, the losses incurred having amounted to 82·34 per cent. of the premiums received, while last year this rate was only 46·34.

The Ocean business, on the contrary, exhibits an improvement, the rate of losses incurred to premiums having been 87·57; and although this is unsatisfactory, it is better than either of the two previous years, in which the losses had actually exceeded the premiums by 6·86 and 1·38 per cent. respectively.

As already stated, the bulk of the Ocean business is transacted by companies which are not required to be licensed and do not report to this Department.

An abstract of the Inland Marine business will be found on page xxxvii, and details of this and the Ocean business for the individual companies, on page xxviii.

LIFE INSURANCE.

The prosperity which Life Insurance in Canada had shown during the three previous years has been continued during 1883, but there are indications that the rapidity of the advance is undergoing a check. The comparison of the new insurances effected during this and the previous year shows still a large increase, but not so large as any of the three previous years; and the relative amounts of insurance terminated by surrender or lapse have begun to increase, while since 1879 they had been steadily decreasing. It is to be hoped that this check may only be a temporary one, due to accidental circumstances.

The business has been transacted by 27 active companies, of which nine (9) were Canadian, eleven (11) British, and seven (7) American. During the year the British Empire took the place of the Lion; the Federal, of Hamilton, assumed the business of the Toronto Life, and the New York Life resumed the transaction of new business. In addition to the above, there were seven British and four American companies not taking new insurances, but still doing business connected with their old policies; and

the Dominion Safety Fund Life Association, which is a co-operative company, has continued its operations.

Insurances effected during the year.

The total amount of policies in Canada, taken during 1883, has been \$21,572,960, exceeding the amount taken in 1882 by \$1,460,205. The largest share of this increase has again fallen to the American companies, whose increase is \$937,675; that of the British companies is \$444,758, while in the Canadian companies the increase has only been \$27,772. This result is partly due to the resumption of business by the United States Life and the New York Life, the increase due to these two companies alone being \$924,400.

The respective amounts effected are:—

Canadian companies.....	\$ 11,883,317
British do	3,278,003
American do	6,411,635

so that the amount taken by the native companies exceeds that taken by the British and American together by over two million dollars. The following are the details of the increase or decrease among the respective Companies:—

Life Insurance in Force in 1883.

The total amount of insurance in force at the close of the Statements was \$124,196,875, which shows an increase of \$10,583,400 over that of the previous year, being distributed as follows:—

	Total in Force.	Increase.
Canadian companies.....	\$59,213,609	\$6,787,131
British do	23,511,712	1,182,344
American do	41,471,554	2,613,925
Total.....	\$124,196,875	\$10,583,400

Among the seven active American companies, the increase was \$2,967,417; while in the retired American companies, which had at risk \$7,109,766 at the close of 1882, the decrease has been only \$353,492, of which \$150,715 was terminated by death or maturity, and \$202,777, or less than 3 per cent. of the existing insurance, was terminated by surrender, lapse, or removal, indicating a stability in the business of these companies which is very remarkable.

Amount of Insurance terminated in 1883.

The amount of insurance terminated in natural course, namely, by death, maturity or expiry, was \$1,754,865, which is greater by \$230,162 than the corresponding

amount in the previous year; and the amount terminated by surrender and lapse was \$9,937,964, being greater than that in the previous year by the large amount of \$3,200,227; relatively, also, to the amount at risk, both these terminations are greater than in 1882, giving for every \$1,000 of current risk \$13.93 terminated in natural course, and \$78.90 by surrender and lapse. In the previous year, these rates were \$13.43 and \$59.35 respectively. The following table exhibits the rates for the last four years:—

The total termination amounts to about 53.60 per cent. of the amount of new policies. The actual amounts of termination were distributed as follows:—

	Naturally.	By Surrender and Lapse.
Canadian companies.....	\$720,380	\$5,042,399
British do	393,289	1,723,177

The details of the individual companies will be found on page lix.

Canadian Policies in Force.

The following table gives the number of Canadian Policies in force at the date of the Statements:—

—	Number.	Amount.	Average Amount of a Policy.
		\$	\$
Canadian Companies.....	37,471	59,213,609	1,580
British do	11,625	23,511,712	2,023
American do	25,638	41,471,554	1,618
Totals.....	74,734	124,196,875	1,662

The average amount of a policy in force, \$1,662, differs but slightly from that of the previous year, but the average amount of the new policies has, on the whole, decreased, having been, for Canadian companies, \$1,649; for British companies, \$1,929, and for American, \$1,965; the corresponding amounts last year having been \$1,617, \$2,259, and \$2,035.

The number of policies indicates probably about 70,000 lives insured; the returns of some of the companies, as regards the number of lives, are incomplete, nor, even if complete, could the effect of the same life being insured by several policies in different companies, be eliminated. I can only, therefore, give as an approximation, that out of 50,031 lives exposed to risk, the deaths were 455, giving, on the average, an annual death rate of 9.094 per thousand, which is somewhat higher than it was in 1882.

The following table gives the amount of income from premiums received by all companies, from 1869 to 1883, inclusive:—

PREMIUM—INCOME during the respective Years—1869–1883.

Totals.....	11,828,548	8,963,226	18,219,751	39,011,525

* These include the premiums received for their foreign business by the Canada and Sun, being for 1882, \$52,767, and for 1883, \$62,546. See p. lvi.

The total amount paid to policy-holders during 1883 is as follows:—

Death claims (including bonus additions).....	\$1,424,833
Matured endowments do	180,217
Annuityants	5,425
Paid for surrendered policies.....	244,144
Dividends to policy-holders.....	346,533
Total.....	<u>\$2,201,152</u>

The distribution of the payments among the different companies will be found on page lviii.

Hence, for every \$100 premiums received, there has been paid to policy-holders \$57.36, leaving \$42.64 to be carried to reserve, expense and profits.

Taking the mean of the amounts in force at the ends of 1882 and 1883 to represent the amount of risks current for the year, and comparing it with the premiums received and the claims paid (excluding the annuity business), we find the following results:—

The average rate of premiums received for every \$100 of current risks is:—In Canadian companies, \$2.96; in British, \$3.08; in American, \$3.52; and for all companies the average is \$3.17.

The average rate of claims paid for every \$100 of current risks is:—In Canadian companies, \$1.01; in British, \$1.94; in American, \$1.45; and for all companies the average is \$1.34.

Canadian Companies.

The condition of the Canadian companies will be found exhibited in the statements under their respective headings. In the calculation of the re-insurance reserve, the Ontario Mutual employs the old Actuaries' Table, taking terminal values at 4 p.c. interest, and the Life Association employs the Carlisle Table with 5 p.c.; all the others employ the Institute H.M. Table with 4½ p.c. interest. I see no reason for recommending at present that the rate should be reduced to 4 p.c., as the average rate of interest earned during this year has exceed 6½ p.c.

From these tables it appears that the Canadian companies have received an income of \$2,216,319.28, drawn from the following sources:—

	1883.
	\$ cts.
Premiums and annuity sales.....	1,738,972 86
Interest and dividends.....	437,636 29
Sundry	39,710 13
Total.....	<u>\$2,216,319 28</u>

And they have expended \$1,277,540.00 under the following items:—

	1883.
	\$ cts.
Paid to policy-holders and annuitants.....	777,354 55
General expenses.....	459,328 75
Dividends to stockholders.....	40,856 70
Total.....	<u>\$1,277,540 00</u>

Hence, out of every \$100 of income, there has been expended in payment to policy-holders \$35.07; in general expenses, \$20.73, and in dividends to stockholders, \$1.84; leaving \$42.36 to be carried to reserve.

ACCIDENT AND GUARANTEE INSURANCE IN CANADA, 1883.

The business of Accident Insurance was transacted by five companies, viz:—3 Canadian (two of which combined it with Life Insurance), 1 American (also combined with Life), and 1 British, which combined it with Guarantee business.

The total accident premiums received in Canada were \$128,944, insuring an amount of \$25,178,925, and the sum of \$79,133 was paid for claims, with \$3,035 claims unsettled.

An abstract will be found on p. lx.

The Guarantee business was conducted by two companies, one Canadian and the other British, but some claims were also paid this year by the Citizens' Insurance Company, which had transferred its business in this branch to the Guarantee Company of North America. The premiums received were \$58,914, guaranteeing an amount of \$7,713,020, and the net amount paid for claims was \$26,421.

The Accident Insurance Company of North America, and the Guarantee Company of North America (both companies native) transact business outside of the Dominion, which is not included in the above.

LEGISLATION.

A bill was introduced at the past Session of Parliament, with reference to the co-operative or assessment companies doing business of Life Insurance. It was, however, withdrawn, in consequence of lack of time for its discussion, an unexpected opposition to it having been shown on the part of some of the regular Life companies. The bill itself and the proceedings in the House of Commons in relation to it will be found in a subsequent part of this Report.

Charters were obtained from Parliament for two Life Insurance companies—the “Temperance and General Life Assurance Company of North America,” and the “London Life Insurance Company.” The latter has hitherto been operating under an Ontario charter. In both these cases application was made for permission to transact Accident business as well as Life, but it was refused in both cases. An Order in Council was passed, 19th July, 1832, directing that in future no new license should be granted to a company, doing business of Life Insurance, to combine any other branch of insurance therewith.

At the present time there are seventy (70) companies under the supervision of this office, the nature of the business transacted by them being as follows:—

Number of companies doing	Life Insurance.....	39
“ “	Fire “	32
“ “	Inland Marine Insurance	7
“ “	Ocean Marine “	4
“ “	Accident “	6
“ “	Guarantee “	2
“ “	Steam Boiler “	1

The deposits for the protection of policy-holders, held by the Honorable the Receiver-General, in trust for these companies, at 12th July, ult., amounted to \$8,138,034.91, in securities as follows:—

Canada stock	\$1,229,736 41

Canadian Pacific and Canada Central Railway bonds.	230,340 00
Total	<u>\$8,138,034 91</u>

The total amount of premiums received for all forms of insurance was \$8,996,661, of which \$3,256,558 was received by Canadian companies, and \$5,740,103 by British and American. The following summary shows the distribution of these premiums to the various classes :—

Subscribed and sworn to, 26th February, 1884, by

JAMES W. TAYLOR.

(Received 27th February, 1884.)

* Continued business of the Scottish Imperial.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1882.

(Abstracted from Directors' Report, Edinburgh, 18th May, 1883.)

Fire Department:—

The premiums amounted to £65,666, and the interest on the Fire Funds to £11,742, the total revenue of this department being £77,412. The losses, including provision for those outstanding, amounted to £41,918. After meeting all losses and expenses, the available balance of profit on this account is £14,685. The Fire Funds, including paid-up capital, amounted, at the end of the year, to £263,752. The amount of fire losses, as stated above, is equal to 63·8 per cent. on the premium income. This, although greater by 4·7 per cent. than the loss ratio for the whole seventy-seven years of the Company's existence, is considerably less than that experienced by many other offices in 1882, which has been a particularly unfavorable year for Fire Insurance business.

Loans and Investments:—

An annual examination of these is made by a Committee of Directors, assisted by the Auditor, and it gives the Directors much satisfaction to state, as the result of the examination made after the close of the year 1882, that the most complete reliance may be placed on the safety and sufficiency of the Company's funds.

Dividend:—

It is recommended that from the profits of the Fire Department a dividend be declared of 17s. 6d. on each share of £25 (equal to £3 10s on a former share of £100), the dividend to be payable in equal portions, on 1st June and 1st December ensuing.

CALEDONIAN—Concluded.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST MARCH, 1884.

(Abstracted from Directors' Report, London, Eng., 22nd May, 1884.)

The premiums received, after deduction of re-assurances and returns, amount to £298,862 8s. 9d.

The losses paid and outstanding are £193,190 12s. 9d., being 64.64 per cent. of the premium income.

Considering the unfavorable conditions of Insurance business, which have prevailed during the year under review, the present statement of accounts is more favorable than might have been anticipated; and it is hoped that the readjustment of rates, both at home and abroad, will tend to bring premiums more fairly into proportion to risks incurred, and enable the Directors to look forward with confidence to an improved business in the future.

The surplus on the year's operations is £30,934 8s. 8d., out of which the Directors recommend that a dividend of 3 per cent., free of income tax, be declared on the paid-up capital of the Company, for the year ending 31st March, 1884, payable on the 12th June. This will absorb £6,000, leaving a balance of £24,934 8s. 8d. to be carried to the credit of the new account.

(Received, 1st March, 1884.)

GENERAL BUSINESS STATEMENT FOR YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, London, Eng., 3rd April, 1884.)

The Directors, in submitting the report and accounts for the twelve months ending 31st December, 1883, regret to have to record a year of numerous fires, both at home and abroad. The gross premiums for the year amounted to £298,480 7s. 4d.; and, deducting premiums paid to other companies for re-insurance, £54,350 10s. 6d., the net income is £244,129 16s. 10d. The losses paid and outstanding for the same period amounted to £180,542 9s. 5d., or 73·95 per cent. of the net premiums, and have been found to be, for the most part, on risks of a superior character. After

provision for all outstanding losses, expenses, commissions, State and other taxes at home and abroad, there remains a balance at credit of the Company of £20,373 14s. 8d. The Directors propose to carry this amount forward to 1884, and therefore do not recommend any dividend. In coming to this decision they feel they are not only studying the best interests of the Association, but in the course proposed they will have the support of the shareholders. The funds of the Company will stand thus:—Paid-up capital, £200,000; reserve fund, £50,000; balance to 1884, £20,373 14s. 8d.; besides an uncalled capital of £300,000, giving a total security of £1,070,373 14s. 8d.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1882.

(Abstracted from Directors' Report, 6th June, 1883.)

Fire Department :—The fire premiums, after deducting re-insurances, amounted to £312,794 15s. 7d., being an increase of £28,841 over last year, and the losses to £234,901 4s. 11d., being 75 per cent. of the premiums. These excessive losses have, as was the case last year, fallen more heavily on the home than on the foreign business. The experience of this Company, not being exceptional, will, it is hoped, tend to bring about a diminution of competition and higher rates of premium. After adding £13,000 to the Premium Reserve Fund for unexpired policies, the fire account shows a loss of £13,058 14s. 6d., which has been debited to the Fire General Reserve Fund. The Directors recommend that in addition to this sum a further sum of £7,941 5s. 6d. be taken from the Fire General Reserve Fund and transferred to the Shareholders' Account.

The Premium Reserve Fund to cover unexpired policies will then stand at £140,500, and the Fire General Reserve Fund, thus reduced, at £262,000. There will be, therefore, an aggregate fund (apart from the Shareholders' Capital) of £402,500 to meet fire claims.

(Received 5th March, 1884.)

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, Liverpool, Eng., 29th April, 1884.)

The net premiums (after deducting those paid away to other companies for re-insurances) amounted to £499,000. 7s. 10d., against £490,001. 6s. 7d. in the previous year. The net claims, adjusted and estimated for all fires occurring up to midnight of December 31st last, amounted to £324,978. 14s. 3d., against £343,151. 10s. 7d. in the previous year. The balance of the year's working, after deduction of commissions, management expenses, depreciations, and all other outgoings, and including interest on investments and other receipts, amounts to £43,289. 3s. 8d. Adding this sum to the balance of £35,682. 0s. 10d. in hand, brought forward from last account, there is an amount of £78,971. 4s. 6d. now to be dealt with. The Directors propose to pay, on 7th prox., a dividend, free of income tax, of 4s. per share, or 8 per cent. on the paid-up capital, which will absorb £14,816. They also propose to add £20,000 to the reserve fund, thereby increasing the latter to £230,000, and to carry forward the balance of £44,155. 4s. 6d. to next year's account.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, Dublin, 28th February, 1884.)

FIRE DEPARTMENT.

In the Fire Department there has been a material increase in the premium income, and after providing for all outstanding claims and expenses, there is a balance of £9,089 4s 2d.

PROFIT AND LOSS ACCOUNT.

The balance to the credit of the Company, at the commencement of the year, was £20,749 4s 6d; at the end of the year the balance was £51,546 19s 6d, from which has to be deducted £12,000, paid in dividends during the time, leaving now an available amount of £39,546 19s 6d. Out of this the Directors propose to add £10,829 5s 1d to the Fire Fund, bringing it up to £70,000; and they recommend the further payment of £8,000 as dividend for the year 1883, making, with the interim dividend of £6,000 paid in August last, £3 10s. per share, being 14 per cent. on the paid-up capital, leaving a balance of £20,717 14s 5d, as against £14,749 4s 6d, in the previous year.

(Received 4th March, 1884.)

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31st DECEMBER, 1883.

(Abstracted from Directors' Report, Edinburgh, 1st April, 1884.)

FIRE BUSINESS.

	£	s.	d.
In 1882 the net premiums received amounted to	1,086,566	14	8
During 1883 the premiums received amounted to	£1,399,418	17	0
Deduct re-insurance.....	291,673	7	3
Net premiums.....	1,107,745	9	9
Exhibiting an increase of.....	£ 21,178	15	1

The net losses by fire have amounted to the sum of £672,825 13s. 10d., which includes a full estimate of all claims that had arisen prior to 31st December, 1883.

After setting aside, as usual, one-third of the net premiums for the year, to provide for liabilities on current policies, the balance at the credit of Profit and Loss account for 1883 amounts to £223,303 15s. 4d. This includes the unappropriated balance, brought forward from 1882, of £57,895 12s. 6d, which, after providing for the dividend payable in October, 1883, on new shares, was reduced to £60,475.

LIFE BUSINESS.

During the year 1883 there were issued 894 policies, assuring £314,819, the new premiums on which amount to £29,572 1s. 5d. In 1882 the number of policies was 961, the sums assured were £912,590, and the new premiums were £32,877 4s. 9d.

The net amount insured in 1883, after deducting sums re-insured, was £723,418. The new premiums, after deducting those paid to the re-insuring offices, were £26,145 1s. 8d.

The income of the Life Branch, from premiums and interest, amounted, in the year 1883, to £471,497 15s. 7d.

NORTH BRITISH AND MERCANTILE—Continued.

During the year 296 deaths, by which 397 policies emerged, were proved, and 16 endowments matured. The sums which thus became payable amount, with bonus additions, to the sum of £346,122 4s. 4d., after deducting re-assurances.

It will be seen from the balance sheet annexed that the Life Assurance fund now amounts to £3,340,918 11s. 2d., showing an increase during the year of £66,082 12s. 1d. The whole of the fund is separately invested, and, by Act of Parliament, is set aside to meet the claims under this department of the Company's business.

ANNUITY BUSINESS.

In the Annuity Branch 83 bonds were issued, securing the sum of £5,390 12s. 7d. yearly of immediate annuities, and £855 yearly of survivorship annuities, for which the Company received the sum of £59,520 11s. 6d. by single payment, and £109 12s. 6d. by annual premium.

During the year 57 annuities have fallen in, relieving the Company of the sum of £4,087 9s. 8d. yearly.

(Received 27th February, 1884)

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1882.

(Abstracted from Directors' Report, Aberdeen, 8th June, 1883.)

FIRE DEPARTMENT.

The premiums received last year amounted to £460,126 6s. 0d., showing an increase of £8,639 5s. 7d. over those of the previous year.

The losses, as in most offices, were again heavy—even more so than they were in 1881, when, it will be remembered, they were above the average—and amounted to £334,184 14s. 6d., or 72·63 per cent. of the premiums. This ratio is higher than that of any year since 1866, and raises the general average of the Company's experience from the beginning to 59·07 per cent.

The expenses of management (including commission to agents and charges of every kind) came to £136,719 9s. 11d., or 29·72 per cent. of the premiums, showing an increase of ·43 per cent. compared with the previous year, and being almost the same ratio as in 1880.

The result is that, after reserving the usual 33 per cent. of the premiums for 1882 to cover liabilities under current policies, a loss was incurred on the year's operations of £13,657 13s. 7d., which sum has been restored to the Fire account out of the balance at the credit of the General account of Profit and Loss. (See Fire Account.)

(Received 6th March, 1884.)

 GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31st DECEMBER, 1883.

(Abstracted from Directors' Report, Liverpool, Eng., 14th May, 1884.)

FIRE BRANCH.

The premiums of the year, less re-insurances, are £589,310, as compared with £560,335, and the losses of the year paid and outstanding are £109,614, or 69·51 per cent., as compared with £440,906, or 78·68 per cent. of the previous year.

While the figures of the year exhibit a decided improvement on those of 1882, and result in a small surplus, the directors cannot regard them as satisfactory; but they consider that they mark a step in a gradual melioration which they believe is taking place in Fire Insurance business.

SURPLUS.

The surplus on fire account, including interest, is.....	£13,752	8	11
Interest and other items credited to Profit and Loss account.....	16,931	13	4
Proportion of Life profits.....	20,157	0	5
Total.....	£50,861	2	8

The directors have added £8,700 to the Fire Fund, and they now recommend payment of a dividend of ten per cent., free of income tax, which will absorb £18,003 10s. 0d., and the carrying forward to next account of the balance of £24,157 12s. 8d.

After giving effect to the foregoing, the funds will stand as follows:—

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(*Abstracted from Directors' Report, London, Eng., February, 1884.*)

LIFE DEPARTMENT.

The fourth quinquennial valuation to the 31st December, 1882, shewed, after providing adequate reserves, a surplus of £133,425, of which the sum of £126,000 was distributed, giving £25,200 to the shareholders, and £100,800 to the policy-holders, as compared with £20,000 and £80,000 distributed after the valuation of 1877.

The new business of the year consisted of 592 policies, assuring £404,103, and the new premiums were £13,839.

The net claims, following two years of comparatively light mortality, were unusually heavy, and amounted to £83,046, being in excess of the expectation both in respect of lives and sums assured.

The Life fund, notwithstanding the quinquennial bonus payments and exceptional losses by death, has slightly increased, and amounted, at the end of the year, to £812,525.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST MARCH, 1883.

(Abstracted from Directors' Report, Edinburgh, 3rd July, 1883.)

The number of policies issued was 1,049, insuring a total sum of £496,224 17s. 4d., and yielding in new premiums £18,688 18s. 4d., including £3,003 12s. 11d. by single payments. In all respects the new business of the year shows a gratifying increase upon that of the year preceding.

The sum of £3,556 19s. 5d. was received in the purchase of annuities amounting to £810 9s. 4d. The death of 13 annuitants during the year relieved the company of payments amounting to £396 5s. 10d. per annum.

The income of the year from premiums (after deducting reinsurance premiums paid) was £180,226 10s. 4d., and from interest and dividends, £76,014 1s. 6d., showing an increase in both branches of revenue.

The total income, £256,335 16s. 10d. exceeded that of the preceding year by £3,142 8s. 5d.

EDINBURGH LIFE—*Continued.*

The claims amounted to £117,169 5s. 1d. The mortality of the year has been highly favorable. The claim account is made up as follows:—

1. Participating policies:

Original sums assured.....	£ 71,016 18 0
Bonus additions.....	20,643 10 0

2. Non-participating policies.....

25,508 17 1

£117,169 5 1

After meeting the claims and all other items of expenditure, the sum of £90,267 4s. 2d. was added to the Assurance and Annuity Fund, which, at the close of the year, amounted to £1,797,117 8s. 11d.

The total assets of the company, at 31st March, 1883, amounted to £1,951,872 5s. 3d.

THE QUEEN—*Concluded.*

The income derived from new business is larger than was obtained in 1882, and is, with one exception, the largest in the Company's experience, while the addition to the Life fund is the largest in any year since the formation of the Company.

The actuary has completed his investigation for the quinquennium ending on the 31st December last, and the Directors are happy to state that the results are highly satisfactory. They show a cash profit of £80,628 1s. 9d., three-fourths of which—or £60,471 1s. 4d.—belong to the participating assured, and one-fourth—or £20,157 0s. 5d.—to the shareholders.

The share of surplus accruing to the participating assured will admit of a reversionary bonus of £1 10s. per cent. per annum, on the amount assured by all policies entitled to share in the division. The necessary calculations, allocating the bonus according to the various interests of the participants, are now being proceeded with, and when these calculations are completed, the usual certificates will be issued.

The valuation has been made in duplicate for all classes of assurances by the Institute of Actuaries' H. M. Table of Mortality, and the rate of interest assumed has been 3½ per cent. throughout.

The investigation has been very strict and searching, and the whole of the loading over and above the pure premiums of the H. M. Table, has been reserved for future profit and expenses.

(Received 7th April, 1884.)

 GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, London, Eng., 29th April, 1884.)

There have been issued, during the year, 515 new policies, for an aggregate amount of £274,153, producing premiums, including single payments, of £14,172 8s. 3d.

 *One policy for \$1,000 in last return as lapsed included.

RELIANCE MUTUAL—Continued.

The total net income from premiums, after deduction of sums paid for re-assurance, was £85,274 1s. 1d., and the entire revenue for the year, including interest and dividends upon investments, amounted to £110,295 9s.

The claims by death, and under endowment policies matured, were £53,635 0s. 6d., being less in amount than in the previous year, and within the expectation.

After payment of claims, expenses and all outgoings, including £3,951 4s. 11d., in cash bonuses, the sum of £24,121 0s. 1d., has been added to the accumulated fund, which has thus been raised to £580,079 14s. 8d.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, Glasgow, 1st May, 1884.)

747 policies were issued and taken up, assuring the capital sum of £451,966; the new premiums on which—including £1,649 1s. 4d. of single payments—amounted to £15,910 17s. 2d. In addition to this, the sum of £10,146 13s. 8d. was received for annuities granted during the year.

The number of deaths in 1883 was 245, and the consequent claims, including bonus additions, and after deducting re-assurances, amounted—excluding the two survivorship annuities for £110—to £164,753 10s. 7d.

The society has also paid the sum of £12,650 under policies which became claims by survivorship.

By the death of six annuitants the society has been relieved of payments amounting to £227 19s. 3d. per annum.

The accounts hereto appended show that the total income was £310,636 19s. 8d., and the total outgo, £218,539 2s. 6d., resulting in the sum of £92,097 17s. 2d. being added to the net funds, which, at 31st December last, amounted to £2,497,748 6s. 4d.

The total assurances on the society's books, at 31st December last, amounted to £7,791,645 1s. 4d., under 14,301 policies.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, 26th March, 1884.)

The new proposals accepted have been 1,694 in number, assuring capital sums amounting to £1,041,923. The new premiums were £37,885 12s. 11d., including £4,299 14s. 3d. by single payment. A further sum of £28,868 11s. 11d. was received as the price of annuities, including the engagements of a Widows' Scheme, which its members had resolved to wind up.

The claims in the year were very low—those emerging by death (of 316 members) being £199,109 16s., with £30,620 of bonus additions; and by maturing of endowment assurances, £4,400. The total claims were thus £234,129 16s., being somewhat under those of the previous year.

The premiums of all kinds received in the year were £454,413 3s. 2d.; or, deducting those paid for re-assurances, £451,133 10s. 1d. The total receipts of the year, including interest, were £641,496 7s. 3d.

The realized funds, according to the statement prepared for the Board of Trade (under deduction of claims not yet payable) amounted, at 31st December, 1883, to £4,736,292 19s. 11d., showing an increase during the year of £333,383 12s. 2d.—the largest in any year of the society.

APPENDIX.

CO-OPERATIVE LIFE INSURANCE.

Extract from Commons Debate (Hansard), March 11th, 1884.

Sir LEONARD TILLEY moved that the House resolve itself into Committee of the Whole to consider the following Resolution:—

"That it is expedient to amend the Consolidated Insurance Act, 1877, with respect to companies transacting the business of Life Assurance under the title of 'Co-operative Life Insurance Companies,' 'Mutual Benefit Associations,' and the like." He said: Perhaps I shall best explain the nature of the Bill and the necessity for it by reading a memorandum which has been placed in my hands by the Inspector of Insurance:

"Associations of the nature described in this Bill have been declared to be Life Insurance Companies by several decisions of the Courts in the United States; and, according to the opinion of our Department of Justice, come within the scope of our Life Insurance Statute, and cannot therefore legally do business in Canada without a license and without making the deposit of \$50,000.

"In their original form, these were institutions of a fraternal or benevolent character, merely collecting assessments on the death of a member to pay funeral expenses, or a beneficiary gift to the family. Thus, having no capital or accumulated funds, nor needing a reserve to be kept in hand, they would clearly be unable to comply with the Statute by making a deposit. It appears, therefore, to be necessary to apply special legislation to them (as has been done in most of the States of the Union), and the present Bill proposes in effect to exempt them from the operation of the Life Insurance Act under certain conditions, and thus to legalize the actions of the numerous benevolent associations which are at present under the ban of the law.

"Although the origin of these associations was as above stated, numerous companies have been started on the same system for the purposes of profit, and come into competition with the regular life companies, asserting that they can give insurance at a cheaper rate, and thus appealing successfully to a large class of the population. Whether such a system can be permanently carried on or not (which need not be discussed), it is clear that it opens a road for an immense amount of fraud; because, as the profits and charges for commissions and expenses are made on each assessment, the more numerous the deaths the greater will be the returns, and hence arises a temptation to increase the number of deaths by insuring bad lives and by other fraudulent artifices. This has been repeatedly done, as in the notorious 'graveyard' insurances in the State of Pennsylvania and elsewhere, immense gains having accrued to the managers before the inevitable collapse came. There seems no safeguards against this except:

"(1.) A directorate which shall be known to the people and whose characters may be judged of. This is attempted to be secured by requiring the Company to be incorporated within Canada.

"(2.) By requiring a full statement of their business and accounts annually or oftener. If these accounts are satisfactory, the Minister of Finance is empowered to exempt the Company from the operation of the Insurance Act, and to continue such exemption so long as the Company appears to be honestly and satisfactorily managed.

"The publication of these accounts in the Annual Report of the Superintendent of Insurance will insure all the publicity necessary to enable the public to judge the quality of the Company.

"The Government herein accept no responsibility except that of refusing the exemption when a company appears to be badly mis-managed or tainted with fraud; and the necessity of retaining this power of refusal may be illustrated by the fact

stated by the Commissioner of Pennsylvania, that out of 236 such companies organized under a Statute of 1876, it was found, in 1881, that 171 of these had been dissolved by the courts; 7 had voluntarily ceased business; 21 had failed to report to him, having probably become disorganized, and only 37 had reported to his Department.

"With regard to foreign companies, the Bill does not affect them, but leaves them as at present to enter Canada by complying with the Life Assurance Act. This is no hardship upon them, because if they are really benevolent or fraternal associations they can readily obtain incorporation for their Canadian branches; and if they are companies worked merely for the sake of profit, it is not too much to require that they shall make the deposit of \$50,000 as a guarantee of good faith, and be otherwise subjected to the same stringent rule of supervision as the regular life companies with whom they are competing."

As stated here, it has been decided that these companies are operating contrary to law. No action has been taken in any of the Provinces, that I know of, but communication has been had with the Government, urging that some step should be taken to authorize them to do business, and this measure is proposed for that purpose. It requires from these benevolent societies no deposits but it requires that they should be incorporated, that they should have offices for the transaction of business, and that they should transmit to the Inspector of Insurance, once a year, or as often as the Government requires, a statement of their business and organization.

SIR RICHARD CARTWRIGHT. Does it cover both American and Canadian companies?

SIR LEONARD TILLEY. It covers American companies, if by their branches they are incorporated—not otherwise.

Resolution considered in Committee, reported, read the first and second times, and concurred in.

SIR LEONARD TILLEY introduced Bill (No. 118) to amend the Consolidated Insurance Act of 1877, based on the Resolution.

Bill read the first time.

{(Bill referred to in preceding as introduced, but subsequently withdrawn)}

BILL.

An Act to modify the application of "The Consolidated Insurance Act, 1877."

WHEREAS it is expedient to amend "*The Consolidated Insurance Act, 1877*," with regard to companies transacting business of life insurance under the title of "Co-operative Life Insurance Companies," "Mutual Benefit Associations," and the like: Therefore, Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. The word "company" in this Act shall be construed and interpreted in the same manner as in the Act cited in the preamble; and a penalty imposed for contravention of this Act, the amount whereof is fixed by reference to any section of the Act aforesaid, shall be recoverable and applicable, in like manner as that imposed by such section, all the provisions whereof shall apply to it and to the offence for which it is imposed.

2. Any company incorporated within Canada, which transacts business of life insurance by covenanting to pay, on the death of a member of such company, a sum of money solely from the proceeds of assessments or dues collected or to be collected from the members thereof for that purpose, may, at the discretion of the Minister of Finance, on report of the Superintendent of Insurance, approved by the Treasury Board, be exempted from the operation of "*The Consolidated Insurance Act, 1877*," on the conditions hereinafter specified.

3. Companies to be thus exempted shall register their titles or corporate names in the office of the Superintendent of Insurance. They shall also make attested returns of their condition and affairs at such times and in such form, and attested in such manner, as is prescribed by the Minister of Finance; and the Superintendent of Insurance shall include such returns in his annual report. Any failure to make such returns when called for by the Superintendent of Insurance shall subject such company and any officer thereof to the penalty mentioned in the twenty-second section of the Act hereinbefore cited.

4. The registration of a company shall cease to be valid on the thirty-first day of March in each year, but shall be renewable, from year to year, at the discretion of the Minister of Finance.

5. No company shall carry on, within Canada, any business of the nature described in the second section of this Act, without being licensed under the Act above cited, or being registered under this Act; and any director, manager, agent or other officer of a company so doing business, and any person who transacts any business on behalf of such company, shall be liable to the penalty mentioned in the thirteenth section of the Act hereinbefore cited.

6. In the case of any contract of insurance entered into, or any certificate of membership or policy of insurance issued by any company, before the passing of this Act, assessments may be made and collected and claims paid and all business connected therewith transacted without any penalty being incurred.

OFFICE OF THE SUPERINTENDENT OF INSURANCE,

OTTAWA, 1st July, 1885.

To the Honorable

Sir LEONARD TILLEY, C.B., K.C.M.G.,

Minister of Finance.

SIR,—I have the honor herewith to submit the statements in detail of Insurance Companies for the year 1884, together with such an abstract and analysis of them as appeared proper to exhibit the progress of the business and the condition of the Companies.

FIRE AND INLAND MARINE INSURANCE COMPANIES.

Few changes have occurred during 1884 among the Companies operating in Canada—the Sovereign (Fire) re-insured in the “Glasgow and London,” of Glasgow, which is a newly licensed Company; and the Anchor (Marine) retired from business. Thus there were 29 active Companies during the year, all transacting Fire Insurance, and of these there were 6 Canadian, 19 British and 4 American. Inland Marine Insurance was also transacted by 6 of them (3 Canadian, 1 British and 2 American), and Ocean Marine by 4 of them (3 Canadian and 1 American); but this business is mainly done by Companies which do not report to this Department.

FIRE INSURANCE IN CANADA, 1884.

The business of the year has again exhibited a large increase of volume, transacted at a higher rate of premium (in which the effect of the combined action of the Companies in adopting a tariff is apparent), but also attended by a higher rate of loss. This loss-rate (65·17) does not differ much from the average of the fifteen ordinary years (excluding the year 1877, of the St. John fire), which is 65·33, and makes the average of the entire series, from 1869 to 1884, now stand at 76·51.

FIRE PREMIUMS AND LOSSES IN CANADA IN 1884.

The cash received for premiums during the year in Canada has amounted to \$4,980,128, being in excess of that received in 1883 by \$355,387; and the amount paid for losses has been \$3,245,323, which exceeds that paid in 1883 by \$325,095. The ratio of losses paid to premiums received is shown in the following table:—

FIRE INSURANCE IN FORCE IN CANADA, 1884.

The total net amount insured by fire-policies in Canada at the end of 1884 was \$605,507,789, showing an increase over that at the end of 1883 of \$33,243,743. By far the largest share of this increase has fallen to the British Companies, although the American Companies show also a gain. The Canadian Companies, unfortunately have again experienced a falling off, mainly due, however, to the transfer of the risks of a retired Company to a British Company.

The distribution is as follows :—

	Net in force, 1884.	Increase <i>i</i> . Decrease <i>d</i> .
	\$	\$
Canadian Companies.....	147,968,945	<i>d</i> 1,961,228

Total.....	605,507,789	<i>i</i> 33,243,748

The details of the increase and decrease for the individual Companies, are as follows:—

CANADIAN COMPANIES.

INCREASE.—British America, \$2,350,789 ; Citizens', \$7,977,087 ; London Mutual Fire, \$2,020,850 ; Quebec, \$475,187 ; Royal Canadian, \$1,046,625. Total, \$13,870,538

DECREASE.—Western, \$772,587.

To these must be added the risks of the retired Sovereign, \$15,059,179 ; making a total decrease of \$15,831,766. On the whole, there has been a decrease of \$1,961,228, but in the active Companies a net increase of \$13,097,951.

BRITISH COMPANIES.

INCREASE.—Caledonian, \$1,684,656 ; City of London, \$5,522,493 ; Fire Insurance Association, \$4,239,196 ; Glasgow and London, \$13,268,033 ; Guardian, \$1,120,403 ;

Imperial, \$375,585; Lancashire, \$861,136; Liverpool and London and Globe, \$902,304; London and Lancashire Fire, \$1,223,582; National of Ireland, \$1,491,470; North British, \$2,513,789; Northern, \$2,447,233; Phoenix of London, \$4,149,082; Queen, \$1,185,720; Royal, \$785,362; Scottish Union and National, \$235,662. Total, \$42,005,756.

DECREASE.—Commercial Union, \$4,860,656; London Assurance, \$790,991; Norwich Union, \$445,948; Scottish Imperial, \$3,080,535. Total, \$9,178,130.

Total increase, \$32,827,626.

AMERICAN COMPANIES.

INCREASE.—Ætna Fire, \$85,600; Agricultural of Watertown, \$3,356,362; Phoenix of Brooklyn, \$994,361. Total, \$4,436,323.

DECREASE.—Hartford, \$2,058,973.

Total increase, \$2,377,350.

At the end of the year 1869, the net amount insured was \$188,359,809; at the end of 1884 it had risen to \$605,507,789, being an increase of more than four hundred and seventeen millions in the fifteen years. Although this immense increase may partly be due to a larger use of insurance among the people, and partly to a transfer of risks from local Companies to the licensed ones, there can be no doubt that much the greater part of it is due to the growth of business and property in the Dominion. The annual fluctuations, extending over the period from 1869 to the present time, are exhibited in the following table, and coincide closely with the periods of depression and recovery in general business.

Net increase between 1869 and 1884..... \$417,147,980

The table on p. xlii shows how this enormous increase has been distributed among the Canadian, British and American Companies. Starting with the year 1869, the amount insured in Canadian Companies was, in round numbers, \$59,000,000, and in British Companies, \$115,000,000; from this period a continuous increase in Canadian Companies took place, till in 1876 it reached its maximum of \$232,000,000, while a much slower increase brought up the British Companies to only \$154,000,000; from 1877 a reverse process set in, and the amount in Canadian Companies sank, in three years, from \$232,000,000 to \$159,000,000, and has since gradually descended to its present amount of \$148,000,000; in the British Companies, on the contrary, the amount, from 1876, has rapidly risen from \$154,000,000 to the \$413,000,000 at which it now stands. The disastrous consequences of the year 1877, in which the St. John fire occurred, upon the Canadian Companies, is here plainly exhibited. In American Companies the amount insured is comparatively insignificant.

Below are the several amounts for the initial and terminal years, and the beginning of the critical year 1877.

Net amount insured at the end of the years named :—

Year.	Canadian Companies.	British Companies.	American Companies.	Total.
	\$	\$	\$	\$

PREMIUMS AND LOSSES COMPARED WITH RISKS.

The net amount at risk at the end of the year being \$605,507,789, and the premiums charged thereon being \$6,527,745, it follows that the average rate of premium on every \$1,000 at risk was \$10.95, the highest of all from 1875; the rates have been as follows :—

1875.	1876.	1877.	1878.	1879.	1880.	1881.	1882.	1883.	1884.
Rate 10·60	10·66	10·72	10·75	10·51	10·57	10·61	10·52	10·75	10·95

The same result is indicated if we consider the premiums charged on the whole amount of risks entered on during the year, thus including for each Company the

short-term risks as well as those re-insured, and giving a rate which may fairly be considered as that at which business has been done during the year. In this way the average rate of premium charged on each \$1,000 of risks taken comes out \$11.547, as against \$10.528, which was the corresponding rate in 1883. The individual rates for the different companies will be found in an annexed table, and will be seen to vary a good deal, as was to be expected, considering the varieties of the business done by the Companies.

Obtaining an approximation to the losses incurred during the year, by excluding the payments for losses outstanding at the beginning of the year, and including the amounts estimated for those of the year still unsettled, the ratio of the losses incurred to premiums received comes out 63.48 per cent., which is decidedly lower than the 66.11 of the previous year. The rate of the amount paid during the year for losses, compared with premiums received, has been seen to be 65.17, and is higher than the corresponding rate, 63.14, of the previous year; so that while the paid losses rate has increased, the rate of incurred losses has diminished. In effect, the outstanding losses at the end of 1883 were more than usual, while those at the end of 1884 were comparatively small. This accounts for the difference, and indicates that the losses by fire were much accumulated towards the end of 1883 and the beginning of 1884, and I learn from other information that such was the case. The following are the rates of incurred losses from 1878. It would, however, be more proper to compare "losses incurred" with premiums "earned," but the latter cannot be got exactly from the returns:—

	1884.	1883.	1882.	1881.	1880.	1879.	1878.
Canadian.....	65.30	71.17	72.84	112.04	54.50	67.81	52.11
British.....	64.29	65.94	65.27	72.14	37.28	67.83	47.24
American	50.17	52.05	54.33	60.94	46.73	79.39	59.13
Total.....	63.48	66.11	66.37	83.94	43.82	68.63	49.67

The losses incurred (approximate) during the year, compared with the amount of risk current (taking for this the mean of the amounts in force at the beginning and end of the year) have been at the average rate of \$5.37 per \$1,000 current risk. The corresponding rates for 1881-2-3 were \$7.35, \$5.68, \$5.56 respectively, showing a marked and gratifying decrease of the fire-hazard in Canada.

The losses are, however, distributed very unevenly among the different Companies, as appears from the following, computed on the above basis; where, for convenience of comparison, the corresponding rates for 1883 are appended within parenthesis:—

Agricultural of Watertown, 1.89 (1.97); London Mutual, 2.04 (1.81); Scottish Union and National, 3.00 (3.41); Royal, 3.31 (4.59); Liverpool and London and Globe, 3.98 (4.31); Phenix of Brooklyn, 4.61 (5.00); London Assurance, 4.71 (6.53); Imperial, 4.94 (6.50); North British, 5.21 (4.34); London and Lancashire, 5.52 (8.03); Norwich Union, 5.55 (5.80); Quebec, 5.62 (7.26); British America, 5.79 (5.76); Fire Insurance Association, 5.98 (8.07); Hartford, 6.01 (6.57); Guardian,

6·14 (3·74); Western, 6·45 (6·55); Queen, 6·48 (6·86); Citizens', 6·55 (6·71); City of London, 6·61 (10·37); Lancashire, 6·99 (6·19); Ætna, 7·11 (7·81); Royal Canadian, 7·37 (6·25); Phoenix of London, 7·44 (7·71); Commercial Union, 7·57 (7·72); National of Ireland, 7·98 (8·26); Caledonian, 8·41 (10·01); Northern, 9·90 (6·31).

The annexed table gives the gross amounts of risks taken by the several Companies during the year, and the premiums charged thereon, and also the distribution of losses, with the proportionate rate of premiums to risks, and the proportion of the amounts paid for losses and received for premiums during the year. For convenience of comparison the rates of 1883 are appended. It must be noted that the premiums in the second column are those charged on the whole gross amount of risks taken by each Company during the year.

BRITISH FIRE COMPANIES.

The total cash receipts from premiums were \$3,603,763, being an increase of \$424,912 over the previous year; the payments for losses were \$2,290,589, being \$297,917 more than for 1883; while the general expenses amounted to \$869,255, being \$122,873 more than in 1883, thus leaving a balance of \$443,919 in favor of the Companies; differing little from the balance of last year, \$439,797.

Balance in favor	\$ 443,919

The following detail gives the balances for the different Companies:—

Balances in favor—Caledonian, \$1,911.39; City of London, \$41,448.57; Commercial Union, \$8,802.48; Fire Insurance Association, \$8,023.79; Glasgow and London, \$60,165.75; Guardian, \$41,098.05; Imperial, \$29,066.27; Lancashire, \$20,709.14; Liverpool and London and Globe, \$46,114.14; London and Lancashire, \$11,633.06; London Assurance, \$7,095.59; National of Ireland, \$2,924.05; North British, \$57,948.17; Norwich Union, \$21,392.37; Queen, \$36,178.21; Royal, \$43,860.09; Scottish Union and National, \$21,383.27. Total, \$459,754.39.

Adverse Balances.—Northern, \$12,312.64; Phoenix of London, \$3,523.00. Total, \$15,835.64.

Total balance in favor, \$443,918.75.

Hence, for every \$100 of premiums received there was spent, on the average, \$63.56 in payment of losses and \$24.12 for general expenses, leaving \$12.32 for the Companies. The rates of expenses to premiums received in the individual companies will be found on page lvii, ranging from \$20.56 per \$100 in the Northern, to \$39.91 in the National of Ireland, among the old Companies; and being \$27.92 in the Glasgow and London, which Company now reports for the first time. It should, however, be noticed that these rates hardly admit of fair comparison *inter se*, because the amounts of expenses borne by the Home offices and not reported in our statements vary according to the different systems adopted in each case. The average rate for all the British Companies is \$24.12, which is more than the rate in 1883 (\$23.48.)

Hence, these Companies have done a very much larger volume of business at a higher rate of premium (\$11.446 per \$1,000 as against \$10.340 in 1883) and a higher rate of expense, accompanied by a rate of loss which is lower as regards the business of the year proper, but higher as regards the payments actually made.

Collecting the results for the ten years, from 1875 to 1884, as regards the receipts for premiums and the expenditure of the British Companies, we find :—

Paid for losses (1875-84).....	\$ 18,919,422
“ general expenses.....	5,231,470

Total payments	\$ 24,150,892
Received for premiums.....	23,221,387
<hr/>	
Excess of payments over receipts	\$ 929,505

This adverse balance, due to the exceptional circumstance of the conflagration at St. John, in 1877, when the losses paid by the British Companies amounted to nearly five millions, is thus seen to be in course of reduction, and will probably be reversed in two or three years more, unless some great disaster intervene, as the following table indicates :—

The reports of the general business of the British Companies, which are appended to their several statements, are taken either from the published reports of the Companies to their shareholders, or from the reports as furnished to the British Board of Trade. As these accounts are made up in the pedantic form affected by ancient book-keeping, and are not readily understood, except by an expert, I have this year made an approximate analysis of them, which will be found on page lix. Only two or three of these Companies profess to make any special provision for liability under the head of “unearned premiums,” but they set aside a certain sum under the title of “fire fund,” which is held to meet future contingencies, and is

charged against the company as a liability. I have taken 60 per cent. of the annual revenue from premiums as a fair approximation to the exact *pro rata* of the premiums on unexpired risks, which forms the basis of the item in our returns for Canadian business. Also, in cases where Life insurance is combined with the Fire (the assets of these branches being required by the Imperial statute to be kept separately) I have left out the Life business entirely, considering that their Life funds are more than sufficient to cover the liabilities in this branch, and thus making the results, as regards the paid-up capital, less favorable to the companies.

AMERICAN COMPANIES.

The Marine business of the Phenix of Brooklyn will be here included, and also Inland Marine insurance done by the Ætna.

The receipts for premiums were \$402,221; the payments for losses, \$224,153; and the general expenses, \$86,932—leaving a balance of \$91,136 for the Companies. Last year this balance was \$102,135; hence, for every \$100 of premiums received there was spent, on the average, \$55.73 in payment of losses, and \$21.61 in general expenses, leaving \$22.66 for the Companies.

The balance of \$91,136 in favor of the Companies is distributed as follows:—
Ætna of Hartford, \$40,731.65; Agricultural of Watertown, \$16,224.22; Hartford, \$27,422.83; Phenix of Brooklyn, \$6,757.55.

The results of the total business of these Companies, from 1875 to 1884, inclusive, are as follows:—

Paid for losses (1875-84)	\$ 2,368,225
“ general expenses.....	569,125
<hr/>	
Total payments	\$ 2,937,350
Received for premiums.....	3,143,513

Excess of receipts over payments	\$ 206,163

CANADIAN COMPANIES.

In considering the Canadian Companies, the business outside of the Dominion in Fire insurance of these Companies has to be taken into account, as well as their Marine business, since a separation of expenses between these branches is not made.

The following table gives the distribution of their Fire business between Canada and elsewhere, and shows that the foreign business has been much less favorable than the home business.

The assets of the six Canadian Companies doing Fire business amounted, at the end of the year, to \$3,639,750, covering a total amount of insurance of all kinds of \$265,782,824, being at the rate of \$13.69 for every \$1,000 of insurance in force; they have also a reserve of subscribed capital not called up, amounting to \$2,303,318, making a total security of \$22.36 for every \$1,000 insured. The liabilities of the same Companies amounted to \$2,225,737, made up as follows:—

Unsettled losses	\$ 285,985
Unearned premiums	1,822,428
Sundry	117,324

Total..... \$2,225,737

The unearned premiums are here taken to be the *pro rata* proportions of the gross premiums for the time unexpired in the cases of Fire and Inland Marine insurance, and the whole premium in the case of a current Ocean risk. The reserve required for these is prescribed by our statutes as a liability, being, in fact, the amount which a company would have to return to its policyholders for a cancellation of the contracts, and which policyholders could claim for in the event of withdrawal or insolvency of the company. It is, however, larger than the amount which a company, in continuance of active business, would require, under ordinary circumstances, for the fulfilment of its contracts. The surplus of assets over liabilities available for the protection of policyholders, independent of the reserve of subscribed capital not called up, amounts to \$1,414,013.

The capital stock of these Companies, paid up or in course of payment, amounts to \$1,420,255, and the result shows an impairment of this capital to the amount of \$6,242. At the end of 1883 there was a surplus of \$45,035. The loss of the active

Companies during the year has been \$181,778; but \$102,675 of this is accounted for by dividends to shareholders paid this year, but declared on the business of the previous year.

The following table gives the condition, at the end of 1884, of all the Canadian stock Companies in reference to their surplus or impairment of paid-up capital.

FIRE and Marine Insurance Companies, 31st December, 1884.

† As reduced by Act of Parliament.

A comparison of this with the corresponding table for the previous year enables us to gauge the progress of each Company during the year, and shows the following results:—

Gain or improvement during 1884:

London Mutual, \$718.84; Quebec, 1,575.17.

Loss or deterioration during 1884:

British America, \$95,169.67; Citizens', \$14,222.41; Royal Canadian, \$22,349.64; Western, \$59,357.12.

Including the whole business of the mixed Companies, as well outside as within the Dominion, it appears that the Canadian Companies have received, during the year 1884, a total cash income of \$3,124,961.35 (exclusive of \$15,410.00 received on account of capital stock), which is made up as follows:—

	1884.	The same in 1883.	The same in 1882.
	\$ cts.	\$ cts.	\$ cts.
Premiums	2,990,995 28	3,005,945 52	3,007,182 65

Sundry	16,286 55	30,438 85	27,386 28
Total	3,124,961 35	3,168,510 42	3,188,397 39

In the same way, the cash expenditure during 1884 has been \$3,139,421.19, distributed into—

	1884.	The same in 1883.	The same in 1882.
	\$ cts.	\$ cts.	\$ cts.
Losses paid.....	2,165,708 63	2,291,429 02	2,294,212 90

Dividends to stockholders	102,675 50	110,480 00	110,813 47
Total.....	3,139,421 19	3,327,879 43	3,322,552 40

Hence, it appears that for every \$100 of income there has been spent, \$100.46 namely,—for losses, \$69.30; for general expenses, \$27.87; and for dividends to stockholders, \$3.29. Hence, also, for every \$100 of premiums received there has been paid out, \$72.41 for losses, \$29.12 for expenses and \$3.43 for dividends to stockholders.

The hope expressed in the last report, that the unfavorable results shown by these tables for the three previous years would soon be reversed, has been disappointed. The experience of Canadian Fire Companies since the disastrous year 1877 has been very unfortunate, no less than eight of them having ceased business. Of these, only one (the Provincial) went into insolvency, and another (the Canada Agricultural) was placed in the hands of trustees for liquidation; the remainder voluntarily relinquished business, and have been wound up; and it is highly satisfactory to state that in none of these latter cases have policy holders sustained any loss, the claims having been discharged in full. In addition to the above, two Marine Companies have also retired, but without detriment to their policy holders. The loss to the shareholders, on the whole, could not have fallen far short of two millions of dollars. The companies still active have also lost considerably during this period.

INLAND NAVIGATION AND OCEAN MARINE INSURANCE.

Including the Canadian business of the Phenix of Brooklyn, the *Ætna*, and the Commercial Union, and the whole business in these branches done by the three Canadian Companies, the following are the results of the year :—

For Inland Navigation.

Premiums received, \$171,077; losses incurred, \$99,975; of which were paid \$82,385, leaving a balance of \$17,590 of them still unsettled. There was also paid during the year \$7,446, on account of losses incurred in previous years, making the total payments during the year, on account of losses, \$89,831, while the total outstanding or unsettled losses at the end of the year were \$17,590.

Ocean Marine.

Premiums received, \$314,417; losses incurred, \$202,616; of which were paid \$170,318, leaving a balance of \$32,298 of them still unsettled. There was also paid during the year \$52,095, on account of losses incurred in previous years, making the total payments during the year on account of losses \$222,413, while the total outstanding or unsettled losses at the end of the year were \$39,798.

The Inland Marine business has, therefore, been fairly prosperous, the losses incurred having amounted to 58.44 per cent. of the premiums received, while last year the rate was 82.34.

The Ocean business also exhibits an improvement, the rate of losses incurred to premiums having been 64.44, while last year it was 87.57, but as already stated, the bulk of the Ocean business is transacted by companies which are not required to be licensed and do not report to this Department.

An abstract of the Inland Marine business will be found on page xliv, and details of this and the Ocean business for the individual companies on page xlv.

LIFE INSURANCE.

The business has been transacted by 27 active companies, of which nine (9) were Canadian, eleven (11) British, and seven (7) American. Among these is included the Dominion Safety Fund, which formerly did business on the assessment principle, but having altered its plan, now ranks among the regular Companies. The Life Association of Canada (formerly the Mutual Life Association) has announced to its policy-holders its intention to discontinue the issue of new policies and its desire to transfer its existing policies; it has not yet, however, given the official notice to the Minister of its intention to withdraw; but it may be useful here to recall the provisions of the 18th section of the *Consolidated Insurance Act*, 1877, by which such withdrawal is guided. Under this section the Company intending to withdraw its deposit must give three months' notice to the Minister of Finance, and after obtaining such surrenders or making such transfers of its policies as its policy holders may individually consent to, must submit a list of its remaining policies to this office, and a tender is then to be made by this office to each policy holder, of the full net value of his policy, as calculated by the Superintendent on the Government standard of the H. M. Institute Mortality Table, at 4½ per cent. interest. This tender may be accepted or refused by the policy holder; in the former case, his policy is terminated; in the latter, it is still kept in force (though no longer protected by a deposit with Government), and the Company can be compelled to fulfil its contract with him. In this way the interests of the policy holders are adequately respected; the good lives may accept their surrender value, and, by aid thereof, effect a new insurance with another Company, while the impaired lives will naturally prefer

xviii

to adhere to their existing contracts. There can be, in the case of the Company alluded to, no doubt as to the ability of the company to carry out its obligations; its present statement shows a surplus of actual assets over liabilities, and in addition there is a reserve of subscribed guarantee fund amounting to \$148,083.34 which could be called up if required, and its policy holders therefore need not sacrifice their interests by accepting unfavorable transfers or inadequate surrender values, but may rely on the action of the law whenever the Company chooses to invoke it for the purpose of releasing its deposits or winding up its business.

In addition to the 27 active Companies above stated, there are also eleven (11) Companies (7 British and 4 American) which are not effecting new insurances, but are still doing business connected with their old policies.

The year 1884 has witnessed a continuance of the prosperity which had marked the progress of Life insurance during the four previous years, a large increase of new insurances and of amounts in force having been maintained. The amount in force at the end of 1884 is nearly 135½ millions, and the premiums paid approach to 4½ millions. The only unfavorable feature is an increase in the terminations by surrender and lapse. The fluctuations in this item are remarkable and difficult to account for; starting from 1878, it decreased gradually to less than half its amount in 1882, and since then has taken a turn, as will be seen from the following figures, which are the amounts so terminated for every 1,000 of current risk:

Year.....	1877,	1878,	1879,	1880,	1881,	1882,	1883,	1884
Amount.	122.26	124.85	109.68	96.21	61.21	59.35	78.90	90.86

The effect, from this cause, of more than half the amount of the new policies, is counteracted in its proper increase of the amount at risk. Whether the increase in the item is due to the competition of the assessment Companies, who may have drawn off a number of the insured and induced them to give up their old policies, or whether it is due to accidental circumstances (which looks likely, from the fact that the increase appears excessive among the Canadian Companies) I cannot say, but the largeness of the general loss on this continent from this cause is certainly attributable to the prevalent mode of transacting business, by granting such large commissions to agents on new business, thus making it their interest rather to secure new policies than to retain the old, and so long as the present competition among the Companies continues, and while they can appeal to the dictum of an eminent English actuary, that the allowance as commission of even half the first year's premium is not inconsistent with economical management, there is little hope of improvement in this respect. That the lapses should occur mainly in the earlier years of policies is natural, but the smallness of the loss among the American Companies which are not effecting new insurance in Canada, as hereafter shown, is certainly remarkable.

Insurances effected during the year.

The total amount of policies in Canada, taken during the year 1884, has been \$23,417,912, exceeding the amount taken in 1883 by \$1,844,952, and of this increase the largest share pertains to the Canadian Companies, being \$1,042,948, while in 1883 they had gained only \$27,772; the American Companies have secured an increase of \$912,102, as against \$937,675 in 1883; and the British Companies have suffered a decrease of \$110,098, while last year they had an increase of \$444,758.

The respective amounts effected are :—

Canadian Companies.....	\$	12,926,265
British do		3,167,910
American do		7,323,737

So that the amount taken by the native Companies exceeds that taken by the British and American together by nearly 2½ millions dollars. The following are the details of the increase or decrease among the respective Companies :—

* Imperfect.

† This is the total amount effected, including, for the foreign business of the Canada and Sun, in 1882, \$342,500, in 1883, \$241,970, and in 1884, \$114,007.

Life Insurance in Force in 1884.

The total amount of insurance in force at the close of the Statements was \$135,447,726, which shows an increase of \$11,250,851 over that of the previous year, being distributed as follows :—

	Total in Force.	Increase.
Canadian Companies	\$66,519,958	\$7,366,349
British do	24,311,172	799,460
American do	44,616,596	3,145,042
Total	<u>\$135,447,726</u>	<u>\$11,250,851</u>

Among the seven active American Companies, the increase was \$3,581,250, while in the retired American companies, which had at risk \$6,756,274 at the close of 1883, the decrease has been only \$436,208, of which \$168,518 was terminated by death or maturity, and \$267,690, or less than 4 per cent. of the existing insurance, was terminated by surrender, lapse or removal.

Amount of Insurance terminated in 1884.

The amount of insurance terminated in natural course, namely, by death, maturity or expiry, was \$1,728,970, which is less by \$25,895 than the corresponding amount in the previous year; and the amount terminated by surrender and lapse was

\$12,351,321, being greater than that in the previous year by the large amount of \$2,413,357; relatively, also, to the amount at risk, the former is less and the latter greater than in 1883, giving for every \$1,000 of current risk \$12.58 terminated in natural course, and \$89.87 by surrender and lapse. In the previous year these rates were \$13.93 and \$78.90 respectively. The following table exhibits the rates for the last five years :—

The total termination amounts to about \$59.83 per cent. of the amount of new policies. The actual amounts of termination were distributed as follows :—

	Naturally.	By Surrender and Lapse.
Canadian Companies.....	\$554,441	\$6,615,664
British do	447,484	1,868,356

The details of the individual Companies will be found on page lxix.

Canadian Policies in Force.

The following table gives the number of Canadian Policies in force at the date of the Statements :—

—	Number.	Amount.	Average Amount of a Policy.
		\$	\$
Canadian Companies	42,002	66,519,958	1,584
British do	12,330	24,311,172	1,972
American do	27,138	44,616,596	1,644
Totals.....	81,470	135,447,726	1,663

The average amount of a policy in force, \$1,663, is identical with that of the previous year, but the average amount of the *new* policies has, on the whole, increased, having been, for Canadian Companies, \$1,718; for British Companies, \$1,861, and for American, \$2,117; the corresponding amounts last year having been \$1,648, \$1,929, and \$1,965.

The number of policies indicates probably about 76,000 lives insured; the returns of some of the Companies, as regards the number of lives, are incomplete, nor, even if complete, could the effect of the same life being insured by several policies in different Companies be eliminated. I, therefore, as usual, give as an approximation, that out of 54,443 lives exposed to risk, the deaths were 442, giving, on the average, an annual death rate of 8.119 per thousand, which is lower than it was in 1883.

The following table gives the amount of income from premiums received by all Companies, from 1869 to 1884, inclusive:—

The total amount paid to policy-holders during 1884 is as follows:—

Death claims (including bonus additions).....	\$1,266,398
Matured endowments do	256,187
Annuitants.....	6,237
Paid for surrendered policies.....	203,694
Dividends to policy-holders.....	340,879
Total.....	\$2,073,395

The distribution of the payments among the different Companies will be found on page lxviii.

Hence, for every \$100 premiums received, there has been paid to policyholders \$49.43, leaving \$50.57 to be carried to reserve, expense and profits.

Taking the mean of the amounts in force at the ends of 1883 and 1884 to represent the amount of risks current for the year, and comparing it with the premiums received and the claims paid (excluding the annuity business), we find the following results:—

The average rate of premiums received for every \$100 of current risks is:—In Canadian Companies, \$2.97; in British, \$3.11; in American, \$3.53; and for all Companies the average is \$3.18.

The average rate of claims paid for every \$100 of current risks is:—In Canadian Companies, \$0.74; in British, \$1.74; in American, \$1.48; and for all Companies the average is \$1.17.

Canadian Companies.

The condition of the Canadian Companies will be found exhibited in the statements under their respective headings. In the calculation of the re-insurance reserve, the H.M. Institute Table at $4\frac{1}{2}$ per cent. interest is employed, except in the case of the Life Association, which uses the Carlisle Table, with 5 per cent.

From these tables it appears that the Canadian Companies have received an income of \$2,431,580.07, drawn from the following sources:—

	1884.
	\$ cts.
Premiums and annuity sales	1,932,505 85
Interest and dividends	476,876 09
Sundry	22,193 13

General expenses.....	508,573 34
Dividends to stockholders.....	48,821 24
Total.....	<u>\$1,228,842 13</u>

Hence, out of every \$100 of income, they have expended in payment to policyholders \$27.61; in general expenses, \$20.92, and in dividends to stockholders, \$2.01; leaving \$49.46 to be carried to reserve.

ACCIDENT AND GUARANTEE INSURANCE IN CANADA, 1884.

The business of Accident Insurance was transacted by six Companies, viz.:—3 Canadian (two of which combined it with Life Insurance), 1 American (also combined with Life), and 2 British, one of which combined it with Guarantee business.

The total accident premiums received in Canada were \$137,660, insuring an amount of \$22,810,733, and the sum of \$53,724 was paid for claims, with \$5,588 claims unsettled.

An abstract will be found on p. lxx.

The Guarantee business was conducted by two Companies, one Canadian and the other British. The premiums received were \$64,042, guaranteeing an amount of \$12,131,763, and the net amount paid for claims was \$13,921.

The Accident Insurance Company of North America, and the Guarantee Company of North America (both companies native) transact business outside of the Dominion, which is not included in the above.

At the present time there are sixty-eight (68) Companies under the supervision of this office, the nature of the business transacted by them being as follows:—

Number of Companies doing Life Insurance.....	38
do do Fire do	31
do do Inland Marine Insurance.....	6
do do Ocean Marine do	4
do do Accident do	6
do do Guarantee do	2
do do Steam Boiler do	1

LEGISLATION.

The Bill for the regulation of assessment Life Insurance Companies which was introduced into Parliament during the Session of 1834, and was subsequently withdrawn, was again brought forward in its original form, and after some alterations and additions made during its course has, at this time of writing, passed the Senate and been referred back to the House of Commons with some clerical amendments. The reasons which led me to recommend this measure, have been so fully set forth in previous Reports (1879, p. xxiv; 1880, p. xxiii; 1882, p. xxiv) and in particular in the memorandum read in the House in 1884, and published in the Report 1883, p. 350, that it is unnecessary to repeat them here. The following is the text of the Bill as it at present stands; if it passes or any alterations are made, it will be found in the appendix to this Report. I have put in italics the alterations and additions made to the original Bill, and beg to disclaim any responsibility for them.

An Act to modify the application of "The Consolidated Insurance Act, 1877."

WHEREAS it is expedient to amend "*The Consolidated Insurance Act, 1877*," with regard to companies transacting business of life insurance under the title of "Co-operative Life Insurance Companies," "Mutual Benefit Associations," and the like; Therefore Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. The word "company" in this Act shall be construed and interpreted in the same manner as in the Act cited in the preamble; and a penalty imposed for contravention of this Act, the amount whereof is fixed by reference to any section of the Act aforesaid, shall be recoverable and applicable in like manner as that imposed by such section, all the provisions whereof shall apply to it and to the offence for which it is imposed.

2. Any company incorporated within Canada, which transacts business of life insurance by promising to pay, on the death of a member of such company, a sum of money solely from the proceeds of assessments, or dues collected or to be collected, from the members thereof for that purpose, may, at the discretion of the Minister of

Finance, on report of the Superintendent of Insurance, approved by the Treasury Board, be exempted from the operation of "*The Consolidated Insurance Act, 1877*," and be permitted to transact the business of life insurance on the conditions hereinafter specified.

3. Companies to be so exempted shall register their titles or corporate names in the office of the Superintendent of Insurance; they shall also make attested returns of their condition and affairs at such times and in such form, and attested in such manner, as shall be prescribed by the Minister of Finance, and the Superintendent of Insurance shall include such returns in his annual report; and any failure to make such returns, when called for by the Superintendent of Insurance, shall subject such company, and any officer thereof, to the penalty mentioned in the twenty-second section of the Act hereinbefore cited.

4. The registration of a company shall cease to be valid on the thirty-first day of March in each year, but shall be renewable from year to year, in the discretion of the Minister of Finance.

5. The provisions of this section shall apply to corporations or associations incorporated elsewhere than in Canada for the purpose of carrying on the business of life insurance upon the co-operative or assessment plan;

(2.) Any such corporation or association may be licensed by the Minister of Finance, under the provisions of "*The Consolidated Insurance Act, 1877*," to transact business in Canada upon depositing with him fifty thousand dollars, and thereafter shall have the right to transact business so long as it continues to pay its losses to the full limit named in its certificates or policies, and has complied with all the requirements of the said Act and of this Act and of the Superintendent of Insurance;

(3.) In addition to such deposit of fifty thousand dollars, the Minister of Finance, upon the report of the Superintendent of Insurance, approved by the Treasury Board, may from time to time require such other and further deposit as may be recommended in such report and so approved, to be made by such companies or deposited with trustees to be named by the Minister of Finance, upon such trusts as shall be determined by the Governor in Council;

(4.) Death claims shall be a first charge on all moneys realized from assessments, and no deduction shall be made from any such death claims on any account whatsoever;

(5.) No portion of any moneys received from assessments for death claims shall be used for any expense whatever, and every notice of any assessment shall truly specify the cause and purpose thereof;

(6.) Every application, policy and certificate, issued or used by any such company in Canada, shall have printed thereon, in a conspicuous place, in different colored ink and in good-sized type, the following words:—

"This association is not required by law to maintain the reserve which is required of ordinary life insurance companies;"

(7.) Every certificate and policy shall contain a promise to pay the whole amount therein mentioned, out of the death fund of the association and out of any moneys realized from assessments to be made for that purpose, and every such association shall be bound forthwith and from time to time to make assessments to an amount adequate with its other available funds to pay all obligations created under any such certificate or policy without deduction or abatement;

(8.) The condition embodied in the next preceding sub-section shall be inserted in every policy or certificate issued or delivered to any person insured in Canada.

6. The provisions contained in sub-sections four, five, six, seven and eight of the next preceding section shall also apply to any company (not being such a company, society or association, as is referred to in section twelve of this Act) incorporated in Canada and carrying on the business of life insurance upon the co-operative or assessment plan.

7. No condition, stipulation or proviso modifying or impairing the effect of any policy of life insurance issued after the first day of January, one thousand eight hundred and eighty-six, by any company doing business within Canada under the authority of the Parliament of Canada, shall be good or valid unless the same is set out in full on the face or back of the policy.

8. *No policy or certificate shall contain or have endorsed upon it any condition providing that such policy or certificate shall be avoided by reason of any statement contained in the application therefor being untrue, unless such condition is limited to cases in which such statement is material to the contract.*

9. No company shall carry on within Canada any business of the nature described in the second section of this Act, without being licensed under the Act above cited, or being registered under this Act, and the words "assessment system" shall be printed in large type at the head of every policy and every application for the same, and also in every circular and advertisement issued or used in Canada; and any director, manager, agent or other officer of a company, so doing business, without being licensed or registered, and any person who transacts any insurance business on behalf of any such company, and any company neglecting to print the said words as aforesaid, and any director, manager, agent or other officer of a company, or any other person transacting business on behalf of such company, circulating or using any policy or application, circular or advertisement, not having the words "assessment system" printed thereon, as aforesaid, shall be liable to the penalty mentioned in the thirteenth section of the Act hereinbefore cited.

10. In the case of any contract entered into, or any certificate of membership or policy of insurance issued by any company, before the passing of this Act, assessments may be made and collected, and claims paid, and all business connected therewith transacted without any penalty being incurred.

11. *In every policy issued by a company licensed in accordance with the fifth section of this Act, in favor of a resident of Canada, a clause shall be either embodied therein or endorsed thereon, to the effect that an action to enforce the obligation of such policy, may be validly taken into any court of competent jurisdiction in the Province wherein the policy holder resides or last resided before his decease.*

12. *Neither "The Consolidated Insurance Act, 1877," nor this Act shall apply to any society or association of persons for fraternal, benevolent, industrial or religious purposes, among which purposes shall be the insurance of the lives of the members thereof exclusively; or to any association for the purpose of life insurance, formed in connection with such society or organization, and exclusively from its members, and insuring the lives of such members exclusively:*

(2.) *Any society or association which is declared by this section to be exempt from the application of "The Consolidated Insurance Act, 1877," and of this Act, may nevertheless apply to the Minister of Finance to be allowed to avail itself of the provisions of this Act, and upon such application being assented to, such society or association shall cease to be so exempt by virtue of this section.*

The effect of the Bill may be briefly stated as follows :—

(1). It declares that these companies are life insurance companies within the meaning of the statute, thus settling a disputed legal point.

(2). It exempts native companies from the operation of the Insurance Act of 1877, if they obtain the consent of the Minister of Finance; they will then be registered in this office, such registration being valid from year to year, and can then transact their business without further condition than making annual reports to the Superintendent. They must, however, conform to the regulations laid down in sub-sections 4, 5, 6, 7 and 8 of the fifth section, and I presume it will be the duty of the Superintendent to see that these regulations are complied with, and in the event of non-compliance therewith to recommend to the Minister that the registration be not renewed. The only one of these sub-sections which is of much importance is the seventh, and whether this requires a definite sum to be named and guaranteed in the

certificate I cannot say; the Minister of Justice appears to be of opinion that it does not. If, however, it does, then a society, working on the oldest form of assessment assurance, in which each member simply contributes a specific sum on the occurrence of a death, this sum being paid to the beneficiary, would, of course, be prevented from continuance.

Another regulation is as to the printing of the words "assessment system" as prescribed in section 9.

(3). Native companies may, however, if they choose, apply for license under the Insurance Act, 1877, in which case they would have to comply with all the conditions of that Act, and would have to make the preliminary deposit of \$50,000 required by it.

(4). Foreign companies come under the Act of 1877, and are required to take out a license, make a preliminary deposit of \$50,000, and otherwise conform to all the requirements of that Act. They must also conform with the additional requirements stated in the sub-sections of the fifth section, and in the eleventh section. They must also have the words "assessment system" printed as required by the 9th section*.

The seventh and eighth sections apply to all companies doing life insurance, whether under the regular or the assessment systems. The effect of them appears to be, that whereas formerly statements in the application, when imported into the policy, were treated as a warranty, and construed strictly, so that any misstatement had the effect of voiding the policy, it is now enacted that a misstatement shall not avoid the policy unless it is material to the contract.

By the twelfth section, benevolent societies are exempted altogether (if they so choose) from the Insurance Acts, but I doubt whether this section is so worded as fully to carry out the intention.†

QUINQUENNIAL VALUATION.

Five years having elapsed since the last valuation of the policies in the life insurance companies, I have this year, as required by statute, undertaken the valuation as at 31st December, 1884. The results, so far as completed, will be found in

* I do not know whether it is intended that the printing of these words shall also be compulsory on a regular life insurance company, which being licensed under the Act of 1877, and doing ordinary life business, may also have adopted a plan of assessment insurance as one of its modes of business.

† The following is the original clause for which the present was substituted: it appears to me that the former carried into effect the intentions of the legislature, as expressed in committee, both as to the inclusion and the exclusion of certain associations, while the substituted clause fails in both respects:—"Nothing herein contained shall cause '*The Consolidated Insurance Act, 1877*,' or this Act, to apply to any society or association of persons of a fraternal, benevolent, industrial or religious description, in the operations of which the transaction of life insurance is confined to the members thereof and is merely incidental and ancillary to the other objects of the society or association, and is not conducted under distinct and separate organization and management: and it shall also be lawful, notwithstanding anything in these Acts contained, for the members, resident in Canada, of any fraternal, benevolent, industrial or religious society or association, whose head office or management is not within Canadian jurisdiction, to effect insurance in connection with such society or association, and to transact all necessary business relating thereto." The latter portion was designed to meet such cases as the "Knights of Labor" and the "Amalgamated Engineers."

the appendix. I have not thought it necessary to value in the case of any company for which the office had made a valuation less than five years ago. In this connection I may mention that an extensive set of tables for life valuation on the Government standard of the H.M. Table of the Institute of Actuaries, at $4\frac{1}{2}$ per cent. interest, has been selected from those calculated in this office, and having been struck off by aid of the papyrograph, has been issued in two volumes to such of the companies as desired them.

CONCLUSION.

This being the last report which I shall have the honor to present, as, in consequence of advancing age and failing health, I have found it necessary to request to be relieved from duty, I take this opportunity of thanking the managers and agents of the various companies for the courtesy with which they have always received me on my official visits, for their readiness to furnish all the information in their power, and for their willing compliance with any requests or suggestions I may have thought fit to make to them. I also beg respectfully to thank you, Sir, and your predecessor in office, for the attentive consideration which has invariably been accorded to any recommendation it has fallen within my duty to make in regard to the important interests intrusted to me.

The work of the office, since its organization by me ten years ago, is embodied in the annual reports laid before Parliament, and by these it claims to be judged.

I have the honor to remain, Sir,

Your most obedient servant,

J. B. CHERRIMAN, M.A., F.I.A., F.R.S.C.,

CALEDONIAN—*Continued.*

Capital and Guarantee Fund.

In accordance with the resolution adopted by the shareholders on 22nd March, 1883, the sum of £30,000 was transferred from the Guarantee Fund to Paid-up Capital, reducing the former to £135,000 and increasing the latter to £30,000. Thereafter 2,000 shares were issued, at the price of £17 10s., in connection with the acquisition of the business and assets of the Scottish Metropolitan Fire Insurance Company, the result being to add £10,000 to the Paid-up Capital, and to yield £25,000 as premium on the issue. Out of the sum last mentioned the Scottish Metropolitan Purchase Account, amounting to £14,392 7s. 7d., has been paid; and the balance of £10,607 12s. 5d. has been added to the Guarantee Fund, which, including the sum of £4,392 7s. 7d., added from the Fire surplus of the year, now amounts to £150,000.

The Subscribed Capital now amounts to £450,000, in 18,000 shares of £25, with £5 per share paid up, the total amount of Paid-up Capital being £90,000.

The total amount of the Fire Funds, including the Paid-up Capital, &c., now reaches the sum of £292,233 17s.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, 4th June, 1884.)

FIRE DEPARTMENT.

The fire premiums, after deducting re-insurances, amounted to £376,834 12s. 10d., being an increase of £64,040 over last year, and the losses to £227,886 11s. 5d., being 60.5 per cent. of the premiums. While this account shows a material improvement over last year, the ratio of loss, having regard to the increase of business, is still unsatisfactory. After adding £29,000 to the premium reserve fund for unexpired policies, the fire account shows a profit, including interest, of £25,636 4s. 1d. The Directors recommend that a sum of £18,000 be added to the fire general reserve fund, in part replacement of the sum of £21,000 taken from it last year, and that the balance be transferred to the shareholders' account.

The premium reserve fund to cover unexpired policies will then stand at £169,500 and the fire general reserve fund at £280,000. There will be therefore an aggregate fund (apart from the shareholders' capital) of £449,500 to meet fire claims.

SHAREHOLDERS' CAPITAL ACCOUNT AND DIVIDEND.

The interest on the paid-up capital, with the transfer fees and a small balance brought forward from 1882, amounts to £43,929 11s. 5d., and after adding to

GUARDIAN FIRE AND LIFE—Continued.

this the sum of £7,636 4s. 1d., to be brought from the fire account, a sum of £51,565 15s. 6d. is available for dividend, which is sufficient to pay 5 per cent. on the paid-up capital, free of income tax, and to carry forward a balance of £1,565 15s. 6d.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, Liverpool, Eng., 21st May, 1885.)

FIRE DEPARTMENT.

The fire premium income for the year, after deducting the sums paid for re-insuring surplus risks, amounts to £1,280,222, being an increase of £8,743 on that of the preceding year. The losses, inclusive of full provision for all claims that had arisen up to the close of the year, amount to £790,480. The account, after providing for expenses, shows, without the addition of interest, a surplus of £105,501, which has been carried to profit and loss account.

PROFIT AND LOSS ACCOUNT AND DIVIDEND.

The profit and loss account, with the addition of the fire profits above referred to as having been carried to it, and of the interest earned on the funds other than those of the Life Department, after deducting the amounts paid for the Globe perpetual annuities for 1884, leaves a balance of £553,553.

FUNDS OF THE COMPANY.

The funds of the Company will now stand as follows:—

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, Liverpool, Eng., 28th April, 1885.)

The Directors beg leave to submit to the shareholders their report for the year ending 31st December, 1884, a year in which the aggregate results of fire insurance business to the companies generally have been more unfavorable than in any year since 1872.

The net premiums received during the past year, after deducting those paid to other companies for re-insurances, amounted to £491,315 3s. 2d., against £499,000 7s. 10d. in the previous year. A considerable reduction has been made in the American business, with the object of improving the results from that field; the general business of the Company, however, in other fields than the United States, shows a compensating increase; so that the net reduction for the year in the total business of the Company is only £7,685 4s. 8d.

The net claims for fire losses occurring during the year, including full estimates for such as were not adjusted at the time of closing these accounts, amounted to £324,271 13s. 5d.

After deduction of all commissions and expenses, bad debts, depreciations, and other outgoings, and including interest on investments and other receipts, a balance of £27,964 17s. 3d. results to the company's credit on the year's transactions. The addition of this amount to the balance of £44,155 4s. 6d., brought forward from the last account, makes a total to be dealt with on the present occasion of £72,120 1s. 9d.

The directors propose to transfer £10,000 to the reserve fund, to pay on 2nd proximo a dividend, free of income tax, of 4s. per share or 8 per cent. per annum on the paid-up capital, which will absorb £14,816, and to carry forward the balance, £47,304 1s. 9d., to the next account.

The financial position of the Company will then stand as follows:—

Capital (fully subscribed).....	£1,852,000	0	0
Of which is paid up.....	185,200	0	0
Reserve fund.....	240,000	0	0

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, Dublin, 26th February, 1885.)

FIRE DEPARTMENT.

In this branch of the Company's business there has been an increase of £37,850 13s. 9d. in the premium income, which amounted to £166,028 2s. 5d. The fire claims were £95,606 8s. 0d. and the expenses and commissions £42,553 1s. 4d., the balance to the credit of the Company on this account being £27,868 13s. 1d. The percentages were:—

PROFIT AND LOSS ACCOUNT.

The balance at the commencement of the year was £39,546 19s. 6d., out of which £14,000 was paid in dividend, and £10,829 5s. 1d. was added to the Fire reserve,

NATIONAL OF IRELAND—Continued.

leaving £14,717 14s. 5d., to which has to be added the profits shown by the transactions of the year 1884, amounting to £37,163 5s. 0d., making together a present available balance of £51,880 19s. 5d.

Out of this sum the Directors now propose to add £20,000 to the Fire fund, bringing it up to £90,000, and they recommend the further payment of £8,000 as dividend for the year 1884, which with the interim dividend of £6,000 paid in August last, will be £3 10s. 0d. per share, being 14 per cent. on the paid-up capital. After payment of the dividend there will be a balance of £23,880 19s. 5d. to be carried forward, as against £20,717 14s. 5d. in the previous year.

THOS. DAVIDSON.

(Received 13th March, 1885.)

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, Edinburgh, 31st March, 1885.)

FIRE BUSINESS.

	£	s.	d.
In 1883 the net premiums received amounted to.....	1,107,745	9	9
During 1884 the premiums received amounted to.....	£1,428,830	5	7
Deduct re-insurances.....	314,761	12	7
Net premiums.....	1,114,068	13	0
Exhibiting an increase of	£	6,323	3 3

The net losses by fire have amounted to the sum of £704,357 0s. 2d., which includes a full estimate of all claims that had arisen prior to 31st December, 1884.

After setting aside, as usual, one-third of the net premiums for the year, to provide for liabilities on current policies, the balance at the credit of profit and loss account for 1884 amounts to £205,939 5s. 2d. This includes the unappropriated balance, brought forward from 1883, of £52,986 15s. 3d.

LIFE BUSINESS.

During the year 1884 there were issued 937 policies, assuring £952,281, the new premiums on which amount to £34,462 6s. 8d. In 1883 the number of policies was 894, the sums assured were £814,819, and the new premiums were £29,572 1s. 5d. There was thus an increase in the gross business of 1884 of 43 policies; of £137,462 in the sums assured; and of £4,890 5s. 3d. in the premiums payable on new policies.

The net amount insured in 1884, after deducting sums re-insured, was £749,562. The new premiums, after deducting those paid to the re-insuring offices, were £27,371 3s. 4d. The net amount insured in 1883 was £723,418, and the new net premiums were £26,145 1s. 8d. There was thus an increase in the net business of 1884 of £26,141 in the sums assured, and of £1,226 1s. 8d. in the new net premiums.

NORTH BRITISH AND MERCANTILE—Continued.

The income of the Life Branch, from premiums and interest, amounted, in the year 1884, to £495,407 16s. 10d.

During the year 313 deaths, by which 395 policies emerged, were proved, and 17 endowments matured. The sums which thus became payable amount, with bonus additions, to the sum of £304,107 18s. 2d., after deducting re-assurance.

It will be seen from the balance sheet annexed that the Life Assurance Fund now amounts to £3,458,595 18s. 9d., showing an increase during the year of £117,677 7s. 7d. The whole of the fund is separately invested, and, by Act of Parliament, is set aside to meet the claims under this department of the Company's business.

The quinquennial investigation into the Life business of the Company will take place at the end of this year.

ANNUITY BUSINESS.

In the Annuity branch 133 bonds were issued, securing the sum of £7,653 14s. 4d. yearly of immediate annuities, £155 5s. 2d. yearly of deferred annuities, and £345 yearly of survivorship annuities, for which the Company received the sum of £70,166 17s. 3d. by single payment, and £337 16s. 8d. by annual premium.

During the year 39 annuities have fallen in, relieving the Company of the sum of £3,240 9s. 10d. yearly.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, Aberdeen, 13th June, 1884.)

FIRE DEPARTMENT.

The premiums received last year amounted to £520,206 18s. 8d., which, compared with £460,126 6s. in the previous year, show the substantial increase of £60,080 12s. 8d. A noteworthy feature of this increase is that it is spread in satisfactory proportions over all the main sections of the company's business.

The losses, though not so heavy as in 1882, were again above the average, and amounted to £330,186 17s. 3d., or 63·47 per cent. of the premiums. The general average of the company's experience from the beginning is now 59·39 per cent.

The expenses of management (including commission to agents and charges of every kind) came to £160,877 8s. 10d., or 30·93 per cent. of the premiums. This is an increase of 1·21 per cent, compared with the previous year, and is principally due to the introduction of certain important changes, from which beneficial results are ultimately expected, in the management of the business in the United States.

The result is that, after reserving the usual 33 per cent. of the premiums to cover liabilities under current policies, a profit was earned of £9,115 15s., which sum has been transferred to the credit of the general account of profit and loss. (*See annexed fire account*).

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, Liverpool, England, 7th May, 1885.)

FIRE BRANCH.

The premiums of the year, less re-insurances, are £565,883, as compared with £589,310, and the losses of the year paid and outstanding are £388,926, or 68·74 per cent., as compared with £409,614, or 69·51 per cent. of the previous year. Although these results do not show any very material improvement on those of the previous year, the directors are pleased to be able to point to certain features in the accounts which they consider encouraging. Business representing in premium income over £32,000, which had proved unprofitable, has been relinquished, but an increased revenue from sources which the directors found it desirable to cultivate reduce the diminution to £23,427, thus showing that the approved business of the Company continues to progress. Contrasting the losses of 1884 with those of 1883, there is a reduction of £20,688, which is over 88 per cent. of the diminution in premiums.

SURPLUS.

The balance at credit of profit and loss account is £60,271 8s. 1d., which the directors recommend be disposed of as follows:—In payment of a dividend of 10 per cent., free of income tax, on and after Friday, the 8th May, which will absorb £18,003 10s., carrying forward £42,267 18s. 1d.; total, £60,271 8s. 1d.

After giving effect to the foregoing, the funds will stand as follows:—

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1883.

(Abstracted from Directors' Report, Liverpool, Eng., 1st August, 1884.)

FIRE DEPARTMENT.

The fire premiums for the period, after deduction of re-insurances, amounted to £982,737 3s. 6d., and the net losses to £603,432 1s. 1d. These amounts show an increase for the year of £38,472 1s. 7d. in premium, and a reduction of £13,012 9s. in losses. Deducting agents' commission and all management expenses, the net profit, including interest on fire fund and current balances, amounted to £127,346 14s. 7d., being an improvement on the results of the previous year of £36,346 6s. 2d.

LIFE DEPARTMENT.

During the year new proposals were accepted for £444,709, of which amount £403,384 has been completed, and the corresponding annual premiums obtained to the closing of the accounts were £14,026 14s. The proposals declined during the period amounted to £68,733. The total income from premiums, after deducting re-assurances, amounted to £252,879 0s. 4d., and the interest received from investments, exclusive of that on the annuity funds, was £114,253 1s. The claims during the year were:—

By death:—Original sums assured.....	£152,302	8	4
Bonus additions thereon.....	19,773	7	0
By matured policies (including children's endowments):—			
Original sums assured	9,343	10	5
Bonus additions thereon.....	1,260	10	0
	£182,679	15	9

In the annuity branch the purchase money received for new annuities, together with the premiums on contingent annuities, amounted to £12,050 0s. 10d., and the interest to £9,402 11s. 8d. Forty-two annuities have expired during the year, the annual payments on which amounted to £1,221 2s.

ROYAL—Continued.

After payment of all claims, annuities, bonuses in cash, and expenses of every description, a balance of £136,860 7s. 9d. has been added to the life funds, making the total accumulations of the life and annuity branches of the company £3,015,019 13s. 4d.

PROFIT AND LOSS.

The amount at the credit of the profit and loss account, after payment of the dividend and income tax for the year 1882, was.....£170,630 15 2

Fire profit for the year.....	£127,346 14 7	
Interest.....	63,206 13 3	
	<u>190,553 7 10</u>	
	<u>£361,184 3 0</u>	

The directors now recommend, in addition to the interim dividend of 10s. per share paid in February last, a payment of 12s. further dividend from the fire branch, and 3s. per share from the balance of undivided life profits, all free of income tax, which will absorb 120,643 15 0

Leaving a balance at the credit of the account of... ..£240,540 8 0

It has been customary for some years to intimate at the annual meetings of the shareholders what difference existed between the market value of the stocks and shares held by the company and the value appearing in the books and annual balance sheets. On the 31st December last the market value of these stocks and shares was £345,745 in excess of the book value, and since that date the excess value has still further considerably increased. It has been thought desirable to transfer £200,000 of this increased value to a conflagration fund, to be specially held to meet great losses by fires of exceptional magnitude.

FUNDS.

After providing for payment of the dividend, the funds of the Company will stand as follows:—

Capital paid up.....	£289,545 0 0	
Fire fund.....	£550,000 0 0

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, London, Eng., 7th April, 1885.)

In the financial year 1884, 2,362 proposals were received, amounting to \$4,284,410, resulting in 1,974 policies for \$3,574,915, the new premiums payable thereon being \$111,937.10; 421 proposals for \$790,250 were declined or not completed. In consideration of \$13,600 seven annuities have been granted, for an annual payment of \$1,443. Nine annuitants in receipt of \$1,218.91 have died during the year. In the course of the same period 217 policy-holders have died, on whose lives 246 assurances had been effected; the claims thus arising, with bonuses, amounted to \$320,531.64. The sum of \$357,961.27 has been added to the accumulated fund, which now amounts to \$5,141,078.56. The total income is \$951,551.25; the number of policies in force is 16,261, assuring \$23,969,710, and the premiums payable thereon \$733,521.94.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31st MARCH, 1884.

(*Abstracted from Directors' Report, Edinburgh, 1st July, 1884.*)

The new policies issued (exclusive of policies written but not taken up) were 1,152 in number, assuring a total sum of £519,584 4s. 5d., and yielding in new premiums £20,103 7s. 2d., including £3,457 10s. 11d. by single payments. The new business thus reported is larger than that of any previous year in the current septennial period.

The sum of £26,460 5s. 7d. was received in the purchase of annuities amounting to £2,467 9s. 4d. per annum. Annuities to the amount of £383 1s. 2d. ceased by the death of 11 annuitants.

EDINBURGH LIFE—Continued.

The amount of premiums received during the year (after deducting premiums paid for reinsurance) was £187,063 3s. 9d., and the amount of interest and dividends received £82,179 6s.

The total income (exclusive of annuity purchase-money) was £269,347 4s. 11d., being £13,011 8s. 10d., or upwards of 5 per cent. in excess of the income of the preceding year.

The claims, £130,234 17s. 10d., although larger than those of the preceding year, were less, both in number and amount, than the expectation according to the Mortality Tables.

After meeting the claims and all other outlay, the sum of £104,452 1s. 1d. was added to the Assurance and Annuity Fund, which, at the close of the year, amounted to £1,901,569 10s.

The total assets of the company, at 31st March, 1884, amounted to £2,063,630 14s. 6d.

Yielding a new premium income of £16,956 17s. 11d.

The average age of the lives assured is about 33 (32·78).

The total premium income for the year amounted to £114,275 7s. 0d., and deducting premiums paid to other offices for re-assurance, the net amount is £106,478 17s. 4d.

The claims by death, with bonus additions, and those matured under endowment assurances, amount to £44,303 12s. 6d.

The audited accounts, annexed, are in accordance with the Insurance Companies' Act. After providing for dividend and bonus to the shareholders at the rate of 15 per cent. per annum on the original amount paid up, and the payment of claims, surrenders and cash bonus to policy-holders, and all other outgoings, there is a balance on the year's working of £40,939 0s. 1d., from which, however, a deduction of £2,298 11s. 2d. is made to meet the depreciation consequent on the diminished value of the rupee, the reduction being likewise applied to the corresponding liabilities under the company's policies. The total funds, as at 31st December last, amounted to £371,268 15s. 5d.

*To meet the request of the Board of Trade, the expenses of management have been apportioned by an arbitrary process between the Marine, Fire, and Life Departments, instead of being charged (as previous to 1874) in one sum in the Profit and Loss Account. The portion of such expenses thus allotted to the Life Department has been deducted from the Corporation's share of the profits of that department; the assured therefore continue exempt from this charge.

(Received, 31st March, 1885.)

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, Glasgow, 7th May, 1885.)

The directors have to report that during the year ending 31st December last they received and considered 1,043 proposals for assurance, amounting in all to £597,117. These applications resulted in 872 policies being issued and taken up, assuring the capital sum of £498,205; the new premiums on which—including £4,278 13s. 7d. of single payments—amounted to £18,611 2s. 7d. In addition to this, the sum of £6,314 1s. 3d. was received for annuities granted during the year.

The number of deaths in 1884 was 233, and the consequent claims, including bonus additions, and after deducting reassurances, amounted to £164,895 6s. 3d.

The society has also paid the sum of £10,250 under policies which became claims by survivance.

By the deaths of 11 annuitants the Society has been relieved of payments amounting to £495 2s. 8d. per annum.

The accounts hereto appended, show that the total income was £315,253 13s. 7d., and the total outgo £225,186 7s. 0d., resulting in the sum of £90,067 6d. 7d. being added to the net funds, which, at 31st December last, amounted to £2,587,815 12s. 11d.

The total assurances on the Society's books at 31st December last amounted to £7,894,122 2s. 1d., under 14,541 policies.

The general committee of management, in terms of the powers entrusted to them, have ordered payment of a bonus at the rate of one and a-half per cent. per annum, on all participating policies of not less than five years' standing that may become claims by death before the 1st of July, 1886. Such bonus to be computed for each complete year since the declaration at last septennial investigation.

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31st JANUARY, 1885.

(Abstracted from *Directors' Report, Aberdeen, Scotland, 28th April, 1885.*)

LIFE DEPARTMENT.

818 proposals, representing £335,110, were submitted. From these, 707 policies have been issued, assuring £286,310, and yielding in annual premiums £9,564 18s. 1d. and £109 11s 2d. of single premiums. *

The life claims paid, including those admitted and reported, but not yet matured, and in some cases not yet proved, represent £98,947 5s. 6d. This includes the sum of £3,878 5s. under endowment policies, which, during the year, have arrived at maturity.

SCOTTISH PROVINCIAL—Continued.

ANNUITY DEPARTMENT.

The sum of £4,000 7s. 4d. has been received, and for which annuities to the amount of £383 9s. 2d. have been granted; also annual premiums of £67 13s. 7d. for contingent annuities, part of which annuities is re-insured. During the year ten annuities have lapsed by death, relieving the Company of the sum of £157 12s. yearly.

FUNDS.

The total assets of the Company now amount to £1,565,311 5s. 8d., being an increase of £56,736 6s. 8d. over last year.

INCOME.

For the year, including interest, is £240,538 2s. 4d., an increase of £3,432 3s. 8d., in addition to £109 11s. 2d. of single premiums.

INVESTMENTS.

The debentures, preference, guaranteed and debenture stocks, and the Indian and colonial securities, taken at the market price of the day (31st January, 1885), continue to show a surplus exceeding £100,000 over the value at which these securities stand in the books and balance sheet.

PROFIT AND LOSS.

The balance at credit of this account, after paying the half-year's dividend of £6,000 in November last, amounts to £20,011 8s. 6d.

The Directors propose to deal with this sum as follows:—

Agents' balances irrecoverable.....	£	60	9	7
Dividend at the rate of 20 per cent. for last year (of which one-half was paid in November), leaving the balance, 10 per cent., now to be paid.....		6,000	0	0

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31ST DECEMBER, 1884.

(Abstracted from Directors' Report, London, Eng., 2nd March, 1885.)

NEW BUSINESS IN 1884.

2,279 policies were issued for the assurance of £633,475, the annual premiums on which amount to £20,878 4s. 0d.

The sum of £7,729 14s. 6d. has been received for the purchase of 26 immediate annuities, amounting to £789 15s. 7d.

The total amount of insurances now in force is £8,705,113.

MORTALITY.

The claims which have arisen during the year in respect of 353 policies have amounted to £130,528 3s. 7d., including bonus additions of £14,116 6s. 4d. The number of policy-holders who have died is considerably within the average expected and provided for in the Society's tables, as in previous years.

The total sum paid in claims (including bonus additions) since the establishment of the Society, now amounts to £2,378,776 14s. 3d.

ANNUAL INCOME AND INVESTMENTS.

The income of the Society during the past year has amounted to £357,160 13s. 11d., derived from the following sources:—

Premiums on policies.....	£256,248 16 3
Purchase of annuities.....	7,729 14 6
Interest on invested funds.....	92,951 6 7
Fees and fines.....	230 16 7
	<u>£357,160 13 11</u>

After the payment of cash bonus to the amount of £114,817 7s. 3d., and all expenses and claims, the balance of income over expenditure amounts to £47,201 7s. This sum has been added to the assurance and annuity fund, which now stands at £2,207,514 14s. 7d.

The average rate of interest realized on the investments of the Society during the year has been £4 10s. 7d. per cent.

LONDON GUARANTEE—*Continued.*

GENERAL BUSINESS STATEMENT FOR THE YEAR ENDING 31st DECEMBER, 1884.

(Abstracted from Directors' Report, London, Eng., 1885.)

During the year the policies completed assured £2,838,537, representing a new annual income of £16,086.

The gross income from premiums was £41,329 18s. 11d., and the amount paid for re-assurances £2,098 18s.

The claims, including reserve for those then under investigation, were £19,164 17s. 9d.

The directors recommend the payment of a dividend of four shillings per share, free of income tax, and the transfer of £3,000 to the reserve fund, which will then amount to £38,000.

In September, the company acquired the current risks of the Guarantee Association of Scotland, Limited. The business was moderate in amount, of a good class, and had been well selected.

CHAP. 49.

An Act to modify the application of "The Consolidated Insurance Act, 1877."

[Assented to 20th July, 1885.]

WHEREAS it is expedient to amend "*The Consolidated Insurance Act, 1877*," with regard to companies transacting business of life insurance under the title of "Co-operative Life Insurance Companies," "Mutual Benefit Associations," and the like: Therefore Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. The word "company" in this Act shall be construed and interpreted in the same manner as in the Act cited in the preamble; and a penalty imposed for contravention of this Act, the amount whereof is fixed by reference to any section of the Act aforesaid, shall be recoverable and applicable in like manner as that imposed by such section, all the provisions whereof shall apply to it and to the offence for which it is imposed.

Preamble.
40 V., c. 42.
Act how to be construed, as to the word "company," and penalties.

2. Any company incorporated within Canada, which transacts business of life insurance by promising to pay, on the death of a member of such company, a sum of money solely from the proceeds of assessments, or dues collected or to be collected, from the members thereof for that purpose, may, at the discretion of the Minister of Finance, on report of the Superintendent of Insurance, approved by the Treasury Board, be exempted from the operation of "*The Consolidated Insurance Act, 1877*," and be permitted to transact the business of life insurance on the conditions hereinafter specified.

Certain companies may conditionally be exempted from the operation of the Act.

Conditions of such exemption, as to attested returns.

Penalty for non-compliance therewith.

Yearly renewal of registration.

Application of this section

License may be issued on deposit of \$50,000.

Duration of license.

Further deposits may be required.

Death claims to be a first charge.

Application of moneys.

3. Companies to be so exempted shall register their titles or corporate names in the office of the Superintendent of Insurance; they shall also make attested returns of their condition and affairs at such times and in such form, and attested in such manner, as shall be prescribed by the Minister of Finance, and the Superintendent of Insurance shall include such returns in his annual report; and any failure to make such returns, when called for by the Superintendent of Insurance, shall subject such company, and any officer thereof, to the penalty mentioned in the twenty-second section of the Act hereinbefore cited.

4. The registration of a company shall cease to be valid on the thirty-first day of March in each year, but shall be renewable from year to year, in the discretion of the Minister of Finance.

5. The provisions of this section shall apply to corporations or associations incorporated elsewhere than in Canada for the purpose of carrying on the business of life insurance upon the co-operative or assessment plan:

2. Any such corporation or association may be licensed by the Minister of Finance, under the provisions of "*The Consolidated Insurance Act, 1877*," to transact business in Canada upon depositing with him fifty thousand dollars, and thereafter shall have the right to transact business so long as it continues to pay its losses to the full limit named in its certificates or policies, and has complied with all the requirements of the said Act and of this Act and of the Superintendent of Insurance:

3. In addition to such deposit of fifty thousand dollars, the Minister of Finance, upon the report of the Superintendent of Insurance, approved by the Treasury Board, may, from time to time, require such other and further deposit as may be recommended in such report and so approved, to be made by such companies or deposited with trustees to be named by the Minister of Finance, upon such trusts as shall be determined by the Governor in Council:

4. Death claims shall be a first charge on all moneys realized from assessments, and no deduction shall be made from any such death claims on any account whatsoever:

5. No portion of any moneys received from assessments for death claims shall be used for any expense whatever, and every notice of any assessment shall truly specify the cause and purpose thereof:

6. Every application, policy and certificate, issued or used by any such company in Canada, shall have printed thereon, in a conspicuous place, in different colored ink and in good-sized type, the following words:—

Notice to be printed on policy, &c.

"This association is not required by law to maintain the reserve which is required of ordinary life insurance companies: "

7. Every certificate and policy shall contain a promise to pay the whole amount therein mentioned out of the death fund of the association and out of any moneys realized from assessments to be made for that purpose, and every such association shall be bound forthwith and, from time to time, to make assessments to an amount adequate with its other available funds to pay all obligations created under any such certificate or policy without deduction or abatement:

Promise to pay out of certain funds to be contained in policy, &c.

8. The condition embodied in the next preceding subsection shall be inserted in every policy or certificate issued or delivered to any person insured in Canada.

In every policy issued in Canada.

6. The provisions contained in sub-sections four, five, six, seven and eight of the next preceding section shall also apply to any company (not being such a company, society or association as is referred to in section twelve of this Act) incorporated in Canada and carrying on the business of life insurance upon the co-operative or assessment plan.

Certain provisions of section 5 to apply to companies not referred to in section 12.

7. No condition, stipulation or proviso modifying or impairing the effect of any policy of life insurance issued after the first day of January, one thousand eight hundred and eighty-six, by any company doing business within Canada under the authority of the Parliament of Canada shall be good or valid unless the same is set out in full on the face or back of the policy.

Conditions not set out in full on the policy, to be void.

8. No policy or certificate shall contain or have endorsed upon it any condition providing that such policy or certificate shall be avoided by reason of any statement contained in the application therefor being untrue, unless such condition is limited to cases in which such statement is material to the contract.

As to statements in application.

9. No company shall carry on within Canada any business of the nature described in the second section of this Act, without being licensed under the Act above cited, or being registered under this Act, and the words "assessment system" shall be printed in large type at the head of every policy and every application for the same, and also in every circular and advertisement issued or used in Canada; and any director, manager, agent or other officer of a company so doing busi-

Penalty for doing business or using forms of policies, &c., in contravention of this Act.

ness without being licensed or registered, and any person who transacts any insurance business on behalf of any such company, and any such company neglecting to print the said words as aforesaid, and any director, manager, agent or other officer of such company, or any other person transacting business on behalf of such company, circulating or using any policy or application, circular or advertisement, not having the words "assessment system" printed thereon, as aforesaid, shall be liable to the penalty mentioned in the thirteenth section of the Act hereinbefore cited.

Proviso: as to contracts prior to this Act.

10. In the case of any contract entered into, or any certificate of membership or policy of insurance issued by any company, before the passing of this Act, assessments may be made and collected, and claims paid, and all business connected therewith transacted without any penalty being incurred.

Clause required in policies in favor of residents in Canada.

11. In every policy issued by a company licensed in accordance with the fifth section of this Act in favor of a resident of Canada, a clause shall be either embodied therein or endorsed thereon, to the effect that an action to enforce the obligation of such policy may be validly taken into any court of competent jurisdiction in the Province wherein the policy holder resides or last resided before his decease.

Certain societies exempted from this Act and 40 V., c. 42.

12. Neither "*The Consolidated Insurance Act, 1877*," nor this Act shall apply to any society or association of persons for fraternal, benevolent, industrial or religious purposes, among which purposes shall be the insurance of the lives of the members thereof exclusively; or to any association for the purpose of life insurance, formed in connection with such society or organization and exclusively from its members, and insuring the lives of such members exclusively:

But such societies may avail themselves of this Act.

2. Any society or association which is declared by this section to be exempt from the application of "*The Consolidated Insurance Act, 1877*," and of this Act, may nevertheless apply to the Minister of Finance to be allowed to avail itself of the provisions of this Act; and upon such application being assented to, such society or association shall cease to be so exempt by virtue of this section.

NINTH ANNUAL REPORT

OF THE

Inspector of Penitentiaries

OF THE

DOMINION OF CANADA

FOR THE YEAR ENDED 30TH JUNE, 1884.

Honorable Sir ALEXANDER CAMPBELL, K.C.M.G.,
Minister of Justice.

SIR,—In accordance with the provision of the Act 46 Victoria, Chapter 37, I have the honor to submit my Annual Report upon the condition and management of the Penitentiaries of the Dominion, for the year ended 30th June, 1884; also the Reports of the Wardens and other officers, and the Financial and Statistical Returns defined by the law.

The following tables show the number of convicts in each Penitentiary on the 30th June, 1883, the number received and discharged in the course of the last fiscal year, and also the number remaining on 30th June last, viz.:—

This falling off in convict population is very marked and gratifying, more particularly as it mainly appears in the two oldest and most populous Provinces—Ontario and Quebec—the former showing sixty and the latter forty-three fewer convicts on the 30th June last, than at the same date in 1883.

Although there has been a small increase in the number at Dorchester, the total does not overrun the average aggregate number of convicts formerly confined in the Penitentiaries of St. John, N.B., and Halifax, N.S., to any appreciable extent.

It must afford you an agreeable surprise to find that the number of convicts in Manitoba Penitentiary—which also accommodates prisoners from the North-West Territory—shows so slight an increase over the former year. It were natural to expect a different result, owing to the increase of population.

In British Columbia the Chinese and Indians largely make up the criminal class, and have contributed their share to the increase which has taken place in that Province.

The proportion of the total number of convicts—1,067—on 1st July, 1884, to the whole population of the Dominion, assuming that to be, in round numbers, 5,000,000, speaks forcibly in favor of the law-abiding character of the people of Canada, and of the general prosperity of the country at large, there being only one criminal undergoing penal sentence to every 4,687, nearly. It may be questioned whether the criminal statistics of any other country in the civilized world can show an equally favorable result. The small number of female convicts—~~thirty-four~~—supplied from Ontario, Quebec and the Maritime Provinces—Manitoba and British Columbia having ~~none~~—is very remarkable, and goes to prove that comparatively few women commit crime of a serious nature.

Nothing of a special or noteworthy character in connection with the general system of Penitentiary administration has occurred since the date of the last annual report. With the exception of one institution, all the Penitentiaries have been managed with success and satisfaction.

From all I could see and learn, during my periodic visits, as well as from the Surgeons' reports, the health of the convicts, everywhere, has been very good. No epidemic or contagious disease was reported to the Department from any Penitentiary. The total number of deaths, from 30th June, 1883, to 30th June, 1884, was nine, distributed as follows: Seven from natural causes, and two suicides, at Kingston; four at St. Vincent de Paul; none at Dorchester; one death from natural cause, and one suicide, at Manitoba; none at British Columbia.

Rev. J. U. Leclerc, who had been Catholic Chaplain to the Reformatory for many years, and to the St. Vincent Paul Penitentiary since its opening, in 1873,

tendered his resignation, which took effect from the 1st of January last. During trying periods in the history of this prison, Father Leclerc rendered valuable and signal services to the Government. His great innate modesty and humility withheld him from claiming credit for the good he accomplished. He was properly esteemed and appreciated by officers and convicts who conscientiously discharged their duties. Among those of either class, who were evil-disposed or devoid of principle, he was not in favor. He has been succeeded by Rev. Mr. Godin.

I beg, again, to submit for your consideration, the beneficial reformatory effects which would in, in all likelihood, follow from the isolation, for six or eight months, of newly received convicts, and of those who exercise an evil influence among the better disposed, by their bad example and wicked promptings. This could be done, as suggested in former reports, by providing some ranges of large cells in the new wings which are to be added to all the Penitentiaries, except Kingston, wherein the prisoners could do any work allotted to them. By this means, the convicts coming in, for the first time, would have place and opportunity for salutary reflections and good resolutions; while the habitual and incorrigible criminals would be placed where they could do no harm, through the baneful influence which they now exercise. As it is in contemplation to recommend the new remodeling of Kingston Penitentiary, the greater part, if not the whole of one wing, might be set apart for purposes of isolation. Should this suggestion be approved and carried into practical operation, the greatest drawback to good discipline and to the radical reformation of convicts who are not vicious by nature or habit, but who are led astray and corrupted by association with those addicted to vice, would be removed.

The increased remission time, granted in the Session of 1883, has a stimulating effect upon the convicts generally, and operates beneficially in the Penitentiaries, when the enlarged privilege is extended to the prisoners with good judgment and discretion. At one of the institutions, St. Vincent de Paul, I found the deprivation of a portion of the remission time gained to be the punishment inflicted, for the most part, for offences committed by the prisoners. In a number of cases, so large as to warrant the conclusion that leniency had been abused and indiscriminately practised, the forfeited time was restored to the prisoners on their discharge, no reason having been mentioned on the books for such action, in any case. This mode of procedure, I venture to say, is at variance with your intention in asking Parliament to extend the measure of remission time to its present from its former proportion. The boon is intended to encourage good conduct and industry; but if it be promiscuously conferred upon the undeserving, or restored to those who have justly forfeited it, the object intended is, in a great measure, frustrated.

In my Annual Report for the year ended 30th June, 1880, I had occasion to insert the following paragraph in connection with the Penitentiary of St. Vincent de Paul.

"Among a few there appears to have been a disposition to act the contemptible role of spies upon their comrades, by making underhand reports to the Warden—the parties so reported having been afforded no opportunity for explanation or defence. As this odious system of espionage is eminently calculated to destroy that confidence and *esprit de corps* among the officers, without which a Penitentiary cannot be governed in a proper manner, I shall, with your approval, direct that any officer who may be base enough to follow or encourage a practice so demoralizing, in future, be dismissed. If a Warden be not sufficiently alert and discerning to form a just estimate of the merits and character of his officers, without calling to his aid the spy,—who, from the compromising nature of the services rendered, becomes, in time, his equal, if not his master—he is unfit for his position and should be incontinently sent about his business. Better the riddance of a dozen Wardens rather than permit them to degrade the character of the institution which they are expected to improve and exalt."

The Hon. Minister of Justice expressed his full concurrence with the views expressed in this quotation, and signified his intention to carry out the recommendation made. I reproduce the paragraph in this report, because it may happen that I shall have to submit for your consideration and action, a case parallel to the one which elicited the opinions contained in the above excerpt.

In the last Annual Report, p. 14, the inadequate supply of books for the libraries of the several Penitentiaries, as reported by the Chaplains, was noticed. The sums granted for the purchase of books is not enough, especially for the Penitentiaries which have been established within the last eight years. I beg, again, to recommend that you authorize more liberal provisions to be made in the Estimates for the next financial year, to procure additional books for the libraries of the respective Penitentiaries.

I have to note, with much pleasure, the prompt and satisfactory manner in which the requirements of the Penitentiaries have been attended to by the Department of Public Works. So far as the appropriation for the respective institutions went, every proper want was supplied.

KINGSTON PENITENTIARY.

The manner in which this institution is administered, continues to give the Department that full and entire satisfaction which has marked its management under the present Warden. Its affairs are conducted so quietly and smoothly, yet so successfully and judiciously, as to exclude even the most remote apprehension of any jar or trouble. It can be said, to the credit of Mr. Creighton, that from the date of his appointment up to the present time, no Minister of Justice, out of the seven under whom he has held office, has ever found it necessary to order an inquiry in any way affecting his administration. On account of his high personal character and unsullied official record, it was not surprising that widespread regret and sympathy were felt when, at the close of the winter, in March last, it became known, through the press, that Mr. Creighton was stricken down with a dangerous illness, superinduced, in a great measure, by his too close attention, early and late, to the laborious duties of his

position and over-solicitude for the welfare and progress of the institution under his care. The staff, and the convicts alike, gave convincing proof of the high estimation in which they held the Warden, by the admirable discipline which they maintained during his sickness of several weeks' duration. This creditable conduct was not the result of any appeal made to the feelings or sympathies of the prisoners or the officers; it was, pure and simple, a spontaneous tribute of good will to the chief executive officer—the outcome of a just appreciation of his merits and worth. The Warden's health, I am extremely glad to say, is being gradually restored, and I hope, in the interest of all concerned, Kingston Penitentiary will, for many years to come, reap the benefit of his ability as a wise, upright and honorable administrator.

The conduct of the convicts, with some few exceptions, has been uniformly as good as can be hoped for, when no separation or classification can be made. The improvements which meet the eye, inside and outside the walls, and the great amount of work which has been done, bear evidence to their industry.

A rather desperate attempt to escape, on 7th October, 1883, by four convicts, in which there is reason to believe others would have participated, had they been successful, was frustrated by the Steward, upon whom, and upon Guard McNeil, they made a murderous attack. The plot was well laid, and had it not been for the vigilance and courage of the officer referred to—who suffered severe injury from the conspirators—aided by the gang in his department, serious consequences, in all likelihood, would have followed. The ringleader has proved himself a very bad and most dangerous character, and it may be inferred that he would not have stopped short of murder to accomplish his purpose.

A convict named James McCabe escaped from the farm on 5th October last. A few days afterwards he was shot dead in Port Hope by a constable, when, as it is said, he was resisting arrest.

The sanitary state of the prison is excellent. The number of patients in hospital, at my visits, was small. The Surgeon does not report the presence, at any time of the year, of contagious disease. The large majority of the prisoners appeared very healthy.

The diet, frequently inspected, was adequate, wholesome, and well cooked. The bread is of good quality, and made from flour ground in the mill which was put up more than a year ago in the Penitentiary.

The school is well attended, and the officers employed in teaching try to do their part with zeal and fidelity. The prisoners, to a man, almost, apply themselves with laudable diligence to learn. A great many who did not know the alphabet were able to read, write and cipher credibly.

The libraries are sources of improvement and recreation to the convicts; the money is well bestowed which is expended in keeping up the supply of new books.

The farm is a most valuable and useful adjunct to the Penitentiary. The crops of 1883 turned out very well, and consisted of oats, peas, beans, hay, potatoes and several kinds of vegetables. The barns and root-cellars were filled with the various varieties of farm produce. A portion of the land formerly quarried has been reclaimed and fenced; still more is being brought under cultivation. The west side of the farm property, from the Warden's residence to the boundary line, has been enclosed by a high and substantial fence.

There were about 120 convicts employed on Mr. H. B. Spencer's contract. The Warden reported to me that everything goes on well, both as regards the conduct of his prisoners and his business relations with the contractor. It would be a serious loss to the Penitentiary, the Government, and to a good number of convicts, were this contract to cease at its expiration. The discipline does not suffer from it; the prisoners profit by what they learn in the foundry and lock-shop; the Government derives a revenue; and no outside interest, as I am told, suffers by competition. I cheerfully and earnestly concur with Mr. Creighton in recommending a renewal of the contract upon its expiry. If necessary, I think it were desirable to modify the Act of 1883 to meet this special case.

The boiler house is completed, and is a fine solid structure. The six boilers are in working order, and will be of the greatest advantage for heating the prison, and for many other purposes.

The insane convicts are taken good care of. The Surgeon is extremely attentive to them, and sees that their wants and comforts are properly supplied.

In last year's Report, reference was made to the necessity of enlarging the cells. During one of my visits I consulted with the Warden and the visiting Architect, Mr. Bowes, upon the subject. Mr. Creighton is of the opinion that the best course to adopt is to take down the wings, one by one, and build them out of the new, having four instead of five tiers of cells. I concur in this view. If this suggestion is adopted, care should be taken to provide two ranges, at least, if not a whole wing of extra large cells, wherein allotted work could be performed by newly received convicts, and by the vicious and incorrigible.

A statement having been made in Parliament last Session, to the effect that the sewerage was in a bad condition; that the health of the convicts was thereby imperilled, and that the location of the sewers was unknown to the Warden, as the plan was lost, I made inquiry of Mr. Creighton, merely to confirm my own previous knowledge on the subject. Owing to the constant care bestowed upon the sewers, by having them frequently cleaned out, the drainage is kept good. They are well ventilated by ducts which connect them with the large chimney stacks in different parts of the yard. The health of the prisoners is in no danger from bad drainage. The course

of the sewers is thoroughly known to the Warden, the Clerk of Works and other officers. Connections with the drains have been often made, of late, from various parts of the building. It is quite true that the construction of the sewers, from the outset, was somewhat faulty—a sufficient incline to carry off the contents not having been provided—wherefore the necessity of having them so often cleaned out by the convicts. It may be possible to remedy this defect in the course of time, when more pressing work shall have been disposed of.

In the tailor and shoe shop, not more than half the number employed two years ago were at work. The decrease is mainly due to the withdrawal of a large share of the Government custom.

The Matron gave favorable reports of the conduct and industry of the women in her charge.

The old sheds in the yard of the female prison, which served as a laundry, have been removed, and suitable buildings erected in their stead.

The hospital is very well managed and kept. The cleanliness and good order which always characterize this department are very manifest.

The cells—so far as it is possible, owing to the limited dimensions—are kept clean and regular. A plan of simultaneous locking, devised by the Deputy Warden, has been adopted, and works very well. It gives great additional security against escape.

The Warden, at my last visit, spoke in terms of approbation of the zeal and efficiency displayed by his Deputy during his illness. He was well satisfied with the manner in which Mr. Sullivan performed his duties, and with the behavior of the prisoners. I do not remember to have observed, on any former visit, better, if even as good, discipline. Every day I visited different parts of the prison several times, for the most part when I was least expected. I saw no disorder or violation of rule worth noting, even when convicts were not immediately under the eye of an officer.

The substitution of gas for coal oil, of larger and modern cells for those now in use, the erection of a stone ice-house and of a large piggery, sum up the present requirements of this Penitentiary. It is to be hoped Mr. Creighton will be spared to complete these works, and thus crown his administration by leaving no essential want unsupplied.

ST. VINCENT DE PAUL PENITENTIARY.

Certain difficulties represented by the Warden, to exist between himself, the Deputy Warden, Chief Keeper, and other officers of the staff, and employes of the Department of Public Works, led to so much trouble and unpleasantness as to call

for departmental action. Accordingly, in June last, you deemed it necessary to order an investigation to be made into the state and management of this Penitentiary, and, for this purpose, G. F. Baillairgé, Esq., Deputy Minister of Public Works, and the Inspector of Penitentiaries, were appointed, by you, Commissioners. The inquiry opened on the 23rd June, and was being continued at the end of the year, over which this report extends. The evidence promises to be very voluminous, and the proceedings are likely to last for several weeks. Pending the close of the investigation and the preparation of the report upon the evidence, which will be taken and submitted to you, it appears to me inopportune to make any reference, in this document, to the administration or affairs of this Penitentiary. It may be stated, in general terms, that the administration is by no means satisfactory.

DORCHESTER PENITENTIARY.

The prospect of the new wing being ready for occupancy earlier than next summer is not very good. The increased accommodation which it will afford is needed, the present wing being over-crowded. As in the Manitoba and British Columbia Penitentiaries, many of the convicts here are without cells, and are obliged to sleep in the passages.

I regret being again obliged to report that the machinery transferred from St. John's Penitentiary, for manufacturing purposes, is not yet in working order. Having found, last February, that the work upon it was at a stand-still, I recommended that the Department of Public Works should be asked to take charge of its completion. This was done, and the Clerk of Works, Mr. Turnbull, was instructed to employ mechanics to assist in finishing the machinery. Had it been made known to this Department that the progress was so slow, steps could have been taken to prevent the great delay which has taken place. In order that all the convicts be provided with employment during the coming winter, effort should be made to have the machinery running as soon as possible. If, in addition to the butter tubs, for which the Warden reports there will be so much demand, the manufacture of the same articles, which were made at Halifax and St. John's Penitentiaries, be carried on, the convicts can be usefully and, perhaps, profitably occupied. Something should be done to prevent their being idle and to assist them to earn a livelihood hereafter.

The machinery and waterworks have been placed under the control of the Clerk of Works, Public Works Department. The Engineer has charge of the heating.

The pipes for the supply of water to the Penitentiary, laid three years ago, were found to be leaking badly in various places. It has, consequently, been found necessary to strip and disjoint the pipes, plug them with lead, instead of wood, and re-lay them again. Flaws were detected in many of the pipes and the wooden plugging proved very defective. The work was, fortunately, finished before the winter. This

was due to the great attention and energy of the Engineer, who very often worked until the night was well advanced.

The ventilation of the cell wing is rather imperfect. This is caused by the way in which the windows have been put in. They cannot be readily opened ; moreover they are glazed on the outside, so that it is exceedingly difficult to put in a pane of glass without taking out the frame. Three or four of the windows, on each side should be so altered as to facilitate ventilation. To prevent a similar defect in the wing now being built, I instructed the Warden to report to the Department in case it were repeated.

A capacious reservoir, containing 216,000 gallons, was finished last autumn. It was planned by the Clerk of Works and constructed under his supervision. This large reserve should guarantee an unfailing supply of water for all purposes, including fire.

The new boiler house has been finished and the boilers placed in position.

It will be necessary to isolate the prison wing from the officers' quarters by means of iron doors, or of wooden doors lined with sheet iron, in case of fire. Should a fire break out in the front building, while the convicts are locked up in their cells, I apprehend there would be great loss of life from suffocation before the prisoners could be released. It is of great importance that proper precautions be taken to prevent a possible catastrophe. Application has been made to the Department of Public Works to furnish the doors required, and no doubt this will be done in good time.

I had an understanding with the Clerk of Works when I was last at Dorchester, respecting the laying out and fencing in of two yards—one or the use of the female convicts and the other in connection with the Deputy Warden's quarters. A great deal of inconvenience has been felt from the want of a suitable place for the women to take exercise and do their work in the fine weather.

The building which serves for a laundry, shoe and tailor shops, is a mere shell, and sways to and fro in a high wind. It requires strengthening and other repairs. The Clerk of Works promised he would do what was necessary. The laundry has been much improved by the addition of a clothes-drier, ingeniously planned and placed in position by Guard Darrah.

I was present at an examination of the pupils attending the school, established on the premises, for the education of the officers' children. The proficiency, intelligence and very creditable appearance of the scholars afforded an agreeable surprise. The school is exceptionally well conducted.

The space in front of the officers' quarters has been graded. I have instructed the Warden to have the other improvements made, which are so necessary to render these houses in any degree comfortable.

The Warden reports that the conduct of the convicts, with a few exceptions, has been satisfactory.

The female prisoners have also behaved themselves properly, and have been usefully employed throughout the year. The accommodation for this class of convicts is not quite as good or suitable as it might be; but, no doubt, in case of the number increasing, something may be done to improve the quarters now used, which amply meet present wants.

A number of convicts are employed in clearing and bringing into cultivation some of the wild lands belonging to the Penitentiary, whenever the weather is favorable.

The affairs of this Penitentiary—the idleness of many of the convicts during the winter months excepted—have been conducted in a satisfactory manner during the year. The officers have behaved themselves in a becoming manner, and have discharged their duties in such way as to meet the Warden's approval.

I have instructed the Warden, pursuant to your directions, to have due regard to the respective claims of the three Maritime Provinces to their proportionate share of the appointments, which he is authorized by the law to make.

MANITOBA PENITENTIARY.

I have, again, this year, to bring under your notice the over-crowded state of this Penitentiary. Several convicts still continue to sleep in the passages. Ten oak cells were constructed at the north end of the prison wing, as asked for last year; but six of them have been condemned by the Surgeon as unfit for occupation, because of there being no means to ventilate them.

The Minister of Public Works found it necessary to defer the building of the new wing which was to have been erected last summer. Instead of doing this, it is proposed to extend the cell accommodation, by either using, for that purpose, a portion of the front building, containing the Warden's quarters and the offices required for transacting the business of the Penitentiary, or by raising the roof of the wing, in order to add another tier of cells. According to my judgment, the enlargement can be better affected by taking in that portion of the main building extending from the wing to the chapels, inclusive, because the work can be done during the winter, and a large number of cells could be provided. On the other hand, the raising of the roof cannot be undertaken until next summer, whereas the increased room is required as soon as possible. To facilitate immediate operations, the Department of Public Works could provide a temporary residence for the Warden's family, at Winnipeg or elsewhere, pending the building of his future residence. Were this done, the work of removing the dividing walls, partitions, &c., could be commenced at once by the convicts, under the direction and supervision of the Department of Public Works.

Though the wing will not be built, for the present, as the additional cells required can be otherwise supplied, the other buildings asked for last year, that is to say, chapels and school, boiler house, hospital, workshops, &c., cannot be dispensed with any longer without great inconvenience. Provision can be made for temporary chapels in the front building; but it would be most desirable that a detached hospital be built.

The second boiler has been placed in position, and steam for all purposes is now supplied.

An iron gate which separates the prison wing, in the basement, from the kitchen, &c., has been put up, and gives much additional security to this part of the building.

The drainage has been at last effectively and permanently improved, under the direction of Mr. D. Smith, the Agent of the Public Works Department at Winnipeg. As suggested some years since, in one of my reports, there was no incline in the drain; it was a dead level from the beginning, and, as a matter of course, all the sewage remained under the flooring of the basement. It is surprising that a chronic epidemic did not establish itself in the Penitentiary for the last seven years, to so great an extent did foul and noxious gases permeate the entire building.

The cell doors have been strengthened by the brick jambs being cased in iron.

A detached stone building, containing six dungeon cells, has been erected on the west side of the Penitentiary.

The convicts take their meals in the cells, the dining room being entirely too small. It is used as a workshop for the tailors and shoemakers.

A double-brick cottage, for guards, is in course of construction, and will be roofed in before the winter.

Two deaths occurred during the year, one of which was a case of suicide by a life prisoner, who had become insane.

There were four escapes, one being successful. In view of the exposed state of the Penitentiary, from the want of a surrounding wall, close and constant vigilance must be exercised to prevent more frequent evasions. Having frequently represented the great necessity of the wall being built, it were needless for me to say more now on the subject. It is more needed than ever, in consequence of the growing number of convicts.

Should the Warden's present quarters be used in enlarging the prison, a house for his future residence will be required. Preparations for building it might be made forthwith. Stone could be quarried, and the trenches for the foundation excavated by means of convict labour.

The conduct and industry of the prisoners have been most favorably reported upon by the Warden. The same discipline, which has been so often commended in the Annual Report, continues to be maintained unimpaired.

The lunatics from the Province and the North-West are still kept here, at great inconvenience to the administration and to their own detriment. The accommodation and surroundings are altogether unsuited to the peculiarly unfortunate condition of the insane. Everything that circumstances will permit is done for their comfort and well-being. It is expected that the Asylum at Selkirk will be ready to receive patients next summer.

Fuel is supplied by the Government to the officers at a very large expense. This could be greatly lessened, I learn, by substituting Saskatchewan coal for the popular firewood now used. The saving that could be effected in two years, by burning coal, would recoup the outlay necessary to buy coal stoves by the Department of Public Works.

BRITISH COLUMBIA PENITENTIARY.

I beg to direct your attention to the reports of the Warden and the other officers of this institution, as containing all the information concerning it that is in my possession.

The Penitentiary is over-crowded, and great difficulty is felt in providing room for the convicts.

A dangerous plot to break prison was discovered in time to frustrate the design of the conspirators.

A convict made a murderous attack upon one of the guards, in view of escaping.

Application was made, more than a year ago, to the Public Works Department, to build another wing.

The Warden has several times, in his letters to the Department, urged the necessity and utility of a visit by the Inspector. This might not be amiss, once in seven years, as the administration of such an institution requires to be examined into by some one whose experience would enable him to detect any defects that might exist and apply the proper remedies.

I have the honor to be, Sir,

Your obedient servant,

JAS. G. MOYLAN,

Inspector of Penitentiaries for Canada.

KINGSTON PENITENTIARY.

REPORT OF THE WARDEN, FOR THE FISCAL YEAR ENDED
30TH JUNE, 1884.

KINGSTON PENITENTIARY, July, 1884.

SIR,—I have the honor to submit my fourteenth Annual Report, with the usual returns of the Kingston Penitentiary, for the year ended 30th June, 1884.

The discipline of the Penitentiary during the year has been very good. The officers, with a few exceptions, have performed their duties satisfactorily, and the conduct of the men has been commendable.

The various improvements in connection with the institution have made considerable progress during the year.

The new heating arrangements by steam are about completed. During the latter part of the winter, the steam was used in the wings, and gave every satisfaction. It is a vast improvement on the old stove system, being not only a saving of fuel but a great source of comfort to the men as well. When the stoves were in use it was an impossibility to heat the place uniformly. Those occupying cells near the stoves would complain of the heat while those at a distance would find the other extreme.

The new water system is also about complete, and fills a long felt want, being a great protection against fire. Hydrants having been placed in commanding positions throughout the yard, from which, with the aid of the large Worthington pump in use here, water can be thrown over any of the buildings within the walls.

The gas house is also under way, and I hope, ere the end of next year, to see it completed and the gas in general use throughout the institution. It will be a vast improvement on the coal oil lamps now in use, being not only less expensive than the oil but also a great safeguard against fire.

When this, with the new water and heating arrangements are completed, the only thing required to make the Penitentiary compare favorably with the best institutions of a similar kind in America will be the enlargement of the cells—a very much needed improvement. The present ones are only 2 ft. 8 in. in width by 6 ft. in height and 10 ft. in length. This, of course, is much too small a space for any human being to spend on an average of twelve hours out of the twenty-four. By making three of the present cells into two, it would give all the room necessary for comfort and health. This could very well be done, owing to the number in confinements being so much smaller than formerly.

In addition to the improvements already mentioned, a fine new laundry in connection with the female prison has been built, to replace the old wooden structure formerly used for that purpose.

During the winter a new wharf, extending about one-half the length of the western water-front, was raised about two feet above the water level. When this is completed, the whole water-front will be enclosed by a substantial wharf, thus presenting an effectual barrier to the waves of Lake Ontario.

The grist mill has proved a success, having reduced the price of the flour and enabling us to have it always of the same quality.

The farm still continues to be a great source of revenue to the institution. The crops this season are fully up to the average, and should they turn out as present appearances indicate, we will have enough to carry us through till next season.

The vote of the Dominion Legislature for the support of the Penitentiary for the fiscal year just closed was \$112,878.23. Of this amount, \$97,939.13 was expended, leaving a balance in the hands of the Government, unexpended, of \$14,939.10. The chief reason for the non-expenditure of this sum was the decrease in the prison population. The average number during the previous fiscal year was 563, while during the past year it was only 501.

The amount of cash remitted to the Receiver-General during the year for convict labor, &c., was \$14,979.33.

There remained in the Kingston Penitentiary on the 30th June, 1882, 512 males and twenty-two female convicts.

Received since—From common jails, 114 males and twelve females; from other penitentiaries, one male. Total number received during the year, 115 males and twelve females. These added to the number in the Penitentiary on the 30th June, 1883, made the total 627 males and thirty-four females.—Total, 661.

Discharged during the year—By expiration of sentence, 139 males and five females; by pardon, twenty-nine males and one female; by death, nine males; by escape, one male; by suicide, two males; sent to Insane Asylum, one male, making a total of 181 males and six females disposed of in these ways during the year; and leaving the total population on the 30th June, 1884, 446 men and twenty-eight women—Total 474, sixty convicts less than we had at the commencement of the year.

The daily average of convicts in the Kingston Penitentiary during the year was 501, and the cost per capita was as follows:—For staff, \$87.09½; rations, \$10.65; uniform clothing, \$10.93½; convicts' discharge clothing and cost for travelling allowance, &c., \$10.39½; heating, \$17.12½; Light, 2.52½; bedding 35½c.; contingencies, 10½c.; maintenance of buildings, \$8.61½.

The revenue in cash remitted to the Receiver-General, if distributed over the prison population, would amount to \$29.87½. This deducted from \$174.87½, would leave the actual outlay for the support of each convict, \$144.98.

It is only fair to state that the apparent increase in the cost per capita is caused by the decrease in the prison population.

I am, Sir,

Your obedient servant,

JOHN CREIGHTON,
Warden.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

REPORT OF PROTESTANT CHAPLAIN.

SIR,—I have the honor to report a steady decrease of the number of convicts, owing, no doubt, partly to the cessation of the drafts from other prisons which were formerly sent to us. Still, the decrease is larger in amount than that would account for, and appears to indicate a decrease of crime.

The school continues to go on successfully. With the exception of a few elderly men, almost every man who comes here ignorant, learns to read and write during his sojourn.

I believe that, owing mainly to the interest which the men take in the books supplied to them from the library, reports for talking in the ranges at night have almost ceased, although a few years ago they were very frequent.

Towards the close of the fiscal year, a movement towards serious thought became apparent, resulting in the formation, at their own desire, of a voluntary Bible class, which is attended by from fifty to sixty men.

I am, Sir,

Yours respectfully,

C. E. CARTWRIGHT,
Chaplain.

J. G. MOYLAN, Esq.

Inspector of Penitentiaries.

REPORT OF CATHOLIC CHAPLAIN.

KINGSTON PENITENTIARY, July, 1884.

DEAR SIR,—In this, my tenth Annual Report, I have nothing further to say than again bear testimony to the excellent management of the Penitentiary. Great credit is due Warden Creighton for the existing state of affairs, and I trust God will spare him long to continue his very useful work.

I have the honor to be, Sir,

Your obedient servant,

P. A. TWOHEY,
Catholic Chaplain.

J. G. MOYLAN, Esq.,

Inspector of Penitentiaries.

SURGEON'S REPORT.

KINGSTON PENITENTIARY, 30th June, 1884.

SIR,—I have the honor of presenting my Annual Report for the year ending this date.

It will be seen, in the annexed tables, that the health of this institution, during the past year, has been very good, and the mortality, considering all the circumstances, remarkably small.

I have nothing special to state concerning the sanitary condition of the prison. Its excellent hygienic state, which has been one of its characteristics of late years, has been maintained. The prevention of disease is a matter of such moment that its importance is never lost sight of, and this vigilance is amply repaid.

The authorities are mindful that diet, clothing, cleanliness, ventilation, &c., shall be of such a nature as to preclude, as far as possible, danger from these sources.

The inmates of the insane ward present no peculiarities differing from inmates of similar institutions. Most of them are broken down, physically as well as mentally, and so far as restoration to soundness of mind is concerned, utterly hopeless.

The care and attention received by them undoubtedly prolong their lives, for many of them have had very little of comfort before being imprisoned.

I have much satisfaction in stating that every facility looking to the treatment and comfort of the sick and insane, is afforded me. The Hospital Overseer continues most efficient in the discharge of his special duties, and in connection with the other officers of the hospital and insane ward, merit commendation.

The number of yearly prescriptions, exclusive of hospital patients, amount to 2,115.

I have the honor to be, Sir,

Your obedient servant,

M. LAVELL, M. D.

Surgeon, Kingston Penitentiary.

J. G. MOYLAN, Esq.,

Inspector of Penitentiaries.

MATRON'S REPORT.

KINGSTON PENITENTIARY, 30th June, 1884.

SIR,—I have the honor to submit my Report of the female department of this institution, for the year ending 30th June, 1884.

The female convicts are principally employed in sewing and knitting for the male prison, as is shown by the return of work done.

At the end of the year 1883, there remained in this department twenty-two female convicts. During this year twelve were received, five were discharged by expiration of sentence, one was pardoned, leaving twenty-eight at the end of this year.

I remain, Sir,
Your obedient servant,

MARY LEAHY,
Matron.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

SCHOOL MASTER'S REPORT.

KINGSTON PENITENTIARY, 10th September, 1884.

SIR,—I have the honor to submit my tenth Annual Report on the school of Kingston Penitentiary, for the fiscal year ended 30th June, 1884, and have much pleasure in saying that those attending school are truly making favorable progress.

Our daily attendance has been reduced from 125 to ninety-one, caused by a decrease in our prison population. In addition to those who regularly attend school in school-room, others, by the kind permission of Warden Creighton, are furnished with books, slates, &c., for cell practice. This has a beneficial effect, as it tends to self-improvement and to quietness in the cells. Through the kindness of Warden Creighton and Chaplains, and the assiduous efforts of my assistant teacher, to improve those in their several classes, is no doubt the cause of our school success.

I am, Sir,

Your obedient servant,

J. B. P. MATHEWSON,

Schoolmaster.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

ST. VINCENT DE PAUL PENITENTIARY.

REPORT OF THE WARDEN, FOR THE YEAR ENDED 30TH JUNE, 1884.

St. VINCENT DE PAUL PENITENTIARY, August, 1884.

SIR,—I have the honor to submit my Annual Report for the year ended the 30th June, 1884.

I subjoin to it the usual Returns and Statistics, which will constitute the principal ground thereof.

The accompanying Statistics of our criminal population show what has been the movement of the convicts during the year terminated the 30th June last.

The 30th June, 1883, there remained in the St.

Vincent de Paul Penitentiary..... 308 convicts.

Since, there have been received from common jails... 98 “

Whom, if added to the 308 remaining the 30th

June, 1883, make..... 406 “

Have been released during the year..... 141 “

Thus leaving a criminal population of..... 265 “
on the 30th 1884.

This decrease of our population is due, I believe, partly to the relatively prosperous state of affairs of the Dominion generally, during these last years; partly, also, to the relative brevity of the term of sentence inflicted upon the greatest number of the criminals during the same period; and in a least part, likewise, to the increase of remission time granted to convicts by virtue of the Penitentiary Act of

1883; and, lastly, to the number of pardons awarded this year, being twenty, against five the preceding year.

The Return, No. 8, shows that the largest number at any time during the year terminated the 30th June, 1884, was.... 308

The smallest number at any time during the year was..... 259

And the average number during the year, per day, was..... 280

And the cost per capita was as follows:—

Total expense of the year, Statement No. 11.....\$82,609 58

To be deducted:

Amount of expenditure carried. 82,699 58

1. The Revenue in cash, Statement No. 12. \$1,619 83

2. Travelling allowances to discharged convicts, and their discharge clothing, maintenance of machines and repairs to buildings, Statement No. 13..... 5,202 63

6,822 46

This last amount of.....\$75,787 12

Assessed over our average population of 280, will make the cost of convicts, per capita, to be..... 270 67

If, however, the value of convicts' labor was accounted for, amounting, according to the Statement No. 13, to the sum of.....\$40,872 75

And deducted from that of..... 75,787 12

That would have the effect to reduce the expense to....\$34,914 37

And that of the keeping of each of the convicts to..... 124 69

And although this last figure may appear already low enough, it would seem to be more moderate yet, if the relatively limited number of the present population of the prison be only borne in mind, together with the facts that the costs of the maintenance of the establishment are the same as when it had an average population of 346 convicts; as, for example, in the fiscal year 1880-81. See comparative movement, &c., No. 7.

Then, if the cost of maintenance for 1883-84 were assessed over a population of individuals of 346, in lieu of 280, that would cause an expenditure, per capita, in the first case, of \$219; instead of \$270.67; and in the second case, of \$101, instead of \$124.69.

This result shows that it would be a mistake to suppose that those costs of maintenance are diminishing in proportion with the decreasing of the population; for the salaries, the heating and lighting, remain the same.

One last observation on this matter.

The vote of the Dominion Legislature, for the support of this Penitentiary during the fiscal year just closed, was.....\$83,546 36

The expense has amounted to..... 82,609 58

There consequently remains in the hands of the Government.....\$ 936 78

As it is a matter of fact, however, that gratuities have been paid and other disbursements made, which had not been provided for, see (Statement No. 14,) amounting to.....\$1,631 82

Which, if added to the unexpended balance..... 936 78

The two will form a total, seemingly to the credit of the institution, of.....\$2,568 60

Besides, I can well affirm, in all conscience, that I have seen with a particular care and an unceasing survey, that the economy was practised in all the Departments as much as it could be so done, without impairing the efficiency of the service.

THE WORKS

which are carried on under the supervision of the Department of Public Works, specially those of the excavations into the quick rocks of the main sewer, have been pushed on with vigor, and the laying of the pipes will be terminated, in all probability, towards the next spring.

The rotunda could then be built, and the setting down of the steam boiler take place, so that the system of heating will be apt to become much more economical, and, at the same time, greatly more commodious.

The works of the splendid building intended, in the first place, for the use of a dining hall, and to satisfy to other wants, have progressed slowly since last fall; and although, in consequence of the adoption of the system of serving meals in the cells, the edifice is not likely to preserve its former distinction, and that modifications have thereby become unavoidable in the distribution of its inside, and that the windows be of too small dimensions and too few in number, particularly in case that the construction was eventually put to the use of shops—the need of which, in every one's opinion, as well as your own, Mr. Inspector, I believe, is so imperiously felt. However, the works have been carried on in accordance with the plans first adopted.

Yet I have occasionally ventured few representations upon the matter, but like most of those made in connection with other urgent improvements, they have produced no effect. Probably more propitious circumstances are looked for before action be taken in that direction.

THE DISCIPLINE.

I shall say but a few words about it, in so much that this grave subject has hitherto been the source of contentious opinions among officials themselves, to whom their elevated position gives all possible authority; this arises, probably, from the different standpoints at which each places himself to make an appreciation thereof. Even yourself, Mr. Inspector, you have not always judged very favorably of it; whilst it has occurred that Mr. Creighton, the Warden of the Kingston Penitentiary, whose ability and experience in similar matters could hardly be doubted, thought it due to justice, to record, in the Official Report which he was submitting, on the 6th July, 1883, to the Honorable Minister of Justice, in connection with a visit that the Minister had instructed him to make to this Penitentiary, that he had found out the discipline here to be good, and even better, in some respects, than that which obtained in the Kingston Penitentiary.

It is one year and more since that testimony has been given to my administration, and that the Honorable Minister thought proper to acknowledge the merit thereof.

Since, in my own mind, at least, there has been improvement. The fact that there has not been any escape to be regretted during the year, would be, in your own way of appreciation, in matters alike, I believe, one of the best indications of a better state of discipline prevailing. Three convicts attempted to escape. Those attempts were insignificant; and upon each of the cases, besides, circumstantial reports have been submitted to you in due times.

At best, it would neither be fair, nor even reasonable, to judge of the state of discipline in an institution like this, from some infractions to the rules of silence; for, with works of the nature of those performed here, that give causes for suggestions, even from one convict to another, it becomes an absolute impossibility to totally prevent the utterance of those words, in reference to which, you will not think out of place the quotation of a paragraph, which reads as follows, in the report of the Warden already referred to, Mr. Creighton, for the year 1879-80:—"I will be pleased, how-

ever," says Mr. Creighton, "when the Insane Asylum is completed, as from the nature of the work, it has been difficult to keep all the men, detailed for labor there, constantly employed. Hence an appearance of laxity of discipline has shown itself, which, under all circumstances, it has been difficult for the officers to correct."

The work in common is destructive of good discipline.

THE OFFICERS.

During the year four new guards have been appointed, to replace an equal number of officers of the same grade, one of whom died, one resigned, and the services of two were dispensed with. That is a move in the direction, which you pointed out, as to the two last ones at least, in your last Annual Report, Mr. Inspector.

That the greatest number of the employés have granted my administration their devoted co-operation, it is but fair for me to acknowledge it here. But, on the other hand, that there are officers, even of a superior grade, who have proved indifferent to the good of the institution, and hostile to my administration; who have, in the meanwhile, relied upon some occult influence in this inexplicable and unjustifiable crusade against me, is too manifestly true for me to insist any more.

And it is from the complaint which, in view of the good of the institution, and to comply with your invitation, and especially to put an end to those charges laid by those superior officers before you in the first weeks of your last visit, nominally against certain officers, but aimed at me in fact, I have made against those officers, and now undergoing the trial of an investigation, that I am patiently to wait as to be made known how far those officers have misbehaved and been neglectful in the performance of their duties.

THE SCHOOL

has been improving gradually. under the direction, more and more satisfactory, of M. Dorais, the present teacher.

THE HEALTH

It is ascertained by the report of M. Pominville, the zealous surgeon of the prison, that the state of health has been and is tolerably satisfactory, under circumstances.

I have the honor to be, Sir,

Your obedient servant,

GODEFROI LAVIOLETTE,

Warden.

J. G. MOYLAN, Esq.,

Inspector of Penitentiaries.

REPORT OF THE ROMAN CATHOLIC CHAPLAIN.

(Translation.)

ST. VINCENT DE PAUL PENITENTIARY, 30th June, 1884.

SIR,—I beg to present to you my Report on the spiritual and moral direction of the Catholic convicts for a part of the year 1883-84.

I began to exercise the ecclesiastical ministry as Assistant Chaplain of the Penitentiary of St. Vincent de Paul on the 29th September, 1883, and as Chaplain on the 1st January, 1884.

On the 30th September, 1883, the Catholic convicts numbered 250. Between that date and 30th June, 1884, seventy-three left on completion of their term under sentence; twelve after obtaining remission of part of their penalty; two died in the infirmary of the Penitentiary,—one in December, 1883, the other in April, 1884. Both had received the last sacraments which the Church has commanded us to administer to those about to leave this earth and appear before God.

Within the same period fifty-nine new Catholic convicts were brought to the Penitentiary. Of that number three had already been in the Reformatory at Montreal; forty-two came to the Penitentiary for the first time, ten for the second time, and three for the third time. One of the latter had spent some time in the Kingston Penitentiary.

One of the convicts who came here in the month of October, 1883, came to me in February, 1884, and told me that he did not know the place of his birth nor whether he had been baptised. He expressed to me his wish to be instructed, and to receive the sacraments of the Catholic Church. Being unable to procure, in relation to this convict, any other information but what he himself gave me, I baptised him conditionally, on Saturday in Holy Week, and on the following day, Easter Sunday, I gave him the Sacrament of the Eucharist.

Since the 15th December, 1883, five other convicts have also received Holy Communion for the first time; and on the 4th of May, 1884, Monsiegnieur Fabre, Bishop of Montreal, administered the Sacrament of Confirmation to sixteen convicts, some of whom were already somewhat advanced in age.

Another convict, who, from the time when he was admitted into the Penitentiary, attended the Protestant chapel, but who had been baptised by a Catholic priest and reared by a Catholic family, was brought to me one day in the month of April, by one of the officials of the institution and by order of the Warden. The convict asked me to be good enough to admit him to my chapel. After he had several times reiterated to me that he was serious in his request, and that he seriously wished to become a Catholic again, with the authorization of the Warden, I permitted him to attend the Catholic chapel and began to instruct him in Catholic doctrines.

I am happy to inform you that all the convicts with whom I have had to do have always shown themselves most respectful towards me. I must also say for them that most of them behave well in the chapel. They seem to pay a good deal of attention to the instructions given them. I have often remarked that they like to assist at the offices of the church, especially when the functions are accompanied with some outward pomp and ceremony. Our chapel, large, handsome and somewhat richly decorated, is well adapted to the solemnity of religious worship. Should the Hon. Minister of Public Works deem it well to make us the present of an organ, it would enable us greatly to enhance the impressiveness of our religious exercises. I hope that favor may be granted us with as little delay as possible. I trust the Hon. Minister of Public Works and his colleagues will not consider an organ in a penitentiary as a matter of luxury, or as a reward of which many of the convicts are perhaps not deserving, but rather as a means which will aid the Chaplain in accomplishing his work with much better results. I take the liberty of repeating here what I have already written on another occasion: "The civil power, I consider, in consigning criminals to the penitentiary, does not aim so much at punishing as at morally improving them, elevating them, making them men and christians, and fitting them to be hereafter useful to society instead of being its bane. But where is that education to be imparted? Where is that great change to be brought about? In the shop? In the work-yard? In the cell? No, evidently not. It must be in the church. It is by religious exercises that we shall succeed in reclaiming and elevating them. With this unfortunate class we must act on the senses, in order to reach the heart. We must make them love the church; and there, by means of beautiful religious functions, banish the dullness to which they are a prey, the despondency which sometimes renders them intractable, and then inspire them with sentiments of honor and the love of virtue. It would be labor lost to try to prove that those whose work is to reclaim and civilize men, find music to be nearly always an effective help. The fact is too evident and too well known."

I shall now offer a few remarks on the school kept in the Penitentiary.

The number of convicts entered on the books of the school is sixty. The average attendance is forty. I have visited the school from time to time. In presence of Mr. Allan, Protestant Chaplain, in the month of February, I examined the convicts who are learning French, and witnessed the examination of the English speaking convicts by Mr. Allan. I have repeatedly endeavored to stimulate among those convicts whom I met in the school a desire they ought to have to acquire knowledge. From the pulpit I have spoken in the same sense to all the Catholic convicts who are in need of instruction. But, unfortunately, those who most need to attend school are often least convinced of the necessity of instruction. They

shunned school when they were young; they have grown up deprived of all school teaching, and of nearly all education. Now that they are in the Penitentiary, they have little liking for the school. Many of them have but little talent, and most of these can only be employed at rough and arduous work, and very often outside the walls, on the farm or elsewhere. There are, then, many causes for this want of assiduity at the school. If the convicts could be brought to form a taste for instruction; to shake off their natural apathy; if they could be induced to be assiduous at school and attentive to the instruction given them, it would, I think, be a great point gained. The promise of rewards for assiduity and for success, a regulation enforcing regular attendance at school on the part of those who have once been admitted, would, I think, produce the best results. I am convinced that the school has a great moral influence on those who attend it; and the Chaplain, in order to accomplish his work thoroughly, needs the powerful help of the schoolteacher.

I leave it to your wisdom, Sir, to estimate the value of my remarks.

I have the honor to be, Sir,

Your obedient servant,

J. D. GODIN, Priest,

Catholic Chaplain.

Twelve of the above admitted their guilt, and eleven confessed to intemperance.

The conduct of the prisoners during Divine Service and at other times in the chapel, has been, on the whole, satisfactory.

From an examination of the school, I found that the men had been well and faithfully taught.

The affairs of this institution being at present undergoing official investigation, I refrain from remarking on any of the same, and desire only to state, in a general way, my conviction of many years' standing, that fresh legislation in criminal matters seems absolutely necessary. The present system of dealing with those guilty of crime is not only excessively expensive to the State but detrimental to society, in a very high degree, and almost entirely defeats the object in view, viz., the reformation of the erring ones. Should the conference of the members of the Prisoners' Aid Association, held at Toronto in January, tend to a thorough revision of the penal code and to a great alteration for the better in the management of penal institutions, that society's exertions in these and kindred directions will prove a blessing to the country.

I have the honor to be, Sir,

Your very obedient servant,

JOHN ALLAN,

Protestant Chaplain.

REPORT OF THE SURGEON.

(Translation.)

ST. VINCENT DE PAUL PENITENTIARY, 25th August, 1884.

SIR,—I have the honor to submit, for your information, my Report for the year ended 30th June last.

The sanitary state of this Penitentiary has been as good this year, which is now terminated, as it has been in any of the preceding years.

There has been no epidemic or contagious disease of any kind. The only cases of disease that I have had to treat were such as one meets with in his ordinary practice.

During the year, there have been four deaths. The first was caused by dropsy—owing to the exhausted state of patient's constitution—the second by chronic bronchitis. This patient was an old man of sixty years or more, whose constitution was worn out by the constant use of intoxicating liquors, together with a life of misery. The two others died of consumption (Phthisic Pulmonaire). I have to remark that the greater number of deaths that have taken place in this Penitentiary since its opening were due to consumption. Among those attacked by it, many of whom have been pardoned, those die in a few weeks afterwards, either in their families or in the hospitals. A retired and monotonous life, mental depression, and more than that, the humidity which must naturally exist in buildings composed entirely of stone, explain why this disease makes so many victims in institutions of this kind.

Accidents have been less numerous this year than in the preceding one. There have been only two serious accidents. The one took place whilst the convict was blasting stone; the other was caused by a piece of wood which flew from the planing machine during the time it was in operation. Those who had been the victims of the aforesaid accidents have lost each the use of an eye. I am happy to be able to state that these two patients are almost quite recovered and will be soon discharged from the hospital.

You will see by the statistics accompanying this report, the number of convicts who have been treated both in the hospital and in their cells. Before terminating this report, I have to say that the hospital overseer (Mr. Manning) is a very attentive officer and fulfils the duties of his charge to my great satisfaction.

The kindness and good will which the Warden and all the officers have always shown towards me, aided me very much in discharging my duties with efficiency and satisfaction.

I have the honor to be, Sir,

Your very obedient servant,

J. T. POMINVILLE, M.D.

Surgeon.

* The two convicts entered on the list of discharged were pardoned by the Hon. Minister of Justice; and in a few months after being pardoned both died.

N.B.—In the foregoing page the word "cells" is annexed to hospital regarding the treatment of convicts. The reason of this is owing to the fact that only those patients who are really sick are treated there, owing to the insecurity of the hospital.

SCHOOLMASTER'S REPORT.

(Translation)

ST. VINCENT DE PAUL PENITENTIARY, 25th August, 1884.

SIR,—I have the honor to transmit to you my second Annual Report concerning the management of the school for the fiscal year ended 30th June last.

The total number of convicts actually on the school register is sixty; the regular attendance forty.

I am generally satisfied with the conduct and progress of that portion of scholars who attend school regularly. I wish I could say as much of the others who, if we may judge by their frequent absence, do not seem to attach a great importance in the school. I propose to recommend you their dismissal, in order to make room for those more anxious to instruct themselves.

In my last year's annual report, I have said a few words about rewards to be distributed to convicts as an excellent means of inducing them to like school and provoking emulation amongst those attending it. Those rewards, however small they might be, would produce a favorable influence on their application and attendance.

Besides, what I would like to be done in favor of the school is actually in practice in the institution—the weekly distribution of tobacco. What is successfully done to stimulate manual work, would it not be possible to use it to stimulate intellectual work?

Another means, it seems to me, which would induce the convicts to hold the school in great esteem, would be, as long as circumstances would permit, to take, among the scholars, those appointed to certain posts requiring a certain amount of instruction.

Should those two stimulants be practicable, I think the secret of provoking, amongst the convicts, a greater desire to instruct themselves would be found, and the result would show a greater application, and especially a larger attendance.

I hope, Sir, you will excuse me for allowing myself to make those suggestions, having only in view the interest of the school and the welfare of the convicts.

I remain, Sir,

Your obedient servant,

J. T. DORAIS,

Schoolmaster.

DORCHESTER PENITENTIARY.

REPORT OF THE WARDEN, FOR THE YEAR ENDED 30TH JUNE, 1884.

DORCHESTER PENITENTIARY, 1st July, 1884.

SIR,—I have the honor to submit my fourth Annual Report upon the management of this Penitentiary, with the usual returns, for the fiscal year ended 30th June, 1884.

I am pleased to be able to state that the expenditure has been kept within the sum of our estimates.

The Department of Public Works has charge of the new workshops, and is now completing the machinery, &c. This work was handed over to them in February last.

The convicts have been employed, as usual, in making improvements, constructing new buildings, farming and the necessary work always required to be done in a new establishment, and particularly in connection with a new farm. Heretofore we have been enabled to find full employment for the prisoners in the above works, save during a few months of the winter, when a few of them were not employed, and as the machinery for manufacturing will be in operation for the coming winter, I trust that in future we shall have full employment for the convicts all the year round.

Since the construction of the new reservoir—holding 216,000 gallons—and the leading of the pipes, we have had no difficulty whatever with our water supply, and when Mr. Turnbull completes our fire service, which he has now in hand, it will be most effective.

The cells in our present wing are all occupied, but as the new wing will, I hope, be finished this fall, we need not anticipate any difficulty from having a few convicts sleeping on the landings in the meantime.

You will see from the Surgeon's report that the sanitary condition of the prison has been good. There were no deaths during the year.

From the Chaplains' reports you will find that the results of their services have been most satisfactory, and I can say that these reverend gentlemen have most faithfully performed the various duties of their positions here.

The school has been conducted very satisfactorily, and every facility given to the well behaved prisoners wishing to avail themselves of its benefits.

I am very glad to be able to report that we have not lost a prisoner since the institution was opened, but I refer to this fact more in a thankful than in a boasting spirit. The attempted escapes during the past year have not amounted to much, excepting in one instance, when the runaway was severely wounded, but I am glad to say that he has quite recovered from his injuries.

I think you will agree with me that our tailor department has improved wonderfully, when I inform you that we are now making all the prisoners' uniforms and discharge clothing, and the officers' uniforms, with the exception of their Sunday suits. We have, as yet, no tailor instructor on the staff.

The new sheep-house is completed, and we are now constructing the dry-houses, &c., in connection with the workshops.

The farm has done reasonably well, considering the disadvantages under which we labor, for the want of manure.

There are six female convicts, and four of them are, from old age and other infirmities, unable to work, and, in fact, require considerable attending upon, so you will see there is not much work to be expected from them, with the exception of the ordinary housework connected with that department.

The conduct of the staff continues good, and I am glad to report that the good feeling heretofore existing between them still continues.

I am still able to speak favorably of the increased remission of time lately granted to the prisoners, and the results must continue to be satisfactory if the law be properly administered.

The conduct of the prisoners, with few exceptions, has been good, and these exceptions, barring one or two cases, were not at all serious. You will see by the returns that I had to administer the lash in one instance. The majority of the prisoners perform their duties in such a way as would lead me to hope, at least, that their future life would have a better record than their past.

I have the honor to be, Sir,

Your obedient servant,

BLAIR BOTSFORD,

Warden

DORCHESTER PENITENTIARY, 30th July, 1884.

DEAR MR. MOYLAN,—I herewith transmit my Report, which is necessarily only partial.

I carefully considered the "boy convict" question, but after serious reflection, I came to the conclusion that I could add nothing to the weightiness of your own words in your report to the Minister. *

It is but just to say, however, that there is a very special and tender watchfulness kept over them, to keep them from the evil that is in the world around them.

I remain, Sir,

Yours very sincerely,

J. ROY CAMPBELL.

PROTESTANT CHAPLAIN'S REPORT.

DORCHESTER PENITENTIARY, 30th June, 1884.

SIR,—I have the honor to present this Report for the nine months ending 30th June, I having succeeded the Rev. R. Simonds, on his resignation on the 30th of September last.

Since that date, all such duties as devolve on the Protestant Chaplain have been discharged by me without any intermission. In accordance with the rules and regulations, the convicts have been duly seen, both on their reception into and on their discharge from the prison; and upon such and all other occasions, suitable counsels have been offered.

In chapel, the conduct of the prisoners has been uniformly excellent, the convicts yielding a free will, voluntary reverent attention, as distinct from an enforced obedience to order and discipline. The services have been very much brightened by the kind voluntary assistance of Miss Chipman, who has not only played on Sundays, but has also regularly attended weekly practice with the prison choir-men, whereby the quality of the musical part of the service has risen above that of the average church choir.

I have also frequently visited the school, and, in my opinion, Mr. Short does his duty well.

I have the honor to be, Sir,

Your obedient servant

J. ROY CAMPBELL.

Chaplain.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

DORCHESTER PENITENTIARY, 1st August, 1884.

SIR,—I beg to submit my fourth Annual Report, for the year ended 30th June last.

Nothing very important occurred during last year.

Divine service was regularly held every Sunday throughout the year. We had music and singing nearly every Sunday.

Much credit is due to Mrs. LeBlanc, our indefatigable organist, for all her trouble and hard work in training the convicts to sing, in playing the organ and singing herself every Sunday, without the hope of any remuneration. Where shall we find, in our days, a person who will be willing to work gratis a whole year for the public good? In what Department of the Dominion Government is to be found a clerk or an officer without receiving ample remuneration for his work? Last winter the Rev. Mr. Campbell and myself made joint application to the Department of Justice for a small sum for our organists, but we had the sorrow of a refusal. In a Penitentiary where there are prisoners able to play on the organ and lead the singing in Divine service, there is no need of paying for the same, but here we are not so favorably situated, being under the necessity of employing organists from outside. In my humble opinion, music is necessary in our penitentiaries, as well as in any other place of worship outside. If our good Minister of Justice was given the opportunity of attending our Divine service where he would hear good music and singing, and

another service without, I am sure he would soon find the difference and make provision for the first. Religion, well understood and well practised, is the greatest civilizing and reforming power we can find here below, and therefore we can never give too much solemnity to Divine worship. In my little experience, I can boldly affirm that the principal cause of the bad luck of a great many convicts was a want of taste for religious services. People don't want to go to church, because there is no attraction there. They will stay away from church, be deprived of instructions and then become worthless characters. Unless we give all attention possible to the solemnity of our Divine worship, our public institutions will not fulfil their mission. If music is considered necessary in the battle field to give courage to the soldiers, it is equally necessary in the battle field of life, where we have so many enemies to contend against every day, and if the Department of Militia incurs the expense of two or more bands of music when the volunteers assemble for drill in Sussex, Shediac or elsewhere, every year, I hope the Department of Justice will not refuse one or two hundred dollars to aid us in drilling soldiers for Christ.

The sanitary state of the Penitentiary was very good during the year. We had no serious sickness and no deaths. The prison is kept in the best state of ventilation and cleanliness. The food is good and substantial. In my opinion, the discipline amongst the prisoners was even better than formerly.

I believe the new system, inaugurated since your last visit here, of marks of distinction for good conduct amongst the convicts, and of note books in the hands of the officers, has been fruitful of good results.

In conclusion, I must return my most sincere thanks to all the staff, from our kind Warden to the last officer, for their untiring kindness towards me, and for the help they have afforded me in the fulfillment of my duties.

The movements of Roman Catholic convicts during the last year were as follows:—

SURGEON'S REPORT.

DORCHESTER PENITENTIARY, 30th June, 1884.

SIR,—I have the honor to present my Report for the year ended June 30th, 1884.

The sanitary condition of the institution has, during the past year, been very good. The general health of the convicts has been better than usual, and the diseases of a milder form.

The condition of the men, on admission, is generally better than in previous years.

The convicts are chiefly employed outdoors, and largely in farm work; and to this, in conjunction with regular habits and good discipline, may be attributed, in no small degree, the good health of the men.

The sick are seen to as soon as any complaints are made, and, if necessary, at once sent to hospital, where everything, in the way of attendance, medicine, and all necessaries that will assist their recovery, is furnished them.

There are fewer men attempt to evade work, by feigning sickness, than formerly.

We have had no deaths.

There was one convict sent to the Kingston Asylum, as he could not be treated here with safety; and from some peculiarities in his case, I did not feel justified in having him remain longer with our other convicts.

The whole number of applications for advice and treatment was 837; of this number, 225 received treatment.

The admissions to hospital has been twenty-two. The number of days in hospital 905. Annexed you will find statement of whole number treated in the institution, as also a return of cases sent to hospital.

I remain,

Your obedient servant,

ROBERT MITCHELL, M.D.,

Surgeon.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

MATRON'S REPORT.

DORCHESTER PENITENTIARY, 30th June, 1884.

SIR,—I have the honor to submit my Annual Report on the female department of this institution.

I may repeat what I stated in my last report, that little or no change has occurred during the year just ended, with the exception of four females having been discharged by expiration of sentence, and five received, leaving us at this date six in number. Their employment, as before stated. Conduct, as a rule, good.

I have the honor to be, Sir,

Your obedient servant,

A. CHIPMAN,

Matron.

Inspector of Penitentiaries.

SCHOOLMASTER'S REPORT.

DORCHESTER PENITENTIARY, 1st July, 1884.

SIR,—I have the honor to submit my Annual Report for the fiscal year ended 30th June, 1884, and am pleased to say that the conduct, general proficiency and regularity of attendance equals that of last year, but with an increase in numbers, having only forty scholars last 30th June; this, there are forty-nine, which, in itself is, I think, sufficient to show that the school and the instruction there given are valued

by those attending. A few, however, proving unruly, were dismissed, and some others reprimanded.

System followed and branches taught, same as in last report.

The Warden and the Protestant Chaplain, Rev. J. R. Campbell, have visited the school from time to time, which shows the men that their interests are looked after and cared for by those in authority.

With regard to general library, it is now being looked through with a view to rebind the less injured books and to discard those which are not fit for re-issuing.

I have the honor to be, Sir,

Your obedient servant,

THOMAS SHORT,

Schoolmaster.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

MANITOBA PENITENTIARY.

REPORT OF THE WARDEN, FOR THE YEAR ENDED 30TH JUNE, 1884.

STONY MOUNTAIN, 1st October, 1884.

SIR,—I have the honor to submit herewith my Annual Report for the year ended 30th June, 1884.

In my report of last year, I, at considerable length and earnestness, drew your attention to the grave want of a boundary wall and extension of cell accommodation. Notwithstanding my appeal, nothing has been done in the matter. The same drawback, consequent upon this state of things, exists to-day in a larger measure than it did a year since. The evils incident upon this have been repeatedly reported upon by myself, from time to time, and call for little comment now.

The over crowded state of the prison and its unprotected state entails upon the staff of this prison a very heavy tax. I am inclined to think, notwithstanding the constant representations made, it must be regarded by the Department, to a large extent, as illusory, or steps would surely have been taken ere this to have remedied a state of affairs, which are not only an unfair strain upon the watchfulness and discipline of the officials, but tends to laxity and is subversive of those certain cardinal elements of discipline which are essential to the successful management of a penal institution.

It is gratifying to know, however, that the conduct of the convicts has been, in the main, good.

Four attempts at escape have been made during the year, out of which three proved abortive. One fugitive, after crossing the frontier, was arrested at my instigation, by the American Customs authorities, for bringing stolen horses into their territory, and sentenced by them to the State Penitentiary.

The want of Hospital accommodation is still very much felt, as will be seen upon reference to the Surgeon's report.

The proposition, however, of the Department of Public Works, of converting the present quarters of the Warden and the offices into additional prison accommodation, I am fully in sympathy with and heartily concur in. This will give us sixty-eight more cells, additional chapel room, and also provide suitable Hospital requirements for a few years. It is to be hoped that the matter will be taken up by the Department at the earliest possible moment.

The placing of an additional boiler, by the Department of Public Works, in our boiler-room, has added largely to the expenditure on account of fuel. I find that the

per caput cost of this item, for the year ended, amounted to \$75.93, and I notice that the *per caput* cost on the same account, at the following penitentiaries, is as under, viz. :—

Kingston, estimated population, 625.....	\$ 9 54
St. Vincent de Paul, estimated population, 350	15 96
Dorchester “ “ 130.....	16 36
British Columbia “ “ 70.....	13 92

This demonstrates fully, how unfair it is to compare the cost of maintenance of this Penitentiary with that of others in the Dominion, when it is shown how greatly in excess, in one item alone, is the cost in Manitoba of similar institutions elsewhere. Neither can any common ground of basis of expenditure be applied to Manitoba, where one hundred and one circumstances, incident to the Province and peculiar to the location of the prison (and not applicable to the other Provinces), unpreventably swells the cost of maintenance.

The Department of Public Works, during the year, have supplied material for the construction of sheds and pump-houses for the Guards' cottages, weigh-house, coal and drying sheds, which have been built by convict labor, assisted by skilled artizans. A very substantial penal cell building was also completed by contract. The drains, also, have received attention, under the immediate supervision of the agent, Mr. Smith, and have been giving satisfaction.

It is a matter of regret that the year has passed without any joint meetings of the Wardens having taken place, as was suggested by you two years ago.

I would again draw attention to the suggestions regarding pensioning officers, as submitted in my last two annual reports, and have to hope that some public man will, urged by the necessity for some such system, introduce a measure before the House of Commons, that will relieve the case and the minds of those engaged in a perilous branch of the public service, by legislation that will place them out of reach of poverty, in event of accident, or confer upon them a reward on account of long and faithful service.

I beg to enclose the usual annual statistical returns.

I have the honor to be, Sir,

Your obedient servant,

S. L. BEDSON,

Warden.

PROTESTANT CHAPLAIN'S REPORT.

STONEWALL, 29th July, 1884.

SIR,—Another year has past and I find that the time has come for sending my Report.

Since June of 1883 I have found everything going on in the most satisfactory manner. Our chapel was getting too small, but the Warden has kindly had it enlarged, and improved in other ways.

The prisoners express themselves as being more than satisfied with the treatment they receive from both the Warden and guards, and I do not see how they could say or feel otherwise. I have always been received most kindly by the Warden, and in fact, all the officers of the institution do all they can to help me in my work and to make the services what they should be.

The prison itself is beautifully clean and kept in perfect order, and I feel that everything is done to help to make the prisoners feel as happy and cheerful as possible under the circumstances.

My prayer is that God may give me power and show me the way to bring home the wandering sheep to the Good Shepherd.

I have the honor to be, Sir,

Your obedient servant,

FRANK T. W. GREENE,

Protestant Chaplain.

REPORT OF THE ROMAN CATHOLIC CHAPLAIN.

(Translation.)

MANITOBA PENITENTIARY, STONY MOUNTAIN, 4th July, 1884.

SIR,—I have the honor to transmit to you my Annual Report for the year just ended with the month of June, 1884.

I must, in the first place, express the great satisfaction I have experienced in the discharge of my duties towards the convicts. Generally speaking, they have all complied with their religious duties with regularity, and many of them with alacrity. In the chapel, their conduct has been becoming, their piety edifying, and their attention unflagging. I must add, that their singing, during service, is really most creditable.

Notwithstanding the departure of a good number of convicts within the last few months, the chapel has always been too small. We have been too confined and, in fact, cramped for room. It is true the chapel is being enlarged; but the space, though somewhat increased, is still insufficient, in view of the number of convicts sentenced in the North-West. Those who have left have been replaced by others and, in fact, by an increased number, and we have not sufficient room.

The leading event of the year has been the departure of the fifteen Indians, who were discharged on account of their good conduct. They left the institution towards the middle of April. They had been instructed in the truths of religion, and His Grace, the Archbishop of St. Boniface, had been so good, in compliance with an invitation, as to come and confer on them the rite of baptism. The usual imposing ceremonial made a deep impression on the susceptible imaginations of the Indians.

The action of the Government in this matter is beyond all praise. The Indians are big children, and their sensitive hearts cannot fail to have been touched when they were discharged before the expiration of the full term of their sentence.

The good conduct of these Indians during their stay in the institution goes to show that their offence was rather an act of bravado than a maliciously planned robbery. They were invariably docile and well disposed. They were eager to learn the principles of a christian life, and as far as it was possible, I grounded them thoroughly in the lessons I strove to impress on their minds. They understood that the whites were not their enemies; they understood that in every society there are men who rule, and others who are ruled; that if the law is not to remain a dead letter, it must be upheld; that respect for the law is to their own advantage, and its violation a cause of trouble, and that the welfare of all demands that its violators be punished. They understood all this in a general way; but their convictions were shaken when they were told that their punishment was for their own good.

I am convinced, Sir, that their stay in the institution will have been of real benefit to them. They have learned trades, and have been occupied at manual labor, and now that they are enjoying freedom on their reservation they will, I trust, continue to work, and thus help on the civilization of their own people. They understand that the soil, when cultivated, is capable of giving a crop; that iron, when wrought, makes most useful implements, and that with certain plants they can make cloth wherewith to clothe themselves.

Their discharge by remission, as a reward for good conduct, may, perhaps, produce another result. They will tell what has been done for them; they will make known the real purpose held in view by those who administer the laws, and they will point out the duties devolving upon those who are subject to those laws. They will help to remove the mistrust existing amongst the Indians towards the officials of the Government, and inspire them with that confidence which is essential to all amicable relations. This will be a great step towards their moral and intellectual improvement.

My relations with the various officials have remained, throughout the year, in all respects the same as they were last year. I have nothing to change in what I wrote last year in my report.

That those good relations may continue is the desire of

Your most obedient servant,

G. CLOUTIER, Priest,

Catholic Chaplain.

SURGEON'S REPORT.

STONY MOUNTAIN, 16th August, 1884.

SIR,—I have the honor to submit my Report for the year ended 30th June, 1884.

The accompanying table will show the actual condition of the sick during the year.

The number of prescriptions given to sick, exclusive of hospital patients, was 397.

It will be seen by comparing the return of hospital cases for this year, with that of last, that there has been a satisfactory decrease.

This is accounted for in one way, by the fact that fifteen Indians were released by order of the Executive. These were suffering from hereditary disease, quite

incurable, and clearly aggravated by the confinement of prison life. In spite of everything which was being done for them, in the way of building up their strength and combating the disease, they grew daily worse, until it seemed that nothing further which we could do for them here would be of any avail. Their condition was reported to the Department, with a recommendation from the Warden and myself, for their liberation, which, after being duly considered, led to the order for their release.

I must again make mention of the fact that the institution has not yet been provided with a hospital.

You have, in your last Annual Report, commented on our lack of hospital accommodation. You state that this will be provided as soon as possible; yet nothing has been done. The Warden also refers to the urgent necessity for an hospital, and I would again, in this report, strive to impress the fact that we are still in the greatest need of a properly equipped hospital.

I must say, however, that the Warden has kindly placed at my disposal the new building erected for refractory convicts. He can ill-afford to do this, but I find that the room thus provided answers very much better than the cells in which, previous to this, I had to treat my hospital patients.

The appointment of a Hospital Orderly is now very important, since we have a space set apart for the treatment of hospital cases. I hope that provision will be made for this in the next estimate.

The health of the officers has been good. The numbers asking to be temporarily relieved from duty on sick leave has been very small.

We have had few accidents, and these of a comparatively trifling nature. The prison has been free also from epidemic disease of any kind.

The general health of the convicts has been good. During the warm months of the summer, and in our over-crowded state, it is gratifying to be able to report this condition. It is due largely to the extreme cleanliness of the prison, and also to the liberal supply of fresh vegetables which the garden affords, coupled with the good quality of food supplied. I hope that the Department will recognize the importance of the two factors, and do all that is possible to continue this to us.

I desire to refer to the drainage and ventilation of the prison. We have had less trouble during the last twelve months than before, but both systems are still very defective and require a thorough overhauling, before we can hope to be entirely free from the danger to health which invariably accompanies bad drainage and poor ventilation.

The lunatics who are still confined here are in fairly good health. In my last Annual Report I referred to the fact that the Provincial Government were taking steps towards the erection of an asylum for insane. The building, I am glad to say, is in progress, and its completion at an early date is assured. This will relieve us of the great care and responsibility entailed by the presence here of this unfortunate class.

The cell accommodation is entirely too limited. Even after the removal of the lunatics, what little increase of space this will afford will leave us still in a very undesirable condition. Should an epidemic occur at any time, our hands are so bound and tied that it would be impossible for us to forestall the danger by giving the proper care and attention at such a trying time. By all means let steps be speedily taken to afford us additional room, by going on with the enlargement of the prison.

Referring to the expenditure for drugs and hospital necessities, the Warden has, on several occasions, drawn my attention to the large outlay. Every precaution has been taken to economize, which has been done under my own supervision. I regret, however, to say that the necessary surgical instruments applied for have not yet been supplied, and I have had, on several occasions, to use instruments belonging to myself, provided for my private practice. I do trust that my requisition for these instruments may be complied with at an early date.

In closing this report, I beg to mention the kindness which has constantly been shown me by the Warden and officers in our official relations, for which they have my best thanks.

I have the honor to be, Sir,

Your obedient servant,

W. R. D. SUTHERLAND, M.D.,

Surgeon.

J. G. MOYLAN, Esq.,

Inspector of Penitentiaries.

BRITISH COLUMBIA PENITENTIARY.

REPORT OF THE WARDEN, FOR THE YEAR ENDED 30TH JUNE, 1884.

BRITISH COLUMBIA PENITENTIARY, 2nd July, 1884.

SIR,—I have the honor to submit my Annual Report on the management of this Penitentiary, with the usual returns, for the fiscal year ended 30th June, 1884.

There remained in this Penitentiary on 30th June, 1883, seventy-four convicts. Received since, from common gaols, thirty-four; escaped convict, July, 1882, re-captured, one. Total, 109. Discharged during the year, by expiration of sentence, twelve; by sentence reduced, one; by pardon, three; which left remaining at mid-gh t on 30th June, 1884, ninety-three convicts.

As in the last year, the convicts have been employed clearing land, and have made 4,550 feet of drains, depth from 4 to 6 feet.

On laying before you this report, I must call your attention to the delay that is met with on almost every occasion where any outlay is required from the Public Works Department. I would suggest, for these delays are a great drawback in the every day working of this Penitentiary, to have all necessary small expenses, repairs and other small outlays, which now come under the Public Works Department, placed under the Warden's direction. It is very annoying and very inconvenient to wait, as we are now obliged to do, for trifling amounts to be expended on most necessary improvements. Work that should and might have been done weeks ago, is as yet not commenced.

The chapels are over-crowded ; they should be altered immediately.

I have before drawn the attention of the Department to the advantage that would be derived by having a bakery built for the institution. Bread could be provided at nearly one-half the price that is now paid for it.

The water supply at the workshops is far from sufficient. It is brought through a branch from the main pipe in the rear of the building, and in the event of fire, is not enough to be of any service. All we have to depend on are two Babcock fire extinguishers, that are kept in the Penitentiary. Some time since I applied to be furnished with two more extinguishers, to be kept in the workshops. A good supply of water can be had by putting in a larger pipe and running further up the ravine. The assistant engineer has surveyed the place for that purpose, but so far nothing has been done in the matter. I beg of you most earnestly to take notice of what I state concerning this very important matter—the water supply. As it now exists, we are at any moment likely to be wholly deprived of water ; we are in need of water, not alone for the purposes mentioned, but also for irrigating our land in many places.

A deep ravine occupies a large portion of the Penitentiary reserve. All the land that we have fenced in is cleared. There is a Government reserve in the rear of the Provincial Lunatic Asylum, and adjoining the Penitentiary reserve, which, if it were included and enclosed in the Penitentiary reserve, would give employment to a large number of convicts for some years, besides which, being a piece of land that is well adapted for farming purposes. If this were done, the ravine could then to some extent be utilized, besides being enclosed. As it is now, it is not safe to let any number of convicts work there until it is fenced in.

Although tenders for the erection of guards' cottages have been called for by the Public Works Department, nothing has yet been done towards erecting them. Year after year, since this Penitentiary was first established, this great want of the cottages for the guards has been brought before the notice of the Government. The majority of our guards are obliged to live in town, over a mile distant from their work, when, let me inform you, that the expense of living in this way is really too great, when taken from their present salary. While this inconvenience and discouragement exists, the right sort of men will not continue to remain on the staff. Men who are suitable to guard convicts are almost, in every instance, well adapted to a more agreeable, as well as a more profitable situation.

Emigration to this Province is only now beginning, still our convict population is fast increasing. Railway work is steadily approaching completion towards the Rocky Mountains, and this Penitentiary must be prepared to receive convicts far beyond the number that were first thought of being provided for in British Columbia. I therefore hope you will urge upon the Government the necessity of immediately building. The cells have all been constantly occupied since my last report, including the punishment cells, in which cells I have had to put as many as four convicts. You must see how difficult it is to carry out discipline or maintain order, yet I am pleased to be able to report that the general conduct of the convicts has been good, with the exception of the attempted revolt, on the 17th April last, particulars of which I wrote you at the time.

The addition to time of remittance of sentence has produced a marked change for the better. Of course there are some to whom this great favor seems to make no difference, but I am happy to say they are few.

Our school is now working in a more satisfactory way than has been pursued for some time. The lately appointed schoolmaster is very attentive.

The tailor and shoe shops are both well fitted with all the implements necessary for their different purposes. I have been successful in securing two good men as trade instructors. In the tailor's shop there will be work enough for some time in making clothing for officers and convicts. In the shoe shop I could employ from twenty to thirty men and find work that would pay well. In fact, enough could be done in this department alone to help considerably in covering the expenses of the establishment, as well as teaching many of the convicts a useful trade.

If permission would be given to take work from persons outside, I think what might be done in the shop would in no way interfere with free labor in British Columbia. Some of our Chinese convicts having worked in shoe factories in California, could be more profitably employed in this way than at anything else that I could put them to do here. Inside work agrees better with Chinese than with Indians or whites.

During the past year the general health of the convicts has been good. Careful attention has been given to keeping the whole building scrupulously clean. The baths used by the convicts are a great deal too small; there are but two. You must see how very far short this is from what is absolutely required. For this reason it is necessary to be very particular, and is at times very inconvenient, where there are so many convicts to be attended to.

On the 1st October last, the fish-canning establishment opposite the Penitentiary gate, on the Penitentiary reserve, was destroyed by fire. Part of the Penitentiary fence was slightly damaged. The night was calm, otherwise Penitentiary property, to a great extent, might have been lost. As I have mentioned before, we are in no way prepared for such an emergency. Our workshops are unprovided with hose; close to the shops are our stables and sheds, which, I must here mention, are not suitable for the purposes for which we are obliged to use them. They were put together from portions of old buildings that were on the ground when this Penitentiary was first established. They may hold together for another winter, but, really, they are a disgrace to the place.

Last August, the Honorable Sir Alexander Campbell, Minister of Justice, visited this Penitentiary. Although his visit was very short, I am glad to say it produced good effect.

In my last annual report I drew the attention of the Department to the fact that this penitentiary had not, since the time of its being opened, September, 1878, received a visit from the inspector. During the year now closed I have been expecting some notice to be taken of my repeated request. So far, I have received no intimation of an intended visit. I am well aware that the successful management of any establishment of this kind depends greatly on the administration. I have minutely informed you, as far as possible, of all and everything that has occurred from time to time in this Penitentiary. If satisfactory results arise from my management, sincere thanks are due to your able and willing advice. I do conscientiously say that, acting under your instructions, I do my best, and I feel that I can safely say the same for all officers at present working with me.

The Deputy Warden deserves thanks. He has never relaxed in earnest attention to his several duties. He is as careful and industrious now as when he first came here.

I have the honor to be, Sir,

Your most obedient servant,

ARTHUR H. McBRIDE,

Warden.

REPORT OF THE PROTESTANT CHAPLAIN.

NEW WESTMINSTER, 1st July, 1884.

SIR,—I have the honor of presenting my Report, as Protestant Chaplain, for the year ending 30th June, 1884.

All the required services in my department have been duly performed during the past year.

At this date, there are under my pastoral care, fifty-two convicts,—whites, fourteen; colored, three; Chinese, twenty-one; Indians, fourteen.

It is proper to state here, that though returned as Protestants, there are very few coming under that designation, in the usual sense of that term. It is known to you, of course, that according to the rules and regulations of the Penitentiary, all convicts who do not register themselves as belonging to the Roman Catholic Church, must attend the services of the Protestant Church, no matter what they are, or are not. But it may not be known to those who may examine these reports for the purposes of comparison or classification.

I do the best I can for all, however, without any distinctions whatever, earnestly and faithfully inculcating the moral and religious principles of our holy religion, as contained in the sacred Scriptures; and in doing so, I have always been much pleased with the exceedingly good order and attention on the part of every convict, whether white, Chinese or Indian. Indeed, they cannot be excelled in these respects by the best congregations anywhere. Some have professed to receive much religious knowledge and improvement, and made good resolutions for future amendment as soon as they get the opportunity.

The Chinese and Indians I instruct carefully, through interpreters, and I have been fortunate in having very accomplished ones among the convicts themselves,—one white man for the Indians, and one professedly Christian Chinaman for the Chinese. They do not all, however, require an interpreter, as some Chinamen and some Indians understand English, and can join in the ordinary services. With very few exceptions, indeed, both are very willing to be taught the principles of the Christian religion; and the Chinese seem to take great interest in reading the New Testament in Chinese, a copy of which I furnish to every one of them as they are brought in. It is the first bright look most of them give the first few days after they are brought in, when I visit them, and they see in my hands a book in their own language, and they gladly promise to take good care of them, and read them in their cells.

I am very thankful for the grant of money made for the Protestant library. I have been careful in expending it to the best advantage for such varied classes of readers. The convicts highly appreciate them and are diligent in their perusal. The total number of men able to read them during the year was twenty-five, some of these only recently imprisoned, and some of them in only a short time during the beginning of the year. Exchanges of books, 433; and these, in addition to their reading of books from the general library. Only one Chinaman made use of the books in English—the interpreter referred to—and he read ten very interesting and profitable ones. I have also supplied French testaments, and can, at any time required, furnish bibles in ten or more different languages.

The chapel is now very inconveniently crowded, and something ought to be done soon in this matter, or we cannot reasonably expect either orderly or profitable services in the solemn worship of God.

Although some good has been done in the day school, I regret to say that I cannot report favorably upon it this year, except in so far as the new teacher is concerned, Mr. Keary. He is most attentive, even enthusiastic, since his appointment, over three months ago. But you know that for over four months of the year we had no teacher and no regular school. And besides that, the accommodation provided and the supply of money granted for the purchase of school requisites are totally inadequate. The teacher will probably give details.

In the discharge of my duties, I have received every possible attention and assistance from the Warden and every other officer in the institution.

REPORT OF THE CATHOLIC CHAPLAIN.

BRITISH COLUMBIA PENITENTIARY, 30th June, 1884.

SIR,—I have the honor to present you with my Annual Report for the fiscal year ended 30th of June, 1884.

It affords me pleasure to state that the health of the convicts has been good during the year. We have had no deaths since my last report, nor any case of serious illness. We have been anxiously expecting that some provision would be made in our prison accommodation, but although the summer is far advanced, no commencement has yet been made. The present building is crowded to excess everywhere, not even excepting the chapels. If a remedy be not applied very soon to this state of affairs, serious consequences to the health of the convicts must necessarily follow. Several are now crowded in single cells, and others kept in the city prison, there being no room for them in the Penitentiary. What then is to be done? There is only one remedy that can be effectually applied, namely, to erect a new and more commodious building and to convert the old edifice into an auxiliary one, which will be very useful for many purposes. The idea of patching up and adding new wings to the old one, if adopted, will be a very great mistake, and will eventually cost more than a new building. I have already informed you of the murderous attack made on one of our best guards by convict Barry, in May last, which was nearly becoming a serious mutiny. Such an affair would not occur if there were a sufficient number of guards, but situated as they are at present, not having anything like an adequate staff, their lives are very much exposed and at the mercy of these desperate men, who are continually watching an opportunity to escape, quite regardless of the sacrifice of human life. If, unfortunately, such a thing would occur, the Government would be responsible for the consequences. I also wish to state that our Penitentiary has hitherto been very much neglected. Every other similar institution under the Government has had regular visits from the Inspector, whereas we have had only one visit from him in six years, which was at the opening of the institution, in 1878. How then can good order, regularity and discipline be observed, when the officer whose special duty is to enforce it, is “not permitted to visit our Penitentiary?” Surely

there is something wrong here, which loudly demands a speedy remedy. There is no other officer that can be supposed to know the working of these institutions as well as the one who is, by virtue of his office, obliged to study the proper way of acting, not unfrequently under very difficult and trying circumstances.

I have lately paid several visits to the school. The attendance of white men is small, but the Indians and Chinamen make up for this; all of them seem most anxious to learn. I must also, in justice to our school teacher, say that he is attentive to the men and punctual in the fulfilment of the duties of his office.

REPORT OF THE SURGEON.

BRITISH COLUMBIA PENITENTIARY, 1st July, 1884.

SIR,—I have the honor to report as follows, with regard to the health of the convicts and the sanitary condition of this institution, during the year ended 30th June, 1884.

Notwithstanding the large increase in the number of convicts and the great crowding in the building caused thereby, the accompanying table shows a very satisfactory state of health. No disease of an epidemic character has occurred, and no death has taken place among the convicts. This result has been obtained only by great care and attention to cleanliness on the part of all those in charge of the convicts and the buildings.

The increase in the number of convicts causes great difficulty in providing work for them all. This is much to be regretted, as the enforced idleness of a convict necessarily militates against a good condition of body, both physically and mentally.

The work of building a new wing and hospital will, to a great extent, obviate this, as, no doubt, the convict labor will be availed of as fully as possible.

The increased accommodation is imperatively called for, and it is to be hoped that due and proper attention has been given to the plans for heating and the other

sanitary conditions of the new buildings. An increased and improved water supply will be required to make them complete.

I have to thank the Warden, the Steward and the other officers for their kind assistance in carrying out the duties of my department.

I have the honor to be, Sir,

Your obedient servant,

C. NEWLAND TREW, M.D.,

Surgeon.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

REPORT OF THE SCHOOLMASTER.

BRITISH COLUMBIA PENITENTIARY, 1st July, 1884.

SIR,—I have the honor to submit my first Report on the school. Having been appointed in March of this year, I can only speak from that time. The average daily attendance has been twenty-seven. The subjects taught have been reading, writing, spelling and arithmetic. The convicts, without one exception, pay the greatest attention to what they are taught, and show a decided progress. There are no copy-books in the school, there being no money available to purchase any, the grant for the school being too small to allow of doing so. The nationalities of the twenty-seven convicts are—whites, three; Indians, eleven; Chinese, thirteen. If the school could be carried on in a separate room, instead of being, as is now the case, mixed with the shaving gang every Friday and Saturday, more could be done. There are a number of convicts whom the Warden would allow to attend school, but there is no accommodation. The two Chaplains have visited the school and informed me that they were pleased with the progress the convicts were making. There have been 389 changes of books in the library during the year. The Warden has been very kind and given me much assistance in the school.

I have the honor to be, Sir,

Your obedient servant,

W. H. KEARY.

Schoolmaster.

TO THE HONOURABLE THE HOUSE OF COMMONS OF CANADA, IN
PARLIAMENT ASSEMBLED:

The Report of the Acting Librarian, on the state of the Library of Parliament, respectfully sheweth:—

At each of the two previous Sessions of Parliament a special grant of \$1,000 was placed to the credit of the Library for the purchase of rare works on the North American continent. I am happy to be able to report that considerable additions have been made to this important section. Comparatively few works are now wanting in what may be called the *Bibliotheca Canadensis Vetustissima*, having relation to the discovery and early settlement of Canada. Hence our shelves offer a large number of works bearing on the history of the English colonies and plantations—their rise and progress, and, later on, their controversies with Great Britain previous to the Revolution; the wars of Independence and of 1812, and, returning to Canada, to the troubles of 1837-38, both in Upper and Lower Canada.

This special grant was made at a most appropriate time, for the prices of this particular class of books have of late increased largely. At a recent sale in New York 32 vols. of the *Relations des Jésuites (editio princeps)*, brought over \$3,500. I may here mention that the Library has been able to secure twenty-five of these precious components of our annals on much more favourable terms.

The American section of the Library now numbers 13,500 vols., of which 7,500 are Canadian.

During the years 1882 and 1883 the question whether the law books in the Library should be retained therein or transferred to the Supreme Court having been kept in suspense, but few purchases of law books were made. At its last Session, Parliament, however, decided that the law section should not be removed to the Supreme Court, and following that decision, I have endeavoured to bring up that section to its proper standard, by adding to it the latest editions of all law books recently issued.

It is a matter of regret to me that I have been unable, through the want of proper accommodation, to carry out, to its full extent, the resolution adopted by Parliament with regard to the organization in this Department of a section of Cartography. A considerable number of maps have been bought, but it has been found impossible to secure the necessary space to arrange and display them properly.

This want of room has been felt more or less in the different branches. The book cases around the House of Commons Reading Room, placed at our disposal by the Board of Public Works, have been filled to their utmost capacities, and it will be no easy task next year to shelve the new additions. It will, therefore, be necessary, in order to meet the requirements of the Library, to find more accommodation, and I beg leave to request respectfully that the rooms in the basement of the Library, now occupied by the Queen's Printer, be in future used for the purposes of this Department.

It has been proposed several times, within the last few years, to reorganize the Library and enlarge its scope and character. Referring to this matter, the Right Hon. Sir John A. Macdonald said, during the Session of 1883 (*Vide* official report Debates, April 16, 1883) when the report of the Library was under consideration: "Our Library is neither the one thing nor the other just now. It is not a British Museum, or a Canadian Museum, or a National Library. * * * It is assumed, "from the number of the volumes, that it has the character of a National Library, "and yet it is commonly, and technically, merely a Parliamentary Library. Now, "our selection of books is far too great to be considered a Parliamentary "Library, which should be a collection of works to assist members of Parliament to "perform their duties intelligently—books of reference, books containing all the

"information necessary for legislators; that is the idea in England, where the Parliamentary Library, which is used by the two Houses, the House of Peers and the House of Commons, is one distinctly of reference. * * * * We will have to face that subject very soon. * * * * Perhaps the Library Committee will take up that question, because we ought really to have—the Dominion of Canada ought to have—a National Library."

In view of the prospective change indicated in the above remarks of the Right Hon. Premier, and without wishing to anticipate the action of Parliament in this matter, I beg respectfully that some much needed changes be introduced in the internal economy of the Library, to pave the way for such reorganization of this Department as may be determined upon. It would be premature to lay before Parliament the details of the scheme, but I may, however, say that one of these changes should afford more time to the staff to obtain a knowledge of the works contained in the different sections entrusted to their care.

A list of donations received since last Session is annexed to this report, and also a list of Canadian works deposited under the Copyright Act.

The number of volumes in the Library last year was estimated at 107,500. Since then the number has increased to about 111,200.

The supplementary index to the Catalogue will be issued next week.

All which is respectfully submitted.

A. D. DECELLES,
Acting Librarian.
